Hard News:

T: the snow storm in the NE is a rigged event: it covers a multitude of sins:

- Japan's economy in the toilet
- for the last 2 days, Angelca Merkel and David Cameron are holed up, yelling at each other - she will have to get up and talk about her father!
- The EU budget has been cut for the first time - people already starving!
Cameron -[Max Keiser has said what he thinks of Cameron] Cameron thinks there was excess
 - Merkel, Cameron, Merkel and 27 others - went from \$1Trillion + to \$959 Billion - a drastic cut;

to go to 2020 - not nice!

- one quarter of the people in EU are out of work, students 50 - 60% unemployed!! Germany a bit better off thanks to fact that most people are in a union: hours are cut in half or workload so more people keep work; but the society has more and more old people, and a low birth rate - an older society - not enough in work force; now special programs for doing things: have a scheduled program to dismantle the nuclear plants & put up geo thermal and have created 2 cities off the grid; people from various EU countries are going to Germany and learning German and trained to work in that work force

- Leaders still trying to cling to power - this agenda is totally cancelled; spending cuts on the infrastructure, transportation, scientific research, education

- Bill Clinton spoke at Democrats retreat - this is no time for austerity or cuts; time for growth Sam Seder and Mo talk Rama he did one of his TED talks and jaws were on the floor

- Bernie Sanders was saying the same thing - into research, energy, transport, bridges, roads, organic agriculture (not agri business) - even in the forests, they are finding bushes, plants that are GMOD - we will need lots of galactic help

- In India, worms are destroyed, organisms in the soil are depleting - Vandana Shiva has developed many strains of seeds that can grow with little water

Native America Calling from KUMN- starting to grow native, heirloom American grains so they can feed their people in Michigan, Minnesota

- A serious moment: plants that are GMOD will eventually quit growing, re-producing and we will lose our ground cover, foraging plants, and so on.

Thom Hartmann: though it looks like Obama has staved off the Keystone Pipeline, those involved are barging right through people's land and throwing them in jail from the south end up to the north - it feels like what's happening here; the environmental scientists are saying game over

- **Sam Seder & Mo** about the John Brennan hearing yesterday - said there were more demons in the room again - a tail wagging the dog scene

- R asked them about the potential for Obama and full disclosure and such things:

- they said we will not say what Obama will talk about on the State of the Union, yet he is working hard on it; R has heard it will blow some people's minds! There are still stories that he will discuss the structures on the moon.

T: Mereline on yesterday's program Feb 7th: on May 20th what we are waiting for will happen - a whole new Yuga that has not happened for 26,000 years - a whole yoga ago that did not happen will happen on May 20th

- T spoke to Richard and he looked at the date: **OMG!** This is what we have all been waiting for!

R: A new moon tonight at 11:20 PST - after midnight

- the year of the Water Snake coming in: Sam and Mo : the story of miracles now - we are looking at the fiascoes happening at such a deep level, not related to reality - he brought it up to Ed today that Al Queda - all CIA; 9/11 - black ops [Sept 11, 2001] nothing to do with Osama bin Laden or any of the other stories - **ALL CIA** - torture czar was Brennan

- **Sam and Mo** said Brennan and Chuck Hagel may not make it: B O's job was to put all these ones in positions where what they do and did would be revealed: he has lined up all his tin soldiers and they are falling: accountability - many discussions about war crimes tribunal - **there will be a War Crimes Tribunal dealing with the events called 9/11**

T: David Cameron - people in England are furious with him:

- European Council President Herman von Rumpuy talking of having more money to make things work: the EU parliament will start a new deal now - what was done is meaningless.

