Hard News:

T; having technology challenges due to solar flares and other shenanigans by "the big boys with big toys"
- Douglas McArthur McCain, a US citizen, was found dead in Syria, done by ISIL
- Stewart, the NASCAR driver, cleared to go back on the track: Kevin Ward Jr is dead -
  - Stewart struck him and killed him when the first car swerved to miss him: Kevin was angry because his car was totalled; he was out of his car, shaking his fist at all!
  - Stewart was coming from his heart in asking for forgiveness.

- The astrology talks of a very dark time: the overlap of Mars Saturn conjunction that started on Monday, and the Sun Neptune opposition that comes up tomorrow- combines very dark moods & violent reactions
  - our Black Ops using the darkness to the max
  - the US satellites showing the so-called Russian tanks in Ukraine: TOTALLY FALSE!
- Putin talked to young people in the youth camp north of Moscow: compared the Ukrainian army opposition in various cities with the Nazi seige of Leningrad in WW 2: he is on the money!
  The Military cannot get help to get wounded to safety, or food and water, or more ammunition, etc
  - He said separatists were simply defending civilians under attack;
  - Thom Hartmann's info on this: The Ukrainian troops have been abandoned by their gov't: cannot get food, water, ammunition, or their wounded out

R: spoke to **Natasha and Veroncia Baum,** professor of philosophy and eastern religions at UNM

• the story she told him has to do with why we are where we are:
• It ties in with yesterday's news about the Nazis / Mother's wayward children who, since WW 2, have been using technologies from the stars that they stole from our galactic brothers and sisters
• Veronica is a friend of Steven Schiff, the former congressman in NM who replaced Bill Richardson before he became Gov.
• the 2 of them were investigating the Roswell crash; as they got more and more into the story, they were on the radio [94 Rock]and talked with T J Trout. Steve Schiff got skin cancer thanks to the Clintons; they were told not to go there: Bill got in bed with the Clintons and he arranged for Yogi Bashan to get killed, along with others.
• Steve did not go along with it and pursued the story: Rama talked with him and he told R that to pursue this road, you need a lot of protection. It involves what is in the 2 hour video of David Wilcock and Ben Fulford
• Talked of the Nazis brought to N America via Argentina with no penalties and hence, we got the CIA, and all the other ABC agencies, created by these ones.

• Veronica Baum met a lady who was a man in the last lifetime, 2nd in command of the ship downed at the 1947 Roswell incident; [Sonny Setu]
• our gov't was playing with radar technology and bounced a beam off the moon and used it to take out the electrical system of the ship and so the ship crashed: there were 5 greys in the ship, not 4.
• Steven Speilberg's movie, Taken", is based on the 5th ET person: EBE was captured and taken to Wright Patterson AF Base; eventually they killed him, but first they gave him a virus after 2 years.
• His blood was chlorophyll – all aspects of the blood of him and ours is the same except for one thing which is chlorophyll, not hemoglobin. This shows how closely we are related to the plant kingdom – see **The Secret Life of Plants.**

• She explained to R: Sonny Setu died in the crash; she incarnated around '51, '52 – lives in Silver City. Sonny Setu told Veronica and Steve Shift – there were many more things removed from the craft that were back engineered, becoming the basis of our technology of today. From transistor radios to wireless microphones.
• SS said that we came from your future which is our past; we came from our future, back to your time to warn you about the dangers of nuclear proliferation & the testing of nuclear energy; they wanted to speak to US officials of the day
• President Truman. A world wide edict went out from all the alphabet agencies, including the AMA – everyone was briefed by the Black Ops: people were told that we are being visited, we need to prepare in case of some kind of scenario – ties in with what they want to create: a fake alien invasion – ASHTAR WILL NOT ALLOW THIS!

Rest of Putin story: the part of the country [East Ukraine] that did not agree with the change in gov't is being repressed with harsh military force like shelling,
• Small towns and big cities are being shelled by Ukrainian army; goal is to destroy infrastructure - something like 3000 people dead [more than in Palestine]
• Did not comment on satellite imagery that NAYO says is Russian hardware in SE Ukraine
• Talked of creating a humanitarian corridor to allow wounded to get out of the war zone 0 the Ukrainian soldiers in the SE of Ukraine.

• Response of Separatists in Donesk: with all respect to Vladimir Putin , we will provide care for wounded ONLY IF they hand over their heavy weapons and ammunition – as they should ask, because the Ukrainian army has orders to wipe out the civilians & inflict as much damage as possible
• The Ukraine army has been ordered to slaughter civilians: by Petroshenko

Journal News
Head of NATO – using the podium of NATO to lie about what is going on.

