Don't Quit - Poem by anonymous - A favorite poem

When things go wrong, as they sometimes will,
When the road you're trudging seems all up hill,
When the funds are low and the debts are high,
And you want to smile, but you have to sigh,
When care is pressing you down a bit,
Rest! if you must; but don't you quit.

Life is queer with its twists and turns,
As everyone of us sometimes learns,
And many a failure turns about
When he might have won had he stuck it out;
Don't give up, though the pace seems slow;
You might succeed with another blow.

Often the goal is nearer than
It seems to a faint and faltering man,
Often the struggler has given up
When he might have captured the victor's cup.
And he learned too late, when the night slipped down,
How close he was to the golden crown.

Success is failure turned inside out;
The silver tint of the clouds of doubt;
And you never can tell how close you are,
It may be near when it seems afar;
So stick to the fight when you're hardest hit;
It's when things seem worst that you mustn't quit.

- Charlie Wrangel [83 yrs old, in Congress for 43 yrs] said:
 - Citizens United [4 members are Opus Dei]; Koch Bros; Ron Paul; Phil & Wendy Grams
 - Liberatarianism is worse than the Republicans: the most insidious thing that has ever come to
be; it's about de regulate everything, be as corrupt as possible; make all as poor as possible;
never be your brother's keepers 4 5 Tea Partiers are really hard core
 - Ron Paul is one of them too – using \$2 M from the Vatican to help the Tea Party fun the show
as Libertarians – Vatican has to be included with all of those named
 - Phil & Wendy Grams got their blessings early; used it to fund the Tea Party along with Dick
Morris and Dick Arme

MR: exclaiming about these ones getting their money and using it so badly!

T: to see what they would do: **a test that they have failed and so they are exposed!**

- Dick Arme got funded too – used it the same way!
- Paul Rayrick: I don't want everyone to vote; the less people who vote, the easier it is for the right
wing to get in office! Then the Lightworkers ignored everything and the flower kids were
distracted with sex, drug and rock and roll!

T: Some have asked more about the Sept 26 e-mail called “Some have asked why the Affordable Care Act [Obamacare] is not good for us” – sent my Michael King in an e-mail

- Though the author tries to connect dots between Obama and a number of issues: **this document is total Black Ops**
- Obama has nothing to do with this: everything named in the article is about the UN and all the organizations flowing from it
 - Obama, as a double agent, is clean, clear and criminal free
 - Hillary takes all of the Children's Defence Fund – uses it as her private slush fund
 - she had her lover killed when he brought the money to her – and she continues to collect it.

Guest: Steve Bono

- MR has known him for a long time; has gotten re-involved because of something that could benefit listeners.
- Steve is a presidential director in the company

Steve:

- Timing is everything: some incredible developments with their company
- Light Year is a 19 year old company in communications: how to save \$, how to make \$ too
- In the past, they had VOIP and some other things, and were a wholesale partner with 3 big communication companies
- **Feb 4, 2013 – a new agreement with Verizon –** they got a wireless agreement and could keep own device and bring it to Light Year –
- Now **have a referral program** – as long as you refer 3 people and they are on the books, you get free phone for the rest of your life!
 - An entrepreneur can capitalize on one of the largest growth areas – with 3-6 phones per household, can have them save \$ and sign them up & have an on-going residual commission
- this year, they have a merger acquisition with March Communications – it has grown very fast in last 5 years; have bought over 18 companies; they merged with Light Year & they have a contract with the US gov't which has a program to help those who have been hurt the most: **LifeLine is an assistance program** that has been in place for last 3 presidents
 - Obama changed it a bit & March has that contract – a development that has never happened before: people can keep own phone, get involved with a wholesale company

MR: people might say they know nothing about the business: **Light Year teaches & helps a great deal!**

GO TO www.marietta.mylightyear.net can see the products, how to sign up; how to do the business

MR: why can you offer this cheaper than Verizon?

Steve: The big cell phone companies are advertising at a cost of **\$7M / A DAY**

- without spending a dime, Light Year is showing people how to pay self & build a customer base
- their model is to gather a handful of clients and build retention into the base
- they are wholesale and not spending money on advertising

MR: company has land lines

- Now many people have changed to cell phones, and the companies are stealing customer from each other as the market is saturated.

Steve: They are a full service communication provider: focussed on the wireless area; also with VOIP, land lines

Steve: to get free service: (1) a business owner can sign up 3 people or (2) Recruit 3 new business owners who each become a customer

T: what this company has done is make every possible combination of options that others do not do

- unlimited data, phone minutes, no contract

- MR:**
- will still cost you less even if you don't sign up 3 more!
 - To never pay a phone bill again, sign up 3 people.

