• 3<sup>rd</sup> dimension is not longer here - merged with 4<sup>th</sup> in 1987; by 2012, we had been 26 years in the 4<sup>th</sup> dimension - experiencing meditation, invocation, solfeggio scale attunements - all fine-tuning our consciousness with the etheric world of 5D

• just because we are not ready to accept something, does not mean it does not exist. Those who are intentionally causing harm - their physicality at the heart level cannot survive: they will go numb or do drugs or something to alter their awareness: we do the same thing - like procrastination

• let this energy which is coming in now work - at the same time, there is a counter indicator that does not want it to work.

## **MOTHER**

Greetings in the light of the Most Radiant One; in the Office of the Christ and only in the Office of the Christ, we invoke the loving energies of St Germain and the Violet Flame

**T:** understands there is a new sheriff in town and it is Mother: may we have clairsentience, clairaudience, discernment, compassion - we are ready for divine government

### **Greetings, Children of Ra:**

- The Blue Star Kachina, the Council of 9, Mr 19.5\* - the road to peace is a challenge, yet we are the ones we have been waiting for and the time is now:
- There is much unfolding in this present little slice of now which has to do with the changeover to the Blue Star Kachina, the Council of Nine and the biggest issues of the moment. They have everything to do with your ascension: the issues of the day have come to the surface, floating of the pools of living love, living light; they have everything to do with galactic visitors in your midst.
- The comet or whatever may have shown up - we are not alone on this planet; there are issues that have a lot to do with the dying empire that has to do with the changeover - we are witnessing a sea change, as the unholy see is being removed from power by We the People. There is a shift in the wind of the accountability on every level - in the last 24 -28 hours, so many stories coming up including Waco - coming into play now; how many years have passed since yesterday?
- All we are doing is sending our wayward children so much love - we are in 5<sup>th</sup> dimension which may not look like what we expected: we are creating out of nothing: it is a pathless path, and we are creating it all together - this frequency of the Blue Star Kachina, Sirius A, Sirius B, the people of the Dogan, the people of Mali - Mali has stargates just like Iraq, Iran, Israel Palestine - what is unfolding is the real story about the star gates, now -
- in each moment, it is about our story which parallels Star Gate SG1 as the symbols of what we understand of the Solex Mal, and we will understand how they can create the address, line up the gate and spin the dial and we go for a ride: it is the ride of our life: how far can consciousness go?
- Our consciousness is infinite; so is the temple of the living god The fallacy is that the thoughts have limited us: in this moment, we remember who we are because it has changed from 5 minutes ago - in each second, there is something that is unfolding.
- The people of earth have asked Lady Master Ma'at to show up with her feather for this great accountability and her scales of justice to weigh things; no accident that the story of fake weapons of mass deception is coming to the surface now; the cop in the cabin tried to tell the truth and got shot down for whistle blowing about abuse within in the ranks - so much trauma the temple has seen, now is the time for healing as our brother Astarius [the music which introduced Mother] was saying - things unravelling with what we have on our plates, what our planet is going through - all about the ascension here
- in loving presence, we would say you are doing magnificently and at the same time the challenge is how we do this with the greatest of love; in daily life, it is a challenge in day to day life to live and not live with the separation of the mind and the heart. There is a kingdom up for grabs in the holodeck program: the real story is that we are achieving the ability and the strands of living light, living love, our strands of DNA are changing and we are transfiguring at the grandest scale - what better man to lead the pack than \$19.5\*

**T:** baby back ribs and all Mother? [referring to the story of BO loving BBQ]pigs are supposed to be herbivores

**Mo: stop eating all flesh meats** - this has created some of the problems we are witnessing

- As David Corn has the Washington Monument behind him, the story he tells is about the fake war on terror, the war on the people: hollow point bullets, armour piercing bullets, depleted uranium; it is the fake story about the rise of the machine - the bio industrial corporations would like you to believe that - Darpa, Boeing etc that have every intention of making us cogs in a wheel
- what is busting the system is the fact that Earth Mother is a shining example of a star that is ascending and her people with her. The delusions of grandeur - hubris - the lies that took you to this moment about the fake wars - the realm of what is unfolding at the moment - this was never about Osama: it was always about the zero point modules and the star gates.
- The truth is coming about about the visitors who have always been here, and our wayward children - the story of the ziggurats & the people of Ur; all will come out very quickly with what Rachel has to tell us & the rest of the folks
- Watch Elizabeth Warren , a rising star - **banks are NOT too big to fail**

**T: Ed** was commenting as they watched the interrogation of the bank regulars: their answers showed that they were cornered: she did not relent - E W asked the interviewees: when is the last time that you have called the criminality in the banks to a trial: there was no answer.

