**15<sup>th</sup> Thurs - 13 MEN** – have completed the wave of AKBAL with the visionary eagle energy – seeing the big picture; it is about our commitment to service. 13 is a sacred tone which is about transcending. Lots of support from the Universe for what we do! Gifts: independence, love of self – we let go of the illusion of separateness.

**16<sup>th</sup> Friday – new wave of CIB, the warrior.** In this wave, we model our integrity and impeccability – bring awareness to right action; our gift is accessing cosmic consciousness – letting go of restriction. We easily tap into that cosmic consciousness: we are spiritual warriors, not fighters

**17<sup>th</sup> Sat** – a portal day: **2 CABAN**, the earth. So go out into nature and be with nature; be the keeper of the earth, be aware of earth energy – make an offering to the spirits of the land – we have access to planetary harmony. Our gifts of intuition are high on this day. Portal day means extra-dimensionality and access to higher dimensions.

**18<sup>th</sup> Sun – 3 ETZNAb** – a mirror, another way of being ourselves – we see ourselves in others in our lives. 3 is tone of activation

**19<sup>th</sup> Mon – 4 CAUAC** - the storm, 4 is self-existing; CAUAC is about lighting clear thoughts, making those big changes

### **HARD NEWS**

**T:** Nada is furious with Ban Ki Moon – yesterday she went into Ban Ki Moon and slammed the door behind her/ he is involved with bribery and embezzlement

- Rev Sun Yung Moon [his brother] of the Moonies; a story that goes into North Korea – Rev Moon used to be a colonel in the North Korean Army!

- Dennis Hastert is going to plead guilty to the hush money allegations; this ties into the story of the children's photos on milk cartons who have disappeared
  - Also goes across the local galaxy too where many lifeforms have been disappeared.
- Wife of jailed CIA officer asks for clemency; he was a good whistleblower; he let out some information in his book about the C-A that was classified info, so he is spending a long time in jail
  - the question asked is why do the whistleblowers all go to jail and we never find out what really happened and what the CIA really did?

**R:** it's a large black hole that only Michael Sallia and George Noory are willing to talk about

#### **Nada told Ban Ki Moon:**

- you WILL call an emergency meeting of the General Assembly AND the Security Council and you will openly state that the UN peacekeepers need to arrest Netanyahu for war crimes and crimes against humanity - R said he threatened to blow up the Al Asqua Mosque
- today Netanyahu was all bluster and saying that it was a big lie

**R:** the Al Asqua Mosque is a special stargate portal that goes across our galaxy; It cannot be destroyed - made of a special metal - it's immortal, a living being

**Turkey:** EU looks to Turkey to help solve the "migrant" crisis; they don't get the difference between "migrant" and "refugee"

- What does Turkey want in return for stopping refugees going through Turkey? A whole pile of money - to stop refugees from going into western Europe
- Erdowan is a complete war criminal and the refugee camp close to the Syrian border is a complete disaster; he is also bombing his own citizens [P K K, the Kurds] - a war crime
- Erdowan did bombing at a peace rally in Turkey, with hundreds of thousands of people by sending in 2 suicide bombers; as many as 120 were killed - mostly Kurdish people and activists aligned with the Kurds
- Brings back the memory: Hillary was at a hearing about her e-mails and somehow Gowdy & Republicans brought up Turkey and she said "Turkey? Turkey is our ally!" So unbelievably not so good!
- Thom Hartmann is in Europe; Sam Sax is sitting in and he went over in detail what she said in the debate where she was **outright lying about the TTP** - the clip that was played said she thought it might be the golden egg for the US - praised it; now she's saying that she never said that
  - He played every clip in which she said something about the TTP to show she lied in the Sam Sax interview

**Bernie Sanders** on Ellen Degeneres - and he did the obligatory dance routine to the Travolta song to come on stage "day in a life"

**CNN** were the only one who **played the whole debate** live: they asked people to let them know the results of the debate: the results were 81% in favour of Bernie, 12% in favour of Hillary, rest undecisive

- CNN is owned by Time Warner cable; doesn't know who is behind TW; Sam Sax said Time Warner Cable is the 7<sup>th</sup> largest donor to Hillary which is why they were chosen to do the debate - and they **completely blocked out the poll - and are now saying Hillary won by a landslide!**
- **OVERNIGHT Bernie received \$1.2 MILLION** - Bernie now has \$23 M; **has no Super Pac** - he only takes \$2700 or less from individuals as per the rules. He has completely refused the S Pac

**NOTE:** As quickly as something is being said on the western media, it is as quickly taken off/ being changed

- Bernie was the only one who **answered the question about what is the most important thing to tackle of all the issues: he was the only one who said climate change!**
  - By saying this, he went in the face of **her donors, all are involved with the fossil fuels.**
- They will play another section of Dr Keshe's presentation; already, the scientists involved with the fossil fuel industry are laughing at him, calling him a dreamer – it ain't gonna work, etc
  - They are reading **Buddha in Redface** which is about the dream time – about those who created nuclear holocaust in the dreamtime. The ability to change it has to happen in the dream time, too, as it was created by some very egotistical shamans who knew how to do things.
    - In the present time, a crippled Native American from New Mexico; the sociologist/ psychologist assigned to him – went through a 2 week process in a cave where paintings were created 40 years ago & all the beings in the paintings resemble the beings in the cave
    - The story is focussed through the eyes of the sociologist / psychologist, and he is waking up to his participation in the past dream time in creating that scene. He has been given guidance and is going to go into the pit under Los Alamos Labs and undo the dream – when we realize that nothing is real except what we create in our own dream time – this is where the scientists will not go.
- Next potential book: **Ancient Aliens in Australia: Pleiadian Origins of Humanity** - this brings the dream time into touch with hard core science & finding the bridge where it all comes together and creating the next step of our evolution: from being able to go to Egypt in the dreamtime and actually be there.
  - there are so many things: there is the re-opening of the archeological museum that has been shut down since 2006 in France for renovations
  - in the dark room, have skeletal heads and structures; one head/skull is 27,000 years old not only the scientists, but also the shamans can get in touch with the spirits of that 2700 year old skull. They are actually consulting from all the different realms and there is communication and THEN they go to the science and find they can verify what the shamans found out in the dream time & communicate with the being whose skull it was – as opposed to the original process of going to science first and not acknowledging the other dimensions

**Turkey:** cannot trust anyone in Turkey – talking about giving Turkey \$3 billion to improve the quarters of 2 million refugees, and build a fence

**Tom the Cat today:** the house of cards has totally crumbled: everything is a dog and pony show; we are just looking at the remnants of a really bad Holographic program coming to an end

**On Chris Hayes tonight: The Intercept: Jeremy Scahill** talking about the drones – it's about the 3 letter agencies which go all the way up to the Secret Space Command

<https://theintercept.com/drone-papers>

**[SEE BELOW]**

- at the same time, there are so many folks here: ships seen over China and it was not the blue beam, but real craft.
  - **Tom the Cat** told him as you get into the ecstatic heart space that comes from getting in touch with those huge ships; it comes from a place of pure ecstacy and joy that cannot be replicated by the machine world: can't fake that ecstasy – it comes from

the ecstatic joy level

- By 2016, the antidote reserves used to save people from venomous snakebites is running out  
All of this is because of the 4<sup>th</sup> Reich / conservative ones
  - the word "**conservative**" **does not exist in the Biblical text** – humanity was created to be creative and expand; the conservative ideas restrict and are a de-evolutionary process
    - Tom the Cat, KOS and others say the Republican party will cease to exist – no dates.
    - Yet the news and other things that are moving forward are amazing!

**South China Sea:** had a bit of a glitch: a rear admiral got on HK today and said it is against international law to create fake islands, plant military bases and landing bases on them, and try to stop others from going there – he said We will bring our war ships through there and you will do nothing as that is international waters!

**Japan:** women are restricted from re-marrying for at least 6 months after divorce; men have no such restriction. The Tokyo district court is looking at this situation. This provision has left many children as unregistered as they were born during their mother's period of restrictions

- one woman of 30 some years has been unregistered for the last 30 years: her mother had fled a violent relationship and, as a result [of not being registered], the girl had no opportunity to attend schools; no social interactions; was fearful
- there is a current lawsuit going on about this which has opened discussion about changing this law – could have a decision by end of Dec. As Japan's society changes, so does the debate about what is to be included in the society. Starting to include things like gay marriage in Japan – all kinds of changes happening.

- A **summit on Friday** – Pakuna, Pres of South Korea to meet with Obama on Friday.
  - US wants South Korea to improve ties with Japan – the 2 leaders will discuss the relationship between China and South Korea
  - Daniel Russell - North Korea a major topic at the meeting.

Peace and love – change is happening!

**Guest:** **Omena [O] with Caroline Oceana Ryan [COR]** – author, Channeler of The Collective on individual issues and ascension

- has volunteered in New York City, London, Dublin
- The Ascension Manual is available at the Kindle Store

**COR:** about the Collective – has been channeling since a kid without really wanting to

- there was so much channelling that she read on the net; she realized the veils between worlds was getting thinner
- About 1.5 years ago, thought about channelling an Archangel or such and within a day, she had received impetus in her mind to take on what she has done: puts out a weekly Message to Lightworkers; wrote a book they wanted to channel; she has had a great response. People are powerfully resonating with the material
  - Thinks the Collective want to bridge us from the 3D to 5d and beyond
- In response to Omena's question about the nature of the questions asked, she says there is a lot of people asking about health concerns, Twin Flames, relationships, am I on the right path?

**COR:** asks Divine Mother to be present with us; let her loving presence be felt

- asks AA Michael to be present with the blue light of his sword so only truth is spoken
- Asks the Collective to come in

Greetings, Friends

- we are most honored to be here; how may we be of service?
- O:** what are the biggest blocks facing lightworkers and people in general in their ascension journey ?
- blocks are ego, then fear; we have seen many times people reaching toward ascension and spiritual growth, they are slowed down by the fog of fear; lack trust in their Higher Selves and the idea of their divine program
  - they have been told all their lives that they have to take on certain attitudes and actions – much effort is spent in shoring up protection, shelter, various kinds of security for self, family's
    - the old regime, the old paradigm of 3D is dissolving: we see evidence this in the idea of the US running out of money by Nov 5<sup>th</sup> – nothing to fear – yes, it can be frightening – how can we pay our mortgage, feed our children, and so on: if we can push past this initial fearful response we will see there is an ending potential
      - this potential is encapsulated in the NESARA law, and more and more in the lightworkers themselves; we have been taught all kinds of dis empowerment – this idea is fading now
        - we are in charge of our lives; this is a moment of powerful potential for complete empowerment of the entire human race
        - will you step up to help create a new paradigm which has to do with 5D living or will we succumb to fear?
- O:** what can we do as workers to help people shift the paradigm in the human brain – Omena thinks the human brain is evolving and the old one is disintegrating; what can we do to help people with their fears so they can accept the paradigm shift?
- what can we do: What all of us are is energy, light, love – if we can understand this and only the heart can do this - if we can leave the brain and live in the heart and live in the intuition, the heart – to listen to one's intuition, the gut feeling and honour the gut feelings and the intuitive nudges and the unspoken gut feelings: this is a move into the heart even though it seems illogical –
    - this happens because the heart has spoken its truth and the person is hearing because the person has moved into the future and sees constructs the logical mind has not yet gathered. People are fully capable of listening to the heart; so encourage everyone to listen to the intuition and the gut feelings regardless of the media and what we have been taught – all these old lies are fading away and will not serve anyone any longer.
- O:** are you willing to take calls from participants listening to the show? Yes, most assuredly.  
How would a person go about getting help from you?  
They speak mostly to the etheric body, to the heart
- O:** Enlighten her about the galactic presence
- there are millions of races and trillions of star ships circling the earth: no one wants to miss this event, the greatest show in the Universe, as this is a 3D planet moving up in its physicality and retaining its physicality at the same time; all lifeforms are moving into the 5<sup>th</sup> dimension – this has not happened before in this universe: not to be missed.
  - There are many kinds of lifeforms: some look like humans, others are pure essence; some appear as geometric shapes or colour, or sound and vibration.
    - Could be from Pleiades, the Orion Belt, Lyra, Venus – all over – they are here to cheer us on – they cannot do it for us, but as we lift our vibrations they can reach out to us - it is our moment of empowerment and they will not take it from us!

