## HARD NEWS

- More coming out on Hillary now
- R:** talking to folks: listening to local NPR of Las Vegas
  - heard a show with Ira Gordon as host: they know him as a commentator from coyote radio in Santa Fe; used to help Al & Elizabeth on their show; left there and got hired by NPR
  - Rama called in; Ira remembered him – what's up? R told him about a You tube called *Hillary: career criminal* – sent it to Ira as a text; this is talking about so many stories that fill in the blanks all the way back to 1993 & onward.
  - R also brought up that it goes into realm of 9/11 and Ira said he could go no farther as R had brought that up: even Free Speech has to mind their Ps and Qs, but **Rama HAS NO GAG ORDER AND IRA DOES HAVE SUCH AN ORDER!** Bringing up 9/11 shakes up the tonal! This will soon be shaken loose.
- The video talks of all the crimes of Bill, Hillary, Susan McDougall and husband – so HUGE!
  - About the facts of what Bernie brings forth: we cannot serve two masters – as Dr Greer said “You can put any amount of money in front of me; I won't take it: you can't own me”
  - this is about ET – goddess, Divine Woman, is in charge
- Ira brought up Al Franken; no, he had not spoken to Al lately: R asked Ira to share the video with Al Franken – very good if Al's hair stood on end!
  - Ira said the video may disappear from you tube, which is controlled by google - **Rama has saved it on our website.**
  - These folks have been playing musical chairs in a deep story
- another piece R shared with Ira:
  - 2003, when Bush invaded Iraq, he used anti gravity craft - dropped 2 neutron bombs on Baghdad; they have been playing with this technology all along.
  - Ira mentioned that people have been seeing the triangular shaped craft a lot – which means they are using the craft to freak the people out as a last ditch effort
  - we cannot fake divine love, the frequency that Mother spoke of last night: the energy that comes from such infinite radiance – standing in that frequency opens the heart and cannot be faked, no matter how advanced we are in our technological evolution: it is orgasmic – when you meet your lover, your TF- it is so cosmically orgasmic – cannot be faked with technology or any form of mind control.
  - This is the realm folks are coming in with now
- He recalls meeting Mother Theresa for the first time in India: like meeting the Beatles!
  - T is saying did he do a Beatles dance? No, he did not do a Beatles dance but he did scrub floors for 2 weeks – just an ecstatic experience.
  - Today he met 3 homeless people and gave them each 25 cents, his last 75 cents; they thanked him and he told them to keep looking up, that what they saw were not the ones from Nellis AF Base – they already knew the difference!
  - R is graced and blessed to be able to share this with us: sharing the gifts which are simple, holy. He thanks us for being able to share this in loving presence: when we can share the energy, and it touches another – that's what Mother Theresa, Sai Baba shared
  - No Bill Maher last night, but they did get **Overtime:** Ariana, Amy G -

- he thanks all those who sent lots of Twitters from so many people: George Clooney's neighbours, one of Hillary's supporters, is offering \$20,000 plate dinners;
- his neighbours are offering pot lucks; there is no charge: just sharing Bernie's message!!!

***Discord, division and conflict,  
Happen every time,  
I get stuck in my head, and my point of view,  
And want to be right more than kind.***

Well, if you've been wanting to take someone's head off (or feeling so ashamed of yourself for having the thought), you are not alone! Yikes! Sun, Uranus, both conjunct Eris this last week and now is bringing in a lot of "GRRRRRRR"! In this report, I explore just what good might come out of all the "ugliness" and also just how long it may take!

As mentioned in the report's credits, Laura Walker has written two excellent books, one on Lilith and one on Eris that I highly recommend. Her website is the [OracleReport.com](http://OracleReport.com). I also love Tia Quin's artwork (even better with a black light!). Her work can be found at [GypsyVibrations.com](http://GypsyVibrations.com)

I think the bottom line is that whenever we exclude an aspect of ourselves, society, or humanity, it grows angry and returns to force us into looking at ourselves to find the fear that pushed us to create that separation, hence, discord! The more we accept and include all of creation the less discord we have..... wow..... now that's a BIG job (but could be fun). Enjoy!

**R:** the entity that Alistair Crowley was in contact with was not the same as the person Carlton is referring to

## INFORMATION RELATED TO THE NOTES

2016-04-16 [Pope Francis is Feeling The Bern, met personally with Sanders this morning!](#)

By [InteGritty](#)

Birds of a Feather meet together.

When the Pope wants to meet you, you say yes.

Especially when you're an actual progressive, and the Pope in question is the most socially progressive pontiff in the entire history of the Catholic Church, known for his advocacy on behalf of the poor, against social inequality, against war, and for an immediate end to global warming.

Pope Francis met with Bernie Sanders this morning, as the two crossed paths in the papal residence just before Francis left to meet with refugees on the island of Lesbos to raise European consciousness on their plight.

As the [WaPo](#) initially reported:

The meeting took place at the papal residence early Saturday, according to Sanders spokesman Michael Briggs.

