Meditation: Rainbird

Mayan Calendar: Rainbird

- we are still celebrating 1-1-1, the new harmonic module which has just ended on Oct 30th.¹
- it will be another 260 days to complete this cycle; also, today is a portal day.
- Every day for the entire wave, the number of the day [1 IMIX] is matched by the same number as the tone.

31st Thurs – 1 IMIX - speaks to our initiations – begin to depend on ourselves

IMIX the red dragon: trusting in the universe, move towards clarity of mind so the universe can respond to you. If you have a negative thought, change it.

1st Nov Fri – 2 IK – working with duality energy, working with spirit, IK the wind; it's a visionary aspect – truth in all matters. Look for miracles – this is a big holiday for Mexican people, celebrating ancestors

2nd Nov Sat – 3 AKBAL – 3 activation number; night work; work with dream time & learn from it

3rd Nov Sun – 4 KAN Tara's birthday! KAN is the sea; 4 is the tone; new moon in eclipse so we set our intentions for next period, imaging what we want in our lives.

4th Nov Mon – 5 CHICCHAN – the snake, warrior aspect; related to change; 5 energy

5th Nov Tues – 6 CIMI - bridging of worlds, moving into a state of grace

6th Nov Wed – 7 MANIK – magical 7 tone with the deer energy, healing energy

7th Nov Thurs – 8 LAMAT - stargate

- Annie Rose and Angelsu are both having challenges: we put them in our circle of thoughts and prayers, plus all the rest of us for abundant health, ease and grace and we accept all the assistance that we are given.
- Thanks to a brother who is a strong supporter and very generous; she has been behind and not able to make up the difference . See above for how to provide more assistance to MariettaRobert.

Hard News:

R: Happy Samhain! It is on the money: about full disclosure! Every day, more and more stories about disclosure – others may be dressing in costumes; we are just stepping in the fullness of who we are!

- The party of the right has nothing except disappointment and death; just a gang of criminals who have taken us to the level where T. Cruz does not deserve to be called Senator. These ones are criminals, rapists, etc
 - Why can Cheney cross the border and not be arrested?
 - Rumour that St G has said all is done, **but KOS did not say it, or anyone else!**

Susan McDougell on Randi Rhodes, talking of A C A: it cannot be defunded, it is already law.

- There is a lot of confusion about what is or isn't; knows other countries don't have the issues the US has and it is related to the gang on Wall Street tied into insurance cos and so on.
- The cheap insurance, junk insurance that was sold to people – there is convoluted stuff on Wall Street that goes back to K Street etc, and the lobbyists who play with the sham. The latest he has heard is "send the Kenyan back to Africa" - the daily stories are ugly and outrageous!
- All of this has to do with the final moments we are in; the next step is we turn around and there is no veil and we are them and they are us! We are the ones who have asked to step up. The insanity that is so blatant is beyond expression!

- All that is going on is one issue: the hatred to this man and what he represents – the complete shift of consciousness which began with the Aboriginal Moabite nation and has come full circle.

T: everything that is not of divine origin or service is coming up to be healed, changed all over the planet

- an extension of Medicare called Medicare Alternative: finding out that when people come up with a situation, 10s of 1000s of health care policies have been cancelled every year since the 2000s
- People are getting upset and angry and blaming Obama for it – when they go into the hospital for cancer, they find they have no coverage; or there is no money for hospitalization; sounds good and that everything is covered, yet there \$3600 deductible which means the patient has to pay that first before insurance kicks in
- A man on the Ed Schultz show said his insurance went up 75% - this was before Obamacare yet people are saying this has been happening since Obama care – yet what people don't understand because they have been healthy and then find out that what they thought was covered is not.
- **We need single payer!** Everything that is going on is leading to single payer faster than we think. 36 states have not undertaken to implement ACA; 26 states have not extended Medicaid which also increases rates
- The amount of money charged by doctors is obscene & we still don't have health care - we really **NEED PREVENTION!**
- Brings up **Thom Hartmann's Big Picture**: radiation in the whole US is sky rocketing!
 - The truth is not being told: Tepco is being left in charge – what?
 - The walls around Fukushima were only so high, based on the thinking that "we'll never have such a high tsunami" and guess what?
 - the 2 nukes were planted in 1945, the NWO bunch said they would use them when they didn't like what Japan did
- People are waking up faster and faster: masses are not taking it anymore, and people want peace
 - Syria: have diagnosed over 100 polio cases in Syria and know there are more
 - Starvation / death on a mass scale now – 200,000 dead from the conflict – this does not include the starvation cases!
- Brings up what Judy Beebe said last week, which was what Dr Keshe said: **a piece of cake! The GEM energy will fix it all when we go to the higher dimensions**
- Turkey celebrating 90th year as a country.
 - 89 years ago, Japan came to their rescue and saved some of their people. So the 2 countries help each other out: they connected Europe with Asia in central Istanbul via a subway under the Bosphorus Strait. 4 minute crossing to European and Asian sides of Istanbul.
 - The subway is expected to last for 150 years. **[SEE BELOW]**
 - The Knowledge Book written in 1923 by a lady who just showed up on the planet in Istanbul and wrote this 700 page book [she had no parents]
 - The Republic of Turkey was declared Oct 29, 1923, after the fall of the the Ottoman empire founded by Sulieman and based in Sufism
- Diane Feinstein – not a good bet!
 - Said she's launching a major review of the intelligence collection programs
 - In 2007, a huge underground cable got broken under the ocean and all the technology of the Middle East went down for 6 -7 hours. Lots of people died as a result
 - The NSA emperor has been accessing these underwater cables, tapping into the google and yahoo connections in the underwater cables world wide and have been taking everything from all the people in all the countries – this is on Journal News, French news, Al Jazeera, China News – people across the planet know he is lying through his teeth

