HARD NEWS

R: Talked to Tom the Cat via text

- all the wild things going on across the planet have to do with a game of high stakes poker
- it is at the highest level, and what is being ante-ed up is our life force; they are playing with pairs of 2s and we have 4 aces, so we've won – how do we get past False Evidence Appearing Real?
- they are playing with their final FEAR card and their ideas of the ancient war machines that can show things in the sky – like Lady Di
- you cannot fake the energies of Asthar, Sanananda, Mother; R has eaten with them, worked with them; they get down to business at Council Meetings –
 - John Kerry attempts to be an ambassador but he has a lot to learn about being a galactic ambassador: he is a good Skull and Bones slave, paying homage to the owl, Mulac, an ancient god from Babylon – all cancelled

Camp Lovewave: talked of the Mahabarata & other sacred Indian texts

- and of the time when we still had a shield around the planet, our siddas, & the xenon gas
- Xenon gas is the 5th element that adds to this bag of water - gas and water and various forms of chemical & how we relate to the words about the actions and re-actions: when we take it to the plasma level, being brought to us from higher levels, how physical suns interact with each other with thought wave energy – there is no sound but what we hear with our radio telescopes sounds like static
- what we hear as static from radio telescopes is not static: there are actual communications from clouds that sound like static but are not; as you get to the right level, you can see the instant pictures, there for everyone to see
- **During the time of** The Mahabarata & other texts: people still had their abilities but were losing them; there were wars breaking out between the royal families have trickled down to the royal families like the fake Tudor family: Henry VIII; Sir Francis Bacon / St Germain was the last Tudor – Son of Elizabeth 1st
- they talked about how the Stone of Scone was swapped out; it is a piece of the Arc of the Covenant; Ashtar has the Arc in a safe place!
- Those on the program were bringing up the whole reality that is changing right now as our gifts and abilities are coming in and change our frequencies, and we are opening up to the realm of infinite possibilities etc; we can walk in the park & may see fairies, elves, elementals
- Things are shifting in front of us. Even though they are playing with strange technologies that plays along with the idea of the Transhumanist Agenda. It is not possible to implant soul matrix into android bodies – it is Mother's Turf [creating life]! They are playing with the 5th element which is the ether, the xenon gas – it is all coming back at this time and folks are waking up like never before.
- Teran, Bear, Nigel – getting letters, e-mails from folks having experiences with various beings around the world: the kingdoms, the gatherings are underway; as we join these gatherings, the circles are complete
- Bear talked about this particular Samhain, 2015 [or 2016 going into 2017 as of Harmonic Convergence of this year] – on this particular Samhain, they want to play with some stuff out there.
- At this point, the mitichlorians, the force, has said “We are already in Sat Yuga, so take your toys which are sidereal war weapons, and we'll take you to the anti matter universe.”
- How this will be explained to the rest of humanity remains to be seen, yet we are being introduced to ideas about anti matter, portals, the Tesseract, infinity stones which open portals, etc – all tied into the ancient, ancient place
 - like the Kabbah Stone at Mecca; and the Infinity Stone at al Asqua mosque –
 - a bone of contention at this time: Netanyahu is a Khazar – they are playing with

a pair of 2s; the **nukes have been neutralized** so this is a brinkmanship game: how much can I scare you to make you throw down your hand? Be very afraid or Iran, Palestine, other soc-called terrorists like Hamas, etc

- They are playing with the ancient story of Revelations and the return of a character called the "anti -christ" – will not happen; they are playing fear cards right in the middle of rising energy

- as people lose it more and more, **Tom said and Teran said** - they are pushing the limits of the brinkmanship game which is who is going to squawk first about ET coming? As Captain Kirk said There is a 15 second destruct sequence and someone comes to help yet **EXTINCTION LEVEL EVENTS HAVE BEEN CANCELLED.**

- Yet they are playing with a giant card called F E A R

Asked Tom about Nov 5th and if Anonymous was going to pull the plug on Wall Street, or is someone else going to?

Tom: if you want to get technical, yes, the US is at the end of the virtual rope so what are they going to do? Lie to the people on Nov 5th or kick the can down the road?

- Rama asked Tom who said he cannot go any further with the story as if he tells us, it changes the timelines. It's called the laws of physics: we are being asked to take the quantum leap over the Grand Canyon! Rama has done it in the presence of Rana Mu, but has not done it by himself! [T says he has to focus in his regular life – do not try that exercise as any canyon!!!]

Bernie Sanders: burning it up all the way to the White House

Asked Tom about Michelle: she knows the exact moment to show up as the Divine Black Goddess on the divine chessboard
- he would say no more! It just has to play out.

- The quantum leap – as we do our inner work right now, it ???
- What did **Tom say about Boehner?** The rumours are flying thick and fast. In a certain sense, Boehner wants to leave as there are some witnesses to his hanky-panky – women saying you pulled a Bill Cosby on me and I want some recompense: slipping something in a drink and raping the woman when she is out cold. Boehner not above this kind of stuff: They are wild animals . . .
 - Teran and Bear brought up what people were like at the time of the Mahabarata and the other texts with their creator abilities: full of ego, tried to pull something off, ended up as toast! This is NOT where we are going.
 - Brought up the Secret Space Command and other break-away civilizations that think they can roam around the galaxy and play Star Wars
 - Divine goddess has said enough is enough; we get 100,000 years of peace!

