HARD NEWS

T: Good Friday – they have been given a run for their money! Could not be too demonstrative after what Rama heard yesterday from Amy Goodman yesterday: she is one who will be on the stage, on TV with 18-20 people - Howard Zinn is gone – thinks they took him out

- **Amy said we're going to get our Reformation act**

- Donald is pushing the river – 300 miles from the coast of North Korea are submarines aircraft carriers, etc
 - The Day of the Sun celebrations there: the 105 birthday of the current president's grandfather: From RT – N Korea is holding a celebration and the rest of the world is holding its breath; pictures from a monitoring group called 38North; looks like North Korea is ready to do its 6th test
 - US has air craft carrier in the area, 2 destroyers, submarines – one of the subs is only 300 miles from the North Korean nuclear test site; bombers in Guam are able to reach North Korea – the vice foreign minister of NK is saying it's the US looking for trouble with their reckless military maneuvers
 - If the US strikes first, will likely be after consultations with S Korea – Trump has also been trying to work with China – spokesman said no one can win; stop provoking each other and making things irretrievable.
 - N K often choose to launch missiles at these kinds of celebrations
 - The Donald is tweeting and saying China is provoking
 - Reporter says NK often
 - there are over 20 MILLION South Koreans living there – North Korea could use their nukes & destroy those people: **they do it & Ashtar will be there with balls on!**

R: not sure if Spicer will wear his white rabbit suit and be on the WH lawn on Sunday

- The Captain and the Admiral are apprised of it all!
- Not sure when, but the time is NOW

R: Talked to **Randi Rhodes**, for the first time in a year!

- She talked of how our sun is going through transfigurations and other things; other planets are heating up at their N and S poles, and in our earth, the Tara [sun inside the earth] is heating up too, due to the dimensional frequencies, as the earth goes through its ascension process as the 3rd member of the Intergalactic Federation of Worlds – every planet in the solar system graduates as well and are ahead of us, yet Earth is the front and centre focus at the moments.
- All the maya is for naught, as it is based in the lower dimensional frequencies of fear - as these frequencies go up, these folks are going nuts in front of our eyes!
- Keith Olberman still has to lie about certain things – and tells the truth other times – like Sybel Edmunds, Joy Reid, Rachel Maddow, Chris Hayes
- all the ripples from our local sector of the galaxy are being heard out there – the 4 Muskateers are here - Mother, Lord Metatron, Lord Michael and Lord Maitraya
- We are watching 2 loony characters, each with thin skins, egging each other on in the brinkmanship game
 - we heard Commander Vrillon take control of BBC in 1957 – could see Ashtar, Sananda, or KOS doing the same – we are right in that tiny nano second!
- we have an insane man in the WH losing it by the hour: won't have a situation as in some of the movies – at this moment, as things escalate, as Trump is pushing it as he gets the attention of everyone **AS WELL AS THAT OF THE GALACTICS**: he is pushing it to the end;

- as Rama pushes the river and asks questions like this afternoon: he gets told to shut up and ask no questions & have a nice day, Rama: it was Tom the Cat who said this!!!
 - his questions are about what is happening, what is going on – told to shut up; as for Syria, it's an ongoing investigation that is huge: and it is NOT ASSAD – has to do with the fake country called Israel – Gaza and other places are war zones, and Israeli defence troops are standing guard while people go to the synagogues

- a new David Icke piece of ½ hour –
 - Barbara Boxer, Barbara Lee, telling him Bush, Netanyahu, the Bush/Clinton crime family; Rothschild Illuminati going up against the Bavarian Illuminati (some missing)
 - Elon Musk, Jeff Besos playing with the Borg Queen – we are not going down the road of the Borg – 7 of 9 escaped and helped the crew of the Voyager
 - all being told to him – in this final sacred moment – blaze the Violet Fire
 - when he gets told in a low, tone "Shut up; shut up now!", he gets it

T: the strikes Trump ordered against N Korea are much like what Bush Jr did when he went into Iraq in 2003: did it without waiting for any background

- It was the Iraq war that led to the creation of Isil and the others
- They is a debate not about getting approval or not because right after 911, there was 28 pages that said need no approval was required as a dictator is needed in times of war!!!

BW: just heard from a little bird that the USS Enterprize might show up on Sunday – what about that?

R: explains what the Enterprize is!!

T: Faction 2 was right on, though reasons for saying it all might be wrong

T: reading part of an article from a Faction 2 source:

ENDGAME is IMMINENT!

by Tom Heneghan, International Intelligence Expert

UNITED States of America - It can now be reported that up to \$5 TRILLION of cross-collateralized foreign currency derivatives tied to the Central Bank of Japan and HSBC Bank out of Englewood, Colorado are about to go hybrid effectively collapsing the U.S. Federal Reserve and the entire world economy.

