### Hard News:

**T:** we are at the end of this road and people are being squeezed financially

**R:** knows we're at the end of this good red road

- Had Dr Jack Safarti an astro physicist like Dr Fred Alan Wollfe who have brought us the movie **what the Bleep –**
  - he said that comet Sighting Spring comet/ship radically shifted the physics of our solar system it was like a fly-by where they said we're going to get some friends; we'll be back!
  - Thinks Jack knows more than what he is saying!
- We are **already in the 5<sup>th</sup> dimension** – how it is catching up with us: he sees across all the stories that are going on; what has aligned with the Office of the Christ are so many folks like Malala who wants to see “books, not guns”
  - As Magnito/Eric said: we are changing our destiny; as a race of beings, we were all encoded with strands of DNA that were to go off in divine right timing – and they are going off on schedule. This is wreaking havoc with the old paradigm of the old energies.

- Has to do with **The Fourth Turning**, a book. The heros, the prophets showing and some of them are just taking form now, maybe a few months or a few years old – they are living masters on this planet, and fully cognisant of how to kick in the extra DNA and make it happen.
- Talked to Rana Mu** after he heard Jack S: “Now you're getting the picture; I can't tell you, you have to figure it out – I can't tell which way to go on the good red road but just to follow it.”
- The elders and teachers of star nations are here: he saw so many beings that others could not see when he drove around Santa Fe; it was like the movie, Ghosts - they could see him seeing them and they waved back to him – any nano second, this changes in the twinkling of an eye
  - The story of **Marysville School Shooting** is **another distraction** just like ebola – **another black op** – something went strange with this kid who did the shooting; knew his way around guns – people were pretty shocked – some are saying he was being bullied – by whom is the question.

**Sam Seder:** had on a Russian scientist yesterday – talked about the comet which is also a ship [both/and] – there are pictures on the net of an electric blue greenish orb travelling behind the comet/craft

**T:** the EU laid out a plan to cut greenhouse gases by 40% by 2030; the green people say-too little, too late

**R:** we cut the oil NOW: there are technologies which mean we no longer need oil.

**T:** Poland gets 98% of their energy from coal, and they are freaked that they will lose

- the water desalination process: the info she received shows it completely breaks down everything that is not supposed to be in the water, as well as removes the salt
- Also, It is portable – within seconds of arrival in a new place, it can be turned on create pure water.

#### **Audio: 2014, Oct 24 CONVERSATIONS WITH GREAT MINDS**

- Harold Holzer, **Lincoln and the Power of the Press**
- gives his background and how he came to write this particular book.

**T:** no mention that Lincoln's wife Mary Todd was a Collins and that she murdered Lincoln – still to come out

- people as citizens were to get 40 acres and a mule
- The Bourgevain Fund goes back to Lincoln and the Emancipation Proclamation: the heads of all households were to get 40 acres and a mule so they could feel themselves & have a home.
- The Bourgevain fund is the granddaddy of all the funds in existence today
- Bourgevain was killed in 1885 - this is the fund that Nancy Reagan had in her trust under Bush Sr
  - **Reaganomics was really Bushonomics** – Bush had 3 terms to totally upset the country

#### **CONFERENCE CALL**

**C1:** discussing the solar eclipse – will see a total solar eclipse – middle of the day

**T:** In 1991

On **France 24:** the economy was likened to a dead parrot – from **the Economist magazine** – a tiny Angela Merkel is saying it is just resting

- things looking grim in France: another French paper takes a look at another crisis in France:
  - Hollande is down to his last remaining bullet!
  - there are divisions in the various parties in France
- CEO of Fr company called POTAL – was killed on a plane crash collision – ran right into a snow plow –
  - called negligent homicide.
- Only the rich people will be able to afford the technology to prolong life – at least they are talking about prolonging life! NESARA now!

- Thom Hartmann talking about the way stem cell research is being suppressed: research and work has been done that applied stem cells to a severed spine so it could re-grow! The person had been in a wheel chair for 25 years before - means people will be able to walk again.

T: talks about her deteriorating teeth and the history in relation to the stem cell research

C2: use food grade peroxide and baking soda

T: has been using it for years – neither does sea salt and water, but does not get behind the roots

- They suggest getting gum surgery

C3: what about radionics?

T: a method of testing what the cause is; has not heard if it can treat this particular condition

C3: will ask the person he knows.

T: the wholistic dentist said he does not know a way to treat this!

- 2 of the 3 hours of Al Jazeera's news was cancelled; also quiet from Rama's contacts

• Has met Dr Fred Alan Wolffe and Jack Safarti at a local gathering

- Jack said it's a comet / starship – on air! Passed through our star system, and radically affected the physics of the Universe of Nabadon – moving higher and higher in frequencies – no darkness will be tolerated any longer.

