## Hard News:

**R:** March on Washington and the Grand Sextile are the biggest stories

**Camp Loveway:** Starman, Teran, Bear and Jesse "What's bugging you about what's going on?"

- One caller: was outside, feeding her horse – heard a voice in her head: it was the horse telling her to keep her thoughts and her heart pure, with the energy of the Great Sextile

**[R:** finding people's abilities are becoming more acute: talks of his own experience with his eyes/glasses]

- Starman seeing more and more beings, ships – tied in with the tall whites and the Andromedans

- **Nick Begge:** talked of the big picture over the last week – he was in tears talking about this!
  - Talked of DARPA and HAARP - he was recently on the SciFi channel talking to Joe Rogan
  - What is being said in Main Stream Media is that HAARP is fully functional – YET IT IS SHUT DOWN!
  - This is the ugly side of NASA: there are things going on in the agencies all the way back to Operation Paper Clip, and deals that were done dirt cheap with the not-so-nice ETs and the 13 families
  - he talked of Chelsea Manning – this woman needs to be given the Nobel Peace prize & a full pardon
  - We need to know why the agencies have been listening to us since the 60s, and why our men and women have been/ are being turned into droids: Robert Bale did not do it – he watched while the Black Ops did it!
  - Nick talked about the fact of International War Crimes Tribunals and closure to this story

**R** he called in and added the stories of solutions like NESARA which Bear called uplifting news! About how announcements are coming to pass and people get to know that over last 100 years the 13 families killed 2 billion people. Need another tribunal – WW II never ended!

**T:** adds the names from the Kuala Lumpur Tribunals against Israel; also there are the Franklin Tribunals

- Bernie Schector said there were already thousands of indictments [in addition to what Patrick Fitzgerald has already done]
- The holograms that are out there will be tried on screen and we get to see it!
- There is an intensity of love and we as the 144,000 need to take the talking stick: today's chart is good - moon is in Taurus; Venus squares Mercury at 2:59 PDT – 6 AM eastern

**R:** has had 14 tall paschats standing by the bed for several nights now; during the night, he has put his arm out of the bed and felt a leg – like touching a steel beam. They are guarding the house! As you call in the mighty I AM and the others who are here [40 zeros +++!], they will come

- Talks of the March and sending love to those on the march.

**T:** Venus square Mercury: every form of art that we are and be – taking pictures, writing of any kind, inventing, imagining, making cartoons, jokes; Venus is also harmony and association with common goals – get together with others and create a montage. Talks of someone making tapestries which will be backdrops for the plays being written and the book – all artists creating this together

- Talks of NYC – has nothing that compares to what is happening in Chicago;
  - a man has been teaching the kids tai chi, martial arts
  - Another group of teachers who stopped teaching in separate classrooms and brought the kids together – taught the older kids how to help teach the younger ones. Had places where the kids came to make books – they shared with each other; guitar lessons, singing lessons – found ways to find money, space and ways to do it.
  - A lady in Santa Fe came from Harlem after 26 years: started a parents school for half days
- References the interview with Jacques Fresco: borrow the instrument; as you get good, you teach the others -
  - this is moving forward! Not fretting, just approaching the situation differently
  - It is up to us, the 144,000

**R:** a new show on public access radio: kids of 19, 20, 21 – conscientious objectors – will not fight in your unlawful wars that have not been agreed to by Congress

- they are talking about budgets, getting in the face of Ted Cruz, Rand Paul
- Why does my brother have to get frisked and I don't? One kid called it out and called out the cops! Then the kid found out the cop's name and filed a law suit for assault.

- T:** There is another way as we learn from the activist individual: the kids who were selling guns, crack, cocaine – the older ones wore scarves over their faces so they could not be identified; showed guns, drugs and talked about it
- The man asked them when they first saw anyone killed: one saw his father killed when he was 3 another kid saw his brother, 14, killed
  - This whole system & the downward spiral has been created
- R:** goes back to a movie *The Day the Earth Stood Still*: Klotu and droid discussing how to bring the human race to a common place – there is a planetary distress beacon which has been going for years! And there are more beings than we can count here to help
- T:** Coming back to **Venus square Mercury**: which is expression, adaptability, intellection; perception, self-expression, alertness, skill, dexterity; Mercury is also children we've been talking about children and communicating in a way which expresses adaptability
- **Square**: conflict, obstacles, stress - which the kids get in high amounts
  - First Law is Love- so the square is a challenge – 90%+ kids have no fathers because they are dead or in jail - 12% are black and male – and 65% of the ones in jail are black and male

**Nick Beggege** spoke of the android army being created to go against the light – it is a failed attempt, as we will meet it with love.