The derivatives are also tied to a North Korean trading platform which has been operating in North Korea since early 1992.

We can also report that both the patriotic Michigan and Tennessee U.S. Military Flag Officers will arrest mentally deranged illusionary President Donald Trump within 48 hours reference his readiness to start World War III in order to disguise his own political corruption which is now tied directly to Bush-Clinton-CIA-Israeli Mossad banking asset Larry Mizel of Denver, Colorado.

Trump now faces arrest for the rape and murder of a 12-year old girl.

P.S. We can also divulge the U.S. banking institution Wells Fargo is now sitting on trillions of dollars of debt tied to massive Japanese yen foreign currency fraud aka secret illegal trading accounts which were funded directly with overcharges and crooked criminal legal fees which were extorted from their own customers.

<http://www.tomheneghanbriefings.com/>

- can also report that the Donald is doing stuff in NK – **wants to start WW3 because** he wants to distract from his own political corruption which is tied to the Larry Mizel asset
 - Trump now faces arrest for the rape and murder of a 12 year old girl
 - the poisoning was a false flag [see illustration for others]
- R:** this ties in with the larger story, and the Book of Numbers with Lucifer, Jesus playing it out on the Plain of Maguido, and Trump, Netanyahu watching – WON'T HAPPEN!

BW: report is interesting; the Donald is in deep dodo, world will soon know who the real Donald is and that the economy will tumble

T: Just remember **it will be all at once** – not one at a time. He's been rolled over by the Deep State: that's what's going on – coming out all at one time **with galactic intervention!**

- you don't get Amy telling you you'll get your Reformation Act for nothing

BW: this is the first time he's ever heard Rama say Amy say that; has never before heard Rama say this about Amy G – so it must be happening!

T: it's really important that Amy would say that when it's really going to happen; the only thing she said to Rama from the first time they spoke to her was "You keep doing what you're doing because I can't talk the way you talk; I'll do what I'm doing, and together we're going to get there!"

- Rama may not be on the stage – and he doesn't want to be - but Amy over 20 years ago, she knew she'd be one of the people on the stage – T & R do things behind the scenes because they need protection

BW: will they be changing the entourage?

T: Yes. JFK may not show up at the time of the announcement.

- Dodi and Di – happened in August 1997 – and the clones were killed [Di, Dodi, Henri Paul]; Lady Di came on with B Walters Jan 9, 1997 just before the incident happened: she was asked will you marry again? They wanted her to marry Bill Clinton and kill Hillary
- Lady Di said she'd never marry again except for love, and Barbara Walters of the Tri-Lateral Commission did NOT want to hear this!!!!

CONFERENCE CALL

Stephanie Miller show: guests Rob Reiner and Frangela

- laid it out that we are at this juncture and something called The Force steps in -
- something will have to step in as they take control of the airwaves of the planet, they have technologies that can
- there is something different in how this story gets played out: **he is in the dark too** – turns it over to Creator, All That Is – he/we haven't walked this path before
- in the Milky Way Galaxy, there are planets that have never experienced war
 - Thom Hartman talked of the Sushone nation that never practices war: Rama has pictures of them and they are as black as Africans; came from Mars – "Navajo" is the western term for the Dene
- 100,000 years ago to their ancestral background when they are so dark – have had visitations from people from Mars which led to their reddish tinge – the people we

- in the late golden age, people lived to be 100,000 years old – as we went from the golden age and through all the yugas, we lost much –
- now going back to the Golden age – will be a permanent thing as we move up in evolutionary development
- the old earth is on a different timeline and they get to play out the rest of the yugas
- there are some of us who are going to chose as Ascended Masters to help those people out who didn't make it this time
- Hercubolus is in the Tillis System; distance= 1 light year / 4 hours at warp 5
 - that planet is 10x larger than earth; a gorgeous place and those who go there have a full memory of all the advancements; they just have the garden and their thought forms
- There's a new TV series called New Earth -dinasours that are borg-like
 - Herculobus is the Garden of Eden, paradise – it is an amusement park for mind, body spirit, evolving in a spiral upwards – beings showing up there have an ability to create out of their thought forms – eg, control etc etc -
- The breakdown:
 - a group to Hercublous
 - a group to trial on Dracos
 - a group to the Void
- *The Man of Steel* a new superman movie – he, his right hand woman, and Non are held in tractor beams and put into cryogenic chambers, brought up to the ships, taken into a realm - the phantom zone; the nuclear detonation allows them to escape
- in this timeline, Mother takes them to the void and they are DONE
- Old souls do not re-incarnate on this new earth
 - since 1990, groups have been being moved to other time-space continuums
 - and all the other past places will be speeded up by what we do

Ross: as they change their thoughts & come into harmony with the planet, will the dinasours disappear? Do they continue to live on Herculobus?

