- **Those calling in on the phone:** use the same # for the rest of January
- BBS has a line which has much clearer reception: it is **716-748-0144**
  - Only thing is, she cannot \*6 and bring people in, yet on the current phone number, bringing people into the call resulted in poor reception

**[SEE BELOW FOR THE INFORMATION]**

**T: How does Mayan Calendar influence Obama's speech on the Jan 12<sup>th</sup>?**

**RB:** Jan 12<sup>th</sup> is an 11 KAN: 11 is change, letting go of what no longer serves; through destruction there is creation; freedom from constriction – 11 is vision quest – now is the time to choose free will and liberty over death and decay!

- **A Good energy for the day! He's letting go; also setting a tone for the new**

**T:** 11 is the number of Mastery, too

**Guest: Rev John Polk** – got the name from a list presented by BBS

**T:** a great need to fix the car: have bald tires, and cannot get new ones until they get shocks, ball joints, oil sending units, upper and lower control arms + labour = \$1377

- Rama has to fill one tire every day; a precarious situation
- Asking for financial help

#### **HARD NEWS**

**T: Talked to Rama:** Lady Di, Dodi, LM Nada, Tom the Ringtailed Cat, KOS

- said that the energy has indeed shifted; there is a possibility at the State of the Union address, he could announce full disclosure – **no promises though**
- Nada said if we could see this from her vantage point, we'd see it as already done
- the fall on New York Stock Exchange is the worst fall since 1933
  - On Tuesday, China's exchange was only up for 6 hours; the same thing today
- Thom Hartman's book: the crash of 2016 – looks like what it is

**T:** China has been rigging numbers on the markets for 20 years; has created a housing bubble – by creating all kinds of villages, high rises, etc and no one living there: it is falling apart and falling into massive deflation

- We are preparing for a transition for the highest good of all concerned
- Europe is in a weak currency; Japan in a super weak currency

**R:** market fell 372 points today

**T: North Korea:** tons and tons and tons of TNT: NOT a hydrogen bomb

- NK has been an asset of CIA for a long time

**The Last Word: Laurence O'Donnell's [LOD] show on MSNBC [Tara's notes from show]**

- Senator George Mitchell **[GM]** – was majority leader of US Senate during Clinton era and also a former special envoy for peace to the Middle East
- Was on the show on Jan 6<sup>th</sup>

**LOD:** China is key to solving North Korea?

**GM:** It's not all about China, but this is a significant factor. What may be different this time is that in past North Korea tests, the reaction of China was muted; this time it was immediate and negative.

**LOD:** question to Sanders is what can we do about China: appeal to their self interest?

**GM:** The Chinese now have something at stake – a growing society, a growing economy, lifting people from poverty into the middle class; having an unstable regime with an obvious insecure and erratic leader with the possibility of having nuclear weapons and being a failed state is not a benefit to China.

**LOD:** is North Korea like a crazy cousin they worry about a lot?

**GM:** China has used NK to China's interests over the past years; in this instance, they realize the possibility of an all out conflagration would be disastrous for China as well – may be a chance to appeal to China's self-interest and not that of the US or South Korea and somehow putting a lid on this

**LM Nada: China is providing an opportunity for St Germain to intervene**

- Lady Master Nada did not say what that would look like.

**R:** It could be we are looking at a repeat of 2008 in the way the markets are tumbling ; gold and silver going up -

**T:** the deflation going on and the rising price of precious metals makes it more of a hard crash, especially when people don't have the knowledge we are aware of

**LOD:** as troublesome a region as the Middle East is, last week seemed more stable than this week

- This week we saw the beheading of a Shiite cleric in Saudi Arabia, the burning of the Saudi embassy in Iran, collapse of a bunch of gov'ts associated with Saudi Arabia

**GM:** last week seems calm is a multiplier effect over the next decade: we'll be talking about this for a long time

**T: LM Nada:** Iran and Saudi Arabia don't have anything on the US: the intervention of the galactics at the higher levels

**MR:** sometimes people wonder: Rama asked Mr X about Dr Greer: there is a question about who is he and is he working at the highest of levels?

**Mr X** said: YES! And they could not remove him by giving him cancer because he was a TM practitioner and a teacher of TM and then remote viewing; the contacts and the energy has helped him

**T:** program called **Front Line:** has done a documentary on Netanyahu

**R: Jeremy Scahill on Leslie Marshall show:** came out and said Bush and Cheney did 9/11, and our own gov't and why aren't they in jail?