November 5th – "Remember, remember the 5th of November: gunpowder, treason and plot"

- from the time of James 1st and the time of the fake Bible; he was a pedophile and a repressed, gay man; tortured people. Things were gross and brutal at that time; wasn't Star Wars, yet an axe is still an axe!

- And we wonder why we haven't seen ET and our replicator? Yet in a certain sense, ET has!
 - **Dr Keshe has come forward** with technologies that can change our lives over night: we the people have the power. As the frequencies increase across the planet, no army can withstand the frequencies

T: Did Tom the cat say that it was still true that gas would be \$1 / gal by Christmas

- **gas in Santa Fe** today is \$2.08 / gallon – a good deal [\$1.01 / litre in Alberta = \$4 / l]

- Some good stuff in the **Oct 13th Ben Fulford report** – it was only a few days before that Nada told Rama she'd gone to see Ban Ki Moon and yesterday[Oct 16] the General Assembly and the Security Council are to discuss Palestine
 - Tom said: yes, there was an emergency meeting but the news media is not reporting
 - T** is looking for something placed in front of the General Assembly and the Security Council about Netanyahu's crimes against humanity!
 - Tom:** just you wait and see! **T's response:** oh – some more of that?

2015-10-13 [The Khazarian mob is on the run as US military takes over Federal Reserve Board](#)

- T & R comment on much of what is written in the report
PLEASE LISTEN TO THIS SECTION OF THE TAPE AS YOU READ THE REPORT
- THIS IS why Tom the Cat said Faction 1 & 2 [the republican naughty ones] want Assad out and want to wait for signals from Faction 3:
 - all kinds of leaks are coming out about their antics, while **all over China, ships are de-cloaking** and so this is **pre-empting any use of blue beam technology**. When we feel the love in our hearts as part of seeing the ships, that love will tell us what is what.
 - Citi Bank – Bill Maher said City Bank is one of Hillary's major funders!
 - Max Keiser last night: Bank of England is supporting the US Fed – also with fake money!
- What Fulford says about the “blackmail against German auto-makers like Volkswagen, Mercedes Benz etc. using a fake “emissions scandal” “ - **not true about it being fake!**

Brian Willson: Empire As A Way Of Life

Published on 24 Aug 2015

Empire As A Way Of Life – Economic Exploitation/Expansion, Ecological Destruction, Oligarchic Governance, Built on Genocides With Impunity. The primary meme of US culture is: Profits for a few (mostly men/patriarchy) through expansion at ANY cost = empire.

Our national origins derive from forceful dispossession of others with total impunity (genocide #1) justified through a myth of exceptionalism, setting in motion a pattern of a Pretend society, built on lie after lie, from Manifest Destiny to Full Spectrum Dominance. The past is never in the past, as its features always remain present in the psyche.

Long patterns of plundering without accountability lead to delusions of grandeur and obsessive narcissism. As a species, we are now on the eve of a very painful era of accountability (correction) after millenniums of grotesque entitlement. The question is whether we can access our deeper ancient archetypes of cooperation, mutual respect, local community, and fairness and experience an evolutionary, radical shift (healing) from an epistemology rooted in separation from and domination over nature, to one of integration with and embracing nature. Our survival is dependent upon practicing a turn toward a local, bioregional cooperative food and simple tool economy. Thus, we become part of our own and the earth's healing even while

the inevitable correction mechanisms of the Gaia become evermore apparent as inevitable collapse of industrial civilization speeds up.

OK, OK, no more early morning Pele Reports haha! To tie up and conclude this report, we need to unite some of the separate threads. Basically, this can be a time of fulfillment where you need to work and complete what you started, or it can be a time of overload where you are totally burnt out on what you are doing and experiencing a work crisis.

So this goes back to the need for deep self-contemplation, meditation, and a deepening of your connection to your soul purpose and the timing of its unfolding. In general, I would say that if you are in alignment and expressing your deepest soul's (unconscious remember) evolutionary intention (return or separate), then this is a time of it really coming together! If you are not satisfied in/with your work environment, it will reflect the need to change/alter expand it in some way.

Of course, the house placement of Virgo in your natal chart will also yield you more information as well as the aspects that this conjunction is making to other planets. I will be taking this Jupiter/Saturn/Neptune "T-square for 2016" through the houses in another video/videos. If you are interested that will be coming out and available to the New Paradigm Community free and on the New Paradigm website, if you're not in the community. Namaste' and best wishes for happy working bees making future honey!

CONFERENCE CALL

C1: asks about the inner earth and what is happening there?

- Panther Meadows on Mt Shasta seems to be more open – lots and lots of people are going down
- Have to be prepared to enter in those places because the energy is so high; can make you really nauseous
- Goes back to Stephen Colbert's show – goes through a whole process of getting ready to do something like an initiation of sorts: when he is ready, the door opens – and there is Jon Stewart, pointing to his heart – it's always been inside you, said Jon
- being in the presence of a de-cloaked starship really raises your vibrations

C1: Asks about another person – Kryon – is this the voice of multiple entities?

- he is only one entity, channelled through Lee Carroll – and yes, he uses “we” - Mother does the same – meaning we are all equal because we includes us all.

• **about Nov 5th and Guy Fawkes' day** – there were 13 participants in the gunpowder plot or Jesuit Treason Day!

