Hard News:

R: thanks to everyone who is helping; it is a great time to be in a body!

- People in DC talking about the Citizens Disclosure - timelines changing!
- The Republicans have nothing better to do than talk about "scandals"
- It is about nothing about walking while being black!

T: looking forward to seeing someone walking around with a tail

R: it is about meeting Mother and the other people, considering ourselves as "civilized"!

R: Randi Rhodes, Stephanie Miller: calling everything a distraction - have not been able to throw Mr 19.5 in the briar patch! The millenials are taking it on!

Randi Rhodes: Daniel Ellsberg and Julian Assange - trying to get Bradley Manning a peace prize

- the obvious scandal city is pulling us to the point of seeing how deep the dysfunctionality is

Audio: Chris Hayes with his guest, Barbara Lee

- Seems Pres Obama is going to make a speech about drones -
- there is pressure on him to close Guantanamo - Colonel Davis said: please address the immediate causes of the hunger situation before any irreversible harm is done
- the president is authorized to use force - essentially, a blank cheque until Congress decides to repeal it
- Does not disagree that we need to fight terror, but we have to do it in a constitutionally sound way

Ms Lee: the pentagon speakers outlined a broad scope of the resolution authorizing use of drone

- This resolution has been used under a wide number of circumstances
- Finally, the President is going to lay the legal justification for use of drones
- Plays a clip from Senator Lindsay Graham to the witness: how long will this war go on? Answer: beyond Pres Obama - another 10-20 years

Ms Lee: does not agree that the war should be allowed to continue: that is why she has created legislation to stop the war

- She applauds Pres for doing this speech - hopes he will lay out the legal justification for being in a war which began without authorization from the Congress and making sure checks and balances will prevail

T: "outrageous" is inadequate to express what all people should feel

Since before we were born, this war has been going on - they want to continue it on for far into the future

R: the "good" senator Lindsay Graham who laid that out is **a war criminal**; he took nuclear secrets to Turkey who gave it to Pakistan which is how Pakistan got nuclear weapons.

T: Steve Miller, the IRS Commissioner, was grilled hard by Republicans in a commission by John Conyers who said they should call in Mr and Mr Koch to testify, as you are really working for them!

- the pompous Republicans who think they have something to hang on to
- The 501 C organizations are all getting their money from the Koch Bros
- **All this has been pre-meditated:** 9/11 was a follow-on from 1973 [Argentina] which was a follow-on from 1963 when the clone of John Kennedy was killed.

Audio: Thom Hartmann first they came for Wikileaks and AP said nothing

- 1785, Oct 28 -Jefferson is ambassador to France - writes his best friend - Fontainebleu is a village of about 5,000 when the king is not here; numbers swells to 20, 000 when King comes to hunt
 - the whole letter is about an incident that happened to Jefferson on a walk when he meets a woman and stops to talk; found out how poor she was, and went on from there to propose that any unused land should be given to those with nothing;
- Lincoln called it "40 acres and a mule" - you can bet the Rockerfellers would oppose the plan

T: NESARA is about giving back our posterity, our land to the people

R: saw a Jesse Ventura video about

- we have the issue of guns in our face: do we need bazookas in our back yard?

T: the story about Ambassador Stevens being held as a prison and traded with the Blind Sheik

- they wanted to charge her for aiding and abetting the Sheik and making it like she was helping
- All she said she was telling the truth and she got put in jail for 10 years for saying that!
- she has 4th stage cancer

Conference Call:

Caller2: Angelina Jolie - had a double masectomy -

T: she is a member on Council of Foreign Relations, family is part of the 13 families; she was bought even before she was born - eating *GMO* foods at restaurants as a rich one does not help - is not so evolved

T: asks caller if she was on radio show on Thursday: about the combination of *GMOs* and agent orange

- **link will be on the website - NEED TO LISTEN SEVERAL TIMES**
 - **The *GMOs* are upsetting the animals too**

Caller3: about something on the website about JFK - went to a link, and Johnson was behind it
Article goes into a lot of detail

T: JFK was hit at least 3 x; Gen Norman Schwartzkopf from grassy knoll; Lee Harvey Oswald - not involved

- an overpass with a sewer with bars - someone from CIA shot him from there
- a 3rd shot - from upstairs in a warehouse - a clone that got hit
- Lyndon Johnson knew it was going to happen: part of the pecking order and follow orders! He really wanted to be president - no, he was not upset could see it in the body language

T: had the swearing in right there and then - he was carrying the swearing in paper with him in his pocket

Caller2: remembers seeing that!

