## Hard News:

Starting with **weather items**:

- **Jersey Shore**: a huge fire
- **Boulder, CO** – water, rain storms – 7.5 “ all at once – got whacked
- **Santa Fe, NM** – has had 4 days of gentle rain
  
- **Thom Hartmann**: we have **5% more moisture in the atmosphere due to the pollution in the air**
- **NHK news in Japan**: getting cyclones, one after the other after the other: under water for a year!
  - Around Fukushima, water is boiling: 400 tons / day of nuclear waste being poured into ocean; the radioactive water has hit Somalia and it is boiling!
  - This is genocide there as the US has dumped radioactive waste there – the fish there are mercury and radiation poisoned
- We have dumping our canisters of radioactive stuff along the shores of India, Somalia, elsewhere

**A call for help: \$140 for electric bill; needs gas and oil for the car – he's at a standstill; \$ for food too**

**R**: with the fiascoes going on – thinks what happened on the Jersey Shore is a HIT!

- There are awful things going on across the planet
  - Wednesday, went up the Mtn to look for wood in the rain and the cold; saw Anonymous 7.5 again
    - he was driving a Dodge Avenger, like the ones in the TV show Defiance – will all bells and whistles – bullet proof
    - across the whole of the dashboard was a computer screen, with an on line satellite phone with a live image on screen.
    - He had Rama get in the car – he's a White Knight
    - When he talked to Rama on Sunday, he said “W're moving forward, Rama!”
- Sec of State John Kerry: consulting Henry Kissinger for his next moves! He's Skull and Bones, & a criminal
  - He does not want B O to live either, as he {JK} will get arrested for what he has done!
  - Henry K and Ahud Barack of Israel master minded 9/11
- KOS talked to Rama via Text: BO is talking as he does because they threatened to kill him and family if he didn't! **Please put the whole family in the Circle of Support!**

**CL**: what is going to happen with Kissinger, Cheney – they are so active now: what's going on?

**T**: this is their final day in the sun!

- KOS echoed what George Galloway said: America has a problem that England does not – you are not unified! **If you want NESARA, unify –**
- **the only place you are getting Faction 3 news is at this site** – all the other groups are Faction 2 or less, and it splits the mind from the heart.
- Most of the light workers going to other places are looking about money and this is NOT ABOUT MONEY. In a sense, it is a betrayal – we need to FOCUS
  - Yes, you are free to believe what you want BUT THE ILLUMINATI ARE FOCUSED;  
**AND IF YOU WANT NESARA, YOU HAVE TO REALLY FOCUS NOW.**

**R**: picks up the story about being in Anonymous 7.5's vehicle – Ron Kuby showed up on the computer screen in his state police vehicle.

- Ron Kuby is a constitutional lawyer who took over for Al Franken
- he was hired to defend an 18 year old kid, a Somali pirate – the Navy Seal team shot 2 of the others
- he was given 6 mos in jail, and 5 years probation
- Ron talked of Somali – looks like Mad Max beyond Thunderdome: one man enters and what happens in Thunderdome stays in Thunderdome; **it is a nuclear wasteland**
- Ron said Hey, Rama, I have friend of yours you haven't seen for many moons!
- Turned out to be R's father; hasn't seen him since 1997. **R**: “What's up Dude; long time, no see”  
**His Dad**: “ I've been very busy working in Sri Lanka to change it from a zone of war to one of peace.”  
**R**: had texted his dad some time ago to tell him he was set up for the funds: his Dad used all that

money in Sri Lanka:

**T's insert:** when we are receiving, **the example is that it is not for us;** you get to keep some to live a simple and pure love and then you learn how to delegate authority and set up all kinds of programs – to get that abundance, we cannot be splintered into many groups.

