- Mercury is going direct within the next 2 days – we are still under its shadow until Nov 10th
 - many reports of people coming back into our lives – lots has to do with the eclipse
- Sees the holiday season beginning with Thanksgiving – sees family closeness expanding when we finally get out from under the shadow
- People thinking of Christmas coming – how many people will decide to get things done early this year.
- With this eclipse, will hear of some atrocious bad weather: up and down – we will level out in about a week; Also see things at sea – news regarding oceans, seas
- Will see a lot of changes taking place in Iraq, relative to ISIS – there will be a turn of events, and ISIS will

- fail in their attempt at negativity
- Will be a lot of news about the US and China, and other foreign countries
- Some terrorist activity within the next 2 weeks – it will be controlled and stopped very quickly
 - Sends condolences to the people in Canada – people will not get away with things in Canada or in the US
 - people are asking what can I do?
- The ebola thing is not over, but coming under control. A good thing- steps taken by the health organizations of the world – they are helping each other.
- Sees many countries caring more about water, sanitation needs; US will have lots of news about water – all positive news.
- Will go through the elections – all she sees is politics: it will come out strange, she thinks – people will concentrate on who is the best candidate more than the party. Sees it as favorable for the US
- Mexico will have to watch for some terrorism – will have a closer relationship era coming up – family, neighbours, other countries. This eclipse will bring lightness into our relationships; it's a happy one
- Signing contracts, major purchases – **wait until after Nov 10th**
- thinks NESARA will be in the news very, very soon!

Best wishes, and love to Marietta.

- She's feeling much better, and is so happy; next operation on Nov 14th – vision should be 20/20 afterwards.
- Thanks for prayers and well wishes; really counted during her recuperation period – talks of the help her son gave her, and how the family came closer.
- Back to giving readings; consultations coming in; her number is above if people are interested.

Hard News

T: glad she brought up Mercury going direct – the eclipse is in the parameter of Mercury going direct.

- Yesterday Noam Chomsky was in the UN and spent hours speaking to 800 people in the UN;
- Amy Goodman was the moderator
 - He made it a fact that the whole country that voted into a policy that the Palistinians are less than human is A WAR CRIME FOR THE WHOLE COUNTRY. He went into detail on all the points.
 - T, R were told years ago that Noam Chomsky would be on stage when NESARA was announced: **he has begun.** The Kuala Lumpur War Crimes Commission in Malaysia tried and indicted the specific war crimes of Israel

AR: wondering if that is why NESARA came through her meditations?

T: LM Nada since 2007, has been the special prosecutor

- **She told Rama** that the period between these 2 eclipses represented them sealing their own fate with their own blood. They will be removed permanently from this planet. They've had decades to change their course, and have chosen to go farther in the opposite direction
- Now the energies are pouring in – we are completely in the 5th dimension - **this from Nada!**
- Ask for those energies when you do your spiritual exercises/development. This is part of Nesara's readiness to come forward
- When people are not aware or are not interested / in denial, makes it difficult for NESARA which will

change things across the planet- completely end the world's economy on every level

- the ENACTMENT is what is going to happen – it has been functioning on behind the scenes with since Barack Obama became President Elect
- Heidi of Bank of International Settlements, in October, 2008, working with Faction 3 White Knights and KOS, completely zeroed out all the economies of every country on the planet , which means we went into NESARA law then - behind the scenes.
- There are things which have been authorized to do to enable things to be done about the economic treason of the old economy - It was a 4th Reich set-up with unregulated capitalism, with loopholes up and down the ying-yang, and elite corporations, with impunity, operating against the best interests of the people with thousands of trillions they have stolen
- All the first world countries, not just the US, have been printing trillions of trillions of trillions of void-of-course paper bills of all kinds & have been committing high economic treason with this money and leading people to believe all was well

- There is a breaking point here: has to do with 5 countries in the EU- France and Italy
 - Five countries including **France, Italy** have completely gone against the rules and said to the Central European Banksters who are Nazis : take it or leave it. [with reference to the rule that budgets that have been drawn up in their countries according to the deficit]
 - Central European Bank's rules are that a country's deficit has to be under 3 % and the budgets have to be regulated accordingly. The 5 countries are refusing to do it
 - China's economy is failing as over here and elsewhere:
 - In the US, employment is said to be 5-6% - over 70 million people are working 2-3 short jobs and are still below the poverty level; people around the US are saying this is so in spite of what the politicians say: figures can lie, and liars can figure! The illusion is beyond the pale!
- People are becoming way more aware and using their heart energy to choose things that are right, even if they don't always understand.

Thom Hartman: Mike Papantonio was the guest: **Ruth Bader Ginsberg** wrote a searing criticism about the Supreme Court allowing Texas to have their voter suppression law and keep it in place, with the excuse that there is too little time before the vote

- Over 600,000 people are disenfranchised – costs \$25 – \$ 50 to get ID, and they cannot eat if they pay that money out! Nor do they have cars to get to the office which is far away.
- Ruth B-G is identifying with her heart and her wisdom! She's a Supreme Court Justice – she and the other women went against the decision of the male justices.

Wisconsin – Scott Walker **did not get his way:** the voter suppression law was denied!

