HARD NEWS

T, R: Remember the tide has completely shifted: the shift has hit the fan!

- The stories T & R been telling for so long: accountability is the train we're on!
- What T & R have been saying is not in the news, or it doesn't seem to make sense in terms of what we've been taught – have to unlearn everything, as Master Joda said.
- Last week when the Mr Stumpf, **CEO of Wells Fargo** left
 - was to get so much as pension + some dividends totally \$2 million
 - Nomi Prinz trumped him; said something interesting:
 - so you can have someone walk away – he was hit with a stock award find ?
 - And the rest of the company will continue to do well?
 - Wells Fargo's total crimes under his administration : have been fined \$10BILLION! So \$10 B of crime is OK?

R: if he goes to the local store and wants a candy bar and says I'll pay you next week – won't be leaving the store! Or if you steal that candy bar and do that 3 times in a row, will end up in jail for 50 years, thanks to mandatory sentencing & Bill Clinton!

- Out of sight out of mind, no longer works. And now there are incredible whistle blowers on the alert.

R: spoke with **Ms Michelle Obama** for a minute with **Natasha**

N to Rama: keep doing what you're doing!

MO: and I will keep doin' what I'm doin'! [She was in Arizona at the time]

R: each day, she keeps asking why the world gives this sexual predator air time! She is calling out the dark energies these ones have projected since Babylon!

From Michelle:

- There is a phenomenon is going on: all the paschats and the other galactic solar beings are in a stationary orbit, in the millions of craft, in the ORRT cloud which is a debris field of different gases, meteorite bits, etc – remnants of the destruction of the super nova event which blew up Maldek and turned into an asteroid belt
 - the millions of craft are sending radiant 12th dimensional energy representing Sekhmet and Alcyone, the Great Central Sun in the Pleiades, and Helios and Vesta, who are the sun behind the sun, located in the Tree of Life at the door of Daach
 - and all this energy gets funneled to Galactic Centre, the Hunab Ku which, in Mayan symbolism, represents God/Goddess/All That Is AND the Tree of Life
 - This is a cosmic hookup by-passing all false agendas of fallen angel agenda kind, including old order agendas that are false that we are not dealing with
 - there is no one being left behind, but we might not like what this means
 - love is all there is; don't worry, be happy!

MO: this conversation never happened; have a very nice day Lord Rama
R said "I don't know anything; hasta la vista!"

MO: "Hasta la vista to you too, Lord Rama; NESARA now!"

T: amazing that **R is getting to talk to her**; it's like Barack has passed the talking stick to her already in the case of T & R

R: has to do with the mother goddess coming forward to protect her children, and the mothers sitting in Aleppo dealing with their children now – dead; or missing body parts, and all being blamed on Russia, Syria and **none of this is who is doing it**

- It is all our technology – like Tony Stark of *Ironman* saw his own technology coming after him before he made his iron suit – have to take this to the highest level of “I am sorry, please forgive me; I am sorry; I love you”

Audio: more about Libya, and the truth of what Rama just said

R: Quadaffi was quirky, not always so nice

- Libya has become a failed state since Hillary / NATO invaded, with the backing of France; it's like Somalia, for which Hillary was also responsible. Both places are no man lands like in *Mad Max*

Watching the Hawks: 2016-10-21

Now on to election night: 3rd & final debate w/ Ed Schultz (E345)

On this episode of “Watching the Hawks,” Tyrel Ventura & Tabettha Wallace are joined by Ed Schultz to discuss the 3rd and last of the presidential debates. Brigida Santos interviews Hammuda Abidia as we lead up to our 5-year Gaddafi special on RT America. Sean Stone interviews Eva Bartlett for a different take on the conflict in Syria.

Audio: Thom Hartmann reading his blog about the 2nd Amendment

[SEE BELOW]

T: Hillary is responsible for regime in Syria, regime change in Libya, regime change in Somalia, regime change in Yemen, and regime change in Sudan – a huge crime

- Bill and Hillary also created the mandated prison sentencing which resulted in the doubling of the incarceration rate for people of colour: the pipeline to prison

CONFERENCE CALL

Greetings from Birdman!