- Between 1630 and 1641 Henry VIII took charge of the church of Rome in England.
- Elizabeth the 1st was a Moor; Elizabeth 2nd is daughter of Noble Drew Ali and the Queen Mother – both of them married into the Moorish bloodlines

C1: understands that Noble Drew Ali was an early influence on what happened in the US

- Noble Drew Ali established the Moorish Temple of America, based in the Islamic teachings – so he is part of their origins in America
- the entire country of the US has a Moorish banner from Morocco from the Moorish Moraccans

C1: seems there's a tie in with certain masonic influences

- the Iroquois nation – whose ancestors are the Cherokees, whose ancestors are the Black Irish – Duggan/Danon tribe which originated in present day Iraq which was Persia
 - Ancestors of the Celts are the Druids who are giants from the stars – all star beings.
 - The druids are Andromedans – Barack is an Andromedan

C1: one of the UK entities goes back to the Egyptians – asks more about it.

- T was Mary Toten, first born daughter of Aknaton – they had to escape as the dark priests were killing; also, **Aknaton and Moses are identical beings**
 - she escaped; as a Moor of the 13th dynasty she knew how to build boats – went to Scotland
 - Princess Scota was her new name and they actually escorted her as Princess Scota to Ireland and she went to the Stone of Scone and became Tara; it is said she was killed at the Hill of Tara – not sure it happened to her – Mother told her she ascended 3x
- Those of us who are part of the original 144,000 have a great responsibility to wake people up
- Right now, the dark ones here are terrified – Bush Sr said a long time ago that when people find out who they are, they will be hung from the nearest lamppost: this will not happen.
 - The black people getting in the streets for Black Lives Matter are really brave!
- For Hillary to set up the Emmanuel Christ Church shooting and then turn around and go to the funeral! It's beyond the pale
 - MLK was killed from inside, too. Bush Sr arranged for MLK, JFK, Bobby Kennedy to be killed.

C1: what did he do before being in CIA?

- he and Henry Kissinger set up CoIntel Pro – they killed all the people
- Before that, he and Henry helped organize Israel becoming 51st state of the union!
- The CIA was the OSS – he was 14 in 1938, at 19 he got started with the OSS and learned how

to play around with the Philadelphia Experiment.

BBS – Musical Break – one song about being a witch: “ask me anything!”

Audio: Another Bioneers presentation: Wallace “J” Nichols , a scientist, eco-activist, author and co-founder of OceanRevolution.org

Speaker: Wallace J. Nichols - A Brave New Ocean, or an Ocean Revolution? | Bioneers

Published on 17 Feb 2015

In this inspiring presentation, Wallace J. Nichols explores how new technologies and large-scale research projects have resulted in an explosion of invaluable information about the health of our ocean planet and what we can do to conserve the 80 percent of biodiversity and 90 percent of global habitat that “Mother Ocean” holds. To change our destructive course, he proposes we must harness this knowledge, make it accessible to everyone and creatively communicate how the state of the oceans is central to the future of life on Earth. Introduction by Nina Simons, Co-Founder and President of Bioneers.

This speech was given at the 2007 Bioneers National Conference.

Since 1990, Bioneers has acted as a fertile hub of social and scientific innovators with practical and visionary solutions for the world's most pressing environmental and social challenges.

To experience talks like this, please join us at the Bioneers National Conference each October, and regional Bioneers Resilient Community Network gatherings held nationwide throughout the year.

2015-10-13 Trevor Noah and Ta-Nehisi Coates' Conversation About Race Is Important Television

<http://www.esquire.com/news-politics/videos/a38796/trevor-noah-ta-nehisi-coates-race-daily-show/>

Was it really only a few months ago that Ta-Nehisi Coates [appeared on the *Daily Show*](#)? Things were so different then. Jon Stewart was the host. Coates was not officially [labeled a genius](#). And, at that time, the *Atlantic* correspondent was on the road with his best-selling book, *Between the World and Me*. We were all younger.

On Monday, Coates returned to the *Daily Show* to sit down with its new host, Trevor Noah. While the conversation didn't have the nuance and depth of the Stewart interview in July—Noah seemed intimidated and fawning around the writer—it was still essential viewing. The two dug into America's mass incarceration crisis, the subject of Coates' latest cover story for the *Atlantic*.

"America is a country that's founded on the notion of liberty and at this moment right now its the most prolific jail in the world," Coates told Noah. "Of African American males, 1 in 3 will

spend time in jail among high school drop outs. We're talking about a massive threat to liberty."

"There's been a view of black people having a penchant for criminality," Coates said. "Slavery was justified because if black people weren't enslaved they'd be going around raping or robbing or pillaging ... This era of mass incarceration is new."

The theme of race continued throughout the show, with *Daily Show* Correspondent Roy Wood Jr. reporting from the Million Man March in Washington D.C. and discovering that the rally *wasn't* a celebration.

INFORMATION RELATED TO THE NOTES

2015-10-13 The Khazarian mob is on the run as US military takes over Federal Reserve Board

Posted by benjamin, October 13, 2015

<https://kauilapele.wordpress.com/2015/10/15/full-article-benjamin-fulford-10-13-15-the-khazarian-mob-is-on-the-run-as-us-military-takes-over-federal-reserve-board/>

The US military, under the new leadership of Marine General Joseph Dunford, has come out with guns blazing to free the people of the United States and the world. Under his command, the US military has taken over the Khazarian mob's main source of power, the Federal Reserve Board. To confirm this, go visit the home page of the Federal Reserve board, it is no longer

<http://www.federalreserve.org>

but is now

<http://www.federalreserve.gov/>

The Chinese coordinated with this move by announcing their China International Payments System alternative to the Khazarian controlled SWIFT system meaning their take-over of the US dollar system outside of the United States was proceeding as planned. The implosion of the big Khazarian mafia banks is now just a matter of time.