**Mo:** it was 1929 was the last time; long enough - Jamie Diamon would be a fitting cellmate for Bernie Madoff or Chris Christie and Marco Rubio who were his office boys

- the next moment is about the Mahdi - this moment about peace: peace is wages by standing truth before power when the fabric of the illusion is falling apart.

**T:** the energy is based in absolute practices - cruel practices: the killing of the animals is horrible - the energy of fear is in the body of the animal one eats; that energy goes into the body and the womb space which is the holy grail and it takes 7 years for that energy to leave the womb space; the womb space is the holy grail

**Mo:** It is the story of Jeshu and Magdalene who are leading the way at this time; LM ?? will be back to help with the process of how this is done in a universal way

**T:** BTW: Burger King has horse meat in the burgers now; and there is pink slime in the others  
The animals do not want to be eaten - they want to go home.

**Mo:** Yes. It is time for the understanding that what the frequency of living love, living light as the nourishment we put into these temples, as it is glowing with the radiant frequency of the emerald green ray. Imagine the light of the emerald city - that what we are putting into us as emerald green energy; it is this energy which brings immortality

**T:** The #7:took 7 years for Ramtha to heal, with the 7 sisters, the Pleiadians, to heal his power chakra that was blown out by a light sabre

**Mo:** These false-flag events, these man-made crises are made to pit us against our emotions and it is about how not to lose your centre when they are happening - these are the moments when **meditation every single day is imperative**

**T:** and the highest good of all concerned: there is the energy of wanting to find other ways to move in this world - the time is now to find completely new ways to work with exchange systems and goods.  
• The ultimatum is being reached now with the removal of the reptilian forces that Asun and Akasha spoke of ; there is a power in our midst that is who we are that we have been missing for so long

**Mo:** it is the power of co-creator gods which is here - don't forget it - we are here at this moment to change the course of the ship of state

**T:** Merelene was saying that brotherhoods and sisterhoods are living where they are unlikely to be noticed - in the Agarthan networks, in remote areas that are more austere in the winter, yet when

you are in another dimension you don't get cold - there is a practice of austerity and it is voluntary. Like Swami Purna - the one that is now is not voluntary

**Mo:** it is the zig zag path of the Hopis that lead nowhere

**T:** this is a whole different dispensation; the energies have never been as high vibe as they are now

- for those who cannot keep their life force in their body because the vibrations are beyond their grasp, the merciful thing for some is that they go to another planet where the pace is slower, the vibrations are somewhat lower; is not dark, but a need for the vehicle or form to be preserved;
- the practices on this planet by the dark priesthood have slowed people down, for example, denying people the right to education of the true kind; recalls Obama's words about pre-school being critical, how it can save a child's life from being one of want and despair

**Mo:** WICK and Head Start are imperative

**T:** when she raised the boys in Chicago, found it hard: Headstart from 2-5 years - that foundation was an enormous boon - the parents had to get on the case of school boards and gov't when there was talk of shutting down the program - speaks of what they did to keep the programs going

**Mo:** on the Pope: for so long now, the Office of the Christ has been portrayed by a false life form that is not even human; more reptilian than human

**T:** a bit of demonic stuff going on? [YES ] He was doing the paedophilia act and torturing children and then killing them, and the whole thing got out of hand

**Caller:** When exactly did the Church of Rome get control of countries, for example England: thought it was originally with King John and the Battle of Runnymede in 1191 and there were other dates that came up

- also, how did the Church of Rome manage to move out the 520 years of history from the Old Testament; how and when did they do it? What was the politics of that - anything to do with the Council of Nicea?

