### **Intro Notes**

- The following audio link allows you to listen to the entire program.

<http://bbsradio.com/podcast/true-history-june-4-2016>

- The **new number for the Conference Line: 605-475-1600**

### **HARD NEWS**

**T:** we have a mission to expand this well-knit collective gathering to a global scale and beyond! Beyond all desire is the meaning of what they said: and money is behind the next story!

**R: FIFA:** got rid of Sepp Blatter who is a friend of Dominique Strauss Kahn and Christine Lagarde, one of the lizard generals – head of the IMF

- they are all part of the human trafficking, drug trafficking, arms dealing
- He's out of the way, yet the new President Gioni Infantino is back in the mix and under fire: was hired to clean up the mess; now has been discovered that the audio tapes of a meeting about setting rates of salary for the new president are destroyed/set for destruction?
- Sepp Blatter, Jerome Valk and Marcus Catnar – top leaders of the organization are suspected of appointing themselves higher salaries - \$80 MILLION in bonuses and salaries – in the past couple of years.

Gioni has not been mentioned in this part of the story, yet there is an allegation over Gioni's head that he ordered the destruction of the audio tapes of a meeting about setting rates of salary for the new president

### **Reading from her notes taken from DW News, Berlin:**

world soccer's governing body has been hit by fresh allegations of corruption

- If this information is true, suggests there is still evidence of secret meetings, destruction of files – looks like nothing has changed!

**T:** Is reading this because this [kind of corruption] has been going on for 60 years in the US, GB, Israel, Vatican – all the 13 families locations: – **it's the microcosm of the macrocosm, going on all around the planet**

**R: Richard Wolff's program** this morning:

- talked of the increasing crisis, the 13 families playing with money they don't have, and a fake economy
- played a clip of Russell Brand talking to Max Keiser about those in England's Parliament who are moving chess pieces around to satisfy the great white dragons and make the rich richer, and the poor poorer.

- When Heather Ann Harder ran for president, she said when the galactics show up, we can clean up the planet in 30 days. Rama agrees with that assessment

- There are more and more stories about ships showing up and also seeing
- This is not so much about the money, as the soul of humanity

- **David Icke** talked for 2 minutes on Camp Lovewave: laid it out how to deal with these ones
  - the alignments of energy going on are causing them to fall apart
  - Bill Maher did a good job last night, too!

- This exposure of how we have been told what Bernie represents – small “d” democratic socialism: the state does not own us, and things are fair and balanced
  - Jeremy Corbin, David Icke and Bernie want to break up the big banks - who want to do away with E Warren's protection agency – and Bernie wants to expand this!

**Tom the Cat, Mr X:** Mr Hair's days are very much numbered as he continues to attack various world leaders: he's in the area of ego maniac stuff – and NO ONE IS GOING TO GET THE GUANTLET OF POWER – MOTHER, MAITRAYA, MICHAEL AND METATRON, THE 4 MUSKATEERS – the sidereal weapons cannot be used, because even they have heard the call!

- About 6000 years ago, some beings showed and pretended like they were Ascended masters - Raped the women of earth, and used sidereal weapons – all the ancient epic stories talk about this ties into the Ragna rock where Thor takes his sword –
  - they changed the course of earth's history and this is about us changing ourselves first - the first order of love it to be calm!

**Mohammed Ali has left the planet** – transitioned at 74; 1942 – 2016

- he was one of Rama's heroes – he went to jail for 3 years to avoid going to Viet Nam; R chose to go to India, not prison – that one action of Ali's changed the timelines for following the path of peace.

**T:** he faced 3 years, went out on appeal; 3 years later, he was acquitted. Has had Parkinson's for 30+ justice

- R. Wolffe talked about the 2 systems of justice: the white man's justice like Bernie Madoff, Norega, and others who know the story of the Bush/Clinton crime family, and the one for the poor folks
- the great equalizer - Mother - shows up along with Annumbis
  - Mohammed Ali said that war was a waste of human life
  - Viet Nam War was about drugs & the lining of the pockets of the bush/Clinton crime family
- Everything starting to come forward: Hillary will be indicted, but R does not know when!
  - The media will say they don't know jack!
  - It was being said on Counter Spin that the CIA analyst Ray McGovern said today that Hillary is as guilty as F\*\*\*\*\* sin, and deserves the chair! ON AIR! Yet, as Hillary is considered “annointed”, the media will play it all up till next Tuesday,
  - David Icke got pissed and said they need to be gone from this earth; who is going to do it? And it's not about guns and clubs – it's about love, and we do it!
- How should the EU treat Turkey?
  1. Accommodate Turkey – a lot of neo-Nazi sentiment in Europe which hates everyone that is not white aryan: violent demonstrations in cities in Germany  
Hollande is a nazi hiding out as a socialist
  2. Insist Turkey meets all conditions and risk that the deal might fail – which includes making sure the refugees that are taken back are safe. Erdowan is making sure any one with Kurdish connections is killed when they are sent back to Turkey

**Big Will:** understands that this coming Wed, the FBI will present their report – seems she will be definitely be indicted. He knows The Young Turks have talked about this and have said that she will not be president. Bernie Sanders will eke out California & a couple of other states – seems Bernie is doing well

**R:** the media will play with the numbers and the polls

**T:** they have rigged things in CA even though it is against the lay: anyone not registered as democrats will get a “provisionary ballot” and everyone of those ballots gets put in the garbage.