- By March 1st, the sequester story - the circus of hoops of the criminals in Congress who have no interest in helping the people
- T:** news people are talking about the State of the Union address and that Obama will lay it out about the sequester and about Bill Clinton - there has never been a presidency where the past one has had so much to say to move the energy and to be in charge of explaining things
- Sam Seder said that the cultures here are about to be supercharged - we have asked for this to happen as we re-discover ourselves at the deepest levels; as we understand / over stand how to help each other at the greatest levels, we can transform this over night.
 - Heather Ann Harder a long time ago said on George Noory / Art Bell show - we can heal this planet in 30 days
- T:** On Saturday, will hear about **Tesla devices which can create water, food, energy out of thin air**
- A major Tsumani in the Solomon Islands: 3,600 homes destroyed or damaged beyond repair
About 6 years ago had a 8.0 quake and tsunami so not going back near their homes
- R:** Rand Paul to deliver the Tea Party response to the SOTU; Rubio the Republican one - these will not be based on anything true or anything based in substance
- the depth this man is walking with his family & such a razor's edge to get the job done, and the hate towards to him and his family so thick you can cut it with a knife: - praise, respect, thank and love the feelings that come up - this is not about family values that are about hatred, this is about changing 520 years of missing history , son of Malcolm X - this brings in the hyper dimensional aspect; the black masons who built the infrastructure of the capital, DC - lower levels of DC
 - There is a major work that Tyberonn and Graham Hancock have done: will hear it on Saturday - about where we are going on our map of consciousness
- al Jazeera English: on Honduras - Milton Friedman's free market theory - the libertarian theory that assumes perfect knowledge - might try and do that in Honduras, like they tried in Chile
- R:** the 13 families think they are the caretakers and stewards of this planet [there is no care and no stewarding going on]
- It is about invasion and occupation that goes back 65 million years and 450 billion years
 - in Honduras, the elite are stealing the land from the aboriginal Hondurans to create charter cities, a 21st century colonialism and make their own laws.
 - President Rosa Lobo of Honduras he took over, supposed to be smart, but this is not an economic or political strategy for the people who want to go to democracy, but for the elitists
 - Honduras suffered the loss of 35,000 people during the floods in 2005; they have not recovered and are really really poor; they had a de facto dictatorship in Honduras thanks to Hillary and a military junta for 5 months - killed the people and any leaders of the time
 - the economic impact of putting those cities on the peoples' best land is incalculable.
It's an Ayn Rand concept being pushed down people's throats by the oligarchs
- In Tunisia, not taking it either: killed their leader - violent clash with police at the funeral; the people know the gov't did it, as Americans know their leaders did it too - year of the snake will be a break through
 - Lots of things going on: Bill McGibbons reminding us where there is a will, there is a way - Mother Earth is on our side
 - www.GoForRabbitTV.com - go there and find the gadget
 - Bill Clinton was talking about divvying up the wealth between the people - the theme of NESARA - Jon Stewart and Steve Colbert were also at the Democratic retreat in Virginia
 - Shokra Baleid - the activist shot to death in front of his home on Wednesday
 - Michelle will be at funeral in Chicago of the young girl who was taken out - Hadeya Pendleton

T: in response to comment that the combined brains and ability of both Clinton and Obama are needed to keep things going in US & around:

The story of hedge funds:

James Gilmore was in charge of the Big O; but before that, he was in Europe in 1987, when he was a go-for for the House of Charco, a British name that goes back to 1949: this family was the first of all the note-holders. There were 40 originals that were worth 100s of billions to trillions, and there were 5 that were worth the most.

Sam Brown was the "house boy" in the House of Charco and he held the notes. He hired an English couple called Charlton to do the hedge funds on behalf of the House of Charco, as they had been doing hedge funds since 1949. They, in turn, hired James Gilmore to be their go-fer.

By 1980, there was another program which was the extension of Charco that was supposed to be for the people - but that note James Gilmore decided should go back to the people, not to the elites - the idea that he wanted to do that people pushed for it.

Gilmore had a secret because he knew the Charltons were syphoning off money from the hedge funds for themselves. He had help from one of the Rothschild bankers and located the private trust account in Switzerland worth \$1.5 TRILLION!. He let the Charltons go for another few years and by 1991, the account was worth \$2.5 Trillion [such is the way that hedge funds increase]

In 1991, the P2 Lodge / the Vatican got involved; they killed the Charltons and filled their every orifice with plaster of Paris and dumped their bodies in the French Riviera so they would sink; as they were British, Interpol was involved. Divers found the bodies as the mafioso dumped people in that particular spot regularly: the message is if you do the same, you are next. So James Gilmore went to the US.