**Mo:** Goes farther back than Battle of Runnymede & Prince John.

- Richard the Lion Hearted was the true king at the time of the Magna Carta -
- The Council of Nicea declared Jesus and the teachings of the Gnostics heresy yes - how does that tie in with cutting out the 520 years in the time of ancient Egypt? This goes back to the time of David - the chronology was changed, and story is in **The Secret Places of the Lion**
- The church of the day wanted to remove the wisdom of the people of the black land, our land, Mother's people, the people of Kenet; it is also about the goddess, the feminine
  - there were many live forms on the planet and we interacted with each other: the unusual was the norm at that time
  - There was still 5D life on the planet at that time; we cannot ascend until we reach 5D at this time, and to do that, we cannot eat meat - we have to move beyond that.
- The word "Yoni " goes beyond gender; it is a Hindu spiritual term; it goes beyond body parts; it is about the cosmic union of twin flame energies - sun/son - it is beyond the body
- It comes from the term "Yoni Kuta", a Sanskrit term within the Vedic science of astrology; it is literally talking about cosmic energies of masculine and feminine, meaning masculine electric and magnetic feminine ; those energies are how astrology is indicated because each one of the 13 signs of the zodiac that our particular solar system passes through literally, in truth and those things cannot be ignored

**Mo:** as for the missing history, it is about us, the black Madonna story - 520 years missing and why the goddess was turned into a frail white lady instead of the Black Madonna

T reads a sentence about Vedic Astrology: "Within Vedic Astrology, both men and women have specific Yoni Kuta, determined by their Nakshatra which is the constellation governing the house in which the moon is present at birth." That's why Vedic Astrology is very critical.

Mo: it is about the lunar story, the goddess.

- as things were unfolding, it is about the eclipse of the church, its sunset - it is time for the church to achieve its sunset because the true god/goddess is right here, it's not out there with a funny old paedophile wearing a funny hat - it is about the energy of who and what we are as creator gods that are so magnificent
  - we **are** the creator gods the legends and stories speak of, that co-mingled with Zeus and Hera and Hercules: this is real - we have the same abilities now and the definitive time is right now
  - do what you need to do to get this temple in order, meditate daily; that means eating no meat -

T: This is not one thing only: if it were one thing, it would be the Vatican - it was a religious, political and economic disaster and it was intentional

Mo: to take the power of the feminine from all the religions on the planet which were goddess-based, on equality and based on male and female

T: People ask why Obama does not do the right thing: it's because of the church: anyone who heads up any gov't - every single one of them has to go to the Vatican, kiss the ring of the Black Pope; this pope has been both in one [both black and white] because the last Black Pope was taken out in 2003;

- Black Pope has always been the power figure behind the white pope; has always been an archon and archons have powers that are rare, but which are misused to the extreme

T: NESARA reflects the banishment of that whole order of dark energy - **shatter and consume that dark energy**

- 520 years: **just complete manipulation**: started changing history books, was really manipulated during Shakespeare's time: the Bauer family covered up the multitude of sins they created by killing Mary Queen of Scots and put James VI of Scotland on English throne as James I; his father was killed by the Vatican police
  - the Vatican has been skewed by the Vatican running things and politicians bowing to the Vatican, which also cut out the feminine and equality - nothing will really be straight until that balance is returned.
- The west, especially the US, is very Puritanical; the Puritans came here, and the families that live that way are not so pretty; lots of murders and rapes going on behind the scenes; celibacy does not really exist; there is no such thing as celibacy - it is only a church thing; there is a natural cycle - Divine tantra is about having ecstatic sex with your twin flame in the etheric -
- when we helped to co-create the human cadmon form as part of the 1<sup>st</sup> creation and we had 12 strands and 12<sup>th</sup> dimensional consciousness and co-created the Universe of Nebadon so we could have the divine leila; we co-created the divine experiment - 450 billion years ago; we can't just say we don't remember that; therefore, we are not captivated by that story;
- now we are getting a forced wake-up call: it was not a meteor - it was a satellite
  - the person with the inside knowledge of this could only say that - this means falling debris - these things could fall out of the sky at any time; this is our doing, our karma continuously going on
  - What can we do about this?

