

THE CHALLENGE

To increase student STEM identity through mentoring that will:

- Inspire** interest and excitement in STEM
- Engage** students in projects that build skills and confidence
- Connect** students to professionals and career possibilities

- The lack** of STEM exposure, interest, and identity among middle school students
- The gap** in achievement and opportunity among underrepresented students
- The shortage** of students graduating with STEM skills needed to meet local industry demand

OUR MISSION

YOU CAN HELP!

BECOME A MENTOR

- Improve** local STEM education and build skills for the future job market
- Create** leadership opportunities for your organization's employees
- Join** the ranks with others like IBM, Cisco and Capital One

YOU:

- Commit to 6 one-hour school visits*
- Lead a hands-on project*
- Offer insight on STEM careers*

WE:

- Provide lesson plans and materials*
- Offer training and support*
- Match you with a school and program*