R: reminds us of Guy Fawkes Day – Nov 5th and Anonymous

T: The scandal around bit coin has been cleaned up; it is doing better now; all of China has gone to bit coin. It is the up and coming way to go – time to take a chunk out of the energy system that they think they have control over.

- Listen to Carl Boudreau's YouTube presentation for November 2013. The kite and the star tetrahedron from the end of June is still in place, but some lines are dissipating which creates openings for the light; and the game is already in the light's court. The dark uses the same astrology but for purposes of control.
- there will be some real struggles for the next few months and it will be about how to re-configure and do things.

R: more stories about comet ISON; it is not a comet but space craft

- there are craft that are coming in with it; there are so many contingency groups in direct orbit all around the planet with and without their cloaking devices on.
- What he hears is that one moment it looks like this; the next moment it is new.

Guest: Donna Anderson / Chantara

To focus around how powerful we are as creators and co-creators in various realities

- Her experiences show her the strength of the connection with spirit when we allow it.
- Frank said many people have seen space ship pictures over the Mingus Mountains
- She has been doing grid and portal work around the planet; it's a broad subject – earthquake balancing, helping to bring energies from other dimensions - all involves the heart and moving into the unified field
- She has been shown many flower grid mandalas in the etheric
- It is important for us to know what we create with our thoughts – good to pull together our energies, build things and also prevent things – the more we stay in our heart, the more positive the results.
 - Many people are talking of a grid breakdown of some kind – look it up on YouTube; she does not want to focus on it.

T: Is this for our benefit? Or is it the naughty ones?

- She is not quite sure what it is about but it would cause trauma for people if it came down.
- Knows that what is being planned, and that it can be averted: the more that ask and call on those in the higher realms, if something is meant to be averted, it will be.
- Talks of Soltec showing up and how an energies were averted in Sonoma and the Mingus Mtns – when she asked for help, he showed up – the energies, the psychotronic things, stuff from cell wave towers, were averted and she and all in town felt better
 - There was a 2nd event a month later: the energies took a dive; she called on him & he showed up instantaneously. another shift occurred: it was like a dark hologram over the area was now gone. It is us to us to take responsibility for our thoughts and actions.
- Has seen some great potential happening. Knows that many are tuning in to divine events and she too feels we are on the verge of such things. Growth does not have to come through pain and suffering.
- Soltec started seeing & coming to see her in 1984; his ship appeared over her car and covered the sky, and the lights from the bottom of the ship went down into the earth; the lights were violet & there was a lovely sound/hmm
 - After that download, she became more aware of the earth's shiftings, etc
- Tells the entire story of her trip with the picture of Sai Baba in her car, and what happened.
- Could have stayed in Santa Cruz, but got that she should be in South Carolina where she is right now
 - About an hour before the call started, the room filled with spirit, including her friend's husband who passed, and Donna's dad and all kinds of spirits around.

MR: Rainbird is from North Carolina and is happy Donna is here!

T: a long time ago when this group / our family met only by phone, T & R were in North Carolina and met Chantara then

- Discussion about how every one met each other, and who knows who.

Frank Chille calls in: could you give them some background on how you started what you are doing now.

