The Impact

- Chronically absent students with Success Mentors gained over **7,000 days** of attendance
- Students with full-year mentors who were chronically absent in 2009-10 exited CA status more often in 2010-11 than students without mentors in comparison schools.
- In elementary schools, 49% of students with full-year mentors exited CA status vs. 42% of students without mentors – **17% more**
- In high schools, 23% of students with full-year mentors exited CA status vs. 18% of students without mentors – **27 % more**
- The impact was even stronger for severely chronically absent high school students: 21% of high school students with full-year mentors exited SCA status vs. 10% of students without mentors – **119% more**