**His Dad:** said he could not talk freely – when this is all said and done, we can talk

**R:** he is 86 with long black beard and hair, a total vegan – in better shape than Rama!

**R** has communicated with him a bit, telepathically, but seldom feels the energy, as his dad is so focussed

- the political upheaval in that country is critical – China, India, groups which are not helping the people are the kind of groups that are in the country
- His dad wanted to tell Rama: **they have seen fleets and fleets of Pleiadian craft beaming up the 55 gallon drums of nuclear waste out of the water and mitigating the water etc** – the navy drops the drums into the ocean, they rust out and then the waste affects the fish etc etc

**T: What has just happened is NOT A SMALL THING!**

• **HAVE NOT SEEN OR HEARD FROM ANONYMOUS 7.5 FOR 3-4 YEARS – THEY ARE SO BUSY!**

- Invite people to come: it is important for more to be aware.

**GUEST: Cynthia Crawford [CC]**

She's a hybrid: 34% human, rest is Zeta and Annunaki!

- She was born a twin: her mother was impregnated with her and had no idea – it was gov't program where they were trying to breed super human: her sculptures are about the contact she has had with ETs
  - when she was born, there was no amniotic sac; sister was OK;
- At the age of 5, doctors she said the sister had muscular dystrophy – but actually, she could not ???
  - by 10, she was in a wheel chair; by 29, she was gone
  - CC was discovered to have unusual strong muscle tissue – were going to do a muscle transplant – did the testing, but found the twins had different blood types, different tissue types
- As a toddler, she thought she was dreaming: would be taken underground to gov't owned facilities
  - she was always taken in a gurney many floors below the surface, and tested
  - Because she was a toddler, she would cry because she was scared: she was a very emotional child – did not want to wake up and find she was not at home; always crying for her Mommy
  - She was always told: don't speak unless spoken to – or - we'll give you something to cry about!
  - When she woke up in the morning, she would tell her Mother she was scared and what had happened – her mother said it was a bad dream – but how would a child know to say what she said?
  - so she learned not to tell her mother
- She learned from her father later that she asked what happened when she was a child:
  - her mother said she was a sleepwalker, and she never knew where she'd find the kid; also had lots of problems with nose bleeds
  - she was the only one with these problems – as she got older, these problems got worse
- She would wake up and find out she was being lifted up through the air and be brought into a bright light
  - As a child and a teenager, she could move objects with her mind and she was disciplined for doing things that were not of the norm ;
  - mother died about 6 years ago, always spoke of Cynthia being the devil's child
- Because she could read people's minds, it was hard to have friends. The only one she spent time with was her sister – stayed with her a lot, the only one from whom she felt love.
- As she got older, remembered waking up a block from home: saw a being in a black hooded cloak – took off running and got into the house. Mother always said she was a sleep walker, asked her mother why she never checked on C - "I knew you were a sleep walker; never knew where I'd find you, so I left you alone."
- At the age of 17, she contacted the head of the Nebraska Psychiatric Institute – she could do so many things the others could not & wanted someone / place to talk of these things.

