Museums Australia WA and Collections Australia Network will present a workshop addressing a range of issues and tasks involved with getting your collection online, promoting your organisation and uploading data .

Sarah Rhodes from Collections Australia network will discuss best practice for the promotion of collecting organisations through the CAN website:

- Bring collection data for five (or more) items plus images or each collection item on a memory stick.
- Bring a list of problems being faced in preparing collections to be uploaded to CAN and a basic knowledge of the collection management system or application your organisation uses.

This workshop will assist in meeting the requirements of National Standard Part B2.13 A variety of methods are used to present stories, exhibition themes, and the collection, to museum audiences.