**T:** Not an easy thing to talk about when you have a gag order – so the protection is there

**China:** 5 activist journalists have been disappeared and not seen again

**Syria:** the gov'ts military are actually starving the population to death

- there is amateur footage from various places: a couple who escaped from Turkey where the Kurds are being killed by Erdogan – they are living where it is ice cold and snowing; their baby died, the 2.5 year old not doing well, the older children are still more or less OK, but they all look like they are in Dachau

**Carl Boudreau:** did a short one: looks astoundingly critical every where yet the move and the flow of the activist minds and hearts, the spiritual togetherness of the people, is strengthening

**R: Michael Moore put out another letter** saying Gov Snyder should go to jail for poisoning the

people of Flint, MI; Rachel has been covering it; an activist journalist has been risking his life; made it very clear that the people around him knew what they were doing

- Gov Snyder in bed with the Koch Bros
- the majority of kids affected are African American
- MM's letter makes it clear that he should be in jail; a **petition going to Loretta Lynch – people have died from this already: murder.**
- LM Nada and the White knights have made it clear that there is a movement to move this energy out of the positions and to do it – each and every one of us

**T:** Barack Obama's Exec order about guns has enflamed the Republicans, NRA

- Jeremy also said the **NRA is a domestic terrorist organization** of the highest order

- Also understands **Obama is going to do something relative to the immigration situation**
  - Hillary has just written the whole situation off: it is hard for people to know
  - LM Nada said Barack Obama is fully merged with El Morya's energy now, and the intrinsic controlling overlord power of the 13 families is what it is, and it's a very covered up situation as if he is the controlling power
  - he is guided by Ashtar, St Germain: the girls know it talk to all the ascended masters; Lady Di and Dodi's kids know this too and are also working with the same energies!
- Obama is with Anderson Cooper in CNN tonight on the gun issue; Gabby Gifford and Mark Kelly also talking about the need for gun control of some kind – full background checks.

Going back to **The Last Word:**

**Sen George Mitchell:** has been internal conflict in Islam for over 1400 years  
it's a bitter struggle for political control of the caliphate, not about the religion: the Sunni prevailed, the group that lost became the Shia

- This will continue into the future with greater intensity: of the 7.5 Billion in the world: 1.5 are Muslim; as the world population reaches 10 billion, the projection is that 1 out of 3 will be Muslim
- these conflicts will continue – there will be a sorting out as the political structure that was imposed on the middle East after WW I has been collapsing and a new one is emerging
- the real challenge for the US leadership will be to figure out how to best influence events, or not!

**LOD:** talked a lot about the Iranians; talk about dealing with the Saudis

- The administration tried particularly to stop that execution and Sec Kerry was saying don't do this! Why could we not have prevented that execution?

**GM:** Remember the truism that all foreign policy includes a dose of domestic policy: true here in the US and it's true in other countries. The executions were a message to internal factions, not so much to Iran – 15-20% of Saudis are Shia and are in revolt!

- We have to expect this to continue into the future. The bully is the one most afraid of being hit -

**T:** this old story is between Persia and Saudi Arabia. King Faisal was murdered by the Saudis in the 1920s; it's a deep wound to be healed.

**Audio: The Last Word with Lawrence O'Donnell January 6, 2016**

### **Fmr. Sen. George Mitchell on North Korea**

Nuclear experts and the White House are pushing back on North Korea's claim that it has successfully detonated its first hydrogen bomb. Fmr. Senate Majority Leader George Mitchell joins Lawrence O'Donnell to offer his take on the latest

developments. Duration: 8:47

**Guest:** Rev. John Polk                      Latest book: **Jahweh was an Alien**

**Background:** holds a Bachelor of Arts degree in Broadcasting, and another Bachelor of Arts Degree in Metaphysics from the University of Sedona. This university granted John the title of "International Metaphysical Minister" after his studies were complete. Rev. Polk is also a Reiki Master, and an instructor in Usui Reiki. He is the founder of Wolf Spirit Ministries, LLC.