**Caller:** does the collective believe that the humans have souls? Is the collective aware of the Council of Elders?

- Yes, assuredly, all humans have souls; sometimes there are clones and other similar forms – in its original form it has life; even a rock has a life essence and there is always progression – nothing in the universe can stay the same.
- The Council of Elders – channelers are given certain phrases
  - the council most referred to exists in the 5<sup>th</sup> and 6<sup>th</sup> dimensions; there are those who volunteer to come forward and serve as wise elders to those wishing to incarnate; they can give warnings if the path chosen seems a bit too steep – they are consultants, not the determiners of one's path
  - the technologies and the structures preventing mass consciousness and awakenings to ascension are dissolving now

**O:** people will come to a place where their soul can ascend while they are still on earth?

- Yes, most assuredly – this is the miracle that we are seeing. In the past, we would call them Ascended Masters and there were very few of them.

**O:** thanks them for the answer on the souls

**Caller:** brings up her eating disorder and asks for help

- they send energies to her heart and the neurological system
- Does she feel drawn to sugar? Yes • At the same time, the collective tell her to take this with a huge grain of salt as they are not health professionals
  - Remove sugar, caffeine, false food products from her diet; she's been caught in a trap as have many others
  - she began out of fear: ask if someone in the household drank? The food gave her comfort
- she should look for counselling for the things of which she is afraid; there are stories that must come out – could be about past lives as well, so find ways to release the trauma
  - there are many feelings of loss
  - They powerfully suggest finding a support group: do not blame self or go into shame or guilt – it is a beautiful process – she has been brainwashed since birth to be susceptible to these influences

**O:** speaks to the caller & is given permission to provide info on her core issue

- if she decides to go for counselling, deal with the fear of abandonment – this will make the journey of dealing with the addiction much easier.

**COR:** most assuredly a good suggestion; the parents were not there as they should have been.

**MR:** offers her assistance as well.

**Caroline's contact info:** [carolineoceanaryan.com](http://carolineoceanaryan.com); [ascensiontimes@gmail.com](mailto:ascensiontimes@gmail.com)

- E-mail is the preferred way to reach Caroline

**O:** people being impatient about the changes happening for the full disclosure about galactic appearance; asks what NESARA is about

- many lightworkers on line are asking why NESASRA is not enacted, and when will full disclosure about the galactic presence be made.
- National Economic Security and Reformation Act; created in 1990s by a few like Maxine Waters, Barack Obama, others who are fine and honest folk, and are under constant protection physically and career wise or the dark ones would have moved them out by now
  - **Go to 2013 Rainbow and click on the heading NESARA**
- It is a re-statement of the vision that St Germain had for the US in its beginning
  - what he saw is a state with no wage tax; all treated fairly and no wage slaves – we still have wage slaves and many incarcerated who are exploited for work with very little pay
  - no illegal wars and no connection to the British crown – only elected reps who were common folk and not the old power crowd.

- no borders with people kept out – and we must fight this war and constantly protect ourselves and slaughter the native folk: he saw true freedom and the human soul able to – it was 5D living that he foresaw
- the birth of NESARA means now we are ready and must insist on its enactment and be clear of what we require – we are not the disfranchised majority, if we think we are not.
- There is enough money on the earth for each man, woman and child to be a millionaire.
  - This will free up these resources, free up technologies and free energy - that Dr Keshe is still alive, speaking of it in public and putting out these devices tells us we are in a brand new era, so be joyful – we are in a new place.
- It may begin in the US but will spread
- Humanitarian funds; environmental clean-up; honest & real education; ways for humanity to determine its daily life and its future.

