

Dear brothers and sisters,

At the end of 2008 we have started a thread: "**2012 Nexus Event – Unknown Form of Energy comes our way**" <http://www.projectavalon.net/forum/showthread.php?t=8441>

The **main objectives** of this thread is to achieve **synchronisation** of the **consciousness of humanity** with **Gaia** i.e the consciousness of our Planet, to activate **healing energies** with the intention of **regenerating the DNA** of life and to **prepare ourselves and our planet** for the arrival of the **Nexus 2012 Event**; being a Superwave of energetic waves that will arrive from the galactic center.

In **summary**, this is an attempt to **synchronise** as many people as possible, particularly those already participating in **spiritual groups** in the world that are performing **meditations**. This single meditative stream of consciousness, carries enough **psionic power** to influence the basic structure of the **Matrix** for the **benefit of humanity**. Collated from the research of many respected scientists, but mostly from the respected **Dr. Masaru Emoto**, we now know and have factual evidence, that **human vibrational energy**, thoughts, words, ideas and music, **affect** the molecular structure of water. http://www.life-enthusiast.com/twilight/research_emoto.htm

This indicates that our **thoughts** influence matter and the stronger our thoughts become - the stronger becomes the **impact** of the molecular structure of the Matrix. If the thoughts of a single human being can do this to a water molecule, can you imagine what impact on the fractal structure of the Matrix will have if **millions of people** from all over the world come together into a meditative Oneness. Hence, meditating on the same positive objective and transmitting the same intention leading to a shift in reality for the better.

In our world today we are witnessing many **evil agendas** resulting in a **negative direction**. It has become obvious that we cannot trust our **governments** anymore, as they are just following the private agendas of the **Elite**, and do not care about us and our planet Earth. That is why we all have to understand the true nature of our existence, that we are in fact **consciousness** inside a physical body and that we can influence our environment. The impact of a planetary meditation will profoundly **resonate** a direct and clean positive **shift in our reality**.

We **strongly** hold the opinion that the **catastrophic scenarios** that are **coming**, can be **prevented** to a certain point with the **power of our consciousness**. This is because the fractal structure of the Matrix can be modified with the power of our thoughts only if they are **pure** enough, if they are **strong** enough, and if they are **focused** to do such a **change**.

This is the **ultimate message** that the **ETs** who are delivering knowledge and information via **crop formations** are telling us. It is **up to us** if we will take their **messages** more seriously or we will discredit them. The **result** of that decision will **affect us all**.

In this fashion we've begun the **1 hour long** synchronized planetary meditation from our homes every **Saturday** 8 PM GMT. Every participant starts the global meditation according to the Time Zone of their respective location in accordance

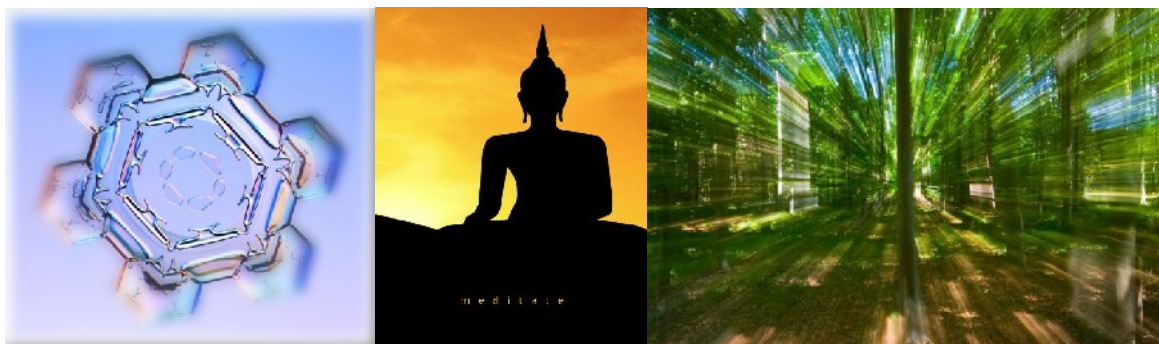

to the 8 PM GMT. Please refer to the link below for more detail.

Every time we use **different music** which serves to stimulate our state of consciousness, it also provides a stable connection between everyone and generates a positive emotional charge. Once the positive emotional charge is generated we can direct it externally from our bodies with the intention to lift the **vibrational state** of our **planet**. Thus, causing a healing process of our **Earth** at the same time. In other words, the end result would be to **balance** the everyday emotional charge of **millions of people** that influence our current state of reality. The **meditation methods** will be changing as we're progressing and growing in numbers. At this moment we are using only a basic meditation method:

We are frequently **updating** the **music file** prior to up and coming global meditational events. For updates please check:
<http://www.healingexperiment.com/themusic.html>

Also one of the **key objectives** at this stage is to locate as many **spiritual groups** on every **continent** and to humbly ask if the group will **synchronise** with us. Any **assistance** in this direction will be **greatly appreciated**. For information or assistance in this direction please contact: bergmanmichael@msn.com with the subject line: nexus 2012

However, all this is preparation for **global meditations** to take place at **sacred sites** that will start on **May 9th 2009**. The idea is to **generate** as many people as possible at **ancient sacred sites** (the acupuncture points of our planet).
<http://www.healingexperiment.com/thegrid.html>

This creates a **stronger interaction** between **us** and the **energies** that flow across our planet. Today it is well known that these energies are stronger on some places. In fact the most **ancient sacred sites** were built on these exact locations where the

magnetic energies intercept and are most powerful. We will use **geo-music** for every location on the planet, as every planetary energy point resonates its very own **frequency**. For more info on this subject please see the **Nexus thread** on the **Avalon forum**.

Much is appreciated if you would understand and see our **vision**, that this is necessary **to be done** and that the net result is **achievable**. If we **believe** that it is possible and we want this **change** we will do it with resounding **success**. The more that participate the more powerful the intention becomes.

We **feel** that the time for conflict is over and that we have to move towards a new paradigm in our **evolution** as a **race**. If we look around we can see that everything is changing in **great speed**. Our **Sun** and the entire **solar system** are changing rapidly on every level. **Humanity is changing**. We are **awakening** from a long and deep sleep and are starting to see the **bigger picture** i.e. that we are only a spark of life of infinite manifestations in the **Universe**.

We will leave you with a **message** extracted from a video providing much wisdom:
