Hard News:

T: went to Sikh Temple today

R: a lady there who is friend of Wavy Gravy & drove a school bus full of people to Woodstock

- She was showing slides of Yogi Basha today; pictures of him with Dalai Llama and others
- Seeing all these re-kindled hope; he talked about this time we are in

T: the news is all about upheaval and the money

- Thailand demonstrating in the streets, due to nepotism in the gov't – leader is a woman; her brother was ousted a few years ago; there was a bill in the gov't to allow her brother, former Prime Minister to return.
- The demonstrations between the pro-gov't ones and the anti-gov't ones; the pro ones live in rural areas and receive the benefits of the gov't; the anti ones are like the 99% in the US. No political leader has been able to unify the country – same problem as in the US since Reagan's time
- The Illuminati has been pushing the middle class everywhere around because they are afraid of the Middle Class
- Tavistock in Palo alto; Council on Foreign Relations; and 3 main committees of Council of 300
 - Tavistock had John Lennon killed
 - Tavistock is the think tank that created the languaging to get done what they wanted -eg, "Illuminati"
 - B Walters is on all 3 of the committees
- The heavy metal music helped avert WW III because some of the rage was dissipated through it. Various forms of music have helped get emotions out
- John Lennon was ready to do a very advanced level of music – like music of the spheres; John Coltrane's wife Alice wrote some music and got it out; Yoko Ono knows of this: the next best thing was to put up the blue peace tower in Iceland
- The biggest issue is that we should realize how much we are loved, and not have false humility:
 - a prayer from a deep place of feeling has a great effect.

Italy: Silvio Berlesconi can no longer run for gov't in Italy; will soon be indicted, as will Bush, Blair et al.

T: Power of light, sound and colour has prevailed.

R: Yesterday at the organic food store, he bumped into Greg Braden – they talked of the big story;

- Greg lying low at the moment. He worked for Lougheed Martin for many years, and was assigned to peacekeeper mission to develop the Mother of All Bombs [MOAB - no accident that these initials also stand for Aboriginal Moabite Nation.] He knows a lot about a lot of things so he's lying low!
- They left the store and went sat on some rocks to talk. Some people recognized Greg and came over to talk too – things are getting around – they knew who Greg was, and others recognized Rama.
- Phone rang and it was Al Gore! They moved away so they could have some privacy. Al Gore told them that his dr said he would not be long for this world unless he quit eating meat.
- Rama is the only person on the planet to whom Al could say these things; R has access to Faction 3 info 38 levels above the President: he is privy to information that no one else is – many people are under a gag order in media, politics, Hollywood and know what he knows, but they cannot speak. So Rama is in a unique position:
- Both Al and Rama are of House of Racozy; Rama is an intervener as Ashtar's son.
 - Obama is also a very unique bird – no other pres in history has had access to 38 levels above and Obama does because he was in Pegasus project and was Akbar the Great and created a Renaissance.
- There were other times in our past when what we are accomplishing now could have been done: Sir Francis Bacon created a Renaissance in England – born in 1669; Akbar was already king in India at the same time and ended 49 wars; he also brought in the Sufi poets, music, dance; gold standard was re-introduced. He could not read nor write – his court people read to him!
 - He created a brilliant mind and a brilliant civilization; he was overlighted by El Morya, Excalibar, the blue ray the same as AA Micheal.
 - He brings that experience + El Morya's overlighting + the US has been overlighted by AA Michael.
 - Altea America was predicted by Bacon's writings – 450 years ago a revised edition of the King James bible and his document The New Atlantis were brought to the Bruton Vault & deposited there.
- Today and Thanksgiving and Hanukuh are on the same day – first time for who knows how long! 70,000 years from now the 2 days will happen on the same time again!!!!
- Al Gore told them he is going to be transformed from being a monster in to a real person.
 - He was born of the House of Dracool and of undead parents
 - To learn what undead means, watch Francis Ford Coppla's story of **Dracula** – 500 years later, Dracula comes into England and changes into a werewolf; meets his Twin flame. He had been king of Transylvania/Romania. At the end of the story, Nina knows that her beloved is her Twin Flame and what she has to do. Vlad the Impaler was impaling all the invading Turks, and not doing things by negotiation as did the Ottoman empire. She had to impale him and cut off his head which was the only way to release the spirit.
- There is a secret process by the Pleiadians that can bring him back to real life: he is responsible for over 100 million deaths due to the AIDS virus he created.
- Al Gore's cousin was Gore Vidal, and he was probably removed: Amy Goodman had asked GV about the death penalty – he said on camera that he did not believe in the death penalty except for these ones [the ones who took out the Atlantis crystal and have had 13,000 years to think about it!]
- Not only is Al Gore going to have this process done, he has also become a vegan: “When one is harmed, all are harmed; when one is healed, all are healed” He has listened to what was deeply buried in his heart, and will be speaking to the people of the world at some point. His doing this is an indication of what the others could do if they so desired.