**MR:** what do we as individuals where do we have to be in our evolution for that to happen? How can we assist in getting ourselves and others to that place?

- TC:** This is both an inner and an outer journey and they have talked of contacting our politicians and partly a matter of sending e-mails and phone calls –
- 80-90% of this is accomplished inwardly and this comes by realizing we are all light and all heart - to meditate each morning and speak to our guardians and angels, our support team: "What is it I need to know? If I don't hear you, send it to me on an energy level and in various ways"; Determine inwardly "I am waking up now and my consciousness is moving into my heart"
  - **exercise to ground self:** see a great pillar of light from Alcyone over top of head and down the spine & lights it up; the divine golden light column goes into the earth and goes to the centre of the planet and energizes the crystalline energy grid; the energy then goes out through the earth, and then back up through your body
    - This light is not just the light that lights a room; it is sentient and fills our body with great golden light and it spreads out from our body to our town, our area, and all out from us
    - what we have done: grounded ourselves to the earth; we have also anchored the beautiful divine light from above which is the light which is transforming our consciousness and affects the earth positively, earth is still somewhat at the mercy of the old 3D paradigm – this energy begins in the heart: to live by the heart and then forgive anyone and everything including the paradigm that we have been living

**O:** that leads into manifesting in the outer form

- Indeed, it is addressed in the Ascension Manual whether it is to gain money or whatever, or to gain ascension; we are part of the ascension process, it is not apart from us
- this interview is to introduce the energies to everyone & to offer words of comfort: people are finding that their energies are rising so much that the old things do not fit anymore; it is a matter of building a bridge between the 3<sup>rd</sup> and the 5<sup>th</sup> – some of the jolts across the way can be eased a bit by knowing what is happening

**O:** if a request comes to the writer for a reading from the Collective –

- the easiest way is to go to the website and click on " Ask the Collective" - make a donation – for those outside the US, Skype is sometimes a better option.

**MR:** one of the questions is can we ascend and still be here? How will family members know we have ascended or not? Remember 2 can be walking in the field, and suddenly one is not there – but we can be in both places

- This is inter dimensional travel – people have lots of questions: will my child, husband ascend?
  - To remember the First Law of Love is to allow the other his or her path; to remain at peace – if this person's soul has chosen not to ascend, they will be in a 3<sup>rd</sup> dimensional

phase, and we will be moving on; this will not be a tragedy –

- Consider that each time a person leaves the dimension and leave us; the love still remains; we are never far from those who have passed: in some respects, we are in the same place and they vibrate at a level we cannot see. They could lower themselves into our densiity, but they are more likely to get in touch via a dream.

- Twin Flame – most likely for most people that TF is not with them; does not mean we are separate from that TF; can say to the TF – even though I cannot see you, please show yourself in my mind's eye – do not drag things from the 3<sup>rd</sup> Dimension because we have already elected to move beyond this.

**CL:** enjoying both Omena and the speaker. Tells of an odd experience that happened about 32 mos ago; were in a casino, leaving for the garage with a friend; all of a sudden, they heard a gentleman speaking in English – it seemed to be coming from below them on the electronic walkway – yet there was nothing there, yet they heard him – thought maybe it was a moving portal!

- You will pick up on those who may be ghosts; do not be surprised or shocked – it was a matter of frequencies and the voice came in on that conveyor belt – not unusual, but we have greatly tuned this out. The electro magnetic frequencies are – sometimes frequencies

**O:** she gets that this was someone who recently passed over and was lost. If this ever happens again, just tell the person to go to the light – it was a male and he was lost.

