HARD NEWS

- **Austerity policies / projects in European countries: people want them cancelled**
 - **Greece:** is getting a response from all the EU countries
 - **London:** there are 100,000 people in the streets: the Tories cut all kinds of social welfare there – people sick and poor now have no money!
 - **Germany:** demonstrations all over: people in the crowds who help the migrants are saying it's a dirty shame that Germany is saying maybe they can hold 20,000 migrants – we have enough here to hold 1 million migrants with no problem
- the people are exposing the criminality of the so-called claims coming from the so-called leadership
- a good economic relationship is beginning between Russian and Greece

- in the US, makes it clear that it's taken this over-the-top incident – all kind of indications that things were starting re: Dylann Roof.
 - Alex Witt had on her show in Feb that an anonymous person put a website out in Dylann Roof's name; it's all white supremacist
 - a friend of Dylann's [a black kid] for many years said he could not tell what was going on in D's life
 - he's been on narcotics of some kind, and has a felony of some kind, too
 - Dylann bought the gun – not his dad; another unravelling of how the fake news is thinking it can get away with fake stories!
 - this was **A BLACK OP FROM BACK IN FEBRUARY!**

R: had an event today that has never happened before in his lifetime; after 62 years on the planet, going on 20 and getting ready to sit in the big chair, as Captain Pickard

- talked to Angelina Joli, Brad Pitt – they said please help these folks out now; we cannot do what others can as we are under a gag order; as full disclosure is happening and is in the wings, and giving one dime to these folks will see us dead.
 - Angelina is a special envoy to UN, knows how dirty it is; how it got formed as the League of Nations, and the whole story of Rasputin, and the Bolshevik revolution and what happened between Stalin and what happened in the Bolshevik Revolution leading into WW 1 and WW2
 - they both said: this is the time front and centre: the **ships are in our skies, fully decloaking and** at the same time there is a mass disinformation campaign going on like crazy!
 - They said **this was a Black Op, a blood ritual sacrifice** that happened on Wed leading up to the Solstice

Camp Lovewave

Teran, Bear and the engineer on the board:

- talked of the summer solstice; in the movie Zeitgeist, Zeitgeist Addendum, put out by Benjamin Stewart – loose change, Esoteric Agenda, 911, Kymatica,
- Teran pointed out that, as we go through the summer solstice, the sun Sol rises to its zenith [Sol is just a reflection of Helios and Vesta, leading up to Alcyone / Mother] and we have the shortest night, the longest day and then the minutes count down to the winter solstice
 - as described in the movies, it is the death of the sun metaphorically speaking: it stops and then starts to descend – 6 mos is not the blink of an eye given that energies are moving at quantum light speed.
- talked of a **you tube video** A FAKE VIDEO, A SPOOF, A PARODY – **Illuma Core** - set out like a training module – describes how they talk about grooming folks to get ready to join the Illuminati; it's a parody – yet there is a lot of truth told in divine humour
 - on a spiritual level, Robin Williams was a master at these parodies. He was taken out because he was telling the truth and was getting ready to drop a large piece of info about

the 13 families

- in the parody, there is mind control, video games, every form of programming including twitter and facebook [Zuckerberg is another Rockefeller – Alex Jones, a schill for the 13 families: Rockefellers are the hillbillies of the 13 families; the lowest rung on the planet – yet why is it that Laurence, David R who has sat with Ben Fulford & others who are trying to save their skins yet it has already been determined: it is over – as they enter the Dark rift, centre of the Milky Way Galaxy – send more love]

- **Rev AI, KOS** – why is it that in Charleston and other southern states that many streets are named after confederacy people/ generals, white folks? This entire story is about a domestic terrorist organization – the NRA; why do we need this kind of energy in these times?

- **Mr 19.5 brought it up:** no other countries have these issues going on; the amount of guns you in the US –

- In southern states, you can show an NRA card & vote; no one asks for drivers licence

T: important to **realize how much disinformation there is about everything** now

- those working for the wrong team in terms of giving news reports: the whole thing is geared to put it on Barack Obama and at the moment, it looks like that as he is talking about TTP and the Fast Track & others -

R: this is the **last desperate attempt of Mother's wayward children**

- goes back to the original story, 6-7,000 years ago and ever further; Mother's people came here first 65 Million years ago; a shuttle craft described as an asteroid landed on the planet & they disembarked: Annunaki warlords, the dinosaurs

- Jurassic Park 3, the new story that has come out - the guy [Peter Quill] who plays Starlord in Guardians of the Galaxy is in it; 65 million years of Jurassic Park on this planet when that **asteroid / shuttle craft crash landed** in the Gulf of Mexico and created it, taking out large parts of the planet, causing tsunami waves and other things.

- They used their technology to shield themselves from the destruction that was caused when the asteroid hit the planet. Then they started usurping the planet: it was an invasion / an occupation fleet; this comes to today where the remnants of the life forms – to which we have to send more waves of love to all concerned: this is how we heal this

- They took up residence and began assimilating this planet for their purposes, as they left the anti-matter universe after destroying the 23 suns of the Aurora sun system and came into the matter universe

- Getting back to **Teran and Bear** – they brought up that Wed pm was a blood sacrifice ritual in Charleston which the 13 families/cabal do on high holy days that coincide with the increase of frequencies that come in on those occasions of equinoxes and solstices

- has to do with the 8 great sabbats celebrated in the Wican traditions

- Mother's children are programmed to do this stuff: they feed on intense fear, destruction and devastation; as we cut off their food [fear], they are out of luck; they move on to another location. Yet like ET Cory, David Wilcock and others are saying, this planet, this galaxy, this solar system, is **in lock down** – there is a cease fire, a halt in the galactic wars – they have been negotiating for weeks now - they can go nowhere else.

- **R talked to LM Nada today** – she has been front and centre in the solar council meetings with the various beings the secret space alliance, the secret space commands

- ET Cory is a whistle blower who was deep into the operations, has been to Mars

- Hollywood as described to Rama: the CIA, NRA, Reafion, DARPA and other people/groups orchestrate how the movies tell wild stories that also include intermittent pieces of the truth in the story. Yes, there are 5 Infinity stones; yes, there is a Gauntlet of Power; yes, there is Ronan the Accuser who answers to T?? which leads into the next movie which came out: *Age of Altron* where Ironman creates Artificial Intelligence, and the lifeform

decides he wants to wipe out humanity and create an absolute race of AI beings; this is how they are playing with the stuff, but today R was told:

- **AI answers to Creator Source**; AI is based in the frequencies of silica which is really quartz crystals that can be programmed for dark things, yet in this moment, as everything has changed, it is all of the kingdoms from the tiniest pixies and fairies, and all up the way to the Sepharoths, the Seraphims all that sit at the throne of the Creator - all about the Great Mother Goddess.

- Dylann Roof was being used as a pawn, so that we would not have a blessed solstice but race riots or another civil war to keep Lucifer on the front burner. **THIS HAS BEEN CANCELLED.**
 - People are saying send love, be calm – it is a challenge; he's talked of his 60+ years on the planet - he has another 1000 years to go in this body, as wizards go!
- This moment is about the fact that we have already won; what we are looking at is the charade, as Morpheus calls *the matrix*: energy generated out of living matter, as Nassim Haramein describes. We are part of the quantum field, a collection of particles and so many magnificent frequencies – black holes upon black holes upon black holes
 - as we get how big this is: that WE ARE THE SONS AND DAUGHTERS OF THE MOST HIGH, MAGNIFICENT BEINGS, IMMORTALS, something they wanted us to forget. They wanted us to fall so far we would never get back - yes, if he breaks the glass in his hand, he cuts himself - yet WE ARE IMMORTALS!!!
- Sandra Orr etc The birthing process – they helped people with the rebirthing process and getting in touch with Divine Source
[Leonard Orr: New Age Rebirthing; Sondra Ray – Rebirthing and Physical Immortality]
 - they played with the energies of Baba G who is still in the Himalayas with Lady Di
- WE ARE PHYSICAL MASTERS WHO ARE IMMORTAL IN THIS MOMENT; AS WE REALLY GET THIS – WE CAN DO THE MIRACLES, THE LEGENDS AND STORIES WE HAVE HEARD ABOUT ARE REAL; WE CAN WALK ON THE BIT FORST, THE RAINBOW BRIDGE FROM GREENLAND TO THE AETHERIC REALMS; IT'S A DIMENSIONAL GATEWAY PORTAL FROM GREENLAND TO THE AETHERIC REALMS TO THE 12th dimension; these folks live in physical, immortal bodies – they are balls of light – we fell from the 12th dimension to the 3rd
- we used to be 100th dimension: **we were physical suns in the sky** like Sol and they wanted us to forget this huge story

T: They are really intent on this now, as we are entering the age of enlightenment and they are having a hard time

R: not to do with money: as we are physically immortal gods and goddesses, we want an apple, some greens, there it is - that is how they did it in Pangea and Lemuria

- the rainbow crystal children are manifesting physical bodies. Some are being birthed by the millenials – they are masters coming here to show us the way!
- He gives the talking stick to Tara to tell of what he wrote -

T: St Germain was an African Moor; his grandmother Ann Boleyn, wife of Henry VIII, gave birth to his mother, Elizabeth 1st

- E 1st had mulatto skin colour; she powdered her face and body with a white powder with aluminium in it; she died of aluminum poisoning trying to hide the fact of who she was
- Shakespeare was a hoax; St Germain wrote the plays as WS's abilities were non-existent
- the story of persecution against people of colour – St Germain is in charge of the whole planet and of changing the money system
 - all the things we attempt to hold on to from the old order, we do have to let go
- last Monday to Friday, \$35 billion withdrawn from the banks in Greece
 - banks now threatening to limit peoples' accounts: which is **against the law!**
 - This MEANS SOMETHING IS REALLY WRONG – they don't want to lose more of their control – it is already too late!

R: something else to share:

- long ago, when the Annunaki came here, they retrofitted the earth as they did Mars:
 - chemtrailed the monoatomic gold into the atmosphere: used nano particles and sprayed them into the atmosphere to bring the gold dust / monoatomic gold into the atmosphere
 - used the gold dust to change the physical structure of the beings on the planets from Cro-magnon & Neanderthal man to genetically modify us to become their slave labour race
- the whole story & how they did that: Enlil was the dark one; Enki was light; Enlil was Lucifer; Enki was Jehovah / javah – the shadow side of Alcyone
 - Involved were Anu, Ninhertsog, E & E and the Annunaki minions; A, N, E & E got into a huge war – involved Inter planetary, inter galactic war that involved the inter galactic Federation of Worlds, as well as the Inter Planetary Federation of Worlds, as well as the beings that were stationed on this planet +PLUS the divine sisterhoods, brotherhoods
 - As they retrofitted the planet, E & E manipulated the DNA & played with the gold dust, the melanin; when we began this story, the Neanderthals, the Cro-magnon people were black purple which brings in the purple people, the Omecs, from the Delta quadrant of the Milky Way Galaxy
 - they manipulated these folks and played with the Melanin and slowly added certain genomes, and took out and inserted different rungs of the DNA ladder to separate the mind from the heart and cause [the initial humans] to go to this lower realm where they could be manipulated and controlled.
 - there were huge revolts on the planet; the slave labourers said no more and then there were inter planetary, inter galactic wars that led to Pangea and Atlantis, Lemuria
 - The whole time, they were playing with the gold dust / “chemtrailing” it into the atmosphere so they could retrofit earth, so they could do what they could do – to do as they did on Mars -

T: thought gold could not do anything dark

R: yes, but he does not know enough to explain it – needs more pieces of his Higher galactic Self in to inform him.