DA: she was born to wonderful parents, raised christian and talking to Jesus in the garden at the age of 4

- when DA was in 8th grade, her mother got the Urantia books, she started reading Alice Bailey
- The group her family was associated with was in Fort Wayne;
- remembers her baptism and always wanted to be of service

A wonderful story of how she was led to various places and people – which leads to how she met the people involved on this call!!!

UFOs: Keys to Human Destiny – by Gabriel Green [one chapter was about Soltec]
Green also wrote **Starwards**

T: she met Chantara in Chicago in 1976 when Chantara was working at the Theosophical Society – that was 37 years ago! Dolores Kreeger from England was at the conference.

MR: have you been guided or directed to the next assignment?

Chantara: in summer got the call to come to South Carolina, but didn't get there until the fall. South Carolina has something special about it. Greenville has a huge water fountain in the middle of it

T: asks about the name of the light city over the area as per the map they are discussing.

Chantara: Wahani is the name of the light city over the area

MR: asks about the # 6 // **Chantara:** there is a lot of heart energy in the area; in some ways, feels safe there – grounded. She has been working out of Sedona for a lot of years; she was sent there to help work with others to prevent the disruption of the energies which is being caused by those who know what is there and are doing their best to break them up.

- Something major about Charleston, as well as Greenville

MR: a # 9 came up for Charleston

Chantara leads a group meditation

Frank: asks her to explain her clearing and her procedures.

DA: just lets it flow in the moment. What needs to be done is always different.

Discussion about crop circles.

Caller: talks about living on the west coast near the ocean; to see lots of orbs – go to Carmel

T: says that Chantara and Sonja have both spent some time in Santa Fe; they knew each other in other times

Chantara: Soltec gave her the name “Chantara” – she thinks of it as chanting to the earth!

T: explanation of the number 6

We sing together: Let it Be!

Callers talking about what was seen in the etheric as we were singing.

Sending white rose energy to Sedona, plus the platinum rays

[call dropped for a couple of minutes]

Chantara's friend Bev speaks:

- Light city above South Carolina: called Wahanee – a pyramid – takes over the SE region
- The lighting up over Charleston has to do with awakening the Atlantean grid and waking up the energies
- she ended up with purple magenta light after the activation they did Wed am – there are secrets and hidden things that will come out yet from Atlantis
- She has been sent to Florida many times and has worked with the round ball Ray Brown found in the underwater pyramid in the late 70s – Bev moved to where the keeper of the crystal was in Falconwing in Colorado
- She meets the Atlantean Crystal which before she went to Falconwing: it came in to our meditation tonight! She came with the Kamaras and was in Atlantis to hold the energy of the unified field and what was going to happen
 - The crystal relates to Florida
- when she goes to Falconwing it was about bringing Zero Point into the grid which is right below Denver, SW at Indian Hills built a divine geometry building – there is an ascension room at the top there have been many experiences there
- Linda meets a lady who wants to go there – they get there at Easter and it was snowing
 - They got in, went to the Ascension room and prayed for the planet
 - She goes outside into the field – they tell her there is an intergalactic communicator there which was brought by the Elohim eons ago to balance the planet
 - She took what she got from the 3 beings to Linda: a microcosm of the macrocosm – told by spirit it was about cancelling the code of duality and bringing in the unified field
 - We know that we are in the midst of this, and we will get back to the unified field and the conflict we seem to see will be gone.
 - The crystal they called Ana wanted to go back to Florida – Chantara met up with the man who kept the crystal [Arthur] – she was told by spirit to find him; she did, and he took it back to FI
- Chantara was in Florida a while ago at her grid worker friend's house; were on the grid line which goes between Stewart, FL and the Atlantean portal; a major upliftment happened. Three years ago the energy of the crystal merged with her and they went in a great white ball over the ocean.

T: has a picture of the crystal: can see the pyramids in it, as well as Sekhmet.

T: what we did tonight, we did on Samhain, the wicca festival, when the veil is so thin.

Chantara: feels that something more about Atlantis will be revealed

T: Gerry Bostock is a shaman from Australia – said he was in Charleston and Sai Baba manifested a ring for him which he still wears.

Rawlene: has just seen a crystal skull

Chantara: her friend has tuned in to South Carolina – has picked up on a crystal skull, as Rawlene has

T: Gerry said the Aboriginal Moabite people connect with the Ashtar Command because they are members of the AC and know it.

- The land she and Gerry were on was very powerful

Chantara: if people get other hits about South Carolina – she's in Greenville

T: will call GG Lillie and they can meet up: she is the Prime Minister of the Aboriginal Moabite Nation she is on the Isis ray; knows who Mother is and has talked to her various times.