Carolyn Oceana Ryan [COR]: asking for T to repeat the discussion between Rama and Michelle Obama

Michelle Obama and Natasha – called Rama this week.

- Michelle's daughter is no slouch! We will have beautiful young women and Michelle for president, and Barack in charge of the kitchen!!!
- This will be a treat after . . .
- MO said “keep doing what you are doing” – a signal that **they listen to us!**
And then she said: and I'll keep doing what I doin'!
- a phenomenon is going on with the sun; all paschats and all the other galactic solar beings are in a stationary orbit, in the millions of craft, located in the ORTT cloud – the site of a debris field of different gases and meteoric bits, and remnants of the destruction of Maldek, similar to the asteroid belt [ORTT is similar to the asteroid belt; not located in the same place]

MO: the millions of star ships in the cloud are sending radiant 12D energy representing the Great Central Sun which is Sekhmet and Alcyone [not correct in the sun ray meditations] in the Pleiades in the Milky Way Galaxy, and Helios and Vesta in the sun behind the sun, located at the door of Daach in the Tree of Life – Helios and Vesta live there, the divine couple holding the energy of the sun behind the sun; they are also actually Sananda Kumara's parents!

- These double energies are all filters through Galactic Centre, the Hunab Ku location, and beyond to Super Galactic Centre, a Galactic cosmic hookup – by-passing all false agendas of the previous, old order, fallen angel agenda kind.

MO: This conversation never happened; have a very nice day

R:I don't know anything, nothing, nada. Hasta la vista.

MO: hasta la vista to you too Lord Rama. Namaste. NESARA NOW.

T: THE WORK WE ARE DOING AS A GROUP IS PAYING OFF RIGHT NOW – years and years of getting people to understand the layers of ignorance, naughtiness

- Document on Mayan symbols for the creator, Hunab Ku and the Tree of Life – from <http://www.sun-nation.org/sun-maya-hunab-ku.html>

Mayan Symbol for the Creator, Hunab Ku and the Tree of Life

- No she wasn't joking – **no one else is getting this conversation other than us on this call - R is the only one with no gag order** – yet she's talking about “keep doing what you're doing”. This is not necessarily what the world is waiting for: a black lady goddess who can bring Mother through – ruling the world!
 - Mother has been overlighting Michelle the whole time: she is an aboriginal moabite from the start. And Barack went to Mars - COR tries to imagine what that must have been like!
 - MO is very well informed and a master like Barack – has a PhD from the U of Chicago in law – she's a sovereign law smith: has no title of esquire: she's a double agent too
- COR:** a law smith?
- Someone who does not carry a title of nobility. When St Germain [as Shakespeare] said kill all the lawyers, he meant all those taking their loyalty to the Queen
 - these 2 are double agents – in the world and not of it: and they have so much

