Hard News:
R: what's being said is that it's above love: Lord, make me an instrument of thy peace
- Not happy news, yet good things also happening.

Egypt: • There is civil war in Egypt and has to do with the failed policies of this administration – the overall story of why V Plame is still fair game, and Scooter Libby is still free, and B Manning has been given 99 years
• John McCain and Lindsay Graham caused something to happen in Egypt
Talked to Mr X – Mohammad El Baradi is one of the ones who can bring some understanding to the picture;
• at this particular time on the planet with the energies that are flooding in, it is no accident that Egypt is in turmoil – this presents an opportunity for serendipity to happen – trouble in Giza but an opportunity for the seed pods on the capstone to be released.
T: a millenial woman – came on France 24 Hour News, am – came on with Eduardo Aquy – part of international affairs of France TV
• He has not seen much reaction from France, but Germany is calling it a dangerous situation
• EU concerned about the death toll and # of injured.- situation deteriorating – 56 Coptic churches burnt to the ground – **not getting on western news** that the Muslim Brotherhood are violent, and that they have ammunition and weapons
• Muslim Brotherhood are extremely violent: burnt down the churches; 43 of the Egyptian police; killed their own brothers who are not in alignment with their extreme right wing views.

R: asks for prayers for James Twyman and Tiara Kumara of Children of the sun who are in the region

T: • Democracy Now's reporter is checking out the number of dead – not as many as the Islamic B'hood says
Marie Ange Barbary: there are not as many dead as the Muslim B'hood say; they also present themselves as the victims – they have been very violent
Eduardo: Where is the country going? Could not the gov't done things in a different way?
MAB: The gov't has been saying they will do something about the increasing violence - for the last 40 days, the MB has been taking arms and inciting violence
• Muhammed El Baradi and the Egyptian activists and Egyptian youth were the only ones calling for non-violence and they are being blamed for what is going on.
• El Baradi was the only one who could have gotten them out of this situation and he has resigned: should have been the President
Eduardo: none the less, the gov't decides how they will go about it; they said they would do it softly, surround the areas and not let people in – why did they do this?
MAB: surprised about the question: sounds as if the MB are pacificists and THEY ARE NOT!
• The gov't is dealing with the situation yet the MB are seeking sympathy every day – as they stop asking for things which are impossible – Morsi is not coming back; asking for a safe exit for their leaders; they have to admit that 33 million people have spoken
• yet elections are not for them to stay in power and do what they want for a 4 year period: the first thing Morsi did was say his mandate was the one that mattered – this is not what he was elected for
Eduardo: What did Morsi gov't go wrong?
MAB: ignored the constitution – made it only for the M B'hood; taking all the powers away form the people ignoring the assembly and the constitutional committee – they ignored all of us!
T: this is exactly what the Republicans are doing in the US: MB are the extreme right wing in Egypt.
Eduardo; asks about the role of the international community?
MAB: • the foreign gov'ts have no idea of how Egyptian society functions – we know very well that the aid programs are about submitting our sovereignty to outside countries – dignity was the 4th demand of the constitutional discussions
• Egyptian military has lots of money of its own; it is the American gov't that wants to be here through the military – Egyptian people are growing up and know that the aid is
Eduardo: on one hand you are anti Morsi; on the other you think aid should be cut to Egyptian military
MAB: I am a pro-revolutionary, not a pro-democracy – these are not the same - thinks it is the American gov't that wants to be here via the Egyptian military
T: a stunning insight that has not been heard anywhere else – from a 25 year old – maybe!