Florida – the lasciviousness of the discussion between Rick Scott and Charlie Crist

- Mike Pap said it's crazy that people are saying the race is neck and neck!
- Scott got into office on the same tricks: a rule on the Florida books saying you cannot use technical equipment when you're debating; his opponent answered a cell phone call, given to her by a staffer, and Scott went after her!
- he took hundreds of millions from a Florida insurance co as the CEO; spent it to win the election and rigged the voting to get in, as well

AR: says this election will change things

- the employment rate is not impressive because people are paid so little
- country has been lowered to providing only service jobs and not production jobs

CL: Fox News made a statement that “you young women – don't bother to vote in the primary: wisdom comes with age!”

T: they cannot hoodwink the millennial consciousness like that!

CL: just speechless! Will the American people accept such a comment?

AR: there is no one on the main news channels who make less than \$1 million a year

- yet plumbers, construction workers, teachers, general workers – when they get a raise, there is a hue and a cry! So why don't they run the country? Won't try because they don't have the intestinal fortitude!
- There will be 2, possibly 3, wealthy men who will do something that will return the US back to a production oriented economy rather than service [waitresses and those working for less than minimum wage]

T: and the service job workers get **no benefits!!!!** an ugly story.

- There are 50,000 new technologies that we need places to build them for the whole world

CL: would it not be great to see some different ways to view the politicians?

- like seeing graphs that show who voted for what and other such ideas, and find central locations where people can find the info
- people are so busy working they have no time to do research!

AR: too much emphasis put on the party: should be the people, not the party; people did not know the questions to ask

CL: the politicians should be telling people what to ask – these are the issues at hand

- T:**
- (1) the electoral college has to go – it's rigged
 - (2) need to get money out of politics
 - (3) arrest the criminals in the Supreme Court – money is not speech; corporations are not people
 - (4) we cannot overlook where we have 4th Reich politics looking us in our faces – republicans with tens of billions to throw away and they got it by fraud in the first place!

Thom Hartman did a special Conversations with Great Minds – the history he gives is about the history behind the scenes to lock us into the 4th Reich - has to do with surveillance

- James Risen – he has been gone after by Bush Jr and his guys who wanted him in jail

CL: any other things going on we should be aware of?

R: Sam Seder had on a Russian scientist talking about comet Sighting Spring and how it enveloped Mars

- There were particles and dust swept into the planet's atmosphere – he talked of how Mars was being seeded with a form of terra-forming

T: this change in the environment that's been seeded on Mars by the mono-atomic gold dust means the surface of the planet will be greening up and that water will return to the surface

- the water on the surface of Mars was pulled off the surface completely by a hydrogen fallout from Maldek
 - the water from Mars fell to earth as radioactive rain called Noah's flood 40 days and 40 nights
- On Maldek – the Annunaki were thrown off the Earth and put on Maldek; this is the middle eastern peoples and they came back – hence the fighting in the middle east
 - half of Maldek had Valdour as a capital city
 - the other half of the planet who hated the other lived by themselves – Capital city was Vara
 - Each side had nukes and one day, a nuclear silo was triggered by an earthquake and it set off a nuke to the other side; the other side sent up their nukes in response and the 2 nukes collided with each other & sent the planet super-nova
 - the planet's radiation fall-out came into the gravitational field of Mars and it pulled all the water off the planet hence
 - we know that when we blow up a nuclear weapon, it eats up every ounce of water that you can find
 - over 75,000 people were pulverized, and 22,000 tons of water in the huge resevoirs on the top of the each towers was gone – why no bodies could be found
 - the water from Mars fell to earth and fell as radioactive rain called Noah's flood
 - his boat was an amphibious star ship; Noah was a star ship captain – they did save animals

- His son, Shem, who is Melchizedek who begins the Sananda Kumara line to Earth
- this is why it is important to understand **The Keys of Enoch** and know what it means to be a part of the order of Melchizedek

• We were causing all kinds of mutations to our DNA just from being in this rain.

CL: where T & R really shine: giving us the ancient history which is key to know – gives us a wider picture

T: the astrology is teaching us that we are radically changed!

- Uranus has been over our heads & retrograde for a long time – it depicts sudden & dramatic change
- **why we are being told:** Clean your house, go inside, open your heart,

CL: speaking of water – people are aware we lost Dr Emoto who showed us how water takes in energy and how the crystals of water show what has impacted them.

T: He was in Shanghai and got sick and suddenly, he was dead! He was only 71. She smells a rat!

- His last words were so profound – his last word was “thank you” in Japanese. **[SEE BELOW]**

CL: Reading from Metatron, via James Tyberonn **[SEE BELOW]**

- the eclipse that occurs on the 23rd is coded
- we will in time reach this summit believe that - the purposed ??
- you are never alone

What Cathy read is highlighted in the document

AR: thanks for the reading; explains why she was seeing water in her meditations

- the moon represents woman – let's watch for a major, major, major announcement about a woman

T: Ronan Farrow interviewed Malala for 40 minutes – she is from Pakistan

- Was shot by the Taliban – 2 bullets in her head; airlifted to England and survived
- Won the Nobel Peace Prize
- Addressed the UN this week
- A true millennial; an Indigo-crystal – just turned 17
- Ronan is either 27 or 28 -

Caller: saw a movie called “**A Wanted Man**” - Seymour Hoffman starred in it.