- When she told the psychiatrist what was happening; he gave her a phone number of a gov't school – the gov't had given all the institutes certain kinds of info & the number, so when people were brought to them or when they came across such people, they could pass them on to the Gov't
  - She thought she would never contact another psychiatrist
- Got married at 19; the first pregnancy ended up missing:
    - at 3 months, she woke up hemorrhaging and taken to hospital – Dr said the foetus was gone, but the after birth was still inside. Then she had a daughter; 3<sup>rd</sup> baby was also gone and after birth still there; then she had a son
    - By this time, she was having more contact: when she woke up, her memory was fuzzy. Tried to talk to husband who was from a strongly religious family – they prayed over her to get rid of the devil.
    - She learned to keep quiet.
- When she was pregnant with the son, the beings said she would have a son and that he would help the planet.
    - She told her husband that she was pregnant and what had been said; he said if she was pregnant, he would give her a sewing machine!!! She got her sewing machine!
- While she was pregnant with him: she craved salt like crazy – either salty crackers or potato chips. At 5 months, had complications, the water broke – she had contractions during the whole pregnancy.
    - Husband worked nights, so she was alone when all this happened: she went to sleep. When she woke up, the water had stopped leaking! Dr examined her – you are OK.
    - A few weeks later, she got the flu. She went into a coma- when she woke up in the morning, she had a bleeding stomach from the coughing etc
    - yet the baby was protected, born almost a month premature – 9 lbs, 1 oz. The birth was cesarean – her bones would not expand beyond a minimal amount, hence the cesareans for both children.
    - When he was born, the drs could not explain how she had a dry birth – no baby is supposed to survive a dry birth.
    - There was another missing pregnancy about 6 months
- At age 24, required a hysterectomy – uterus full of fibroid tumours: left in the ovaries and tubes
  - They moved to west Nebraska, and had lots of contacts –
    - they lived on the outskirts of a housing area with a 50 acre field outside the door.
    - one night she had to go to the drugstore, it was urgent – she insisted she had to go then. She took off for the drug store – at 2 blocks away, the car was engulfed in bright light and she does not remember a thing, she woke up at 9 am, an hour late for work, husband and kids gone. He had taken them to the baby sitter & gone to work himself.
- Less than a year later, she woke up and found herself in the field an hour before sunrise – does not know how she got there; husband said he tried to wake her up to make breakfast for him and the kids – could not wake her up no matter what he did, so he dressed the kids and took them to the babysitters.
    - She woke up at 9 am and heard helicopters all around; house is a split entrance so she could see a burnt circle where she had woken up – got dressed, called the office, went to the entrance by the field and told the guy she had to tell them: there was a UFO in the field and it had come to see her. She called herself naive!
    - By the time she got home from work, they had burned up that part of the field where the UFO had landed and told everyone that people had grown Marijuana in the field.
- She had more and more contact: husband worked nights and she would watch Johnny Carson;
    - little beings would come and take her son and she never did a thing about it;
    - in the morning, her son would wake up crying and there would be blood on the pillow.
    - By 27, she was divorced from the first husband who was very abusive.
- She began to think she might have been crazy but in the 70s, she found books about contacts – found out she was not alone. Continued being extremely psychic, especially at work she would have visions and things would happen, and she would be called into the office to explain how she knew things like this.
    - For example: she was in a trucking company, 50% in accounts; 50% as receptionist – one day, she jumped up and said so-and-so is in an accident – she saw his truck flip over and it went over the cliff.

- An hour later, she was called to dispatch and asked how she knew he had been in an accident; they had just gotten a call from PA state patrol – lost control, slid on the ice and almost went over the edge of the cliff. A month later, the driver came and talked to her!
  - She also told her boss he would be investigated: she wasn't sure why, didn't know what it was, but they will come after you – he laughed at her and then fired her.
  - Six months later, his business was shut down for some kind of illegal activity.
- She got so tired of trying to make sense of things: from her 30s to almost 40, she was having tubal pregnancies and she did not know what was going on: went to a doctor and said she had so much pain, and spotting
    - He said we'll remove your ovaries; he had done an ultra sound: you have a large tumour on your ovaries so we'll take it and the tubes out. The left tube was the size of a hot dog and the medical board were trying to make sense of what they saw: there was no tumour!
    - The dr said she had had 4 or more tubal pregnancies – she only remembered one of them which was found by ultra sound in California – and she was not allowed to go back to that doctor. That time she had passed the after birth and was in awful pain; she remembers 4 such incidents when she had the children
  - back in the 40s , after WW2, German scientists came to America and for 2 decades they worked with beings from off planet to create hybrid children: their intention was to create super human hybrids who would do anything for the gov't but ask no questions. Also, the hybrids could harm people with their minds.
    - When she was a child and too emotional, she was considered a failure as a hybrid.
    - The scientists would take the woman's egg and the man's sperm and add alien DNA – insert the result in the organl mother's womb and also have surrogate women carry the child , and those women didn't know they were having a baby without sex!
  - In 1997, she joined a group of experiencers – learned more from them
  - After 2003, she started making little clay ETs out of boredom and to remind herself – she got calls from people who knew they were hybrids; also from people not born on the planet and here for another reason.

