SOMETIMES PLANTS FLY!

They sure flew off the farm last Thursday, thanks to all of you who braved thunder, lightening and powerful rains to visit our annual plant sale. We had a wonderful time and got a lot of plants into peoples' hands and gardens. Again, thanks so much for helping us kick the year off with a bang and a boom and a downpour!

TIME TO EAT!

We're gearing up for a hot summer and starting to see things really popping in the gardens. Two weeks ago, plants were small, now we're starting to harvest.