T: doesn't know – goes into the future

COR: curious that LM Amy called in and spoke so openly about the Reformation Act – has she greater protection for her/ White Knights ?

- there's a bad flu going around Europe – didn't hit her until she got back

T: when the people come on with KOS, always protected

COR: her comment was about NESARA and she knew it would be repeated -

T: and that is why she and KOS got together and did it!!! Totally amazing – and it looks like it has worn on her – yet she has the stamina and the spirit –

- her cameraman put his body over her – it was Kissinger's military van that came after her and he is responsible for 1/3 of the people of East Timor being killed.

- Have to work on our fellow lightworkers – they still think it's about money

T: she and Rama knew she would say it when it was time to say it: she has known since the beginning who T & R are

COR: asking about increased protection for some like Michael Isitoff

R: talk about him going down there

T: he's a Faction 3 White Knight so he knows about getting permission, etc

RO: his question to Omena – he called Aisha his girl friend, not his TF – COR says his TF is with him all the time

T: if Ross decides to meet her at the frequency she's at, she has to do

- saying she's his girl friend is not really legit: he could meet a girl who has the frequency with the TF energy of the one you know

T: you are waiting for something: you have to be the Ascended Master

RO: the galactics landing and we meet those

T: beings from the star ships have already come to this plane – when they come and stay here, what kind of density

R: will have corporal forms yet when we are in their presence, it's like hanging out with Hercules and Xena – you feel the energy upliftment by being in their presence – you feel the rush of love that does not come from control – the showering of Shaktipat

T: they still have a commitment to earth when they decide to stay

- T:** realize it does not happen like that: the 3D thing called NESARA does not magically turn all into 5D -
- energies are continuing to go up; what we do with the energies are what moves you and me to a higher state of consciousness
 - Swami Purna has the ability to shape shift, takes on another form and continues to help – he has been here for 450 BILLION YEARS
 - There are quite a number of people here from the stars – the 20 million of
 - their home is on the New Jerusalem – it's up to them to stay or go
 - as we get to a certain place – there are not many of us who has ascended from earth 3x
 - very few have the ability to remember those things
 - On another note, every single soul had to ascend at least 3x to be here this time – the difference is what we are doing with what we have learned from the past

Randy: there are many beings on Planet Earth: he knows why he's here and where he came from and it's been a long journey; everyone is a master who is here – we are at such a crossroads of everything – the wayward children know what is coming and we do too and there has to be a point where we come to a point where we just let it happen

- T:** Randy said the truth that we are all masters; and there as many different levels of consciousness awareness of what the mastery means – and that is why we are here together to learn how to do this collectively – it's an unknown task –
- and Omena talked to Ross last night and you asked about location and she said it's up to you, you haven't manifested yet – like COR had to decide to go – she knew where she wanted to go and had been planning it for a long time – things happened that were not planned but she kept her heart open – to go to Rennes le Chateau was a spiritual quest
 - Swami Purna said that sometimes we think that sex is the ultimate of being together; that means you don't know what awareness is – you can have an experience without that – the lower ego says I want this or that to make this happen – it's not an open heart.
 - The mundane “chop wood, carry water” goes on but can have sound, vibration, etc awareness while washing dishes!
 - cats live in the astral
 - hats off to you: you have the best seat – you came in a body, you're in the physical – and learning to appreciate the meaning of that – there's a desire to escape it because it's so hard, yet it's so exciting
 - **what is happening now has not happened before** – the power of the work we are doing, the intimacy of this hour, which forms a foundation for the larger work of the larger group
 - and knowing on a galactic, inter galactic, universal level in both matter and anti matter
 - the ascension goes on, and is being led from the 3rd level – loving ourselves to say we volunteered

RO: people like Randy and him and their mission

- T: it's not an either/or, it's both** and – the more we learn, the more we can share with a consort – we are equal to Mother and until we learn that and experience the bliss that is in every cell in our bodies – has to do with our recognizing this –
- Recalls the book **Buddha in Redface** and awareness of awareness – it's live times of experience and it never ends
 - for a certain few who have defied life – that which they call themselves – Omena said they are soul-less by their own choice, and Mother says she is more merciful that she is just –
 - the soul that denies itself is in misery- and as that is part of us, that frees all of us –
 - there is a participation on the part of us that is consistent with us. Mother has acknowledged that there are enough of us to say enough is enough in terms of being in full denial – we are all watching it all day long – Donald is manifesting this – actually calling in Ashtar to come and get them – that news report has been called

NESARA NOW!

