A brief Description about the organization/Company and your Green Mission:

Nature Friendly Products™ is dedicated to offering a complete line of fully biodegradable and compostable food service tableware, cutlery, cold cups, straws and trash bags for the food service industry. We produce more than 200 food service items that are 100% biodegradable and compostable, returning quickly, safely, and completely to nature.

Nature Friendly Products are fully compostable within 50-100 days in commercial composting facilities, providing consumers with a safe, eco-friendly alternative to landfill disposal. Our products can be sent to the composting facility as used—no scraping or sorting required. Nature Friendly Products meet BPI (Biodegradable Products Institute) standards for compostability, are California ASTM Approved and US Compost Council Certified.