• Another section of Thom Hartmann: a comparison between voting for Democratic or Republican sides compared the Boehner/McConnell sides – Nancy Pelosi. Speaker / Harry Reid – Majority leader then he gave a litany of what the two sides represented – totally devastated the Republicans

C2: “natural healing for gum disease” is what she googled.

looking at Natural Health for a wholistic health for dealing with gum conditions

C4: Sept 2004 – was there on the first call! Still in Glendale, CA

**Peri-gum** – on line about \$25 / bottle and does work! Peri-gum – google that to find the best price.

T updates C4 on what has been going on; wants to know the name of the site about essences

C5: the flower essences – [www.greenhope.essences.com](http://www.greenhope.essences.com)

- Molly is from Ireland, had been using alcohol for years – she came up with red shiso is what they make their essences out of now

C6: **Ed McCabe – Oxygen Therapies – a new way of approaching disease**, pp 164 – 165, about super oxide SOD a protien and an enzyme; under radiation – she reads “radiation creates free radicals, and SOD eradicates them” by Energy Publications

## **Mother Sekhmet**

### **Mother is introduced by a sufi master.**

Greetings in the Light of the Most Radiant One; in the Office of the Christ and only in the Office of the Christ, we invoke the loving energies of St Germain and the Violet Flame

### **Greetings, Children of Ra:**

Indeed, we are in a new realm of reality; since we heard the sheik talking about the fact that we are in no time, and moving faster than the speed of light at this moment; it is magnificent to behold, and at the same moment, it is also we are walking the pathless path of the good red road:

- we have not walked this path before – creating it as we go;
- how this is done is taking the 7 billion + of us waking up to who we are as neighbours in the 'hood, that we all have a vital, key role to play in enlightenment and betterment of the situation at hand –
- as we are volunteers, whether we know it or not: we all said “Let's do it!” Here we are: this is the moment where live up to our commitment and say “Tag we are it!”

- It is not just about voting though that is a good part of it; it is taking the quantum leapa in overstanding it, understanding that we are specks on the back of a cat
- T:** Which cat might that be?
- Mo:** Take a guess: **T** asks if she is a speck on her own back: Yes – that is about the fractal that carries the whole
- Together they repeat: “everywhere we go, there I am”
- Mo:** this story is coming full circle
- when we began this story 450 BILLIONS OF YEARS AGO, and then some –
  - when we are in that realm of NO TIME, it goes by in the snap of a finger – it is only about infinite, ecstatic joy in each moment, and what we volunteered to do was give ourselves a challenge and that challenge has come full circle; her wayward children volunteered too to add a little salt to the stew!
  - so here we are with our gifts, our abilities that are being called into play with all that is transpiring – the good, the bad and the inbetween, the very ugly and the not so ugly – it is about all the facets and the relections of what I AM when we said “I am That I Am” when I chose to step into the scenario of the Universe of Nebadon, where I had free will choice to play and to follow the Laws of the One
  - We have come full circle: Laws of the one are in place; laws of free will choice within in the realm of what is happening and we choose to follow the law of the one, it changes everything and things spiral upwards.
  - The stories of the day concerning all the distractions that have to do with this empire built by her her wayward children out of sand – the tide is coming in!
  - That tide of what is here is what has been spoken of by all the masters, the sisters, the brothers – they are all here: legions upon legions of loving light, loving love – this is front and center: the living gem of a planet called Earth, Terra Nova
- The whole story is about how we ascend, with these bodies, which are immortal – our bodies are changing, like it or not; resist or not; remember or not remember; it is changing the very nature of that which is light, of what we are, and what is happening is everyone is waking up and finding out – we thought we had a lot of work, and then some . This story as the elders of maya land, when they began this story: Quetzequatal: did he ride on the back of a dragon, or did he have a ship?
- T:** this campaign has something to do with the return of Quetzequatal
- Mo:** This time we are in is in the reality where we aked to get in the fray, into the thick of it: where it is like the lady sings: Lord make me an instrument of thy peace! There is so many issues about what we are as life forms and it is that, as earth is destined to become the 33<sup>rd</sup> member of the Intergalactic Confederation of Worlds – we are all part of the story, so we had better drop the issue of colours: white is beautiful; black is beautiful, in between is beautiful. All the 12 rays of the rainbow bridge: sister Mary speaks of the Rainbow Bridge
- T:** Einstein said that if the bees disappeared off the face of the earth, humans would only have 4 more years to live.
- MO:** that is right: the bees are a gift from the kumaras from the city of Hesperus, on Venus
- T:** they are starting to come back They are taking the semen from the male worker bees and preserving it and also seeing seed more queen bees
- Mo:** time to respect every single life form – an ant, a bee, Big Foot – we all have a vital role in the circle of life, and the rhythm and the beat of the drum of the Circle of Life is calling us, and we are in the realm of overstanding/ understanding that it takes all of us to take part, only takes one to say I AM THAT I AM, and that goes out exponentially.
- What's happening to our DNA is that everything is turning on; the abilities are here for all to experience: we have to get into the realm we think we are in: we have to let go and let god, where we hear only the sound of our breathing and get really deep: we will find ourselves looking up at our team around us: guardian angels, masters, whoever, etc – this is transpiring for each one of us: there are so many, we have no words to say: so much awesome reality of infinite joy we are in the midst of, with

all the other edges of it that are a bit gray, turning to silver and gold.