- T:** the **sun is conjunct Venus** – back to love. The Sun is the real self, is male – Venus is female
- the male energies need a little love! They are good at being leaders – the man called Shotgun who is working with the kids grew up the same way – no father. He has older kids who can work with the younger ones and they can move around and start new groups.

**Teran:** spoke of the lady who talked down the shooter at the school – she got a call from Barack Obama

- Also, don't buy the lies of the NRA – don't need men with guns to shoot men with goods.

**T:** talks of episode of the shooter and the woman –

- she proved to the NRA & its leaders that you do not need guns in a school and that loving a person who has a gun in your face works.
- The young man said he had a mental problem and never took his meds, and was asking for help; she overcame her fear & helped him, & worked to make it a peaceful arrest. She led the young lad to safety.
- It would behoove the police [in Georgia- to look at things differently] - the energy of the 144,000 collective mind and heart – **we can all do two things at once and nothing at all – that is our gift.**
  - So I can work and meditate at the same time: my life can be an active meditation; I can pray peace all day long! This is a way to reverse the 13,000 years downward spiral.
- **Conjunct**: prominent, reinforcement [harmony] – depends on the nature of the planets involved
  - The sun and Venus are extremely compatible –
  - sun is the energy of vitality, divine will, vigour, divine ego, masculine principle [get 'er done], creativeness, dealing with authority
  - This is conjunct Venus – love, harmony, ease, cohesion, affection, art, feminine, receptivity

**Audio:** 8 minute      Russian: **The earth is not moving around the sun** [www.youryoga.org](http://www.youryoga.org)

**T** reads the word from the video, as it shows how the sun does not revolve around the sun – written in Russian with gorgeous music, photography and graphics

- The Earth is not moving around the sun
- You will not find information on the motion of the solar system in your galaxy
- Yet there is a huge number of materials on the motion of the planets around the sun
- this creates a deliberately false impression with people about the world
- After watching this video, you will know that mankind was deceived, not only in the time of Copernicus -
- this deception continues.
- This information can be found in any manual.
- It seems that the earth, after 365 days, it returns to the starting point
- Where is the lie?

- The sun is not the centre of the galaxy
- The sun revolves around Galactic Centre, 27 ° Sagittarius
  - [T: she knows that Galactic Centre revolves around Super Galactic Centre; and Super Galactic Centre is heading towards another constellation called **Lyra** and it is following a star called **Vega** where we, as the 144,000, created the human body, as the 144,000]
- Therefore, the **planet revolves in a spiral** – that is how we move in more than one direction than you think,
- The analysis of the motion shows us that **the planets move independently of the sun**
  - [showing the whole mazaroth and where the sun is – that the sun is moving deeper and deeper into space while all the planets are moving independently in a spiral]
- Trajectory of motion is more complicated than a circle [there is a gorgeous sun; the planets completely independent of each other; the sun is leading the way yet they are spiralling like dancing.]
- And it is not fit nformation that fits the idea – not the correct way to describe it.
- The nature and trajectory of the rotation indicates the presence of invisible energy causing the objects to rotate. It is not everything we thought we were trained to think.
- Partially this energy is known to be atomic energy
- and we don't play with Mother's energy

#### **Insert: comments from T and R**

- THIS IS MOTHER, not father – this is so critical - that is the point about the church - there are a number of folks going into the churches to shine light, to connect and to make a contribution to help wake folks up. The point made is that to be in the Catholic church, you have to repeat the Nicean Creed which begins by saying Father made us – that is the 1<sup>st</sup> fall, what Lucifer played with
- **The crux of it: Mother IS THE SOURCE**, not father – which is not about gender, it is magnetic energy. Where is the sun going? It is following magnetic energy, the energy of LOVE which is the only source of creation. When you think of the creator as father, then you cut Mother out, as well as the magnetic energy – which is how we found ourselves in the current stew – and the stew is always trying to force things to happen.

