KNOWLEDGE 'R' US

By : Dr Md Santo – http://mobeeknowledge.ning.com

- The nature of Homo Sapiens comprising three knowing tools components. The first is Peripheral Nerve System or Human Senses including Autonomic Nerve System representing Human Knowledge with Lower Consciousness (KLC). The second is Central Nerve System or Mind Brain representing Human Knowledge with Medium Consciousness (KMC). The third is Human Consciousness DNA representing Human Knowledge with Higher Consciousness (KHC). If it is postulated that nature of Knowledge Management (KM) derived from the nature of Human or we could say Human System Biology (HSB)-based KM, then we will observe that *KM Tools* mainly generated from KLC, *KM Process Framework* generated from KMC as well as *KM Standards* (culture and value management) generated from KHC respectively (http://mobeeknowledge.ning.com/forum/topics/brief-description-of-our)

- Consequently Knowledge which is located at the domain of DIKW continuum model as commonly believed has a narrow meaning. Hence, I suggested to separate DI with KW considering each is an entity into DI-KW model to give emphasize the paradigm I've just mentioned above (http://mobeeknowledge.ning.com/forum/topics/blooms-taxonomy-knowledge-and)

- Therefore, Knowledge Management (KM) essentially is not management technique but behaving more as an *access mechanisms that can be used across any management tool type* such as Total Quality Management, Learning Organization, Benchmarking, Process Classification Framework, Business Process Reengineering, Balanced Scorecard, Business Intelligence including Social Media platforms etc. wherein each with their specific functions to be orchestrated under KM's consciousness. So, here we put KM in incredibly broad meaning as subject with higher level than any other management tool type which is treated only as object (http://www.scribd.com/doc/28696847/How-to-re-postulating-the-paradigm-of-Knowledge-and-Knowledge-Management) From eastern concept, Knowledge with broad meaning also known as Noor or "Light"

- I use the phrase "KNOWLEDGE 'R' US" as the expression of the paradigm of K as well as KM just mentioned above wherein human knowledge from beginning of our life represent human consciousness as well as our personality functioning to lead us in our journey through the path of Physical Realities – Data – Information – Knowledge (narrow meaning) – Wisdom and above . In eastern people beyond Wisdom frequently called as "Ma'rifat"

It is basically derived from our "DI-KW model" and "Human System Biology-based KM"

2. How to re-postulating the paradigm of Knowledge and Knowledge Management - http://www.scribd.com/doc/28696847/How-to-re-postulating-the-paradigm-of-Knowledge-and-Knowledge-Management : To understand why until presently we could find so many KM definition (it's about 60 – 70 definitions!) in the literatures as well as why the so called Scientific Knowledge frequently not go well with scientific principles, we should at least knowing the shifting paradigm of Knowledge and KM postulate. The phenomenon of that shifting paradigm driven by the non linearity – turbulence – exponential changes of our non physical ecosystem all together with phenomenon of convergence among web 2.0 – ICT – workflow system. The new postulate of K and KM paradigm will definitely shaping our next science and technology

8. Towards Human System Biology-based Next Gen KM - http://www.scribd.com/doc/25765257/Towards-Human-System-Biology-based-Next-Gen-KM : Almost all of us in responding the discussion about the future of Knowledge Management (KM) never mentioning Consciousness as human factor having strong relationship with KM. What I mean, in my view, there is strong relationship exist between Human System Biology (HSB) representing human consciousness with KM System Development (KMSD) representing Knowledge itself. The article guiding us how to anticipate through new paradigm of Knowledge towards next generation KM by getting us into the needed steps namely Re-postulating the Knowledge – Hybrid Definition of Knowledge – Human Enlighment Process-based KM Definition – Five Basic Implications of New Paradigm of Knowledge – Taxonomy & Metadata Management in KM – KM System Development map derived from Human System Biology respectively

11. KM Metrics to Locate Your Achievements in the Universe - http://www.scribd.com/doc/24808191/KM-Metrics-to-Locate-Your-Achievements-in-the-Universe : Our Mission is : "To Boldly Go Where Some People Have Gone Before". Not : "To Boldly Go Where No Man Has Gone Before" ("Star Trek" Mission : Space - The Human Final Frontier) Doing with Knowledge Management (KM) Metrics means to evaluate quantitatively as well as qualitatively all the KM or KM related efforts. Putting KM in the universe continuum deriving from broadened Information Theory will valid also as KM in practice. Highly recommended link as your refererence : http://mobeeknowledge.ning.com/forum/topics/we-are-the-knowledge-hybrid - WE ARE THE KNOWLEDGE : HYBRID DEFINITION OF KNOWLEDGE Your comment(s) will be appreciated

12. You Are the Knowledge - Hybrid Definition of Knowledge - http://www.scribd.com/doc/24439826/You-Are-the-Knowledge-Hybrid-Definition-of-Knowledge : Taking into consideration from the Scholar (Western) view, the Theological (Eastern) concept, as well as the Emergent property of Complex System acting as bridging between 'Western' thinking and 'Eastern' thinking, we come up with 'HYBRID DEFINITION OF KNOWLEDGE'. We as MOBEE KNOWLEDGE CoP – KM 2.0 have released also our own version of KM Definition we called it as "Human Enlightment Process-based KM Definition"

13. The Physics of Knowledge - http://www.scribd.com/doc/24339159/The-Physics-of-Knowledge : Inspired from the book of Murray Gell-Mann, a Nobel Laureate in Physics : "The Quark and the Jaguar" , herewith is a matrix diagram describing THE PHYSICS OF KNOWLEDGE (from original article : FROM QUARK TO KNOWLEDGE : TOWARDS BASIC PARADIGM OF NEXT GENERATION KNOWLEDGE MANAGEMENT- http://mobeeknowledge.ning.com/forum/topics/from-quark-to-knowledge?xg_source=activity). The aims of this effort is to "demystifying Knowledge" by putting Knowledge and beyond in the continuum of physical realities to biological life in the universe as stated by Murray Gell-Mann in his book "The Quark and the Jaguar". It means also this effort is to "atomizing the view of Knowledge" or "The Physics of Knowledge". The expected outcome is to anticipate in searching next generation Knowledge Management (KM)

14. WEB-BASED KNOWLEDGE MANAGEMENT 2.0 MAP - http://www.scribd.com/doc/24331515/WEB-BASED-KNOWLEDGE-MANAGEMENT-2-0-MAP : The diagram map representing a web-based KM 2.0 diagram map from PT Mobee Indonesia as a corporate conducting their KM in practice. Needless to say, surely KM is an access mechanism that can be used across any management tool type as I've mentioned before (from : http://mobeeknowledge.ning.com).