discipline and the piles of crap on top of them is unbelievable

- R** went up the mtn yesterday to speak to Soltec and Monca – got to the ski lift at the top and got a free ride from 10,000 ft to over 10,500; took his famous shopping bag - crystal grid, copper wiring, cell phone. Hooked it all together – he was taught by Natasha how to do this, also how to get on the time craft so a hologram of a person shows up in front of him;
- The Quantum Leap show first showed this – getting an image in a screen in the middle of the air – she was a 5th dimensional kind of being letting someone know what was going on – he leapt from present day to 24th century: this show is a couple of decades old –
 - Rama was shown how to do this too with his cell phone computer and got Rana Mu the first time; this time, he hooked it all up and got Soltec and Monca as an image in space on his cell phone– Soltec is in charge of Mars; son is named Toltec
 - Monca and Soltec are co-rulers of Mars
- the European Space Agency tried to land a probe on Mars; although communications shut down to earth – before they got any confirmation of a successful landing - Soltec and Monca intercepted the communications and disabled the probe. The reason was that galactic personnel of The Phoenix Rising were present & no one wanted their presence revealed, so Soltec and Monca are re-programming the droid probe to send pictures and info back to the European Space Agency – which will be the truth about what is going on on Mars
 - The probe is also being upgraded in its intelligence so it can override any attempt to re-program it; the info will get to the people through the galactic ground crew who will be posing as normal people. As the signal is given, the true message will reach all main media stations around the world
 - the true story is that the people of earth are not getting the truth – **Mar's atmosphere is blue, not red;** NASA and others have been using a red filter on the telescope to transform the pictures from Mars.
 - It has a breatheable atmosphere – do not need a space suit. The atmosphere is lighter, too; as we go with the galactics, they will adjust us to that atmosphere
 - on top of that, the ancient beings on Mars are the Great Silent Watchers from 65 million years ago – they are Mother's people.

Sonja: interested in finding the source; a discussion about Veracochoa

T: no matter what the story is on another level – Veracochoa was Monca and headed up the Inca empire and this is a fact – whatever the story is, it has more enriching content than the other story

- Also, so much of the spiritual information needs upgrading because we are evolving so rapidly and are ready to hear larger pieces of this story.
- Swas saying from the 12th Dimensional energies are being represented and sent through the great central sun, and the sun behind the sun at the door of Daach and the Tree of Life – overlit by Helios and Vesta who are Sananda Kumara's parents
 - all the energies are being focussed into the galactic centre – the Hunab Ku - and beyond to the Super Galactic centre, by-passing all the agendas of the fallen angel kind

- This conversation never happened: reference to what Michelle said: the masses are kind of limited in what they are ready to hear, and we are the teachers' teachers' teachers
- COR and P are making notes like mad women – this is a story and we love to lie – yet these ones cannot stop it

R: I know nothing – hasta la vista; namaste, NESARA NOW.

- Knowing the dates would clue in the dark hats

T: when R has conversations with Michelle, and we have a framework of knowing that Bernie won by a landslide in the primaries so he should have been the candidate and would have taken Trump to the cleaners! Hillary & Trump are working together

- also said that Bernie may get an option anyway to go for the presidency
- R talked to Rana Mu who said: possibly 4 more years – a window – even though there is a limit of 2 terms, the whole 8 years was changed by a pile of treasonists - NESARA could give Barack 4 more years
- another story: if one or the other, or both, of these candidates are able to be in the running as nominees, and this becomes true in the 4 weeks before the election day Nov 8th - and in the middle of the morning, Julian Assange released his first drop about her e-mails

T: It was a Wikileaks October surprise and explains why Assange went silent – we should know by now that every 24 hours that goes by as all the folks say – 1 hour is one thing; the next hour is entirely different!!! We need to have our 3rd eye opened more.

COR: goes back and forth between F1 and then F2

T: talking about the whole holpgraphic sphere of influence, which means that there is something coming in

- Eva Bartlet lives in Gaza – a very, very brave woman, a millenial – has been going into war zones for at least a decade.
- T & R have a friend who for 10 years has been going to the middle east and getting in it! Another Millenial – we of the prophets generation were also incorrigible! As we work in the light and the power of all that is . . .

COR: what about Bob Dylan getting the Nobel Prize? Did what Fulford say have any meaning ?

T: yes and Bob Dylan is totally compromised at this point; he got into big money and was made to use his money for genocide. Fulford is so greedy and he's pretty mind-controlled and a dirtball – only a small portion of truth in what he says

COR: gets columns from people of Fulford asking her which is true and what is not – she tells them to listen to T & R

T: Ben F has been writing for decades – many of the lightworkers are still not sure how to deal with them[selves] being in a pickle; the prophets' generation still do not quite grasp [what has been happening behind the scenes]; this is unfamiliar territory in this country – the amount of poverty in the U S is unbelievable; the white privilege cannot stand – it is the reason for slavery in the first place – it's a program.

