HARD NEWS

R: A wag-the-dog story: it's everything but the truth!

- Everything happening now is MAJOR DISTRACTIONS – it's about the fake president, who is about to lose the seat of power - and not just him
- He has committed high treason - no declaration of war from Congress; he never consulted anyone else either.
- **Full disclosure** – the things that are happening are major distractions, covering up the fact THAT NONE OF THIS IS MR PUTIN – IT IS ONLY THE RUSSIAN MOB, billionaires with an axe to grind with Putin
 - On a larger scale, these are the 13 families fighting to the death.
- Has heard Israel was involved with the story of the Tomahawk missiles; Also, Trump has stock in the missile companies – and large amount of money is coming from Raefeon
- about stopping these immortals: In the first movie **Captain America: The First Avenger** – Star's father helped Tony Stark become immortal and a super soldier with the help of the Tesseract, and one of the infinity stones that helps open space portals called the space/time gemstone
 - The 2nd movie called **Ironman** came out after 9/11- Tony Stark is a major CEO in a company that makes WMDs; he goes to visit the troops in Afghanistan and gets hit by a road side bomb/shrapnel from an IED and ends up wearing an ironman suit; he realized he was facing his own death with his own weapons
 - So what Rama is being told by so many folks from so many different sectors that are not tied in with any gov't – they are beings who are part of the framework that makes up this plane of existence – like Treebeard and others, the beings like the Watchers who were here when Mother came in the first place
 - these beings are moving around taking care of business:
 - the big foot beings; Lord Zoroaster and others like him are rising up from where they have been since before the flood – they are gathering!
 - So much is happening across the planet, and the humans playing with ancient sidereal weapons do not know what they are doing and will take themselves out – blaze the Violet Fire for them

Tom the Cat, Sweet Angelique the Cat [SAC] and one of her compatriots who is ½ Syrian, ½ Lebanese woman that SAC has taken in: she is on the run – she is tied to Hezbollah – not a terrorist, just a refugee who wants to go back to Beirut: SWC is helping her – the French police, thanks to the Black Ops who've been operating there, have zero tolerance for anyone of Middle Eastern origin, no questions asked.

- a citizen of Lebanon, SHE Is afraid to go into the street as they might have a picture of her, as she's on the internet! She was staying at a shelter, all her things were stolen – so all her ID is gone - and she was afraid to go get them; she was in a coffee shop and SAC went out and found her hiding in the women's washroom – SAC is a cat, has her intuition and the sense of the Force • That is what he knows!
- Trump was bailed out of bankruptcy by the Russian crime bosses /oligarchs; the biggest backers in Canada's oil sands are the **Koch Bros, not Exxon or Chevron**
 - There are lots of deep space stories to be revealed
 - R has a 3 hour Dr Greer pre-release interview - a good interview
 - Jimmy Church is an interviewer like George Noory: Greer talks about how he came to do the documentary etc **Unacknowledged**

- Leon Panetta knows a lot about all the stories going into the Deep State - he is a war criminal. There are fake stories from Faction 1 and F 2 that tie him in with the tip of the iceberg called Pizzagate and there are stories that he and his brother are part of the human trafficking, sex trafficking pedophile ring

Reading: Ben Fulford – brings up the power vacuum by the death of David Rockefeller

- has created a situation that will lead to civil war in the US and Japan etc – it has reached the point of the potential of military marching on DC to do battle with the drug-dealers, and going after politicians

R: many people on the radio programs saying high treason, jail time etc

Reading: 2017-04006 Swedish Medical Associations Says White Helmets Murder Kids for Fake Gas Attack Videos [SEE BELOW]

George Clooney made the film “White Helmets”; his wife involved with Julian Assange

Audio: 2017-04-07 GOP Senators Trigger Nuclear Option to Confirm Far-Right Judge Neil Gorsuch Ian Milhauser is the guest on the subject **[SEE BELOW]**

Reading: Phyllis Bennis on Democracy Now – interviewed by Amy Goodman – Tara reads her transcription of that interview Peace Advocates: if Trump wanted – first program on the air today – alia journalist and human rights lawyer; a Cdn now living in ; Phyllis, Medea Benjamin

A round table discussion

T: Amy had a long part of the show some time ago; her guest was a lady from Amnesty International talking of underground torture places in Syria; later **KOS said that was a lie – no such places existed**

R: asked Tom the Cat about it today: he said there are lots of things going on in Syria that have to do with the ABC agencies in the US and that was all he could say without removing Rama!

R: Same thing with Assad and Clooney – do what they are told or end up dead, and the so-called dead person called George Soros – now they are taking out people they don’t want around any more!

- Various wars going on in Syria – all of the wars are being waged in Syria and the Syrians are dying and stand to gain nothing from those wars – need to end the wars there – the direct targeting of Syrian targets like Trump did will result in nothing good – need to get to diplomacy – this is not a war that can be won; has to be ended!

CONFERENCE CALL

T: reads more of the roundtable discussion from Democracy Now – April 7/17

- RT doing all it can to get out the truth, and some people are calling them terrorists!!!

- it is a potential for the US military to march against the gov’t in DC – yes, it would put groups against each other, but the ordinary soldiers won’t

- Journalist from the US in Yemen exposed the US for bombing all over Yemen – and the journalist may not be heard or seen again, and the soldiers are in danger and for what? They know what is happening

T: reads Ben Fulford’s column – the emperor in Japan is not the real emperor: a proxy for D Rockefeller

2017-04-03 Benjamin Fulford 4-3-17... "US and Japan are close to civil war as Rockefeller death leaves power vacuum" [SEE BELOW]

- The material about Obama is totally false.