- Steve:**
- thanks for having him
 - excited about helping people save money and live their passion – this is a vehicle which will be a great help to all
 - 99.9% have not idea of the things that happened to Light Year Company this year – **need more people to help**
 - whether people become a customer or an agent, they will do their best for those who contact them.

Guest: Frank Chille

- Research done by someone who does an archeological newsletter comparing the Zodiac and thinking it has more to do with astrology, and finding it is more about astronomy - the names of astrological constellations being named the same in most cultures
- there is more about astronomy than astrology in the zodiac – there is more scientific and mathematical principle behind astrology than has ever been given

MR: has sent the article to Rama for putting on Rainbow Round Table.

FC: Sharing about people who have been coming forth and sharing

- someone in PA: is one of very few to go public with experiences in October, 1962 at a Strategic Air Command base on west coast
 - saw a huge craft that was there for about 15 minutes
 - "K" said he went into town and mentioned what he had seen at the base; no one wanted to talk about it
 - K gets a notice to go to the Commander's Office: got dressed down for speaking – not to talk about what he saw on base as he was on a high security base: choice was to be court-marshalled, or go to Newfoundland –
 - so he went to Newfoundland for 18 months and had MORE experiences because there are activities all over the planet, and in the remoter areas, there are more.
 - Art Bell producer called this person and will do a story on him within the next month; he wants to talk
- Frank went to Minneapolis with Roberta Herzog to a lecture in the early 90s
 - a caller told the following story when he called in to a program Frank was appearing on
 - he had been stationed in Alaska on the DEW line: job was to monitor the horizon after dusk and watch for Russians
 - the first months they saw so much aerial activity: when they reported back, told to disregard it – it WAS NOT EARTH ACTIVITY: 100 - 300 SAUCERS PUTTING ON DISPLAYS FOR THE MEN ON THE DEW LINE!
 - They thought any visual activity would be from the Russians – but never!
- two weeks ago, FC met a woman from Montana: an extra -ordinary
 - at 6 yrs she met **George Van Tassel; George Adomski** a pioneer of the contactee movement who had met a blonde, blue eyed person; a witness to this was **George Hunt Williamson** - he was being communicated to by them – he joined the Air Force and became a radio technician
 - in the 50s, very primitive ways to determine who was sending radio signals: trucks with loops on them that tried to locate the direction of the signals
 - As G H Williamson and others went around in their trucks, trying to find source of signals: they found the source was above them from craft 150 miles above the earth, not from the sides of them.
 - When Judy went to hear G H Williamson's talk when she was 19
 - a person who had his back to her, he turned around and said to her that she was from Venus, too/ **It was Valiant Thor!**
 - Said he is more handsome than any photograph; his voice was resonant and magical; G H Williamson was doing a transmission from Venus to the audience and Val was there to help
 - Valiant took her hand, touched her elbow, looked at her palm and said "yes, you are from Venus" – this triggered an experience that took her to Venus

- she saw trees, leaves she had never seen before; Val was guiding her telepathically
 - The structures were globular; the houses looked like they were alive: they blended in with the foliage and did not look out of place at all.
 - Sky looked pearlescent – like the inside of an oyster shell
 - Then she went to Neptune: none of the individuals had bodies – frequencies in
 - She was taken to the sun: it is not a hot place, it is cool energy that becomes heat when it hits the atmosphere of the planet; the beings
 - the flames on the planet are very playful; the flames would crawl up her legs!
 - My Visit to the Sun – a book from the 30s which he sent to Judy – J had the same experiences!
- Judy grew up in CA: had Diabetes from the age of 3; worked with a chiropractor called Margaret McKinnon who gave her radionics treatments; Judy said Margaret was being visited by space beings; there was angel hair on M's property when the ships came over; when you touched it, it disappeared. It felt like it was liquid when she touched it.
 - As she got older, she got influential with writer Richard Miller who wrote Star Wars; Judy ended up channeling Montez and Soltec; it was a profound book - Miller is still alive at 85+ on West coast
 - She was contacted by the space beings and was given a product to help mankind: tap water, hydrogen, Oxygen – when combined in the proper ratios, it creates powerful energy. She took it to a lab in NYC that does battery testing. They tested the process in the lab and added oxygen and hydrogen to tap water in the ratios she told them - created energy
 - **1.4 GW is an extra ordinary amount of energy: completely safe! Not combustible!**
 - This energy source will be gifted to the planet
 - the company wanted to buy it from her for \$2 million; Judy would not sell the idea; was afraid that it would be put on the shelf so she said no. [the battery market is worth \$15 M a year]
 - She is working with someone who wants to power a Chevy volt – when put into the container, it never stops creating energy – perpetual! The time is now for these things to come into fruition! She feels protected.
- Discussion about potential of having Judy as a guest: he will talk to Judy and see when she can come on
 - More testing has been done: a closed environment: once it is sealed with no contact with outside air, creates perpetual energy

T: talks about need for real security until these ones are gone

FC: on Sat pm of last week, he had an experience: went to a church built in 1802, 1803: walking among the foundation stones and all of a sudden, the church started to reappear. A monk appeared and took him on a tour; then he found himself back in present time and the church was gone

- When he heard popping sounds, he saw all kinds of buildings from the past re-appear as well as buildings from the future

• The changes will happen in the twinkling of an eye!