- The black Madonna is here in Michelle, and we are here to help people wake up all the way. And a white man like Fulford to get in with the white dragon society and act like he's the scholar is also unbelievable! He was head of Forbes in the 80s – Forbes magazine is a bunch of dirtballs

- one more thing – on yesterday's story: the Great Silent Watchers on Mars for 65 Million years –
 - Monca and Soltec said they are here to help earth become the 33rd planet to ascend, and to help us so we can open our hearts and receive the higher frequencies which can transform our physical, emotional, mental and spiritual bodies, and be without death and allow health, wealth and wisdom to come in, and for us to focus on the sun's energy

COR: what does that mean?

- They are referring to the phenomena – yes, you can look at the sun, but best to do it in the am and pm – chemtrails in the mid day; and so many anomalies – could harm the skin and the eyes.
- In Hawaii – the energy in the sun was

T: just met a friend of Sonja's, now living on Hawaii – when she was there in '81-84 – had a friend who was an army brat, had red hair down to her knees, could swim and hold her breath underwater for 3 minutes. She was filmed swimming with leopard sharks under water – many things going on. History channel said sharks are not after people – they are gentle beings but they have been abused brutally: the Japanese value shark fin soup and cut the fins off for the soup and throw the shark back into the ocean to die.

COR: appalled at this!

T: won an award – Oprah presented the award for that documentary and portions of it were shown – as a result, a whole movement started.

COR: What happened to that movement?

T: out of sight, out of mind – when people are not looking, they [whalers] start up again

COR: Barnum and Bailey have retired elephants to their sanctuary – will no longer used in the circus, according to something she read

T: has seen this too – Mother . . .

COR: a lot shakin' at once!

T: about Sonja's comments: the **atmosphere of Mars is blue** and this changes the vibration of what this really means. We have been told so many things in the past – in different realities, these things overlap and we have to see all the layers and understand

B B S RADIO

MOTHER SEKHMET / ALCYONE [M/A]

Introductory Music: Russian shaman goddess speaking

In the Light of the Most Radiant One, in the Office of the Christ and only in the Office of the Christ, we invoke the loving energies of St Germain and the Violet Flame.

That the deepest roots of our souls open to rooting all the way all that is not of the new Earth or of the Dance of our Oneness of our Beingness that all indigenous people and their humanity and existence in autonomy and love, and co-create in love.

Greetings, Children of Ra!

Indeed, we are in such transformational times! All the kingdoms are here, as we have just heard

- That was Russian shaman goddess speaking – sound frequencies of the various friends of hers throughout the Russian forests. These ever expanding energies that are transfiguring our sector of space, their little dance here with . . . all the focus is on earth at this time, as

we make our ascension and the energies pouring in at this time – our sun, Sol, going through transfigurational gyrations as He/She, All That Is is moving up in octaves as we move into Sat Yuga – a natural progression going from Kali Yuga to Sat Yuga

- as things get more and more lifted higher, we remember the song “You Raise me up” - what is happening is that every particle is being raised up. It is in loving, divine presence that particles have asked, so they are [being raised up]; whether we accept it or not, it is happening.
 - This old age of separation is getting dissolved; more and more stories coming out about the feline people, as well as all the other kingdoms at this time. It is so magnificent to behold and, in the same breath, same moment, it is an outrage to watch how people of colour have been treated on this planet. This is why the First Lady is on her high horse and not going to get off until this is fixed!
 - It is that all of her [Mother's] children have asked to be in a place that is safe, secure, and to be able to transform, thrive and have their well being
- We can say with great certainty that the energies pouring in right now - there are all kinds of issues running about out there, even to some rumour about “are they going to pull a fake alien invasion on election day to distract the people?” She can say that, try as they may, they are ultimately a failed state.
 - All that is transpiring is about – the great unravelling: the heros, the prophets, show up to shift the order of the ages to one of peace, harmony, love, balance, and joy instead of these war stories. We have had enough war stories for so many eons of time.