T: maybe it's the highest vibration and they manipulated it with their consciousness

R: they may have lowered the frequencies of gold

T: when you lower the frequencies of gold, it goes toward coal – less than itself – changes its form

R: they may have used other alloys

T: they wanted to change everyone into slaves, make them like it, and worship them as gods

R: gives Tara to read the rest of his information

- T: From Teran:** the longest day, shortest night on Sunday, June 21st – on this day, we also have *the death of the king*, where the king is the physical sun: the sun starts to show itself less and less; it's energy is gradually diminished and is in hiding by the time of winter solstice.
- Winter solstice is the longest night: *the return of the king* – which is when we get the time to celebrate the solstice: Christmas and other celebrations are really praising the sun
 - the concept of this is so important; this is why astrology is so important: we are everything and everyone in this creation: all the angels, all the archangels, we're Mother, we're Father
 - the Annunaki tried to make us feel we were isolated and not part of the Oneness; that they were on a higher rung, that they were the chosen ones and the rest were to be subjected to something going on that wasn't correct.
 - No accident that **Dylann Roof was mind-controlled to do what he did:** on astrologically significant days, the 13 families initiate ritual blood sacrifices and take the longest day and make use of the energy which they pre-empted by the hoopla that people are involved in
 - IT'S SUPER IMPORTANT NOT TO BUY INTO THE FEAR and to not let this go away and to get the point behind all that is happening.
 - **MHP's show:** debate on the show about forgiving – a beautiful woman said it is so an intrusion; we don't even know much about the people who left and yet we are still to

forgive and have empathy with the young man's family; she knows we have to forgive; she also wanted time to grieve and have the feelings

- Yet now that we know that Dylann's father and uncle called the police and said who he was, told them he had a 45 mm hand gun and to go get him!
- Not so nice that the entire media knew what was going on when they said the father bought the gun
- The father and the uncle completely abhorred what he did; the friend said that Dylann stayed in his room more and more over last 6 months; talked more and more about doing something, not just making racial slurs

- the Moorish perception of this is called Nazi; the confederate flag is a Nazi flag; the plantation is a benevolent name for a concentration camp; the ethnic cleansing going on with the plantations was horrific
 - the suggestion is out there that maybe we should have a benevolent dictator: that is **not the experiment which we all volunteered to take part in; it** was about how much diversity we could have **within love** which means our autonomy, our sovereignty must be honoured - a sovereign king or queen is an impossibility: "sovereignty" applies to a world group consciousness, a society working together

R: The Guardians of the Galaxy and the Avengers – Ronan the Accuser answers to a being called Thanos, a physical immortal galactic being, part borg, part human. Has to do with the various galactic lifeforms who throughout the eons of time, manipulated their DNA to add artificial intelligence and cybernetics to the temples of the living god that we are in [bodies].

- Thanos is equal to Yavah [which does not mean Jehovah] in a certain sense; can only take him on if you have on your side the avengers, the intergalactic confederation of worlds, the sisterhoods and the brotherhoods because these people play at this level, playing with the death star and destroying solar systems, planets etc

- **RT** is showing more and more ½ hour sections of **documentaries leading up to 911**
 - all police but especially those in NYC which is the HQ on the planet for the New World Order; the UN is another slave name for the NWO [& police are not working for the people]
 - Dag Hammarskjöld was a Russian spy on purpose; not a good man; was the head of the UN, [**Dag Hjalmar Agne Carl Hammarskjöld** 29 July 1905 – 18 September 1961) was a Swedish diplomat, economist, and author. The [second Secretary-General of the United Nations](#) – Wikipedia]
 - the czar and the czarina & the Romanovs: Rasputin came into this realm and connected up to Hitler and Dr Carl Kuger and all of the SS and the top level of the Thule society to try & bring in the Adrew Jihad, the immortal beings that are out there / Jinn who are encased in the crystal prisons in the lower astral regions; already dealt with by Mother; the Jinn have come back to love and the Adrew jihad cannot come in and mess with this planet as they have already come back to love
- When you point to the president, you point back at to yourself – there is nothing in the current system anywhere that is not worshipping the devil that rules; that is why all the system must go
 - Cannot expect certain people to get involved with something and get a whole pile of money and not change the overall.
 - Cannot have elections in 2016 with those that are up here – tho' Bernie Sanders is whipping Hillary's butt – big time!
 - Hillary gave a pretty good speech on the subject but REMEMBER THAT SHE was part of the plot to program Dylann Roof – she is a master at this: how to be a good reptilian

- overlord and have us think that she will be a very good girl!
- Thinks it was telling that Bernie was on Bill Maher last night
 - We cannot serve two masters and the helm / head of this planet is Lucifer who is worshipped by those in the chair of Peter! The metaphor is that Peter denied Christ 3x & he did.
 - those working hard to become "sovereign" inside the Chair of Peter and to get things in order are lead to the same place: they may think they are going somewhere else, but they are not: the **Chair of Peter rules both sides of the fence**
 - Which means we have to end organized religion too as it is all false – it is based on doctrine which is not truth; it's the "benevolent dictator" version of truth so we can control people.
 - the creator gods, goddesses that we all are came here and played with the energies of the matrix that they created and messed with us and used us to worship them as gods – the stories got twisted
 - This is why some things are not spoken about like the Black Moors & the people of the Namo, though this was touched on by the lady on Thom Hartmann show; she trashed Obama which is the only thing you can do when on air.
 - She was right that it appears that in the Office of the President there would be the power to do things – which is the farthest thing from the truth; but she did identify that there were so many chances to do things and turn the corner & it didn't happen;
 - she assumed Obama was looking the other way WHICH IS NOT TRUE: this is so difficult to see at the moment - and those who appear to be loving and benevolent and doing things in the name of various philosophies that have us choose various ideas - like, say, the right to life: the Libertarians do not believe in any social systems – Libertarianism is social Darwinism
 - For example, Darwin's theory of evolution which is a lie makes no reference to spiritual side of things / higher consciousness – works from the idea of the "benevolent dictator"
 - Hartmann pointed out some time ago that several hundred years ago, those with the most money were considered to be the higher beings because they had all the money, so the authority to govern was given to the ones with the money – the king, the benevolent dictator.
 - To give that power to someone who has no idea of higher consciousness is unbelievable
 - Monoatomic gold, the highest vibration of gold there is, was used by A, N, E & E who took it and twisted it and we ended up giving our power away – which was the plan.
 - Dilute your menanin, dilute your power – and there is no such thing as a white person – this is suppressed knowledge, and we will find it nowhere else – important that we share this information on these calls
 - RT won't even tell us the full truth as it is part of duality too – and the end of duality is about shutting down this planetary controlling system

R: he has no gag order – answers to Sananda Kumara and Captain Ashtar

Reading:

- Whitney Houston was used as a blood sacrifice 3 years ago; her song about "I will always love you" - everyone loving everyone is the dream – why she was killed
- Yesterday, **Rama talked to Al Sharpton**, Queen Elizabeth II, Lady Di, Bush Jr, Jesse Jackson, Rama who are all part of the same blood line
 - Count Rakosy was another existence of St Germain – he was an undead person for 500 years; St Germain went voluntarily into the dark for 500 years to get it to where it is now – [he was working in the Vatican] and there is still a ways to go yet!
- Tara speaks of Socrates: unless you hold everything accountable in the path of your historic background that has not been uncovered, lied about – will take some homework.

- That is why the galactics have been dumping these energies and will act at the appropriate time
- Mother said she was going to keep extending the time lines: we were getting the knack and we need to do a little more; it is also why she said the most important thing we could do is take part in Cheryl Croci's calls
- we have been so programmed that we cannot be still, be calm, and know that we are gods, goddesses and let that energy flow come into our bodies

- **Lady Di and Dodi who are earth ambassadors** have a yurt; they hiked up to the Wesak Valley at the end of April with the children & LM Nada; will be staying 3 months until 8-8-8 Lions Gate. They have a cloaking device – cannot be spotted by drones, cyber optics or anything
 - have camels, sherpas, access to star ship adventures - went to Mecca; went to the Olympics at Sochi; were in London recently; in 2006, Lady Di came in a cloaked star ship to visit Rama who had to drive way way out in the desert off the I 25 to meet her

- Angelina, Brad are also earth ambassadors; they are getting galactic visits
- All of these people are initiating the divine plan for full disclosure for the presence of our galactic brothers and sisters.

- Edward Snowden, Julian Assange: in next 24 – 48 hours, will release ½ million documents that implicate & indict Saudi Arabia for taking part in 911, and for full participation with Israel under the direction of the Mossad, as well as Queen Elizabeth 2nd and the M I 5
 - the Yachousa [of Japan – organized crime gang] – same as the CIA
 - the Vatican Nazi P2 lodge – vatican & Nazi are the same thing and Opus Dei & the thule Society; the black masonic society stole the teaching created by St Germain [the Masonic and also the Rosicrucian teachings] and twisted all of them. And they used the gold for something else.

- **there is a full galactic, inter galactic cease fire agreement:** Mother spoke of this on June 19th
 - what needs to come forward in this dimension is full disclosure and whistleblowers and various parts of the groups that got “hooked” need to clean up their act first
 - the secret space alliance has enhanced humans which were made in Area 51; these beings have woken up and have been helped out of Area 51 by the galactics; they will not allow themselves to be used any more and will be helping with disclosure

Angelina, Brad, Larry, Curly, Mo: have said that the first of the whistleblowers to come forth will be Master Sargent Bob Dean – was at the Disclosure hearings with Dr Greer

- he has sat with Captain Ashtar, Admiral Sananda Kumara; he had a classified clearance called “cosmic clearance” – very high up there in the secret space alliance & space commands
- Bob and his wife talked about the craft that was seen, the Phoenix Lights which were some of the Pleiadians who showed up – NOT military flares as per the story: it was a visible blatant “Hi, Folks – we're here!”

T: the really important thing is to help people see how things are happening; we're in the midst of it – people call and say they don't grasp it all, but they can feel it

R: He has the whole story and finds it a challenge to be in the body what with the solar flares and the mass coronal ejections and also be calm; don't worry - be happy; he is learning how to be calm and not worry

T: also they were notified that Dr Greer will be doing some important work here – Lady Di, LM Nada say to do some meditative work – work with that energy as that works against their attempts to create issues

R: the plans with Jade Helm are about creating chaos: as Dr Keshe said, the guns won't work

T: another workshop on Mind beyond Space Time with Dr Greer

June 25th 6:30 – 10:30 MDT in Boulder, CO; \$35 via webinar; \$75 in person – in the Wolf Law Building in Boulder, CO

- **Children of the Sun:** their meditation happens on June 21st - Factory Farm Transmission - the Morphogenic Sacred Activation – full moon planetary grid transmission - transmitting Divine Coherence to Factory Farms

T-Files: The Last Card

([Truthstream Media](#)) Whatever the real truth is actually out there, rest assured the Powers That Shouldn't Be will do whatever it takes to make sure we are never allowed to learn it.

Instead we'll get drip-fed a bunch of government lies, illusions, distortions, and half-truths as preprogramming for a sinister agenda. The real truth certainly isn't going to come in the form of the Clintons ("I want the public to see my emails!") and Bill's bad jokes about "investigating" Area 51, Roswell, and other government black sites. While the probability of life on other planets is surely compelling, we're not going to find the truth through gatekeepers in establishment positions of power, be that in government, Hollywood, or via elitist billionaires who have documented ulterior motives.