Furthermore, there have been huge ongoing military moves in the Middle East aimed at removing the fascist Khazarian Nazionist government of Benyamin Netanyahu in Israel, according to Pentagon and Russia sources. To facilitate the Russian purge of Satan worshipping Nazionists from the Middle East, the Pentagon has withdrawn all its aircraft carriers from the Persian Gulf.

<http://www.presstv.ir/Detail/2015/10/10/432800/US-warship-Persian-Gulf>

The rogue Netanyahu regime only added gasoline to the fire last week by faking a US air force air raid against Syrian government forces in Aleppo, according to other Pentagon sources. The Russians were not fooled by this maneuver and responded by sending missiles and fighter jets over Iranian airspace (with Iran's permission of course) to attack multiple targets in the Middle East, killing hundreds of Israeli, Saudi and Turkish troops operating against international law in Syria and Iraq, the Pentagon sources say. The real message of course is that the US military was ready to step aside and allow the Russians to clean up the mess in the Middle East.

Fearing for his life and that of his regime, King Salman of Saudi Arabia checked into a hospital claiming severe Alzheimer's disease while his son, the real power, Defense Minister and Crown Prince Salman, flew to Russia where, according to Pentagon and Russian sources he offered the surrender of his regime. As the rather crude Arab saying goes "one day the stick is in your hand, the next day it is in your ass." In effect, the Saudi prince bent over and offered Russia control of the oil market in exchange for his regime's survival. To sweeten the pot, Salman offered to pay for the two French-made Mistral helicopter carriers that Egypt is buying after France was forced to cancel the sale to Russia.

The Russians agreed with the Saudis that some sort of "political settlement," including the end of

the fake terrorist ISIS caliphate, was needed. However, with the Chinese, Russians and Iranians supporting Yemeni forces seizing key Saudi oil fields, it looks increasingly likely the "political settlement" will be the abdication of that odious Satan worshipping pseudo-Muslim family and their ceding of control of the Muslim holy lands in exchange for their lives. Perhaps a comfortable retirement in the French Riviera could be arranged. That would no doubt be preferable to the beheading many of them deserve and some of them may get.

The other Middle Eastern autocrat who is in a deep state of funk is Turkey's President Erdogan. The Pentagon is withdrawing all its forces and anti-missile defenses from Turkey as part of its general disengagement from the region. The only thing they insist on, and will continue to get, is regular gasoline supplies for their fuel guzzling military engine.

Erdogan has been caught bombing Kurds in his own country, stealing industrial infrastructure from Syria, working with Israel and generally being an anti-social trouble maker. As payback, the Rothschild pipelines carrying Syrian and Iraqi stolen oil through Turkey are being cut off by the Russians and Kurds.

The cut off of Middle Eastern oil money is going to be the last nail in the coffin for many of the criminal mega-banks that have survived thanks to petrodollars. That is one of the main reasons why the IMF, the UN, the BIS, Citibank, the Bank of England and others have been warning of an impending financial crisis. The financial head of the Nazionist octopus is being cut off and soon the various arms will stop their doomed struggles.

With the imminent removal from power of its European and American sponsors the fate of the Nazionist Netanyahu regime in Israel has also now been pretty much sealed. Netanyahu was forced to cancel his planned visit to Germany because German Chancellor Angela Merkel and the German regime told him he was not going to get any more German submarines.

The blackmail against German auto-makers like Volkswagen, Mercedes Benz etc. using a fake "emissions scandal" has only served to strengthen the German's resolve to work with the Russians against their Khazarian tormentors. The flood of millions of "Syrian refugees," many of them trained sabotage agents who were never Syrian, has also alarmed many sensible Germans. The Germans are getting ready to re-issue Deutschemarks if necessary and improve their relations with the Christian Putin regime in Russia.

The French have also thrown in the towel and are no longer working for the Khazarian mob, according to British MI5 intelligence. The French have told the British they will be integrating the EU with Russia and that if the British were against that, they should leave the EU project, the sources said.

In the Far East, meanwhile, some big changes are also starting to be seen. The Chinese communists and the North Korean regime have patched over their differences. The announcement by the North Koreans that they had nuclear inter-continental ballistic missiles capable of hitting the United States and Europe was a sign that Japan and the Korean peninsula were no longer open to nuclear blackmail by the Khazarians and their dwindling collection of slave regimes, North Korean and Chinese sources said.

The CIA sent a warning to the White Dragon Society that the Khazarians were going to try to force a German style emissions scandal and other scandals on Japanese corporations like Mitsubishi,

Honda, Toyota, Mazda etc. in order to try to force Japanese industrialists to continue their submission. Any such attempt will fail because the Abe slave regime is losing its support after forcing the Trans Pacific Partnership (TPP) agreement on its people and industry.

Although the TPP is mostly the result of complex technocratic horse trading and will have only minimal effect on the real economy, the fact that it was negotiated in secret and gives secretly selected corporate courts power over the Japanese government has angered nationalists here.

In any case, even as the Abe slave regime clings to power, an offensive against their remaining masters in the US is well under way. Even as this issue went to press, Abe's masters have contacted the WDS to negotiate a peace deal.

