T: addresses the BBS bill

Hard News:

T: Randi Rhodes almost got kicked off the air today.

R: has to do with RR speaking truth to power since Air America disappeared

- There are folks in the skunk works reminding us what happened to Michael Hastings
- R R sued 3 military contract operations AND WON! The company she works for, Premier Radio Networks, was going to put her off the air on Dec 13th, and KOS stepped in:
- RR had called out 3 military contractors for dirty practices in the Green Zone: one staff member got pancreatic cancer; one got lesions all over his body due to the depleted uranium, 3rd had a rare bone marrow cancer
 - Randi was sued; she counter sued and won, and also won recompense for the 3 people
- Also, there is a person or persons who filed complaints with Premier Radio Networks for bashing Hillary Clinton, even though it was at a private club where she could speak as she wished.
 - It was then that KOS stepped in: she said a friend of Mr 19.5* straightened out Premier Radio Networks and she has another 2 year contract!
 - She said today on the air: I will say it on radio as I see it: Hillary Clinton is guilty of Murder 1.
- She also said David Icke has turned his hat around, and his YouTubes are about the blatant racism against Obama.
 - The tin soldiers who are doing the racist stuff are on their way to The Hague; not just guilty for a few

problematic issues, they are putting their money into taking people out like the Obamas.

- David also said QEII is having trouble maintaining her holographic human form – keeps shifting into reptilian form

Tom the Ring Tailed Cat talked to Rama: the nature of the energies coming in are exposing the dark ones,
• He brought up The Trans Pacific Partnership [TPP] by which means the corporations hope to gain global sovereignty over the entire planet with no one having any rights; the TPP makes only corporations people with their sovereignty as the only one – gives them patent rights to everything on the planet, including our bodies, our DNA

- All eyes are on Japan about the TPP – the annual business conference is on for 2 days – Mike Papantoneo is screaming about this and how tough this is going to be on us: now is the time to ramp up opposition – there were demonstrations at the hearing in DC;
 - there is also a meeting in Seoul, Korea as well as demonstrations, and the activists were beaten by the police

Fukushima: the spent fuel rods [1500+ which sit in radioactive pools of water] are to be removed

- they have to be taken out carefully without touching anything or there will be nuclear reaction explosion
 - Japan's former Prime Minister called on Shinzo Abe, current PM, to remove Japan from nuclear energy – he was actually yelling at Abe!
 - The yen is falling against the dollar – in big trouble.
- No Tyranny lasts forever – as we go deeper into our own consciousness, we make change!

R: who killed Yasser Arufat? Mr Netanyahu – story not going away.

- The proof is already in the right hands: momentarily it will be revealed

T: the current World Court has to be changed too – they are all in cahoots!

- Ever since Reagan stopped enforcing the Sherman Anti Trust Act, the corporations have had their claws into taking down the economy; since the US economy and currency is the marker for everything else, not a good scene.

R: story out there that NESARA was announced, and John Roberts made the announcement

Story is in NESARA Blogs and Forums – THEY ARE FACTION 1 AND 2

T: arrests have to be made first!

R: IT IS NOT TRUE.

Reading: All in with Chris Hayes

- J.P Morgan is now one of the most hated banks in the US: started a twitter a/c called #AskJPMORGAN to have a twitter chat – reads some of what the students said Very astute!

<http://www.msnbc.com/all-in/watch/jp-morgan-goes-from-hero-to-villain-63736387939>

All In 11/14/13

JP Morgan goes from hero to villain

JP Morgan seemed to emerge from the financial crisis stronger than ever but since then it's gone from hero to villain of the aftermath.

- Chris interviews one of the twitter participants

T reads various notes on financial affairs

- Also about Employment Policies Institute which has fought against minimum wage hikes - it has adopted a name similar to a real economic think tank!
 - Lobbyist Richard Berman – the Employment Policies Institute operate out of his office – he has sought to block food safety regulations, lobby against tobacco safety, and lobby for chain restaurants who do not want to institute minimum wages.

Mother Sekhmet

In the Office of the Christ and only in the Office of the Christ, we invoke the loving energies of St Germain and the Violet flame

Greetings, Children of Ra!