B B S RADIO

MOTHER/ALCYONE [M/A]

Greetings in the Light of the Most Radiant one; in the Office of the Christ and only in the Office of the Christ, we invoke the loving energies of St Germain and the Violet Flame

Greetings, Children of Ra

- Yes, war is not the answer; answer is LOVE. We all are in service to this planet and all of humanity, in all its forms. There is this cosmic moment here as we are experiencing so many emotions, energies, that are transfiguring the nano second: all of it is simply about love - as Obi Wan said: change your point of view.
- You change your view point: are you on the outside looking in, or inside looking out?
More riddles, enigmas
 - the answer is in here: we have all the answers to these stories of how this get played out Yet this sacred hour, we are walking a path that no one has walked in this moment. We are creating it as we do this sacred passing of the talking stick to these electronic circles across the universe.
 - from her/their perspective, viewpoint, it's a day in the life of earth. It is no small deal, yet everything that is affecting us, is affecting the surrounding neighbours in the 'hood. The rest of the neighbours in the 'hood don't want war – galactic neighbourhood, solar system neighbourhood.
 - So what is transpiring on this beloved blue dot is an awakening like has not been experienced; the last time this was known, experienced, was at the high period of Atlantis or even before, when the wise elders came forward from different sectors of the society and said "beware of the seed growing within that is not of the Office of the Christ. "
 - What is being replayed in this sacred hour is the old dreaming, the collective experience of humanity in all its many forms of what we have done, what we have chosen that's coming full circle in this sacred nano second to bring into focus new choices, new decisions of how this gets played out – new heaven, new earth.
 - As she has been saying for eons of time: NO NUKES. And in the same breath, what we are watching and looking at, experiencing in our temples, is bringing up old things in this sacred moment. It's about walking off the cliff, having the faith – that simple!

T: Mother: the things that have gone extinct – 2/3 of everything practically

- she knows there are new plants, new trees etc. Are the old, extinct forms going to come into new form? How does that look? We have questions from our linear experiences that are so profound: NESARA getting enacted sets a foundation for something more – lots of questions coming up:
- how the full disclosure of the presence of galactic beings gets integrated into the lives of those who have chosen to be here in these forms and in the physical, and the levels of consciousness and meeting our twin flames who might walk off a star ship -
- they are not bound by what we chose to come into in terms of this limited form – nor are we bound: there are things to learn about and unlearn about as to what's real as they gave us a bunch of fake science and polluted everything . . .

- M/A:** Let's say as we're configuring the stars - what's transpiring in these sacred moment is [that] all the cells, the particles in these temples, have awakened and have awakened fully – the bodies / temples are lifting themselves up as the thought forms are getting higher and higher: more & more extraordinary realities come into play as they overlap each other
- what may be normal to us as we understand [that] what we are only grasping now as magic or super science is the basic laws, the foundations of how the 5 elements interact with each other in unison, orchestrated by divine love.
- How that gets experienced in the temple is: don't let the monkey mind get you into funny places where you may not know how to get out of because we are in a different sector of the galaxy:
 - what may have been is not now: new rules as Bro Bill Maher says: new rules apply as we move closer into the centre of the Milky Way Galaxy, the Galactic Centre and things will become even more interesting: our sun is transfiguring, Earth, Mercury, Venus, Mars, Jupiter, Saturn
 - Did you know they have found life on one of Saturn's moons – Iglasius – hydrogen being brought from the surface of an ocean on that moon, & coming all the way into space – it goes out across space time, gets picked up the by the solar winds, the star fields, the magic spores that are travelling on the solar flares, the solar winds, the cosmic energy that we may experience as an ion shower – we may be familiar with these terms from *Star Trek: Next Generation*
 - Yet we are moving into realms we have never been in before; walking a pathless path at this hour; as these things come into focus, new rules apply and these new rules take up a vast amount of consciousness, consciousness directing the orchestration of this concert

T: adds "collective consciousness" cos now we are doing this as a group now

M/A: the morphogenic field, quantum field has tipped – everybody is on same page that means as the monkey washing its food: well, we are washing our food; or the butterfly flapping its wings in the jungles of Viet Nam: everything is connected as Nassim has said; what is happening for one, is happening for all. So as our brother experiencing wanting to connect with the other half: there are more things that we can talk about in heaven and earth in this sacred little nano second – to say there are things are rapidly unravelling that space time: the universe ain't what we think it is: something else

- That something else comes in; serendipity: this guy likes to call it The Force; She is going to call it Dr Who – he comes in the most unlikely of places, enigmatic energy: another way to describe it is jaquar medicine woman: herself - we come in on the scene
 - we have a situation here – 30 seconds to auto destruct sequence: is it the blue wire: the red wire: no wires? Maybe it's about what is in this heart space?
 - That is saying in this sacred nano second - This planet and all the surrounding area in the solar neighbourhood – if we could see it from their viewpoint [we'd see that] they have it sewed up so tight in a bag, it ain't funny! At the same time

T: who do you mean by "we"?