Then Moneyworks, 1991, was started; a rip-off - a person they call Mike Blass Crews [?] headed up this program; this got the people going -

In 1991 Sam Brown left to go to the US and, in Georgia, Gilmore filed a ?? against that note Sam Brown had and was put in witness protection program. Somehow, Gilmore got hold of the note worth trillions of the Charcos' hedge funds and opened up a war chest:

- This action was nebulously lawful by statutory law [remember that it is considered lawful for the lawmakers in Congress and the Senate to do day-trading all day long!]: a war chest has a double opening: the one who holds it can take money from it and use it to buy larger sums
- There were such war chests in Santa Fe, NYC, LA, Salt Lake City - in metropolitan areas all across the US: people could come and put in \$100. The war chests were set up in such a way that a contribution to the war chest allowed Gilmore to get hold of the note and do litigations so he could get hold of the funds resulting from the contributions; Mike Kadowski did the same thing: he was attached to one of the war chests in Albuquerque - and there was another

Case is still open - the bodies have been piling up every since, probably millions dead.

In 1977, Bush Sr was head of CIA and Carter was in office: Carter was killed and cloned because he decided not to cooperate with the petro dollars; he put the solar panels on the roof of the White House and created a program to help people get off the grid with their own panels. Obviously the oil monsters did not like this

Lots of cloning: Hitler learned how to clone from the dark Satonians under Antarctica; they had forced Tesla into Area 51 and forced him to clone himself , then they put the Tesla clone on the surface and the real Tesla remained underground.

D'yanna came across a painting that his son had gotten in Germany in WWII - a painting of Pope Pius XII who is still alive; he used the time travel technology along with Hitler to go to 24th century. D'yanna had the painting assessed; when this process happened, those involved looked through the back of the painting and there is a map of the Argatha network showing an entrance to the Catacombs which Pius and Hitler had used to access the time travelling locations. Mother said to keep it until after NESARA: in the meantime, the Ashtar Command retrieved the pair of them from the 24th century and are keeping them in a time lock / brig; Pius XII, Hitler, Saddam are still alive and being held. Ghadaffi is also alive and in a safe place, may or may not be on the ships - he was really helping the people because he set up a separate economy to the petro dollar with a gold-backed currency that could be used all across North Africa: the people really cared for him; the Taurig - Hillary and the French are in bed with what they did in Libya.

This is about our criminals and what is happening in Syria

T: Update on the media / gun running / drones

- Jennifer Granholm no longer on Current TV at at 6 pm - she is praising Hillary; so is Joy Behar
- John Fugelsein getting into some good things: listens to these programs
- This flurry of praising Hillary: the **pundits have to do this praising stuff** as well until the media is free to tell the real truth.

- the gun running is going from Libya to Syria - who helps with the guns? **Mr Lapierre of NRA**
- The drone czar as head of CIA: promised to move it to the military
- Trying to make Chuck Hagel head of military: he is guilty of espionage - had to do with nukes and Chernobyl
- **Japan:** Bldg #1 of Fukishima - no one has been allowed in there to see what is happening
 - the last time Bill McGibbon was on, Fukishima is still spewing stuff into the atmosphere, **10x worse than Chernobyl** - without the Altimarians, would be even worse - even they cannot keep up to what is happening. They can only help a little; we still have to do things -
 - the US is the most reticent of the group - there is a much more activist movement in the UK -
 - **Germany:** in 2003, Gerhard Schroeder put neutron bombs and delivered them
 - used the stealth bombers, triangle shaped bombers - killed 20,000 people instantly and radiated all the rest!

Caller: read that Venezuela devalued currency by 46% - done yesterday

T: hasn't heard of this; Chavez is not back yet from Cuba

Caller: saw it in Wall Street Journal, business section of Yahoo News

T: in last Keiser report, spoke of a deficit economy across the world: running a deficit on purpose in order to take out the economies of entire countries. This means that the countries will need to be bailed out and the people need to go into austerity to boost through the banks in their countries - and the elitists make double, thanks to LIBOR as well. The global GDP is ??