T: JFK clone body was in back of plane; they took the body to the hospital, the surgeons did a surgical operation on the head to make it look like something different

- In 1972, Hillary erased the original footage and spliced in something different;
 - Peter Jennings was still alive and doing the Prime Time reports -
 - that whole week before that Friday, they showed the whole murder case and they showed it twice - but the tape they saw Monday through Thursday was the original, the real tape, and we

saw the passenger next to the driver pass the gun to driver who took the gun in his left hand and the passenger helped to steer, and the driver turned around and shot him from the front!

- On the Peter Jennings shows, it looked like he was shot from the back - they cut it off so the driver was not seen shooting him from the front.

Caller2: why did Jackie run to the back of the car?

T: the FBI were told to stand down and not move; one of the agents said what the fuck are you telling me and he moved - and he was shot!

- Goes to 9/11 - someone was talking as if it was already happening - and then suddenly, it was!

Caller2: did Jackie know he was a clone?

T: does not think so - she was given the stomach cancer which killed her - they think of everything!

- She died from stomach cancer, the most painful there is -

Caller3: talking about Chavez and his death by the CIA

T: first they gave him the cancer and then the massive heart attack -

Caller3: the people in Venezuela knew what happened; it was public knowledge in South America

T: here the public is mind-controlled

Caller3: talking about the interview on the Thursday night program - the brilliant woman!

- Someone in her family is a commercial farmer and puts Round Up on onions - truly believes it is harmless!

T: **Monsanto has** a bank of scientists that LIE!!!!

Caller3: a brilliant man and he believes it! Glad she is not living in Peru now!

Caller1: do we think the march against Monsanto on May 25th across the country - will it help?

Caller3: the court ruled in favour of Monsanto - court is bought

- Hope Boxer is right and the gag order is gone and that 9/11 can be discussed

T: on **Randi Rhodes show**, Daniel Ellsberg and Julian Assange were chatting

- last week said he would download 700,000 Wikileaks from 9/11 to now and talk about every false flag that was done
- He has released millions already; he is going to release these

Caller3: what about Bradley Manning?

T: Daniel Ellsberg and Julian Assange are going to put Manning's name forward for the Peace Prize - fully apologized to and given a clean slate

T: **No, Manning did not give Assange the papers;** Amy Goodman interviewed Julian in London & he explained the system: there are millions of documents and thousands of whistle blowers who have submitted - the whistle blowers and Julian are protected because everything is done anonymously

- Bradley Manning did not "get caught": he was in Saudi Arabia and found out about the footage - he had taken an oath to defend the US from enemies from within and without - and from what he saw, he knew this was from within; he was in Intelligence and under severe oaths, took the moral high road
- Manning said that Sybil Edmunds deserves the Nobel Peace prize as much as him
 - John Ashcroft - went back to the 1800s and found an antiquated law and gag order to use on Sybil Edmunds!

Caller3: asks about Barbara Boxer and gag order

T: She is still under it; she has just walked away from it because she is tired of things!

