CardioGram System 507 provides accurate, timely and cost-effective electrocardiograms and on-line interpretive services that support your cardiology assessment needs from any location.

The most comprehensive on-line ECG system available

Performing electrocardiograms in your facility for the diagnosis of coronary artery disease, routine physicals and pre-operative examinations can be accurate, easy and cost effective.

The CardioGram System 507 is a portable, 3 channel ECG system that uses a standard phone line to provide instantaneous 12 lead analysis, interpretation, long term ECG storage and 24/7 cardiologist over-read service.

CardioGram System 507 is ideally suited for:
- Private or Group Practices
- Hospitals
- Behavioral Facilities
- Correctional Facilities
- Occupational Health Centers
- Emergency Clinics
- Ambulatory Surgery Centers
- Clinical Research Organizations
- Home Healthcare Providers
- Health Insurers

Cardiologist over-read services are available 24 hours a day

CardioGram System 507 utilizes a sophisticated software program to interpret each ECG. Should results of the ECG interpretation warrant a cardiologist over-read, the operator can select the over-read option with a standard or STAT response time.

- ECG interpretation and cardiologist over-read services are available 24/7
- STAT cardiologist response routinely available in 1 hour or less
- Cardiology over-read service is available by FAX for any ECG trace, regardless of unit manufacturer

ECG interpretation and cardiologist over-read services decrease your risk and liability

The affordability and ease of use of the CardioGram System 507 make it easy to report accurate ECGs from any location. The system’s sophisticated interpretation software and on-line cardiologist over-read services decrease your risk and liability.
Easy, fast and affordable - Accurate ECG results can be available from any location

**EASY**
Prepare your patient, and with the push of a button an ECG is acquired and transmitted over a standard phone line to our computer center for immediate analysis and archival. The patient data, ECG trace and interpretation print on a single page ready for the patient’s chart.

**FAST**
ECG results are available in less than three minutes, and if requested, a cardiologist over-read is routinely available in less than 1 hour.

**AFFORDABLE**
The CardioGram System 507 is affordable for any facility and can be acquired using a purchase, lease or per test pricing option. Technical support services and a comprehensive line of ECG supplies are available to keep your system up and running 24/7.

**PORTABLE**
CardioGram System 507 weighs less than 11 lbs and can store over 30 ECGs in memory for later transmission. It operates on standard AC power or with a self-contained rechargeable battery pack, making the unit transferable to any location.

**Specifications**

**ECG Input**
Simultaneous input from all 12 leads

**Power**
110-240VAC at 50 or 60Hz, or internal batteries (approx. 4 hours)

**Weight**
11 pounds (4.9kg)

**Dimensions**
11 3/4" x 11 1/2" x 3 3/4" (28.7 x 9.3 cm)

**Recording Technique**
Computer controlled thermal dot array

**Recording Speeds**
5, 10, 25, 50 mm/sec

**Recorder Time Resolution**
1 msec

**Paper Type**
Thermal sensitive, full grid, 108 mm width, roll

**Sensitivity**
5, 10, 20 mm/mv

CompuMed has been a provider of centralized ECG services for nearly thirty years, providing equipment and services to one thousand locations throughout the U.S.