- it is said that he died of an overdose
- thinks he may have been murdered because of the content of the movie which was based on 9/11

R: concurs – as Joan Rivers and Robin Williams were murdered.

T: Mother talked to Joan Rivers through Rama – she'd nailed numbers of folks and they did not like her

- yes she was connected in that way
- Robin was killed from a distance by the archons

R: the movie is a heavy subject

Caller: it's an excellent movie – gives an outline of 9 /11

Caller: also, today – what is going on with the Bush family – infighting between the Bushes!

R: Like the Rockefellers and the other 13 families, it is their eclipse and twilight time for them!

- We are in a Sat Yuga 100,000 years of peace – 4x a Sat Yuga – 26, 826 years in galactic time x 4

In 3D time, they say 25,000 years – but this is Galactic Time

T: Mother is the one who determines this; the Mayan calendar has truly ended.

- Nothing happens in one day as each one of us seeks out higher wisdom and knowledge and starts living it and changing our lives to align with the higher energies, the transformation will be quick!

- She looked at R as if he had 10 heads when he told her about the greening of Mars – he sais things are not changing according to linear time, but according to galactic time

CL: which Bush, which office?

C: George Jr and his brother Jeb and his nephew George T Bush is aligning himself with Ted Cruz who is trying to align with George T. [or P.] Bush

R: Ted Cruz is so insane – he's only in office because he has so much money
▪ he is not even credible as a life form!

T: we've been reading about the Bush family – they were Nazis and completely broke – were called Scherff
▪ there was never a Prescott Bush until he was brought through Ellis Island – now there is a dynasty that never existed before: they have been **completely funded by the Thyssen dynasty and the Dutch royals**

▪ they used a ponzi scheme: the 2 Thyssen brothers were on 2 different sides of the war; one was a Nazi, the other not; they created and owned 2 different banks; they laundered Nazi money through their banks all the way to the New York City Bank which was owned by the Bushes and the agreement was to create a 4th Reich with this whole dynasty!

T: Bush Jr's father is John Fitzgerald Kennedy Sr - this was done because the Rothschilds wanted the blood line to be carried by the Bushes. [did it in a petrie dish, not with Babs Bush!]

▪ The 13 family lineages are covered up in a similar fashion – can't believe what is on the paper!
▪ Donald Trump is a Dutch royal family member – he is not a citizen of the US!!!! And he is the one who started the birther movement! He was born out of wedlock of a Dutch royal princess– he keeps going broke and the Dutch royals keep him afloat. It's his inheritance, and he is playing a role - AND NONE OF THESE PEOPLE ARE HUMAN!

R: THE KENNEDYS ARE TIED IN with those beings called the Great White Dragons, actually dragons from the constellation Dracos; they live in the Superstition Mtns – the Rothschilds are direct descendents of the Great White Dragons.

T: not all dragons joined the Luciferian rebellion & took out their DNA strands and some have amazing qualities and gifts

▪ Annie was saying that people are ripping the veil off their 3rd eye – what is going on here?

R: When they pull the lid off this story, it will be right from **The X Files** right into **The Lord of the Rings**

T: we are reading about fairies now – it is by a fairy who incarnated as human; Cynthia Rose Scholsser is also one.

▪ Dogs often bring fairies through; they are part of the gardeners ; don't be fooled by their animal bodies – there's lots going on there!

Caller: was there any word about the bankers meeting took place in Jackson Hole, Wyoming 2 weeks ago?

R: does not know

T: they were meeting on an emergency basis: didn't know what they are going to do because all is collapsing around them.

▪ **KOS and Nada** said the world economy would never get on its feet again.

CL: waiting to see the day when we see the parade of media or become aware in some way of the dark wealthy men and women who are part of the Cabal. Is this on its way?

T: that's why she said that there are so many areas contained within the NESARA project

▪ the one about the Kuala Lumpur trials and the info presented by Noam Chomsky in the UN

▪ Expand yourselves – **get a wider perspective: what could be a better stage than the UN to talk of these war crime tribunals?**

▪ The ultimate bankster heist: **Zionists orchestrated 9 /11** – the one in the middle was Netanyahu!

CL: he was born in N E Philadelphia! He left – could not take the love! [City of Brotherly Love!]

R: he acts like he is not even American!

T wants to play and read everything that is pertinent to people realising all that is being brought out now is describing why we need NESARA

- People do not understand Obama is not going after the whistleblowers; they are using him as a pawn to take things down: they are trying to take the whistleblowers down, take the immigration programs down, to take the banks and make them as wealthy as possible and make the rest of the people so poor they will disappear
- the whole body of work Mike Papantonio is blood-curdling – he is the #1 lawyer who prosecutes the pharmaceuticals who commit murder every year through the hospital pharmaceuticals
 - the murderer he sits opposite wears an Armani suit & has a limo waiting outside the door!
 - our Black ops created Ebola and it is a huge distraction that covers up what they are really up to
- **Noam Chomsky** in the UN and the UN is up for murder – the UN troops from Nepal brought cholera to Haiti after the earth quake and 750,000 have cholera the hurricane which was created by Hillary Clinton via the weather modification program on the ISS

T: put big Will's sister Debra in the Circle of Support: she died just over a week ago.

Conversations with Great Minds – the Big Picture – Thom Hartmann and James Risen

He's an older gentleman and a true Whistle Blower. Some would like to put him in prison for a long time!