M/A: she means them [her forces of Paschats; as well as other galactics], along with Lord [Archangel] Michael's legions upon legions, Maitraya, Ashtar and so many other forms of beloved innocents

T: This is where diplomatic immunity and intervention is happening now, right?

M/A: It's about this beloved blue green dot in the blackness of space and all these gems of stars [that] are glistening with this pristine energy of – we are looking at the gems of the universe which includes ourselves in these temples that never need die, get sick, grow old.

T: yes, that is a key that is hard to imagine at this moment: all the inventions have been suppressed and the teachings have gone south

M/A: beyond the mirage, the maya, Water – what are these bags made of: water! Get it! **We have already won!**

- The story goes – the Captain [Ashtar], the Admiral [Sananda aka Jeshua], Beloved Ascended Master St Germain take the virtual talking stick and says "OK folks, we have some talking to do; it's about the story that goes so deep, so large. It is about love and the Great Tree of which this Realm, Midgard, is part of, called earth; This Great Tree and all the branches that branch out that we see as the Milky Way Galaxy: the different spirals of what we call gas, space, star stuff, plasma make up the branches of the great tree; Itz-re-al – the various branches go into various dimensions and realms; 9 realms – within those 9 realms are so many forms of life that are guiding this story to completion
- At this moment, there are ones from our ancient past who come into play here: guardians of the galaxy, avengers – the words we see in this brain here;
 - we have names for the other folks – ascended masters; galactic councils of living light, living love that never, ever died – it is just immortality in all its forms of manifestation that go on infinitely; it is as if we're turning the pages in this cosmic book of life
- What's happening right now, in this very second: these life forms that have 6 -11 strands of DNA – they know the hour, and they know the hour is up yet, like Nero, they are playing their fiddles with their eyes closed cos they are petrified of what we all can do with our love! "you lift me up" - and this is the radiance pouring forth from Creator Source.
 - these wayward lifeforms that have made their own choices are getting lifted up in spite of their screaming and crying and kicking and having tantrums on the floor:
 - the energies are lifting them up and are lifting them up so far, so hard, so fast – pop! Good bye! She is using metaphors – yet we are watching the madness increase by the hour, with the insanity filtering down from the talking heads going Aasgh! North Korea – we are 1 seconds away

**BLAZE THE VIOLET FIRE:
DON'T BUY INTO THE FEAR PUSHED FROM THE TRANSMISSION BOX**

- Yet, at the same time, the light of trillions, gazillion suns - WE are all suns/sons and daughters of the Most High – this means plasma, sun - no different that what we are looking at called that ball in the sky - same thing
 - Yet what filtered down to get us to these puny little wormlike creatures – we forgot who we were; now it comes rushing back at quantum light speed – that's how fast old memories are rushing back into manifestation – quantum light speed - and as all the chakras, the energy centres, light up: for some, they choose to go out like a roman candle, so let them burn themselves out and be done with it
 - the rest of them – as we have cussed and discussed here, yes, she takes those ones who have made the choice to go to the Void – it is done - end of discussion
 - the ones on Herculobus have the promise of new manifestation, new brilliance, new creation-Paradise on earth; as each day as the sun rises on a beloved new planet, [there

are] new adventures. She is not making light of this: the folks relegated to going to Herculobus: it is the greatest adventure that has ever been for them to stay alive and to create peace on earth, their new earth. That is their mission and it is such a holy mission, that she and A honour these forms who have made that choice to go there.

T: in a sense, it is also something that is a test

M/A: yes

T: it is a test because they asked for it, in the sense that choosing not to take something they knew they could . . .

M/A: They are choosing not to ascend here but making a choice to go to another place to ascend, and that might be because the experiences here - they are simply too caught up with lower ego energies -

T: with higher knowledge yet with lower ego desires that got mixed up -

M/A: like they said: FU I'm going in this direction whether you like it or not and I'm gonna take myself out! So let it be!

T: they are still here at the moment!

M/A: Just watch!

