

“As Good as It Gets...New Aircraft Safety and the G1000”

Boulder Municipal Airport Open House

See the latest WACO, Mooney and Diamond Aircraft then learn how to incorporate the features for safe flying.

Saturday, June 20, 2009 1230 Until 1400

**Terminal Building, Conference Room, Lower Level
3335 Airport Road, Boulder, Colorado 80301-5430**

Featuring: Jamie Martin, Diamond Aircraft Sales, Rocky Mountains; USAERO, LLC

New glass cockpit designs promise enhanced situational awareness and the timely delivery of relevant information directly to the cockpit. These features go beyond the “neat-to-have” and connect closely with the primary emphases of the FAA’s Aviation Safety Program.

Focus of Presentation:

- **Specifics of the FAA Aviation Safety Program**
- **How to use the G1000 avionics suite to:**
- **Dramatically reduce the chances of a mishap, violation, or worse.**
- **Current safety features of new aircraft designs and the efforts underway to make flying as safe as possible.**
- **Human Factors, Cockpit Design and Advanced Technology**

This seminar has a reasonably priced fee. Please RSVP to Chris Lucas at 303-449-1825 or christelucas@yahoo.com, 3335 Airport Road, Boulder, Colorado 80301-5430 Suite B