- How we do this with love is the big test! She has no words except to say trust what is in the high heart, as we know it to be true, our high heart will sing like the Liberty Bell. We will know what is real and what is not.
- The stories going on are just that - distractions; we are at the end of the good red road – better let the empire come to a conclusion and let the phoenix rise out of the ashes. She cannot say when the crash of 2016 will come - we are already in 2016, are we not? Light a match any time; light the candle that never goes out.

**Peter, Paul and Mary:** light one candle

**Mo: we will find some interesting toys in the sphinx very soon – they will help the relations between Egypt and the rest of the world – there will be some explaining to do about the ancient technologies which will fix the situation right now. A convenient serendipity – be aware! Something is about to break, and it is huge! It is about us!**

**T:** the thinnest veil is on Oct 31<sup>st</sup>

**Mo:** It is about the story that everyone who is anyone is here: earth is center point – as we ascend in this reality, the entire host of heaven. the entire universe is observing  
if we could see how big this stadium goes with all the life forms in it, we'd get a grasp of how big this story is – it is millions of light years and then some – that is how wide it is- on ad infinitum

**T:** the explosion on Mars?

**Mo:** an interesting scenario that had to do with the people of Cydonia: it was some particles in the atmosphere that activated the uniqueness of the seeding of Mars; it was like the catalyst to start the terra forming process: Project Genesis.

**T:** why did they need to create an explosion?

**Mo:** it was a mini big bang of light coming together with light & having an orgasm that was physical to the point that it was noticeable by all our telescopes: it is a message that she & others are here.  
You are us, and we are you – when we interact with each other . . .

**T: Will** this change up the changing of the climate and make it more habitable?

**MO:** it's speeding up inside our temples of the living god –we are feeling the quickening; it is why so many are going to the highs and lows of emotions, and the energies are pouring in

- the wayward children who have chosen the dark self – they are feeling it, and it exacerbates the side of them that chooses not to heal, therefore, they are cooking in their own juice! Not a pretty picture – yet you make your bed, you sleep in it. {Can't hear T}
- It is that they [Mother and the paschats] are from our future which is their past, with a message and it is “You do it here and now, by getting this piece of the puzzle done called NESARA. Mr 19.5\* is the key to this story - as we study Comet Sighting Spring where it came in contact with Mars was **exactly at 19.5\***

**T:** the 19.5 we talk of here is the latitude on earth

- it is the same as for Mars! 19.5 is an activation portal - what has come in is what we asked for - [a little help from a 3<sup>rd</sup> party to get things moving, so Fred Flintstone and his wayward friends will get a break and not have to break rocks any further – not to make a bad story worse, but that is all Afghanistan has got, and we did it
- Not in my name! Greetings in the light of the Most Radiant One - all we are saying is give peace a chance!

**R:** has been sitting in the Fortress of Solitude, looking at the situation on this planet;

- in spite of the heavy stories, there is so much light pouring into where we are – he is in awe of how much light is pouring in – WE HAVE WON – though it may not look like it: Lord, make me an instrument of thy peace!

Lord, make me an instrument of Thy peace;  
where there is hatred, let me sow love;  
where there is injury, pardon;

where there is doubt, faith;  
where there is despair, hope;  
where there is darkness, light;  
and where there is sadness, joy.

O Divine Master,  
grant that I may not so much seek to be consoled as to console;  
to be understood, as to understand;  
to be loved, as to love;  
for it is in giving that we receive,  
it is in pardoning that we are pardoned,  
and it is in dying that we are born to eternal life.

Amen.  
st. francis of assisi - 13th century

Every week Max Keiser looks at all the scandal behind the financial news headlines.

Max Keiser and Stacy Herbert discuss the looming crisis as investors chasing yield have piled into obscure and less-liquid assets leading to sell-offs in the more liquid markets during panics as investors sell what they can. They also discuss Fannie Mae & Freddie Mac and the FHFA (Federal Housing Finance Agency) lowering bank obligations on buybacks in order to spur more subprime lending. In the second half, Max continues his interview with Mitch Feierstein of PlanetPonzi.com about financial markets on the precipice.