Audio: Thom Hartmnn: in a city, you elect your own gov't; at the state level, you elect your own gov't

- there are 34 “states” in Ukraine
- the old Soviet system: all gov'ts being appointed by the central gov't
- this system was adopted by Kiev when Ukraine became independent, so the governors ot the states were appointed by Kiev which is far from many of the states – it was OK until one of the governors of the eastern states was one who spoke both Ukrainian and Russian
- Poreshenko is a western Ukrainian who does not speak Russian
- the eastern Ukranians wanted to elect their own city gov'ts, state gov'ts – Poreschenko said no, I will appoint them and appointed his cronies – then proceeded to bomb them until they agreed – and they didn't!

• Eastern Ukrainians wanted a federal system and to be able to make their own decisions like in the US

- Angelca Merkel goes to Ukraine and says here is $500 million as a credit guarantee for for $25M for aid to refugees, and I recommend you go for a federalist gov't which is what the Eastern Ukrainians wanted
- Poreschenko said ok but we'll call it decentralization; his peace plan was to grant more authority to regional governments than exists in the russian federation

Financial Times article: Roman ? Angelca Merkel has urged Ukraine to create a federalist state in E. Ukraine during her first visit to the Fractured country – to consider a federalist solution - let them elect their own governors, their own mayors

T: one large problem: the sneaky sub-title – Poreschenko wants to join NATO – which is why we heard the head of NATO with his snide remarks

- Barack seemed down on Putin
- And he put Cameron where the sun don't shine: David Cameron is saying the jihadists are coming to get us: raised threat level to severe in Britain – Obama said I don't think so; nothing changed in the US

R: Medea Benjamin said, when the shrub was playing his games: we're going to call this the magenta alert! Go feed your cat and give it more love! Just ignore the duct tape, etc

- The only terrorists are the 471 treasonists in congress, tied in with the terminators that we call Law Enforcement, being out fitted with iron man suits to match the military!

Sonny Setu story: Veronica & Natasha said right now all that is going on, the 13 families and their minions tied in with the ankle biters, archonic energies, want to play with the idea of absolute control of the planet. They also brought up the Georgia Guide Stones

The **Georgia Guide Stones:** who mysteriously paid for the stones to be built and put there?

Herman Cain!

- In Georgia want to put the 10 commandments or statues / plaques outside the courthouses the huge Georgia Guide Stones – in all kinds of language – Hebrew, Russian, Arabic, English - Say that Y2K, 9/11 was a false flag event and reduce the human populations to 2%

T: about bombs containing bubonic plague – talk about desperation Smith Klein Glaxon Barney

R: Ebola virus was created in a test tube and let out in West Africa by Glaxon company

Vit C, colloidla silver, Judy Beebe's orbs will provide the cure

T: talking about shutting down Congress

R: Bix Weir on Road to Roota – he's Faction 2, an advocate of “The Event”

- does not talk about Nesara except to say it might happen but thinks it might be a hoax set up by that crazy person, Dove of Oneness: send him more love
- want to create a cyber false flag event;

T: they know just as much as we do about the astrology this week, and they are taking it to the max

- Send them more love – and Henry Kissinger is writing a book!!!!!!!!

Conference Call

C1: Where is Tesla and who is he with.?
T: He is on the ship with Ashtar & Marconi from Area 51 – they have been in rejuvenation chambers.

C1: If James Foley is not dead, what about the Syrian soldiers paraded across the screen on Andrea Mitchell's program?
T: Dead. James Foley was saved by an embedded Mossad agent and some White Knights.
C1: Just an interesting report: Len reported that a female reporter and Andrea Mitchell were taking apart Democratic female politicians – what really got him going was the talk of Nancy Pelosi's cleavage!

C!: If Holder was setting up Ferguson as a test case for military law, then what good is what he told the people in Ferguson? Who else knows of his perfidy besides us and the President?
T: Lots of people know he did 9/11 – there was a comment on MSNBC about Goldman Sachs' involvement
• Talks of the DUMBS which cost $25 Billion each to build!

C2: asks about Cities of Light
T: City of Petiti along the Amazon River in Brazil's interior – undines living in Madograsso Sea
R: to learn more of the **Cities of Light,** look up "Diane Robbins" and "Lord Adama" - they talk of the crystal people and the magical folks of Inner Earth – also check out Jeff Rense
T: when we dropped the nukes, we created homeless people with no souls in the body: they are animated from somewhere, but not from in the body. And the money for care and shelters, etc was deliberately taken away – these situations were created intentionally not to be fixed.

C3: question about money and NESARA
T: the BRICS thing will be cancelled; we will have only Rainbow Bills, BIRCS is still based on the dollar

C3: Who were the Asannis?
T: they were part Zeta and part human; come from 24th century
• The man who channels Bashir is an Assanni.