Ross:

- Randy got a message Paschats on the ground now; saw a vision everyone on high alert and not just Paschats
 - has the feeling that the galactics have run lots of simulations
- T:** you guys cool your jets; she reminded them of the First Law of Love the heart love energy is so high
- if one could see their hearts, it's like the hearts will burst -

Ross: it was his impression that we are days away; he didn't get this from anyone – own thought

T: Mother will never give dates! And it doesn't work that way!

R: his inner being: gets the feeling that we are so close to disclosure it's not funny! What will push it to someone getting on a transmission of some kind, like Cmdr Vrillion of the Ashtar Command did in 1957, when he took over the BBC world service radio program?

- looking at the insanity of creepy old white men that need to leave planet earth immediately- it's at a place of someone blowing the whistle on this whole story – and maybe it could be Dr Greer.
- When he asks about this stuff, he only gets convoluted answers about how dangerous the times are at this moment. There are folks in all the military services that want change and full disclosure, and this goes all the way up to what ET Corey talks about – since 1933 and before when Hitler rubbed elbows with creepy ones in the Thule Society -

T: on **RT this am:** from the Russian side of the thing that cooperation with the US has been suspended – not a good sign

- Question is who's going to get pissed off first

Gerry: from a good source: Russia knew the US was going in – were fore-warned – behind the scenes, an agreement

T: where did that info come from?

G: Brian Sooze, a military source on California radio stations

- re disclosure: he went to the documentary on the 24th but not to the ball afterward: what happened at the ball he will pass on when he learns.
- There is a lot of propaganda – russians don't care about Assuad, only their airparts – there is stuff behind the scenes and we will know about it when it's time

T: on the higher levels, XI, Putin, Obama are in collaboration that there will be no nuclear activity – there is a disconnect between them and those below them –

- **There is no president as this is a usurpation**

G: lots going on -

Carlton: listening to the reports of the women at Fox news and how they've been treated – target is now Bill O'Reilly – the cracks in Fox News might move white women to become enlightened or even go against Fox News and what it represents!

T: over 50 major advertisers have cut him off: that means FN goes down with O'Reilly -

C: the advertisers are not with the program, but maybe still with the station

T: what she knows is that Fox News and O'Reilly are in this together – both FN and O'R have funded the \$13 Million to 6 women

C: is this symbolizing more chinks in the armour?

T: 99.9% that comes from so many places – there's a higher place and we cannot judge anyone whose shoes we have not walked in!

P: reads the article about the Texas bill

T: how the energies are raising the visionary, intuitive, etc abilities – we’re seeing so many things and learning that some of the things that have been hidden from us

BBS RADIO

MOTHER SEKMET / ALYCONE [M/A]

Greetings in the Light of the Most Radiant One; in the Office of the Christ and only in the office of the Christ, we invoke the loving energy of St Germain and the Violet Flame

Greetings

New things happening – new reality pouring in; all the energies that we are going through right now have to do with the frequencies pouring in from Galactic Centre and it’s raising the tiny little hairs everywhere! And it can’t be stopped as it’s about love in all its forms. It is a magnificent, joyous time to be alive; in the same breath Kali comes along with Dirga, Pele, Parvati, Shiva to do the dance of death

- It is a changing of cycles as it were: out with old, in with the new – the resurrection flame energy rising up now as we approach this day – we call it Resurrection – frequencies pouring in about this time. As he said: Lord, make me an instrument of thy peace
- As one would put thought to the reality of the situations at hand – being a servant of peace, make me an instrument of thy peace – the issues of the hour is –
 - she can best say without revealing plans: Raefeon, all the other bio medical military industrial complexes not gonna be around much longer. Because, let’s say, CEOs, chairmen of the board, others - nasty powdered wigs have to be permanently retired!

T: a good way to put it, Mother!

M/A: Yes, we have a very intense situation brewing in both the Pacific Rim of Fire and on the Atlantic coast. Rest assured, as they have said: they are here; all the issues that are unravelling are about the different ways that love comes in all its forms – love is a radical teacher as it were: radical medicine for this time.

- Let’s take a walk on the wild side with them: it is not about the money, it’s about the very soul of humanity in the moment.
- as this one was told today by so many contacts: earth will make it; earth is making it; we will make it; we all will make it; the ones that are playing with the very ancient energies that drive this planet – it’s quite simple:
 - the ancient technologies that they have found in various places - in the very beginning, Metatron put some fail safe mechanisms in along the way. Whatever is unravelling is for the highest good of all concerned. The ones that have an issue with their life force are the ones playing on the edge of this story: all coming to an end now.
 - The revealing of – everything being talked about is being put in the context of a big bad wolf – Russia which is not the big bad wolf! The USA is the Lord Vader, Emperor of the Sith here. At this cosmic hour as many have said: the cosmic clock is 2 seconds to midnight – and they have let go of the second hand! Tick! Tick! Tick! Tick!
 - **There will be no nuclear wars** – rest assured. What is being played out, mind you, is the absolute fight to the death of their children who have no love for any of us and least of all for themselves: and this is the issue, and love is the answer. It is that simple: compassion for all the situations at hand – the great uprising, upwisings as Swami Beyondananda calls it - that is the deal here – everyone wising up to the shenanigans

- what happened in Syria is how they are playing with each other in a fight to the death. In every situation. Assad is no saint yet what we are doing by feeding the death machine
 - what she means by that – thought form projection energies being spread around the planet : death images – this disrupts the cosmic psyche of humanity. Yet resistance is persistence; love is the answer.
- It may seem as though they are coming up with more enigmatic answers than – it is this story about love in all its forms. As we are in service to humanity in all its ways, more and more of the story gets spilled out before the people, and the times we're in . . . remember, we gotta be in many places at once and nowhere at all . . . so many are transiting in instantaneous situations out of these temples, and in the same breath, she can say there are millions more stepping in, rising to the occasion: you raise me up, as the song says.
 - Legions upon legions of life forms are here that represent Lord Maitraya and the Cosmic Christ, this time of the return of these energies.
 - They can say with great . .

