

Introducing the EF Blue Card

At EF Education First, we are committed to helping transform lives through education. Our EF Blue Card helps provide an extra dimension of security for each and every student.

The EF Blue Card has been developed with every parent in mind to ensure the safety and protection of students in the classroom. Our teachers are specially selected, trained, and internationally certified to provide the best learning environment possible for our children. Today, along with these certifications, they will also hold an EF Blue Card.

The EF Blue Card ensures the bearer has:

- Confirmed individual's eligibility to work as a teacher based on our initial assessment.
- Completed a comprehensive background check.
- Committed our code of conduct and behavior when interacting with our students underpinned by our values of respect, care, integrity and trust.

The best teachers inspire the leaders of tomorrow.