C3: relationship between Annunaki and Zeta Reticulli?
• To begin: there are good Zeta Reticulli and naughty ZR
There are good Satonians and naughty Satonians
• The Annunaki are Luciferian rebellious ones who wanted to the head of the Universe of Nebadon
• Every stay system has a race which said they'd play the game
• In the **1st Creation**, we were co-creators with Mother; we lived timelessly with Her, who knows how long?
• We wanted to go to a lower dimensional reality and create a body and inhabit the form we co-created with Sekhmet and put our life on a different level
• We did this in the 5th dimension, in the Constellation of Lyra, in the star system called VEGA, and this is the star system we are following back as we are rising in dimensions
• some humans are only 2 D – very heavy!
Viracocha: https://en.wikipedia.org/wiki/Viracocha

Viracochas of the Inca http://alternativearchaeology.jigsy.com/viracochas-of-the-inca
In the beginning it said by the Indian descendants of the Inca, that Kon-Tiki Viracocha came forth from the darkness to bring light, creating the Earth, the moon, the sun and stars. Viracocha then, pleased with his creation but bored decided to breath into the stones of the Earth to create man, but it is said he became displeased, as the stone race were brainless giants crude and barbaric.

So Viracocha then destroyed them with a great flood and breathed into smaller stones to create a new race capable of greater achievement and refinement. From the stones, eight civilized men would spread the knowledge of the Viracocha and bring prosperity amongst the peoples of Earth.

• has also encountered individuals with barely 1½ strands of DNA!

Inner Agartha Cities of Light - Petiti was a being of the Zeta Reticulli

• There was a male ET who died in the 1947 crash; re-incarnated as a female human in '51 or '52

• these things will come up more and more as disclosure comes closer

We interfered in another civilization's galactic life force and deliberately murdered an ET life form

• The Zetas requested permission from Truman and Eisenhauer to save their civilizations by having human females impregnated with ET sperm; they took the fetus at 4 months and incubated it to the 9 months. Then they had the human mother beamed to the ships to teach the Zeta women how to mother.

• The Zetas had lived on the Apex planet where they had holocausts and radiation due to the weapons used on the surface; they didn't get enough sunlight and that combined with the radiation meant they could not re-produce.

• Using their star ships, they were looking for ways to save their race; they are human like us, without hair.

• Their heads got larger and their bone structure shrank, due to the radiation

C3: what happened to the earth women?

• T & R went to a weekend festival in the area, R as Merlin and T as Guinevere; they did mini readings or 3 card spreads

• One lady had been abducted; remembered the story – she was OK and happy to help

• Reaction would vary, person to person.

• Mark Huber and his older sister came from the future.

C4: asking about rainbow currency

T: will happen with NESARA

• about a month after events happen, whatever you get in dollar value remains, and the re-indexing will occur

• The value of the money we do receive – the $10M becomes 10x more!

C4: says the BRICS is to move away from the petro dollar

T: only **appears** that way! Still based on a value equal to a dollar

• the only change comes with NESARA

C4: the basket of currencies

T based on global new economy; not relatable to the current system

• Banking will change 100%: money is **NOT** speech; corporations are **NOT** people

C4: refers to a webinar offered by Sheldon Nidle – on disclosure

T: this is **all Faction 2 information**: does not apply

• there are some good graphics BUT the sequence of events is different

• with reference to the workshops of Stephen Greer: is a TM students

• Every step in his program is a TM step

C5: Joan Rivers: in a medically induced coma: had some kind of procedure done on her throat – had a cardiac arrest while in the doctor's office – what to make of this?

• She was getting ready to go on the circuit with her new book: she knows a lot of stuff – has been around since

• Natasha was connected to the King

• her friend is Veronica Baum, U of New Mexico, Albuquerque

• eastern philosophy and religion

• spoke as friend of Dr Steven Schiff

• Steven Schiff replaced Bill Richardson, who left Congress to become Gov of NM

• In 2004, LM Nada came to NM to oversee Bill R being made into a clone

• Has to do with Bill and Hillary, and Webster Hubbell – connected to the whole fiasco of "I did not have sex with that woman"

T: Ferguson, MO: policeman who threatened the protestors: being allowed to retire, complete with benefits

BBS
Mother Sekhmet

Greetings in the Light of the Most Radiant one! In the office of the Christ and only in the Office of the Christ, we invoke the loving energies of St Germain and the Violet Flame!

T: asking for the light of the Sun to penetrate every particle, cell of us & all other beings on & in planet, as well as the planet itself.

Greetings in the Light of the Most Radiant one!