R: Randi Rhodes had Howard Dean, former Gov't of Vermont; she linked him up with the private, foreign accounts that he had in El Salvador – means he is as guilty as Mitt Romney
- RR called him out and told him not to come on her show and lie through his teeth!
- Howard Dean was on Abby martin's Breaking the Set on Aug 14 and backed up Hillary to the hilt

Baghdad: 55 more people dead; this is being carried out by equipment etc from the US cabal

Caller: question about accounts being zeroed out – July 1st; he is suspicious
T: Good to be suspicious – has to do with the Vatican – it had its edict out on July 1st, and then July 11th the apostolic letter went out that Bernanke would resign on Sept 1st, Janet N of Homeland Security; the people world wide who are attorneys, gov't officials, all who are under the Vatican curia will be stripped of their immunity
- Yet the higher echelons of the Vatican and the Illuminati still think they are in charge, but they are not.
  - There are members of the Ashtar Command who have been in the Siberian Gulags for over a 100 years and they get to help with the break-up of the Illuminaiti
  - the Freedom Club saying they will pay out on Sept 1 – **NO!**
  - Things are happening because we are not arresting the proper characters: they want to see if people will take the money and not worry about their sovereignty or anyone else on the planet:not the way it will happen.
- There is another People's trust thing connected with another entity: they are asking people to give out their information and the billionaires will give you your money – **DO NOT DO THIS!**
  This is a challenge at the moment, as people are hurting - yet we cannot take blood money!

R: this has to do with Beloved Ascended master St Germain who will complete this story – yet until peace is declared, how can any of this happen? (1) Arrests; (2) then Dep't of Peace; (3) NESARA
- let's stay aligned – get into the emerald and violet rays - will do more work on the weekend on this

Dr Richard Olree: has written about **Minerals for the Genetic Codes**;
- has so much knowledge about how minerals affect the soil, people, etc
- Begins with a story – met a young Amish man who gave him a bottle of pills that are supposed to straighten out his genes – from a MLM company: over priced, over sold, and probably very little help –
  Dr Richard realized people needed lots of information; took him several tries until he found the level of writing that would engage people and help them to understand.
- The result is Amishman's Handy Guide to Minerals, Vitamins and Food Supplements

- He is a chiropractor – Ch 1 is about pinched nerves, etc; Ch 2 is about water; Ch 3 is about immunity & bacteria;
  This book is the first time he has ever seen such an approach
- #1 – the body is 96% water – so we need clean water – takes 20 units of alkalinity to offset 1 unit of acidity
- Talks at great length about the ignorance among people when it comes to vitamins and minerals

- when iodine was added to salt when Iodized Salt was first created and sold, aluminium was included in the process; the aluminium in the table salts stuck to the cells and as the brain could no longer excrete the aluminium, the result is Alzheimer's! Is affecting many of the older generation.

- In response to the question about what minerals we should be having if we cannot have individual testing?
  As per his book, Minerals for Tumour Suppressing Genes, these are the ones we need
    - Iodine, magnesium, selenium and boron + Vit B 3
  Tells where he gets the components of his product

Name of the product: Dr Olree's Grand Unified Mineral Complex
- His goal is to keep as many people as possible cancer free, as cancer is up there with heart disease as a killer

- **989 – 742-2561 and ask for Suzy;** he has flouride free everything
  - This is the product he gets people to take – sells it all over the world!
    - Has a huge volume of product in Africa – doing a Quality of Life study in Zambia

• How many? 1-2 a day for the rest of your life?
    • He starts at 4 am and goes to 9/10 at night – will take 2-3 a day
    • Depends on weight and level of activity
• Fatty tumours do not make people sick; it just means they haven't processed fat very well – have to get off GMO stuff, particularly soybean and corn oil
    Conventional corn has over 6000 parts per million; the GMO has 6 parts – toxic intestinal stuffing

• Talks about Fukishima: far worse then Chernobyl
    • the blue fins are passing the radiation through the whole food chain
    • the sea lions dying on the coast of California
    • so are the polar bears because now the seals are easy prey
• man does not have the capacity to stop what he has started! Will take lots of prayer

MR: will also ask our star brothers and sisters to help with the cleanup
    Iodine, Boron, Selenium and Chaga which eliminates
    Strontium and Cesium are other problems -

CONTACT INFORMATION: www.Emineral.info is the website; 989 -742-2561 is the phone number

NOTE: Be sure and listen to this discussion again; it is very complex and the notes do not do it justice.