T: spoke of Rama's travels all over Europe, the Middle East and other places when he was young.

- He did this because the mission of Ashtar's son was to touch base with all the holograms that needed clearing: he travelled to Russia, Iran, Pakistan, Mongolia, Egypt, Israel, Syria, other places; while in

Nepal, he was beamed up with some sherpas. This was to bring in the energies of the Ashtar Command in areas that needed to be healed.

About Hanukah

- True story of the Maccabees and the black Greeks – they were not white; they were black. The original Jews were from Ethiopia
- This is the only time that Hanukah & Thanksgiving fall on the same day; will only happen again in 70,000 yrs .

R: still much affected by what he shared with Al Gore and Greg; has been working with this on the etheric realms – it is not easy stuff! How he can relate to this serendipity by saying “Lord, make me an instrument of thy peace!” The call of that one man changes everything.

- Also of House of Dracool: Sarah Palin, Al Sharpton, Jesse Jackson, Rama, Al Gore, Lady Di
- Al Gore also said: “I am honoured to be in your presence; I know you are Ashtar's son and because of you, I got my message to heal myself!”

BECAUSE THIS IS THANKSGIVING, THE LAST 2 HOURS OF THE PROGRAM ARE A RE-PLAY of october 24, 2013.

Guest: Judy Beebe

MR: She knows a lot of the people who have been on the program in the past.

- The 3 Georges: her childhood was magical – had diabetes when she was born; in a diabetic coma when she was 3 years old; her mother beside herself. After consulting with Judy's grandfather, Mother took her to Dr Margaret McKinnon who did radionics – Judy came out healed. By the time she was 13, she was OK
- She has been in medicine for 40 years; has her doctorate. Medical people would not believe she had had diabetes at all.
- Dr Mac was very involved in early UFO movement; always at Giant Rock with George van Tassel – she was between 5 and 7 saw Dr Mac look down at her arms and see the hairs standing on end and she'd say “They're here” so Judy ran outside and touched the gossamer stuff on the bushes – it was her job to go and made the angel hair disappear.
- She had been taught all kinds of metaphysical stuff, but wanted more verification. So when she was 9, she'd go to all the churches and the sunday school, then go to the pastor after the service and ask questions; she'd get a pat on the shoulder and say “Just believe, child” After going to that church for about 3 times, she'd go to another – same thing. After doing that for a while, she had enough.
- George Adamski, George Van Tassel and George Hunt Williamson who was an archeologist and a ham radio man who'd been trying to contact off-planet beings for a long time. There was a meeting at her guru's home and GHW met Valiant Thor who was there to make sure GHW's efforts were successful. They made contact with Venus. She was in high school at the time – thought Valiant Thor was just gorgeous and he turned around and looked at her and she knew he'd heard what she was thinking!
 - Three days later she went in the dream state to Venus and saw all sorts of things.
- Judy was born in 1939, discussions of metaphysics were not usual in those days
 - Her mother was very aware & awake, as were grandparents, aunts, etc – raised in metaphysics.
 - Dr Mac's friends was Otis T. Carr; he and his wife were her best friends; the gov't came in and took all his stuff from him; 3 weeks later, they broke into Dr Mac's office and took all her crystals, equipment, etc – all she could do then was adjustments. She said don't worry about me; I was taken out of my body and watched the whole thing from above. She was raised in this kind of environment.
- Mr Cripps – story was he was part of the White Brotherhood; he was out of his body most nights. His eyes penetrated to your soul. Every time she made marvellous healing spurts and having no trouble with her blood sugars, he was always there. He helped her get out the physical situation.
- She believes she is here to figure things out: about hydrogen, ethers, water that others did not know. Nicholas Tesla came to her in the flesh and gave her the formula for energy that is safe & harmless to the planet.