#### **What are we always taught? SURRENDER**

- When T & R asked KOS about when they would be knowing, about coming into NESARA and the changes, **KOS SAID SURRENDER** to the motion that is going on naturally being drawn magnetically home to Mother. The motion of the electrons are on the same principle.
- These planets revolve under the action of the spring – it's a model of the solar system – a spiral in the centre which suggests buoyancy and fluency.
- Planets in our solar system rotate under the action of invisible energy
- This energy is rotating in the spiral form carrying away for itself material objects – the magnetic energy is drawing the planetary system into itself.
- This is a very important knowledge because you, too, move with the earth and the action of the invisible energy – as you surrender, that is were instantaneous healing occurs – SO BE IT.
- Motion is in a circle and motion is in a spiral – these are 2 different attitudes which give different results.
- This understanding is important in the transition to the next dimension.- had a gorgeous picture of the sun moving straight up in a line, and the spirals were following.
- Spiral: this is life; yet the circle is often called viscous. - the DNA spiral shows exact same movement. Show the crown and the hair moving in the same spiral; also a hurricane
- do not allow yourself to cheat – ascension does not allow for cheating!

  - Pluto is the anchor for it all – the peak of the kite, the forerunner of the kite, also a corner of the squares
  - the cross in cardinal signs and 4 squares: Pluto is also one of the corners of a challenges;
  - Moon is in Aries – conjuncted Aries earlier today: Pluto square Uranus, and
  - Venus slides through Libra and completes the configuration – this is very crystalline – have 2 crystals over laying each other
  - Pluto was the anchor: most of us were born when Pluto was in Leo and this went for about 20 years [R born in late 51- his Pluto in 21 Leo – 1943 +/- 1959]

This is one of the most powerful weeks to enjoy, let loose, and free your spirit. It is time to celebrate the growth that began last January and was birthed in late March and is now coming back to you. If you are not getting good returns, you may take it that you need to give out some more next time around! While some in the consensus stage of evolution may not be able to contain this energy resulting in overdosing and losing it, most will experience the high of free self expression opening new channels of love and creativity! Let it out!

### Highlights for next week

- Sun conjuncts mercury in Virgo at 5 pm today – we are in early Virgo which is a window of opportunity in which we are supported in cosmic fundamentals: Mercury is masculine/logic and has a relationship with Virgo which is earthy; among the earth energies, Virgo is the wettest & the closest to the water energy – coastal areas, swamps, areas elves love.
- The way to use the energy: take these next 3-4 weeks with conscious dot-connecting; conscious logic; fact checking; conscious network building
- Virgo is also mutable – with Neptune and Chiron in Pisces
  - Mercury opposite Neptune; Moon opposite Saturn – 10 pm EDT – Moon in Taurus

**Monday:** Moon still in Taurus; trines Pluto; sextiles Jupiter at 10am;

- Venus will be exactly opposite Uranus, the peak impulse that Tom spoke of in the Venus cycle.
- Monday pm: sun is opposite Neptune

**Tuesday:** Moon still in Taurus; Venus exact square to Jupiter in afternoon 5:53 pm EDT – watch out for the extra impulse of love, joy, dancing – Jupiter expands everything  
Mars into Leo; Mercury trines Pluto; moon goes into Gemini

**Friday** am: moon goes into Jupiter

- Richard discusses Carl's comments on values: as we live together and practice "We are One" - we have to take a deep look at this – this is the 8<sup>th</sup> house & 2<sup>nd</sup> house -
- The rest of the matrix is the connectivity part: if we all connect with new people and establish a psychic connection within the matrix, it's a matter of prayer and meditation – maximum efficiency and minimum effort!