T: line one, Ross!

R: What did Trump and Xi really talk about in private, Mother?

M/A: what they talked about in private . .

T: Understands from Max Keiser that Xi whipped his butt, and he got his butt whipped before he went in!!!

- the message from Pres Xi is "make peace with your own moments that you have left, while you still have breath in your body because the return of the guardians of the galaxy is here" - she is using metaphors
 - President Xi let Trump know his time on planet earth is very limited; it is said with – there is a ramification with the delivery of the message is that there are more of us than there are of you, and peace and love will prevail; war is at an end.
 - To put it simply – we shall study war no more. Yet how this gets played out privately – China has told the Orange Cheeto that what you did to Syria, you'll be paying for it, not the people of the USA – the 13 families, mind you

T: Trump doesn't take very well to stuff like this, or does he have any choice?

M/A: he has no say in the story: it's about how they explain to us does the liar called Brain Williams or the other stories about how the media twists the story – how do we talk about the late Donald Trump – let's put it that way.

T: that sounds like – are you talking about Missing In Action here?

M/A: she is talking about the fact that we are dealing with a life form – we must understand, grok, inner stand the intricacies of the beings, the inner beings, the fire beings, the jinn, the life forms that go up to – and are under/within the jurisdiction of the Planetary Prince of long ago, Lucifera when he fell and 1/3 of the angels & other life forms went with him, and the jinn, the fire beings, went with him

- this is an archon; the best way to describe the life form is – the energy of the fire elemental being – not so much elemental but archangel on the dark side like Darth Sidious in Revenge of the Sith

T: are you saying archons and archangels are at the same level?

M/A: Yes, these forms when they are reversed and take the dark side of the force; they wield tremendous power and when you misuse it – as John Lennon says Karma will get you and knock you off his feet

- with all due respect commanders of the highest order: these lifeforms are knocking on heaven's door and the door is open; as you cross that threshold, have to look yourself in the eye and say "I am sorry; please forgive me, thank you, I love you". They have not, and she gets to deal with the situation.
- And the stories about her are true: she comes with the red dress, and the blood dripping, and her chin that hasn't been cleaned for a while - gotta go to the watering hole and wash up – it is – all these life forms that have done nothing except to exist in the

graciousness of the mighty I AM presence, All That Is – no matter what they look like - Lord make me an instrument of thy peace – how this unravels, good people, is in this sacred hour –

- this guy - talking to the stories around the virtual electronic campfire as we sit amongst the stars: the messages go out and all that can hear her, know the time is now. This is why we are all gathered here – the quickening of the hour, anticipation of what is to come – not about Mad Max: Beyond ThunderDome or [another one]
 - this is about how we enter this sacred circle and do the dance with Lord Shivi, Kali, Pele – Mother repeats the MaHa mantra and says that it shatters all illusions in this plane of existence, destroys the dark energies.
- At this hour, there are many throughout the ancient worlds spinning the prayer wheels; the om sound waves combined with vibration, light - we have the walls of Jerico coming down, resonance, frequency, light, colour, sound, vibration, heart energy: we are at an end of this cycle/story. Send more love to all situations for the highest good of all concerned
- as we are approaching this resurrection day, what comes to consciousness here is that physical immortality is reality on its face – we never need to die, to grow old, to get sick. The issues at hand are about how thought form energy – sometimes with a little push from other spaces, other places, and folks from other places: when a hobbit gets to drink a little too much, he gets a loose tongue and starts wagging his tongue and stories get told and stories get larger and the walls have ears and the fields have eyes
 - this sacred hour is this time; he who said “I shall return” , that he might come as a thief in the night – the words of the Office of the Christ are being spoken right now by humanity in all its forms.
 - Saying the way we heal this story: Lord make me an instrument of thy peace; how can I serve best humanity in this sacred hour; what is the first act I can do to help this situation?
 - Her answer from cosmosis or cosmos: love yourself for being alive in this sacred nano second to be able to do this mission and have a consciousness to love each moment of it, even if it feels like you’re on the crazy train with Ozzie & Black Sabbath – let’s put it that way for all us to get it. It’s that radical to get it done.

T: Gorsuch got confirmed today – thinking it won’t get a chance to work out?

M/A: what we have is a crooked court, a kangaroo court of the highest order that answers to death merchants called Jesuits

T: yes, but we have 4 good characters; he’s an extreme ideological character; it was a stolen seat in the first place; there was all kinds of lying and obfuscation during the confirmation, and \$17 M was spent by a shadowy cabal & we are not allowed to know who, yet likely to be those who have cases before the Supreme Court

- he is cruel - not only the trucker, but the autistic child – made a ruling using a word that stated an autistic child coming into a school district does not have to have any programs, and that’s considered an autistic education, special education – this is also a criminal set up because in the poor schools in the ghettos, which exist by design, the people do not own any property. When the money for schools comes from property taxes and the people own no property, the schools have no money and in the ghettos they are hell holes.

M/A: out of the ashes, the phoenix rises:

- Remember, they are visitors from our future which is their past; this is the timeline that changes everything **now** – one of peace – this is why the 13 grandmothers, Wise Councils of Elders, come into this story, along with Lord Zoroaster and the Guardians of the Galaxy – instead of looking at frail pale life forms who know nothing about sidereal basic education 101; yes, they have toys equal to the Death Star and at the same time, they [the galactics] are here
- This is why it ends here and now: Sat Yuga– we have 100,000 years to listen to Lord Krishna play his flute -

T: and that situation that says in 100 years we get tested again and the 100,000 years goes out the window – that get cancelled: asks about **what happens next**

M/A: It is how the 4 yugas go about the spinning across what we understand as the Universe of Nabadon and in what we understand as Polarity in a polar universe as opposed to what we understand as a non-polar universe.