- The elitist groups have lots of money, yet it is not worth anything
- For Venezuela to go into deflation like this . . .

Galactic Hologram of the Orion Wars [read Solara's book: **El-An-Ra**]

There was a dark council called The OMNI and the members were 3 dark lords:

- Lord Zion - now in 3D, Don Roberston - a war chest head
- Lord Triax - in 3D, Mike Kowdowski - also involved with war chests, now dead
- Lord Narcron - 3D, Diane Fitch involved with the war chests in Atlanta with Gillmore
- So the Orion reptilian war was and is being continued on earth; the war also was continued the war in the 5th dimension, trillions killed then. During that war, the constellation called Ophiucus / Ariadne / Arachne / Dolphin constellation was completely obliterated.
- All the 78 programs which are providing the money for the NESARA program are hedge funds; as part of the process of creating that money, we rubbed shoulders with the dark ones - anyone who got into the big O, the farm programs, the D fund
 - The big O was so called to bring back the consciousness of the Ophiucus constellation - the 13th constellation: the 13th constellation and we - all of us - were blown out of the sky! They nuked us, Darth Vader and the clan!
 - Then Metatron re-constituted us from our etheric blueprint; he also re-constituted the constellation. The man symbolized in the constellation - holds head and tail of a serpent, one foot in southern hemisphere and one in northern - bringing head and tail of polarity together; the man doing that is St Germain and bringing the teachings together - the material if the I AM University and the I AM sanctuary in Chicago where the books were printed.

Caller: Sagittarius B - were we spewed out of Sag B then? What does Sag B have to do with Ophiucus?

T: Sag at 27* is galactic centre; like Washington DC is the capital of the world, the seat of power for the whole world; Sag 27* is the capital of the MWG.

Caller: This universe is 27 diff galaxies?

T: 27* is where the galaxies meet - at a dark hole!

Caller: What happens when Andromeda gobbles up the MW G ? [NOT ANSWERED]

T: it's magnetic light which travels 10B x faster than our current light

Caller: this is why manifestation is so easy now?

T: Why we are being told that 4 linear years are going by in one minute!!!

T: a lot of people feel like they don't know where they are any more: so much praising going on . . .

Caller: who are the ones at the very top? Does the word "notes" refer to gold certificate notes? Where do they come from?

T: they were issued by Central banks during WWII - have to do with the Bank of International Settlements

- One of the notes for Greenlight [Tommy Buckley went to the Texas main bank and asked why they were holding a note that did not belong there; he got out the first time with his life, but eventually was killed because he knew too much - St. Germain has it now! These ones have nothing!

Caller: What is the purpose of cloning someone: is it for control?

T: they always have to use some DNA from the original to create a person;

- the clone of Hillary ran in the primaries; the real one was in The Hague June 2007 - Nov 2008
- a clone of Bill was with her: the real Bill was in a witness protection program
- There is no killing without lawful procedures - they had to be dead, but clones were put in place until such a time as people would understand what had been happening.
- **Round 2:** trying these people ie, the clones - is the next step; people have not been ready to hear about

what has really been going on: people were going into economics or money making, not light working.

- The dark operations those people were doing had to continue until the rest "came to" and understood. They will be tried in The Hague; thousands have already been tried and the indictments are waiting to be released - the work of special prosecutor Patrick Fitzgerald.
- The cloning operation allows the White Knights and the Ashtar Command to have the ability to complete the arrests seemingly in an instant: all they have to do is delete the clone or the hologram, and it is finished - in the meantime, people have begun to understand the enormity of what has been happening on the planet - and has been for thousands and thousands of years.
- Keeping money in banks allows the bankers to make 40x the money by using your money to put in hedge funds.
- In 2006, Dove convinced Carol Davis to host her on her show: in 2002, Dove got hooked up with Ted Gunderson - this part of the conversation was not completed