MR: thanks to Chantara for all her time

- Next week will be Roland Thomas; then Craig Campobosso who has just finished a short movie "Stranger in the Pentagon"

Closing: Cathy

2013, Oct 29 **Istanbul's underwater Bosphorus rail tunnel opens to delight and foreboding**

Turkish PM hails sub-sea structure linking European and Asian sides of city but engineers raise earthquake safety concerns

Alternately described as the long-lost link between Europe and Asia or the end of the city of Istanbul as we know it, the world's deepest underwater railway tunnel was opened on Tuesday under the Bosphorus, connecting two continents by rail for the first time.

Almost a mile of the 8.5-mile (13.6km) tunnel between the European and Asian sides of [Turkey's](#) largest city is immersed under 56 metres (184ft) of water.

A railway tunnel under the Bosphorus straits, one of the world's busiest shipping lanes, was first suggested by the Ottoman sultan Abdülmejid in 1860.

Turkey's prime minister, [Recep Tayyip Erdogan](#), a former mayor of Istanbul determined to leave his mark on city, opened the Marmaray tunnel more than four years after it was due to be completed. It is yet to be fully operational.

The project was beset by long delays owing to archaeological excavations: the remains of a Byzantine shipping fleet, the largest discovered, were found at the main metro terminus in Yenikapi, prompting Erdogan to voice contempt that construction was held up because of "clay pots" and "other stuff".

Japan invested \$1bn of the \$4bn (£3.4bn) cost of the project. The Japanese prime minister, Shinzo Abe, attended Tuesday's opening ceremony.

Almost a mile of the 8.5-mile (13.6km) Marmaray rail tunnel is immersed under 56 metres (184ft) of water.

Dubbed the "iron silk road" by the Turkish government, Erdogan said the Marmaray rail line would connect "London to Beijing", reviving the ancient trade routes across Asia to Europe.

Engineers and urban planners, however, have voiced concern about the safety of the underwater section, some describing it as a death trap. Quoting a report by Rıza Behçet, an engineer who has worked on the project for eight years, the Istanbul Chamber of Architects warned the tunnel lacked an electronic warning system and that the flexibly linked parts of the immersed section would be prone to rupture and water leakage in the case of [earthquakes](#).

Istanbul is above a seismic hotspot. Tectonic plates meet under the Sea of Marmara, putting the city at risk of a major earthquake within a generation.

According to Turkish media, Behçet warned "he would not get on the Marmaray metro line, and nobody else should either".

The country's transport minister, Binali Yildirim, countered such claims, saying the Marmaray tunnel was "the safest place in Istanbul" and that the structure would withstand up to 9-magnitude quakes. On Monday, the city's mayor, Kadir Topbas, on Monday said all test drives had been completed successfully and "all possibilities have been taken into consideration in all seriousness."

Other experts have criticised the government's rush to open the project on Tuesday to coincide with the 90th anniversary of the modern Turkish republic.

"Serious answers need to be given to these serious allegations," said Tayfun Kahraman, a board member of the Chamber of Urban Planners in Istanbul. "There needs to be an independent assessment of the risks and security gaps in the Marmaray project, and the findings have to be made public. This cannot be brushed aside with a mere promise by the government."

He conceded that the project – once its safety was guaranteed – was an important step towards easing the notorious congestion in a city of 15 million people. "We have always underlined that public transport needs to be taken off the road. In this sense, Marmaray supports this development in the right direction."

The rail service will be capable of carrying 75,000 people a hour in either direction. According to government estimates, 1.5 million people will cross the strait every day on the Marmaray line.

The subway crossing will take four minutes, much faster than the ferries which criss-cross the Bosphorus.

Prof Murat Güvenç, head of the Urban Studies Institute at Sehir University, Istanbul, worries that no research had been conducted into the socioeconomic impact of the new rail line.

"Marmaray is uniquely a technical project. We have no idea how it will affect the city, and the people in it, if it will change life in the city for better or worse," he said. "But we can be sure that the vulnerable residents of Istanbul will feel the impact more than the others. A mega project like this will cause major rent increases and profiteering by some."

Citing the lack of government control mechanisms in the real estate market, Güvenç said poorer residents and small businesses were likely to be priced out of neighbourhoods adjacent to the new metro line.

"Increased overall accessibility – access to transport, shopping, culture etc – will cause rents in formerly cheaper areas to rise quickly. It will substantially change the social strata of the city. With the opening of the Marmaray line, the Bosphorus Strait will cease to be an obstacle. It means the end of Istanbul as we know it."