Audio: <http://rt.com/shows/big-picture/198780-florida-voters-endless-war/>

Thom discusses whether voters in Florida will actually give Rick Scott another four more years with attorney and radio host Mike Papantonio and in tonight's special Thursday edition of Conversations with Great Minds, Thom talks with investigative reporter James Risen, author of the new book '**Pay Any Price: Greed, Power, and Endless War**'.

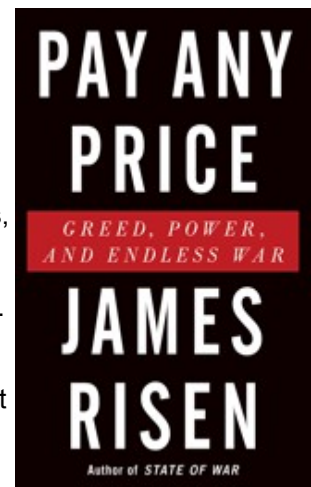

Pay Any Price : Greed, Power, and Endless War

by James Risen

Ever since 9/11 America has fought an endless war on terror, seeking enemies everywhere and never promising peace. In **Pay Any Price**, James Risen reveals an extraordinary litany of the hidden costs of that war: from squandered and stolen dollars, to outrageous abuses of power, to wars on normalcy, decency, and truth. In the name of fighting terrorism, our government has done things every bit as shameful as its historic wartime abuses—and until this book, it has worked very hard to cover them up.

Lincoln suspended habeas corpus. FDR interned thousands of Japanese-Americans. Presidents Bush and Obama now must face their own reckoning. Power corrupts, but it is endless war that corrupts absolutely.

Arigato, Dr. Masaru Emoto

Beloveds -

A unique and visionary soul passed away today, Dr. Masaru Emoto.

Through Dr. Emoto's work with the consciousness of water, he brought new understanding to the power of thought, vibration, and our collective influence on the quality of our lives and creation.

It was Dr. Emoto's work that catalyzed the inception of Go Gratitude so many years ago, inspiring us to see the hidden messages in water, note the fractal nature of creation and embark on a path of grateful living.

His offerings have influenced the paths and lives in multitudes of beings, and will continue to do so for many generations.

Here is the message we received today, on his passing:

"Dear friends of Masaru,

Early this morning, Masaru has passed away. His wife was with him.

Since he became ill in Shanghai, he has received so much love and gratitude from his dear friends of all over the world. He was very encouraged and happy to receive your kind messages with love.

His last word was "Arigato". ("Thank you" in Japanese)

We believe his last word was to you, everybody. He was so grateful for you and thanked you all so very much.

He used to say, "Life is LOVE which is a gift from God and parents, and DEATH is gratitude for going to a new dimension".

So now he is in another dimension and continues to look over us warmly with love and gratitude.

We are going to carry on his mission of spreading the power of "love and gratitude".

We thank you very much for offering prayers for Dr. Emoto, and please send your love, light, and gratitude to him once again.

With much love and gratitude,

IHM Staff"

Please join us in offering prayers of Love and Gratitude to our mentor, teacher and champion of conscious living as he flows into his next great adventure.

Arigato, Masaru Emoto. Thank you for being a beautiful shining crystal of Light.

Signed with flowing tears of Love and Gratitude,

Stacey Robyn and the ground crew of Go Gratitude

Exact Timings of Solar Maximum of the October 23rd/24th Solar Eclipse
Free Earth-Keeper Global Webinar-Interview with Dr Rick Strassman - Sunday October 26th

Expanded Metatron Channel - **The Aperture of Creation Utilizing the Mega-Eclipse**

The aperture of maximum energy will be from 2 hours before and 1 hour after eclipse maximum for meditation and optimal focal intent toward co-creative visioning. The eclipse energy for meditation & co-creation is equally potent whether the event is in day or night in your area.

Collective focus on highest good, individually prepare your intents and goals. Meditate at the times given for optimal benefit. Below are listed the timings of Solar Maximum:

Wellington, NZ - 10:46 am

Eclipses alter the Earth's Gravity and planetary Torsion fields during maximum phase. According to the Metatronic information, this factual effect also thins the dimensional veil and alters time, actually halting linear time for an instant. In the maximum ecliptical phase 'life force units' (Akash) are streamed into our earthplane, and this life force vitality enables 'theta' meditative focal intent to gain tremendous momentum in the process of creating ones higher intent into manifest experiential reality. This eclipse contains an enormous influx of Akash, a purposed coded insertion...it is a gift to be utilized. A time for prayer, vision and co-creation of the New Earth.

Solar Maximum

The Solar Eclipse of October 23rd

An Opportunity of Co-Creation

Archangel Metatron via James Tyberonn

Copyright Protected-All Rights Reserved

Greetings Masters, I am Metatron, Archangel of Light. I greet you in unconditional love ! An extraordinary opportunity is at hand, and we urge you to seize the day. For this day hosts an event that streams fertility to vision. And we urge you to believe in your ability to create.

You cannot will manifestation of the the goals of your life while believing that your visions are mere dreams that will never come true. You cannot consciously co-create experience into manifest reality if you believe you are powerless to do so. But we assure you that you do create ever aspect of your life and your experience, either unconsciously in happenstance or consciously in mastery. The eclipse that occurs October 23rd is coded in life force, indeed with Divine Thought to assist you in moving into co creatorship. A window is opened that embellishes & multiplies the seeding of higher thought into reality within 3d.