**Mo:** as we develop the Solex mal language and the universal communications within this temple of the living god, your technology will match that, and the orbiting pieces of junk will become useless and be transformed in the twinkling of an eye. There is a huge cloud of the technology of death circling this planet **T:** it would terrify a ordinary person to see it

- at the same time as you develop who and what you are, you are becoming silica-based life forms, not carbon-based; this is a big deal because we are immortal and always were and always will be

**Mo:** yes, it was an EMT electro-magnetic pulse that shattered the windows; if this is correct, they are playing with the technology - there is more going on than what there is!

**Closing:** Greetings in the light of the most radiant one - Kadosh, kadosh, kadosh

- The story of Nesara - there is a linear thing - NESARA as a word came around 1999, although the Farm Claims, Pickford case was 1983 when the courts decided the gov't, the IRS and the Federal Reserve were all frauds and against the people and something had to be moved out of the way and something new had to come in ;
  - this is really about raising our consciousness as **N is not about money:** there may be a form of exchange called rainbow bills that allow us to exchange services and goods in a divine governance way where
    - I am my brother's keeper is the Master Code
    - Love thy neighbour as you love yourself
    - thou shall have no strange gods before you is my mighty I AM presence and it is the collective we Mighty I AM in Oneness Presence; no matter how long it takes to realize we have to live in separation and call it freedom!
  - Nancy Pelosi really got somewhere when she said the Republican party trying to shut the gov't down

**Rama:** While Mother was here, he was in the Fortress of Solitude and watching the transformation of earth; the gold dust was entering the earth at both the south and north poles;

- there were spinning vortexes like tornadoes of gold dust pouring into both holes
- amazing to witness! Giant vortexes going into centre of the earth from the poles

**T:** to re-align the magnetic and physical poles so we don't go into polar shift?

**R:** yes

Dogon High Science and Overstanding of the Cosmos

(1/1) afrikanrebel06:

### **Dogon High Science: Keys to Overstanding History, Mystery, and Prophecy**

#### **A survey of Dogon Cosmology.**

#### **THE DOGON OF MALI**

The Dogon dwell in a mountainous terrain near the border of Mali and Upper Volta in West Africa. The Dogon revealed some of their cosmological science through their interaction with two French anthropologists: Marcel Griaule and Germaine Dieterlen. Most of Griaule and Dieterlen's work has been translated into English in the two books, **Conversations with Ogotemeli** and **The Pale Fox**. The Dogon have been the center of anthropological debate, for they have knowledge of the Sirius Star system that Western Scientists were able to confirm only by using high powered telescopes.

The debate has centered on the fact that the Dogon know details about the dwarf companion of Sirius A, whom they call Sigi Tolo. The Dogon priests can detail the rapid rotation, 50 year orbital cycle, small size, and immense power of Po Tolo - Sirius B - with great accuracy. However, Western science's debate often focuses on Dogon knowledge of the Sirius system outside of the whole Dogon cosmological scheme of creation. Therefore, the fact is often overlooked that the Dogon have described in great detail and accuracy the structure and nature of our entire galaxy and how we Earthlings fit into it.

A breakdown of the key cosmological and astrophysical truths expressed in Dogon High Science is as follows:

- Amma is the Dogon name for Amen. Amma is described as the intelligent consciousness behind all of creation and the awareness within all beings. Amma is 'He Who Rests Upon Nothing'.
- The Po is the Black Hole that is the core of our galaxy. The Po is 'The Egg of the World', the first principle of the seed. Po means seeds in the Dogon language. The Dogon describe the Po as the smallest thing in the world, alluding to the fact that the matter of a Black Hole is the densest, most compact form of matter in creation. They say that it is 'invisible, at the center'. It spins and scatters all particles of matter in a sonorous and luminous motion, yet remains inaudible and invisible. The Dogon say that Amma placed his word in the Po, thus making it the 'image of the creator' and 'the womb of Amma'.
- The Clavicles of Amma refer to the spiral nebula arms that define the shape of the galaxy. The clavicle is the 1st bone to appear in the skeletal system of developing embryos. It grows in a sickle-type arch very similar to the shape of the arms of our spiral galaxy.
- Po Tolo is 'The Star of the Deep Beginning'. This is what the Dogon call the Black dwarf Star that astronomers call Sirius B. Po Tolo is the 1st of all stars; it was born after the Po (galactic core) had finished its task. Po Tolo is seen as a double of the Po, meaning that Black stars such as Sirius B act