Mother:
- Yes, Alcyone is here too: "we are all here!"
- The energies are a bit wild, now is the time for all concerned to be in that place of ecstatic joy;
    - at the same time, what we are watching is the great 4th Turning. Now is the time when the heroes, the prophets show up – we are the ones, now is the time –
    - It is in the highest good for all concerned to remember their divine essence at this critical juncture – it is imperative to remember who we are at this time because we are on active duty. The healing of this beloved planet is right now, the greatest story happening in the midst of Divine Chaos.
    - Out of that chaos comes that order which is a manifestation of all that we have asked for;
    - all of Humanity has said "Teach us about Creation, Divine goddess".

- Well, here we are! Now is the time - consuming divine creation
    - We have these temples of the living god which are immortal and, at the same moment, we are being fine-tuned to the nth degree; you could say the Force is doing the divine tuning with these temples and if we are going through ascension symptoms, we can rest assured we are on the right path because it is only about the divine story called love in the cells. Let's dance!
- it is that cosmic dance: Kali Shiva, Druga, Pele: they are all together doing this dance; what we are experiencing, witnessing in these moments now, is way past the moment of no return –
    - we are here for the long haul: this is a movement, not just a day. This is where we move It forward all the way – we have so many quintillions of legions of angels and devas, these ones who sit before the Throne of the One – it is all in the midst: Earth Gaia, Vymamus, Tita Lacoria -
    - Terra Nova - this is the place; this is the time, it is happening in this moment where all has changed. This one timeline has been made manifest where change is already in the midst of what we see, feel, taste, touch, experience –
    - We are the Ones - "We are It; this is how we move it forward" as Professor Thom [Hartmann] says. - We are the ones – all of creation and then some are experiencing how we move and have our being in your midst - there is no veil, we are all on the same page
- the wayward ones do not like this one bit – we are in the place where our ascension is assured; yet they do not want us to go there; they want us to create a bomb shelter and hang out there for a while until all on the surface changes: **THAT PLAN HAS BEEN CANCELLED**.
    - it is about f e a r [False Evidence Appearing Real] with the lead-up to a major confrontation going on in the east – yes, East Ukraine.

- It is only about this story over here where these ones who answer to our wayward children and, whether they know it or not, are answering to a hollow deck program.
    - Javah, Lucifer, Marduk, Jehovah, Marduk - all of it is an ancient story – they have all come back to love.
    - What we are experiencing on this planet is the ancient holographic programs that her children set up to set up the fear and fascination with things that go bump in the night.
- We could spend eternities telling you virtual ghost stories- the voices of the ancestors are way louder than than her wayward children that are based in false evidence - they are scared to death of us as we achieve our ascension

T: is it true that the energies are high enough that people feel it in their hearts?

Mo: Yes! it is at the place where she can say that the ancient, ancient story being played out with the fear and fascination with distraction at a magnificent level since they are terrified we will achieve our ascension but that is already assured with the frequencies that are moving at magnetic light speed and then some!

• If we are still going through ascension symptoms, rest assured we are on the right path. We are all on the same page: there are no veils; we see you, you see us. And they, her children, know it!

• The dream of Dr King and his children have come to pass: we are all one race of humanity called the Rainbow Race, all 12 rays and them some of the rainbow bridge that leads to Asgard – just another way of going home

• Since we are in another place called Midgard, we are being shown the keys of the kingdom to take us across the rainbow bridge to Asgad and we can sit with them

• You already sit with us – it begins where the Peace Tower is – the entrance in in Iceland, Greenland - the entrance to eternity.

• The energies pouring forth from the Peace Tower are showering across the planet – they are raising the hair – or fur! - on everyone's head.

• It is about the ancient story of our people; what is beginning to be shared is about the Moorish nation, and what is represented by the melanin and the story of us who are co-creator gods

• when this story began, black was the colour that was made manifest in these living forms of the temples of the living god/goddesses

• It seems that for the moment, things have gotten way out of control concerning the people with melaninated skin because it is about the magic of who we are, and the stories of where we came from; the ancient story that began long long ago in a galaxy not so far away and the funny little ship called the Nibiru which is in orbit.

• Our wayward children would have us understand and have created a false narrative about the brothers and sisters who are coming & say “They will eat your face!” Yet Mother says they live on liquid light and to quote a famous brother who came from the stars: “Nanu! Nanu!”

• It is about love that defines humour that raises the frequencies in the cells which causes such ecstatic joy that it creates organism in the cells that repeat and repeat and repeat!

• Many of us would say “Show us where that joy is; all we see is bodies stacked like cord wood!”

