DOS-ST/T240 DOSING UNIT FOR MOULDS (moulds size 275x135/175 mm.)

The DOS-ST dosing device is a useful accessory for tempering machines.
It is used for dosing the correct quantity of chocolate inside the moulds; thanks to an electronic card controlled by a foot- pedal, it is possible to adjust the "dripping" time.
It is possible to preset the number of drips between 1 and 9.
The dosing plate can be easily removed for cleaning and replacement.

DOS-ST/T240 DOSING UNIT FOR MOULDS _____ € 740,00
DOSING PLATE _____ € 260,00

Shipping costs CFR Manila _____ € 270,00
