HOW TO MANAGE FUTURE KNOWLEDGE

Md Santo – Mobee Knowledge Services – Jakarta, Indonesia – http://mobeeknowledge.ning.com

To addressing the management of future Knowledge, we in *Mobee Knowledge Services* provide 2 (two) maps describing our efforts toward managing future Knowledge:

1. We put KM education within context of "SpaceTime" dimension or we put the term "Spatio Temporal" approach in order we could give space to possible futuristic unpredictable KM development. The following is the diagram intended as Learning Management System (LMS) of our Spatio Temporal version to addressing the issues of "Future Knowledge (Source: http://bit.ly/j8p4kK and/or http://mobeeknowledge.ning.com/forum/topics/spatio-temporal-learning-1):

• <u>Proprietary Rights of Mobee Knowledge Services :</u> <u>Impact of HSBKM model framework to Theoretical Physics</u>

PROPRIETARY RIGHTS	BRIEF DESCRIPTION	
1. Human System Biology-based Knowledge Management (HSBKM [™]) model framework http://bit.ly/v7Ve1S and http://bit.ly/pKAO8U	Our Knowledge Management (KM) model framework derived from human system biology model, in which KM is a comprehensive entity of <i>Technology</i> (KM Tools) analog with human senses, <i>Processes</i> (KM Process Framework) analog with human mind brain and <i>People</i> (KM Standard Culture and Value) analog	

		with human consciousness DNA respectively
2.	Mobee Knowledge Competency Capability Maturity (MKCCM TM) model http://bit.ly/e7HCoM (pp 5-7 and pp 61-64)	MKCCM [™] is our KM metrics to complementing the operational concept of HSBKM [™] considering that Knowledge is an important living valuable aspect and must be well managed and measured
3.	Spatio Temporal Knowledge Management 2.0 Learning Approach http://bit.ly/j8p4kK and http://mobeeknowledge.ning.com/forum/topics/spat io-temporal-learning-1	We put KM education within context of "SpaceTime" dimension or we put the term "Spatio Temporal" approach in order we could give space to possible futuristic unpredictable KM development
4.	Knowledge – Value (KV) http://mobeeknowledge.ning.com/forum/topics/imp act-of-human-system-biology-based-knowledge- management-hsbkm-m, http://mobeeknowledge.ning.com/forum/topics/hum an-knowledge-to-nature-knowledge-knowledge- consciousness-entit and http://mobeeknowledge.ning.com/forum/topics/fro m-boson-to-human-knowledge	Derived from HSBKM TM applied to Nature Knowledge continuum and driven by Psycho-Somatic entity paradigm as well as DI – KW* (separated) model concept as widened perspective of Knowledge in broad meaning, we use absolute value scaling ratio ranging from 10 ⁻³⁸ (<i>Planck number</i>) applied to <i>Knowon</i> (see: box below) and consequtively 5.0 applied to human <i>Knowledge with Higher Consciousness (KHC)</i> or accumulated to KV = 9.0 as human maximum possible score <i>en route</i> to infinity or goes beyond human KV. KV is mean to assessing hypothetically the intensity of Nature Knowledge consciousness element factor within Knowledge (K) continuum in the Universe all at once complementing E (Energy) and M (Matter) of the Universe
		*stands for DataInformation – KnowledgeWisdom
5.	Mobee Knowledge Constanta ("k" constant) http://mobeeknowledge.ning.com/forum/topics/imp act-of-human-system-biology-based-knowledge- management-hsbkm-m	Knowon (see: box below) as determinant factor of emergent property in complexity within Nature Knowledge continuum generated a constant factor written as "k" functioning as a constant factor ranging from 0.0 – 1.0 applied to Mass – Energy Equivalence or the equation E = mc² to be written as E = k mc². K achieved as 1.0 at age of the Universe was about 370,000 years after Big Bang where Matter domination reached up to time before the evolution of living – biological system taken place, and then after that "k" positively exist gradually less and less than 1.0 The "k" = 1.0 representing the

highest entropy of certain loci in the Universe. Both KV as well as "k" supposed as KM metrics applied to Nature Knowledge and considered as hypothetical metrics

6. Mobee Knowledge Knowon

http://www.delicious.com/mobeeknowledge/knowo

n , http://bit.ly/rjJzgb and http://scr.bi/o5p9Av

A hypothetical particle that mediates the force of Knowledge consciousness element in the framework of quantum field theory but independent to SpaceTime (IST) factor causing entanglement effect in quantum mechanics and particle physics. We speculate that Knowon is the candidate of "Psychic (Consciousness) Mediating Particle" of the Universe with noted that Graviton, the counterparted particle, is the "Somato Mediating Particle" of the Universe. The word "Somato" means affecting or characteristic of the Body as opposed to the Psycho or Consciousness. Proposed as fifth fundamental force of Nature, Knowon must be massless (because Knowledge force has unlimited range) and seems do not related with or at least don't have spin quantum number as the other mediating particles considering that Knowon is IST. The phenomenon of emergent property in complexity of Nature believed as the manifestation of the work by consciousness element of Knowon as "Psychic (Consciousness) Mediating Particle" within their target loci counterparting the work of Graviton as "Somatic Mediating Particle" in shaping SpaceTime, manifested as an entity particle we believe as Higgs Boson, instead of collaboration with other three fundamental forces of nature, strong-weak-electromagnetic forces or Gluon, Photon, and W-Z respectively

Brief overall description: http://mobeeknowledge.ning.com/forum/topics/impact-of-human-system-biology-based-knowledge-management-hsbkm-m or goto direct link http://bit.ly/mY6gXY - "MAKING KNOWLEDGE

MANAGEMENT BETTER THROUGH KNOWLEDGEABLE CONCEPT"

Note: What is quite interesting of point 2 above, from our Human System Biology-based Knowledge Management (HSBKM) model framework as well as our Mobee Knowledge Competency Capability Maturity (MKCCM) model as Knowledge Management (KM) metrics which has been used for our KM consultancies since 2009, we treated them with "inverted paradigm method" (basic science derived from applied science). The resulting process making us succeeded in developing theoretical constructs derived from KM applied to Physics namely Theoretical Physics as well as Astro Physics

To get informed the further briefly, should you visit URL http://bit.ly/v7guKs "K-Interface, K-Value and Fundamental Force relationship viewed from Human System Bio-based KM (HSBKM)", http://bit.ly/omLKPv - "The study of Human Consciousness: Penrose vs Md Santo" and http://bit.ly/rvDQMO - "Knowledge Value (KV) Measurement"