T: The indigenous people all over the world have said they don't want this!

M/A: she can tell us about tales that go far beyond this planet, that go so far back: enough is enough!

- this is the moment: we are all here; we asked to be here at this particular juncture of the story as the shifting of this age from Kali to Sat Yuga – as Brahma, Vishnu, Shiva bring the wisdom of how we have 100,000 years of peace.
- May seem like just a fairy tale, yet it is being grounded in physicality as we are watching the Wise Councils of Elders already forming on the planet. Let's say elections are at this moment – it is not in balance, yet there is something called **serendipity** that changes this whole story; she will not say

T: What do you mean, Mother? Are we going to get it before the October surprise month is over?

M/A: the 5th element is the issue at hand here – serendipity; the 5th element is love, and love answers all the stories of how they extend, in friendship, her paw, hand – however we wish to see it.

- We are all one in this story of great diversity, and it is so magnificent to behold, as the millenials are coming into their own by saying “We will not tolerate anything less than the freedom to bring in what is being asked for here – this Golden Age”, and she can tell us with great certainty that Gary Johnson is not going to give it to us, nor is the Dragon Lady or the old Ankle Biter – another name for “archon”/Orange Hitler

T: He's something else! Entertainment Live?

M/A: it is time to do the act that Uncle Thom [Hartmann] was talking about – time to repeal the 2nd Amendment. When we live in a realm with a single god, we can create a civilization –

as we have an idea of how to create magnificence in all of what it means in pretty much instantaneous form

- This is the reality she's talking about : no bones about it: why would we want to play with weapons that would turn a planet into an asteroid field?
- why is this being brought up? Because they are here to assure us and the people of this planet that it will not become an asteroid field.
- How we begin to have that conversation as all the technology of using the ray of Beloved Ascended Master St Germain for death, meaning uranium.
- She heard a story today about corporations mining uranium along the edge of Grand Canyon!; playing with the idea of privatizing Grand Canyon – Not gonna happen yet they want to play with these ideas

T: asks about what they want to mine along the edge of Grand Canyon – gold?

M/A: uranium, the violet ray – and this is why she is saying . . .

T: that is why she's here – they want this to go on forever and [they have already removed] 1/3 of the MWG as seen in the future [by the wingmakers]

M/A: this ends with everybody here, the heros, the prophets - we are the ones who make this dance, dreaming this dance awake. At this time, the stories about how the interaction of our sun, along with the centre of the Milky Way Galaxy: everything is in divine alignment and order. It is an upliftment, not a negative thing. It is about becoming – why it feels like to become a physical sun and the radiance of that energy – it is only about infinite love, peace and joy

- this other story of infinite samsara is over; the issues at hand of how we get our freedom with our power is about love in the most basic levels –
- We all have a role to play in this; this is why we are called the Rainbow Warriors.
- The nation that was spoken about by the indigenous elders: that the rainbow warriors would come at this time, hook up the Rainbow Bridge to Asgard - not about anything called abduction or kidnapping: this is about how we build it here, and they show up to give us a little tweak here and there about how the universal living matrix works, which is based on the merkaba and how it interacts with the fractals of how everything fits into everything else in divine sacred geometry
- This gigantic jigsaw puzzle has such divine orchestration – we could not have created it any better because we helped to create it: we said show us how to create and she said here you go; now it is here; we are the ones, and this lady is speaking truth to power like no one else:
 - now is the time to share the good news of how we heal this by the ancient wisdom of these record keepers of very ancient beings that are coming forth now; that have the foundational structures of how we do this with love. And it is about the sacred geometry that [is] being orchestrated into play, the astrology, the movements of how things line up right now. Making it such that the Light has already won. Folks like Goldman Sachs, Bear Stearns, Lehmann brothers . . .