**T:** the Scorpio thing is not just person; it everything – military, gov't, all kinds of organizational activities

Based on **Richard's comment:** We have 2 kinds of media: a masculine electric media, and a magnetic media

- a recent observation he has arrived at: the liberal left large media corporations [MSNBC, NBC, ETC] appear to be voice boxes for big gov't or the nanny state, therefore have a magnetic feminine flavour to them.
- As he listens to radio talk guys during the day [H Cain, Rush Limbaugh, Sean Hannity, Eric Eriksen] – can get them on the internet; he watches these ones – as you watch, you will see both sides have good hearts but they approach things from different angles.
- In the healing we are going through, we will find the middle path – what my heart wants me to do and what my brain says is smart – efficiency with a sense of heart
- What else people don't talk about enough – men's prime job is to find a good woman and nurture her and we women, our job is to find a good man and nurture him – and hold them accountable.

**T:** over the last 4 weeks have been talking about this: realizing what these guys have been doing – if we are going to shut down the banks, have to shut down the Vatican because it is behind it all and destroying everything – Lucifer did a fine job.

**Caller:** thought the Vatican has been messed around with a bit

**T:** it has fallen – this happened when Benedict was still running around: Plan 1 is already done; Plan 2 is now d

- what happened today has not happened before!
- MLK there was not one bit of violence to day
- Cheryl today started with the DC meditation

**Caller:** thinks things will go a lot easier now – can show up in groups and make things happen

- Feels so happy – energy changed today

**R:** didn't go to first march – nor did Tara – felt the change today – something going on with the sun, and the western spiral arm of the galaxy was affected. These are Mother's people and they were brought here in the beginning – Sharpton, Jealous and others – he wanted to go to the march but was only 9.

**Caller:** heard all the people who were interviewed; there was so much sharing, they were often cut off

**T:** this will go down in the history books.

**Caller:** the women need to be discussed more, those who were behind the scenes.

**T:** Nancy Pelosi brought it up, and Medger Evans wife – “And ain't I a woman?”

**Caller:** their day is done and they know it; read an article [by Dr May the psychologist] that talks of the removal of the dark entities

**T:** KOS, Larry, Curly and Dodi called T & R up on Friday and said that the **whole Hollow Earth thing is a program**, and they have no right to say they are doing anything – they are working for the CIA & Area 51 – it is very insidious

- Now we need to **do the dismantling of the church programming: GOD IS MOTHER** – they took this away by erasing 520 years out, the story about the goddess
- they have no intention of surrender either.

• **Another male attempt in what she reads** **[CHECK 2013 TO SEE WHEN THIS IS UPLOADED]**

Posted first on June 17, again on Aug 20<sup>th</sup>. 2013

Greetings:

- we have come a long way over the last several weeks. . . .

James McBride, the post master general of the Divine Province

[ this is what ego looks like – has to do with the church owning every inch of the earth, and not wanting to give it up]

**T:** this is not the way it is supposed to be; there is a very small group of people who have found out about it and even fewer who have gone through the process.

- The education classes are up to 90 hours now, to be repeated for weeks and weeks and weeks
- We are going to spiritual gov't, divine law, spiritual economics.
- We are praying NESARA now!!!!

- Also need to pray rain in the SW – talk about shutting down the electric grid to San Fran as it is in direct line

T: yes, the fires were started, and not by lightning.

**Caller2:** had trouble getting in on the call – someone came on when he got on, and said this group should be listening to Hollow Earth.

**Caller3:** heard a sad thing on the news: a WW2 vet was beaten to death by 2 teenagers! 16 years & - how dark and crazy?

**T:** pray love for the boys who did what they did, and for the soul who passed.

[CONFIRMED: US Military Alliance Defeating Federal Reserve](#)

by David Wilcock

**[SEE BELOW]**

**Audio:** **2013, Aug 19 Coast to Coast am** George Noory and David Wilcock

**The Synchronicity Key** - Synchronicity and Enlightenment

Date: 08-19-13

Host: George Noory

Guests: [David Wilcock](#), [Peter Cochrane](#)

**Finished 58 minutes; to be completed.**

Using history, astrology, and synchronicity theory, author and researcher [David Wilcock](#) discussed how there is a hidden architecture played out in cycles, guiding humanity toward enlightenment and spiritual progress. History repeats in precise cycles, he said, citing as an example the accurate prediction of a French astrologer in 1961 that the revolt Joan of Arc pulled off in the 1400s would repeat as a student-lead revolution in France within a few days. This 539 year cycle may have been referenced as a parable by Jesus, when he spoke of forgiving your brother "seven times 77 times," he continued.