- That happened in Florida: in 2000 and 2004; across the US in 2012 – **12 million votes were not counted** and they were from black people, young, hispanics etc who lost their votes – those who would not support the 13 families' candidates
- Millions of young people are in jeopardy in California

**R: Tom the Cat and Mr X:** they will count every vote and there will be hell to pay!

- Richard Wollfe talked about Debbie Wasserman-Schultz & her payday loan scandal
- and that the demon, Rick Scott, needs to be eviscerated for what he's done in Florida

**BW:** what is the status of Trump's birth certificate: why has it not been raised in the media, etc?  
This man was born in South Africa, not the US

- Because the media is controlled by the same dirtballs as those Trump is part of: WE HAVE TO TAKE THEM ALL DOWN – cannot be a piecemeal job.

**R: V for Vendetta:** the movie: another time when they took them all down: in the movie, blew up the parliament building & Big Ben and the people got rid of the dictator: David Cameron and the others will have to face Mother/Goddess.

**BW:** about the Rothschilds – a Rothschild is in the home of Mark Rich in Switzerland; they are negotiating for retreats in Europe

**R:** he is as guilty as the Rothschilds – they will all hang.

**T:** Maybe some white Knights said do this, do this, do this; Mark Rich made a deal with HRC in 1996 and gave \$2 million to Vince Foster, HRC's lover at the time, who brought it to Hillary in the US: it was supposed to be for the Children's Defence Fund - it went into her pocket. Foster got killed and Mark Rich knows all about it. BW's question is linked to HRC

- No, Trump does not want to be president; he is setting things up for Hillary to become president and she is having fun getting after him these days. Even at this late date, the chances for Bernie Sanders to get all **though this requires people to fight for him.**
  - He's been saying in Californai: DON'T ACCEPT A PROVISIONAL BALLOT – THEY ARE AGAINST THE LAW IN CALIFORNIA!!! Lots of work being done on the ground about this
  - the 13 families are in a huge bind and are trying to make deals: Mother said it's too late!

**Emmanuel:** a meteor that came and landed somewhere outside of Sholo, AZ – might it be related to psyops?

**R:** heard that it broke up in the atmosphere, and microscopic pieces fell to earth

**E:** Is this connected to Mars being close to our planet?

**R:** a possibility: story needs to come out about Nefilim and the 9 realms surrounding the Great Tree – all the cultures need to get together -this is why the stories are coming out

- the Sun is a huge portal, stargate – all kinds of beings coming through the sun – - has scientests, astronomiers, astrologers worried

**T:** there are always Black Ops that will try to manipulate and scare in real time; and then there is the Ashtar Command which is 100 million years ahead of the Black Ops – yet they will not intervene in our civilization's development and get in the way of our free will choice

- It is amazing how the polity of the planet are in the streets: we are doing OK, but also doing stupid stuff!

**E:** it is confusing and difficult – a whole bunch of disharmony and is confusing because it looks like Obama's fault when it's not, but about racial tensions that have never been resolved

**T:** white men across the board are the ones liking Trump's message – due to the misleading, disinformative sequence of lies put in the school books

**E:** He is also Donald Duck – the millenials after him [Emmanuel] never got to the Disney stuff; up until 1985, he represents Donald Duck and there are also psy ops, MK Ultra going on too

**T:** as you go south, there is huge white stigma racism going on -it's still huge!

**E:** on Facebook, the pictures that are on: almost like re-creating the 60s: there are young black kids getting lynched; a girl was almost lynched – parents sued the school – get

**T:** also gender issues: a girl in Florida: LGBT AND black

- we also need to look into our hearts – our lack of awareness about what caused things:
- one in every 45 babies being born with autism and ADD and ADHD: no one talking of this
- they have created the zika virus: the computer guys – Bill and Melinda Gates – about 3-4 years ago, released mosquitoes in Brazil & said nothing: now it's all over the place. It creates in the babies a miacephaly which means the entire brain is calcified – no intelligence there.
  - Over 300 pregnant women have been exposed to the zika virus – how many will be born with micephaly? • one baby already born with that in New Jersey –
  - Barack asked for \$1. 9 Millon for researching a cure – there was left over \$; **they voted NO!**
- Looking at **DW news** from Berlin: the deal between Monsanto and Bayer -
  - Monsanto already has a huge control over the GM food of the planet – Glysophate causes massive cancer & other diseases: 1/3 of the world is eating this stuff and they want to make this a monopoly.
  - Bayer has the same control of pharmaceuticals – a merger of these 2 is horrendous!

**E:** how is this connected to the Hopi purification?

**R:** had heard that the red and the blue star kachinas / 2 comets have passed the earth: it is about the raising of the frequencies; if you are not in service to the whole of humanity and only in service to self, good luck!