**CL:** Neither she nor her friend were frightened

**TC:** it is exellent advice to send people to the Light

**MR:** has an organic farm, a powerful vortex there. They were told it was an interdimensional doorway; used to think it was for ships – then they found out it was an inner doorway – more advice about other ways to use this

**MR:** they found that deer will come to the energy vortex and lie down there; in the etheric, she has seen a medicine wheel -

**TC:** what she has had is a vision in her mind – quite unusual.

- The vortex has a healing aspect; the animals like it because of that
- those who came before her recognized that that particular part of the earth receives healing energies in a higher concentration than other parts of the earth; after NESARA we will come to understand why the pyramids were placed where they are: the notion of sacred sites, power spots, vortex sites which have been hidden from people – it is a beautiful spot of healing; she was naturally drawn to it and planned it on a higher level
- and understand that her energy is mixed in with this and she is a facilitator of natural growth and healing – grateful to hear of lightworkers having these kinds of experiences

**MR:** grateful to have that spot on the property; Robert was the one who found it

- In good weather, if you wish to bring people to sit in a circle – put the one requiring help in the center though don't need to know specifics; choose an image of light coming down over them – perhaps drums and flute music so there is a resonance of light in the air and everyone seeing that person completely healed and full of light
- or can lie down on the ground and seek healing – easier there to connect with those who have passed on.

**O:** can you build on a vortex?

**TC:** would be careful about what is built on a vortex – seek the counsel of a shaman who knows the sites of a particular locale

- there have been many buildings built on spots on the earth where there has been great violent and fear so they could feed off the fear. There have been other places like fountains and gardens that have been built on vortex sites and maintained the power of the site

- do not chop down any new trees to build – use only natural materials like fallen branches, rocks, sea shells – and only if they can build there based on advice from one who knows what the power site is about ; perhaps only a gazebo and not a permanent building.
  - Perhaps build a circle of rocks and plant certain flowers – not to disturb the natural form
  - A sweat lodge would be impermanent, which is why they are good for sacred ceremony they are made of natural materials usually and can be moved as necessary

**MR:** last words to leave the group with:

- Great love from the Collective; many thanks, divine light and love to us all. Namaste

**COR** returns

**O:** it has been a pleasure having her on and giving us such great information!

**COR:** Beyond thrilled to be asked to participate – she listens to the show every week!

**MR:** invites Caroline to come back when she is so moved to do so

**Ascension Manual, Part 1** – in the Kindle store

Ascension Manual, Part 2 will be out in Dec or January

**T:** about this recording today: T & R hear themselves talk so much about NESARA – great to hear the information from The Collective – everyone could feel the energy pulse that we here have connected to

**Closing:** from Omena, C O Ryan

**Hard News again**

**T:** Talking of the 2 realms merging, leave it to Dr Keshe to continue the vibrations!

- the vibrations just took another leap tonight. The energy that we brought together is the vibrational pattern of NESARA at a higher level than “where is the money” – everything is changed, including climate change: it brings the climate to a divine re-assessment

**R:** Dr Keshe speaks about the plasma energy as a sentient, intelligent source of energy: ask the plasma to bring in what you want: if want rice, ask for it & it will grow it for you.

**T:** thought she heard the Collective speak of the technologies that are sentient - everything is a miracle and there are no miracles!

**Audio:** the **Knowledge Seekers workshop of the Dr Keshe Foundation** – Dr Keshe is the speaker, calling in from KFSSI

80th Knowledge Seekers Workshop Sept 24 2015

- Mr Keshe shows the final prototype of the Keshe Foundation Power Unit.
- World Peace Conference of 16th October.

- Alexz shows how to feed the masses.