Cathy: has been listening to Dr Kathryn May – close to Anne de Hart of the Hollow Earth network; she is now putting out lots of channeled information – really enjoys what she hears from Kathryn May

MR: thanks all donors who are helping support these calls.

More Hard News

R: Michael Hasting was killed because he was going to reveal John Brennan, head of CIA -
    James Clapper lied outright in front of Congress; so did a Mr Anderson
    Brennan used to be part of bush Jr's torture campaign – water boarding etc

T: the underbelly of the past is being revealed!

T: Rachel did a story last week about 3 sites in the US which have nuclear tipped ICBMs
    • site in Minot, South Dakota maintains about 450 nuclear tipped ICBMs; also sites in Great Falls, Montana & Cheyenne, Wyoming
    • Soviet Union no longer exists, but US never got rid of those things:the US built them by the thousands

Caller: born in North Dakota; the farm taken away from him also has those giant air bombs
    • Minot is 100 miles west of where his farm was; the land was taken to locate those bombs

T: ultimately, NESARA ends all of this, and all these things will be dismantled; he will get his farm back, and the radiation mess will be cleaned up.

More of Rachel:
    • the nuclear weapons have to be cleaned, maintained, taken around the country now and then, so there is much activity around this
    • the Weapons group were tasked to move the missiles to Louisiana and the live part of the missiles were to have been replaced by dummy weights – they did not follow the procedures they were supposed to be trained to do [2007]
    • They loaded 6 missiles on the airplane to Louisiana with live ammo – each war head was equal to several Nagasaki bombs! The plane sat for 9 hours on the base without a guard
    • Several higher officers as well as lower personnel were fired.
    • Maelstrom Air Force Base in Great Falls failed their nuclear handling inspection 3 times; Minot passed once and has failed again this year – got a D! 17 officers were removed from Launch Control Duty
    • This week, it is Mason, Montana that is failing

Audio: Thom Hartmann – short news clips from August 15th

- a short tape on the fact that the Cayman Islands are to cooperate with the US tax authorities and let the US know when wealthy Americans have more than $50,000 in an off shore account. If they don't, they will lose 30% withholding tax which will freeze them out of US financial markets. [Tax Compliance Act takes effect July, 2014]

- AJ Eric Holder filed a case against the Texan Republican re-districting activities; the defence is that the law is not based on race, but are just openly partisan – to increase the Republican party's electoral prospects at the expense of Democrats.

- Federal Gov't will more than likely help people pay for health care if planning to buy an individual family health insurance plan. There will be subsidies for various plans. This is different news that what the Republicans put out

- Sen Durbin and Sen diane Feinstein says it costs about $500 million a year to maintain Gitmo which is is $2.6 million / detaiinee: 35 x the amount that is spent on a convicted terrorist in a super max in Colorado, so they want those from Gitmo put them in a super max on the mainland

- Washington State / Seattle – Hempfest a pot festival with the cops handing out 1000 bags of Dorritos explaining the dos and don't related to the new law legalizing pot.

T: today is the 44th anniversary of Woodstock; we also have the 44th president

- Yesterday, 50th anni of Blackout Tuesday – all along the east coast - off for 48 solid hours; Bill Cosby was very funny about it. Rachel did a good job on this story too. IT was 2 tree branches that got caught in 2 wires, and the wires connected - 50 million people lost their power

T: talks of the new species of mammal in from the cloud forests of Colombia – the olingito – smallest member of the racoon family - the size of a house cat, face of a raccoon, weights about 1 kg – there has been one in Washington Zoo, but no one knew what it was - a sweet face

MR: asking people to call in or write with information about what kinds of guests we would like to hear

Closing: Cathy