T: They are the ones who have never really had to pay by sending their personhood to jail

M/A: they are an endangered species, and she is not making veiled threats – when you go up against the energy which is called the frequencies that pour forth from the centre of the Milky Way Galaxy, Hunab Ku - it is in a certain construct – it must be dismantled and the pheonix comes as it is brought . . .

- as it has been said, about this time of the 5th, 6th sun – the red star kachina, blue star kachina – all here; everything is coming to pass

T: It's a convergence of all the different roads on the good red road – all the different teachings - African, Hindu, Egyptian, Quan Yin, Mayan, Siberian: what an amazing piece of music that is!

M/A: all the wisdom keepers that are the ones that walk, swim, fly, speak with these sounds – have a role to play in this sacred circle. As the great owl has told us, the stories of the ancient ones who are back; now comes this time where it is time to pay the piper –

- this is why she must say: rejoice, our salvation is at hand! Our own hand has done it

T: they tried to fool us, right? [**M/A:** Yes!] Thom H was talking about this before he went to Vegas – he went back to the original case that Trump did not want to be President; he wanted a TV show: that he and Hillary agreed to this and that they would win, either way: they thought!

- and lest we have walked in another's shoes, judge not – and she was a designated annointed one as the granddaughter of Hitler, Angela Merkel is her cousin, as the daughter of Hitler, and they were not going to stop this!
- they knew the energies would sweep the people away, yet in their neo-phyteness thought they could overcome us
- and then Cardinal Dolan shows up, from Wisconsin – so much pedophilia going on there – jeez!

M/A: why would you want to put a phallic symbol on your head? [reference to Bishop's mitre]

T: you mean his hair piece? He's so fat: how could he be attractive to anybody?

M/A: Because in our ignorance and our bliss, we do what we do to get attention – and it is about learning this wisdom that we have stepped into the role of -

- let's say we are creator goddesses and gods, sons and daughters of the Most High: as these energies get raised to the 100th dimension, we become physical suns; that radiance that pours forth is so . . . it is being in an ecstatic nirvana as we feel that joy – not that we burn up: it is cold fusion – different kind of thought forms, how suns work, rather than the idea of so hot that we turn into a pool of jello.
- As we comprehend what it is like to be a solar being, we take on the form of a sphere – this is a symbol for all life; the circle of life. You know the song . . .
- This is what is happening – all the sphere beings here in our solar system now – the size of Neptune, size of Jupiter – nothing to mess around with: we are all here – the Blue Avians, the Hathors, The Horus people - to rest assured that earth makes her ascension with all of us; even the ones who were from Dracos in ancient times – they have asked for amnesty, and it has been given, yet among the ranks of the Dracos, the word has gone out, and they are surrendering to the Light of the Most Radiant one.
- In spite of all the rumours of wars, it is the eclipse, the twilight time of these gods or goddesses

T: She can see this – no matter how these guys in the main media try to push it on the people, it's not working; they tried to shut down the Bank account of RT – didn't work; they tried to shut down the internet – didn't work - putting the focus on things even more

M/A: the immortals, the highlanders, know when to do what they are doing – it is now – the gatherings have already begun. This time we are in is how we all come together, as Lord Ashtar has said, gathering together under the banner of Love – in the serendipity of the

5th element at this time

- as we can see, the timelines have shifted and there is the juggling of the energies. We will not have a nuclear war; they will push and push –
- Yet now is the time like never before [to] focus on love; this is what Yoko and John are still doing in this time with the Peace Tower - all the other folks are saying give peace a chance

T: Are we doing it?

M/A: it is coming to pass; as we can see, Mother Russia showing the rest - there will be no "no fly zone" in Syria – all that is going on is a futile attempt to control the series of stargates in the Middle East to go to other places in our galaxy, local solar system.

- She says again: solar system is in lock down; sector of the galaxy on lockdown; only folks coming in [are those] who are in the Office of the Christ and that most radiant energy: have to be in that place of perfect love to get through this story.
- This is why the First Lady said "I'm going to protect my girls". You protect all the rest of the girls: let's join together right now.