Meanwhile, Pope Francis is expected to show up in Mexico where he is considering announcing a holy war against the Khazarian mob still clinging to power in the United States and some Latin American countries, according to P2 freemason sources.

Former US President, and long term Nazionist Fuhrer, George Bush Sr. showed his fear recently when he was asked by a truth seeker about secret US government projects. Bush answered "Americans can't handle the truth," before being shut up by his handlers.

<http://worldnewsdailyreport.com/george-bush-senior-on-ufos-americans-cant-handle-the-truth>

What truth can't they handle Bush? The fact that you and your cabal assassinated President John F. Kennedy, Martin Luther King and thousands of others? The fact that you took over funds meant for the people of the world and used them to advance your genocidal fascist New World Order? The fact that you and your fellow Nazionists manufactured and spread deadly diseases like HIV, Ebola, Bird Flu, SARS etc? The fact you sold US military secrets to the Chinese and North Koreans? The fact your gang murdered close to 3000 people on 911 to stage a fascist coup? What about the chemtrails, the plan to microchip the people etc? The list goes on but, let us face it, you know that, as you told Journalist Sarah Mclendon in 1992, "if the American people ever find out what we have done, they would chase us down the street and lynch us."

The US military under General Dunford has taken an important first step in nationalizing the Federal Reserve Board but a lot more needs to be done. Why is Obama still publicly telling lies about Syria, 911, the Ukraine, 311 etc? Why hasn't the military started the mass arrests of the known criminals behind 911, Wall Street fraud, massive political bribery etc.?

As many informed US citizens and many inside the Pentagon and the agencies have pointed out, this is high treason and it needs to be dealt with by men with guns because nobody else has the power to enforce the US constitution and the laws of the land. Come on General Dunford and the patriots in the US military, the history books await your decision. Will you be a hero of humanity or will you go into the garbage can of history as a failure? The people of the world are waiting and hoping for the best.

2015 National Presenters

As a Bioneers Resilient Communities Network event, the Front Range Bioneers network event broadcasts the presentations of the national 2015 Bioneers event. The national presenters are not physically at the Boulder, Colorado event.

National Presenter Bios***National Keynote Descriptions - Friday, Saturday and Sunday:*****KENNY AUSUBEL**

Kenny Ausubel, Co-CEO and founder (in 1990) of Bioneers, is an award-winning social entrepreneur, journalist, author and filmmaker. Co-founder and first CEO of the organic seed company, Seeds of Change, his film (and companion book) Hoxsey: When Healing Becomes a Crime helped influence national alternative medicine policy. He has edited several books and written four, including, most recently, Dreaming the Future: Reimagining Civilization in the Age of Nature. (www.bioneers.org)

Friday keynotes:**ANDY LIPKIS****Navigating Adaptation and Resilience as Un-Sustainability Hits the Tipping Point**

Introduction by Laurie Benenson, TreePeople Board Member

As founder and President of L.A.'s legendary TreePeople, Andy Lipkis has brought visionary solutions to the once-poster child of municipal environmental madness. Inventing the citizen forestry movement and engaging hundreds of thousands of Angelenos, over the past decade he has systematically demonstrated how to repair and restore an urban watershed by integrating ecology, economy and justice. As L.A.'s eco-governance model starts to spread globally, he will report from the front lines of the City of Angels and from Australia, which has engaged the entire citizenry as watershed managers.

MALIK YAKINI**Food, Race and Justice**

Introduction by Greg Watson, Schumacher Center

Malik Yakini, Executive Director of the Detroit Black Community Food Security Network, will explore how the current industrial food system that supplies most of our food creates inequities, based in part on the social construct we call "race." He will share thoughts on addressing racism, thinking beyond the logic of capitalism and how we might create a more just, sustainable food system.

JENSINE LARSEN with SISTER ZEPH**Crowdsourcing the Feminine Intelligence of the Planet**

Introduction by Nina Simons, Bioneers Co-Founder

World Pulse founder Jensine Larsen and Sister Zeph, an award-winning Pakistani digital crusader for girls' education, explain how their global network is harnessing the power of digital communication into a powerful force for change by connecting women from more than 190 countries - including those reaching out using Internet cafés and cell phones from remote rural areas and conflict zones. She will share her personal journey building World Pulse from a vision into a network now impacting over 2 million lives. She and Sister Zeph will show us how we can participate in this soulful digital revolution to unleash the true feminine intelligence of the planet.

ERIEL DERANGER

Reclaiming Our Indigeneity and Our Place in Modern Society

Introduction by Clayton Thomas-Muller, Idle No More

This is a time of resurgence for Indigenous people, who are reclaiming their lands and identity, while demanding recognition of their traditional knowledge and rights. The Athabasca Chipewyan First Nation (ACFN), a community of 1,200 people living downstream from the largest industrial project on the planet, the Alberta Tar Sands, is on the frontlines of the global fight against the ravages of fossil fuel extraction. The ACFN's resistance is a prime example of Indigenous resurgence in Canada, revealing how Indigenous peoples are shaking up how we do and see things and pointing the way forward for the protection, preservation and future governance of Mother Earth.