**T:** A major contribution that Mohammed Ali made in his life: he said many good things

**E:** he is one of the forerunners of hiphop, an orginator of rapping; written up in the bible of hip hop!

**T:** he joined Islam in 1966, and he was stripped of medals and titles – he spoke from his heart

- even with the Parkinsons, he did magic tricks for the children who had different illnesses
- had a childlike love of life; was kicked out of boxing for refusing to go to Viet Nam: he said don't count the days, make every day count!
- T reads various things he said.

**E:** he lived in AZ

**T:** was put in a hospital in AZ; had a home in Louisville KT. Embraced Islam in 1964 as a result of Malcolm X – they were the closest of friends. Malcolm X left Islam -

**E:** the 5%ers – nations of god on earth - were bought together by Clarence 13X who was a member of the nation of Islam, and he left; he eventually created The nation of God on Earth which is a lot like Islam but recognizes the existence of god in all of us

- E sees it as connected to the god code as Greg Braden – Clarence 13X had an extended view of this
- Clarence 13X created the coding of the alphabet
- E will send them some information so they can look it over and maybe present it

**T:** no one person was another being of Light: millions of souls did body-hopping and got the whole enchilada, the shaktipat, as if they were in that body the whole time/lenth of the lifetime

- eg, King Arthur was overlighted by El Morya; millions of living beings literally body-hopped and went through that soul and literally got all the information and experience of being that soul

- **There is no one person who is any of these great beings** – that is ridiculous– result would be a whole lot of imbalance and ego: millions and millions of **souls were in the body of Jesus and got the whole teaching /experience.** Ego has created a lot of problems by having people think they are the only one who was ever that person. this needs to be said a number of times!!!

**Audio:** Michelle Obama at the New York City College Commencement

- the chances of her becoming president of the US are huge!!! Yet it will take some time for us to understand the implications of this.

- Also, from **Going Underground** – something about John Pilger – a good guy – yet he will point out that Barack, Bernie, Hillary are all players on a board where the illusion that they have any power is just an illusion AND especially as very few know that no one in the US got their freedom
  - Even though the founding fathers made the deal that the US was a colony of Britain and only they had sovereignty within the hierarchy of the sovereign British crown which does not give them any freedom!
  - The reason St Germain showed up for the signing of the Declaration of Independence and said sign it anyway. Thomas Jefferson signed it yet he was a slave owner and sold slaves in the north! He had some great wisdom – so has Barack Obama.
  - The difference between then and now is that now, there is galactic intervention: when we hear Pilger speak, we will be hearing him label some not nice things about Bernie or Barack - but it's a question of "do this or be dead" - and all of the Founding Fathers ended up dead even though they knew that as they could bring forth the idea of small "d" democracy they could actually reverse the process of aging. We could have done it then, and some did.
  - Now we will get the opportunity bigger than any time ever to do it and to reverse all the 13 families programs in the minds of men . . . let it begin with the Divine Feminine

*I'm now ready to confront myself,  
No longer young and naive,  
But wide awake I discriminate,  
And get rid of all that's not me.*

Like I quote in this week's report.... problems beg questions and Life is giving us ample opportunity now to be asking the big questions like Why me? Why now? Why this? and pushing us to dig deep down within both our psyches and our past to discover a greater purpose and meaning for our very existence. It is like Life is taking off the kid gloves and slapping us around a little bit (or a lot depending on your temperament/judgment!).

Another point to mention is that to discriminate means not "throwing the baby out with the bath water" and

just running away from our problems/issues. That's not what I mean by "getting rid of." This is a time of defining our ideals and spiritual purpose and using that as our guide in making the choices that will aid us in fulfilling them. This may involve taking the "hard road," sticking to a commitment, etc. and getting rid of the illusion that the grass is greener on the other side of the fence!

So yes, this Saturday I will be digging some more into the mythology, timing, roots, and areas of focus for this "mayhem" in [a free webinar "Understanding the Needs of the Times."](#) It will be recorded if you can't make it, but grab your charts and see what you have going on between 10-18 degrees of the mutable signs (Gemini, Virgo, Sag, and Pisces). Those "psycho-spiritual functions" ie. planets, are calling out to you now for change.... hope you heed the call as the future will be more wide open! From Spirit's point of view there is no such thing as loss or gain..... just change..... go for it!

Lord Ganesha is the master of wisdom and knowledge. He is the remover of obstacles, and guardian of beauty, prosperity, grace and compassion. Lord Ganesha is the first deity to be revered in Hindu rites. He is a guardian of doors of houses and temples. He is the God that removes the internal and external obstacles of our success, and he is the one that grants the opening of your spiritual gifts. He is also the protector of all beings.

Lord Ganesha is known as the Guardian of Knowledge, representing the sage, or a state of consciousness where a man reaches self-realization and plenitude of gifts.