Caller4: confirming that the fertilizer plant was owned by the Koch Bros/ yes, they own every one in the country

- Did they order the sabotage? **Yes!**

Caller4: Rachel was talking about the whistleblower deal; the caller recorded the segment and played it back - reminiscent of the We The People site where you can call and leave the story but not your name - talks of what a Chinese lady said who called in about building a plant in China

T: it's a gas and oil chemical plant and it's on a fault line where it killed 70,000 people years ago, and 70 people last year - they want to put it on the fault line -

Caller4: you don't protest in China, so she put a story on the US website - there is some connection - if you want to pick up the NESARA flyer

- Caller recorded the story

MOTHER:

Greetings in the Office of the Christ and only in the Office of the Christ, we invoke the loving energies of St Germain and the Violet Flame

T: we ask at this time for May flowers, the peaceful mission for Mother Earth - that a peace can come over the land and whatever path we are on, that the path of the one is the one we follow

Greetings, Children of Ra

Indeed peace is the order of the moment and, at the same moment, out of the chaos comes peace as there are so many events unfolding that in the moment are creating this rapture of energy - a musical rapture of upliftment - the 3 eclipses coming into focus, and the 3rd one coming up

- these energies are at such a core moment that these ones playing with the black hats and consciously know how powerful these frequencies in this moment - this is why we are seeing the most outrageous of stunts -
- the seat of power has been usurped and taken back by Mr 19.5* and say he is not from here: yes, he is not - this is the story of Sirius A and Sirius B - the bird people, the lion people and all those from the surrounding 'hoods - skittles and iced tea, this is the biggest story at the moment
- What this man, non-stop, is doing to change this world - yet this is not reported on, only the scandals and the folks who run around thinking about how they can line their coffins or their missile silos with the money they have with interest on their fake bonds
- Buffet, Murdoch, Gates are selling their bonds because they are worthless, toilet paper - nothing left in this economy, except to start over again with some real money - like bit coin, eh?

T: they are meeting this weekend and thinking they can start over

Mo: it's a failed experiment, already doomed! Put it in the trash compactor - just another distraction

- The fact of the matter: NESARA NOW. At a certain point, we might just say - in this moment NOW - things are at a fever pitch - Michelle Bachman - we call evil out where we see it:
- we speak of a man who is on duty 24/7 like most of us: the cosmic clock is at midnight; Red Alert - the earth is in the distress of the shift - it is not over; it is a birthing process: Dec 21/12 was just the beginning.
 - How long do wizards live? 10 - 12,000 years - the best is yet to come! We have not gotten started yet with your evolutionary development!
- the story about our DNA changing - why are there so many stories about this precious product - that our law enforcement mandatorily extracts the DNA when they arrest us and use it to create their android army **yet they are not going to get there!**
 - This is **about love and the wisdom that is coming** - what is unravelling is that the millenials and the indigo crystals have spoken; the frequencies that are at fever pitch about the solar flares are

not going to stop but will only increase in magnitude - both earth, all her inhabitants, and our galactic system are taking a leap across the Galactic Plane with higher and higher frequencies, and Monsanto has nothing to say on the matter: **we have already won, the Light has already won.**

- Yet there is a sorry picture where there is a momentum that is building and has at such a fever's pitch - we might hear a small squeak of a mouse from the media - this is just an illusion as the wave of energy in the moment is just that - when the power of love overcomes the love of power and this is what is unfolding here - **the power of love has overcome that issue of power**
 - there is so much to be thankful for in this moment, now and even more so in what we are witnessing as the story unravels
- not the scandals created by the Lunatic Fringe - but that things are getting done and being moved into position - **we cannot say the hour of the arrival but it is now** - the Admiral in charge and St Germain have a few things to say to folks - it might just be that Mr 19.5 gets up and talks of closing Gitmo and then hands the mike to St. G and Sananda - the rumours are flying - it is so magnificent to behold

T: Does she think - can these guys get nailed for good? It looks like they are putting themselves right in the lion's mouth! That stuff by Lindsay Graham asking that because we have an open-ended war on terror, can we put boots on the ground in Yemen and Africa -

Mo: the one reason he would ask these question is because of the stargates

T: that is NOT the issue: **he is talking that they no longer have to go to Congress to get permission**

Mo: that is ending as there is discussion about War Crimes Tribunals because they have violated their Oaths of Offices; they will be arrested! The Sargent at Arms knows the right day & hour.