MR: fascinating

FC: Craig's short film is finished now; maybe we can get him background

MR: in her consciousness as well-established

FC: Judy: every one of the planets has life forms – want to be respected

MR: has been able to go to the library there [Venus] – a wondrous experience

FC: people are having these experiences, and they are for all

T: Rama spoke with **Natasha [KOS' wife] today: Rama had to meet with her personally to hear this**

- **Obama getting ready to announce the presence of our space brothers and sisters**
- **Also, he's going to lay out a new free energy structure**

2013, Oct 1 **Astrology Report for October**

Guest article by Dorene Carrel [AstroConnections](#).

October contains several planetary trigger points that could accelerate major changes on both personal and world levels. The New Moon in Libra aligns with the ongoing Uranus/Pluto square to set the stage, followed by a Full Moon Lunar Eclipse in Aries on October 18 and a Solar Eclipse in Scorpio on November 3. Mercury in Scorpio turns retrograde on October 21, allowing us to look at all these changes from a deeper perspective.

The New Moon occurs on October 4 at 12 Libra. It aligns with Pluto, Uranus and Jupiter, making a cardinal grand cross pattern. This type of pattern tends to produce fast-paced events that can lead to possible crises and stress. However, at the same time, there is a water grand trine in the background between Saturn in Scorpio, Chiron in Pisces and Jupiter in Cancer that allows us to slow down and become more tranquil and creative, which opens us to new ideas and possibilities. We can always choose where to put our attention.

The Libra focus is on relationships and the integration of opposites, along with the quest for greater equality, balance and harmony; the shadow side is being indecisive and seeking peace at any price. The Uranus/Pluto aspect can lead to rebellion against limiting situations as we strive for greater balance. Jupiter in Cancer is found in both patterns, which suggests taking care of our own emotional/spiritual needs before we can have harmonious relationships. The Sabian symbol for this degree, "Miners are surfacing from a deep coal mine; the need to carry on at ever deeper levels the quest for knowledge which keeps burning the fires of the collective mind of a society" suggests tapping into deeper levels of awareness from ancient traditions.

From October 5-8, Mercury in Scorpio aligns with Saturn and the North Node, encouraging us to communicate in a deeper, more authentic way. This is a good period to focus on serious, long-term issues. The North Node can bring new opportunities our way for relationships with deeper healing connections. Due to Mercury retrograde, the Mercury/Saturn aspect will repeat on October 29. On October 9, Jupiter makes a favorable sextile to Ceres in Virgo, which enhances healing through diet and nutrition. Ceres in Virgo (until early November) is currently bringing up issues connected with food safety, such as the labeling of genetically modified food.

The Full Moon Lunar Eclipse occurs on October 18 at 26 Aries. Eclipses contain the potential to awaken new growth and awareness. A lunar eclipse tends to bring up hidden elements that need to be further examined. Aries themes include being independent, assertive and courageous; the shadow side can be very egocentric and rash. This time there is a cardinal t-square created by the Sun, Moon and Jupiter. Aries is the most cardinal of the cardinal signs. Once again Jupiter calls forth our ability to take a broader perspective and aim higher with our goals. The Sabian symbol degrees, "A man possessed of more gifts than he can hold," and "An eagle and a large white dove change into each other," suggest expanded feelings of abundance and unity that can now be experienced. Mars opposing Neptune the next day encourages us to act on our higher ideals.

On October 21 Mercury goes stationary retrograde at 18 Scorpio. It will turn direct on November 10 at 2 Scorpio. This cycle favors research, review and introspection more than starting important activities. This is a good time to discern hidden motives and underlying messages, as well as reconnect with people from the past. It is best to allow extra time for getting things done due to breakdowns, misunderstandings, traffic congestion and computer problems.

The Sun in harmonious trine to Neptune on October 25 is favorable for creative visualization or a spiritual retreat. On October 29 Mercury aligns with Saturn again, while Mars trines Pluto on October 31. Both aspects bring more focus and energy and help us stay on track with personal goals.

November brings a New Moon Solar Eclipse in Scorpio. Blessings for a joyful and prosperous autumn!
