Water: If the gate is open the water main valve is usually ON. To turn the water on or off there is a 4 foot tall blue pipe just inside the front gate about 30 feet in and off to the left about 20 feet. There is a valve tool attached to this pipe with a blue metal disk, pick up the disk and there is a red valve handle. Take the tool and gently rotate the valve handle (1/4 turn) counter clockwise to turn the water on and clockwise to turn the water off. It only turns a 1/4 of a turn so please do this GENTLY.

Fires: Campfires are permitted in the designated fire rings. If Camp Brosig is under a fire ban, you will be informed in the email cover sheet. Gasoline, diesel fuel and other liquids are not to be used to start fires. Please keep fires low and reduce sparks in windy conditions. Have water available to extinguish fire. Fires should be monitored at all times and put out cold before leaving your campsite or going to bed.

Barn: Ask volunteer staff for access to equipment stored in the red barn.

Trash: You are responsible for taking all trash you accumulate during your stay to the dumpster located at the front entrance. You cannot burn your trash. All trash must be in a bag and inside the dumpster. If trash will not fit inside the dumpster, you MUST take it with you. Trash MAY NOT be stacked outside the dumpster or on top of the dumpster. Please remember to check restrooms and other areas you may have used, and remove all trash. Animals will make a mess of trash left in camp. Camp Brosig has recycle bins located near the red barn for aluminum cans and plastic bottles. Please empty liquids, leave caps off and crush bottles.

Rosters: Complete an Attendance Roster and turn in to your Campmaster or email to Geno.Aguilar@shac.org Monday morning.