<https://www.youtube.com/watch?v=xngKQTCg3EA>

### **Published on 17 May 2016**

Last year's Kayaktivists protested Shell oil's presence in the Puget Sound and took a firm stand for the environment. Many of these kayakers were Greenpeace members and, for 30-year Greenpeace veteran and captain Peter Willcox, events like this are simply business as usual. Willcox, who has spent his entire career working to save the planet, will share anecdotes from his long history, including the imprisonment of his crew the "Arctic 30." He'll prove that the life of a Greenpeace captain is anything but boring, from months at sea and his friendship with Pete Seeger, to fighting illegal smuggling and gun-trading.

The Program also includes a short talk by Jill Stein, Green Party presidential candidate recorded at the recent Break Free civil disobedience action in Anacortes, WA courtesy of Todd Boyle

## INFORMATION RELATED TO THE NOTES

The White House  
Office of the First Lady

For Immediate Release

June 03, 2016

### Remarks by the First Lady at City College of New York Commencement

City College of New York  
New York, New York

12:19 P.M. EDT

MRS. OBAMA: Wow! (Applause.) Let me just take it in. First of all, it is beyond a pleasure and an honor to be here to celebrate the City College of New York Class of 2016! You all, I mean, this has been the most fun I think I've had at a commencement ever. (Applause.)

Let me just say a few thank yous. Let me start, of course, by thanking President Coico for that wonderful introduction, for her leadership here at City College, for this honorary degree.

I also want to recognize Senator Schumer, Chancellor Milliken, Trustee Shorter, Edward Plotkin, as well as your amazing valedictorian, Antonios Mourdoukoutas -- did I get it right? (Applause.) And your amazing salutatorian, Orubba Almansouri. (Applause.) I really don't want to follow those two. (Laughter.) If anybody is wondering about the quality of education, just listening to those two speakers lets you know what's happening here. And I'm so proud of you both -- and to your families, congratulations. Well done. Well done. (Applause.)

And of course, let us not forget Elizabeth Aklilu for her amazing performance of the National Anthem earlier today. She blew it out of the water. (Applause.)

But most of all, I want to acknowledge all of you -- the brilliant, talented, ambitious, accomplished, and all-around outstanding members of the class of 2016! Woo! (Applause.) You give me chills. You all have worked so hard and come so far to reach this milestone, so I know this is a big day for all of you and your families, and for everyone at this school who supported you on this journey.

And in many ways, this is a big day for me too. See, this is my very last commencement address as First Lady of the United States. This is it. (Applause.) So I just want to take it all in. And I think this was the perfect place to be, because this is my last chance to share my love and admiration, and hopefully a little bit of wisdom with a graduating class.

And, graduates, I really want you all to know that there is a reason why, of all of the colleges and universities in this country, I chose this particular school in this particular city for this special moment. (Applause.) And I'm here because of all of you. I mean, we've talked about it -- Antonios, I'm going to talk a little bit about diversity, thank you. (Laughter.)

Just look around. Look at who you are. Look at where we're gathered today. As the President eloquently said, at this school, you represent more than 150 nationalities. You speak more than 100 different languages -- whoa, just stop there. You represent just about every possible background -- every color and culture, every faith and walk of life. And you've taken so many different paths to this moment.

Maybe your family has been in this city for generations, or maybe, like my family, they came to this country centuries ago in chains. Maybe they just arrived here recently, determined to give you a better life.

But, graduates, no matter where your journey started, you have all made it here today through the same combination of unyielding determination, sacrifice, and a whole lot of hard work -- commuting hours each day to class, some of you. (Applause.) Yes, amen. (Laughter.) Juggling multiple jobs to support your families and pay your tuition. (Applause.) Studying late into the night, early in the morning; on subways and buses, and in those few precious minutes during breaks at work.

And somehow, you still found time to give back to your communities -- tutoring young people, reading to kids, volunteering at hospitals. Somehow, you still managed to do prestigious internships and research fellowships, and join all kinds of clubs and activities. And here at this nationally-ranked university, with a rigorous curriculum and renowned faculty, you rose to the challenge, distinguishing yourselves in your classes, winning countless honors and awards, and getting into top graduate schools across this country. Whoa. (Laughter.)

So, graduates, with your glorious diversity, with your remarkable accomplishments and your deep commitment to your communities, you all embody the very purpose of this school's founding. And, more importantly, you embody the very hopes and dreams carved into the base of that iconic statue not so far from where we sit -- on that island where so many of your predecessors at this school first set foot on our shores.

And that is why I wanted to be here today at City College. I wanted to be here to celebrate all of you, this school, this city. (Applause.) Because I know that there is no better way to celebrate this great country than being here with you.

See, all of you know, for centuries, this city has been the gateway to America for so many striving, hope-filled immigrants -- folks who left behind everything they knew to seek out this land of opportunity that they dreamed of. And so many of those folks, for them, this school was the gateway to actually realizing that opportunity in their lives, founded on the fundamental truth that talent and ambition know no distinctions of race, nationality, wealth, or fame, and dedicated to the ideals that our Founding Fathers put forth more than two centuries ago: That we are all created equal, all entitled to "life, liberty and the pursuit of happiness." City College became a haven for brilliant, motivated students of every background, a place where they didn't have to hide their last names or their accents, or put on any kind of airs because the students at this school were selected based not on pedigree, but on merit, and merit alone. (Applause.)