T: discussion that the ice caps are supposed to melt - science is now saying that without

Mo: as this planet and Sol and these planets are moving closer to centre of galaxy, moving up in octaves which means earth, air, fire, water, flora, fauna moving higher in frequencies - with this comes higher temperatures - we will have a jungle like we used to have - trees that are 100s of feet high with fronds - they aid the atmosphere; there are many new plants and animals that are coming in now, as they are coming here

T: there are things coming from the bottom of the sea

Mo: we are in a new era

T: talk of Atlantis rising - people are claiming that land before it is here! Basques, west of Great Britain, in other locations - She still does not understand how weather stabilizes when ice caps melt

Mo: as we more into a more geo-synchronous orbit around the sun, and we work with the devas and the angels of air, water, we are part of how weather manifests; with our thoughts, the weather changes - that is part of the uniqueness of this realm of existence - as we change our thoughts, we change the weather; this is key when we are in a unified field of consciousness, there is peace and there is no need for war or disharmony

T: the whole solar system is moving back to the Pleiades - doesn't know how it works or how long it will take, she does know we will have 9 suns

- the man from the Aboriginal Moabite call said the sun is cold - no heat coming from there

Mo: yes, that is true, and there are people who live in the sun

T: talks of the massive re-education process that will have to occur for most everyone.

Mo: it is about the wisdom they lack - it is here in our midst; just flip on the Edison gene, as Thom Hartmann calls it, and put your hand on the book and you read it like Superman - it is that easy

T: Frank Chile talked of a humungous body of water under the Sahara, and there is water here under an

old mine 1.5 billion years old -

Mo: these are pockets of energy that have not seen the light of day for millions of years - it was closer to the time when we were coming here and seeding the planet with bodies as clear as glass - 150 million years ago or more!

T: we have to have the other water cleaned too

Mo: this comes with the Altimarians and other visitors who are helping to fix this issue

- we were balls of light 1.5 billion years ago, and we could manifest bodies that were light bodies that looked more like LM Victory, LM hope - beings who had all chakras glowing

T: the Inner Earth, Agartha Network is to play a much bigger role - will have to come to the surface

Mo: Yes, it is.

T: Mo will be here for the next eclipse **May 24th**

Mo: all that we know to be: the frequencies of the I AM: the light has already won, and we are watching the fall out around the man who made a conscious choice to come here through the location of 19.5* - **be the change you want to be; as you create that change, you create the magic you want in your lives which is I AM That I AM** - and that brings in the magnificence and the energy goes out into the galaxy - all the focus is on the green and blue marble and she is going to make it, as we are!

Greetings, in the Light of the Most Radiant One

Kadosh, Kadosh, Kadosh

R: he was to the arboretum on The Dove; talking with the elm trees and they were discussing how there are going to be larger elm trees on the earth in the next few years!

T: reminds her of the science of now where the sequoias can grow 100x faster

Magic Mary: worried about the bees - does not want them to die

R: the galactics and the forces of heaven are making sure that the bees do not die!

T: in cities with high towers - they are creating bee hives on the tops of buildings, with trees, greenery

- There are plans in cities to build higher like 10-20 stories & build in the round -
 - in LA there are huge round buildings - they are like pieces of pie, with extra tall windows from ceiling to floor, and there are pathways on the outside with huge porches where trees, flowers, plants can grow - also on the inside.
- The idea came from John Winston - a pyramid - the Takla Machan, that goes up 20,000 feet - steppe pyramid where buckwheat grass and other greens were grown.
 - Inside, there was an entrance to the Agartha network - at 26,000 feet, they didn't need clothes; Swami Purna lives there and walks in the snow with no shoes; there are SasQuatch there, the Eva Race - all they eat is lichen/soma which is on the walls of the caves in the mountains - they are 25' tall, they can teleport, bi-locate, pilot their own craft to Andromeda - there is much going on in terms of re-seeding
- We are the front lines - we are the ones who helped the Maya, we came here to lead

R: remembers that he signed the document to come here and said "Piece of Cake"

M Mary: loves the bees - they make everything work

T: in Santa Fe, there is an organization and people are making bee farms to replace the bees

- also quite a perma culture - agri business not well received in this area - the people are pushing them out

M Mary: urgent message: Keshe foundation under heavy attack

<http://forum.keshefoundation.org/showthread.php?2180-Urgent-massage-The-Keshe-Foundation-under-heavy-attacks>

Urgent message The Keshe Foundation under heavy attacks

As you have noticed the Foundation, the site of the Foundation and the forum in the past three weeks have been under heavy attacks by creating traffic on the servers.