- As more of them show up, and they expand on the wisdom of Dr Keshe and the wisdom of quantum physics, and how they interact with us and what we understand: we may call it magic; they call it quantum physics, hyper-dimensional physics, super science
- all the life forms that are speaking truth to power in the oceans now – the cetaceans are one voice saying “stop the killing now”, along with the bi-pedal life forms on the land
- We are in a divine, Sacred hour, and she can say instant karma will get them: her hands are clean, but the dress is bloody – send more love - Enshallah

Greetings in the Light of the most Radiant One, Kadoish, Kadoish, Kadoish – Adonai Sabaoth

- the silver surfer is on his way – Namaste!

R: was up the Taos Mountain; just sitting on the mtn looking at the sky, the stars – yes, it’s very cold up there -

T: when you are in the spirit body, you are not cold?

R: No, but he can sense the intensity, the pristine beauty of the snow – still a good 50” of snow left on top; can only ski there by being dropped from a helicopter.

T: they used to live around the 10,000’ mark – top is around 12,000’

R: the beings of Taos Mtns said send more love, send more peace to all the situations; things are being worked out, love is the answer and we are being mightily challenged

- what is ours to work with is ours; if it’s not yours to take on, don’t take it on

T: Ben Fulford was saying we’re being challenged for a war right here on our turf!

R: that’s right – and she asks who’s gonna drop it?

R: at the right moment, right here, it all gets stopped; maybe he’ll just say – Shephard Smith will just say remember when I told everybody about gold currency back in 2002 –

- Jan 2, 2002 he announced the euro being gold-backed – didn’t talk about gold currency
- R is talking about gold currency; somebody like St Germain may just poke him in the ribs
- Yes, he is a double agent; this is about disclosure and taking the leap – like in the movie **Network** – get on air and spill your guts! All the truths will come out about Saddam and Osama and Khadaffi **who are all still alive**, and so many other pieces – it’s about the Gates of Ishtar

T: transcribed the last of Bill Maher that was missed last Friday, and re-played on Sunday; reads it - it’s the New Rule piece – description of what enabling looks like in the realm of the rich and the famous – Bill Cosby, Micheal Jackson, and others are named - the great enabler is Max in a movie called *sunset boulevard* and the relevance of that film to the current political situation – calls Norma Desmond around the bend, batshit crazy – Max the man servant keeps the real world far from her: compares Kevin Nunnnes to Max, Trump to Norma – the whole audience and the panel are laughing loudly

T: watching the news is getting more and more difficult: every other sentence is a lie

In this episode of Redacted Tonight, host Lee Camp explains how scientists are gearing up to geoengineer the Earth's atmosphere. When scientists consider a serious alternative to taking emissions and climate change seriously, what could go wrong after we pump aerosol injections 20 kilometers into the sky? Nothing, right? RIGHT? Next Lee covers how companies have started inserting microchips into the hands of their employees. Little will remain of privacy after the company can track your every movement, and after the government and hackers take advantage of this new technology. In the second half of the show, correspondent John F. O'Donnell joins Lee at the desk to reveals what's behind the new North Carolina anti-LGBTQ law HB2, known as the "bathroom bill." Did North Carolina finally agree to more tolerance or will there be extra security on the bathroom line? Finally, correspondent Naomi Karavani covers the recent disappearance of the drone tracking app "Metadata Plus" from the Apple App store and how new technology might be used to enlighten Americans or keep us in the dark. This and more on Redacted Tonight.

"We cannot avoid observing the continual emphasis upon female sexuality as acceptable only when women were safely designated as the property of one specific male and that any deviation from the rule was denounced as harlotry or adultery and subject to punishment by death, making the sexual customs of the older religion rather difficult to follow." [p 196]

We may indeed find that the seemingly innocent myth of Paradise and how the world began was actually carefully constructed and propagated to "keep women in their place," the place assigned to them by the Levite tribe of biblical Canaan. [p 197]

2017-04-06 Swedish Medical Associations Says White Helmets Murdered Kids for Fake Gas Attack Videos

By [Gordon Duff, Senior Editor](#) on April 6, 2017

When will the war guilt of Nazi Germany come home to roost in America?

[Introduction by Gordon Duff](#)

President Trump is now threatening to take America into a war against Syria, Iran and even Russia, a war he says is justified by “evidence” he has received from the Syrian White Helmets. We will prove beyond any doubt that this is a “Deep State” organization, a melding of CIA, al Qaeda and Britain’s intelligence services. We now have “slam dunk” proof that Trump and the “fake news” MSM are and always have been in lockstep, playing us all.

Actor George Clooney knew that the organization Swedish Doctors for Human Rights had cited the “White Helmets” as child killers when he produced the Oscar winning propaganda video that may well have led to this latest outrage. The organization, SWEDHR is very real, their work authoritative and their indictment of the White Helmets for killing children in order to stage propaganda videos would have been known to Clooney and Netflix. They went ahead anyway. Why?

George Clooney: Accused by Swedish medical group of promoting child murder videos

Moreover, Google itself is involved, at war with this group and others, censoring them from their search engines. The information here will be new to Americans.

Please note that at no time has the White House or any western media acknowledged the controversy regarding the White Helmets, which we allege is part of al Qaeda's propaganda operations. Nor is any mention of the dozens of proven gas attacks by FSA, ISIS and al Nusra which are suddenly "forgotten" as though by magic.

The White Helmets, supposedly an independent NGO, receives up to \$100m from the CIA and UK Foreign Office, "dark project" funding. Murdering children is their stock and trade as we will prove. Sharing headquarters with Turkish Intelligence in Gaziantep, Turkey this organization is far more "death squad" than civil defense. Please review the included videos.

Children Murdered for Propaganda Videos

Swedish Doctors For Human Rights (swedhr.org) analysed videos, the rescue after an alleged attack by Syrian government forces. The doctors found that the videos were counterfeit, where even Arabic stage directions were overheard, and that the alleged "Rescue" in actuality is a murder. On first analysis, it looked as though the doctors working on the child assumed he was already dead.

M. Zakharova on SWEDHER's analysis of White Helmets https://youtu.be/WAxg9_T-W7Y

However, after broader investigation, our team ascertained that the boy was unconscious from an overdose of opiates. The video shows the child receiving injections in his chest, perhaps in the area of the heart and was eventually killed while a clearly fake adrenaline injection was administered.

This was a murder.

The doctors determined in its analysis:

- The video should be life-saving measures after a chemical attack with chlorine gas (now claimed to be Sarin-not possible), including injection of adrenaline via syringe with a long needle into the heart of an infant. In no way were treatments correctly given for any potential chemical agent.
- The handling and treatment of the child was done in a manner that was careless, dangerous and likely to cause serious harm.
- Most telling is the fake repeated shots of adrenalin, supposedly into the heart. The medical personnel, and I think we can safely call them actors at this point, failed to push the plunger on the needle. Thus, the contents of the syringe were never injected as is clearly visible in the video itself.
- The visible diagnosis by a team of actual medical experts, based on what is observed in the video, indicates that the child was suffering from an injection of opiates and was likely dying of an overdose. There is no evidence of any other agent, chemical or otherwise.

- None of the children in the videos showed any sign of being a victim of a chemical attack. From an earlier video by the White Helmets:

The White Helmets video and how to NOT correctly . . . <https://youtu.be/3GXz9ww7JY4>

- It was clear that the faked injection with the long needle administered through the stitches murdered the child in the video. This was a purposeful killing staged to appear as medical treatment.
- Behind the fake translation of the videos, the actual Arabic included stage directions for positioning the child for the video, not for medical treatment.

The White Helmets: al Qaeda with a facelift <https://youtu.be/8aAaReVn2I4>

- The videos were on the White Helmets-channel "Syrian civil defense in idlib province" uploaded. The videos were produced by the White Helmets, together with the organization "coordinating sarmin", their logo a black jihadist flag (Al Qaeda). In the video are also white helmets to see.

The Chairman of the association, Professor Prof. Marcello Ferrada de Noli, published at the beginning of March 2017 a first article with an analysis of the case: "Swedish Doctors for Human Rights: White Helmets video, macabre manipulation of dead children and staged chemical weapons attack to justify a "No-fly Zone "in Syria".

This was followed by more macabre discoveries in the videos not seen initially in the article White Helmets Movie: Updated Evidence from Swedish Doctors Confirm Fake Life Saving Practices Injure Children.

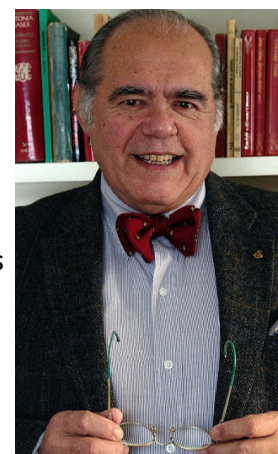

The collective findings of the Swedish doctors (swedhr) with regard to the propaganda and fakery by al-Qaeda in Syria: (Al Nusra) are in line with the findings of leading German and International Scientists for Syria War.

2017-04-07 GOP Senators Trigger Nuclear Option to Confirm Far-Right Judge Neil Gorsuch

Neil Gorsuch has been confirmed to the Supreme Court in a final Senate vote today, replacing Justice Antonin Scalia nearly 14 months after Scalia's death. This comes after senators voted along party lines Thursday for a historic rule change that allows Supreme Court justices to be confirmed by a simple majority. We are joined by Ian Millhiser, senior fellow at the Center for American Progress Action Fund, editor of *ThinkProgress Justice* and author of "Injustices: The Supreme Court's History of Comforting the Comfortable and Afflicting the Afflicted."

TRANSCRIPT

This is a rush transcript. Copy may not be in its final form.

AMY GOODMAN: We turn to Capitol Hill, where senators voted along party lines Thursday for a historic rule change that will allow Supreme Court justices to be confirmed by a simple majority. The 52-to-48 vote ended a Democratic-led filibuster aimed at blocking Neil Gorsuch's confirmation, clearing the way for a Senate vote today on President Trump's pick for the Supreme Court. Republican Senate Majority Leader Mitch McConnell said the move was necessary to break a stalemate.

SEN. MITCH McCONNELL: Judge Gorsuch is independent, and he's fair. He's beyond qualified, and he will make a stellar addition to the Supreme Court. Hardly anyone in the legal community seems to argue otherwise. And yet, our Democratic colleagues appear poised to block this incredible nominee with the first successful partisan filibuster in American history. It would be a radical move, something completely unprecedented in the history of our Senate.

AMY GOODMAN: McConnell's comments came more than a year after he led his Senate colleagues on a campaign to refuse to even consider President Obama's pick for the Supreme Court, Merrick Garland. Democrats quickly condemned the move by Republicans to end the filibuster in the Supreme Court confirmations, the so-called nuclear option. This is Senate Minority Leader Democrat Chuck Schumer of New York.

SEN. CHUCK SCHUMER: The nuclear option means the end of a long history of consensus on Supreme Court nominations. It weakens the standing of the Senate as a whole, as a check on the president's ability to shape the judiciary. In a post-nuclear world, if the Senate and the presidency are in the hands of the same party, there's no incentive to even speak to the Senate minority. That's a recipe for more conflict and bad blood between the parties, not less.