- Indeed the energies are pouring forth into this realm, awakening all kinds of stuff to be brought to the surface. It is all being brought to the surface to be healed: Lord, make me an instrument of thy peace.
- There are so many issues, so many threads to the web that we weave concerning this circle of life that is so precious, so delicate – it is quite a cosmic dance . . . this eternal story just a day, a night in the circle/cycle of a galaxy. The bigger issue at hand as the energies pour in – the sun has been doing some wild dancing: Sol is at the end of an 11 year cycle.
- What is happening is the dimensional planes are merging, and the wild dance is just that: the cosmic wild dance of the fairies where all that are participating in the grand scheme of things – it is coming to its conclusion - we are at the end of things: As Max Keiser keeps saying - how do we continue to promulgate absolute lies that the markets are solid when the Dow is something like 15,900 + and the Nasdaq is also so high ; meanwhile, people are worried about Iran getting a nuke, and the Phillipines are burying their dead

T: adds that they are only up to 4, 460 that have been positively identified in one city alone: none are counted or buried until they have been positively identified.- so the numbers of the dead are far from complete.

Mo: it is about one moment of time as we call this expanse we are in, how we have this time together

- The events that are unravelling to come to this moment – it is about the one hand clapping, as she keeps talking about – it is the sound of the universe that is as silent as death walking with us at our shoulder, and at the same time it is the sound of all of us together

T: Earth's population is about 7.4 billion – there are so many births, and also so many leaving

Mo: for all that are here and those that are leaving, there are trillions waiting to take their place, trillions! Of fully awake souls.

T: takes about 7 years for a woman to regenerate after the birth of a child and 7 years is the time a child reaches age of reason. One child every 7 years is reasonable.

- The huge number of births is being spurred by the imbalance, the cruelty where people do not survive unless they have lots of children.

Mo: There is a process that as we are in this dimensional realities, holding space as it were, there are ways that we can bypass the issues at hand that are the detriment to this existence.

- It is about the divine qualities that are transpiring right now into manifestation: giving birth does not have to be painful. It is about having a magical, ecstatic experience. Right now things are changing so radically, throw out the old ideas and start anew.
- This is a new space time which is only about love – that is what she can say.
- There is a lot transpiring at the moment as this ship of state is righting itself with the absolute fiascoes and shenanigans – it is a difficult story: how do you talk about mass genocide, ecocide & murder?
 - Bill Maher does a good job about laughing about the horrors of this planet, yet she can tell us that the uplifting qualities coming into physical manifestation have to do with this super portal and the frequencies that the archangels have been quietly stirring the pot.
 - We are in a new place – no longer in Kansas or even Oz anymore – it is about this moment and wherever we are is where we are;
 - in the cycle of the energies we are in at the moment, serendipity, synchronicity is the key ad we walk this walkless [pathless?] path, do it with respect and dignity for all life forms, even if they choose the left -handed path.
- Mike Papantonio was talking about getting us to a decent health care system that will get us to the point where we understand that we can heal ourselves as the gods, goddesses that we truly are.
- The issues at the moment are about setting aside the moments which have nothing to do with reality: the bat crap crazy ideas [Mike P's words!] about Obamacare are just that!

- Democracy is a messy business: about small d democracy - yes, there is a group that wants to control but the gold lining is about the man who wrote The New Atlantis and we are the ones who came with him to make it manifest. This guy is making it happen, and all that is being discussed is about putting this in the trash!
- Why do we need insurance – don't we understand that we have the assurance of the Universe that we are immortal, that we are creator gods, goddesses – don't give your wealth away to life forms that do not deserve these pearls: insurance companies which have nothing to do with life!
- The intricacies of righting the ship of state and how they have messed with word magic and separating our hearts and our minds – this man is about righting this ship of state, and Elizabeth Warren has said that these banks are too big to exist – the Lavendar Lad is the one handling the funds of the New Atlantis and no one else.
- It is one story: Ascended Master Valiant Thor: you get it done with love and the I AM presence.
 - There is more than enough wealth to go around, and get the Phillipines on track. Why not a flotilla to Gaza – and we get shot in the water by Netanyahu; Somalia and Gaza need more help than even the Phillipines – when one is healed, all are healed is what it is about.
 - There is more than enough to go around and the 13 families will have to wipe themselves with their hands – eat with right hand, wipe with left as in India. Mr Warren Buffet can get it, Jamie Dimon can get it!