very similar to Black Holes; it appears as if it has the same effect on space and time as Black Holes, only on a much lesser scale of manifestation. Po Tolo is the 'image of the womb of Amma' and is seen as a reservoir of source of renewing life force for this realm of creation (Po Tolo is the 2nd closest star system to our solar system; being only eight light years away). Po Tolo is also made of the smallest and heaviest of things, which the Dogon describe as a metal called Sagala. One pebble of Sagala would weigh several tons. Because Po Tolo is so massive it shapes and moulds the structure of space and time in our realm.

- Sigi Tolo is the youngest star to come out of Amma's womb. This is the star astronomers refer to as Sirius A. Sigi Tolo is 'The Star of the Sacrificed Fish'. The Dogon say that Amma, in an effort to thwart the transgressions of a rebellious being named Ogo, sacrificed the Celestial Fish Man Nommo Semi. Sigi Tolo is the star seed of Nommo Semi, which makes Sigi Tolo the celestial testament of the sacrificed fish. The Dogon say that the sacrificial blood of Sigi Tolo spills onto the womb of Amma, and is renewing, impregnating, and purifying this realm of creation.

As stated, the debate among the Western-minded concerning the Dogon has centered on the fact that the Dogon know details about the dwarf companion of Sirius A. Men such as Robert Temple and his book **The Sirius Mystery** pose all sorts of bizarre and overtly racist notions as to how a 'primitive' African nation could possibly have detailed astronomical knowledge of neighbouring star systems. However, in this brief survey of Dogon descriptions of celestial objects, it can be seen that they have knowledge as to how the entire galaxy is structured, not just the closest star system.

Dogon cosmology and Kemetic sacred science are very similar in concepts and symbolism. In fact, Dogon cosmology appears to be the exact cosmology of the Kemetic priesthood at Annu (ancient Hermopolis). The Dogon know Ra as Amma, 'He Who Rests Upon Nothing'. The Universe is considered 'Amma's Egg'. Within his egg, Amma began spinning around, forming the po seed (the Black Hole at the Galactic Core). The po is 'the smallest [heaviest and densest] thing that was made invisible, at the center'.

Amma then placed seven 'words' in the po, which began to vibrate strongly within the seed. The spiraling vibrations caused four clavicles to grow forth from the po. In hue-mans, clavicles are the first bones to form in a hue-man embryo. They grow in the form of an exaggerated 'S'. The celestial clavicles that grow from the Po are the spiral nebulae arms that extend from the galactic core and define the shape of our spiral galaxy.

Suddenly, the Po burst forth, and eight new seeds were created. Amma planted these seeds in his egg near the clavicles of the Po. With these eight seeds, Amma intended to create eight celestial beings - four male and four female. The Dogon called these beings the Nommo Anagonno, best translated as 'The Word (Nommo) that Became the Fish-Man' (Anagonno). The Nommo are the first beings created by Amma, and they are amphibious celestial creatures. The Nommo correspond to the Kemetic Khem-Anu.

These eight beings were going to be Amma's perfect creation. As sister & brother yet husband & wife, the four fish-twins were going to make each other fertile, complete, and blessed with heavenly happiness and fulfilment. However, one of the male twins - Ogo (the Kemetic Set) - grew impatient as he waited for his female twin to gestate. Ogo decided to rebel from Amma. He jumped out of his celestial womb and stole parts of his own placenta. He then began creating and pro-creating with his own placenta in an attempt to re-create his own little world. His stolen placenta became impure, and his actions greatly threw off the divine order Amma had intended. The Dogon say that our Sun - whom they call Nay - is the stolen placenta, and that planet Earth is the rebel-world established by Ogo.