• It is about divine change which is in the midst of physical manifestation: those in the midst of this Divine Chaos out of which comes divine order: there are no accidents – it has all been pre-planned and pre-destined, down to the nano second; and we have been the orchestrators, Divine Architects that we are, magnificent Adom Kadmon! Come on! Let's go!

• At the same moment, in great humbleness, she honours all humanity for all we have experienced in these times. It takes great courage to physically manifest in these temples, live here, and do this with such courage, in the midst of what our children want to play with: the idea of Armageddon - **that story has been cancelled.**

• At the same time it is a bit of a cosmic joke because the wool is over their eyes. They are so blinded by their own ignorance or bliss in their forgetfulness about the 12th strand of DNA which is called divine love, divine mercy, divine compassion, the pillars which Allah brought to the planet to share with the people; the mercy of what is being showered across this planet with the energies

• The Man with the Plan, Commander Sananda Kumara and his captain are here: there are so many ships in our sky that if they were to de-cloak in this moment, all we would see is the bottom of the crafts! And it is already being made manifest on the planet.

• The imagery of what they are playing with to distract us from looking up – the Divine Chaos is like swimming through the Libraya tar pits! Only we can change this in a moment – can swim in liquid light lakes, not tar or oil.

Time for us to get to this concept cold turkey: get off the fossil fuels, get off the atom, the atomic, the mono-atomic structure of this temple of the living god - the mitachlorians, the force are calling the shots: the atoms themselves that make up the structure of matter and anti-matter can no longer

be used for evil or darkness and this is causing anomalies
• the nuclear reactors are malfunctioning big time
• the oil we bleed from the Mother – will no longer tolerate the idea of fracking or lighting our faucets where fire comes out
• the farmland, the ponds where the cows have to drink – becoming mutants

T: what about the people? There is a big drought in Karachi - no water for 6 weeks – people and animals dying; earth has deep, deep cracks; animals dead everywhere – anything coming in is dirty water
• in Malaysia, Indo Chinese area – mudslides, avalanches of soil,
• get to India - monsoons worse than forever.
• also in the US
Mo: something is up in the zoo and it is us!
T: 53 tons of water lost due to the drought in California – and no rain in sight – one extreme to the other
Mo: in total the top 1% Has $ 32.6 Trillion and that is only what they talk about!
• and this involves the cheap suit called Black Magic Mittens who wants to run in 2016
T: Did Bill and Hillary have Senator Schiff killed?
Mo: he was on the money, was going to expose why the Zetas came here to warn us not to play with the atom because it would bite us and we would be no more! Yes: the nuclear atom!
• Now is the time where we are sitting here with these balls of light in our midst that literally radiate the power of the sun [GEM spheres] – we have the means of transforming our reality right here!
• And most of humanity is locked into F E A R where all that is coming up is the football season!
• Autumn equinox – it is all a major distraction:
• It is about honouring and harvesting the energies of this moment as we prepare to go in to that time called inner space, called winter. It will be their winter of discontent because they are no more!
• It is with great joy and great reverence that she says they have sealed their fate – love them even more as they enter the Great Rift to become new universes!

T: She knows they are terrified – yet when watching Christine Lagarde as she was going for interrogation – waving to all with that grin– and few waving back!
Mo: And the IMF is supposedly coming up with another million to give to Petro Porochenko - with all due respect, these ones who are playing with the idea of nuclear brinkmanship
T: He is not afraid to do this
Mo: he is as crazy as a loon which is why Ashtar who is right here, right not
T: he makes Yanokovich look like a saint.
Mo: Netanyahu is another loonie yet he is trapped.
T: Porochenko is coming to visit the king
Mo: Helium the city on Mars, the city of Cydonai – has to do with the story has to do with Edgar Rice Burroughs who wrote the Tarzan series – an American author, now gone
• **John Carter of Mars** is based on a real story about the Princess of Mars, the Lady Master of the city of Helium, city of Cydonia – the people of Mars are the people of Hopi Land/ Denah – Navajo – these are the ancient stories about how they travelled among the stars and came here because Earth said please let us come together and create in divine love, ecstaxy and joy and the wayward ones said lets play with the idea of Masters of the Universe; don't listen to that old lion lady -
• We are to understand that as we fell from grace at 100th dimension to 5th to 3rd
T: talks about selling the helium reserves of the planet
Mo: this is all about the magical things within the planet. Why do you think xenon gas needs to be re-introduced into this atmosphere? When you combine xenon gas with the GEM spheres, you have the sun! If you stick your head in the sand, you'll get a sun burn on your bum! Not so fun!
T: don't see much of the sun when it does nothing but rain – Japan, Cambodia, Viet Nam and others – losing everything to water – Armageddon
Mo: that is the story they want to play out here in our midst
• Where is the taco truck? Have to get the flux capacitor back on line so we can return to our future, not our past