T: 4-5 months ago she said she was not going to go for that seat because she had 2 beautiful young women; then they showed the opulent place they were going to move into – not sure what is happening there – they might do both: who knows?

M/A: it might be a different way of things are orchestrated as things are dissolving, called the old order, and we have a wise Council of Elders and we don't need an army of goons to protect us and can have a conversation with the First Lady or her husband – and we can join in this conversation where we orchestrate a new heaven and a new earth.

- And we are talking about NOW and it's NOT down the road! And the rest of these lifeforms don't like it as they are not in control; they are not in control of their own bowels, let alone anything else!
- It's an icky, sticky situation because they have created their own mess as they are not in the Office of the Christ and they will drown in their own swamp, metaphorically speaking
- In true fashion, what is happening is, as the energies increase in magnitude, frequencies, all gets raised to 100th dimension, will only be orgasmic, ecstatic joy – as she keeps talking about it – let's dance!

T: singing "The New Jerusalem – did the writers of the movie *Working Girl* comprehend the meaning of that song?

2016-06-20 We Need to Throw Out the Second Amendment

<http://www.thomhartmann.com/blog/2016/06/we-need-throw-out-second-amendment>

America's gun violence problem has reached a breaking point, and while we can talk all we want about assault weapons bans, universal background checks, and terror watch lists, there's only one real solution to this problem: We need to repeal the Second Amendment.

That's right -- we need to repeal the Second Amendment.

This, of course, is completely unacceptable to Republicans, but that's because they don't know real the history of the Second Amendment, and the real history of the Second Amendment is as ugly as it gets.

Thanks to corporate media's unquestioning regurgitation of right-wing talking points, most Americans think that Second Amendment is in the Constitution to protect the rights of individual gun owners from the government.

Well, that's not even remotely true.

The "Second Amendment" as we know it today is a [legal fiction invented by the gun industry and their buddies on the Supreme Court](#). Despite what you might hear on Fox So-Called news, there actually was no individual right to own a gun until 2008, when the Supreme Court said there was in its decision in the case of District of Columbia v. Heller.

This decision, which struck down Washington, D.C.'s handgun ban, was the culmination of a decades-long push by the gun industry to twist the Second Amendment into something that would help it sell more weapons, and it had zero basis in real Constitutional history.

It's what former Chief Justice Warren Burger called "A fraud on the American public," and it's a fraud that now makes it very, very hard to put in place sensible gun control laws.

So, if the Second Amendment wasn't originally about protecting gun rights, why is it in the Constitution?

What were the Founders thinking?

Well, the obvious answer, and the one accepted by most historians, is that they were trying to prevent the existence of a standing army during times of peace.

The Founders were scholars of classical history, and they knew that history teaches that when given too much power, armies, repeatedly and throughout history, would overthrow democracy and put in place a military dictatorship. There's even a phrase to describe it: a military coup.

As James Madison told the Philadelphia Constitutional Convention in 1787, "A standing military force... will not long be safe companions to liberty. The means of defense against foreign danger have been always the instruments of tyranny at home. Among the Romans it was a standing maxim to excite a war, whenever a revolt was apprehended. Throughout all Europe, the armies kept up under the pretext of defending, have enslaved the people."

With this situation in mind, the Founders wrote the Second Amendment, which says that, "A well regulated Militia, being necessary to the security of a free State, the right of the people to keep

and bear Arms, shall not be infringed.”

They key word here is “Militia.”

At the time the Bill of Rights was written, America had no real professional army, and what military it did have was in the form of 13 separate state militias.

The Founders saw these militias as the best check against the rise of the standing army, and so they wrote the Second Amendment to make sure that they were always protected.

But that’s only part of the story.

By protecting the militias, the Founders weren’t just preventing or trying to prevent the rise of mischief by a standing army -- they were also protecting the institution of slavery that was the key to the southern economy.