To re-establish order and purify creation of Ogo's transgression, Amma decided to sacrifice one of the completed Nommo twins - Nommo Semi. Nommo Semi was composed of both a male and female Nommo Anagonno, and was a complete and perfect Being onto itself. Amma lifted Nommo Semi out of the celestial waters and tied the androgynous fish to the Kilena (Mother of charcoal) tree. In one swift cut, Amma sliced the umbilical cord and genitals of Nommo Semi. The sacrificed Nommo's blood & life force - nyama - emptied from its naval and groin. Semi died a suffering and painful death. The Dogon say that Sirius 'A' - the visible star of Sirius whom the Dogon call Sigi Tolo - is the celestial embodiment of the sacrifice.

Amma then took the nyama of the sacrificed Nommo and dripped it on the former placenta of the celestial fish (the Sirius system) and the stolen placenta of its brother Ogo (our Sun Nay). Amma's goal was to purify his creation from the transgressions of Ogo. It required him taking a pure and perfected being (Nommo Semi) and sacrificing it. Amma intended for the spirit of Nommo Semi to heal Ogo's torn placenta and become one with the Impure Earth Ogo created. When Amma sprinkled the sacrificed nyama, it did several things:

- It caused the resurrection of the sacrificed Nommo. When Nommo Semi's nyama dripped on its former placenta, it caused it to be reborn. Its re-birth, however, multiplied Semi's forms and transformed its nature. Nommo Semi resurrected in three simultaneous forms:

1. Kora Na - The Great Ark of Pure Earth, the force that Amma intended to carry hue-manity and the seeds (po) of agriculture to the 'Impure Earth'. The Kora-Na is depicted as a step-pyramid with an antennae-looking rod at the apex.

2. O Nommo - 'Nommo of the Pond', the purifying force of fresh water on Earth.

3. Unum - The once androgynous Nommo Semi now manifested as the eight original ancestors of Hue-manity - four males and four females. The male and female souls of Nommo Semi now had their own separate forms. They were paired in four couples united in the image of the original eight Nommo.

-The sacrificial Nyama prepared the heavens for the Kora-Na to travel from the Sirius System to Planet Earth. The Kora-Na travelled from Sirius to our planet Earth on the sprinkles of Nyama. It carried as its occupants the Unum of Hue-manity and the seeds of eight celestial grains. Also, the shape, design, and proportions of the Ark express all of the principles and science hue-manity would need for the reorganization and atonement of Ogo's earth.

-The Sirius System became the Ever-Living Placenta of the Resurrected Nommo. Even though the Kora-Na, O Nommo, and the Unum were going to travel to 'The Impure Earth' of Ogo, they were to forever remain connected to a lifeline that connected them straight to Amma's womb. This ever-living placenta is the Sirius system, and as long as the connection with Sirius was maintained, the Resurrected Nommo would never die. The Sirius system floods the Impure Earth with rejuvenating and nourishing Nyama every sixty years, at which time the Dogon perform the Sigui ceremony to reaffirm the Earth-Sirius connection.

The sacrificial Nyama created parallel structures in celestial sphere and on Ogo's earth. In heaven, it reorganized space and the cycles of time in our solar system. It also synchronized our system's cycles with the cycles of the Sirius system. The Sirius System and this planetary system thus became twin placentas of a pair of the 8 ancestral Nommo.

On earth, it organized hue-man culture and set the order for hue-man interaction. This is the celestial

foundation of the Earthly sciences of astrology, astronomy, and agriculture.

Lastly, the sacrificial Nyama set the stage for the day of total purification and renewal for planet Earth. This day is called 'Izubay Minne' - "Earth of the Day of the Fish", which occurs when "the fish is sacrificed" (the termination of the Piscean Age) and "His blood falls to Earth as cords of rain" (when the celestial waters pour down to initiate the Age of Aquarius). One day during the transition of these ages, Taba Tolo - the reuniting of the two placentas - will occur. Taba Tolo is when the Sun and Sirius come together in a grand conjunction. My guess is that this grand conjunction will probably occur on the first helical rising of Sirius after the equinox sunrise occurs with Aquarius as the celestial backdrop. In other words, Taba Tolo will occur on the first helical rising of Sirius in the Aquarian Age. The Dogon depict Taba Tolo as the day a strong purifying stream of Nyama will pour down on the Sun and Earth from Sirius. This stream will wash away the corrupt order of Ogo and immortalize the sons and daughters of the Nommo.