**To go back:** 1997 and the group: she joined because throughout her life, she had had miraculous healings.

- At the age of 29, after her twin sister died, she had lower lung pneumonia and they were collapsing & the Dr did not tell her; she was supposed to go into emergency and have more x-rays taken even though she had had x-rays taken by the internal specialist doctor
  - Instead, she went out of town and took the training program in Buffalo, NY so she could keep the new job which she desperately needed [no child support and 2 kids] – she could feel the lungs collapsing and lay down on the bed in the hotel and prayed to God: please be with my mother to heal the pain of my leaving.
  - The next morning, she woke up – healed!
  - She went back to Omaha and the Dr said you should be dead! He xrayed them – two new lungs! And he cried!
- This has happened all during her life: she went in a coma when pregnant with the son
    - in 1993, she was walking across the street while working for a Dr – had to cross 2 streets to drop the mail in the box; while crossing the street, she was hit by a car pulling a camper and going way too fast
    - her head went into the camper, she was thrown 5' in the air and 75' into the street. She lost consciousness when she was struck, and regained it as she hit the ground and heard all her bones cracking.
    - 12 years later at a conference, a guy walked up to her: he thought she looked familiar – he was on the ship and was meant to witness her being on the ship and bringing brought back to life and being alive as she was going back to the ground.
  - 5 years later, she had symptoms of a brain tumour; lost ability to speak after 2 years struggling to learn to speak following the accident. By this time, she had been on the ship so many times, she began to have conscious contact with her star family – we are all connected as we all have the same Creator.

**CL:** you had to break away; your life was threatened when you decided not to be a co-conspirator with the dark side – what happened?

**CC:** everything changed after she was on the mother ship and she had the brain tumour that they had healed.

- They walked her around the ship and show how star seeds are kept alive as they have a mission.
- The govt found out when she began reporting – that was when she began to be followed.
- When she was healed of the tumour, she put it on a website. Those who think they have had miraculous healings have found it is often from ET contact
- Then members from the secret govt would come and inject her: she was literally injected in her belly button and she woke up and saw it was Men in Black.

**CL:** Do you know who they are?

**CC:** knows that they have come from our future – there is much we are not aware of; they are trying to make changes because in our future, humanity has lost its ability to have emotions which have been bred out of them. They are also hybrids who have no hair –

- they have come in to try and change what is happening now so the future can be changed. Though she is not sure how much future can be changed:
- when she was being interrogated by them, they did not speak verbally: spoke like in fast speed – this happened a lot

- She has a NSA tag # because she is a hybrid:
  - we can't kill her because she is too protected – and they have been trying to kill her lots of times
- She was told by a psychic not so long ago that she would meet one of her children who had been taken from her: it was quite an experience; and the child had phenomenal abilities
  - CC never worked for the govt as she was considered a failure
  - The daughter was implanted in a surrogate mother's womb, and when she heard CC's voice, she knew who it was - used to see CC on the ships. Because she is who she is, she was threatened that she would be killed – daughter said she had greater powers than them and would not be killed! Her name is the name of CC's twin!
- A wonderful thing to meet your children; but also when this happens consciously, it is quite an experience.
  - Even though we are taken on the ships, we are not allowed to remember because we would be vulnerable by members of the gov't
  - Literally, they had injected her with a serum in the back of her head that caused an aneurism – she started screaming with the pain “If you want me to finish my mission, you had better heal me!”.
  - An hour later, she came to and was fine.
- She had 3 dogs – husband out of town; she knew there were several men outside the house – she communicated telepathically to the beings, and said “They are out there, and I will use my powers. In case I am not strong enough, please give me a hand.”
  - She got a feeling, a knowing - unlock your door, go out on back patio – and there were 4 ships!
  - So they do watch over us. And they will make sure
- The beings told her to makes the sculptures and they are only for star seeds so they remember their mission – people have called her after getting a sculpture – once they remember who they are,

E-mail: [cynthiatcrawford@etsculptor.com](mailto:cynthiatcrawford@etsculptor.com)

- Does consults over the phone – sharing, needing a sculptor, whatever
- She has also had conversations with beings who are not from the planet.

**T:** Rama is Ashtar's son **CC:** she has been on his ship: helps her with problems with stomach – he has been in her house; has taken her on the ship and shown her the cafeteria on the ships so she can change some of her eating habits.

**T:** read books by Oscar McGoskey in late 70s – talks about the MIB: they are not necessarily so nice!

- In his stories, he had people on the ships actually pose to help him out of fixes when MIB were after him
- Not all from the future: some of them took part in experiments where they wanted to get rid of emotions which get in the way!

