CocoaT Mini PREGRINDER

Want to enjoy the experience of making your own chocolate from the comfort of your home? How about making fresh cocoa powder, nut butters, or coconut butter in minutes? The CocoaT Mini Pregrinder is ideal to bring your cocoa cravings to life and create your own unique recipes. Our machine is perfect to make chocolate components like nut pastes, cocoa powder, coconut butter, and many more!

CocoaT Mini Pregrinder fulfills your chocolate dreams. Two stainless steel jars are designed to handle a teaspoon to a cup of ingredients. Highly efficient and durable grinding blades grind and pulverize the ingredients in a jiffy.

The piano style buttons provide the user with ease and flexibility to vary operating speeds efficiently and effectively. Handy compartment at the back of the unit stores the wire cord and keeps the area clutter free. The unit will start only if the jars are locked in position – for safety.

Features:

- Two stainless steel jars for different quantities
- Unique, durable blade design increases longevity of blade and efficiency of use
- Wide jar design for easy operation and cleaning
- Jars with built-in flow breakers for uniform grinding
- Snap on lid for easy opening
- Heavy duty 550W motor
- Piano style keys with 3 speeds and a pulse function
- Safety switch activated by locking the jar
- Reset switch prevents the motor from overheating
- Built-in cord storage compartment
- One year limited warranty against any manufacturing defect
- Free delivery within continental USA
- Economical – costs only $149.99