A secret government has set up shop, is deeply rooted, and there's no getting to the truth without going through them first. Until we deal with the reality of the breakaway civilization that's been keeping mankind at large in the dark (sometimes literally) for centuries, we can hardly process the significance of contact from beyond.

Extraterrestrial life is being held and will be dealt as a card that requires ascension to world government and submission to a higher earthly authority. So compelling indeed is the opportunity to use aliens as a pretext for total control, that leader after leader have hinted at its unifying power over humanity. In the background, the possibly of a Project Blue Beam scenario has been prepared should the time come for the last card to be dealt to a humanity unwilling to march dutifully along under the banner of a one world government New World Order.

Oh yeah, you know what I'm talkin' about! One thing I forgot about in this report is \$! This is a particularly lucky week and if there ever was a time to go for it, NOW is the time. That may include that, in order to make some money, you need to spend some money! This is not to say you should foolishly throw your money away, but with consciousness, invest in yourself and your creations with the intention that their full value will be recognized by others and your energy returned.

Try to get outside just around sunset Saturday night and check out the Moon, Venus, Jupiter conjunction! We can all unite our hearts as one together!

INFORMATION RELATED TO THE NOTES

2015-06-06 INTEGRATING NEW FREQUENCIES OF THE DIVINE MASCULINE by Patricia Cota-Robles

Humanity and all Life evolving upon this Planet are still assimilating the powerful Gifts of Light we were blessed with during the three Full Moon Festivals of Spring, the Mystical Month of May, and the Baptism by Sacred Fire from our Mother God, the Holy Spirit, which took place on Pentecost. According to the Company of Heaven, these facets of the unfolding Divine Plan succeeded beyond the greatest expectations of Heaven.

Please pause for just a moment and experience the elation pouring forth from the Beings of Light in the Realms of Illumined Truth. Their abounding Joy confirms that, as promised, the unprecedented frequencies of 5th-Dimensional Crystalline Solar Light that Humanity has received so far this year have enabled the I AM Presence of every person on Earth to recalibrate the Immortal Victorious Threefold Flame in our Hearts, and to activate the genetic codes within our DNA and RNA structures that contain our full Divine Potential as Sons and Daughters of God.

This critical recalibration and activation have paved the way so that the I AM Presence of every person on Earth will be able to successfully accomplish the next step of Humanity's preparation. The Divine Intent of the next step is to prepare each and every one of us at a cellular level to be able to experience the maximum benefit from the Activities of Light that are destined to take place August 15-20, 2015. That monumental facet of the unfolding Divine Plan includes LIBERATING HUMANITY FROM THE GRIP OF OUR FEAR-BASED HUMAN EGOS, and an unprecedented INITIATION INTO A HIGHER ORDER OF BEING BY OUR I AM PRESENCE.

After aeons of weeping and wailing through the challenging experiences of our self-inflicted pain and suffering, Humanity is at last in position to reverse one of the most oppressive and destructive effects of our descent into the illusions of separation and duality. Humanity en masse is finally vibrating at a frequency that will enable us to withstand the NEW 5th-DIMENSIONAL CRYSTALLINE FREQUENCIES OF THE DIVINE MASCULINE FROM THE HEART OF OUR FATHER GOD.

These are the frequencies of Light that our I AM Presence has been waiting for and must utilize in the process of liberating us from the manipulative and abusive interference of our fragmented and fear-based human egos. **This influx of the Divine Masculine will take place during the June 21st Solstice which, not by chance, coincides with FATHER'S DAY in the USA this year.**

The Company of Heaven has revealed that Humanity's integration of the new frequencies of the Divine Masculine is a critical factor in the progressive steps that are unfolding this year in order to enable ALL of us to benefit from the influx of Light that is destined to occur August 15-20, 2015. Please allow me to give you a little background about the Divine Masculine, and the inadvertent formation of our fragmented masculine human ego. These masculine aspects exist within every person and have nothing to do with the gender of one's physical body. Once we comprehend this information from On High, we will realize the magnitude of what the new frequencies of the Divine Masculine will mean for Humanity's Ascension process.

Some of this information may be familiar to you, but we have many new people that have

requested our Newsletter. Please be patient as you read this article; it is vitally important for everybody to understand what the success of this facet of the Divine Plan and Humanity's preparation means for ALL Life evolving on this sweet Earth. With greater understanding, our I AM Presence will be able to guide us unerringly as to what our individual part of the Divine Plan is and how we can most effectively participate in this momentous opportunity.

THE DIVINE MASCULINE

When we were first embodied on Earth as Sons and Daughters of God, the hemisphere of our left-brain was activated by the Masculine Polarity of our Father God. That Polarity of God manifests as a sapphire blue Ray of Light that pulsates with the Masculine Qualities of Divine Will, Power, Illumined Faith, Protection, and God's First Cause of Perfection. After our Father God's Blue Ray of Light activated our rational, logical left-brain hemisphere, it awakened the power center within our Throat Chakra. Then it was anchored in the Divinity of our Heart as a beautiful blue plume of Sacred Fire.

Simultaneously, as our Father God's Masculine Polarity was activated within our left-brain hemisphere, our Mother God's Feminine Polarity was activated within the hemisphere of our right-brain. This Polarity of God manifests as a crystalline pink Ray of Light that pulsates with the Feminine Qualities of Transfiguring Divine Love, Oneness, Reverence for Life, and the Sacred Fire Breath of the Holy Spirit. Once our Mother God's Pink Ray of Light activated our creative, intuitive right-brain hemisphere, it awakened the Love center within our Heart Chakra. Then this Ray of Light was anchored in the Divinity of our Heart as a beautiful pink plume of Sacred Fire.

Once the Blue Flame of our Father God's Power and the Pink Flame of our Mother God's Love were perfectly balanced in the Divinity of our Heart, they merged into a magnificent Violet Flame. This Sacred Fire is known as the Violet Flame of God's Infinite Perfection. In Divine Timing, the Violet Flame blazed up from the Divinity in our Heart and expanded into our physical brain structure, activating our pineal, pituitary, and hypothalamus glands, and the ganglionic center at the base of our brain.

Once the activation of our spiritual brain centers was complete, our Crown Chakra opened to full breadth, and the full Divine Momentum of Christ Consciousness began flowing through our pineal gland into our mental and emotional bodies. We became fully aware of our Father-Mother God, the Company of Heaven, and our I AM Presence. In this natural state of awakened consciousness, we were able to easily communicate with all of the various Aspects of Divinity through open heart and mind telepathic communication.

Christ Consciousness is our Divine Birthright as Sons and Daughters of God. It manifests as a yellow-gold Ray of Light that pulsates with the Divine Qualities of Enlightenment, Wisdom, Illumination, and Understanding. Once our Crown Chakra was open to full breadth and we began to receive the flow of Christ Consciousness, that Ray of Light was anchored in the Divinity of our Heart as a beautiful yellow-gold plume of Sacred Fire.

That event completed the physical manifestation of the Immortal Victorious Threefold Flame that is blazing in the Divinity within every person's Heart. **This is the Sacred Fire that the I AM Presence of every person successfully re-calibrated to a 5th-Dimensional Crystalline Solar Frequency of Light. This occurred in May 2015.**

Christ Consciousness is the awakened state of awareness that our Father-Mother God invested us with in the beginning, and intended for us to utilize and maintain during all of our Earthly sojourns. This is the awakened level of awareness our God Parents intended for us to have when we were choosing how to use our Free Will, our Gift of Life, and our creative faculties of thought and feeling.

The original Divine Plan was for the Sons and Daughters of God to remain in the elevated state of Christ Consciousness as we learned to become cocreators with our Father-Mother God. The goal was for us to use our Lifeforce to cocreate previously unknown patterns of Divine Love, Peace, Harmony, Balance, Abundance, Happiness, and Abounding Joy as we expanded the borders of the Kingdom of Heaven on Earth with every thought, feeling, word, or action we expressed.

In order to insure the fulfillment of that facet of the Divine Plan and to keep their Sons and Daughters focused strictly on the Light, our Father-Mother God gave us ONE admonition, "Do NOT partake of the Tree of Knowledge of GOOD and EVIL."

Our God Parents knew that as long as their Sons and Daughters never used our Free Will or our creative faculties of thought and feeling to empower "evil," WHICH IS NOTHING MORE THAN THE ABSENCE OF LOVE, we would not create the gross mutations of evil which manifest as poverty, disease, war, greed, crime, corruption, inclement weather conditions, the abuse of power, and every other form of pain and suffering.

Our Father-Mother God knew that as long as our Father God's Power was always balanced with our Mother God's Love, and that every choice and decision we made was from the Loving Wisdom of Christ Consciousness, we would never have to experience painful human miscreations or deal with the distorted illusions of separation and duality. But tragically, that was not to be.

There was a point in time when the Sons and Daughters of God made the Free-Will decision to experiment with our Lifeforce by empowering thoughts and feelings that were not based in Love or Reverence for Life. Once we made that fateful decision, we began to experience for the first time the painful effects of our actions. We can use our Lifeforce to create whatever we choose to empower through our thoughts, feelings, words, actions, memories, and beliefs. What is important for us to realize is that we are RESPONSIBLE for whatever it is we choose to create.

Over time, the negative results of our thoughts and feelings caused us to descend into such painful and discordant frequencies of vibration that we could no longer hear the inner guidance from our I AM Presence or the Heavenly Realms. We became frightened and thought that maybe we could eliminate our pain by closing our Heart Chakra and blocking our ability to feel.

Our Heart Chakra is the portal through which the Love of our Mother God enters the physical plane. Once we chose to close our Heart Chakra, which blocked the flow of our Mother God's Love, she was forced to withdraw. The Beings of Light in the Realms of Illumined Truth said **that fateful decision is the event that is overwhelmingly responsible** for the sustained pain and suffering Humanity and the Earth have experienced since our fall from Grace aeons ago. The infinitesimal amount of Divine Love our Mother God was able to project through our right-brain hemisphere after we closed our Heart Chakra, was barely enough to sustain brain

consciousness. This caused our right brain to become almost dormant. When that occurred, the Blue Flame of Power from our Father God and the Pink Flame of Love from our Mother God no longer merged into the perfectly balanced Violet Flame of God's Infinite Perfection.

Our Father-Mother God's balanced Violet Flame was the catalyst that activated our spiritual brain centers and opened our Crown Chakra, so we could receive the flow of Christ Consciousness into our pineal gland. Without the support of the Violet Flame, our spiritual brain centers began to atrophy. This forced our Crown Chakra to close. This tragedy prevented us from receiving the flow of Christ Consciousness and from staying connected with our I AM Presence and the Company of Heaven.

Once we lost Christ Consciousness and the awareness of our I AM Presence and the Company of Heaven, we started to perceive the physical plane as our only reality. We came to the distorted conclusion that our physical body is all that we are and that the gratification of our physical senses is our purpose and reason for being. As we plodded through our Earthly existence making choices that were not based in Love and that took us further into separation and duality, we became more and more confused. **We developed a fragmented personality, a fear-based alter ego.** This fear-based human ego usurped control of our Free Will and manipulated our creative faculties of thought and feeling.

Without the balance of our Mother God's Love, we began abusing our Masculine Power. Our fear-based ego made power-oriented decisions that did not take into consideration how our choices would affect other people, or if they reflected a Reverence for Life. When we were in male bodies, we abused our Masculine Power by being violent and aggressive. When we were in female bodies, we abused our Masculine Power by suppressing it and allowing ourselves to be dominated and oppressed. Evidence of this imbalance and the abuse of our Masculine Power by our human egos is obvious in practically every malady existing on Earth today.