- CC:** has never had good experiences with the MIB; many have been told not to talk yet – not the time
- She has formed a group that meets on alternate Fridays for those who have had experience with MIB, the ships, & remote viewers who try to take them out [those in the group]
- T:** Have to be careful who you contact: lots of time people are posing as light workers, then do remote viewing and call in beings that are not so nice to go after people who are ignorant of what they are doing
- CC:** there is a war going on in the universe, outside our planet and she said she knew nothing about it – sure enough, she ended up on a ship and was captured by a draconian race – a scary incident – you have to be strong – she has been taught by her star beings that we get our power by being in unconditional love and using the Light of Source
- The draconians were trying to convince her that if she changed sides, they would give her an army to assist her
  - When she woke up, she got really sick – a virus; the doctors told her she was recovering from mononucleosis and she has never had mono!
  - Her friend who is a starseed & hybrid with phenomenal healing abilities; he has a bio skio machine – he said you've been having a lot of contact? Yes! You picked up a virus from them
  - It has taken over a month to get over the worst of it and she is still not 100% : hard on the body
- T:** There was a TV series called Time Tracks – people trying to come back from 24<sup>th</sup> century and give MIB, CIA Black Ops in this century about how change the timelines: this is **against the Prime Directive**. When Mother says No, No, No!
- CC:** much she does not know: has gone into other dimensions and parallel earths, and seen herself existing in other worlds – very interesting – eg, saw herself on a planet that had no sun: the brightest time of the day was like having a full moon on earth.
- We have to keep an open mind and be willing to learn this. They are helping her to remember who she really is – this is happening to a lot of us.
- T:** there is really intervention right now. Ashtar has put in a brig a being called Hitler who did not die [Scorzini before he died in 1999, gave pictures and manuscripts, said he had been hired to kill the clone of Hitler so Hitler would be presumed dead]
- Hitler had been going back & forth to the 24<sup>th</sup> century, influencing the Black Ops like Henry Kissinger
  - And also Z. Brezinski, an archon, who has the ability to use his 3<sup>rd</sup> eye and the power of sound to destroy planets – these are the kinds of characters that Ashtar is intervening with so we don't lose our planet. That is how serious it is.
- Barack Obama has been all over this universe of Nebadon; has been in training for over 1000 years;
    - he's the 9<sup>th</sup> member of the Sirian Council of Nine; has travelled back and forth to Sirius many, many times & has been on the Pegasus project – has been to Mars, Lyra, Vegus, Andromeda
    - he is originally from Andromeda: the only president who knows about the 38<sup>th</sup> level above the president, as well as being the president: he is a star ship captain
  - Right now, you [CC] are being prepared and have faced so many things: and when you show the faith and/or scream even when you have to go out cold- when you do that, millions of other peoples get healed too –
    - the energy of your healing gets broadcast out across the planet. It is not just you getting healed – we are all One Beingness – it is the one mind and heart that are doing this.
  - They had to say this: non intervention in our civilization's development unless in the case of physical or nuclear holocaust - right now we have both physical and nuclear Holocaust – CC is here to help with this
  - Talks of Rama going up in the physical many, many times – having the same experiences.
- R:** he serves on the New Jerusalem, a tactical navigational commander with Ashtar
- CC:** she was going down the hall in an avatar blue uniform – she was waving and saying hi! She was so excited about being on the ships: seeing everyone, knowing that she works with them. Next moment, she is back in her bed: not supposed to do that!
- According to the experiences she has found out she can bi-locate: she was in bed and yet she was on the ships. Experiencing that more and more lately.
- Last night, she had the feeling to look out the front window; opened the front door and looking out to the mountains – between Gilbert, South and Chandler Mtns. - there was the ship with amber lights, looked

like a pyramid – she got a phone call from those in her group who had had the ship over her house & had missing time; another had a visitor from the “shadow people”

**R:** these are interdimensional beings who are awakening to full consciousness but have gone through many traumas and altercations:has to do with past life agreements that we played with throughout the galaxies and local universes

- has met quite a few of them; work with the Office of the Christ & the Violet Flame & then they ascend.

