

APRIL 2012

Rochester Summer Scholars

2012 SUMMER PROGRAMS

OFFICE OF EXTENDED LEARNING & ACADEMIC INTERVENTION

Portfolio of Summer Program Offerings for Rochester's Youth

The Office of Extended Learning & Intervention is committed to offering quality Expanded Learning Opportunities and Partnerships for Rochester's children. With an intentional focus on accelerating learning and a commitment to youth development, Rochester City School District has developed a varied portfolio of after-school and summer learning options for students. Strategic partnerships with community-based organizations, local colleges, and universities are the focus of RCSD's vision for increased programming options with a plan for sustainability and cost effectiveness.

Summer Academic Intervention Programs Grades K-8

Elementary Academic Intervention Summer School

Dates: 7/9-8/3/12
Ages: entering gr 1- gr 7
of students: 2500

An intensive intervention program utilizing a leveled integrated content approach, designed to increase reading and math achievement, as well as prevent summer learning loss. ELA instruction will incorporate learning activities from National Geographic for Grades K-3 and Millmark Publishing for grades 4-6. V Math will be used for mathematics intervention grades K-6. Registration will take place through the student's home school.

Grade 7 Academic Intervention Summer School

Dates: 7/9-8/3/12
Ages: completing 7th grade
of students: 600

An intensive intervention program in the areas of literacy and mathematics for current 7th graders who are in need of Academic Intervention Services and/or have earned grades of "C" or below in core subjects. Reading materials will focus on scaffolding of Common Core State Standards; VMath will be used for mathematics intervention. Registration will take place through the student's home school guidance counselor.

Commencement Ramp Up Academy

Dates: 7/5-8/15/12
Ages: completing 8th grade
of students: 600

The program focus is to provide Academic Intervention Services for grade 8 students who have not met NYS Learning Standards. The four period day will include intensive Content Literacy Instruction to prepare students for success in credit-bearing coursework, as well as intensive Math Review and Intervention. Registration will take place through the student's home school guidance counselor.

Partnership Programs:

- CAMP GOOD DAYS & SPECIAL TIMES
- ENCOMPASS RESOURCES FOR LEARNING
- HONEOYE FALLS-LIMA CENTRAL SCHOOLS SEEK PROGRAM/ CAMP INVENTION
- HORIZONS @ HARLEY SCHOOL
- HORIZONS @ UNIVERSITY OF ROCHESTER
- HORIZONS @ MONROE COMMUNITY COLLEGE
- HORIZONS @ NAZARETH COLLEGE
- MERCIER LITERACY FOR CHILDREN
- NORMAN HOWARD SCHOOL

- STRONG NATIONAL MUSEUM OF PLAY
- TEMPLE B'RITH KODESH
- WALLACE FOUNDATION SUPPORTED GRADE 3 SUMMER ENRICHMENT PROGRAM

Office of Extended Learning & Academic Intervention

Vision: To increase student engagement and learning, in school and beyond.

Mission: To promote school achievement and long-term success through varied high quality learning opportunities that:

- Create more time for learning
- Incorporate experiential education and cooperative learning activities
- Promote positive adult/student relationships
- Foster connectedness to the larger community
- Strengthen diversity through enrichment
- Coordinate community resources to support youth development and academic success

2012 SUMMER PROGRAMS

Rochester Summer Scholars Grade 3 Summer Enrichment Program

Rochester Summer Scholars Grade 3 Summer Enrichment Program

Dates: 7/9–8/10/12

Ages: entering grade 4

of students: 600

The focus of this full-day summer program is to provide instructional support to students who are below grade level in English Language Arts and Mathematics. Additionally, students will be provided opportunities for enrichment in physical education, health, art, music and science through partnerships with community-based organizations. Fieldtrips, scientific inquiry activities, and hands-on projects will extend students' learning in preparation for 4th grade.