So really, it is no accident that this institution has produced 10 Nobel Prize winners -- (applause) -- along with countless captains of industry, cultural icons, leaders at the highest levels of government. Because talent and effort combined with our various backgrounds and life experiences has always been the lifeblood of our singular American genius.

Just take the example of the great American lyricist, Ira Gershwin, who attended City College a century ago. The son of a Russian-Jewish immigrant, his songs still light up Broadway today. Or consider the story of the former CEO of Intel, Andrew Grove, class of 1960. (Applause.) He was a Hungarian immigrant whose harrowing escape from Nazism and communism shaped both his

talent for business and his commitment to philanthropy.

And just think about the students in this very graduating class -- students like the economics and pre-law major from Albania, who also completed the requirements for a philosophy major and dreams of being a public intellectual. The educational theater student from right here in Harlem who's already an award-winning playwright and recently spoke at the White House. The biomedical science major who was born in Afghanistan and plans to be a doctor, a policy maker and an educator. (Applause.) And your salutatorian, whose Yemeni roots inspired her to study Yemeni women's writing and to advocate for girls in her community, urging them to find their own voices, to tell their own stories. I could go on.

These are just four of the nearly 4,000 unique and amazing stories in this graduating class -- stories that have converged here at City College, this dynamic, inclusive place where you all have had the chance to really get to know each other, to listen to each other's languages, to enjoy each other's food -- lasagna, obviously -- (laughter) -- music, and holidays. Debating each other's ideas, pushing each other to question old assumptions and consider new perspectives.

And those interactions have been such a critical part of your education at this school. Those moments when your classmates showed you that your stubborn opinion wasn't all that well-informed -- mmm hmm. (Laughter.) Or when they opened your eyes to an injustice you never knew existed. Or when they helped you with a question that you couldn't have possibly answered on your own.

I think your valedictorian put it best -- and this is a quote -- he said, "The sole irreplaceable component of my CCNY experience came from learning alongside people with life experiences strikingly different from my own." He said, "I have learned that diversity in human experience gives rise to diversity in thought, which creates distinct ideas and methods of problem solving." That was an okay quote. (Laughter and applause.) Okay, you're bright. (Laughter.) I couldn't have said it better myself.

That is the power of our differences to make us smarter and more creative. And that is how all those infusions of new cultures and ideas, generation after generation, created the matchless alchemy of our melting pot and helped us build the strongest, most vibrant, most prosperous nation on the planet, right here. (Applause.)

But unfortunately, graduates, despite the lessons of our history and the truth of your experience here at City College, some folks out there today seem to have a very different perspective. They seem to view our diversity as a threat to be contained rather than as a resource to be tapped. They tell us to be afraid of those who are different, to be suspicious of those with whom we disagree. They act as if name-calling is an acceptable substitute for thoughtful debate, as if anger and intolerance should be our default state rather than the optimism and openness that have always been the engine of our progress.

But, graduates, I can tell you, as First Lady, I have had the privilege of traveling around the world and visiting dozens of different countries, and I have seen what happens when ideas like these take hold. I have seen how leaders who rule by intimidation -- leaders who demonize and dehumanize entire groups of people -- often do so because they have nothing else to offer. And I have seen how places that stifle the voices and dismiss the potential of their citizens are

diminished; how they are less vital, less hopeful, less free.

Graduates, that is not who we are. That is not what this country stands for. (Applause.) No, here in America, we don't let our differences tear us apart. Not here. Because we know that our greatness comes when we appreciate each other's strengths, when we learn from each other, when we lean on each other. Because in this country, it's never been each person for themselves. No, we're all in this together. We always have been.

And here in America, we don't give in to our fears. We don't build up walls to keep people out because we know that our greatness has always depended on contributions from people who were born elsewhere but sought out this country and made it their home -- from innovations like Google and eBay to inventions like the artificial heart, the telephone, even the blue jeans; to beloved patriotic songs like "God Bless America," like national landmarks like the Brooklyn Bridge and, yes, the White House -- both of which were designed by architects who were immigrants. (Applause.)

Finally, graduates, our greatness has never, ever come from sitting back and feeling entitled to what we have. It's never come from folks who climb the ladder of success, or who happen to be born near the top and then pull that ladder up after themselves. No, our greatness has always come from people who expect nothing and take nothing for granted -- folks who work hard for what they have then reach back and help others after them.

That is your story, graduates, and that is the story of your families. (Applause.) And it's the story of my family, too. As many of you know, I grew up in a working class family in Chicago. And while neither of my parents went past high school, let me tell you, they saved up every penny that my dad earned at his city job because they were determined to send me to college.

And even after my father was diagnosed with Multiple Sclerosis and he struggled to walk, relying on crutches just to get himself out of bed each morning, my father hardly ever missed a day of work. See, that blue-collar job helped to pay the small portion of my college tuition that wasn't covered by loans or grants or my work-study or my summer jobs. And my dad was so proud to pay that tuition bill on time each month, even taking out loans when he fell short. See, he never wanted me to miss a registration deadline because his check was late. That's my story.

And, graduates, you all have faced challenges far greater than anything I or my family have ever experienced, challenges that most college students could never even imagine. Some of you have been homeless. Some of you have risked the rejection of your families to pursue your education. Many of you have lain awake at night wondering how on Earth you were going to support your parents and your kids and still pay tuition. And many of you know what it's like to live not just month to month or day to day, but meal to meal.

But, graduates, let me tell you, you should never, ever be embarrassed by those struggles. You should never view your challenges as a disadvantage. Instead, it's important for you to understand that your experience facing and overcoming adversity is actually one of your biggest advantages. And I know that because I've seen it myself, not just as a student working my way through school, but years later when I became -- before I came to the White House and I worked as a dean at a college.

In that role, I encountered students who had every advantage -- their parents paid their full

tuition, they lived in beautiful campus dorms. They had every material possession a college kid could want -- cars, computers, spending money. But when some of them got their first bad grade, they just fell apart. They lost it, because they were ill-equipped to handle their first encounter with disappointment or falling short.

But, graduates, as you all know, life will put many obstacles in your path that are far worse than a bad grade. You'll have unreasonable bosses and difficult clients and patients. You'll experience illnesses and losses, crises and setbacks that will come out of nowhere and knock you off your feet. But unlike so many other young people, you have already developed the resilience and the maturity that you need to pick yourself up and dust yourself off and keep moving through the pain, keep moving forward. You have developed that muscle. (Applause.)

And with the education you've gotten at this fine school, and the experiences you've had in your lives, let me tell you, nothing -- and I mean nothing -- is going to stop you from fulfilling your dreams. And you deserve every last one of the successes that I know you will have.

But I also want to be very clear that with those successes comes a set of obligations -- to share the lessons you've learned here at this school. The obligation to use the opportunities you've had to help others. That means raising your hand when you get a seat in that board meeting and asking the question, well, whose voices aren't being heard here? What ideas are we missing? It means adding your voice to our national conversation, speaking out for our most cherished values of liberty, opportunity, inclusion, and respect -- the values that you've been living here at this school.

It means reaching back to help young people who've been left out and left behind, helping them prepare for college, helping them pay for college, making sure that great public universities like this one have the funding and support that they need. (Applause.) Because we all know that public universities have always been one of the greatest drivers of our prosperity, lifting countless people into the middle class, creating jobs and wealth all across this nation.

Public education is our greatest pathway to opportunity in America. So we need to invest in and strengthen our public universities today, and for generations to come. (Applause.) That is how you will do your part to live up to the oath that you all will take here today -- the oath taken by generations of graduates before you to make your city and your world "greater, better, and more beautiful."

More than anything else, graduates, that is the American story. It's your story and the story of those who came before you at this school. It's the story of the son of Polish immigrants named Jonas Salk who toiled for years in a lab until he discovered a vaccine that saved countless lives. It's the story of the son of immigrant -- Jamaican immigrants named Colin Powell who became a four star general, Secretary of State, and a role model for young people across the country.

And, graduates, it's the story that I witness every single day when I wake up in a house that was built by slaves, and I watch my daughters -- two beautiful, black young women -- head off to school -- (applause) -- waving goodbye to their father, the President of the United States, the son of a man from Kenya who came here to America -- to America for the same reasons as many of you: To get an education and improve his prospects in life.

So, graduates, while I think it's fair to say that our Founding Fathers never could have imagined

this day, all of you are very much the fruits of their vision. Their legacy is very much your legacy and your inheritance. And don't let anybody tell you differently. You are the living, breathing proof that the American Dream endures in our time. It's you.

So I want you all to go out there. Be great. Build great lives for yourselves. Enjoy the liberties that you have in this great country. Pursue your own version of happiness. And please, please, always, always do your part to help others do the same.

I love you all. I am so proud of you. (Applause.) Thank you for allowing me to share this final commencement with you. I have so much faith in who you will be. Just keep working hard and keep the faith. I can't wait to see what you all achieve in the years ahead.

Thank you all. God bless. Good luck on the road ahead. (Applause.)

**2016-06-04 NEW MOON in Gemini + Grand Cross June 4th 2016~**

ART BY MYSTIC MAMMA

*\*prints available soon\**

*\*NEW MOON\* in GEMINI aligning with the mutable Grand Cross offers us a new threshold to cross over. We have the opportunity to reweave a new reality for ourselves.*

*Our experience is colored by our thoughts; this NEW MOON encourages us to break out a fresh new palate of colors.*

*With a keen yet graceful awareness, honor the work of the past by accepting all that you created and begin anew. Allow Spirit to guide your way...*

*Here are the MYSTIC MAMMA Astral Insights from our beloved featured astrologers. First from the always astute [DIVINE HARMONY](#):*

*"This New Moon is a powerful lunation as it forms a mutable Grand Cross with Venus, Jupiter, Saturn, Neptune and the Nodes..."*

*"This mutable Grand Cross New Moon has change written all over it - **changes of direction, changes of heart, changes of mind** and changes of circumstances.*