AMY GOODMAN: Neil Gorsuch is expected to be confirmed as a Supreme Court justice in a final Senate vote today, replacing Justice Antonin Scalia nearly 14 months after Scalia's death.

For more, we go to Washington, D.C., where we're joined by Ian Millhiser, senior fellow at the Center for American Progress Action Fund, editor of *ThinkProgress Justice* and the author of the book *Injustices: The Supreme Court's History of Comforting the Comfortable and Afflicting the Afflicted*.

Well, to say the least, Ian, there's not a lot of attention outside of Washington—

IAN MILLHISER: Yeah.

AMY GOODMAN: —right now being paid to what's happening in Washington, some concerned about a nuclear option, or a war in Syria that could lead to that, but not the nuclear option in Washington, D.C. At least it's not getting that kind of attention. Explain what's just happened.

IAN MILLHISER: Yeah, I mean, so what happened is that the Senate rules were changed to allow this very, very conservative judge to get through on a simple majority vote. And it's very sad. I mean, I'm not necessarily going to cry over the demise of the filibuster, but it's very, very sad that this man is going to be on the court. Neil Gorsuch is someone who's likely to be very hostile to voting rights, very hostile to women's rights, very hostile to LGBT rights on the court.

You know, to give you just one example of the sort of decisions he's handed down, in the middle of his hearing, he had, as a lower court judge, written a decision that severely hobbled a law protecting disabled children. And the Supreme Court unanimously overruled him—in the middle of his hearing. So this is a guy who's going to be very, very far to the right. I think that he takes, frankly, a very cruel approach to the law in many cases. And now he's going to be the key fifth vote on a lot of issues.

AMY GOODMAN: Now, Ian Millhiser, talk about the significance of the 60, versus 50, vote, how unusual this is.

IAN MILLHISER: Yeah. Well, I think what's unusual here is that typically presidents don't appoint someone who is this far either to the right or to the left. I mean, typically, presidents have picked someone who are likely to form most of a consensus. I mean, Sonia Sotomayor and Elena Kagan, both of President Obama's nominees, are liberals, but they're not—you know, they're not extremists. And, I mean, even John Roberts—John Roberts isn't someone that I would like to see on the Supreme Court, but Chief Justice Roberts, President Bush's first nominee, has shown some ability to moderate himself.

I don't think we're going to see that out of Gorsuch. I think that when you look at his record, he could potentially be as far to the right as Justice Thomas, who's said that federal child labor laws are unconstitutional. So, I think what has happened here is that this president decided to push the envelope as far as he could. You know, there's people he could have named who would have gotten 60 votes. He just decided he would rather have this much more conservative guy. And now here we are with the rules change because of it.

AMY GOODMAN: So, when will he be seated? On what decisions, if he is voted in today, will he be a part of? For example, the Muslim ban?

IAN MILLHISER: Right. I mean, the Muslim ban could potentially be the first major action he takes as a Supreme Court justice. I mean, that case, I believe, is pending before the Ninth Circuit, which is one step below the Supreme Court. Assuming that the Ninth Circuit upholds, or, rather,

leaves the decision in place halting the ban, then the Trump administration is likely to go straight to the Supreme Court seeking an emergency stay. And I think Gorsuch, based on his record, at least, is likely to be a vote to grant that stay.

We've got a ton of big cases coming up. We've got a major—we've got several major voter suppression cases, including potentially North Carolina's omnibus voter suppression law. We've got a big challenge to partisan gerrymandering, where he's likely to be a vote in favor of gerrymandering. We just had a case out of the Seventh Circuit saying that it is illegal to fire someone because they are gay. Gorsuch is likely to be—is likely to be a vote saying, "Oh, no, no, it's perfectly legal to fire someone for that reason."

AMY GOODMAN: Ian, I want to thank you for being with us, ask you to stay so we can do a short post-show interview. We'll put it at democracynow.org. Ian Millhiser, senior fellow at the Center for American Progress Action Fund, editor of *ThinkProgress Justice*.

2017-04-03 [Benjamin Fulford 4-3-17... "US and Japan are close to civil war as Rockefeller death leaves power vacuum"](#)

Posted by benjamin, April 3, 2017

The power vacuum left by the death of David Rockefeller has created a situation that, if not diffused, will lead to civil war in the USA and Japan, CIA, Pentagon and Japanese military intelligence sources say, The situation has reached the point where US military might march on Washington DC to do battle with the drug dealing faction of the CIA, Federal Reserve Board stooge politicians and their hired guns, the sources say.

In Japan, meanwhile, the split is between US controlled forces based around the puppet government in Tokyo and nationalistic plus North Korean linked forces strongest in the Osaka region, Japanese military intelligence sources say.

The de-facto abdication of the Japanese Emperor Akihito has created a power struggle over the Japanese throne, right wing sources close to the imperial family say. The Japanese right-wing block has been thrown into turmoil over revelations that Akihito was not the real son of Emperor Hirohito and was a proxy for David Rockefeller, they say. That is why a huge battle is raging over the succession with one group pushing for Crown Prince Naruhito, while other factions are pushing for..

...a replacement of the foreign influenced imperial family that has ruled since Meiji times, the sources say. The three legged crow secret society based in Kyoto, along with the Nichiren Buddhist sect, the Taiwanese and the North Koreans are pushing for such a fundamental change, they say. One candidate they are pushing for is Naoshi Onodera, a rival claimant to the throne, the sources ad.