Enrichment Opportunities include:

- African Drumming & Dance
- Movement
- Creative Writing
- Multi-Media Production
- Culinary Arts
- Gardening
- Rock Climbing
- Volleyball
- Visual Arts

Programming made possible

Community Based Enrichment Providers Include:

The Wallace Foundation has partnered with RCSD in its efforts to engage children in more hours of learning. Together, with assistance from the RAND Corporation, we will study the effects of summer programming on student achievement, and make the findings public. The partnership is helping RCSD introduce and test more -learning-time programs on a wide scale. Rochester is one of six sites nation-wide to in this four-year summer learning "research and demonstration" project in which low-performing students about to enter the fourth grade will receive reading, writing and math instruction as well as enrichment activities like music and sports. The project is designed to combine high-quality learning for children with a much-needed rigorous test of what works and what doesn't in these summer programs.

"Children lose more than

academic knowledge over

the summer. Most

children—particularly

children at high risk of

obesity—gain weight

more rapidly when they

are out of school during

summer break." (Von Hippel

et al, 2007).

Our summer learning programs are designed with opportunities for academic intervention, enrichment, youth development, and recreation.

K-8 Enrichment: Community-Based Partnership Programs

By maximizing opportunities for funding through Title I, local and community funding sources, and private donations, Rochester has increased options for students to participate in fun, experiential learning programs which reinforce NYS learning standards through hands-on learning, build supportive relationships and maximize community resources for student success.

Dates: 7/9-8/3/12

Ages: entering gr 7-9

This Iglesia program is designed to enhance students' overall academic performance by relevant, interactive learning experiences connected to chemical, mechanical, civil, biomedical and electrical engineering with real world application. Students focus on hands-on engineering projects and interact with college students and engineers from the community.

EnCompass Resources for Learning at School #15

Dates: 7/9–8/3/12

Ages: Grades 2-6

EnCompass Resources for Learning is donating their service for the summer to continue an extended learning experience at Schools 15 for students who participated in their 2012 after-school program. Designed in accordance with recommendations put forth by the Greater Rochester After School Association Task Force, the program combines learning, recreation, and community experiences with a focus on the whole child.

www.encompassresources.org

Honeoye Falls—Lima Summer Enrichment

Experience for Kids (SEEK)

Dates: 8/6—8/10/12

Twenty Grades 3-5 from School 12 will have an opportunity to participate in a language, culture, and learning exchange program with families in Honeoye Falls-Lima (HF-L) Central School District. RCSD and HF-L students will also participate in a 5-day science learning program called Camp Invention. Students will participate in hands-on science fun, problem-solving and brainstorming — skills that will help them both in school and beyond.

College & Career Readiness Community Programs

Pre-AP Summer Science & Mathematics Camp

Dates: 7/9–7/16/12

Ages: entering 7th, 8th and 9th grade

A camp designed to increase student achievement in Science and Math. Designed for students who enjoy Science or Math who are considering taking a higher level course later in high school.

Contact Karen Sangmeister, 262-8462

Rochester Area Young Scholars @

SUNY Geneseo

Dates: 7/18-7/29/12

Ages: entering gr 6-11

This residential, pre-collegiate program is run as a licensed residential camp. Students live in dorms, meet with faculty, college students and college administrators. They have the opportunity to use the library, science lab, and experience college life. Students will learn about the STEM fields and careers created in this year's CSI camp.

<http://rysag.geneseo.edu/>

Future Business Leaders Experience

Dates: Saturdays June-August

Ages: 11th & 12th graders

FBLE is a unique program that develops the business, problem-solving, and leadership skills of our youth through real-world learning. The program creates a visionary pipeline enabling minority youth to see how the skills they learn in school prepare them for their role as our next generation of business leaders in the Rochester area. Stipend for successful completion.

<http://www.rit.edu/news/story.php?id=46913>

Sylvan Summer College Preparation Program

Dates: July 9– 8/17/12

Ages: Grades 9-12

The Sylvan Summer College Preparation Program will provide students with a positive opportunity to improve their SAT Reasoning Test scores, navigate the college admission process, develop critical thinking skills applicable in collegiate education, and build the confidence and motivation to learn necessary for success in college and beyond.
