

Triangle Climate & Landscape Researchers' Doggie Bag

Take-Home Info from the Brown Bag on February 14, 2013

Main Presentation

Key Habitat Connectivity Areas. Ron Sutherland, Leading Conservation Scientist for Wildlands Network, spoke about the current status of his project which is currently mapping out current and future levels of habitat connectivity in the South Atlantic region. He reviewed the importance of maintaining connectivity across the landscape and described the innovative methods being undertaken to map and create models of multiple groups of terrestrial wildlife species movement patterns across the region. If you have any questions, please contact [Ron](#).

Next Triangle Climate & Landscape Researchers' Brown Bag Topic

March 14, 2013 Ashton Drew from NC State University will present "Biodiversity metrics for agriculture: A database approach to foster conservation partnerships" from 12:00-1:30pm.

Location: Ground Floor Bullfrog Education Room, Wildlife Resources Commission Building, NC State University's Centennial Campus, 1751 Varsity Drive, free visitors' parking in rear of building

News & Events

SALCC Web Forum – February 21, 2013 (Lori)

- The SALCC will have its monthly Third Thursday Web Forum on February 21st at 10:00 am. The main presentation will be *Landscape Conservation Cooperatives and Climate Science Centers: An Evolving Relationship* by Jerry McMahon from the Southeast Climate Science Center and Rua Mordecai from the South Atlantic LCC. For more information on the SALCC Web Forum and to attend, look [here](#).

Climate, Conservation and Corridors –February 28, 2013 (Aranzazu)

- The Southeast Climate Science Center presents the fourth installment of a new spring seminar series on February 28th at 3:30pm at NC State University. The presentation will be *Landscape Genomics of New York City* by Jason Munshi-South from Baruch College, CUNY. For more information about this seminar, look [here](#).