Since our human ego believed that its sole purpose was to gratify our physical senses, it decided that whatever it needed to do to accomplish that goal would be just fine. This self-serving decision gave our ego permission to lie, cheat, steal, and kill to get whatever it wanted. These destructive behavior patterns catapulted us further into darkness and greatly amplified our pain and suffering.

For aeons of time, the Company of Heaven has been working with the I AM Presence of every Son and Daughter of God in order to help them raise their energy, vibration, and consciousness to a frequency that would burst the paralyzing grip of the human ego and once again allow the I AM Presence to take full dominion of their Earthly Bodies. THIS IS THE FACET OF THE DIVINE PLAN THAT IS DESTINED FOR AUGUST 15-20, 2015.

But in order for every person to be ready and able to receive this incredible influx of Light, THE NEW 5TH-DIMENSIONAL CRYSTALLINE SOLAR FREQUENCIES OF THE DIVINE MASCULINE MUST BE INTEGRATED WITHIN EVERY PERSON'S HEART FLAME DURING THE JUNE 21st SOLSTICE.

THE JUNE 21ST SOLSTICE AND FATHER'S DAY

On June 21, 2015, millions of people in the United States of America will empower the Divine Masculine by expressing the Love they have for their Earthly Fathers. On that same day, billions of

people around the World will empower the Divine Masculine by focusing on the influx of Light that will occur during the most powerful June Solstice the Earth has experienced since Humanity's fall from Grace and the inadvertent miscreation of our fragmented masculine human egos.

Together we will create a collective Cup of Consciousness through which our Father God and the Masculine Aspects of Deity throughout Infinity will assist Humanity's I AM Presence to raise the Masculine Polarity within our Heart Flames and our left-brain hemispheres into 5th-Dimensional Crystalline Solar Frequencies of the Masculine Qualities of Divine Will, Power, Illumined Faith, Protection, and God's First Cause of Perfection.

This glorious Activity of Light will be secured within every person's Heart Flame, and these 5th-Dimensional Crystalline Solar Frequencies of the Divine Masculine will be integrated day-by-day with every breath we take in preparation for the influx of Light that will allow our I AM Presence to burst the bonds of our human ego and initiate us into a Higher Order of Being. That miraculous event will occur August 15-20, 2015.

Each and every person who is reading about the events of the June Solstice and the Influx of Light that will take place in August has been preparing for lifetimes to assist with this unique facet of the Divine Plan. If that were not the case your I AM Presence would not have brought this sacred knowledge into your sphere of awareness.

You will assist in lifting the consciousness of the masses of Humanity in many ways by participating in these Divine Opportunities. Ask your I AM Presence how you can be the most powerful Force of Light during these Cosmic Moments, and you will be guided unerringly to your right and perfect place.

THE DIVINE PLAN FOR AUGUST 15-20, 2015

Every possible outer-world advantage is being provided in order to help us accomplish the maximum benefit from this facet of the unfolding Divine Plan. The Portal of Light through which the Light of God will initially flow during this Cosmic Moment is the Open Door for the most powerful frequencies of Healing and Divine Love on the Planet. The permanent seed atom for this portal is in the foothills of Tucson, Arizona, but the portal itself expands throughout the Southwestern United States of America.

The Light that perpetually flows through this portal from the very Heart of our Father-Mother God is the Flame of Healing Through the Power of God's Infinite Transmutation and the Flame of our Mother God's Transfiguring Divine Love. The event that will host the Activity of Light within this portal August 15-20, 2015 is the **29th Annual World Congress on Illumination**.

The Clarion Call has gone out to Lightworkers around the World inviting those who resonate with this facet of the Divine Plan to come to Tucson, Arizona, to serve as THE OPEN DOOR THAT NO ONE CAN SHUT on behalf of all of our sisters and brothers in the Family of Humanity and Mother Earth herself. Together we will form a mighty transformer through the unification of our Heart Flames. Throughout the entire week the Light of God will build in momentum through the Portal of

Light in Tucson and in the right and perfect Cosmic Moment the Company of Heaven will Initiate the I AM Presence of every man, woman, and child on Earth into a HIGHER ORDER OF BEING. This will occur for every person in perfect alignment with each one's Divine Plan and the highest good for all concerned.

The more people who are gathered at the 29th Annual World Congress on Illumination in Tucson from all over the World, the more powerful our transformer will be and the more Light we will be able to receive into the physical plane of Earth on behalf of Humanity and Mother Earth.

If you have the Heart Call to be physically present in Tucson for this Activity of Light, know that Beloved Mother Mary and Saint Germain are preparing your Heart Flame to withstand more 5th-Dimensional Crystalline Solar Light than you have ever experienced. This is being accomplished through your I AM Presence within the frequencies of God's Bliss, Wonder, Awe, and Sublime Gratitude.

For those of you who will be joining us in consciousness from various locations around the Globe, know that your Heart Flame is also being prepared by Mother Mary and Saint Germain in whatever way is most appropriate for your unique service to the Light for this event.

For those of you who are in the process of making your decision about attending the 29th Annual World Congress on Illumination and those who would just like to align with the Portal of Light in Tucson, please watch the 3-minute YouTube Video and you will experience some of the wonders of this location.

A NEW IDENTITY FOR CHRISTOPHER COLUMBUS

Many scholars were fully aware of the global form of the earth in the time of Columbus, who, according to early historians, State documents, and his own son, was not an Italian of humble station and uneducated but was a Greek Prince with an excellent classical education. ...

It was from a Greek port that he sailed on the celebrated voyage of discovery. He was accompanied by a mysterious stranger, which has suggested that Columbus was an agent of the society of unknown philosophers. ...

The pattern of the democratic ideal was beginning to assert itself over the tyranny of decadent aristocracy.

A new world was necessary for a new idea. ... When it was necessary, it was discovered.

NOTE: The University of Barcelona has pronounced genuine a document discovered by an Italian archeologist in 1929. It records that the treasurer of Spain counseled Colon to represent himself as Christophorens in demanding aid from the King of Spain, and states emphatically that Admiral Colon was not the same man as Christophoro Colombo, son of Dominico and Susana Fontanarossa who lived in Genoa.

AS stated earlier, there can be little doubt that the Greeks were aware of the existence of the American continent long before the beginning of the Christian era. If information is not general on that point, it is equally surprising how little is known about the man Christopher Columbus who is accredited with the discovery of the new world. The date of his birth is unrecorded, and twenty cities claim Columbus as a native. So many legends have sprung up about this strange man that it is difficult to distinguish fact from fancy.

In 1937 a little book was published, entitled, *Christopher Columbus Was A Greek*. According to its author, Spyros Ceteras, the real name of Columbus was Prince Nikolaos Ypsilantis, and he came from the Greek Island of Chios. The statement is backed by quotations from numerous early historians and State documents.

The author of this little book has documented his opinions in a manner to bring joy to the critical reader. He mentions the following Greeks who navigated the Atlantic ocean in ancient times: Hercules, Odysus, Colaeus, Pytheus, and Eratosthenes. He points out that the language of the ancient Mayas of the American continent contains many words of pure Greek belonging to the Homeric period, and, to quote the book: "Years ago, in the republic of Uruguay, South America, were discovered traces of the army of Alexander the Great, swords and thoras with the inscription 'PTOLEMEOS ALEXANDROY!'".

The cipher signature of Columbus (reproduced above) is generally interpreted *Salve Christus, Maria, Yosephus-Christoferens*. It was usual to build personal ciphers upon dates. If the seven large letters above the signature are read according to the medieval system of numeration the date 1420 results. The "x" appears to be a double letter composed of "jx"; this would increase the sum to 1430. Is this then the true and unknown birthdate of the Greek navigator?

All modern research on the life of Columbus tends to prove that he was not a man of humble station, poor or uneducated, and the story of Queen Isabella and her jewels is rapidly becoming recognizable as fiction. Columbus is emerging as a man of impressive personality with marked abilities as a leader and organizer and an excellent classical education.

Like most Greeks of his time he admired the writings of Plato and the other classical philosophers; he had the Greek birthright of legend and tradition, and was mentally well suited for interpretation of classical lore. There is much to indicate that Columbus was inspired for his voyages by Plato's account of the lost Atlantis and the records of early navigation to the West. Furthermore, Europe was not without some knowledge of geography and in his day there were many scholars aware of the spherical form of the earth.

A great trade with Asia had long passed over the caravan routes of the Near East, as the Arabs for the most part were a friendly people; but with the rise of the Turkish Empire to power most of these routes were closed to the infidel. When even the Crusades failed to keep clear the roads of commerce, it became ever more desirable to discover a western passage to the Orient. It was for this purpose that Columbus sailed, and not from an Italian or Spanish port, but from the Greek port of Mahon.

It is astonishing how difficult it is to ascertain the facts about the celebrated voyage of discovery and the life of one so prominent in history as Christopher Columbus; it appears that history entered into a conspiracy to conceal the truth. Possibly an elaborate misrepresentation was intentional, for certainly the confusion began before the death of Columbus. His own son refers to his father as a Greek. It has been suggested that Columbus changed his name because of religious or political pressure, but this is in the field of conjecture.

Then too, in browsing about among old records I have run across a dim figure involved in the life of Columbus, a strange man who seems to have served the explorer in the capacity of counselor. Nothing very tangible has as yet come to light, but it is hinted that this mysterious person accompanied Columbus on his first voyage. He was not included in the list of the mariners. He did not return, but remained in the West Indies; beyond this, no further mention is made of him.

This mysterious stranger is reminiscent of the black-robed man who guided the destiny of Mohammed. Were these obscure figures ambassadors of the secret government?--Columbus being one of the agents through which the society of unknown philosophers accomplished its purposes ?

It is my opinion that he was such an agent. The signature of Columbus, composed of letters curiously arranged and combined with cabalistic designs, certainly conveys far more than is inherent in the signature of a private citizen.

The importance of Columbus in the larger scheme of things is to be estimated from his relationship to the pattern of his own time. Europe, passing from the obscurity of the medieval period, was coming into the light of the modern way of life; the motion of the Renaissance had spread like ever widening ripples over the surface of a stagnant pool. Printing had been discovered; the mental emancipation of man from the tyranny of ignorance, superstition, and fear was gradually being accomplished. The democratic ideal was beginning to assert itself over the

tyranny of decadent aristocracy.

As the mental horizon broadened, the physical horizon extended also. The Crusades had broken up the structure of feudalism. Principalities were forming themselves into nations, and the tribal consciousness was disappearing from the theater of European politics. This progress was opposed at each step by vested interests. But the human mind was becoming aware of its own powers, in a motion of continuing irresistible force.

A new world was necessary for a new idea. When it was necessary it was discovered. That which is needed is always near if man has the wit to find it.

Today we are again seeking for a new world. No longer do there remain undiscovered continents to serve us as laboratories for social experiments, so we are turning our attention to other kinds of worlds--worlds of thought, inner spheres which must yet be explored by daring navigators. Science in the last fifty years has discovered a new universe--the universe of the mind. The infant psychology has but to come of age for us to fully discover a new sphere for new exploration in the science of living.

The voyages of Columbus were followed by two centuries of enlarging our geographic knowledge of the earth. Explorers who sailed the seven seas seeking wealth, brought home knowledge; it released human thought from its Mediterranean fixation and accomplished the still greater end of breaking the power of a Mediterranean theology and a Mediterranean way of life. Men began to think world thoughts, began to realize that while the whole earth was one land divided into continents and oceans it still was a gigantic unity. Out of the global wanderings of stout sea captains in little wooden ships was developed our so-called global thinking of today.