*"It's not a typical New Moon as usually New Moons are powerful times to plant seeds and set intentions - but this New Moon square Jupiter, opposite Saturn, square Neptune and square the Nodes is actually about **discerning Truth** in one's life and making necessary decisions that have to do with endings/letting go/releasing of the past before the new can truly take hold.*

*"The number one aspect this New Moon makes is a conjunction to Venus - she is tightly aligned with the Sun and Moon by only 29 seconds of exactness. Usually Sun/Moon/Venus is absolutely lovely and beautiful - great for relationship, generosity, abundance and positivity.*

*"Yet the opposition to Saturn brings cold hard reality into relationships and financial situations and further he forces us to really **honestly assess** what our values are and where we are or are not valuing ourselves, respecting ourselves and acting from a place of deep self-worth and self-Love.*

*"With the Sun/Moon/Venus alignment square Neptune there's an idealistic, fantasy based energy playing out...this can also unearth tendencies towards denial, delusion, deception (of self, of others or by others) as well as codependency, enabling, addiction, playing the victim or martyr and otherwise choosing to check out..."*

*"The fantasies and dreams of Neptune get faced with reality when Saturn faces off with him- and this can necessarily pop bubbles and bring up deep feelings of disillusionment, despair, disappointment and more.*

*"Yet it can be easy to stay in the victim stance and feel like things are being done to you- but if you use Saturn's energy wisely you can start to look at your piece in the puzzle and **see where the situations you find yourself in are actually of your own making** (on some level conscious or Unconscious)..."*

*"The quagmires we find ourselves in right now are the perfect alignment of inner and outer circumstances that are bringing us to the pivotal moment of choice and change. We can keep on doing what we have always done and keep on getting what we have always got OR we can change.*

*"Doing things differently is weird at first but we have to **create new neural pathways in the brain - rather than default to the old pathways that we have been stuck in...**"*

*"Luckily Jupiter and the North Node are in beautiful aspect to Pluto- anchoring the potential for profound transformation and evolution this month..."*

*"... with the New Moon making so many intense aspects (not a single 'harmonious' one) I get the feeling that during this lunar cycle IF we are willing to navigate those depths and not just stay on the surface.*

*"One of the worst manifestations of Sun/Moon/Venus is wanting things to be peaceful, harmonious and fun at the expense of doing the work and acknowledging the shadow dynamics going on underneath..."*

*"And yet with this kind of astrology we have to be willing to see WHAT IS before we can ever even begin to hope to create and anchor in what is possible."*

**From the wonderful [SARAH VARCAS](#) from her [Astro-Awakenings.co.uk](#):**

*"...this New Moon augurs **unexpected developments that may surprisingly ease progress** despite conditions that indicate the opposite!*

*"Take nothing at face value right now. Remember the universe is born of its own design, our perceptions of which are unavoidably shaped by circumstances and our judgements about them.*

*"We simply cannot see the whole picture and much is destined to remain a mystery.*

*"Events around the time of this Moon catalyse movement on an old concern, but in a new direction. Be prepared, therefore, to and/or unanticipated developments.*

*"We may seek certainty, insight, knowledge and power at this Moon, forgetting that true power lies in embracing the mystery and our state of unknowing. In doing so, we unlock the alchemy of surrender which enables our reality to shift and change in ways we could not fashion by our own might.*

*"This New Moon nourishes our inherent bodily wisdom that simply knows the truth beyond explanations, theories and words.*

*"We may want to think our way through it but right now it is time to feel as well, to allow our bodies to speak and a felt sense of deep knowing to arise. Therein lies all the wisdom and advice we will need.*

*"This Moon honours the many faces of the feminine: instinctive lunar knowing, the physicality of Venus and the wild resistance of Lilith. She is flexible and multi-faceted, bring a whole panoply of possibilities to the table.*

*"But her position as one corner of a mutable Grand Square (a.k.a. Grand Cross) means there may be too much choice and not enough focus.*

*"The potential of this Moon is great but we could be all too easily distracted by a shiny treat on the surface and miss the buried treasure beneath our feet.*

*"Neptune, Jupiter and Saturn, forming the other three corners, remind us truth is a slippery fish and just when we thought we had clarity a whole new perspective can arise unbidden, to muddy the waters and throw us once again into doubt.*

*"Contact-driven and in need of connection, this New Moon reaches out to others but may somehow, and inexplicably, miss the mark. If you find yourself in need of connection but unable to find it, consider whether your energy, mind and emotions are too scattered to connect with the external world in any meaningful way.*

*"Often we must meet ourselves before we can truly meet another, and the time of this Moon is no exception. Seek first your own friendship and true friends will be unavoidably found along the way.*

*"If this Moon touches us deeply it's because we're ready for fresh connections and sense of community, a change of heart and mind which fosters new relationships that fuel inspiration and effective activity.*

*"But first we must return to ourselves, spend time in the quiet darkness and honour the true self who yearns, now more than ever, to be the only self we share."*

© Copyright 2016 [SARAH VARCAS](#)

**From the always inspired [KELLEY ROSANO](#):**

*"Allow a fresh perspective to take hold of you. Let today be the first day of your life. The past does not equal the future. There is unlimited potential in the human spirit. Keep your mind open. Open your heart and let the light in. A new day is dawning for you.*

