

VIRTUAL EXCHANGE

The World Is Your Office

TAKE BACK YOUR LIFE

“MOBILE WORKERS IN NORTH AMERICA HAVE REPRESENTED THE MAJORITY OF THE WORKFORCE SINCE 2003.”

(Source: Realty Times)

Today your business is more on-demand than ever before. You have mobile employees in multiple locations. Whether they are on the road, working from home, or another facility, you are challenged daily with maintaining business continuity in the most organized, productive and cost effective way possible. But at the rate the worlds of communications are converging, who has the time?

eGIX is making it easy by offering a **Virtual Exchange** solution, allowing you to take back control of your business—and your life—bringing the world to your office no matter where you are!

Virtual Exchange is an application that sits in front of any traditional phone system and directs all of your business’s voice traffic in a cohesive and organized way. What really makes this solution unique, however, is its Remote Office capabilities that allow your employees to utilize the same tools they can access from the office, virtually anywhere! Creating their very own virtual office empowering employees to remain just as productive out of the office, as they are in the office.

Multiple Functionality

The Virtual Exchange solution is flexible enough to meet a multitude of needs, like the examples mentioned below:

NEED	RESOLUTION
Employee Mobility/Productivity	The inclusion of the Mobile Executive (ME) functionality allows your employees to work remotely with more call control, line feature modification, company caller ID, simultaneous ring, and more. <i>(See sidebar for more details)</i>
Disaster Recovery	Redirect business critical phone numbers on-demand keeping your business operational in the event of a company crisis, relocation, natural disaster or any event that may temporarily disconnect you from your customers.
Immediate Connectivity	No need to wait 30-45 days for your telephone service installation. Get your business up and running immediately with voice connectivity using your home/mobile phones as a temporary communications backbone.
Investment Protection	As the worlds of communications converge, secure the future of your business by positioning it for the most advanced business communications solutions available without the costly investment of a new phone system.
Organizational Continuity	Bond all your locations together to operate as a single business unit, utilizing all available resources at any given time. Set up company wide disaster recovery/business continuity protection, back up operators and redirect call inflow—All online, anytime, anywhere.

For more information regarding this solution and other Enhanced Services please contact at your eGIX Representative today!

Fast. Flexible. Focused.

Mobile Executive

The **Mobile Executive (ME)** comes standard with features designed to empower you and your mobile employees—**putting complete control at your fingertips.**

This service allows you to:

- ◆ Retrieve voicemail, email & fax mail directly from your email inbox & react to phone calls as if you were in the office with complete Remote Office functionality. *(e.g., If off-site, out of town, on vacation, or working from home)*
- ◆ Make modifications to line features & calling preferences anytime, anywhere with an easy to use Web-based Call Management Portal or Outlook Integration Tool.
- ◆ Select specific numbers to ring your phone when the Do Not Disturb feature is enabled. *(e.g., If in an important meeting you can set your preferences to allow a supervisor, spouse or children’s school to ring through, in case of emergency.)*
- ◆ Never miss a phone call again with the ability to ring up to 6 numbers simultaneously. *(e.g., Desk, mobile & home office phones)*
- ◆ Make cell phone calls appear to be coming from your office phone number.
- ◆ Set the Call Notify feature to alert you via email every time a specific client or important account calls your business.