So Dear Ones, do not be discouraged. From higher stance, what is happening on the planet is purposed. It is the purging of negativity...lancing the boil. And we tell you, it will pass in time...we assure you that humanity is on path....and although the trail may be steep and rocky at times, you will in time reach the summit. All in time as you create it. Believe that truth and in so doing, create it. You are not alone, there are allies with you as you dream the purposed illusion of duality in the challenging curriculum of the University of Earth. Be aware that there are many accouterments and equipage supports buttressing & provisioning your journey. You are never alone, and nothing is given to you that that cannot be mastered.

The world is always as you collectively dream it, but never forget a positive vision is far more potent than one of despair. Never forget that what you feel as individuals makes an enormous difference in the

collective. The enlightened seekers MUST continue to project light to be the beacons through this time of seeming darkness. It is true that the manifest world in 3d is a reflection of your mass thought projections, but higher thought is infinitely more powerful than low frequency. A positive thought in higher mind is an exponentially bright illumination, one of despair carries no light....and in this simple analogy, it takes only a few human lights to brighten an entire planet.

No astrological gravity is stronger than human will. But indeed astrological gravity is a valid force that can be allied with (and not against) human will to be wisely utilized in recognition of the patterning.

On October 23rd, (Oct 24 in Asia, Oz & NZ) a New Moon Solar Eclipse will occur that is energetically combined with the Lunar Eclipse of October 8th and with the very recent massive Solar Flare & the Mercury Retrograde ongoing. The energy of the Solar Eclipse is a potent apexial point within the current resonance presently on the earth. And although you are in the midst of a time of chaotic purging, a requisite release of negativity, the eclipse will provide a moment of much needed reprise, a brief calming Within that ecliptic window lies an aperture for deep contemplation and a prolific opportunity for co-creation of your higher goals... further amplified by the energetic anions of the Solar Flare.

In the present energy on the planet massive concentrates of impassioned negativity are being released. Many have felt dis-empowered, disenfranchised, disillusioned and have vented this repression in torrential rage. For some well being is fragmented. We tell you that this negativity has projected enormous clouds of dark thought-forms that can affect everyone, even those of you who are in more isolated, protective areas. This negativity is amplified, in a manner of speaking by the current astrological settings, and the misunderstandings within the Mercury retrograde. Keep in mind that in the law of natural attraction, negativity begets more negativity. Do you not see this all around you? It is imperative then that those of light of mastery stand firm in positive projection.

And even those of positive force, those resisting expressions of overt negativity, must be aware that more passive forms of negativity such as depression and fear are also amplified by these energies and thought-forms. Fear and depression are often more subtle and pass through guarded mental gates undetected....unrecognized as being equally negative. Fear and depression fissure the aura, and open it to attachment. That is why many of you are feeling depressed and doubtful in this energy, and that is exacerbated when the highly present negative energies attaches to an open aura. Many of you are feeling doubt, lethargy, apathy, even self condemnation in this dense energy. It as though for some, a wet blanket has covered you, dampening the fires of your resistance. Anxiety, depression, fears of spreading pandemic disease, fears of war can be just as weakening and disruptive to the Auric field as hatred, violence and unremitting anger. When good people allow their light of positive projection to be dimmed in disillusion, apathy, lethargy or depression, the world becomes a bit darker.

This will soon be lifted somewhat, but this energy will in the not too distant future re-emerge and will present itself again through the remaining months of 2014 and indeed will intensify somewhat in portions of 2015. And although this energy is difficult, it has purpose...and yet within this energy of seeming madness, there are purposed insertions of amplified benevolent frequencies allowing extraordinary opportunities for deep introspection, release and recharge. Within the coming eclipse phases there are opportunities of manifesting higher intent. By maintaining balance there are windows of great uplift & remarkable psychic clarity....and one of the most powerful occurrences this is on the Solar Eclipse of October 23rd.

Dear Humans, on the Solar Eclipse of October 23rd, a succinct wave of seeded, coded energy will be emitted in the eclipsical aperture, and this can not only be received, it can and should be benevolently utilized. Dear Ones, this eclipse is absolutely teeming with Divine Life Force, purposed coding and can allow you to revitalize and recharge. Indeed, a recharging is important at this juncture within the rather chaotic astrological energy. Take time to meditate, to focus on your intent during the active phase of this eclipse. And although your astronomers define this solar event as a 'partial eclipse' of the sun in terms of shadowing, its energy is enormous, and it projects a seeded-coded divine frequency globally, whether visible or not from one's habitual point of the planet. It is erroneous to assume that the degree of

shadowing correlates to the magnitude of energy projection during an eclipse. This eclipse, and the eclipsical portal phases of 2015, are far more potent than any of recent times.

Masters, take time to meditate, to pray, to focus on your goals on the extraordinary eclipse phase. What we tell you is that the life force, the coherent 'mana' of manifestation, is greater during the aperture of eclipses. Use this time to co-create your life and your world. We tell you a great truth, and that is that prayer is more powerful at this time; visioning is embellished with units of consciousness.

