- The Jesus Film

The whole Jesus film or 65 clips from the Jesus film (in English) available for viewing OR downloading and conversion to mobile format through the use of tools you might download video from YouTube, etc. (I recommend the free Applian Ask and Record Toolbar-

<http://www.applian.com/asktoolbar/>). The segmenting could be used as a format for how to segment the Jesus film if you work in another language and want to have Jesus film segments available on mobile phones, etc. in that language

Jesus Film

Allows people to watch the Jesus film in any of the languages that it has been recorded in. If you have an Adobe Flash media downloading program it may be possible to record the entire video and then subsequently break it up into clips and convert it into 3GPP or MP4 for use in mobile phone outreach (using a program like Total Video Converter- <http://www.effectmatrix.com/total-video-converter/>)

Faith Comes By Hearing

A source of audio recordings of the Bible (often dramatized versions) in various languages as well as various media players that can be used to get the Bible into the hands of the unreached. I am uncertain as to whether the recordings require use of their media players or if they can be played on regular MP3 type players