*"Go out into the community. Do things that are for fun for you. Play. Try new activities. Get away from your phone. Get away from the electronics. Talk to people that are right in front of you. Make new friends..."*

*"Follow your excitement. Follow what interests you. Be curious. Do new things just for the joy of it.*

*"Trust your instincts. Own your inner authority. Give yourself permission to discover who you are today. Not who you have been. But the new you that is emerging.*

*"Stop criticizing yourself. Let go of the need to be perfect. Let go of the need to be right. **You are worthy.** You deserve Joy. Forgive yourself..."*

*"Some of you are experiencing a heavy energy. Some are feeling sad, anxious or worried. This too shall pass..."*

*"Clean out the closet of your mind. Clean out your basement. Get organized. Release what no longer serves you.*

*"When you clean out the past, you feel lighter. That is because you are filling your space with Light. This will empower you. It is your destiny to live a Joyful life."*

2015-03-07 **Om Gam Ganapataye Namaha**

[https://www.youtube.com/watch?feature=player\\_embedded&v=M7WcWc1\\_a6M](https://www.youtube.com/watch?feature=player_embedded&v=M7WcWc1_a6M)

Om-Gam-Ganapataye-Namaha\_Ganesha\_Humanity-Healing  
Om Gam Ganapataye Namaha is one of the mantras of Lord Ganesha.

Lord Ganesha is the master of wisdom and knowledge. He is the remover of obstacles, and guardian of beauty, prosperity, grace and compassion. Lord Ganesha is the first deity to be revered in Hindu rites. He is a guardian of doors of houses and temples. He is the God that removes the internal and external obstacles of our success, and he is the one that grants the opening of your spiritual gifts. He is also the protector of all beings.

Lord Ganesha is known as the Guardian of Knowledge, representing the sage, or a state of consciousness where a man reaches self-realization and plenitude of gifts.

He is the first son of Shiva, the Lord of Transformation and supreme reality and the Goddess Parvati, the Mother of the Cosmos.

Lord Ganesha is an embodiment of wisdom and bliss. He is the Lord of Brahmacharins. He is the foremost among Brahmacharins or celibates.

He rides on the Vahana, the small mouse. He is the Presiding Deity of the Muladhara Chakra.

He is the Lord who removes all obstacles in the spiritual path and brings worldly success. So He is called Vighna Vinayaka. His Bijakshara is Gang. He is the Lord of harmony and peace.

Lord Ganesha represents OM or the Pranava. Pranava is the chief Mantra of the Hindus. Nothing can be done without uttering it. Hence the practice of invoking Lord Ganesha before beginning any rite or work. The two feet are His Jnana Sakti and Kriya Sakti. Lord Ganesha has the elephant-head as that is the one figure in nature which is of the form of Pranava.

Riding on the mouse represents that He has killed egoism. He holds Ankusa. This represents that He is the Ruler of the world. This is the emblem of Divine Royalty.

In accordance with the legends, Sri Ganesha was the scribe for the Vedic Texts, which he did using his tusks instead of a pen.

His Maha mantra is Om Gam Ganapataye Namaha. Lord Ganesha's Mantras can be chanted out loud or internally. They have been used throughout the centuries and it is believed that the sacred power of words and the accompanying sounds in mantra aid in spiritual progression (transcending into higher states of consciousness) and to effect healing in the physical and energetic bodies.

We strongly recommend the practice of the mantras for a period of 40 days (please see the meaning of the number 40) during a spiritual ritual at the same time every day.

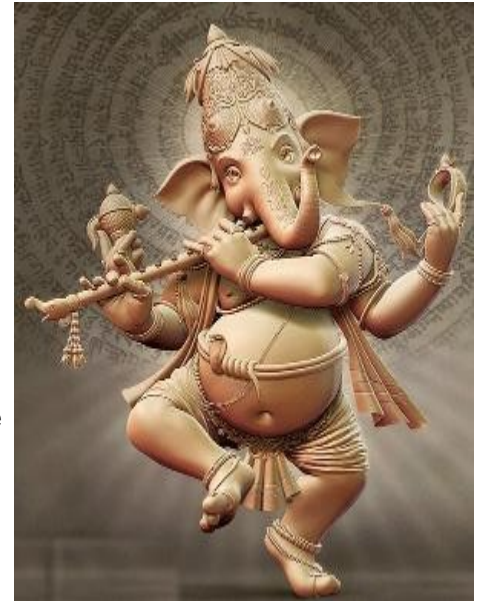

#### **Translation** of Om gam ganapataye namaha

A very loose translation might be:

Om = Salutations! Everyone wake up!

Gam = The secret power sound of Ganesh. It is his "seed syllable" or bija mantra.

Ganapataye = Another name of Ganesh, the breaker of obstacles.

Namaha = Yo! Ganesh! You da God!

The pronunciation is also pretty easy:

Om = ohm or aum

Gam = Somewhere between "gahm" and "gum". In some dialects it is "guhng".

Ganapataye = gah-nah-paht-ah-yeh

Namaha – nah-mah-hah
