

Quantum Connections

A course of action for organizing the power inherent in unseen connecting at every level - wherever and however manifested to combat fear, isolation and helplessness.

Summary:

This document has been designed to outline several aspects of Quantum Connecting (QC) and shall be left open to accommodate new methods as these present themselves. So far we have:

- * Dreaming
- * Daydreaming
- * Visualization
- * Meditating
- * Allowing
- * Listening
- * Prayer

Traditional communication mediums (voice, telephone, text, email, story telling, meowing, barking, singing, etc) may not always be the most effective or accessible ways of conveying information across distances. QC offers alternative ways of communicating and understanding communication by increasing connection across all media, all platforms, even time and space as typically perceived.

How-to:

Solution Plan Summary:

To create a forum which:

- Presents the possibility of creative connecting via the unseen to those unfamiliar with it
- Allows for the exchange of QC methods between all interested practitioners
- Offers options for those who cannot read, type or text via assistance from those who can/do
- Introduces new ideas in connecting which cross boundaries wherever they might exist

Short-term Summary: To introduce the discussion of Quantum Connectedness to those who might want to learn more, hear stories and experiment with the concept right now. To introduce this topic relevant anecdotes, research, titles and links for all interested to learn more, will be offered.

Phase I - Basic goals and requirements:

1. Awareness of the existence of this forum for collecting information from all sources willing and able to provide it.
2. An inclusive framework which allows all views, both friendly and opposing.
3. Live editing so the output is representational of the majority of the self-identified editors
4. A connection to personal additions (videos, blogs, diaries, etc) to give dimension to the content.
5. An online forum for discussing/editing the process of creating the first iteration of this report.

Phase II - Consolidation:

1. When content is added, links made, meetings called, and myriad voices heard and recorded here, we will know the plan has been initiated in earnest.

2. An interactive, always-updated version should live online for eternity.

A periodic Report can be published/linked to or offered up via these very same alternative means.

Maybe it will get started right here by the end of the week - and maybe it will take a year, or ten, or fifty...one thing is certain, it has already begun outside this electronic container and seems to be gaining momentum in all the right directions!

It IS regardless as to whether it gets reported here.

Phase III - Maintenance:

1. A proper back-up system to insure against griefing, hacking or plain old equipment failure.

2. A hard-copy book periodically produced for the information to be shared through non-digital media

3. A podcasting/broadcasting platform added, to encourage Story Telling

4. Reactions + feedback should be shared and encouraged, positive or not.

Supervision

Contributors can self-identify. Griefers, hackers, terrorists of any sort have a buzz about them that those who are more sensitive can attune to and negate.

Relationship with other Superstructs/Plans

This plan is made to hold space for all other plans that seek to collaborate on whatever projects , at whatever levels.

Compatibility with other SUPERSTRUCTS:

Quantum Connections, The Parallax, The Hope Foundation