Solar Eclipses have many attributes that were understood by more advanced societies of your past, including Atlantis, Lemuria and Rama. We will discuss these in more detail further in this channel. But we will mention briefly that the light, frequencies & codes emitted during the hours before and after an eclipse have myriad succinct energizing attributes that are beneficial to the physical and etheric bodies of humanity and to the crystalline mineralogical strata & structures of the planet.

Those of you that utilize Phi Crystals and Quartz will find that these can be potentially charged with a unique life-energy force, if they are placed in sunlight during the eclipse phase and the visible eclipse phase will project this unique life force 2 hours prior to and approximately 1 hour after the maximum phase of the eclipse. However, it is important again to note and emphatically clarify, that the cosmic aspects of an eclipse event is not limited to its visibility or its visible spectra of light projection. The alignment, gravitational & torsion effects, the condensed streaming of Akash combined with the coded template of divine patterning are extraordinary potent effects of the dimensional eclipse aperture that occur globally, on every part of the earth and omni-earthplane. The benevolent force occurs across all portions of the global sphere, in light or dark skies.

Masters, astrology in its correct application is one of gravitational and electromagnetic waves that influence the human body physical and the etheric bodies of the mental and emotional matrix. It is real, it is not folklore. We are not speaking about horoscopes, rather about very real waves of energy, that are teeming with frequencies, light and colors that effect you by induction and federate patterns. These patterns are vibrations that absolutely will influence, you whether or not you accept that they are substantive veritable forces. However no influence is greater than the power of will. But by being aware of the influential vibratory patterns you can more effectively work with and not against the patterns. Accordingly opportunities can be understood and thus seized, and pitfalls can be wisely avoided. Do you understand?

In the New Earth, the Crystalline Grid has taken predominance over the magnetic grid, and this in kind influences both gravities of planets & stars as well as the interpretation of Light. And a force of influence that plays into this energetic collage is that of Divine Thought. There are patterns of influence from the collective Divine Aspect of Humanity and that termed Universal Mind that are injecting specific patterns through the Crystalline Grid into the Earth-plane at apertures formed in phases of eclipses, solstices and equinoxes.

The Eclipse will occur simultaneously across the planet, but the local times of the eclipse will vary. The aperture of maximum energy will be from 2 hours before and 1 hour after eclipse maximum for meditation and optimal focal intent toward co-creative visioning.

(Speaking to James Tyberonn) We then ask that the channel mark, denote & share the times of solar maximum to be optimally utilized by those of high intent. We add that a prayer, a vision conducted in focus during this eclipsical maximum timing will be greatly amplified, akin, in a simplistic analogy to 100X fold in comparison to what might be considered as an average light/code output in a normal solar phase.

Eclipses alter the Earth's Gravity and planetary Torsion fields during maximum phase. This factual effect also thins the dimensional veil and alters time, actually halting linear time for an instant. In the maximum ecliptical phase, conscious 'life force units' (Akash) are streamed into our earthplane, and these units of life force vitally enables 'theta' meditative focal intent to gain tremendous momentum in the process of creating ones higher intent into manifest experiential reality.

The Current Pattern of Madness

As we have stated , you are currently in a unique timing in which planetary influences have combined with cosmic forces that are not normally associated to astrological gravities to create a unique and succinctly intense purging in the paradigm of the New Earth. That termed the shadow, the darkside is in a temporal free-flow for a peculiar period of frequencial time to bring to the surface repression and frustrations, whether justified or not, to be confronted, viewed and dealt with in the crucible of human experience and manifest reality. That which was hidden or repressed is being percolated to the top. Past transgressions and unresolved conflicts that may have been hidden will surface in this time for facing and responsibly clearing. It is a time of misunderstanding, of overreaction and illusion.

It is an energy underscored by extremes in expression of repression, a backlash of frustrations that may be revealed in a squeeze of untoward, even inappropriate venting in releasing that which was in 'shadow'.

Now, the astro- intensity of the present will remain high, but what occurs in October will allow a necessary venting, somewhat of a temporary pressure release within the caldron of chaos that is presently ongoing. As we have previously shared with you, the nodes of solstices and equinoxes are also programmable. The eclipses that will occur in October 2014 are highly coded....much more so than any you have experienced in the recent past. Such programming will continue in order to format the 2038 Return of Light. There are Laws of Physics and indeed scientific attributes to eclipses that are not yet recognized or fully realized in your current academia. Your science disregards the sacred, and the sacred yet omits the scientific. So we say again that each of you should make a concerted effort to mark dedicated time on the dates of these eclipses to go deep inside, to pray to project clear intent.

You will discover an extraordinary opportunity to experience higher realities (and to manifest your own) . You will find dream states are far more lucid, and an opportunity to resolve personal issues is afforded. But again we say it is imperative that dedicated time be allotted.

Some of you will accept these truths more readily than others, because what we share was understood in Atlantis, within 'Scientist-Priests' of the Law of One....and many of you, including the channel are part of the Law of One Soul-Group. As your Edgar Cayce stated, and we emphasize, the Law of One soul-group of Poseida (Atlantis) achieved the highest state of spiritual vibration ever achieved on the post duality realm of the earth-plane. Higher than Mu, higher than Rama, albeit the Mu-Rama phases consisted of souls that were very much a part of the Law of One.

James Tyberonn: Can you speak in depth about the eclipses of October, and how these can be optimally utilized?