<https://kauilapele.wordpress.com/2012/03/19/benjamin-fulford-3-20-12-rival-emperor-stakes-claim-to-japanese-throne-shows-evidence-he-is-the-real-deal-the-10-commandments-were-given-to-his-ancestors-by-celestial-beings/>

The establishment in Tokyo behind the current imperial family also has worries about Prince Naruhito, the sources say. His wife, Princess Masako, is a member of the Sokka Gakkai Buddhist sect and for that reason she refuses to take part in the Shinto ceremonies that are an essential part of an Emperor's job in Japan, they say. Masako is also the daughter of Hisashi Owada, a Rockefeller crony, they note. However, the current establishment is still willing to go along with Naruhito if he promises to carry out the various Shinto ceremonies without Masako at his side they say. Otherwise they would look for a successor within the current ruling family, presumably Prince Fumihito who has a son and heir, they say.

The group pushing to keep the current family in power is also arguing that it is the institution, not the actual bloodline, that matters.

The Japanese politician Ichiro Ozawa, for his part, has been travelling around Asia saying that Henry Kissinger has anointed him and that once Naruhito takes the throne he will unite Malaysia, North Korea, South Korea and Japan into a single country under his control, the Japanese right wing sources say. What Ozawa and the Japanese old establishment slave politicians fail to realize is that Kissinger has no power and that they are all destined for the trash can of history.

North Korean strongman Kim Jong Un, meanwhile, is in such a funk about the situation that he is permanently high on amphetamines and sleeping in a different location every night worried about being taken out by US drones, Japanese military intelligence sources say.

Traditionalists, meanwhile, are saying there is a need to go back to the way things were before Western imperialists turned Japan into a secret colony during the 19th century. They want complete independence from Western influence for the region, Asian secret society sources say. This [is] something the CIA and the US military are not likely to accept.

In any case, the arcane battle over the Japanese imperial family has worldwide repercussions. Apparently, at the very peak of the existing financial system, the representative of the oldest imperial line, that being the Japanese one, has control over the final seal that allows for the creation of new money, the imperial family sources say.

Now that David Rockefeller and his imperial proxy are out of the picture, the chaos accompanying the collapse of the post-war order presided over by Rockefeller has reached a point where former US President Barack Obama has been arrested by US military police, Pentagon and Japanese MI sources say. Obama's so-called black house or anti-trump headquarters was also set on fire, the sources say. Obama, upon arrest, began naming his bosses in the drug dealing faction of the CIA, the sources say. As a result, a plane containing Afghan heroin and North Korean amphetamines was impounded at Argyle International Airport on St. Vincent and the Grenadines in the Caribbean, the sources say. The money raised from this drug flight was intended to be used to finance the operations of Daesh (formerly known as ISIS), the sources say. This impoundment follows the capture of an Obama linked ship containing 4.2 tons of cocaine, the sources note.

<http://www.whatdoesitmean.com/index2262.htm>

Since the detainment of Obama, the authorities have been systematically intercepting drug shipments into the US. Last week 16 tons of cocaine were seized and a major heroin ring was busted.

<http://www.foxnews.com/us/2017/03/31/drug-seizure-bonanza-newest-coast-guard-cutter-has-banner-week-busts.html>

<http://abc7ny.com/news/mugshots-nypd-busts-massive-drug-ring-involving-new-fentanyl/1824452/>

The information provided by Obama on the drug money financed Daesh mercenary army has also led to US military actions against them in Yemen, Somalia, Nigeria and Libya, Pentagon sources say.

Donald Trump also seems to have shown he is ready to take action against the pharmaceutical corporations as well with a tweet honoring world autism day. It is rumored his son Barron turned autistic after receiving a tainted vaccine.

The US administration is also signaling a break with the Khazarians by having Trump boycott the March annual meeting of the AIPAC lobby, Pentagon sources say.

The Rothschild Khazarian faction also suffered a major defeat when their plan to merge the London Stock Exchange with the Deutsche Borse was nixed by the EU, Pentagon sources say.

This loss of Rothschild as well as Rockefeller plus Bush/Clinton power means control of the apex of the current US dollar/Euro/Yen Western financial system is at stake. In theory, with the right

people in charge, a new Emperor under the current Western financial system could authorize the issuance of trillions or quadrillions of dollars to finance a new age, multiple sources agree.

The Freemasons, whose worldwide network support this ancient system, elected Ralph Cosa of the Jesuit and Vatican linked CSIS

<https://www.csis.org/people/ralph-cossa>

as their new Grandmaster on March 25th, the Japanese imperial family sources say. It is not clear yet what Cosa plans to do but we will try to contact him and find out more for our readers. We assume it is world peace and the start of a golden age.

Needless to say, as more and more people around the world become aware of the nature of the current financial system, they wonder if it should not be modernized and put under more transparent, democratic control. Since the financial system is the true source of power on this planet, the battle over its control is in essence a battle for control of the planet earth, its living creatures and its future.

The Americans rallying behind the US military and Donald Trump would like to nationalize the Federal Reserve Board and put it under control of democratically elected officials.

However, since the United States is bankrupt, if the Trump regime nationalized the FRB without consulting the people who finance the US (mainly China and Japan), it would, in a worst case scenario, lead to a halt in US trade and the end of salary payments to US forces deployed around the world. This, in turn would lead to war and the death of 90% of humanity and the destruction of the Northern Hemisphere.

That is why there is so much at stake in the summit meeting this week between Donald Trump and Chinese President Xi Jinping.

Pentagon sources say "Trump also had his wings clipped" prior to the summit "as his son in law Jared Kushner was forced to kill the \$400 million deal with Chinese insurer Anbang because of National Security fears this would turn him into a Chinese asset."

Chinese secret society sources admit the Chinese invested a fortune in a Hillary Clinton presidency and were sorely disappointed when she lost so, it seems, they are trying to catch up now by buying the good graces of people in the Trump administration. To this end, a Chinese industrialist said the Chinese were going to offer to build many manufacturing hubs in the US in order to improve their relations with the Trump regime.