- Took him years to learn that the god in the bible was an alien, not a god
- Talks of the books and information he's been studying
  - as an ordained minister, he had to fight his upbringing, his background in the church, his training
  - doesn't like the notion that the god of the bible kills and punishes
  - doesn't like the way the god in the bible treats women
    - does her hair, shows any skin, talks out of turn – will burn in hell;
    - how religious texts look down on women

**MR:** the current cultures that look down on women are following that 'teaching'

**JP:** how many people are Christians and deny all the basic tenets of the Bible?!

**T:** brings up her background in comparative spiritual traditions and the Buddhist background, the rituals of women as priestesses

- Nefertiti and Akhaton ruled in equality, and Mother Sekhmet was walking the planet
  - T feels we are approaching this situation again: some gov'ts have 50/50 men and women; the US is out of balance; Germany is more or less equal; some countries in South America are equal
  - when Jesus married Magdalene, they reigned together
- Brings up the idea of a debt jubilee which is coming

**JP:** glad she said what she said

- We need both the male and the female in balance, in all contexts
- Talked of Isis and Osiris walking the land and flowers coming out of the land where they walked because they were so in harmony as a couple.
- Men who believe in re-incarnation will say they were never a woman – and he tells them they were, as well as a homosexual!

**T:** talks of the feminine as the ability to receive love – brings up a book called **The First Sex**

- by the time we got to Egypt and the 18<sup>th</sup> dynasty, there was an adjustment of history: we were butted right up to the caveman style of living,
- Before that was the Age of Atlantis which was far ahead of where we are now – we are just about ready to break through to the 5<sup>th</sup> dimension we were in then.

**Caller:** asking to have things put into some kind of chronological context – go through Lemuria, Atlantis, Nubia-Kush – how can it be that we lived for many millennia knowing of our divinity and living with that understanding:

- when did the Annunaki come in and interact with our community and we suddenly didn't know what was going on? We didn't just wake up one day and say we're mortal and only 3D and they are higher than us.

**JP:** brings up Michael Cremo's book **Forbidden Archeology** – one tenet is that we have to come up with a better explanation of human existence. Michael has an artifact found in the US close to the Great Lakes **that is 2.5 BILLION years ago** – it was made intelligently; it's not just a piece of rock

- over 450,000 thousand years ago, the Annunaki have been here looking for metals etc to

sustain their own planet; they interbred DNA with the beings on the earth to create Homo Sapiens who were intelligent – smart enough to do the mining, not smart enough to fight back against the Annunaki

- Not sure if anyone can come up with a better chronology

**T:** there is already one that pushes back the Annunaki entrance to 65 MILLION YEARS AGO and this precedes the 450,000 year ago entry which is the more familiar number.

- And there is a reference in book called **Secret of the Andes** that they entered **1 billion years ago**
- 2.8 Billion years ago is about 2/3rds of the ancestors of Mayans entered in at 4.something billion years ago
- when you go beyond the 5<sup>th</sup> dimension, you get to 450 BILLION YEARS AGO which is when consciousness entered this realm.

**JP:** it's hard as a human to wrap your mind around a number as big as even ONE billion years!

- Between Mars and Jupiter is a meteor/ asteroid belt – it is possible that some of those meteors have come to earth - we get so many good elements which are not indigenous to the earth like iridium used on the space shuttles
- There are trace elements found near the craters left by meteors that hit the earth, and nowhere else – and every 10,000 years or so, there is a flood on earth which may be necessary to cleanse the earth; currently earth is in a state of imbalance at the moment.

**T:** on ancient mappings which can be found on the internet, it has been said

- that not all people died during the flood
- that Noah's ark was an amphibious star ship
- that the planet called Maldek went super nova – it was a hydrogen explosion
- the Maldekians had originally lived on earth, and were kicked off because they could not get along with anyone, so the other ET s sent them to Maldek to figure things out
- at one point, a quake, a disturbance of nature, shook the nuclear silos and since they lived on opposite sides of the planet, each side thought the other was attacking so they all unleashed their nuclear weapons at each other which sent the planet super nova
- one of the fallouts was that the radioactive water from Mars was picked up and deposited on earth and Maldek was turned into an asteroid belt which still exists
- all the stories of gods and ET s are evolutionary stories of ourselves going back 450 Billion years
- If you give advanced technologies [there are 50,000 of same in the background, just waiting] to those who have no spiritual consciousness who have forgotten we are All One, not separate – things can go wrong! The ones who fell from the super conscious state still have parts of themselves in the higher levels: Ashtar, Sananda are examples of those holding the pattern for the rest of us. T talks of the soul merger that took place between Yeshua and Sananda Kumara & Yeshua was able to go with an increased consciousness and touch people. Brings up thomas Jefferson

**JP:** his understanding is that Jefferson took parts out of the bible he didn't like

**T:** explains that what he took out was the Miracles of Jesus – so the bible gave just the core of his life. WE ARE THE MIRACLES was Jefferson's point; as we understand the teachings of consciousness, we know that we have the wisdom.