Archangel Metatron: Indeed. Eclipses are apertures that combine light, planetary frequencies, geo-gravities and collective thought. Eclipses offer a unique pallet for both Divine Thought and higher vibrations of Human Collective thought to be imprinted. Now, a lunar eclipse can only occur on a full moon, and a solar eclipse can only occur on a new moon. Both provide added potency to the eclipse.

Eclipses are often viewed by humanity as singular events, but we would tell you otherwise....when lunar and solar eclipses are in direct linear sequence, as are taking place in the present (October 8th & 23rd-2014), a more amplified field is formed in a greater concentration of energy.

Linear eclipses (within 15 days) therefore have a greatly magnified intensity. A symbiotic interweave of the lunar and solar vibrational signatures is formed that is synergistic in effect....both are amplified. In this collaboration any form of solar eclipse is tandemly magnified, whether partial, annual or total into a mega effect with all the effects of the total lunar eclipse, and vice versa. Meaning that if the lunar is total and is in linear sequence to a solar eclipse that is partial, the tandem duo result is a mega energy that amplifies both in 'Dual Totality' effect.

Eclipses were known by more advanced societies as extremely significant events that permeated the dimensional fabric of reality within the earth-plane.

The Atlanteans referred to them as infinity points, because for the period of the eclipse, linear -time stops for a brief interlude of infinity. (The word 'eclipse' comes from the Atlantean language and was interred into the language of ancient Greece, meaning to conceal or 'cease to exist'.) Eclipses uniquely alter the wavelengths of light and effect gravity. Gravitational anomalies as well as torsion effects occur during eclipses. These are speculated in your current science as the Allias and Saxi effects.

Metatron speaking directly to James Tyberonn : We will speak more in future channels about the torsion & gravitational effects ongoing on the planet, and their far reaching effects. As Tyberonn of the Pleiades and of Atlantis, you & others of the Scientific Priesthood - Atla-Ra, indeed worked with these energies and understood the gravitational anomalies that occur during eclipses in terms of their potent influence on the planet and what is termed power-nodes. For eclipses offer energies that have myriad utility. In this sense, the mega tandem eclipses of 2014 and 2015 are also mechanisms of the ongoing planetary up-shift. In Atlantis eclipses were recognized not only as catalyst, but also highly utilized as succinct sources of energy. Energy that could be harnessed, stored, and amplified by redirecting into crystalline capacitors!

Eclipses emit a 'percussive' energy wave of coded coherency that permeates the earth and affects humanity. Coherency opens the pineal and elicits a specific response from both the cells of the human body physical and the energy construct of the etheric body. Eclipses also empower and further activate telluric energies such as Leylines and Pownodes. We will speak on this in greater details in a separate sharing.

In a manner of speaking time as you know it is altered during the phase of eclipses, especially when both a lunar and solar occur within a relative proximity to apaxial points of solstices and equinoxes. This is taking place now, and while it creates intensities, it also opens extraordinary 'dimensional doorways' of consciousness. Dream states are more lucid in these rare phases, and altered states within waking consciousness are also differentiated. The pulse of thought, of life force is varied in subtle but very meaningful ways.

Windows of reality are opened, horizons of beingness are extended. Space-Time is briefly changed. Higher states of 'Eternal Now' simultaneous time are enhanced, allowing for a truly embellished phase of multidimensional clarity.

You are aware that 'sacred sites' are planetary powernodes within vectors on the earth embellished with a greater concentration of life force units... (Also referred to as Adamantine or Akashic Essence). Eclipses emit for a period of time a concentrated wave-stream of creative life force particulate in the same general sense, albeit in a much different stream. This ecliptic energy bombardment can be seeded with inserts of 'Divine' pattern thought as well as the higher intent of humanity on both the conscious & unconscious level. This energy will affect all of you on some level, to varying degrees whether or not you realize it. But how you utilize it, whether consciously or unconsciously will depend on your focus, knowledge and light quotient. Part of what is happening now and will happen again in the collated energy of the duo of mega-eclipses of 2015 will be the spontaneous release of the ongoing overcharged emotional states.

Unique characteristic feeling-tones are embedded by humanity into the resonant vibratory field of an eclipse. Emotional tensions, such as the extremes provoked by the current 'energy cocktail' on the planet can be more easily brought back into a more normalized level. Eclipses carry an energy that can stabilize hormonal imbalances, in much the same manner that the electromagnetism of certain latitudes and altitude elevations provide balance to the human body and emotions.

Question from J Tyberonn: Are you saying that eclipses effect human biology and emotional states?

Archangel Metatron: Yes ! Human biology and indeed the mental and emotional fields are absolutely influenced by the environ. Your environment includes far more than you consciously perceive, including gravity waves, light frequencies, ionic ratios and mineralogical vibrations of the planet. Your physical body has a cellular consciousness operating biologically, so that hormonal and bio-chemical balances are directly affected by the light format & matrix of the planet. Eclipses have an impact because they project differentiated light, alter gravity and are coded with conscious life force that enables greater serenity. Accordingly, a release as well as re-calibration can take place.

Simply put, the cells of your body respond to the embellished light & life force in somewhat the same manner that plants in shadow heliotropically seek to grow toward sunlight. The effect however, is much more than skin deep, not simply biological, it aligns the integral beingness and offers a prolific window into higher self, a window that is unique and specific to the period of human evolution and light quotient.