These attacks have been orchestrated by nations and major cooperation's on the Keshe Foundation website and not by individuals.

We have two choices; to allow these attacks to go unanswered and shut down or we as organization of Keshe Foundation find a correct and peaceful method to overcome the situation.

My suggestion to our webmasters has been to allow every nation and whoever can to load and make a copy of the Foundations website and forum, and as one server gets attacked the others open the channels to their server.

In fact this will not allow any server to be jammed or blocked as now several tens of servers will carry the site.

This is collective stand against those whom want to silence the technology, now you understand why we have been so cautious, as now that we have started showing the reactors and other scientists are doing the same, they (others) are trying to bring the technology to a stop.

If you have access to a server, where we can download our website securely, please contact me direct and give the Foundation access to it.

If you can donate server space to the Foundation as service to the Foundation and what we are trying to do for the humanity, then organize as many server accesses for us to load our website securely, which we control for even one month and two months at the time.

The point is that if the technology was not real, then nations would not have spent hundreds of thousands and millions of euros to organize such an attack on one the most powerful servers and its mirror to stop the process.

As we have given the technology freely to you, now it is time that you stand for your rights and protect your interest.

We do not fight, but find peaceful solution for the problem.

The solution is that to carry on and load the website on as many servers that can carry a copy of the website, then these people (nations and multi-nationals) cannot block the technology and this is what we exactly did with our patents.

We need as many servers as possible to be given access to for our website to be loaded to and we need them as soon as possible.

This way we allow world scientists to bring the technology into collective operation as we have seen in

the past weeks, without these organizations and nations forcing to shelve or block the technology.

Yours faithfully
M T Keshe
The director of the Keshe Foundation

Bill Maher And Michael Moore Tear Apart GOP Obstruction: This Is 'Treason,' 'They Hate America'
by [Josh Feldman](#) | 11:15 pm, May 17th, 2013

[Bill Maher](#) and **Michael Moore** both tore into Republicans over the GOP-led House voting for the 37th time to repeal Obamacare. Maher rolled his eyes and argued that “at some point, obstruction becomes... treason.” Moore agreed, going so far as to say that Republicans “hate America.”

Maher pointed to Republicans blocking major Obama appointments, saying that now the opposition is “more about hating [Obama] than loving your country.” Moore unloaded on the GOP and argued that they have seriously sinister motives for opposing everything Obama does.

“I think these conservatives and right-wingers really—for as much as they say they love this country—they hate it. They hate the government. They hate people... why is the government the big, evil bastard here?”

Maher mockingly intoned, “Cause, Mike, it got taken over by a Kenyan socialist, that’s why!”

Moore did find a grain of optimism in young people rejecting a lot of what the Republican party believes in, saying “they’re not bigots and they’re not haters.” He called the GOP a mere “squealing dinosaur” whose time has come.

Imminent fiscal abyss, whitewashing history, Gitmo torture report

Abby Martin talks to Ellen Brown, president of the public banking institute and author of 'Web of Debt', about the need for banking reform in the US and the dangers associated with adopting the Cyprus 'bail-in' model internationally. On the anniversary of the Mexican American War, Abby looks into the current immigration debate in the US, highlighting the fact that the entire south west of the United States was Mexico only 167 years ago. Finally, an interview with Col. Morris Davis, former chief prosecutor at Guantanamo, about the most recent findings regarding force-feeding prisoners at Gitmo, and the need to close down the detention facility.