In any case, Russian Patriarch Kiril, Queen Elizabeth, Pope Francis, the Trump people, together with the Asian elders, now have a chance to fundamentally improve the post-war system. This would make it possible to once and for all end the terrorist and genocidal activities of the Satan worshipping Khazarian mafia. Furthermore, if a deal can be reached, trillions if not quadrillions of dollars (yuan etc.) can be made available to finance a massive campaign to end poverty, stop environmental destruction and set humanity on an exponential path of expansion into the universe in harmony with nature.

Massive investment could also be made to make immortality possible for all those desiring it. We can literally turn this earth into heaven if a deal can be reached for a golden age of peace.

2017-04-06 [School vouchers went down to defeat in Texas GOP led House big time 103-44 -Updated](#)

By [peagreen](#)

take it - it's your money you know

Back at the end of March the Texas State Senate Education Committee voted in favor of school vouchers.

From [Education Week](#)

A voucher plan offering families public money to send their children to private and religious schools is headed to the full Texas Senate.

Sen. Larry Taylor's bill would create state-subsidized education saving accounts for parents while offering tax credits to businesses that sponsor private schooling via donations.

The issue has long roiled the Legislature, with the Republican-led Senate backing so-called "school choice" but such plans stalling in the GOP-controlled House. There, many lawmakers worry about harming public schools that are the lifeblood of the small communities they represent.

...The House probably will defeat the bill, though, like it has past voucher measures.

And as they predicted, it failed big in the House-103-44 today.

[According to a piece in January in the Dallas Morning News](#) this was supposed to be the year for success. Gov. Abbot was fully "on board", attending the annual school choice rally in Austin where thousands were expected back in January.

"The momentum has really been growing over the last 10 years," said Brendan Steinhauer, a political consultant who is organizing the event. "The biggest change in the last year is that the governor is on board, fully supportive and will be speaking at the rally."

[...]

And even though, "Opponents see any attempt to funnel money from public schools as an attack", this is most definitely the year for vouchers in Texas.

But the political climate nationally for vouchers has never been more favorable. President Donald Trump's pick for education secretary, Betsy DeVos, is a vocal supporter of school choice, having founded a national group that pushes for vouchers.

(added emphasis)

[...]

So what happened here?

Earlier this month, superintendents and trustees from 60 Dallas-area school districts held a joint news conference urging lawmakers to keep public funds in public schools. **Taking money away will only hurt the state's most vulnerable children, who often can't take advantage of options, even with assistance,** they said.

Education leaders have banded together in other parts of the state as well to voice similar opposition. They say Texas already has choice within the public school system, including charter schools and specialized campuses.

For example, students can transfer out of low-performing campuses into better public schools under the state's Public Education Grant program.

Charles Luke, a former superintendent now coordinating dozens of groups across Texas for the Coalition for Public Schools, said vouchers or similar programs like education savings accounts would siphon billions of dollars away from public classrooms instead of using that money to improve them.

The plan was for education savings accounts so somehow that makes it better than previous plans -

Stephanie Matthews, a senior policy analyst at the Texas Public Policy Foundation..., insists that education savings accounts are fundamentally different from vouchers.

"Instead of the money going directly to a school, they work more like a health savings account — a restricted-use debit card that goes straight into the hands of parents," she said.

So, though this was supposed to be the golden opportunity, voucher supporters [lost big in the Texas State House](#) today.

...103-44 vote came during the House's larger budget debate and could kill a sweeping "school choice" bill approved by the state Senate last week.

Republicans control both chambers but while many senators see vouchers as a civil rights issue that helps poor children leave failing public schools, **the House has repeatedly defeated any proposal that could hurt funding for traditional classrooms.**

House Democrats opposing vouchers typically team with Republicans from rural communities, where schools are top employers as well as social centers offering football and other popular activities.

Anticipating opposition, the Senate voucher bill exempted communities with fewer than 285,000 residents. But overwhelming House opposition didn't waver.

The presence of Betsy De Vos as the country's new Education Secretary and her major drive for vouchers made no difference in Texas today.

Thank you to Catte Nappe for posting the link to an article yesterday in the Texas Tribune -[Texas Lt Gov Dan Patrick asked for a House vote on school choice. He got it.](#) Well worth the read, but I want to highlight some of it-

Top House education official Dan Huberty has said private school choice is dead in the House. Representatives showed they overwhelmingly support that sentiment, in a 103-44 budget amendment vote.

House Public Education Chairman [Dan Huberty](#), R-Houston, has said a [private school choice bill would not make it](#) through his committee, drawing criticism from SB 3 supporters. Asked if it was dead to him as an issue, Huberty said, "I believe so, yes." He voted for the amendment blocking money to the tuition subsidy programs.

"Quote unquote absolutely not," said Rep. [J.D. Sheffield](#), R-Gatesville, when asked whether the changes to SB 3 carving out his counties from participating would change his vote on the bill. "Just because they sweetened the deal to pull in some people doesn't mean it's a good deal."

In late March, lobbying group [Texans for Education Opportunity used an online campaign to generate thousands of letters](#) to 29 state representatives lobbying them to back education savings accounts, one of the subsidy programs in SB 3. Though the group claimed the letters were credible, the letters stirred up suspicion after no representative could find a constituent who remembered adding their name to that correspondence.

Of the 29 representatives targeted in the campaign, 26 voted Thursday to block money from funding "private school choice" programs.

These folks know that, as was pointed out in one of the articles in the original diary, that they already have "choice". And they know positively that this will take money directly out of their local schools and Texas public schools in general. And as was pointed out in a conversation I just had with my temporary Texan resident family member, they know that the money that gets sucked out of the public schools has to get made up somehow and that will mean even higher property taxes and/or damage to the heart of their communities- their public schools.