### **Intro to the presentation from last week.**

- today is important for the Keshe Foundation and what they are about to release; have been developing a technology that can meet the demands of power for households; to use with new we use electric current which means we use the vibrations of the flow of electrons: this has its problems and had created difficulties upgrading to new technologies
- with Plasma Energy: the most difficult part is to explain that the energy within this is so huge, that the little vibration counts as nothing;
  - it has taken years of development and education to explain to people what it is & how it works, and showing how powerful the plasma is & how it can be increased quite simply
  - the next step is to show how the plasma can do so much with so little

### **Begins the Q & A session**

**[there are more questions than noted below; please go to the audio]**

- do incandescent light bulbs work on the power supply?  
**Dr K:** Once you plug your system, don't take it off – the more you create the demand, the more it does not like to be shut down; it has already made a path for itself
- has there been other news to get the plasma in the power unit started, or will nano-coated probes do it?  
**Dr K:** His lips are sealed – if you want to do it, you do it! Working with the Phillipine team is wonderful: they are loyal, committed to peace as the Keshe Fdn so no worries about the quality: just want to work and produce and change the course of mankind – peaceful, effective, very systematic: working for the best. The ambassadors for the foundation are just the same.
- question via e-mail: met someone who invested in a small power plant; has to be rebuilt due to the re-routing the river; asking if the KF foundation will be releasing bigger power generating units?  
**Dr K:** These systems assembled correctly in a sequential manner can deliver 100 kw or mgw easily – there is no limitation.  
the plasma delivers the power and you don't worry about the # of killowatts due to the vibration of an electron. As you request power, it will deliver. It is very easy to produce a 3 phase system – yesterday's testing showed it came exactly as they expected

[a lot of women shouting: he says excuse me there is a teaching going on here – 10 women can bring the whole nation down! Think it was chit-chat about the males!!!]

- Can we use a heat pump on the power supply if the heat pump is an inductive unit not just a heat element like in a stove?  
**Dr K:** Does not know – try it! Their target has been to produce plasma; now have to convert other kinds of energy to plasma.
  - They know how to transfer power without wire! Can transfer the energy from the core to outside and it does not diminish in strength
  - In the coming weeks, we will find out there is no need for wiring
  - the women are sitting at the door: they just appeared out of somewhere
  - he explained in the teaching yesterday: in delivering the technology, we can put one power unit as it is instead of converting its plasma to energy: the plasma can also create food -
    - Can put this in the middle of a village – this is how we will be fed

- for the physical body situation, fresh food is what gives the energy, and to not eat meat that brings down the energy – an issue with vegans, those into fresh foods
  - he is suggesting a more direct way is a plasma to plasma interaction rather than a number of conversion steps – going direct from plasma to plasma direct - is this correct?

**Dr K:** Alexz can explain this; this part was left with Alexz – an advanced thinking scientist who sees things in a different way – he will explain it – will show you exactly how you transfer energy to food from the plasma directly from the coils and still transferring it to water – Tesla did this once and got himself drunk by not even touching alcohol but by drinking water!

## **Paris' Museum of Mankind reopens**

Paris' museum dedicated to human evolution, re-opens after a six-year renovation. Rough Cut (no reporter narration).

ROUGH CUT - NO REPORTER NARRATION STORY: After six years of renovations, the "Museum of Mankind" (Musee de l'Homme) in Paris will reopen its doors this week.

Although the exterior of the art deco building, located in the famous Trocadero Square overlooking the Eiffel Tower remains unchanged, inside visitors will discover 2,500 square metres of entirely renovated exhibitions, offering a new perspective on the history and evolution of mankind.

Museum curator Evelyne Heyer says the permanent exhibition looks at three things: what mankind is, where man came from and where mankind is headed.

She explains that methods of research into humanity have changed and researchers now know how important the relationship between biology and culture is in the functioning of human beings. "Mankind hasn't changed but the science of mankind has -- we know that to understand mankind we must really grasp the biological and cultural aspects and there are plenty of questions in our society's current events that require this double-understanding, this double-competence," she said.

The museum contains some of the largest and most reputable collections of prehistoric artifacts in the world, featuring recently acquired ethnological artifacts. These remarkable objects are presented in chronological order -- from the skull of man's ancestor Cro-Magnon to that of French philosopher Rene Descartes -- along with a gallery of 19th century busts representing human diversity in a modern way.

More than 96 million euros were invested by the French government to revamp the historic museum, which first opened its doors in 1938. The Museum of Mankind (Musee de l'Homme) opens to the public on Saturday (October 17), with free entry for the first three days after opening.