TOM HAYDEN

Building Green Blocs and Justice: California's Game-Changing Climate Leadership Model

Introduction by Kenny Ausubel, Bioneers Co-Founder

As one of the nation's greatest change-makers, former State Senator Tom Hayden will describe the political evolution of California's pace-setting clean energy economy as a model for a Green Bloc of states nationally and globally attempting to survive climate change and build a 100% renewable energy future without nuclear power. This requires a movement that takes the road of justice, serves the needs of communities of color and labor, and realigns the political parties away from the funding and influence of the fossil fuel industry.

Saturday keynotes:

LOUIE SCHWARTZBERG – Short Film

The globally renowned master of nature-inspired films will show clips of his latest work.

HENK OVINK

Water by Design

Introduction by Paul Vosbeek, founder of Real NewEnergy

Henk Ovink, one of the world's leading experts on sustainable, resilient coastal infrastructure, served as a Senior Advisor to the Hurricane Sandy Rebuilding Task Force and is a leading figure in the Dutch Ministry of Infrastructure and the Environment. He will share his vision of how we must change our entire culture to put water back into the center of our hearts and minds if we are to cope effectively with climate change, water crises, biodiversity loss, ecosystem collapse, extreme weather events, and myriad environmental, economic, and sociopolitical crises. He will illustrate how new approaches to design and politics are at the heart of a more resilient future.

SISTER SIMONE CAMPBELL

Community: Healing for the 21st Century

Introduction by Reverend Canon Sally Grover Bingham, Interfaith Power & Light

Sister Simone Campbell is a poet, social justice attorney, and one of the nation's most influential faith-based progressive activists. She led the famous 2012 "Nuns on the Bus" tour to challenge Congressional budget proposals that radically slashed programs for the poor. She shares her vision of how we can heal our divisions and differences, create a renewed sense of community, and build a far more just, peaceful, verdant and compassionate world.

Self-Organizing Community Democracy for the Internet Age

Emerging in response to the need for a scalable way to make inclusive group decisions during the Occupy movement in 2011, Loomio, an activist-driven tech co-op, developed an open-source tool for democratic organizing now used by 80,000 people in 93 countries. Change-making communities, social movements and organizations have used it to make more than 25,000 decisions. In this digital world, Loomio is on a mission to empower communities and organizations everywhere to weave diverse perspectives into powerful collective action.

RINKU SEN

Both/And/All: Environmentalism and Racial Justice

*Introduction by **Nina Simons***

Rinku Sen is one of the most dynamic and influential social, racial and gender justice activists of our time, among the nation's most effective voices for inclusion and human rights as well as a cutting-edge journalist, author and researcher. She will share her vision of how our era demands of us that we simultaneously face and address our completely intertwined ecological and social justice crises, but that we must learn how to do it without losing our minds, our friends... or our fights.

PAUL HAWKEN

Project Drawdown

*Introduction by **Kenny Ausubel***

One of the most important thought leaders, activists and entrepreneurs of our era will illuminate the groundbreaking Project Drawdown: the first systematic attempt to do the math on the most effective solutions and technologies that already exist, and the impact they would have if they scaled in a rigorous manner over the next 30 years. This coalition of NGOs, academics, scholars, scientists, businesses and government agencies has come together to measure the impact of 100 substantive solutions to mitigating carbon emissions to determine if, when and how we can achieve a year-to-year drawdown in the concentration of CO2 in the atmosphere. The news is good.

Sunday Keynotes:

FANIA DAVIS

Restorative Justice's Promise: Helping Us Re-Invent What it Means to be Human

Drawing on her lifetime of social justice activism, Fania Davis depicts the essence of Restorative Justice. It's an emerging approach that seeks to move us from an ethic of separation, domination, and extreme individualism to one of collaboration, partnership, and interrelatedness. Rooted in Indigenous views of justice and healing, this rapidly expanding global movement invites us to make a radical shift from either-or, right-wrong, and us-versus-them ways of thinking. It seeks to midwife an evolutionary shift beyond domination, discord, and devastation, toward healing, wholeness, and holiness with one another and all creation.

MICHAEL MEADE with JOHN DENSMORE

How Your Unique Genius Can Help Heal Nature and Culture

*Introduction by **Nina Simons***

Legendary storyteller, author, and scholar of mythology, anthropology and psychology, Michael Meade will show why we desperately need to awaken the genius within each of us - not only to achieve personal fulfillment, but to have any hope of addressing our global crises, restore the natural world, and heal our culture. Accompanied by John Densmore, legendary drummer of The Doors, he will weave storytelling, performance, mythology and street savvy.

ADRIANNA QUINTERO

Re-imagining the Environmentalist

*Introduction by **Kenny Ausubel***

Adrianna Quintero, a Senior Attorney at the NRDC and former Director of its Latino Outreach program, says that if we want to have any chance of succeeding in securing a healthy future and a livable planet, it's time to re-Imagine the environmentalist. All of us have a connection to nature, and we need to embrace a new vision that reflects the realities of our time and the growing diversity in our country. As the U.S. moves toward being a minority majority nation and the Latino population asserts its very high commitment to environmental concerns, more and more of us need to feel welcomed and a part of the movement—even if we've never been on a hike.

KIM STANLEY ROBINSON

Rethinking Our Relationship to the Biosphere: A Utopian Vision of A New Economic Paradigm

*Introduction by **J.P. Harpignies**, Bioneers Associate Producer*

The coming century requires that we rethink and restructure our relationship with our planet to avoid endangering the integrity of the biosphere and risking the end of human civilization. This means reforming our economic system, which uses a market and trade system that systemically under-prices and degrades both people and the natural world. How can we change that, and what would it look like if we did? One of the great visionary science fiction writers of our era will draw from his decades of work and thinking on this question to sketch a utopian but deeply informed and cogent scenario of a new economy for the coming decades.