Music: MI for magic and miracles; healer of DNA - one of the Solfeggio tones

MOTHER

Greetings - in the Office of the Christ and only in the Office of the Christ, we invoke the loving energies of St Germain and the Violet Flame

- ask for deep healing for Mother Earth and all who need it; that this energy of heart transformation and transfiguration so that our comprehension of the kind of light that is here- that light: we talk of her Yanni, which is not a 3D term: the energy of magnetic light coming from a black hole in space where the super galactic centre of the Milky Way Galaxy is located; Mayans call it Hunab Ku and on March 8, 2009, the Hunab Ku went up a higher octave into a new time-space continuum and the magnetic light flooded our planet, and at a core level, all life and our DNA was being prepared.

Greetings, Children of Ra!

- In these magical moments of the new moon frequency coming in and NEMO, the nor-easter coming in - quite a dance! We are crossing the galactic plane; miracles are afoot with the photon belt - all the miracles are afoot. We are in a time of transfiguration; the call has gone out and the energies are responding with a new DNA that is transforming within these temples of the living god; your DNA is not what it was on Dec 21/12 - completely different!
- There is an uptick in the frequencies of what's happening with your strands with DNA that has to do with the physicality of what you have asked for in this time of miracles afoot with the new reality that is unfolding.
- Another 4 years with Mr 19.5* - who could ask for anything more? Do not believe the lies put out since 9/11 - This is not about Al Queda - there are lies being put out. The story goes back to 9/11; to this day, Posse Comitatus, Habeus Corpus - do you think you're safe? They have been fooling the folks for far too long for the stories which have gone on; nothing to do with Obama in his infinite wisdom of playing this game of CIA - has nothing to do with the fake war on terror, just a cash cow & keeping you hiding under the bushes
- the Bush family e-mails were hacked into by Anonymous as well as those of the Federal Reserve - all of it is unfolding in a very good way

T: when will Julian drop those others?

Mo: any time now: the moments we are now experiencing, we have not experienced for millions of years in these moments that are coming across now - they have everything to do with the truth coming out of who

& what you are: co-creator gods

- We are dealing with the how of it? Everyone is asking to be put to active duty - it is your Higher Self calling yourself to active duty - Occupy something; do something now to help this Ship of State turn around:
- This has everything to do with our bodies and their DNA and the particles pouring in from Galactic Source / Great Central Sun / Alcyone: the energies coming in were chosen for this moment, about the DNA of this moment of the silica frequency; at this time, the crystal children - the crystal grid is fully powered up, things happening in such a good way
- At the same time, everything you are watching - the so-called face-off happening now began with the morning of 9/11; many other layers are unravelling as fast as magnetic light speed in this moment, and it has all to do with the story called LOVE in this moment now.
- The people engaged in this story who have a piece to play have shared this information - it is already downloaded and downloading for us - about the DNA download of the particles that are downloading and changing the temple of the living god - it is why we have moments of brain farts - due to the energy re-wiring; organs are being changed and tweaked: the mother board of this temple is getting an upgrade.
- It is about how much we can handle; as we ask for more, it is increased even more with the frequencies that are happening in this moment - all in this moment has to do with the fact that we asked to be here in this twinkling of an eye to make a difference: even if we think we are not making one iota of difference, we are -
 - the very fact that we are here, aware, on the planet, in a body, is changing everything because we have called ourselves to active duty.
- This is about the new sheriff in town - the story has yet to be begun to be told: the people of Mother Zudiachus / Africa; the Bantus, the Sirius people, the people of Haiti who are connected with voodoo, Aristide - **this is only positive to be connected to the goddess**, the goddess energy that is within us that changes everything; it is the Source of all That Is. We are Creator Gods. The stories yet to be told have to do with the Water Snake, not the talking snake of Lilith, & Eve and Adam, but the water snake coming in at this time that has to do with magnificent abundance, orgasmic ecstatic joy - something awesome to behold.
- And as we are as excited as Mother, the frequencies that are holding us in place are increasing in frequency to change this at such a rapid rate that it is hard to keep still, it is so exciting to behold what you are experiencing and what she is experiencing watching us having these moments of ecstatic joy - this is about infinite bliss, wisdom and joy. We are already in Nirvana: it is about how we choose to experience Nirvana even as we sit in Gitmo