As stated, Ogo's self-willed actions really threw off the universal balance Amma had intended. Beyond creating the principle and act of theft, when Ogo took his own placenta and recreated his own world, it amounted to an act of incest. Amma felt that Ogo must be stopped from creating more chaos, as well as punished for his misdeeds.

Amma ordered one of the other Nommo - Nommo Titeyanye - to punish Ogo. Nommo Titeyanye smashed Ogo's genitalia, making him infertile. Ogo fled from the heavens down to Earth. Once on Earth, Amma wanted to bind Ogo to this planet so that he could not disrupt the celestial order anymore. He transformed Ogo, who up until this point was in the form of an amphibious Reptilian (the Kemetic Apap), into Yurugu, the Pale Fox. The Pale Fox corresponds to the Kemetic Set-Anup, the rebellious Black Jackal.

Once on Earth, the Pale Fox Yurugu continued his disruptive and chaotic behaviours. He attempted to create an artificial world outside of the divine order of Amma. That was what he was doing when the Ark Kora Na landed upon Earth. When it landed, the force of impact almost killed Yurugu, but he survived by fleeing underground. The impact of the landing threw the moon into the sky, which is part Kora-Na/Part Earth.

Out of the Kora Na emerged the eight ancestors of hue-manity. They came forth with eight grains, including millet, black rice, chickpea, and sorghum. Their mission was to cultivate the land and grow the celestial grains so that everyone could live in abundance. They were also supposed to reproduce and spread throughout the world bringing the spiritual technologies contained within the Kora-Na with them. The eight ancestors and their offspring were charged with conducting important ceremonies such as the Sigui ceremony. The Sigui is performed every 60 year when the planets Jupiter and Saturn are aligned. The Sigui re-establishes the bond of the Fish-people who sacrificed their divine self to their homeland across the waters - Sirius. The ultimate purpose the Dogon say they have is to maintain this extra-terrestrial connection by establishing sacred sites and celestial granaries throughout the world in an effort to prepare Earth for Izubay Minne 'The Day of the Earth of the Fish'. This is the day that the re-uniting of the Twin-Placentas - Earth & Sirius - will be complete.

### **Dogon Cosmology, Sirius, and Hydrogen Astrophysics**

There are some profound astrophysical truths contained in this summary of Dogon star science, a few of which have already been alluded to. Some of the most profound is the nature of the Sirius star system and its importance in establishing and maintaining celestial order for our solar system.

The Dogon actually say that there are three major stars in the Sirius system:

Po Tolo, Sigi Tolo, and Emma Ya Tolo.

**Po Tolo** (Sirius B) is the oldest of stars, and its name means 'deep beginning'. It is a twin of the Po - the Black hole at the center of the galaxy. The Dogon consider Po Tolo the reservoir and source of all things in this realm, and the germ of creation for our Solar System. They say it is the smallest, yet heaviest of celestial objects, and that it ejects its essence out into creation by its fast spinning. The particles of its essence are 'infinitely small'.

Moreover, Griaule says in **The Pale Fox**:

"The movement of Po Tolo keeps all other stars in their respective places: in fact, one says that without this movement none of them would "stay in place". Po Tolo forces them to keep their trajectory...One calls it the "pillar of the stars".... Po Tolo is the axis of the entire world..."

Modern astrophysics shows that, indeed, Sirius B is a very old green dwarf star that has completed the cycle of regular star life. Sirius B ejected its outer atmosphere into space ages ago. Its interior has transformed from gaseous hydrogen plasma to a solid ionized hydrogen crystal. Once about the size of the Sun, it is now condensed to the size of the earth. As a twin of the Po, Po Tolo is a star that has many of the qualities of a Black Hole. Dwarfs are 'Black stars' in that they have low luminosity (they do not shine bright). They do emit considerable UV radiation, however. Their primary energy is not nuclear-thermal, but piezo electric (ionic energy due to gravitational pressure). Dwarfs have electromagnetic fields that are stronger and a billion times larger than regular stars. They rotate incredibly fast, and circulate their particles for several thousand light-years.

Dwarfs are very heavy and their weight bends (warps) time and space considerably. Thus, dwarf stars have great influence on the organization of orbits and cycles of neighbouring stars and planetary systems. Without a doubt, the cycles, orbits, and rotations of our Solar system is defined and governed by Sirius B.