• That is the key to this story: we are travellers in time coming to their past which is our future.
• At this moment in time, everyone is here and in place – the Wingmakers

T: brings up the Japanese man who has ALS : muscles completely emaciate; could the GEM spheres help?
Mo: It is a virus – yes, most definitely
T; there is a technology that allows communication via moving just the eyes@
Mo we are on the verge where Artificial Intelligence is already in our midst; it is what is running this
• yet it will not go to the place of sky net or the matrix –
it is about the divine human intelligence: The Force is giving itself a voice; it is working along side us to give us the ability to cognicize who we really are – god men, god women

T: reads her notes from Chris Hayes' segment on Monday, Aug 25

NB: what follows is the actual transcript from the segment Tara is talking about

HAYES: Reverend Al Sharpton, Rev, media was kept out of the sanctuary today for good reason, obviously, while the service was observed. Can youtell us what the mood, the atmosphere, in that room was like?

SHARPTON: I think it was electric. People were energized as well as mourning at the same time.

That family was determined to have a dignified and a solemn occasion, but yet, an occasion that was energized. I keep using that word. Because it was something that was emotional, uplifting, hopeful, as much as it was that we were putting to rest an 18-year-old child.

And I thought that the messages by the religious leaders, we had everyone do prayers, from Bishop TD Jakes, to Reverend Freddie Haynes. All of the leaders that were there, many of whom

didn`t speak.

It was the wishes of the family that I give the eulogy and that the cousin, Reverend Yule, gave the family eulogy, and I thought it was an impactful testimony to a movement who sees that Michael Brown is not just a victim, but a symbol of what needs to be addressed in this country.

HAYES: You talked about the difference between a fit and a movement. You talked about this being a moment for a movement to take shape. We saw with the Eric Garner rally in New York on Saturday that you were one of the chief organizers of.

Where does this go from here? It feels like there`s something coalescing here and as yet has taken its full shape. What do you see happening next?

SHARPTON: I think that you`re seeing different parts come together. That`s what a movement is. There`s a difference between an organization and a movement. From my studies of the civil rights movement in the `60s, and I`ve been fortunate enough have been mentored by some of those who led it like Reverend Y.T. Walker. There was Dr. King and others doing other things and the SNCC, Student Nonviolent Committee, that didn`t necessarily get along with Dr. King, that were doing other things.

All of these things made the civil rights movement successful, and I think you`re seeing disconnected factions that are moving the same way, addressing the militarization of police, addressing how the federal
government needs to have laws, setting a climate. We saw, Chris, the first time that I can find in history, certainly in my lifetime, a sitting attorney general come to the scene of a civil rights crisis.

We give a lot of credit to Bobby Kennedy, but Bobby Kennedy never went to the South during the civil rights movement when he was attorney general. He sent people. The fact that we have, the president addressing this issue, the fact the attorney general came to the scene of a police civil rights matter, means we`re being heard. Now, we must be determined and disciplined to make our chance lead to change and our demonstrations into legislation. As the families have the right to engage the criminal justice system for justice.

HAYES: There was a portion in your speech I think will probably get a lot of attention. It was kind of directed inwards about kind of getting our act together. I`m speaking in your voice now about African-Americans and acting right and there`s a long tradition of this, of course, and there are also critics who hear this and they call it -- they use the term respectability politics, that this is a way to kind of audition for the outside world and that that kind of respectability politics doesn`t end up gaining anything. What do you say to those critics who hear that portion of the speech and feel that that takes the eyes off the ball?

SHARPTON: Because I think that they don`t know what the ball is. The reason I tell our communities to don`t act up is they`re acting up against us. So, it`s not about being respectable to others, it`s about respecting each other.

So, when I said, don`t act in misogynous way, it`s not to impress outsiders, it`s because our women should be respected. When I say don`t do petty crimes in the street, it`s not so others won`t think ill of us, it`s because we shouldn`t be doing it to each other.

I couldn`t care less what the critics say. I think my life has shown that. I care a lot about what we`re doing for each other and to each other, and that`s also why I fight so hard when others do something to us.

It would be the height of hypocrisy to say that we`re going to make sure we address what happened to Michael Brown or Eric Garner in Staten Island, but we`re not going to address what some of the same folks in the community are doing ill to each other.

Either you`re against wrong or you`re not.

HAYES: Rev, there was a big -- there was a big profile of you in "Politico" about your relationship with the White House. You spoke about it on "Meet the Press." I got to say, in looking at some of the coverage, there`s kind of an obsession with you as a figure in some precincts. I can never quite figure out.

Have you -- have you figured out why, why you remain the kind of point of obsession for some people as they watch this play out?

