PAK301 GDB Solution 2018

Graded GDB for Pak301 will be opened on January 09, 2018 and will remain open till January 10, 2018. The topic of this GDB will be,

How would you analyse the political crisis in the context of internal indifference of political parties in Pakistan?

In my analyses, the political crisis in the context of internal indifference of political parties in Pakistan is, Parties always blame the other party and every leader in race of showing lower other one's in the front of nation.

They wouldn't loyal with nation or country if someone's loyal they will gather to laying him down. Politician of Pakistan is not a politic it's just war between leaders to make nation fool and try to make money for himself.

Politicians didn't do anything for nation they for their party only on they ever think about nation they wants fill full their pockets.

Our political parties are fail to create modern, democratic state and it is the first cries in the context of internal indifference of political parties.

Pakistan has run into crisis after crises, each graver than the preceding and unity has eluded us despite all the fervent appeals made. There must be serious reasons why crises should exist in abundance and not unity.

They all trying to pull others from their leadership everyone just want he is the one and only person who is able to leadership. There is no unity between politicians therefor the nation didn't became like a body part.

Its Just Idea Make In Your Own Words