MR: when will the information come out, when will it be safe? **JB:** Almost ready now.

- She would go to her office and find a formula floating in space and have to figure it out. Would take her months to figure it out. She has gone through all the sacred texts to find the answers.
- She says she fell on the planet, hungry for god: she was married 3 times and marriage did not satisfy – she wanted to know god's secrets, not just a little piece of it.
- She was still walking up and down the driveway cussing with god; show me how it works so I can understand! – he threw her out of her body and said there! On Dec 21st, 1994 was taken out of body and went on a tour of the cosmos & beyond, then started to get things together.

JB: has not worked with palladium

There is only on atom that does not have a neutron and that is hydrogen

- the neutron is literally the veil; and that hydrogen does not have it – it is halfway to god!
- Water covers the planet and whispers to us to find me, please find me.
- Water is a miracle because the only way we get hydrogen on the planet is through water. Water is the fulcrum between hydrogen and oxygen, to above and below.
- Ref to lost Gospel of Thomas: wood has hydrogen in it; so does a stone. No electron moves in a living system without the presence of hydrogen: it is at the start of everything; this is why we are All One: it is the Akashic Record which records everything from the beginning to the end.
 - Nostradamus' favourite way to see into the future was a bowl of water: he tuned into the hydrogen recording.
- In people, our liver stores all of our records: why the Egyptians kept the organs when they did the mummification process – one was the liver because it went into the human-headed jars: one jar had a baboon head and so on; the liver kept the record of what happens to us in this life-time and we carry that forward to the next lifetime.

MR: is the memory that is in the liver come back when we begin our next life?

JB: no, the memories go into the cosmic memory

- Gen 1:2 – the earth was without form and void: voice moved over the surfact of the waters – usually the cosmic water is hydrogen – all creation comes from hydrogen: anything that is matter is hydrogen in its core.
- She creates the new energy according to the formula and the hydrogen is neutralized.

MR: are enough people ready to have this information revealed given the conflict, etc on the planet?

JB: she thinks we are the warriors who came back to fight this fight!

We all need to read The Hydrogen Cipher – to understand where we need to go energy-wise

As we fix our spirit, we fix our planet – all the gadgets we have will still work on this energy

JB: we will have all that we have!

MR: asking about the negative energy that comes off our devices – cell phones, computers, etc

JB: that will be gone.

- The engineer from CA is with her partner in Maine. They injected G E M energy into 2 glass spheres that are about 6" around. The engineer is a scalar expert and said the energy is being tuned - it is a scalar healing machine which means a product in and of itself.

MR: when can we order these? When can we have these?

JB: has to be done simply. Partner wants a Kirlian photographer to take pictures for the glass spheres and see what Kirlian effect will come off them.

- Thinks it will have the whole spectrum of the light.
- yesterday put it in a stainless steel sphere and got a whole new reading!
- The 6" sphere can power all in the home wirelessly. All we would need is a receiver in the lamp base for example, not a plug in in the wall! If the sphere got broken, it would not harm anyone.
 - Explains how people are burning 1/2 lb of hydrogen every day to supply the cells with the energy to do what they need to do!
 - The ankh symbol: it was the symbol for life: what it is the water above in the shape of a water drop!

MR: all she brought back from Egypt was a golden ankh

JB: Judy wears an ankh too; she got the answers from god that she demanded!

JB: tells of her journey to the sun in an out of body experience:

the heat from the sun is a spiritual energy, a loving energy; the more she relaxed into it, the more loving she felt it – a being magnificent in stature, a face that was always changing.