Recap

With Saturn's re-entry into Sagittarius, a new energetic dynamic came online. We have transitioned out of a cycle dominated by cardinal and fixed energies into a cycle dominated by mutable energies. (See [August](#) and [September](#) 2015.)

November 2015

The Mutable Signs: Truth and Consequences

Astrological signs can be divided into three kinds: cardinal, fixed and mutable.

Cardinal signs, like Aries, are associated with decisions and initiatives.

Fixed signs, like Taurus, are associated with determination and follow through.

The light from cardinal and fixed signs makes for soft focus and rich, warm, bright colors. They trick the mind's eye, lull reason and overstimulate the imagination and cause hyperactivity generally. It seems to demand an unending series of hasty and important decisions. This rich, stimulating but seductive light conceals a multitude of errors and ferments endless drama.

The light from mutable signs is, by contrast, even and true. At its best, it composes the mind and calms the imagination. It fosters careful analysis, long-term thinking, and takes intuition and other subtle mental processes into account.

Mutable light casts few shadows. It makes for more accurate colors and sharper focus. Mutable light does not produce the glare that often blinds us to important realities. In fact, it penetrates the concealing glare of cardinal and fixed light.

The even light of mutable signs also exposes flaws, penetrates deceptive appearances and reveals the likely consequences of error and oversight. It cuts through the glare of the light from cardinal and fixed signs.

Mutable energy also de-dramatizes. It works against inflamed emotion and hasty, unwise reaction. It inoculates us against charged, manipulative rhetoric and the faulty reasoning behind it.

Major Mutable T-Square

As this new cycle gets underway, then, expect a more fair, accurate and honest picture of the world to emerge in collective consciousness.

Mutable Synergy

Functioning together, as they do in this T-Square, the mutable signs support a balanced, deliberate, holistic reasoning process. The mutable signs, each in its own way, each in its own area, fosters mental and moral and ethical clarity.

- Gemini governs day-to-day, down-to-earth communication and mundane transactions of all kinds.
- Virgo governs our health, our jobs, our close family relationships and our most fundamental and important economic ties.
- Sagittarius governs the creation and maintenance of our worldviews, our overarching philosophies of life.
- Pisces governs our inner, spiritual awareness.

The four mutable signs, then, work synergistically to create a picture of reality that does not, for example, emphasize Gemini's short term, localized outlook at the expense of Sagittarius's long-term, universal perspective. Nor does it let us emphasize Virgo's fact-based analysis at the expense of Pisces' intuitive, inspired and idealistic input. Or any combination of the above.

It is fair to say, then, that the mutable signs govern our understanding of ourselves, our world, and our place in the world. The cumulative effect of the four mutable signs is to create and maintain a holistic, balanced view of reality that takes all relevant considerations into account.

So now, the three planets crucially related to the process of self understanding - Jupiter, Saturn and Neptune - are squaring each other from signs that combine to produce a clear, balanced, inclusive view of reality. These energies are arranged in a way that will minimize excesses and bring out the strengths of all astrological energy.

No major planet is currently transiting mutable Gemini. Gemini is, therefore, acting as a point of synthesis, a point of reference for the changes wrought by the T-Square. It is through Gemini, the popular mind at its most basic level, that the changes wrought by the T-Square must filter into our daily lives, bringing real, concrete change in collective consciousness and behavior.

Rethinking Everything

Years of dominance by cardinal and fixed energies have taken their toll on the accuracy of our self-understanding and our worldview. Many unbalanced, distorted and illusory ideas have become enshrined in collective consciousness. These, in turn, have taken their toll on economic and political life, human behavior and global quality of life, to understate the case.

With the T-Square now in place, we are already seeing a heightened awareness of the errors that pervade mass consciousness and the injustice and inequities perpetuated by these flawed ideas. We are also seeing an increasing tendency to challenge these ideas and fight the conditions they have imposed.

Jupiter Opposite Neptune

The Jupiter/Neptune opposition is the dominant component in this mutable T-Square. It is the most dynamic. Of the two placements, Neptune, in its home sign of Pisces, is by far the more powerful.

Neptune in Pisces . . .

Neptune's roughly 16 year transit of Pisces began in 2011-2 and will end in 2025-6. Neptune governs Pisces. Hence, this transit will amplify the profoundly transformative energy of Pisces and Neptune very significantly.

Taken by itself, then, this transit marks the beginning of a complete renewal of the world's ideas about the nature of reality and the transformation of the institutions founded on those ideas. The present mutable T-Square seems like a direct expression of Neptune in Pisces and an early and necessary stage in the renewal process it will foster.

Neptune in Pisces dissolves our bonds to everything and everyone, stripping away the links that bind us, motivating us to establish new beliefs about the nature of the world and our place in it.

Chiron and Nessus in Pisces Too . . .

Thus, Neptune in Pisces will be actively dissolving our understanding of ourselves, our world and our place in the world. It will act primarily by holding up a mirror that reveals all of the flaws in our religious and spiritual beliefs, our self-understanding and our concept of the world.

It's worth pausing to note that both Chiron and Nessus are now with Neptune in Pisces. Chiron and Nessus both give us very concrete reasons, usually in the way of discomfort or outright illness, injury and pain, to break with past beliefs.