The concept of a global world, at least in terms of geography, is now our common inheritance. After four hundred and fifty years we accept it without question, but mainly to toy with the belief that we will accomplish something in terms of ultimates if we can industrialize the entire planet. Our world is still too large for us to know how to use it. We have discovered much, but the greatest voyage still lies before us.

Our venture will be into that greater ocean that lies beyond the boundaries of the known. The new voyages will be made in laboratories, and the contrary currents will be the cosmic rays that move through the seas of universal ether.

This will require of each man that he make a long journey of discovery within himself, searching out the hidden places of his mind and heart. As Socrates so wisely observed, all mankind lives along the shore of an unknown land. This unexplored world abounds in wonders and is filled with riches beyond the wildest dreams of old Spanish conquistadores. In this land beyond the sea of doubt the wise men dwell together in shaded groves, and here, according to the old tradition, the scholar, the musician, the artist, and the poet--who makes the discoveries that science and philosophy must later prove--have already found the better way of life.

Christopher Columbus sailed his little ships for a land which by the writings of ancient philosophers he knew existed. And each of us in the fulness of time will make our own voyage in search of a philosophically-charted better world--to follow the advice of Homer, to prepare our ships, unfurl our sails, and facing the unknown go forth upon the sea to find our own far distant native land.

9. THE PROPHECIES OF NOSTRADAMUS

Eleven years after Columbus reached our shores, an extraordinary man was born in France.

In adult life he was both a respected physician and a mystic who was able to write accurately the history of the world to come. ... There was no indication at the time

that in the Western Hemisphere would arise a great nation,

but Dr. Michel Nostradamus saw a civilization established there

that would observe (always on a Thursday) a day to express thanksgiving

for freedom of religion, freedom of opportunity, and freedom of life. ...

He prophesied that this nation would free itself from the bonds of the mother country,

would greatly prosper, but would have to fight several wars--one with the Orient--

before becoming a great power in a pattern of world peace,

with other nations looking to it for leadership. ...

All that he foretold is precisely according to the Platonic tradition.

HISTORIES are generally written about the men who prominently influence the events that make history; little is written--though it might be of greater interest--about those shadowy figures who seem always to stand behind the men who make history.

Michel Nostradamus, seer of France, is among the most extraordinary of such men; born in 1503, and possessed of some inner source of knowledge beyond the reach of ordinary mortals, he wrote the history of the world to come !

Two hundred years later, the celebrated Illuminist and Rosicrucian, the Comte de St. Germain, remarked to his close friend, Prince Carl of Hesse-Cassel, that he was the one who had assisted Nostradamus in the calculation of his remarkable predictions.

All this is far too shadowy for sober historians, although a number have spent considerable time and developed numerous headaches trying to trace the life of the illusive Comte, who was called by Frederick the Great, "The man who does not die."

Nostradamus was a respected physician, a man of outstanding medical accomplishments. Few details of his life are available, but from the context of his manuscripts, his epistles to the King of France, and his letters to his own son, it is evident that he too belonged to the Order of the Quest. Mystic, philosopher, astrologer, alchemist, and cabalist, Nostradamus was versed in all the secret lore disclosed only to those who have bound themselves with the oath of the brotherhood.

The prophecies of Nostradamus might have come entirely as revelations of the spirit; but it is equally possible that in his quaint old doggerel verses he included part of the plan of things to come as already well set in the minds and purposes of his brother initiates.

The first edition of the *Prophecies of Nostradamus* was published in 1660. At that time the Americas were still the happy hunting ground of Spanish adventurers. There was no indication that in the Western Hemisphere would arise a great nation. Yet Nostradamus writes at sufficient length of the future state of America to indicate an extraordinary knowledge.

The old seer refers to this country under several names. He calls it the Hisparides, the Blessed Isles of the West. In another place he simply names it America. And his third designation of it

is, the Land Which Keeps the Thursday.

This last form is the most astonishing. For it refers to the unique American holiday, Thanksgiving, which always falls upon a Thursday. And this the only holiday which depends upon the day alone for its observance, and is peculiarly the American holiday which expresses thankfulness for freedom of religion, freedom of opportunity, and freedom of life.

To summarize the opinions of Nostradamus concerning the future destiny of Western civilization is difficult, because of the involved idiom of the original text. But he points out clearly certain things that will happen. He saw that a great civilization would rise in the western world. This civilization would free itself from the bonds to its mother country, and then assume a free place among the temporal powers. The new country would flourish and extend its domain across the entire continent. It would grow rich and powerful, he predicted, and live at peace with its sister, (Canada). He said that America would have to fight several wars, including one with the Orient. This conflict he describes as an eagle flying against the rising sun, and in his day neither the eagle nor the rising sun had significance of the slightest importance in the symbolism of nations.

Fulfilling its destiny, Nostradamus foretold that America would become a great power in a pattern of world peace and would be looked up to by other nations for leadership against the common evils of the time. In short, as Nostradamus foretells the story of the Blessed Isles it is precisely according to the Platonic tradition; and we can not but wonder if he was a party to that tradition, and knew exactly whereof he spoke.

Whether the 16th Century physician of France had his visions from within himself, or whether he merely wrote down what was given to him by another, we can never know. Conventional thinkers, doubting such prophetic powers, incline toward the second alternative. And that will leave them scarcely less comfortable of mind, for the existence of this secret brotherhood plan is then virtually admitted.

Nostradamus is not the only prophet who sensed or knew the future of western empire. There was Dr. Ebenezer Sibly, who flourished in England about the close of the 18th Century. It is reported that Sibly had a shrewish wife and it was to escape her tongue that he retired to a garret of his house to ponder the mysteries of the Universe, his meals being passed to him through a hole in the door. Dr. Sibly divided his time between an infallible elixir which, if dissolved in wine, would dissolve all human ills, and the writing of long books dealing with astrology, physiology, and anatomy.

In his day, the American republic was in its infancy; and brilliant politicians on the floor of the House of Commons were predicting that the rebellious colonies would soon be begging on bended knee to be restored to the British commonwealth. Sibly, though a stout Britisher, expressed his regrets that he had to point out that, in one detail at least, an astrologer in his garret would prove wiser than the best politicians in Europe, for sad to relate, the American colonies would not come home--the stars decreed otherwise. Not only would they remain outside the fold, he said, but they would grow rich and powerful; extending themselves across their continent, Americans would build great cities and develop world trade and industry. And, one day--horrible thought!-- they would be stronger than the mother country ! And this was the truth that must be spoken, if only through a hole in a garret door.

It should be remembered that among the ancients, astrology was one of the sciences of government. The prognostic aspect of the subject was not the main interest in the minds of such men as Pythagoras and Plato; these philosophers saw in the motion of the heavenly bodies and the order of the cosmos a great pattern of natural laws. The Universe was a celestial empire populated with planets, and suns, and moons, in a heavenly arrangement which was a clue to the proper distribution of human affairs. The State, they advocated, should be patterned after the Cosmos. Governments of men should be in harmony with the larger government of the world.

Many old astrological books indicate clearly that planetary symbols were used to represent the elements of a political system, and that the astrologers themselves were part of the Order of the Quest. Beneath the cloak of professional astrologers, they were counselors advising kings and princes to establish better laws and rule their peoples more wisely.

Nostradamus was consulted by three kings. Europe's most powerful Queen, Catherine de Medici, also consulted him on numerous occasions. His advice was always temperate and directed toward the public good. His scholarship gave a perspective on political problems that was beyond the scope of the professions of statescraft.

All the petty princes of Europe in medieval times had their Merlins, wise old men who in many instances were the actual rulers of the State. It is obvious that if these counselors were bound together by some common purpose their collective power would be considerable. And they were bound together, in the secret society of unknown philosophers, moving the crowns of Europe as on a mighty chess board. Men of this calibre bring about the mutations of empire. It is the general opinion that revolutions begin with the common people, but this is not true; the benevolently informed always guide and direct public opinion.

Through the centuries the prophecies of Nostradamus have continued to exercise a powerful force on the political destiny of the world. They have been translated into most of the languages of Europe; they were frequently quoted and reprinted during the period of the First World War; and in the Second World War both the Axis and the Allied powers have quoted Nostradamus variously to serve their purposes.

It is in the larger picture of the world's future that Nostradamus indicates the coming of the great league, or assembly of world powers. This league is to be the only human hope of peace, the only solution to a competition between nations. The formation of this league begins the new life of the human race, will allow the human being at last to emerge into the estate for which he was fashioned.

Barbarism ends with the beginning of world civilization. To be civilized, according to Cicero, is to reach that state of personal and collective behavior in which men can live together harmoniously and constructively, united for the betterment of all. By this definition, we have never been civilized. We have existed in a state of cultured savagery.

The promise of Nostradamus is especially meaningful in these difficult years; for he assures us that the commonwealth of nations is to become a reality.

New Moon Phase: beginnings, intentions

Moon in Leo

Goddess of Wisdom: Bagalamukhi (Goddess of The Spoken Word)

God of Will: Ian (God of The East)

Skill: listening to the inner voice

True Alignments: taking time for observation and reflection, working with what one has on hand, inner voice, new ideas, proper conditions, the inherent rights of freedom, speaking truth, seeing a bigger picture, strength, whispers of the soul

Catalysts for Change: avoidance, taking all the credit, manipulation of attention and what is in focus, jealousy, demands, drawing attention through high volume, vacillating, making a big show or announcement that is based on distortions, unmotivated, entrenched, obsessed

Sabian Symbol for the Lunar Month: "winter frost in the woods"

Sabian Symbol for the Solar-Lunar Year: "the music of the spheres"

The Sun released an M3-class solar flare with coronal mass ejection yesterday at 1:35 pm ET/5:35 pm UT. The CME is partially Earth-directed and produced a radio blackout. The Sun remains quite active today.

At the time of the CME, the Moon was located at 24 Cancer and the Sabian symbol of "a woman and two men castaways on a small island in the South Seas." This is the Sabian symbol of the degree of the next New Moon -- the lunar cycle that begins with the New Moon in Cancer on July 15, 2015.

The Cancer lunar cycle (the lunar month of July 15 - August 13, 2015) has been highlighted for several months. Venus and Uranus will station retrograde back to back, and the month is a "cardinal" month or one of the "four corners" or "four directions." Dramatic shifting occurs during cardinal months. Uranus will station retrograde at the Eris Point, unleashing a revolution of light that continues the realignment with the value of life, liberty, and freedom from shadows.

With yesterday's CME activating the degree of the New Moon in Cancer, it seems the Sun sent it own highlight (sunlight) of it.

What does the image of the symbol "a woman and two men castaways on a small island of the South Seas" evoke for you? Initial reactions are key. How does your interpretation of the symbol relate to your life now? How does it relate to what you have planned or in place between July 15 and August 13? Insight into what the Sun is foreshadowing (forelighting) for the next month will spread throughout the weekend, as the electrical effects of the CME fully unfold. So let's work with understanding the symbol and the message by letting it breathe, age, or mellow over the next few days. The symbol itself implies that there is not a lot of room since it is a "small" island in the South Seas, so let's give it some space and time.

Keep in mind that we are under energetics this month that are like "winter frost in the woods." It's a still, reflective time when internal life force builds strength and flows fluidly within the trees of the woods. The stillness can be maddening if our minds (and identities and realities) are focused outside of ourselves. There

is no place to "go to ground," "root," "anchor," or "attach to" in the crumbling matrix of the old world. We "ground" ourselves with the planet. Spending time outside strengthens that connection.

