

Retuning instructions for Toshiba televisions with integrated FreeviewHD receivers

Auto Tuning

The Auto tuning will completely re-tune the television and update the channel list.

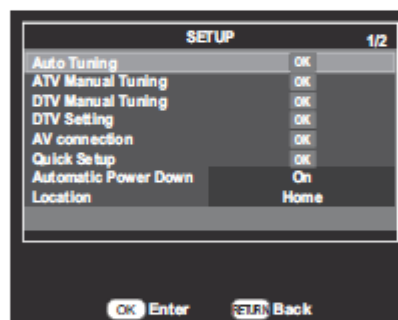

It is recommended that Auto tuning is run periodically to ensure that all new services are added.

Note: All the programmes and settings that were previously saved will be lost.

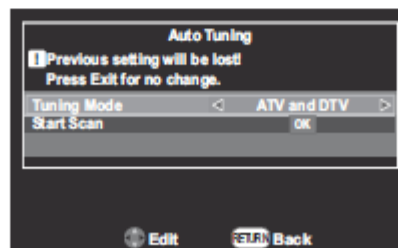

1. Press . Use or to select **SETUP** and then press to enter.

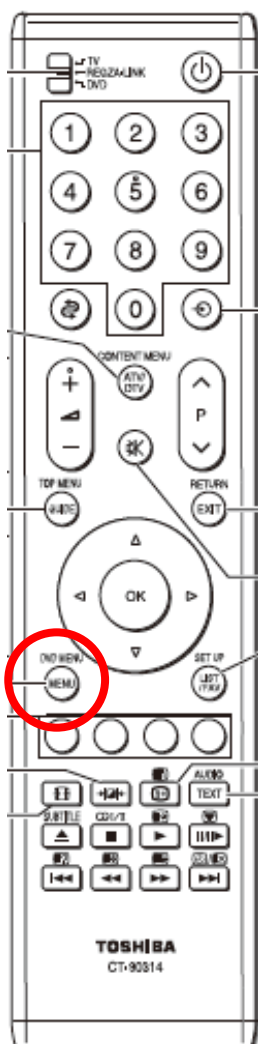

2. Press or to highlight Auto Tuning and press to enter.

3. Press or to select the Tuning Mode.

4. To start channel scan, use or to select **Start Scan** and press .

Once scanning is complete your television channel frequencies will have been retuned. Press **EXIT** to leave the onscreen menu.