T: asks about the concept about “the unwashed masses” - is this an eternal story?

Mo: that is about the fact – Thom Hartmann always talks about the inequality: if i take a snickers bar 3 times, i go to jail for life, yet Jamie Dimon & Dick Cheney can take all and still walk around.

- All of the banksters and Wall Street gangster are going down – it is inevitable.
- Brings up the TPP – aka Shafta - the **Old World Order has been cancelled.**

T: Carolyn Kennedy went to Japan today as ambassador and her job is to get TPP done.

Mo: it is a double story: she knows her daddy is alive, she cannot talk; knows her uncle is alive

T: The uncle by his non-talking being complicit with the murder of the clone of his brother

- The issues go so far back about this republic – concerning these families who think because they “have a few extra strands of DNA” that we are supposed to lick their boots – She does not think so in this life time!
- Goddess is back and she is calling the shots – it is about equality. Warren Buffet and Jamie Dimon need to find out what it is like to eat Ramon soup out of a rusty can!
- Thunderdome is already over, as she is here. Yet Mad Max is already in the streets: look in the brain of the returning vets and you see something that looks like the Terminator.

T: asks about what about those radioactive rods and what they will do with themselves

Mo: we are here, and it is about how we get introduced and become part of the mix

- Time for Dr Jack Safarti, Dr Fred Alan Wolffe and Dr Monka, Dr Soltec, Korton and a few others to get it done: the wisdom of the ages is about containment fields and neutralizing radiation in a matter of seconds – we have the keys
- In answer to Tara's protest that if they know such technology is available, they will go on and build more of it – Mo says that is why Queen Noor and Valerie Plame say **ZERO NUKES!** And then we can land.

T: we will have to wait for another millenium!

Mo: this cosmic dance in the moment is the appearance of time moving so slowly waiting for the ancient life-forms to get a document done – but it is already HERE. We can't talk about it.

- Obama is in the place with Dr Rohani and Dr Keshe of Iran, many others; it is only about the next step of being on the stage and telling folks there was a little white lie about the nukes which are gone, and that we have been playing a brinkmanship game – the speaking will be done by Obama and others, not by Mother – concerning the “little white lies” of the last few hundred years.

T: instead of waiting for the galactics to get it together, they don't get to run the show anymore

Mo: understands that they have to fix the glitch – it is about the funny timeline that is dissolving: there are no other timelines, only the one we are in. The time is NOW

T: why don't we just arrest them already?

Mo: from your lips to the man's ears – Enshallah!
• Kadoish, Kadoish, Kadoish . . . Namaste, Mother.

R: Has been in some kind of observation deck; seems like he was observing, not in the Fortress of Solitude but in Buton, standing on some kind of tower watching the Aurora Borealis going around the planet.
• We are in for so much greatness – this planet is a jewel in this story; there is so much beauty in this story and this planet that is unravelling
• He is just a dust mite on the back of a cat.

T: why do we have to sit here and look at this that looks like hell on wheels?

R: because I have attained enlightenment, I have chosen to be the Bodisatva?

T's comment: it was a rough one!

Audio: Thom Hartmann & Maggie Fox, a leader in progressive causes all her life **[SEE BELOW]**
Her bio is below.

- People are ready to have the conversation about climate change, pollution, carbon, etc
 - There is no price on carbon for all the tonnes of it being tossed into the atmosphere
 - putting a price on carbon will change the way polluters behave

Audio: Max Keiser Episode 523 November 13, 2013 08:30

<http://img.rt.com/files/episode/21/1e/b0/00/keiser.mp4?event=download>

Max Keiser and Stacy Herbert discuss people fighting for the last dregs of the mud pie of state benefits while a new Investor State emerges contactable only if you can find their unmanned customer service line. In the second half, Max interviews author and gold bug, Dominic Frisby about his new book - Life After the State. They look at polls suggesting the UK public wants more state intervention rather than less and also at the rise of the stateless currency - bitcoin.

T: note that he said things have already collapsed!

Reading: D'yanni Yahoo -

- Their elders said that to think something was the same thing as doing it: have to control the thoughts.
- by seeing beauty in everything, we create the vortex for it to manifest.

Closing: Rainbird

Music: the solfeggio tone, 528, for miracles & meditation time
the sound of MI transformation, the power centre of the solar plexus and repairs the DNA