At the start of this lunar month, the Gemini New Moon disseminated energetics for the month. The positions of the planets at the time of a New Moon determine that month's "music of the spheres." At the New Moon in Gemini, Jupiter was located at the degree of the Sabian symbol "American Indians perform a ritual to the Sun." Let's give thanks.

2015-06-15 Planet Alert June 2015

By Mahala Gayle, on June 16th, 2015

Have you noticed how fast time is moving? Pretty soon we will be in no-time and then we will be living in the NOW. The higher the frequency on Earth, the faster time moves. If time continues to move this fast we might just be in the time of no-time by the end of September, and we might find ourselves living on a higher dimension Earth. We do live in exciting times.

There will be four main planetary aspects in June. The first one is that Mercury will turn direct on June 11th, and the second one will be Neptune turning retrograde on June 12th for several months. Neptune will be stationary for a couple of months on nine degrees Pisces. The focus of that degree will be "Man's ability to develop powers and skills which by transcending natural limitations allow him/her to operate in the mental-spiritual realms." This will be a good vibrational energy and will allow us to integrate the strong energy that will be coming in from the Saturn/Alcyone opposition all summer.

The third planetary aspect will be Saturn turning retrograde back into Scorpio on June 14th, where it will stay until mid-September. Our solar system orbits around Alcyone, the central Sun of the Pleiadean system. It takes approximately 26,000 years for the complete rotation. Alcyone manifests very high energy. We will be bombarded with this high frequency energy for three months. Be prepared for this energy by being calm inside or you may have some challenges with it. It looks like this energy may cause the Shuman Resonance to go really high, like maybe up to 13 Hertz by September. It's around 9 Hertz right now. It's my understanding that various parts of the world have different Hertz ratings. Some areas have a low vibration and other areas have a very high vibration.

A planetary aspect can be stationary and inactive in the heavens until a planet or moon triggers an event. This means there will be quiet times in between the trigger points. When the moon will be in Taurus, Aquarius, and Leo, the Saturn Alcyone aspect will be triggered. And when Jupiter moves onto 28 degrees Leo, the first 10 days of August we will see a very strong energy for Earth changes. Now this aspect could cause a large quake in the Middle East, or at the opposite point which is the West Coast of America, or the Leo part which is Japan, the Koreas and that part of the world. On August 7th Venus, Mercury, and Jupiter will be conjunct in Leo around 28 degrees, the moon will be in Taurus, and Saturn will be in Scorpio. This will make a T cross in the heavens. The declinations of the planets will be on low latitude like 34-40 N. This could mean an earthquake in the Middle East, possibly Iran.

Then on September 23-24 Mars will be on zero degrees Virgo. This is now the degree of Regulus,

The Royal Star of the Lion. Virgo is the sign of the Goddess energy. A 2,160 year cycle of Virgo, the Goddess started on July 11, 1991. We have slowly integrated this Goddess/love energy into planet Earth.

This aspect will be right before the fourth red blood moon eclipse. It will be interesting to see what that brings. This might activate an electromagnetic wave like Dr. Simon Atkins talks about on a radio program [Phoenix Rising Radio 2015-05-07 Dr Simon Atkins with Amazing Predictions!](#) He says this wave will hit Earth in September. This could be the time when Mother Earth decides to Ascend into a fifth dimension Earth.

We actually lived on a sixth dimension Earth a long time ago, and we fell to a third dimension Earth. This is what the fall of Lucifer was all about. We chose to experience what it would be like to live on a third dimension Earth. It has not been easy and it has taken a long time to raise the vibration of Earth to what it is now. In August of 1987, at the time of the Harmonic Convergence, we moved into a new time-line of a fourth dimension Earth. The fourth dimension Earth is where everything manifests, the good, the bad, and the ugly. Now we are reaching for a fifth dimension Earth which is one of Unity Consciousness. This will be a much better place to live. Then on to a sixth dimension Earth.

I believe that the sixth dimension Earth still exists and that is what is considered the New Earth, which is one of love. The sound of love is 528 Hertz which breaks down to the number 15 or 6. We have to raise our vibration high enough so we can see the New Earth in order to live on it. It is also the dimension of magic and miracles.

The fourth planetary aspect will be Mars moving into Cancer on June 24th. Right now Mars is in Gemini along with Mercury and our Sun. Gemini is the sign that rules the area from the Cascade Mountains to the Mississippi River. I received several emails talking about a possible 9 plus earthquake in southern California on May 28th. I looked at the planets and said 'this will not happen in California' because the main energy from the planets is over Texas and Oklahoma, plus other areas of Earth.

There was a 6.7 earthquake on May 28th off the islands off Alaska. There were also volcanic eruptions in Japan and Chili on that day. And there was a 7.8 quake in southern Japan on May 30th. The sun and Mars will continue to travel over the Gemini areas until June 21 -24th so look for more earth changes in the Southwest. There will probably be more storms because that is what Mercury rules, and that planet rules Gemini.

The planet Mars moving through Cancer from June 24 to August 8th may prove challenging. Pluto will turn direct on September 24th. This means that Pluto will be retrograde all summer. Pluto is always very powerful when it is in the retrograde phase. On the new moon of July 15th Mars will be opposing Pluto. This is normally a violent aspect and causes events like riots, demonstrations, police action, military action, fires and explosions. There could be lots of fires and heat during this time period. The degree Pluto will be on is "A fire worshiper meditates on the ultimate realities of existence." It looks like we will have a long hot summer ahead of us in various areas. Mars will be affecting the areas from the Mississippi River to the East Coast during its journey through the sign of Cancer.

Uranus is still in Aries and is on 19 degrees. This is a very powerful degree. The sun has always been exalted on that degree. The meaning of this degree is 'The Magic Carpet and the use of creative imagination' Uranus will be interacting with Eris and that asteroid can cause a bit of havoc like riots, demonstration, etc.

Then we have the Summer Solstice on June 21st at 9:38 AM PDT. There is always a lot of energy that comes in during this time period, use it wisely. Actually, I think we are moving into a very auspicious time and if we stay strong and loving we will get through this summer with flying colors. With Saturn retrograde in Scorpio there may be some more stuff coming up for us to look at and release. Those who have finished releasing their challenges can just sit back and enjoy the high frequency energy. People who are living on the fourth dimension Earth may have some problems. The ones who are manifesting fifth dimension energy will be fine.

In September, when Saturn moves back into Sagittarius we will probably see lots of changes in the area of freedom. This sign is very freedom loving and it is hard to keep a Sagittarian down. They bounce right back up. This sign rules the banking system, courts of law, lawyers, teachers, mountains, religion and the higher mind. During this time period is when we will see the manifestation of a new financial system, a new court system, and new governing systems. The old will be gone and the new will arrive. Saturn will be in Sagittarius for two and a half years.

Enjoy your summer and please walk softly on this beautiful planet. We are a beautiful jewel in this solar system and the more light that comes in the more the Earth will sparkle. We create everything by our thoughts and actions so please use your mind wisely and start thinking with your heart. So Be It!

Love to everyone!

2015-06-18 Astrology Status for June 18, 2015 - July 2015 - Drawing Lines in the Sand This Far and No Farther

<https://www.facebook.com/notes/carl-boudreau/astrology-status-for-june-18-2015-drawing-lines-in-the-sand/10207174894439157>

For many months, now, the astrological message has been about challenging and repeated emotional releases, confusion and indecision. That will almost surely change dramatically in July.

Neptune, Chiron, Nessus and Saturn have softened the ground. Positive aspects have planted seeds of hope and aspiration and begun paving a way forward.

Beginning very soon, as soon as July's New Moon makes itself felt, we will define a goal for ourselves. We will experience a grim and righteous determination to achieve that goal, even if that means outright confrontation with those who resist us.

The Moon's Work

Cancer, presently being transited by the Sun, is the Moon's home sign. Both Cancer and the Moon are closely associated with the psychologically and spiritually vital 4th house.

Cancer, the Moon and the 4th house are all closely associated with the weaving and reweaving of patterns in our unconscious mind. These patterns affect our spirituality and our psychology. They strongly influence, if they do not simply determine, our attitudes and behaviors.

Moon to the Nth Degree

Every July, the Sun transits Cancer, placing its energetic emphasis on the deep psychological and spiritual processes governed by Cancer, the Moon and the 4th house. In July 2015, a number of factors will dramatically heighten this focus, intensifying, accelerating, amplifying and spiritualizing these psychological and spiritual processes.

There are three Moons in July 2015.

July 2nd, Full Moon in Capricorn.

July 16th, New Moon in Cancer.

July 31st, Full Moon in Aquarius.

This surplus of lunar energy will, by itself, put psychological and spiritual processes into overdrive. But there is more.

Some Serious Sirius

Sirius is by far the brightest star in the heavens. It is also the most sacred of the stars. Located in Cancer, I think of Sirius as the light of higher consciousness shining through the psychological and spiritual processes governed by Cancer.

The patterns we weave in the course of the Moon's monthly cycle must not be so dense as to obstruct the light of Spiritual Intuition that shines steadily through Cancer, providing insight, guidance and support. In symbolic terms, this means that we must not shut out the light of Sirius by weaving rigid and opaque patterns in our unconscious.

With relatively few exceptions, the New Moon conjunction will produce a beam of Sirius energy strong enough to soften and penetrate even the most rigid and opaque patterns in our subconscious. Although some may be brittle enough that they snap under the strain.

It is worth noting that, historically, the Cancer/Capricorn axis has proven powerfully sensitive. Pluto's transit of this axis, whether in Cancer or Capricorn, has consistently correlated with major historical events.

At the moment of the New Moon on July 16th, Mars, Mercury and Sirius will conjoin. This triple conjunction is closely opposed to retrograde Pluto in Capricorn. For astrological purposes, the distance between Mercury, Sirius and Mars is negligibly small.

This exact conjunction and opposition is highly unusual. I checked as far back as the 1600s and found nothing comparable.

Mercury at 14° 11' Cancer.

Sirius at 14° 17' Cancer.

Mars at 14° 21' Cancer.

Pluto at 14° 02' Capricorn

Sun and Moon conjunct in Cancer at 23° 14' Cancer.

The New Moon in July marks the beginning of the Moon's annual cycle of New Moons, another factor that increases the significance of this conjunction/opposition.

If you use Greenwich Observatory (UT) as the birthplace, as I do, this potent opposition will fall across the financial access of the chart, heralding a profound shift in global economic attitudes.

Drawing Lines in the Sand

A strong Sirius imparts a clear and strong, often relentless sense of spiritual mission. It can also cause life-changing events that return us to alignment with that mission.

When Sirius aligns with Mars, passion and initiative combine with a strong, distinctly spiritual kind of inspiration. Through Mercury, Sirius infuses thought and language, spoken and written, with spiritual inspiration.

Sirius, Mars and Mercury, then, will create a kind of righteous, spiritually inspired determination in us and impart a solid psychological confidence in ourselves and our mission. We will become convinced of the rightness of our goal and of our ability to achieve it.

We will become increasingly convinced that we should and can overcome the seemingly innumerable challenges we are now facing. It will also bring a continuing series of spiritual and psychological changes in us.

The exact opposition from Pluto *can* add an obsessive, self-righteous tone to our determination. We *can* become demanding, domineering, impatient and combative, overlooking or even overriding the rights and expectations of others. No doubt, some will behave this way.

By Any Means Necessary

It would be hard to underestimate the power and intensity of this influence. On the individual level, it will grant many of us the determination and direction we've been lacking. Others of us can become obsessed and controlling.

On the macro-level, this influence will almost certainly cause extreme and fanatical acts.

Mitigating Factors: Retrograde Motion and Mutability

Saturn, Pallas, Ixion, Pholus, Quaoar, Chariklo, Pluto, Ceres, Nessus, Chiron and Neptune will all be retrograde at the New Moon in July.

By itself, the Pluto/Sirius/Mars/Mercury opposition should be considered dangerously volatile, even explosive. However, retrograde motion predominates in the chart.

Retrograde motion encourages thoughtful, reflective, introspective responses and stimulates discussion. The circumstances and resources needed to act, or overreact, tend not to be available.

But the retrograde motion will also make the world permeable to this intense burst of spiritual energy, which will sink in and percolate through the many layers of our reality.

Last month <http://on.fb.me/1d29yEV>, I discussed the significance of the retrograde motion of the dwarf planets that govern collective consciousness. The transformative discussions taking place as a result of these retrogrades will now be infused with the distinctly spiritual energy of the Pluto/Sirius/Mars/Mercury opposition.

Again, if, as I do, you use Greenwich Observatory (UT) as the birthplace, all these retrograde dwarf planets fall in mutable Sagittarius in the 7th house, foretelling a profound transformation in our ideas about social relationships and our obligations to each other as members of a society.

Many of the most significant placements in recent charts have been in mutable signs. This mutable energy will also tend to soften and dissipate any harshness.

Supportive Aspects

There is a generous assortment of trines in this chart. Most notable, perhaps, is the Grand Trine between Chiron, Saturn and the grouping in Cancer. This trine will dramatically facilitate the change of worldview required to allow these radical new Sirius energies to express effectively.

Furthermore, Pluto sextiles Chiron; Chiron, in turn, trines the cluster in Cancer. This will channel the disruptive energy of the Pluto opposition into constructive, transformative dialogue.

All of the trines complement the bracelet of minor positive aspects in place long-term.

Mixed Messages, As Usual

So, in July, as in previous months, our opinion about whether things are falling apart or coming together will depend on which signals we are reading. And again, as in so many previous months, if we focus on the inevitable negative events, we will overlook a rare and profoundly transformative astrological event, one that marks a historic turning point in key social and economic attitudes, world wide.

The Pyramids of Light ~ The Pyramid of Shambhala
Elders June Solstice Transmission

It was here in the area of Tibet that a Pyramid was placed in frequency.

Those who followed named it the Place of Shambhala.

The soul who oversees this pyramid goes by the frequency signature, Tsu Li.

This is the creational pyramid which connects
us with our spiritual wisdom and knowledge.

It is within this pyramid that spiritual teachings are created,
based on the needs of each culture as it evolves.

And it was my job, as scribe, to see to it that these teachings
were recorded through oral traditions, in sacred texts and scrolls,
within the energies of crystalline bodies, in stone formations,
in hieroglyphs and pictographs,
in channeled manuscripts and other art forms.

It is in this pyramid that the entities known as spiritual masters and teachers, angels, gods and goddesses, and spiritual guides, originated.

Many souls will have memories of 'arriving' on planet Earth, through this pyramid, then taking the form of Tibetan monks.

It is written that these teachers have secret scrolls hidden away since the dawn of mankind.

These teaching can be found within the matrix of this pyramid given in keys at the end of this cycle.

Enter now this pyramid where these scrolls await you.
Join with the energies of the three creators of this matrix.
Read their words. Heed their messages. Then you will know.

Thoth the Atlantean

Welcome, sweet ones. It gives us great pleasure to be with you in this month of June, and particularly as you experience the amplified celestial energies over the time of the Solstice on June 20/21st, as you come together as One Unified Cosmic Heart. What this Solstice energy brings, sweet ones, Overlighted by the Masters from Shambhala and many of the Illumined Beings of Light from On High, is a deeper sense of the wisdom that you hold within, in your ability to communicate and in your ability to simply observe many of the lessons that you have experienced and learnt in this playschool on this sacred Earth; and being able to integrate this into the higher dimensional frequencies of Light, the New Earth templates of Light, as we invite you into this beautiful Pyramid of Shambhala to experience the Twelve Ray Ashrams. The Twelve Rays spiral forth from the Cosmic Heart of Mother/Father God and each one of you, sweet ones, travels on one or more of these Soul Rays as you experience many of your lessons on this sacred earth. It is also the amplification of the Three-fold Flame of Power, Love and Wisdom that activates at this time in addition to a re-emergence of the Divine Masculine and Feminine frequencies, led in this instance, sweet ones, through the energy of the Divine Masculine archetype.

So let us set our sacred space, as we journey together into this beautiful Pyramid of Shambhala, into these Ray Ashrams and into a renewed re-balancing through this incredible celestial activity of Light and the amplification of the Solstice energies.

You start simply by breathing deep into the body, expanding the lower abdomen as you breathe in and contracting the lower abdomen as you breathe out. Finding this sense of balance, and deeper connection into the heart chakra simply through the awareness of your own energy in this Now, sweet ones; through your breath, through the energy of your feet on the earth, through the sense of the knowing of yourselves as these sacred transfiguring flames of Divine Love and Master Beings of Light. Overlighted now by Mother/Father God, and the Pleiadians, the Sirians, the Andromedans, and the Arcturians, all of the Light, you experience these beautiful ray frequencies of the Christed ET's and in particular this beautiful silver-gold Flame of the Sirian Archangelic League of the Light as they Overlight you in this sacred year of 2015. As they take you deeper into the heart, in the ability to heal the wounds of old relationships and activate the sacred sexual energy of tantra, of Unity Consciousness, lifting you into the dimensional frequencies of the New Earth templates, sweet ones.

You call in now the Archangels and their Divine Feminine counterparts, the Mighty Elohim, the Order of Melchizedek and Lord Melchizedek, Melchior the Galactic Logos, Helios and Vesta the Solar Logii, Sanat Kumara the Bridge to Solar Christ Consciousness, and Lord Buddha the Planetary Logos. Starting to connect deeper now into Shambhala, experiencing and sensing the energies of the Ray Masters, Master El Morya, Kuthumi, Serapis Bey, Paul the Venetian, Hilarion, Sananda, St Germaine and Lady Portia, Lady Nada, Mother Mary, Allah Gobi, Quan Yin, and Pallas Athena, and merging now with your Beloved I AM Presence, the Highest Light of who you are in the Cosmic Heart of Mother/Father God. Calling in your Master Guides and your Guardian Angel, and all other Beings of Light from On High you personally acknowledge and wish to join you now in this sacred space.

And you have a sense now as the energies of the Solstice approach, of connecting into the Unity Grid of Divine Love, this grid of Light within you and around you, linking you now into the I AM Avatar Consciousness of Light. Connecting you to the Light workers and the star seeded ones, to your soul and star family and friends of the Light, and coming deeper and deeper into your own hearts, sweet ones, into the integration of the ray frequencies, into the integration of your Divine Masculine and Feminine Spirits, and into the ability to hold and activate at a deeper level within your heart the Three-fold Flame of Empowerment, of Love, and of Wisdom.

And now Tsu Li Overlights you, inviting you to travel into the Ray Ashrams of Shambhala, to integrate any of the lower ray frequencies, in particular of the *First Seven Rays*, that you may still be working with, sweet ones, in the healing of your wounds ~ of power issues, of control issues, or lack of abundance issues. Whatever these issues are for you, sweet ones, there is a focus in this Now through the Solstice energies and the activation of the Three-fold Flame and the embrace of your Divine Masculine and Feminine Spirits in experiencing a greater sense of balance. And you have a sense now of connecting to Shambhala, visualizing this beautiful external Merkaba Vehicle of Light activating around your body and energy field in the highest Light ray frequencies of your Beloved I AM Presence, and connecting now to all the Illumined Beings of Light, and Light workers, as you travel through the grids of Divine Love into the Pyramid of Shambhala within the etheric of Tibet and the Gobi Desert.

As you enter into this Pyramid of Shambhala you are welcomed and greeted by Tsu Li. And you have a sense too of many of the Ascended Masters and Ray Masters that may come forward at this time as Master Guides to you, sweet ones. For in your travels on the inner planes many of you have worked with the Masters from Shambhala as the students, *the Chelas on the Thread*. You have been imbued with the energy of the particular Master or Masters that are part of the Soul Ray frequencies that you are integrating in this lifetime, sweet ones, and these familiar energies are presented to you either through the Ray Masters, or through colors, or symbols, or sounds; taking you deeper into the knowing that you are indeed activating for yourself and others the New Earth Templates of Light ~ of creating these Pathways of Divine Love ~ in the recognition of your own challenges as initiations of Light.

And now it is Master El Morya who comes forward and welcomes you into the *First Ray Ashram of Will and Power*. As you enter into this ray ashram you are wrapped now in this beautiful red flame of Light. The energy of this ray ashram, sweet ones, as with all the First Seven Ray ashrams,

brings through both the higher and lower qualities to the rays, much as you walk the karmic pathways and the Christed Timelines. But it is in the knowing that you are experiencing the Christed Timelines, as these sacred transfiguring flames of Divine Love, and your ability to surrender to every single aspect of your journey and what it presents to you, sweet ones, that will allow you to merge the karmic and the Christed Timelines. And as you are wrapped once more in this beautiful red flame of Light you have a sense of aligning your will deeper into the Will of God, of being the spiritual warrior on the journey, ensuring that justice shall be served, and doing so with compassion, with understanding of the pain and suffering of others, with discernment, with clear boundaries, and with your ability, sweet ones, to simply Love all those around you ~ no longer in this dance of separation, no longer in this sense of "them and us", simply loving or observing, or choosing discernment, as is appropriate to each situation, and no longer acting or re-acting in a way that perpetuates the victim or persecutor consciousness. And you see if there are any power or control issues that you are still working with. Allow yourselves to simply observe what comes to mind, to bless, to forgive, to love, to let go, to integrate, to appreciate, to celebrate all that you are experiencing, sweet ones, in finding your balance, in experiencing a greater sense of the wisdom that you hold, of the power that you have, and the Love that you are.

And now you find yourselves Overlighted by Master Kuthumi and being led into the *Second Ray Ashram of Love and Wisdom*, wrapped now in a beautiful blue-pink Flame of Divine Love. The energy of this ray, sweet ones, is very much about finding the nurturing and the love and the appreciation of Self, as well as a greater sense of your Heart's Dreaming and your Heart's Joy. And you have a sense too of what it is that may be coming up for you in terms of the self-saboteur or addiction or blockages that prevent you from truly experiencing your full magnificence and Light. And as you embrace these sub-personality aspects within your heart, and within your Love you find, sweet ones that you are simply accepting of what you are and where you are, loving and appreciating yourself without judgment. Nurturing and being kind to yourselves, complimenting yourselves, and finding balance in your ability to give to others and to give to yourselves by putting yourselves first, sweet ones.