SHARPTON: I mean, it`s amazing to me that they always get to the sensational point. Am I close to the president? Am I too close to those in the streets? Am I too this or that?

Why don`t they deal with the work? Why don`t they deal with the fact that whatever we`ve been able to do, a lot of people feel we`ve given voice. I`m in St. Louis because the family called and asked me to come to
St. Louis. The family asked me to come to Staten Island.

Why? Because if it`s Amadou Diallo, or Abner Louima, where we got success, no one analyzes the work and the success that we`ve been able to penetrate with no government funding at all. The fact that I have access to the White House, every president had civil rights leaders that had access to them. There`s no story there other than you convinced yourself that I would never be able to perform at that level.

That`s you misreading me. That`s not me not misreading my role and my purpose.

HAYES: Reverend Al Sharpton, thank you so much.

SHARPTON: Thank you.

HAYES: You can catch the reverend`s show weekdays at 6:00 p.m. eastern on MSNBC.

Joining me now, Anthony Gray, attorney for the Brown family.

Mr. Gray, thanks for being here.

ANTHONY GRAY, ATTORNEY FOR BROWN FAMILY: How you doing, Chris? Thank you for having me.

HAYES: I`ve got to say, I saw Michael Brown`s mother rocking back and forth throughout the service and it just, it struck me that to put yourself in her shoes and her family`s shoes for a moment, amidst all of this is just this individual pain and grief of someone that`s lost their kid.

I spent the weekend with my kids and the whole time I was kind of haunted by, oh my God, to negotiate the level of grief they`re going through while the whole world is watching this insane situation play out, I just can`t imagine what it`s like for them right now.

GRAY: Right. It`s unspeakable. I`m not sure if I got to words to express it, but I think you`re starting with a good example. If you were to imagine yourself with your own kids and your own family scenario, if it got played out that Saturday afternoon the same way it did for Lesley, how would you feel? And as you just so eloquently described, it would be very
difficult to navigate through their personal feelings while the whole world is watching.

That`s what she has to deal with. She didn`t prepare for this. I don`t think no parent can prepare for something like this. This was thrown on her, and she`s trying to do the best she can to cope

with it.

HAYES: It`s a really interesting moment in the service when one family member got up there, and I forget who it was. It might have been his cousin. Who said, I`m hurting, and I`m angry, but I`m going to --

GRAY: It was Ty.

HAYES: Yes. Ty said, I`m hurting and I`m angry, but I`m in church, and I want -- and it was just such a human moment because there`s, you know, folks are still angry. It`s like --

GRAY: Right, right.

HAYES: -- everyone`s going to pack up their tents and walk away from Ferguson because there`s no tear gas to cover, but the people who live here are going to go out and get in their cars and get pulled over by the same Ferguson police that were there two weeks ago and the family members are still going to be in Ferguson when everyone packs up their tents.

GRAY: Sure, sure. What he was expressing is indicative of a lot of feelings that are here. I was proud of the fact he was willing to admit that. That he`s angry, that he`s upset.

But at the same time, we`re going to honor Mike Brown Jr. at this moment during this memorial service. I just thought it was an absolutely excellent dichotomy of emotions that he played out on stage, and, you know, I don`t know how to put it in words what is going on right now and what`s going to happen in the future. It`s just so hard to predict what`s going
to become of this. All I can do is just remain hopeful, Chris. Remain hopeful.

HAYES: What is your role -- what is your role as an attorney for a family that has lost a son, that has a process that`s now playing out in legal channels through the county prosecutor who is investigating the case, has said he won`t recuse himself. The governor won`t take him off. What are the family`s attorney`s role in this now?

GRAY: Right now, you know, we`re attorneys and we`re counselors at law. And so, to some degree, I consul them with respect to how the process is supposed to operate. And not everybody can understand and take in the real slow churning wheels of the justice system. So, a part of my role is to give that explanation and let them kind of see how things are from a judicial standpoint.

HAYES: County prosecutor Bob McCulloch, as I referenced before, started presenting evidence to a grand jury. He had his line where he talked about losing his own father who was a police officer in the line of fire and saying it made him a victim. You`re an advocate for victims. Has he contacted the family, Bob McCulloch?
GRAY: He has not.

HAYES: He hasn`t contacted the family at all.

GRAY: Yes, not that I`m aware of and I serve on the official channel of communications for the family. To my knowledge, and I`ll qualify that to say, to my knowledge, he`s not reached out to the family.

HAYES: All right. Mr. Gray, attorney for the Brown family – thank you very much. We appreciate it.

GRAY: All right.

