SIX DIMENSIONS OF KNOWLEDGE MANAGEMENT

Should viewing "KM 2.0 Basic Visual Map" <http://bit.ly/bTzgUz>

Six (6) dimensions of Human System Biology-based KM (HSBKM) model framework. Source : http://mobeeknowledge.ning.com @2010 *Md Santo*

1. KM as Object : (Somatic or bio-physical aspect of KM)

~ Human Organ Systems

1.1. KM is an access mechanism that can be used across any management tool type in which each with their specific functions to be orchestrated under KM's consciousness (in Bahasa Indonesia : "tempatnya *RASA"*)

~ Human Brain

1.1. KM's learning loci or hub (in Bahasa Indonesia : "tempatnya *AKAL"*)

~ Human Genomic DNA

1.1. KM's plan regarding their Vision-Mission-Goals-Objectives-Strategic and Action Planning (in Bahasa Indonesia : "tempatnya *KEHENDAK"*)

2. KM as Subject : (Psychic or living aspect / Consciousness of KM)

~ Peripheral Nerve Systems / Human Senses creating Knowing Tools as Knowledge with Lower Consciousness (KLC)

2.1. KM Tools (coded as 4.1) valued as KLC (weighted score 1)

KM TOOLS component covering IT/ICT, Web 1.0 and 2.0 incl. Social Media platforms. (Referred to "*Machine or Techno Learning*" or to Category 7.0 (PCF – APQC**) as corporate orientation). KM Tools as 'Corporate Senses' be similar to human senses as Knowledge with Lower Consciousness (KLC). We give weighted score 1 as value of KLC

~ Central Nerve System / Human Mind Brain creating Knowing Tools as Knowledge with Medium Consciousness (KMC)

2.1. KM Process Framework (coded as 3.4) valued as KMC (weighted score 3)

KM PROCESS FRAMEWORK component covering Human (Tacit) Mind incl. Web 3.0 and/or Semantic Web including Artificial Intelligence (AI) (Referred to "*Individual Learning*" or to Category 12.0 (PCF – APQC**) as corporate orientation). KM Process Framework as 'Corporate Mind Brain' be similar to human mind brain (personal learning and education) as Knowledge with Medium Consciousness (KMC). We give weighted score 3 as value of KMC

~ Consciousness Genomic DNA as Knowledge with Higher Consciousness (KHC)

2.1. KM Standards (Culture and Value) (coded as 1.0., 2.0., 3.1., 3.2., 3.3., 4.2. 5.1. and 5.2) valued as KHC (weighted score 5)

KM STANDARDS (Culture and Value) component covering Codified / Explicit Knowledge, Human Social Behavior, Organizational Culture (Learning Organization. (Referred to "*Organizational Learning*" or to Category 1.0 – 2.0 – 3.0 – 4.0 – 5.0 – 6.0 – 8.0 – 9.0 – 10.0 – 11.0 (PCF-APQC**) as corporate orientation). KM Standards (Culture and Value) as 'Corporate Consciousness DNA' be similar to human consciousness DNA (collective learning and education) as Knowledge with Higher Consciousness (KHC). We give weighted score 5 as value of KHC

** Referring to PCF - APQC = Process Classification Framework - American Productivity and Quality Center as taxonomy of cross functional business process comprising of 12 Categories :
1.0 Develop Vision and Strategy
2.0 Develop and Manage Products and Services
3.0 Market and Sell Products and Services
4.0 Deliver Products and Services
5.0 Manage Customer Service
6.0 Develop and Manage Human Capital
7.0 Manage Information Technology
8.0 Manage Financial Resources
9.0 Acquire, Construct, and Manage Property
10.0 Manage Environmental Health and Safety (EHS)
11.0 Manage External Relationships
12.0 Manage Knowledge, Improvement, and Change

"WE ARE KM-REGULATED BY NATURE vice-versa BY NATURE WE ARE KM MODEL" http://bit.ly/cSwUIx