T: The ones that are going there are not that bunch -

M/A: what she is saying this life form named Trump

T: That is not his place! She is talking about beings who are highly evolved yet have not met the responsibility: like "the intentions that pave the way to hell" routine: they made some decisions even though they knew better; they allowed some illusions to intervene, some judgmentalism

M/A: that is their free will choice

T: She does not want to use the word "punishment", yet they are relegated to that place and the dinosaurs which are extra emphatic about - remember that decision, remember that decision that led to this big thing that comes to bite your butt!

M/A: To conceive of this in thought forms, as they can verbalize it in our realm [terms]: their thought forms that they could get one over on Creator Source have come to bite them in the butt

T: The way Mother was going at it did not include that bed that was made there!

M/A: Now they gotta sleep in it

T: Yes, and at the same time, we have to sleep in this one still, too

M/A: Yes, and it's getting better by the hour! Even though it may look we have to hide under our desk and the nuke is coming - good luck!

T: the place where - that's what the nature of some of the questions where on the conference call - like, a before and after idea as N gets enacted and the galactic things proceed from there: yes, and the "chop wood, carry water" things still exist - including everything - and this is kind of a challenge to comprehend

M/A: In a few simple words: as they land and the vibrations go up and we feel it in the heart; that energy is like what they and Dr Keshe & others have talked about

- when we experience that radiant love they bring in that we all have, we won't want to pick up our gun, or drive our tank, or fly the plane with the missiles on it: we want to be able to play in the love vibration

- And what will happen as they come in [and] neutralize all the energies of ancient war technologies [is] that love vibration goes out. We're gonna have to figure out how to chat about this so that Mom and Pop from Kansas get it! There will be ships' counsellors, people that have abilities . . .

T: Some unicorns still live to be 5,000 years old, some of them, and so this is going on at the same time with the expectation of something changing - it IS changing, yet the interpretation of how it is, may or may not be exactly how one might think it is.

- It's a combination of both right and left brains still, in the sense that we've been told so many times to let it happen – with guidance – and the guidance comes from our Higher Self and it is not happening TO US: WE ARE CO-CREATORS and it's a fine line in 'splaining things!

- M/A:** how that is integrated into form: as peace is declared, however it happens, and they are here, & the integration of how they interact with us all, & the explaining of stuff proceeds,
- how that transpires: as more and more dialogue occurs through the initiation of the Wise Councils of Elders who are getting an invisible push forward by higher beings like herself who are pushing them forward.
 - As there is no need for standing armies, defence mechanisms that create issues of trust, or untrust, or lack of trust – let's say, a mood of mutual cooperation and mutual inner standing, understanding, over-standing [develops] – they have some ideas and principles they wish to share with us that will transform, transfigure our lives over night and, at the same time, we have some ideas, some intuitions, some things that, as we interact with them, they can lift us up to realms – what we call magic, they call it quantum physics, mind over matter; whereas we may only be able to see on the big screen and say "Oh, FX - special effects"
 - they say what is transpiring in this sacred hour is about mind over matter, of the quantum field kicking into high gear: as the particles pick up the slack, expect miracles and manifestations of the most wonderful kind - even if you are the doubting Thomas sort, the frown will be turned upside down. It's about love – it's that simple!
- in the realm of infinite possibilities, probabilities, of how this gets played out -
 - some of the greatest masters she has sat with on our planet are fairy lords, elvin lords, dwarf lords who have built kingdoms that have been here for eons and eons of time: that before Hue-mans walked here, we all interacted with the fairy lords, the dwarf lords, the 5 elements that may not have a physical form except a sphere, a ball of light – the blue Avians? the hawk-headed forest people? The people of Nibiru -
 - we are all here in this sacred hour: a reflection of who we are: we are ourselves - when we look in the mirror, you're seeing us – and as things get lifted up higher and higher, right in this sacred hour as we are talking here, it's already happening - the dark side is shitting bricks as they cannot stop it

T: They are trying and want to take out as many with them as possible

- M/A:** They want to distract you to the point of your hearing the air raid sirens and duck for cover – sorry folks: no nukes – what is transpiring is a great unravelling of so far, so deep as this story goes that – in order to trick us to believe that we are less than, we had to drop to this level where it's like watching Homer Simpson
- At the moment, that is what it feels like: and where is the hope?
 - The hope is right in here [the heart space]

T: for instance, she watched ½ hour on the children of Syria – 500,000 are orphans – they are still there [**M** – as a result of US actions] so there is one little boy who cannot move one leg and one arm on one side of his body due to the shrapnel in his brain: with the ascension process accelerating, and these technologies - are there ways to fix that that are not here now?

M/A: that technology is here now, in the moment, right in this sacred moment. If that little boy were to be in the presence of someone like Dr Keshe and his associates, they could transform that little boy to walk and talk and be normal.