- Always the chance that when we are ready to take the leap that misqualified energy can destroy a really good thing

**MR:** where do we go from here? How can we help people understand?

**JP:** has learned some things tonight; will take the liberty of putting some of the concepts in his next book!!!

**MR:** talks about the man made rules that have nothing to do with spirituality, and they are about control

**JP:** talks about being the opening speaker at an Experiencer conference and that the creator of the conference is the founder of a phone group that supports experiencers

- At the moment, he doesn't use his real name because he knows what the reaction will be
- Experiencers Speak For – to be the opening speaker because the organizer wanted someone who would take it to a spiritual level; he started with a seance!
- ET s who looked almost like humans came to the conference and talked to the people there – JP tells the whole story
- also tells the story of seeing ET s on Mt Shasta – certain ET s in certain situations are making themselves known on purpose – and to people around the world; sees this as positive – will roll into full disclosure

**MR:** tells of Robert's experience on Mt Shasta with ladies from the Pleiades

- Invites JP to let her know where he is going and what kind of events so she can tell us

**JP:** will be in Albuquerque; one in Scottsdale, AZ

**T:** tells him about the crystal show going on too after the Scottsdale event

- There are 9 power centres in Sedona

**MR:** how do you get this information out to people, aside from having written the book?

**JP:** Getting on as many radio shows as possible; going through social media and contacting as many as possible

**Contact Info:**

- twitter@revpolk
- e-mail: [jpolk2@cfl.rr.com](mailto:jpolk2@cfl.rr.com)
- podcasts, etc etc – see the info below - johnpolkmedia.com

**MR:** asks John to let her know what is happening with him, and she'll pass on the info to us all.

**Closing Music**

### **Aggravated Mercury and Jupiter Retrogrades**

I'm guessing many of us are checking the headlines and wondering what in the world just happened - and what will happen next. This might be a good time to issue a brief bulletin.

Astrologically, it's all about Tuesday and Thursday.

Please, keep in mind. This is just a bulletin and it lacks the broader astrological context that I will offer in my next astrology status, due out in a couple of weeks.

By way of context, though, things are not as bad as they might appear right now. Underlying momentum is still in a positive direction. Innovation continues. The spirit of reform and activism has not suddenly died.

The buoyancy and resilience we have been seeing in the world has not all of a sudden vanished. It is just temporarily obscured by debris from the collapse of things that need to collapse and confrontations with things that need to be confronted.

This is the kind of turmoil associated with reform and healing - with people waking up and responding to long-standing issues and the crises that accelerate awakening and fuel determination.

This is not the kind of turmoil associated with decline or disintegration, although people could be forgiven for interpreting it that way.

People will be feeling confused as well as impatient, impetuous, self-righteous and confrontational. Did I mention vexed, frustrated and resentful? Quite a lively mix of emotions.

### **Tuesday January 5, 2016**

- **Mercury squares Mars**
- **Mercury stationary/retrograde**

The Mercury/Mars square might as well be simultaneous with the Mercury station. Expect the usual delays, cancellations, postponements, no shows, misfires, all made more difficult to endure by hot tempers, impatience, impetuosity, impulsiveness.

- **Venus square Neptune**

This square will compound the confusion usually surrounding a Mercury station. Venus governs both personal and business relationships as well as personal finances. The realms of Venus and Mercury overlap a great deal.

This square promises considerable confusion surrounding some aspect of your personal relationships and financial life. The confusion will do little to calm flaring tempers or sagging moods.

- **Moon sextile Jupiter**

This benevolent little sextile promises a modicum of luck and positive synchronicity in your efforts to dispel any confusion or work through an inconvenience. It will bring some grace under pressure.

- **Sun conjunct Pluto**

Our conscious mind collides head on with the forces of transformation.

Many of us will respond stubbornly, forcefully or very assertively to obstacles or interference, real or perceived. We will feel the need to impose our will or impose order - a familiar, comfortable order - on new, unfamiliar or unexpected and inconvenient situations, or people.

However, these are forces of transformation. They are about what is new and unavoidable emerging with the full force of the universe behind them. Exasperation is likely.

- **The Moon is Void of course** from about 1:00 pm until about 2:00 am the following morning (New York Time).

The cosmic transmission will be disengaged. The clutch will be out :) (for those who remember what a clutch is). We will get zero traction in our efforts to achieve our goals. Any plans we do make are highly likely to misfire. This might be a good time to binge watch your favorite TV series or sort your laundry.

Layer upon layer of confusion will compound overlapping delays, all made worse by high levels of irritability and a generally confrontational mood. Patience will be in short supply.

