

Client Questionnaire

Houston Landscape Images believes that the best way to understand what you want is to collect as much information ahead of time. For you to get the most out of your CONSULTATION here are some questions and items for you to think about beforehand. ·

What are the boundaries of the site?

- Make a wish list. (Play area, cutting garden, favorite plants, patio, etc.)
- What are the areas that trouble you the most?
- What is your timeframe for the project?
- How do you plan to maintain the new landscape? (service, self, combination)
- If you decide on a PLAN, do you have or ability to obtain a plot map from your builder, realtor, or county, which gives specific dimensions of the property boundaries and building footprints?
- If you have a septic system, do you have a septic plan showing the location and leaching field area

This completed questionnaire, along with information that we collect from the site and additional research enables us to draw up a site analysis, which is an important part of the design process.