In states like Georgia, Virginia, and the Carolinas, militias were also known as Slave Patrols.

And after the Constitution was written, [southern slave-owners, led by Patrick Henry \(Virginia's largest slave owner\) started freaking out](#) that their slaves could be constitutionally freed and then drafted by the federal government, which was given the power under Article 1, Section 8 to raise a national militia.

The slave-owners worried that this national militia would eventually be used by Northern anti-slavery types to destroy the slave patrols and maybe even the institution of slavery itself.

And so what did those slave-owners do?

They had the Founders write into the Second Amendment specific protections for slave patrols.

These protections aren’t obvious, but they’re there, and we know this because of the difference between James Madison’s original draft of the Second Amendment and the final version included in the Bill of Rights.

Madison’s original version of the Second Amendment reads as follows:

"The right of the people to keep and bear arms shall not be infringed; a well armed, and well regulated militia being the best security of a free country: but no person religiously scrupulous of bearing arms, shall be compelled to render military service in person."

This version of the Second Amendment didn’t fit well with slave-owners because it included words like “country,” words they felt could be used to justify the creation a national militia which would include freed slaves - a backdoor way for a Northern president to free Southern slaves.

And so Patrick Henry lobbied James Madison to rewrite the Second Amendment into the version we know today.

He spoke passionately at the Virginia Ratifying Convention: "If the country be invaded, a state may go to war," Henry said, "but cannot suppress [slave] insurrections [under this new Constitution]. If there should

happen an insurrection of slaves, the country cannot be said to be invaded. They cannot, therefore, suppress it without the interposition of Congress ... Congress, and Congress only [under this new Constitution], can call forth the militia."

He added:

"In this state [of Virginia], there are two hundred and thirty-six thousand blacks, and there are many in several other states. But there are few or none in the Northern States ... May Congress not say, that every black man must fight? Did we not see a little of this last war? We were not so hard pushed as to make emancipation general; but acts of Assembly passed that every slave who would go to the army should be free."

As [Michael R. Burch wrote](#), "Henry was obviously convinced that the power granted the federal government in the new Constitution could be used to strip the slave states of their slave control militias. He anticipated exactly what Abraham Lincoln would end up doing:

"'They will search that paper [the Constitution],' Henry said, 'and see if they have power of manumission. And have they not, sir? Have they not power to provide for the general defence and welfare? May they not think that these call for the abolition of slavery? May they not pronounce all slaves free, and will they not be warranted by that power? This is no ambiguous implication or logical deduction. The paper speaks to the point: they have the power in clear, unequivocal terms, and will clearly and certainly exercise it. This [slavery] is a local matter, and I can see no propriety in subjecting it to Congress.'"

To satisfy Henry, James Madison changed the word "country" to the word "state," a change Patrick Henry demanded to make it explicitly clear that the Constitution protected the state militia (aka slave patrol) in Virginia.

The big picture here isn't a pretty one: The Second Amendment, which is now used by the weapons industry to justify selling weapons of war to civilians, was originally created, at least in part, to help preserve slavery in the south.

You really couldn't ask for a better metaphor for everything that's wrong with America and its history. But here's the thing: we don't need to be trapped by that history.

Ever since it was ratified, Americans have repeatedly changed parts of the Constitution that don't match up with the times.

We've changed electoral rules so that the person who comes in second place in a presidential race no longer becomes vice president, we've given women the right to vote; we've given black people full citizenship; we made alcohol illegal, and then re-amended the Constitution to make it legal -- these are just a few examples of ways in which we've broken with our past and moved towards a better future.

It's time we did the same with the Second Amendment.

At its best, the Second Amendment is an anachronism that's no longer relevant in an era in which the United States has a standing army but remains a democracy.

At its worst, it's a tool for slave-owners that's now being used by the weapons industry to prevent any and all sensible gun laws.

There's only one way out of this mess: it's time to repeal the Second Amendment.