### **Thursday January 7, 2016**

- **Moon conjunct Saturn**

There will be a clear sense that greater order and discipline are required in any given situation (duh!). A somewhat serious-minded, downbeat, no nonsense aspect. However, the levels of chaos and potential chaos will be such that the desire for order and discipline is likely to be unfulfilled and will only serve to increase frustration levels and stoke tempers.

- **Sun square Uranus**

We will collide head on with the forces of change, often in a way that is inconvenient and uncomfortable, difficult to accommodate or even to understand correctly.

- **Moon trine Uranus**

This aspect will cast a pleasant aura of novelty and serendipity over events. This could, however, be shallow and deceptive, given the difficult aspects accompanying it. It might cheer us up, but it might also encourage us to drop our guard when we shouldn't. Your mileage may vary.

- **Moon square Jupiter**

We will be given to overestimation and overspending. Question your own judgment. Maybe do a little more research before buying.

- **Jupiter stationary/retrograde**

Financial, philosophical, religious and/or educational matters will lose forward momentum. So will economic issues. It's time to take our belief systems and our investment ideas back to the drawing board. Things won't pick up again until May when Jupiter resumes forward motion.

Blind faith will give way to doubt and a willingness to reconsider things, to serious second guessing. Economic assumptions will come up for reconsideration. None of this will be helpful, though, amid rising levels of confusion and annoyance. We must commit ourselves to remaining calm and patient.

- **The Moon will be Void of Course** from about 10:00pm on Thursday until about 10:00am on Friday (New York Time).

The cosmic transmission will be disengaged again, this time overnight (in the western hemisphere). We will find it difficult to gain traction in our affairs. Progress could be deceptive.

---

Briefly, we are looking at a potentially vexing, chaotic week, lacking in positive synchronicity and overflowing with inconvenience and annoyance.

The big mistake would be to let this week's vexations color our expectations for the future or to lead us into self-defeating confrontations in the moment.

Still, this week's challenges cannot be brushed aside. Strive to be realistic about what is possible under present circumstances. Suppress the kind of negative emotions generally reserved for short-term annoyances. This stuff is going to take patience and lots of it. It's best not to try anything fancy right now. The universe is very serious about the delays it is imposing on us now.

2016-01-07 **From Amazon.com**

<http://www.amazon.com/Yahweh-The-Biblical-God-Alien/dp/1516936434>

Hello, my name is Reverend John Polk. I am channeling "Yahweh", the Judeo-Christian and Islamic creator-god-alien featured in the Bible, the Hebrew Bible and in the Quran.

For thousands of years, up to this present day, he has been masquerading as the real God and is pulling a collective veil over the eyes of most of the world. Ancient alien astronaut theorists comprehend this reality, but most of humanity has no idea. Yahweh tells me the time draws near for full alien disclosure, so that we primitive Earthlings can be weaned off of the Mother Universe's figurative bosom.

He wants the world to know that he is an extraterrestrial, that he is not God and that all God-figures in all cultures are ET's, not God. However, all creator-gods and Yahweh had wanted we humans to keep worshiping those creator-gods just like always. As collective humanity adapts to this knowledge, religion, culture and tradition need not change. For now, you may pray to the alien god you have worshiped all along but now, pray to the real God as well.

The real God loves everyone regardless of their religion or belief system and therefore, he is the God for everyone. Make a deliberate point in your mind to differentiate between the two. Until this planetary transformation event takes place, we will be kept in the dark, unable to reach enlightenment. Enlightenment begins with we humans understanding and worshiping the real, universal God-love consciousness alongside with the alien gods we learn of in our religious texts.

Yahweh, and other alien creator-gods who promised to return in the future, can foresee this time approaching. Instead of blanketing each continent with massive mother-ships, sending we indigenous Earthlings into a global panic, they are attempting to foretell to us of greater days to come. The extraterrestrials want to intervene in our lives on Earth because humanity is spiraling down in a negative direction. We are raping our planet of its resources for energy, for example, when there is an abundance of renewable and free energies being hidden from us.

Additionally, our world leaders are doing a pathetic job of working together. Most of our countries' leaders are inept because they are selling out. Everything is based on money and war, which is draining the loving spirit energy of our entire planet. Money truly is the root of all evil. I am one of many chosen seers from around the world, whose mission is to communicate this message with the masses, so that when changes occur, it's not a total electric shock. Before I die, full disclosure about ETs and the world-wide disinformation campaign and cover-up will be revealed globally. Yahweh wants light workers, like me, to be mediators in this life-ascension event for all humanity.