T: we were talking about dragon tales and Charco & the "sci fi" story: those original gold certificates represent intergalactic gold - not about the actual metal

Mo: it is about what is in your veins - gold dust - as the transformation occurs - it is about the nirvana ecstasy - immortality

T: the notes, in terms of financial things, were instruments that were abused

Mo: they were energy used in the wrong way to benefit a few while the whole of the kingdom is here:

- yes, Lucifer, we love you, we send you into the infinite wisdom of bliss and joy: yet you hold no power here with your kingdom of false lies - the false story of the kingdom is falling by the wayside because we the people of this local universe have said slavery is over.

T: to finish the story of the gold certificates: they absolutely wanted to take out the entire economy; capitalism has degenerated into a form of corporatism that is very ugly - Karl Marx wrote that it

could only last for 200 years and this has gone on longer

Mo: it serves its purpose no longer. Time to change it to a wisdom based economy: as the land prospers, the people prospers

T: St Germain / Sir Francis Bacon gave the formula to the Bauer family, now the Rothschild family - told the royals and their bankers that they were to prosper the land and the people. When St Germain came back and extended his influence with every visit he made - he promised that he would see to it that the idea, the grand leila, the grand experiment we requested in anti matter in the Aurora Sun system Pleiades

T: we wanted to take on a co-creative form with Mother and spiritualize it and bring it higher and higher levels of awareness, consciousness and ascension; there was a fork in the road; some brothers and sisters said they wanted to be Darth Vader and we don't want Mother around; carnality was a risk - when the enjoyment that was part of the intimacy and sexuality was part of the creation, that was the snake

Mo: that was the place where you get a thrill in the back seat and when it is over, there is nothing left - still here, still broke - was to be about bliss and joy; never intended to be about temporary pleasures

T: the temporary pleasures are involved with the 7 deadly sins: involved with power and greed, not deeper and deeper love

- Thought maybe that the change from the form of a dragon to the form of snake, and the story of the snake and Ophiuchus and St Germain healing the polarity and Humpty Dumpty sitting on a wall - all the kings horses and all the kings men could not put Humpty together again - we are not going to restore the same system; we will re-form it - no more algorithm formulas

- Here comes Bill Clinton giving a speech about re-distributing the wealth - the power of the snake / kundalini is something quite different - the kundalini has nothing to do with carnality

Mo: there is so much is unravelling in this moment which has to do with the magnificence of what we are seeing in the bodies of you all - this planet, this sector changing so much for the higher yet you cannot see it yet - yet it much more

T: what does it mean to have 4 linear years go by in a minute?

Mo: a minute of selfless service to the One Source of all that is - share the wisdom of the heart with others

T: a question asked about why is there cloning? What's its use?

- Its use - the secretive things going on behind the scenes, so much started - how will it end? The bigger story is interwoven

Mo: it is about the inter universal story about how we heal a planet in the twinkling of an eye which is virtually unheard of at this time.

T: I am another yourself; enshallah! even Hillary is part of the whole: we had no idea how we were going to bust these guys: the only way was to buy time, so the White Knights who knew about mind melding and the galactic Wingmakers and Dove [Bush had Dove taken out by Ted Gunderson and then had Ted taken out!]

Mo: this has been about them taking each other out: who can get on the top of the pile of gold?

T: This story has never been about the gold - Dove got into that - she met Ted G and got into hedge funds

- Poofness on Thursday: Sherry Shiner was "born again " a useful tool to keep the off-track, limited misconception of fundamental Christianity with which Jeshu had nothing to do: all she wanted was power and to use the money. Since 1972, there **has been no gold in the system**, only the oil / fossil fuels which is killing us - and people trying to deny this:

- oil comes from magma [see **The Last Hours of Ancient Sunlight** by Thom Hartmann] - burning the oil is stupid; killing people - Beijing is a hideous hell, where people wear masks all the time; burning coal, people dirt poor and going for getting rich and there is nothing in the middle

- China uses more coal - almost as much as the rest of the world put together!