T: in the Moment?

M/A: In the Moment! Talking about transfiguration right here, right now with the plasma energy

T: So why isn't it possible or probable that Ross' Twin Flame can walk off the ship?

M/A: Why can't it? What we are seeing in this sacred hour: suspend your disbelief!! And take the leap where it goes Aaaww (she takes a great breath . .)

T: so when the term "girl friend" gets used instead of "Twin Flame" in the asking of the question: it's a different question

- by using that term which is a no-no [He was talking about his particular Twin Flame showing up, & thought he could trick Omena into giving him a time: Carolyn Oceana Rama caught him out and called it a no-no because he understood what he had done] - what you are actually choosing to ask is a different time-line where you meet a girl friend in a month; then you work with the girlfriend until the relationship of that girlfriend with you is evolved enough for the high self of the twin/consort to merge with the HS of that girl friend, and the higher self of yourself to merge with you]
- As you say "Twin Flame" and have the consciousness to stay there and mean that, that is where the TF can walk off the craft and your consciousness is already ready for that - which means there is something you let go off: there is always an exchange for that
- she knows that this requires a higher conscious choice

M/A: It requires the discipline of taking the temple [body], doing the due diligence of chop wood, carry water by the meditations, the practice of tai chi, yoga - whatever the form of sadna service is: we are in service to humanity in all its forms. That is how we ascend on this planet at this time

- That is the basic law of the hour to make up how we get there.

T: making the translation of how we handle our lives at the moment with our crabby selves our grouchy selves, our judgmental selves

M/A: and dragging ourselves across the floor because . . .

T: which is a reflection of us not loving ourselves

M/A: we must also grok that the energies coming in are so intense that if we are not centred in our well-beingness, it will throw us for a loop and we'll drag ourselves across the floor

T: there are masters who are in crippled bodies, autistic, with ADHD yet their consciousness of who they are is so high yet they have such an awareness of who they are . . .

M/A: it's mind over matter - it's about that as I may have a crippled form and the only way I can talk is through a computer . . .

T: she saw a little Syrian boy with both hands and both legs blown off ; he can only write with a pencil in his mouth or some kind of a device so he can punch a computer with something in his mouth

- so that child too can get his arms and his legs back or is that a little different?

M/A: as we enter this realm - which they already have; as the vibrations and the energies go up; as they settle on the planet with us all and bring in what we might call magic - what they call quantum science, super science, hyper dimensional quantum physics - people who have lost limbs can re-grow their limbs through the technology that is already being developed by . . .

T: It's already here and they have kept it out of our hands **M:** correct -

- yet that takes time: they talk about stem cells which is slow, kind of a limited way

M/A: To put it succinctly in this hour: as peace is declared and they step in - they can change this in the next 30 days [from whatever day they step in]

T: Mother has said that within 30 days, the whole thing can be changed; T can't quite know how to go from 2 legs blown off and 2 arms blown off and writing with a pencil in your mouth to whatever 30 days or less means!

M/A: here - take a sugar cube and put it in your mouth and we'll go on a little journey . . .

T: acid trip is still before chop wood/ carry water! **M says** she is making a bad joke worse!!!

M/A: as you watch the energies right now: sudden fear right now - Is it Mr Kim or Mr Orange Cheeto - who's gonna win? No one wins in that situation - it's about bringing divine compassion to the situations at hand.

- As you raise the vibration - she does a mantra – those sound vibrations, those mantras, change physical matter, space time – that is mind over matter!
- There are other energies taking precedence right now. As their sphere craft that are in orbit around the sun, along with the blue avian people, along with the legions upon legions that are here - as they are in our realm, the vibrations of what they represent radiate out - just like the pictures of LM Liberty, LM Victory, LM Hope – they have a frequency, a vibration, that radiates energy, that goes out; as it goes into energy that is not of the Office of the Christ, it shatters and consumes it – end of discussion – it is that simple.

T: so she is saying that the damage that happened to that little boy's body is an illusion too because it's based on the idea that you can hurt somebody with a bomb: in the 5th dimensional consciousness, there is no such animal so the original divine blue print of the etheric physical form is replacing that illusion.