- The sun is a hydrogen ball and it didn't burn her: the one true communication is from hydrogen to hydrogen.
- Beings from other planets use symbols, not language
- As a result of her out-of-body experience, she was given the gift of being able to read symbols
 - Got a book on crop circles and went from there
 - Got the understanding for 24 symbols
 - There are 5 years' worth of crop circles, interpreted, at: www.judybeebe.com

About hydrogen:

- we burn 1/2 lb of hydrogen a day
- Electrons don't move in an atom without Hydrogen
- Hydrogen glue is what keeps our DNA strands together: that is the cosmic DNA and has the knowledge of what is out there, it also has our earthly DNA but it is the cosmic that we are meant to awaken and once we do, we will never go backwards.

- The **Bead of Intention** is in our DNA strand. She learned about this while in the inbetween state of waking and sleeping. She kept hearing the words “Bead of Intention”

“My child, your bodies are the spiritual link with the fullness of all you were meant to know. You come into this world limited and cut off from all that you are but plans were made in the beginning to give you all that you needed to complete your earthly sojourn & achieve mastery.

One of the inner special miracles is the Bead of Intention. This miraculous Bead is part of your DNA strand and is only activated by the strongest of hungers to know. This Bead of Intention is what threw you out of your body and allowed you to glimpse the wonders of the harmonious plan in action. Your earth is a reservoir of stored up hunger and harmony, sacred waters and those before you who have made that leap to fullness.”

- You have to want it enough – there is a bead in your DNA strand that was put there to see if you had enough hunger to receive that truth.
- There are 5 years' worth of crop circles, interpreted, at: www.judybeebe.com
- website on energy: www.omegacellenergy.com
- She researched all kinds of religious texts
 - In the Bible, 755 times water was mentioned, living waters, other phrases
 - alpha, omega: Col James Churchward credited with the earliest translations of Mayan, Incan symbols
 - alpha - heavy and obstructed from [the truth about] water [from Churchward]
 - omega
- She married the greek alphabet with Mayan Calendar: all about the evolution of man on planet earth
 - Eda means “with water”
 - Theta means to “extend water” - the sine wave that mystics obtain when they are in deep reverie
 - Si means “come out vapour”
 - Omega – “there whirls sediments”

Corpus Hermeticam – “from the paternal source, nothing that is imperfect spins “

- so all that god makes either spins or pulses; our heart pulses and keeps us on the planet
- alchemy was the art of taking apart and putting back together

Prima Materiae – another text

- hydrogen is what we were meant to discover: water has memory & hydrogen records that memory.
- Hydrogen is the only true communication; it recognizes itself in another person & that is why we are one.

- John 5: 3,4 – she reads it from the King James version – refers to the healing quality of water.
- She also reads from the Koran – about sending water down from the clouds that he might purify you
- Talks about all the various books that she has read that explain about hydrogen and water and

- Describes what she sees in the in-between state
- Her book from Amazon: **The Language of Light** – the symbols work with our bodies

T: Mother and Ashtar have said that the ships run on crystals

- Talks of Ashtar hurling two balls of light the size of Venus each into the sun; they were made up of helium and this is transforming the sun

JB: it's really a plasma sun that incorporates gases and has consciousness

- yes, the ships run on crystals – they are hydrogen based and it is a hexagon
- The Pentagon shape represents fire, earth, air, water and now hydrogen /ether

- Metaron's cube – see hydrogen crystals everywhere, and pentagons
Can only get to the truth if you have a circle and go to that centre with a straight line

SYMBOLS ARE IMPORTANT TO UNDERSTAND GOD'S REALM & what is going on on this planet!

Dr Emoto's work has hexagons in the centre of the water he shows

The ship's crystal is hydrogen which allows the ship to move instantaneously: just think of the location and they are there!

- Her "sun article" - she will send it to us – just e-mail her.
- she has 22 books and reams of other stuff, including all kinds of channels
 - Tesla came to her in the flesh to talk to her – was very respectful, wore an old-fashioned suit! Showed her what to do and how to do it, how people could be healed.

