This book is the fascinating personal account of a life dedicated to judo by a man who has excelled in every aspect of the discipline. It is a book which reveals the strategy for success, that is underpinned by the basic principles of judo. It is a book which reveals how to be successful, not just on the mat, but in life. It is a book about the fascinating people George Kerr has met on his journey.

*“It is a book about life,
not just judo”*