M/A: She can say with all due respect – as nukes are detonated – and that is why Mother has said NO NUKES [reference to the results on people]

- in the past, both Mother Russian and your country have created various forms of splitting the atom, and they have been duly warned
- Now the piper gets paid: this hour, this time we are in: blaze the violet fire and work with the energy of Beloved Ascended Master St Germain
 - do the decrees that bring in the sacred energy of Admiral Sananda Kumara – these are the resurrection energies that overcome all that darkness, the effluvia, the stuff that separates the monkey mind from the heart and creates fear.
 - It's a huge deal: if these talking heads on all the major networks knew, could see, the amount of energy they project out which takes physical form, they'd shut their mouths.
 - What you think comes into manifestation: **thoughts are things** – NO NUKES.
- What she is saying that the essence of what we want to create: Heaven on earth is already transpiring; the cosmic tilt has happened - we have already met the quantum field, the morphogenic field – critical mass has been achieved. The next step is filling up, spilling over, filling up and spilling over – a never ending waterfall of peace and love.
- This is what She has to say on this Easter, stepping into this Holy Sabbath Day.

M/T: Greetings in the light of the Most Radiant One – Kadoish, Kadoish, Kadoish, . . .

- We have the power: use it with love in this moment.

T: everything is possible, and it does work in a certain way, and we just need to get it that we have free will choice so we learn more about who we are and we make choices with the greater awareness of who we are, and everything gets added on.

M/A: We go on to be masters in this moment, and they are humbled in our presence –

- Namaste!

Rama returns:

R: He's here! He's been sitting on the shore of the Greek Island of Mykonos – watching the energies, like the ocean, flow in and flow out – was drawn to hang out there– white buildings, white beaches, electric blue water – just looking at it - just the peace, the calm that is being showered on this planet . . .

T: we don't realize yet the magnitude of the enactment of NESARA law

R: the resurrection energies pouring in from these beings who are so real and so awesome: how do you wrap your head around this stuff and just go: oh, just another episode of Stargate SG 1 – it's more!

- It's about how two souls come together to share a unified field of consciousness– and it spreads across the universe in one nano second, all at once – can only describe it like that!

T: She accepts what he is saying

R: How he experienced it bt being in Sai Baba's presence he knew

T: I surrender anything I thought I may have know up until this moment.

R: I know jack! Starting over, Holmes!

T: It is a key to know **how to ask** for what you really want at the highest heart level, and stay there, and still chop wood, carry water at the same time, and know when to manifest your Higher Self and when to remain in a cover state

- It's just like the moment when they went for a walk around the lake with Swami Purna; he sat on a bench shape shifted to look about 30 years younger even though he is about 150 in that body, and with a darker toned skin, he looked like The Man with the Plan and the vibration was there; then he shape-shifted back! And they all continued the walk.

<http://www.pbs.org/wnet/tavissmiley/interviews/artist-activist-harry-belafonte/>

Tavis commemorates the 50th anniversary of Dr. King's "Beyond Vietnam" speech with Harry Belafonte.

On April 4, 1967, Dr. Martin Luther King, Jr. delivered his prescient speech "Beyond Vietnam: A Time To Break Silence" at the Riverside Church in New York City. It was a courageous and singular call to conscience, detailing where this country was betraying its ideals and mapping an alternative future, one based on justice and compassion.

This week Tavis and his guests commemorate the anniversary of Dr. King's speech, gauging where we are fifty years later on what King called the triple "evils of racism, poverty and militarism."

Born Harold George Bellanfanti, Jr. in New York City's Harlem on March 1, 1927, Harry Belafonte has achieved worldwide success acclaim as a recording artist, performer, singer, songwriter, actor and activist. One of the most successful African-American pop stars in history, Belafonte brought Caribbean party music to an international audience by popularizing Caribbean party music with his breakthrough album Calypso (1956). Perhaps best-known for his signature track "The Banana Boat Song (Day-O)," Belafonte's catalog encompasses the music of many genres including pop, blues, folk, gospel, reggae, show tunes and American standards. In addition to his stand-out performance in "Island in the Sun" (1957), Belafonte has starred in several films including Otto Preminger's hit musical "Carmen Jones" (1954) and Robert Wise's "Odds Against Tomorrow" (1959).

An early supporter of the Civil Rights Movement in the 1950s and 1960s, Belafonte was among Martin Luther King, Jr.'s close circle. Throughout his career he has advocated for political and humanitarian causes including the anti-apartheid movement and USA for Africa. Since 1987, Belafonte has been a UNICEF Goodwill Ambassador and currently acts as the American Civil Liberties Union celebrity ambassador for juvenile justice issues.

Belafonte has won three Grammy Awards, including a Grammy Lifetime Achievement Award, an Emmy Award, and a Tony Award. In 1989 he received the Kennedy Center Honors. He was awarded the National Medal of Arts in 1994. In 2014, he received the Jean Hersholt Humanitarian Award at the Academy's 6th Annual Governors Awards. In March 2014, he was awarded an honorary doctorate from Berklee College of Music in Boston.