MR: offered to connect Judy with those who might be able to help her; when she is ready to distribute it, let MR know and she will help with that, too

JB: it is called GEM energy because when Tesla showed her the machine and she saw it mixing – it had a golden glow on the outside it: she called it a Golden Energy Machine: it has the frequency of gold in it! A GEM machine.

The Hydrogen Cypher – tells of the 9 keys that she unlocked which brought all of this forward, how it all happened and how it would help the planet;

- talks of the alpha and Omega, the Greek alphabet and the mayan calendar & the relationships
- it's a bare bones kind of text – with a chapter that shows that the early Egyptians had this energy

Understanding Heart

The Language of Light – 24 symbol alphabet

Internal City of Light - about the gateways and how spiritual we are anatomically; she found out all she needed to know in Gray's Anatomy

The 12 Electrical Gateways of the Spine

Revelations and You – tells you what you have to do to raise yourself off of the planet; it is the real message of Revelations; talks about the 12 gateways of the spine are different than the chakras – the chakras are energy centres that feed the gateways and the gateways are what lift us up; each gateway has a tone, a colour, an archangel

- **The Hydrogen Cypher** will be coming out in hard copy; Adam Abraham is behind this project

The Heart: this was the first symbol she got when she went out of body; always fascinated her

- she learned a lot about the heart, but was not prepared for what she learned in Gray's Anatomy
- the SA node; the Sinal atrial node – the place where god puts his energy: sends his signal there
- bottom LH corner is the AZ node – this node is singular until it gets down between the right and left ventricles and it is called the Bundle of His [pronounced "hiss"] – we are singular and then we are divided – we are divided right in the heart, unbundled from singularity into duality
- if we have wondered if god loves us, his mind is on us or our heart would not be beating!

T: brings up the condition of a brother – what can help him and what can we do.

- Water:**
- put intention in water and ask him to drink it;
 - as a group get around the water and put our intent in the water to help him make the transition if that is his choice, or to stay if he wants to stay
 - if he cannot drink; put the water in a bowl and put his hand in the bowl, or wipe his legs, hands, feet, body with that water – first find out what he wants to do: stay or go
- Tells the story of a friend who had cancer and wanted to see Judy: Judy and a spiritual friend did GEM energy with that friend and she made her transition. Later she came to tell Judy that the GEM work they did on her before her passing meant that she was ready to continue her work as soon as she passed over.

T: word was that he needed a 3rd surgery – the dr said he would die on the table; otherwise, the toxicity is leaking into the cavity and he could die from that.

- explains what happened: removed 85% of the colon; inserted an ileostomy [external bag] so that he would not have a colostomy bag in the long run

MR: use the water; maybe not what others would expect but it is a powerful tool

- JB:**
- Get fresh sage leaves; put them in a baggie, take them to the bedside,
 - stand beside him with the sage in a baggie & put it as close as you can to him but don't touch him
 - tell the infection to go into the sage and it will literally pull the infection out; seal the baggie & throw it out.
 - if he can pull through this, we will have GEM energy to heal him and he'll be as right as rain!

Nov 28, 2013

As a post script to Judy's suggestion to use the sage:

The wife of the brother in question who had 85% of his colon removed due to cancer, and a second operation to heal the leak at the place where the remaining colon was re-attached to the bowel – she used the sage treatment twice a day on him for a week or more and could see the difference every time she did the process.

In addition, she used the water treatment as suggested by Judy and when the hyper-oxygenated water from Global Light Network arrived, she put one dropperful in a glass of drinking water and made him drink that.

The first operation was on October 2nd. The second one was a few days later; we almost lost him between October 16 & 19th, and it was touch and go for a short time. He will have been in hospital for 10 weeks by December 3rd.

On Dec 3rd, 2013, they leave the Outpatients Wing of the hospital and move into an apartment. He is no longer losing weight, is walking more and more each day, is looking and behaving more like his old self and, although the dialysis treatments will continue 3x per week, he no longer finds them to be such a difficult experience.

There is much to be thankful for, including the concern, prayers and helpfulness of all in the Circle of Support. On their - and my - behalf, with a full heart: Thank you! Thank you! Thank you!