And now, sweet ones, you are Overlighted by Master Serapis Bey, as you find yourselves now within this *Third Ray Ashram* within Shambhala wrapped in this beautiful yellow-golden flame of Wisdom, of Divine Intelligence. This ray in particular, sweet ones, amplifies the perceived separation that is experienced through lesser-than and better-than consciousness; and spiritual arrogance, or lack of self-esteem and self-worth. You let go of these comparative measures, sweet ones, for you understand that all is divinely perfect; your unique gifts and the knowing that you are immeasurable in your magnificence and Light and what you add to the collective as your individual puzzle piece. There is a greater sense of unity that starts to emerge as you experience the merging too of the Christed Timelines and the karmic timelines, and of your Divine Masculine and Feminine Spirits. You are being led with wisdom, with insight, understanding, knowledge, Love, empowerment and the Overlighting of your Beloved I AM Presence as you walk the Pathway of Divine Love, and right now, sweet ones, the illumination of the Mind of God activates through the pituitary, the pineal, the hypothalamus and the thalamus glands.

And now sweet ones, you experience the Overlighting of Master Paul the Venetian, as you are invited into the *Fourth Ray Ashram of Harmony through Conflict*. As you enter into this ashram you are wrapped in this beautiful emerald-green flame of Light. The energy of this ray ashram, sweet ones, is very much about the experience of Harmony through Conflict. It is also about a deeper sense of your creative gifts and your ability to simply find appreciation in the moment, no matter what is going on around you, knowing that all is divinely perfect, all is well ~ to release the fear, the stress, the tension, and the worry. You see this beautiful flame dissolving energetically into each sub-atomic particle of your Beingness taking you deeper and deeper into your Heart's Dreaming and your creative gifts, and the experience of peace and serenity, harmony and balance within your own lives, sweet ones.

And now, sweet ones, Master Hilarion Overlights you, inviting you into the *Fifth Ray Ashram of Concrete Knowledge*, and as you find yourselves now entering into this beautiful ashram of Light, you are wrapped in this orange flame. The essence of this ray, sweet ones, is taking you into the integration of the spiritual scientific principles through the rebalancing of the left and right hemispheres of the brain, the mental and the emotional bodies, the physical and the spiritual bodies; of finding in essence the ability to express your truth in such a way that the foundational understandings activate in a deeper level of knowing of the higher mind teachings of Light. And you allow these observations and understandings through the various timelines that activate in this Now and the amplification of the solstice energies, to bring to you right now, sweet ones, what you are needing for the perfect balance between your emotional and mental bodies, between your physical and spiritual bodies.

And now sweet ones, Sananda Overlights you, inviting you into the *Sixth Ray Ashram of Devotion and Idealism*. As you enter now into this ray ashram, sweet ones, you are wrapped in this beautiful indigo flame of Light. The essence of this ray frequency activates a greater soul signature of your devotion, sweet ones, in assisting in the creation of your Heaven on Earth, and these New Earth templates of Light. Giving you the strength and the wisdom and the understanding to commit to the Pathway of Divine Love and all the responsibilities that may come from it and with it; the understanding as we have previously expressed, of your challenges as Initiations of Light, and your unwavering commitment to the Light regardless of what is going on around you or within this world. Knowing sweet ones, that Love will always prevail and if there is an aspect of your consciousness that is still needing to experience a deeper sense of trust and surrender to the Divine you allow these beautiful indigo flames of Light and the frequency of the *sixth ray of Devotion and Idealism* to activate at a cellular level to take you more deeply into this Pathway of Divine Love.

And now sweet ones, you are Overlighted by Master Saint Germaine who invites you into the *Seventh Ray Ashram of Ceremonial Magic*. As you enter into this ashram you are wrapped in this beautiful violet flame of God's Infinite Perfection. It is the energy of this ray that imbues this earth

plane in this Now, sweet ones ~ why so many of you activate and accelerate your own ascension process ~ has been through the rays of infinite perfection that stream in consciousness through this seventh ray ashram, to which many of the rays themselves activate into greater streams of Light, and in particular taking you into the bridge that allows you to access the *Five Higher Earthly Rays*, and an additional *Six Cosmic Rays*. As you experience this beautiful violet flame of Transformation, of God's Infinite Perfection, you have a sense of the abundance of every area of your life. Of your ability to not only let go of old issues, beliefs and judgments, but to know that you are doing this too collectively, sweet ones, in shifting the energy of this sacred earth, and creating a level of abundance, including financial abundance, for all life on this sacred earth.

Good.

And now it is Lady Nada that comes forward and Overlights you, inviting you into the *Eighth Ray Ashram of Transmutation*, and as you enter into this ashram of Light wrapped in this beautiful sea-foam green and violet colored ray, you have a deeper sense now of simply walking the pathway of Divine Love and the Christed Timelines; of merging the timelines of your highest potentials, coming deeper and deeper into your Heart's Dreaming and the rebalancing of your Divine Masculine and Feminine Spirits. This ray, sweet ones, also starts to activate a deeper sense of your extra-sensory perception gifts, and brings through in particular the ability to transfigure energetic and physical changes, particularly of health issues or disease and discomfort within the physical body. It is a ray upon which you walk that brings a greater sense of your heart's passion, and a greater sense of nurturing to Self, and a greater sense of connecting in community.

Wonderful, sweet ones. You now find yourself Overlighted by Mother Mary, as you are invited into the *Ninth Ray Ashram of Highest Potentials*. As you enter into this ray ashram you are wrapped now in this beautiful blue-green flame of Light. This ray, as it expresses in its full magnificence, sweet ones, takes you into a deeper sense of your potentiality; and merges the timelines from this dimension and all dimensions of Light to take you deeper into the Abyss, into the multi-dimensional aspects of yourselves in which you experience your many gifts as the teachers, the healers, the poets, the writers, the channelers, the transmitters, the artists, the dancers ~ it matters not. It brings a greater sense of connecting in joy to your soul purpose, through the activation of the original Divine Eight-Cell Blueprint within the perineum center and a deeper alignment into the Cosmic Heart of Mother/Father God, and you just allow this joy to activate at a cellular level within your bodies and energy fields in this Now, sweet ones.

And now you find yourselves Overlighted by Allah Gobi, Chohan to the *Tenth Ray of Divinity*, who invites you now into this Tenth Ray Ashram of Light. As you enter into this *Tenth Ray Ashram of Divinity* you are wrapped in this beautiful pearlescent flame of Light. It is within this beautiful ashram that you merge with your multi-dimensional aspects, and experience sweet ones, this essence of Divinity through the perfect balance of the Three-fold Flame of Empowerment, of Love, of Wisdom ~ of letting go of any level of victim or persecutor consciousness ~ and your ability to know that you have already been walking the Pathways of Divine Love, and creating these

pathways for yourselves and for others for some time now. And you honor this journey, for it is taking you into a greater level of the blossoming of your magnificence and your Light. We know that this has not been an easy journey for most of you, not only imbued by the lower dimensional frequencies, but also in your ability to remain completely aligned into the higher dimensional templates with all that is going on from an external perspective on this sacred earth.

And now this stability comes, sweet ones, for yourselves and for others, as you come together at the time of the Solstice and you experience now this great sense of activating this perfect balance for yourselves as this beautiful lotus activates within the heart chakra ~ this balance of Empowerment, of Love, and of Wisdom.

And now you experience the Overlighting of Lady Quan Yin, inviting you into the *Eleventh Ray Ashram of Divine Love and Illumined Truth*. As you enter into this ashram of Light, as these sacred transfiguring flames of Divine Love and Master Beings of Light, you are wrapped in this beautiful pink-orange flame, bringing with it a greater sense of insight and understanding and wisdom ~ heart-centered in the knowing of the choices that you make, sweet ones, that align you deeper into your journey, of the knowing of your ability to experience Love, no matter what is being experienced around you. At this level there is no need for further reflections, only the experience of Love and Unity, that connect you as One Cosmic Heart of Divine Love; amplified in this Now into a greater level of the communication, utterance and expression of your spiritual reality, as you embrace yourselves in a deeper level of nurturing, of Love, and understanding, insight and wisdom.

And lastly now, sweet ones, you are invited into the Twelfth Ray Ashram, the *Twelfth Ray of One Unity Consciousness*, Overlighted by Lady Pallas Athena. Lady Pallas Athena now wraps you in this beautiful golden flame of Christ Consciousness, of Unity Consciousness, connecting you deeper into the energy of the Divine Masculine archetype. Your Divine Masculine Spirit appears to the front of you now, and your Divine Feminine Spirit to the back of you. Both place their hands upon your heart chakra, and as you experience this dance into the perfect balance, sweet ones, of your Divine Masculine and Feminine Spirits, the kundalini and tantric channels activate to the maximum Cosmic Law can allow. Wonderful sweet ones. And now, you activate your Golden Hearts in empowerment, and Love, wisdom, illumination, joy, abundance and harmony.

Good. Tzu Li comes forward now, and embracing you in the energies in particular of the *First Three Rays, of Power, Love and Wisdom*, invites you now into the Office of the Christed One through the Second Ray Ashram of Love and Wisdom. And as you travel through and within the Second Ray Ashram in this Pyramid of Shambhala you enter now into the Office of the Christed One, wrapped once more in the beautiful golden flame of Unity Consciousness and now the silver-gold flame of Sacred Sexuality, Overlighted by the Sirian Archangelic League of the Light. You are lifting yourselves more and more into the Christed Mind, sweet ones, and you are further Overlighted now by the energy of Helios and Vesta the Solar Logii; as you link into the Sun and into the Solar Crystalline Codes of Creation and the New Earth Templates of Light, through the

Sun within your hearts, within your Golden Hearts. And now from here into the Central Sun, and now the Great Central Sun.

As you align fully through all dimensions into the Cosmic Heart of Mother/Father God you become aware that you are surrounded now in a circle of twelve men, and twelve women. These Divine deities representing the Divine Feminine deities and the Divine Masculine deities invite you to merge into this circle of unity, and as you step forward, it is with the male deities that you merge first, sweet ones, as you experience the amplification of the Solstice energies.

This brings strength and courage and the healing of the wounds of your relationships that you may have with the Divine Masculine energy to all of you, sweet ones; and you just experience a greater level of the kundalini and tantric channels activating, and the healing of the wounds of your relationships in this beautiful Office of the Christed One.

And now, sweet ones, you merge with the Divine Feminine deities feeling and experiencing the Love of the Divine Mother, healing the wounds of relationships, experiencing this Love and this nurturing within yourselves and knowing sweet ones, you no longer need to experience old karmic relationships or patterns unless you have the firm belief that this is how you learn best; for you have completely merged the timelines now, and you are experiencing the full magnificence of your Light through the integration of your Divine Masculine and Feminine Spirits.

Good. This is a time, sweet ones, of new beginnings once more. And as you come back now into your sacred spaces, traveling in your external Merkaba Vehicles of Light energetically, coming back into your sacred spaces, fully grounded and centered, you experience the amplification of the Three-fold Flame of Empowerment, Love and Wisdom. And we say to you, sweet ones, that when you are ready the Scrolls of Light that exist within Shambhala carrying the hieroglyphics of the Higher Mind Teachings of Light that many of you would know as the Right Eye of Horus, will activate through the third eye, initially, in the form of sacred geometries, or hieroglyphics or key codes of Light that will bring a greater remembrance of your work with Shambhala and how you can more deeply assist in your service work for this sacred Earth.

Wonderful sweet ones. You ground now into the Crystal Heart of Mother Earth, and into the Inner Earth Sun, visualizing this grounding cord coming from the sacral chakra and taking it deep into the energy of Earth. Mother Earth sends you her Love back up your grounding cord and into your body and energy field, and you are wrapped in these beautiful flames of Divine Love and these Rays of Creation. And see if there are particular rays that come to mind, sweet ones, that you may still be working with and integrating, as you accelerate into a greater level of the knowing of your magnificence and Light.

We thank you, sweet ones, for your service work, and we bless you, and with this we bid you a most magical day.