The eclipses of the present (October 2014) are also frequencially connected to the two Total Eclipses of March 20 and April 4 in 2015. (And the 2014 & 2015 tandem eclipsical phases are harmonically connected non-linearly to the seven eclipses occurring in the hallowed 'Year 2038'.

Coded Templates

The myriad effects are particularly conducive to both receiving and enabling codes. And that is why eclipses have always been apertures in which energetic frequencies can be entrained within their structure. The conjunct (direct) alignment of earth, moon and sun that enables eclipses can occur between four and seven times in each year. The more eclipses, the greater the energy coding in any given year. The next occurrence of 7 eclipses is in 2038, and that is indeed significant. But what is happening in your present is

also extremely important in preparation for the changes.

Both the October 8th Total Lunar Eclipse on the full moon and the Mega Solar Eclipse of October 23rd are in a very unusual Mercury retrograde affording extraordinarily enhanced inner-psychic vision that will extend thru the October 23rd Solar Eclipse. But it is important to note that the level of clarity as opposed to the level of delusory misinterpretation of this visionary opportunity will depend on one's individual auric integrity, state of balance & ability to remain 'grounded'. It is very important for you to realize the importance of balance, otherwise the energies currently on the planet (which will persist through March of 2015), can be difficult to manage, much less optimally utilize. Attention and understand is required.

Otherwise this can be a time of regression into depression and apathy. Utilized wisely these energies can be vast springboards for clarity, spiritual growth and co creation.

Keep in mind that some of the lesser realized mechanisms of auric imbalance are zealotry, ego aggrandizement, chronic depression and emotional imbalance (extremes). Keeping ones feet on the ground is essential for clarity, and there are many who intend well in metaphysics that loft too high and vibrate too fast. Such imbalance results in a form of auric 'short-circuitry'. There is no anchored grounding; clarity is lost in the hallucinatory syndrome of 'rose colored glasses', in what is termed in your vernacular as 'airy-fairy' delusion. Learning to maintain balance and functional effectively in 3d is therefore a requisite of auric maintenance for enabling clarity in higher dimension. A fissured aura will not serve; rather an integral aura in correct circuitry is ever the requisite springboard for ascending into higher realm. (This is taught in the Metatronic Keys.)

Accordingly those currently in delusion will experience more delusion; those in clarity will experience extraordinary clarity. That is why the ancients always considered Equinoxes, solstices and Eclipses as Sacred Events. Even in your current times many religions still consider these events as Holy Days....and aptly so.

Before closing, we also wish to mention that light received from the moon is reflective, whereas light from the sun is direct. During eclipses these differences are key factors.

The moonlight and patterns of the lunar scope operate more in altered realms and dreamscape vision. Many of you have been reflective in the phase of the Lunar Eclipse of October 8th, whether or not in was a conscious reflection...such is the power of the lunar aperture.

The sunlight and patterns of solar frequencies influence one more in the scope of life force and co creatorship of utilizing the embellished coherent energies to manifest. We urge you on October 23rd to break free of any anxiety, and focus on creating your life. Doing so, praying, focusing on intent will absolutely have more fertile results than you may realize. The abundance of life force units that are emitted & globally disseminated during an eclipse makes this so...and we assure you this is an unrealized fact in your current times, but one that was understood in ancient phases of greater knowledge.

In the tandem collage of duo-eclipses, both should be understood in order to plan activity accordingly. Reflect and contemplate in the energy of the Lunar and utilize your reflections by focusing on any requisite changes or high intent to be manifest in the Solar Eclipse.

The Crystalline Grid serves as the focal lens to allow the higher codes to be embedded in the 12 dimensions of the New Earth Matrix, and thus received by induction thru the human universal mind of which all of you are so intricately connected. In the New Earth, the Crystalline Grid has taken predominance over the magnetic grid, and this in kind influences both gravities of planets & stars as well as the interpretation of Light. And a force of influence that plays into this energetic collage is that of Divine Thought.

There are patterns of influence from the collective Divine Aspect of Humanity and that termed Universal

Mind that are injecting specific patterns through the Crystalline Grid into the Earthplane at apertures formed in phases of eclipses, solstices and equinoxes. It is a code embedded on light beyond light, spectra within a spectra. We will share with you in a later channel how this works on solstices and equinoxes. This has also been known in the past. It is why many of your Druidic Sites were aligned to receive the specialized rays of sunlight on these solstice & equinox in the stone circles and stone chambers.

Masters, we say again ... take time to meditate, to pray, to focus on your goals on the extraordinary eclipse phase. What we tell you is that the life force, the coherent 'manna' of manifestation is greater during the aperture of eclipses. Use this time to co create your life and your world.

The truths we share here in regard to the nature of eclipses via the channel source of Tyberonn are perhaps representative of new information for you in the present, for it is information not taught in your main stream academia, although in generations to come this will be recognized and understood. Yet many of you will intuitively recognize the veracity, for we assure you what is shared are Truths that have been known in past societies. This information is received in the present window of exceptional intuitive/psychic clarity, and what we share will have applications that are particularly applicable in 2015 and beyond. Seize the day !

I am Metatron, and I share with you these Truths. You are beloved.

And So it is...and it is So