- Are we at our worse yet? [Reference to what Mother always says: Humans are at their best when they are at their worst!]

Mo: you are pushing the limits! And the limits are pushing back and saying now is the time; you are being given the final moments to make a quick change over so everything is copacetic in the Alpha quadrant

T: Hillary was with him

Mo: it is about the sham until it isn't; Mr Bill knows how to handle that woman! [rather evil chuckle!]

T: Ashtar through Susan Leland said it was not nice to kill 86 people the way she did in Waco: she sold her soul to stay alive. **How are we going to do this with justice?**

Mo: the piper has come to town to collect

T: This process has to do with not putting it on one person - WE ARE ALL RESPONSIBLE - ABLE TO RESPOND. Yet she is no longer who she was - we see only a remnant of the soul of a clone look-alike - it is about healing all the fear, the foolishness of thinking there is a short cut to all of this -

- Mike Papantonio said it well "Stop hating the black man in the white house"

Mo: that is what it is about: drop story of skin colour, about the difference between species

T: most amazing thing that Bill C will come out smelling like a rose because

- on October 10, 2000 he signed NESARA into existence.
- In 1999 we started the 8th wave of the Mayan calendar which lasted for 12 years to March 9, 2011,
- then we entered the 9th wave the short form ended on October 28, 2011; the long form ended on Dec 12, 2012 [12-12-12]
- and we got another layer on Dec 21/12. which started on Dec 3, 2012
- So we had the lower and middle and upper worlds of the magnetic energies that have not been here for millions and millions of years - just beginning to
- Being at the HUNAB KU Centre where 27 galaxies merge: the super galactic centre, the Hunab Ku, adjusts our DNA and we get another DNA adjustment on May 20th

Mo: this is about the DNA and the transformation of this spiritual evolution / revolution: mutant and proud of it!

T: There is to be another version of the Lincoln story with Tom Hanks - will he tell the truth?

Mo: maybe about Mary Todd Lincoln and other family members plotting her husband's death; the Collins family have always had more power than the Rothschilds - maybe had to do with the colour of his skin.

T: coined 12 million dollars [12Billion at the time] directly from the treasury; essentially told the Rothschilds to step aside - not a nice man - ugly in many ways

Mo: He was very traumatized: basically raped the woman and did not help her at all when she had twins

Mo: it is a challenge to be in this dimension and to be a good householder and not be insane doing it [said with a chuckle!]

T: these gold certificates represent going from a carbon-based molecule in our 3D form to a silica-based form, a crystalline form and managing the encodement of being a crystalline light body which is lit by magnetic light which travels 10 Billion x faster that what we are used in linear time: nearly unimaginable - just listening to Dr Keshe describe the magnetics will help

Mo: James Tyberon and Graham Hancock: a magical traveller - talking of the evolution / revolution in this temple of the living god & activating our somma / immortality - we can do anything when we activate it.

T: let's keep to the physical part of the BBS show; be sure and donate every night - everything we make as contributions encourages others to donate too. We are creating divine govt - we are taking the money out of the maya and putting it towards divine gov't.

Mo: Ashley Judd going to mop the floor with Karl Rove - she will take the Turtle's place. There is so much unfolding here as to how the goddess is getting active, and how we set ourselves up in this republic - the price of freedom is eternal vigilance. What is happening is the evolution / revolution - the indigos are here and so are the crystals

Episode 403 <http://rt.com/programs/keiser-report/episode-403-max-keiser/>

In this episode of the Keiser Report, Max Keiser and Stacy Herbert discuss the Wall Street schmatas now warning of bondpocalypse as bonds now considered 'risky' investment. They also discuss both George Osborne's electric fence of new financial regulatory powers which are same as the old powers that have never actually been used against the Too Big To Fail banks, and the London lawyers suggesting that the level of manipulation of Libor was so great that contracts tied to the rate should be considered null and void. In the second half of the show, Max talks to John Butler, Chief Investment Officer at Amphora Capital, about the bond market, currency vigilantes and the not very hidden inflation.