Neptune will reveal ourselves to us in the depths of its magically revealing mirror. Chiron and Nessus will be showing us the physical, emotional or mental consequences of the imperfections we see in Neptune's mirror.

The profound, thoroughgoing and prolonged process of cleansing and release will continue. (<http://on.fb.me/1MbxQXC> New Year, 2015, etc.). In fact, this cleansing and release is the foundation of the changes that will occur.

. . . Opposed to Jupiter in Virgo

Jupiter in Virgo, opposing the bodies in Pisces, will strongly affect our response to these uncomfortable revelations. When it is afflicted, or seriously challenged, as it definitely is in this T-Square, Jupiter responds defensively. It causes exaggeration, overgeneralization, overestimation, excessive optimism, a wildly inflated sense of self-importance, and so on. A dense and billowing smoke screen.

Afflicted Jupiter will do anything in its power to deflect attention, and avoid judgment or responsibility. Neptune opposing from Pisces is just the influence to maximize Jupiter's defensive behavior.

Perhaps most important, Jupiter, given its connection to Sagittarius, will want to construct elaborate systems of flawed ideas to conceal its mistakes and deflect blame and the inevitable demands for change. Afflicted Jupiter will try to replace all the old lies with bigger, better and more effective ones.

Neptune opposite Jupiter will seriously exacerbate these tendencies. We might, for example, go so far as to adopt, adapt or create an entire set of new and ever more flawed ideas to make our illusions seem valid or our misbehavior acceptable.

Fortunately, Virgo's natural preference for careful observation, meticulous, detail-oriented, fact-based analysis and delayed reaction will also restrain Jupiter's defensive excesses. It will also counter the more fantastic inclinations of Neptune in Pisces generally.

Saturn Square Jupiter and Neptune

Saturn governs thinking in general. Sagittarius governs the kind of thinking Neptune opposite

Pluto will engender in particular. Hence, Saturn in Sagittarius squaring both Neptune and Jupiter will likely suppress the worst excesses of the Neptune/Jupiter energies.

The Long, Slow Revolution

Accordingly, while Neptune in Pisces is slowly but irresistibly and irreversibly dissolving our ties to the past, the mutable T-Square is making sure we replace the old distortions with more carefully reasoned ideas.

I know that many are expecting or fearing or hoping for a violent, revolutionary turn of events. However, this particular mutable T-Square is not given to revolutionary outbursts. In fact, the present concentration of forces in mutable signs will work strongly against the residual revolutionary propensities of the lingering Uranus/Pluto square.

Its energies are most likely to be channeled into constructive outlets by the bracelet of supportive semi-sextiles, sextiles and trines extending from Jupiter in Virgo to Uranus in Aries.

Instead, we should expect persistent, pervasive reform efforts fueled by a deep-seated, abiding rejection of the current state of the world. This, in turn, will give rise to numberless acts of protest, resistance, activism and reform - billions a day, globally. Such actions will be too numerous and pervasive to allow for easy, quick, forceful acts of government suppression.

The powers that be will ultimately be forced to accommodate this new mood.

An Economic and Political Note

With the memory of the recent economic and political crisis still fresh, many, as noted, will interpret current economic turmoil in extreme terms. They will, understandably, fear another economic collapse and more radical developments in the global political arena. However, the recent economic and political crises were the product of extreme cardinal energies - namely Pluto in Capricorn.

The economic upheaval and subsequent political turmoil was exacerbated by the energies of Saturn in cardinal Libra and Uranus in cardinal Aries. These cardinal energies made for high turbulence and a tumultuous economic recovery. Saturn in fixed Scorpio, a sign that profoundly affects political and economic events, did not help.

The predominance of mutable energy will, by contrast, produce more moderate, gradual, incremental economic and political adjustments. You can see for yourself that all the routine predictions of economic and political catastrophe continue to not come true. The pages of the newspaper are filling up with undramatic but doggedly persistent efforts at reform.

People are quietly adjusting their ideas about reality. The world is no longer on a roller coaster ride powered by cardinal and fixed energies.

2015-10-16 **More than 400 dead in southeast Congo measles outbreak~U.N.**

KINSHASA

A measles outbreak in Democratic Republic of Congo's copper-mining southeast has killed 428 people and infected about 30,000 since the start of the year, the United Nations said on Friday.

More than 100 deaths and 10,000 additional cases have been recorded since mid-August, when the United Nations committed \$2.4 million to fight the outbreak in the former province of Katanga, which was recently divided into four.

Humanitarian groups said the money was not enough and poor roads and health services in the region were hindering vaccination drives.

"We have contained the disease somewhat in the short term," Yvon Edoumou, spokesman for the U.N. Office for the Coordination of Humanitarian Affairs (OCHA), told Reuters. "But it's sad to see that the disease is still progressing."

The outbreak is the country's worst since 2010-11, when 1,085 people died and about 77,000 were infected in Katanga.

The industrial copper and cobalt mining parts of the region, Africa's leading producer of both metals, have largely escaped the outbreak.

Measles is a highly contagious virus that can lead to deadly complications like diarrhea, dehydration, respiratory infection and encephalitis.

Mortality rates can be as high as 20 percent in poor countries, according to medical charity Medecins Sans Frontieres, even though it only costs about \$1 to vaccinate a child.

The World Health Organization warned last November that progress toward wiping out measles has stalled worldwide due to poor vaccine coverage.