R: On Mt Kilosh – sitting with the Crystals – yes, it was Sananda's ascension point – they were saying "Now is the time! Let's get with it! We are awake, alive and manifesting into even higher frequencies of love – so let's experience that with each other"

- the Crystal kingdom is related to who we are as our bodies are moving from carbon based life forms to Silica based life forms – Silica / crystals - we are one and the same with the crystals – he was having a conversation with a giant crystal that is the size of 4 mac trucks – he was inside the mountain; Crystals were scattered about like crystals grow with their lattice structures – it was so big, he was drawn to it – he started talking to it and it responded with images on its face, like on a computer screen– it was emitting a sound that reminded him of when a radio station goes off the air for the night and you hear static – that is how it communicated.
- It has always been here – it is part of the grid system of the planet, and it was protected by being inside the mountain and has never been touched by human hands. When the great crystal went down, there were short circuits and it experienced that too. Crystals put themselves in sleep mode like computers do as they are computers – shut themselves down to lowest level of power and maintained the lowest level of frequency and now the frequencies are increasing, they are waking up and talking!
- They told him that humanity is moving so fast upwards with the frequencies, there are many of the indigo-crystal, crystal children who interact with us no matter how old or young they are, as we are inter-related.

2014, Aug 26 A Carbon Tax is Absolutely Essential
By Thom Hartmann A...

So, what do a major investment from Verizon Wireless and the melting of our polar ice caps have in common? A lot more than you may think. On Monday, America's largest wireless provider announced that it will be making a $40 million investment in solar power at eight of its facilities across the United States.

According to a press release from Verizon, new solar installations at facilities in California, Maryland, Massachusetts, New Jersey, and New York will nearly double the amount of energy that Verizon gets from solar power. Speaking about the $40 million investment, Verizon's chief sustainability officer James Gowen told Bloomberg that, "Solar is a proven technology. It didn't hurt that the technology is getting better and prices are coming down."

Last year, Verizon announced a similar $100 million investment in solar power and fuel cell technologies. These types of investments in clean and green forms of renewable energy from major U.S. corporations couldn't come sooner. That's because new research suggests that climate change and global warming are happening a lot faster than we first thought.

According to new data from a European space probe, our planet's two largest ice sheets – in Greenland and Antarctica – are melting at unprecedented speeds. The CryoSat-2 space probe has discovered that the ice sheets in Greenland and Antarctica are losing a stunning 120 cubic miles of ice each year.

That's A LOT of ice that's going from being frozen ice up on land into being river water flowing into the rising oceans. But more importantly, the rate of sea ice loss from Greenland and Antarctica has more than doubled since 2009, which shows just how fast the processes of global warming and climate change have become.

Speaking about the new and alarming data, Mark Drinkwater, mission scientist for the European Space Agency's CryoSat mission, said that, "These results offer a critical new perspective on the recent impact of climate change on large ice sheets. This is particularly evident in parts of the Antarctic peninsula, where some of the more remarkable features add testimony on the impact of sustained peninsula warming at rates several times the global average."

And, it's not just the sea ice in Greenland and Antarctica that's melting at astonishing rates. Arctic sea ice is melting at unprecedented rates too. In fact, as Gaius Publius pointed out over at America Blog, just about every reputable projection on the loss of Arctic sea ice has been wrong.

The lack of sea ice cover in the Arctic that we're seeing today wasn't supposed to happen for 20+ more years according to 13 of the most accurate models. With more and more of our planet's ice cover melting away at unprecedented rates, the question becomes: "Have we reached a tipping point?"

Have we reached the point where we can no longer hope to slow down or even stop the processes of climate change and global warming, and where do we have to prepare for the ongoing and worsening sea level rises on our coastlines?

The fact is, despite this new and alarming data from the CryoSat-2 probe, we still don't if we've passed a tipping point or not. So, with that being the case, we need to slow down climate change and global warming, to protect our planet's ability to support human life.

One of those actions that we can take today is to put a carbon tax in place. Putting a price on carbon encourages less fossil fuel extraction and a rapid move to clean and green energy. With even a modest

carbon tax - that doesn't even end the subsidies to the big oil, coal, and gas companies - fossil fuels instantly become more expensive than renewables like wind and solar.

A report put out by the Citizens Climate Lobby (CCL) shows that a $10 carbon tax would cut greenhouse gas emissions by around 28 percent of 2005 levels. That's 11 percent more than the cut proposed by the EPA in the Clean Power Plan it announced back in June.

In our documentary "Carbon", the first part of a four part series on climate change by Leonardo DiCaprio and yours truly that was released last week, some of the world's leading climatologists and scientists talk about the importance of a carbon tax. They make it clear that, if we want to save our planet and the human race from the greatest threat we've ever faced, a carbon tax is absolutely essential.

It's that simple.
