Global Public Access to ICT

The Center for Information and Society (CIS) has recently published a document containing a collection of short summary reports for each of the 25 countries included in the Public Access Landscape Study. Please click [HERE](#) to see the full report!

June 2009

Telecentre-Europe Summit

The Telecentre-Europe Summit 2009 will take place in Istanbul - Turkey, on 14th and 15th October and will bring together up to 120 telecentre networks' leaders and executives from at least 50 organizations representing more than 20 European countries.

The Summit will see the launch of a range of thematic resources that will be of direct benefit to member networks, the launch of a members directory, and the final consultation regarding the legal entity of the network.

Please put the dates for the Summit in your diary and look out for your personal invite. Please keep watching the website for further news regarding the Summit!

Thematic resources

We are currently developing a telecentre resources bank that will collect best practices, guides, tools and any other resources that can improve telecentres' effectiveness and efficiency.

The resources are divided in 5 main themes: Employability, Sustainability, Capacity Building, Accessibility and Citizenship.

Therefore, if you have any documents, applications or other resources about the themes mentioned above, please don't hesitate to share them with us. We are convinced that collaboration inside the network is essential to build a rich resource bank for all Telecentre-Europe members. Please send your materials by email to network@telecentre-europe.org