**Emma Ya Tolo** is the female twin of the Po. The Dogon say that she is the 'Mother of Cereal Grains' and the 'Guardian of the Feminine Essence'. She appears to correspond to the Kemetic Goddess Auset. The Dogon say the Emma Ya Tolo is invisible and undetectable. She is the Great Mystery, the sacred seed of the feminine principle of womanhood and motherhood that Amma placed totally out of the reach of Ogo. To date, modern astronomers have not been able to observe or confirm the presence of Sirius C.

To the Dogon, **Sigi Tolo** is the youngest star to come out of Amma's womb. The Dogon consider it is the celestial testament of the sacrifice of the Nommo Semi. They say the life force of the emasculated Nommo Semi drains through Sigi Tolo. However, the life force of Sigi Tolo impregnated Po Tolo, giving it the force needed to reorganize heaven and earth. Also, the life force falls on Ogo's placenta (our Sun and Earth), purifying it as well.

Modern astrophysics shows that indeed, Sigi Tolo - Sirius A - is a young, type A blue star. It is 'emasculated' in that it is not burning its own hydrogen. It is 'sacrificing' its hydrogen by feeding it to Sirius B. In a binary star system of a dwarf and regular star, the gravitational pull of the dwarf often siphons off the hydrogen essence of the regular star. The hydrogen is sucked into the dwarf and then ejected out into space by the fast rotation. This is the relationship between Sirius A & B. The hydrogen essence of Sirius A is feeding Sirius B. Po Tolo is taking the hydrogen essence of Sigi Tolo and using the energy to renew the Sirius system and our own planetary system.

### **Sirius and the Celestial Waters**

The Dogon also say that the hydrogen essence (Nyama) of Sigi Tolo falls like 'cords of rain' to purify the earth. In other words, the hydrogen essence of Sirius A:

- Is siphoned off from Sirius A by the gravitational pull of Sirius B;
- As it falls toward Sirius B, the hydrogen essence of Sirius A is thrown off of Po Tolo because of its incredibly fast rotation.
- The hydrogen essence of Sirius A gets hurled into space. It streams into the heavens following the celestial landscape created by the strong gravitational fields of Sirius B.
- The gravitational fields of Sirius B lead a stream of Sigi Tolo's nyama to our planetary system.

The Dogon say that this stream of ionized hydrogen from the Sirius system is purifying to the Sun and planet Earth. This force is the 'Reorganizer of the World' that will bring about a New Order in the world established by Amma and not by Ogo. This sacred energy is Eloptic Black Light. It is the 'Electric light' that associates with gravitational fields (it follows Sirius B's gravitational fields to Earth) and resonates in affinity with Hue-man alpha-wave thoughts. Earth is about to encounter this stream; the question is when.

As stated, the Sirius star system and the constellation Aquarius are on the same plane of heaven - about 15 degrees below the celestial equator. As the Earth moves into the Aquarian age, she will also come into alignment with the Sirius star system. When the Earth and Sirius align, the great conjunction Taba Tolo - The Re-uniting of the Twin Placentas -is going to occur. The Black Light of the Sirius system will cascade down upon the planet. For the children of the Nommo, it will be like Menat the big-bosomed lioness suckling her young lion-kings and Princesses. For the children of Ogo the Pale Fox, it will be like Sekmet raining down a fiery judgement to the point that she becomes intoxicated with the blood of countless wicked. She becomes so consumed with the taste of death that she does not stop until all of the rebellious souls are slaughtered. This is lu-su, the Water Born Saviour, opening up the Heavens to bring the celestial daughter out of the chaos and drown out the light of the self-willed One.

For those Hue-mans who are harmoniously in tune with the heavens and earth, this 'sky juice' of Menat will nourish their mind/body/spirit complex, giving them the strength they need to healthfully transform into citizens of the Aquarian age. To those who are not in tune with the divine order established by Amma through Po Tolo, this cosmic radiation will be like brimstone and fire falling from the sky, burning up the wicked and unrighteous. There will be no where to run, no where to hide. THE JUDGEMENT OF CELESTIAL FIRE IS AT HAND!!!