**T:** They often get stuck between 2 worlds: tells of working in a hospital of sorts and helping a man who had been in a terrible accident; he was the driver, his brother was with him, an alcoholic and he jumped into the living brother's body.

- the driver became a quadrupelgic – T helped him take the brother who jumped into him out onto his knee and tell him he did not need to do this – there is a light you can go to
- Later he came and visted the man and said thank you, and thank the lady who helped you

**CC:** had a friend who was in such excruciating pain, she needed to put her hands hot water and massage them to move her fingers. CC invited this lady to help with the sculptures by maybe painting –

- the lady called her up to tell her that the sculpture started to move in her hand – it healed her hands!
- The praying mantis people are awesome healers.

• In April 2012, CC had a party and invited 20 people; 44 showed up – it was to celebrate the star people and thank them for their help

- One of the people came to her & said they are out there, they have come through the veil to THANK US!
- Some people used night vision goggles, sent love and thanked them – then the desert lit up and there were orbs.

**T:** on Nov 4, 2008, Obama went to Grant Park with a million people – and all the orbs were filmed & shown on news programs: then news videos were not shown again.

**T:** asks CC about saying a prayer for Obama and his family

**CC:** she had been told about this: before he was elected, her guides told her that she needed to vote for BO as he was a starseed and was here to assist humanity. She will do this with her group.

- She's talking in Montgomery, AB on the 21<sup>st</sup>.

**CC:** address for [cynthiatcrawford@etsculptor.com](mailto:cynthiatcrawford@etsculptor.com)

- Write her, and she will send the address in AB – Alabama is not usually the place where ET conferences are held

**CL:** thanks her for sharing her time. She lives in the Apache Mtns in Arizona.

**T: more galactic news!**

**Randi Rhodes'** guest on Wednesday: Master Sgt Bob Dean!

- He got a message from galactics 30 million light years in the future: what if they decide to show up in the midst of all this?
- he has been on the New Jerusalem many, many times; knows Ashtar, Sanada Kumara very well, and
- Has been to the planet called Eros where many of the commanders come from, and to Alpha Centari 4.1 light years from earth, where Soltec comes from. [Chantara's father is Soltec]
- There is a training centre/Star Fleet Academy there; many, many people from earth go there for training now – many that are starseeds are getting their orders
- There is a neighbouring planet in the Alpha Centari binary star system: almost a replica of Pandora from the movie **Avatar** – the people are felines, cat people much like the Navi came to the planet after Sirius A and Sirius B were compromised due to the Orion War – and the Dark Sirans got very ugly, so the people left and went to the other planet
- **any time now, these beings and Soltec will be visiting us in their spherical ships**

**RR:** Sgt Dean, there is only one other person I get to talk to about this subjec, & it is Crazy Lord Rama

- **Dean said I know him very well; I met him at the Prophets' Conference; I know Mother Sekhmet and you listen to him – he is a very great commander!**

- RR:** also reported on Ron Paul who got \$2 million from Pope Benedict
- he used it very, very surreptitiously to fund the Tea Party and set up the Sovereign Militia Party helped them get bombs, etc etc - to start insurrections, civil war
  - Same day she had Sgt Dean on - time to call these ones out
- She made it clear that he is a Nazi – libertarian is just a front, as are the Koch Bros
- he has been paying for ads , disinformation and propaganda against Obama and those working for the light – he has been playing at being the greatest light worker ever!

- T:** Jesse Ventura lined up with him and is responsible for the murder of Fred Bell
- May we pass every test! For all the love we've ever held, we can hold more – this is not about being cross /angry!
  - First law of love: BE CALM! It is quite nerve wracking at the moment: extremely important to remain calm and speak truth to power – quite nerve-wracking at the moment, if you haven't noticed
  - As we are calm, even in the fact of not knowing what the next moment will bring – that is when the gifts come.

**CL:** when we are quiet, we can meditate and think

- T:** let's put the people in the southern most Island of the Philippines in the Circle of Support
- intense fighting between the govt forces and Muslim insurgents – port city of Sambuonga – militants accused the govt of not including them in peace negotiations.