Wilcock also found parallels between Roman and American history, the first Punic War to WWI, the second Punic War to WWII, Carthage to Germany, and Hannibal to Hitler. "Reality is not real. We're in a hologram. There's a story that's repeating, and it keeps repeating until we master the lesson it's teaching us," he contended. There are also larger cycles of 720 years (1/3 the age of the Zodiac) which correspond to ancient mystery teachings, he noted.

'End times' are not relegated strictly to Christian prophecy but referenced in over 30 ancient cultures that all indicated that we're heading into a golden age, but have to go through a dark period first, he said. People are fulfilling a cosmic blueprint, older than time itself, which is meant to steer us into a beautiful golden age where we'll have such things as stargate travel, antigravity technology, and ascension in which humans transform into light bodies, he proclaimed. For more, check out Wilcock's [video](#) about his new book *The Synchronicity Key*.

**T: Life of Pi** – they found it on a tv channel [HBO] a story of a tiger and a boy in a flimsy boat on the ocean – both of them nearly die; arrive at an island with mermaids; phenomenal photography

We discuss the Dutch blues and the pay per gaze advertising coming to a pair of glasses near you. Max proposes a scheme of mortgages collateralized by food stamps. In the second half, Max talks to [Ann Pettifor of PrimeEconomics.org](#) about the Alice in Wonderland economy in the United Kingdom where people borrow from payday lenders in order to live and, instead of lending to the economy, the economy is lending to banks. They also discuss interest rate apartheid, carry trades and public unrest.

**Reading: The 7 steps of the Grandfather from Voices – The Voices of our Ancestors**

• **the method of dream attentiveness as taught by Grandfather Fisher**

1. upon retiring to the sleeping chamber, smoke the area with offering of burning cedar or juniper to N, E, S, W and to heaven and earth. The atmosphere around you is composed of thought; as your thought is clarified through mindfulness practice, and as you take time to smudge the area to make smoke offering, you are also giving thanks to earth for fresh breath and helping to clarify individual and planetary thought.
2. make a prayer acknowledging yourself as a vehicle of light and give thanks for the good that has come this day; also an affirmation of intent to live in harmony with all your relations
3. lie in bed and review your actions; make corrections in your mind's eye as necessary, If you neglected to respond from the heart with another person – see yourself communicating heart to heart – if you spoke with anger, see yourself speaking to the same person with compassion
4. Practice the meditation on the 3 gems of most pure mind
5. Count slowly backward from 10 – 1 affirming that you will remember all that occurs during sleep.

6 Give yourself the task of raising your hand to the sky in the dream to call forth fruitful life.

7. Upon a waking, stretch, give thanks and make note of your dream in the Dream Journal.

Steps on doing the Meditation on the 3 gems.

Rest of the chapter.

[CONFIRMED: US Military Alliance Defeating Federal Reserve](#)

by David Wilcock

Dramatic new evidence reveals that a secret alliance of US military personnel are working to expose and defeat the Federal Reserve -- and the occult cabal of bankers and industrialists who run it.

The hacker group Anonymous has now gone public with its connection to the US military.

Vital new historical insights into this alliance are also presented here -- for the first time in well over a decade.

More surprises are very likely to be in store. These new developments were predicted in David's new book, now available for you to read!

**[UPDATE FRIDAY 8/23: A major insider site we linked to was immediately destroyed by hacking after we published this article. See headline in red.]**

### **SPECTACULARLY POSITIVE CHANGES ARE RAPIDLY APPROACHING**

Is there any hope for humanity? Or are we doomed -- heading into a bottomless pit from which there is no escape?

A wealth of solid, provable evidence reveals that we are indeed on the brink of spectacular changes -- for the positive.

Comprehensive new evidence has exposed a natural cycle that affects human behavior -- on an individual and collective level.

This cycle is older than the Earth itself -- and is written into the basic laws of space, time, matter and energy.

The positive outcome of the events we are now seeing will be generated by laws as consistent and absolute as gravity itself.

The idea of cyclical time is nothing new -- but the science to prove that it is real, and how much it affects us, certainly is.

Synchronicity is not only happening in our own lives, such as through the Law of Karma. It is affecting us on a global level as well.