**A Vatican source said the meeting was not a chance encounter and had been planned.**

[SEE UPDATE below\*: Facing blowback for the appearance of any political maneuver, the Pope, ever the consummate diplomat, while confirming the meeting, downplayed any significance or prior planning, portraying the encounter as polite and a product of circumstance. In respect, the prior reporting has been softened since the original story broke to reflect Francis's careful phrasing]

Sanders had been discreet about his plans after speaking at the conference the Vatican had invited him to address as a superstar headliner. And now, [according to multiple sources including the AP](#), the reasons for that discretion have become clear. When Pope Francis is pulling you into his orbit for the honor of a personal meeting, you have no choice but to accept:

Sanders and wife, Jane, stayed overnight at the pope's residence, the Domus Santa Marta hotel in the Vatican gardens, on the same floor as the pope.

Wow. This honor is YUGE!

So how did the meeting this morning go?

Sanders said the meeting took place Saturday morning before the pope left for his one-day visit to Greece. He said he was honored by the meeting, and that he told the pope he appreciated the message that he is sending the world about the need to inject morality and justice into the world economy. Sanders said it's a message he has been sending as well.

"We had an opportunity to meet with him this morning," Sanders said. "It was a real honor for me, for my wife and I to spend some time with him. I think he is one of the extraordinary figures not only in the world today but in modern world history."

Asked what they discussed, Sanders said they mostly spoke briefly about climate change and foreign policy matters. He said he spent a good part of the meeting expressing his admiration for the Pope, especially his efforts to push for a more fair and just economic system:

"His message is resonating with every religion on earth with people who have no religion and it is a message that says we have got to inject morality and justice into the global economy," Sanders said.

Sanders said the meeting should not be viewed as the pope injecting himself into the campaign. "The issues that I talked about yesterday at the conference as you well know are issues that I have been talking about not just throughout this campaign but throughout my political life. And I am just very much appreciated the fact that the pope in many ways has been raising these issues in a global way in the sense that I have been trying to raise them in the United States."

An official Vatican twitter account subsequently sent out papal confirmation of the meeting:

[@Pontifex](#) spoke to [@SenSanders](#) about foreign policy and climate issues, five minutes before leaving for Lesbos <https://t.co/wLyLNB8Ayc>

— Casina Pio IV (@CasinaPioIV) [16 avril 2016](#)

And Sanders and his wife Jane were caught on camera leaving the Pope's residence just after his historic meeting. It is the first time a Pope has met with a candidate for President of the US:

After mtg w/ [@pontifex](#) this am, [@sensanders](#) emerges from Pope's residence (DSM). Talked [#climatechange](#) [@CasinaPioIV](#) [pic.twitter.com/HrpmVYsDlt](http://pic.twitter.com/HrpmVYsDlt)

— Michael Shank (@Michael\_Shank) [16 avril 2016](#)

Those who spent many days mocking Sanders for being invited to speak by the Vatican, and assuring us up and down that the Pope would never meet him, should have reflected more deeply on the mission that drives each of these two people, and how deeply seriously each takes their mission.

They also displayed a rather shocking lack of familiarity with the sly, secretive, subtle course that diplomacy runs, especially within the refined atmosphere of the Vatican. In the end, according to initial reports from the AP (which it later hedged on!), it will bend to the will of the boss, especially one as venerated and committed to social justice as this Pope:

However, Francis has been known to flout Vatican protocol, and the meeting with Sanders is evidence that his personal desires often trump Vatican diplomacy.

A great honor for Senator Sanders, and a great day for the fight for social justice all over the world. Let us continue it in the spirit of communal solidarity displayed by Sanders and Pope Francis today.

[Saturday, Apr 16, 2016 · 10:41:06 AM MST · InteGritty](#)

Pope Francis, facing some blowback from today's events, [has confirmed meeting Sanders and agreed with the Senator that the encounter had no political meaning](#):

"This morning as I was leaving, Senator Sanders was there," Francis said. "He knew I was coming out at that time, and he had the kindness to greet me."

"When I came down, he introduced himself, I greeted him with a handshake, and nothing more," the pope added. "It's common courtesy, this is called common courtesy."

"If someone thinks that greeting someone is getting involved in politics," he said, "I recommend that they find a psychiatrist."

\*Respecting the Pope's usual concern with not involving himself with politics in Italy or abroad, later reporting on the encounter has delicately shifted to present it as somewhat serendipitous.

Regular Vatican observers would counter that, nowhere more certainly than within Vatican walls, papal encounters do not occur randomly, and do not occur without papal approval and without a mutual desire to meet.

## **The Astor Bloodline**

<http://www.bibliotecapleyades.net/bloodlines/astor.htm>

The original founder of the Astor fortune was John Jacob Astor (1763-1848). John Jacob Astor was born in Walldorf, Duchy of Baden (Germany) from a Jewish bloodline. The Jewish origins have been hidden, and quite a number of various ideas of the Astor's heritage have been put into circulation by the Astors. John Jacob Astor was a butcher in Walldorf.

In 1784, he came to America after a stop over in London, England. Although the story is that he came to America penniless--and that may be true--he soon joined the Masonic Lodge, and within 2-3 years had become the Master of the Holland Lodge No. 8 in N.Y. City. (This Holland Lodge is a prominent lodge in that many of its members have good connections to the Illuminati elite. An example of just one Lodge #8 member is Archibald Russell, 1811 - 1871, whose father was President of a real hotbed of Illuminati action for many years: The Royal Society of Edinburgh).

By 1788, Astor was a master of Masonic lodge#8. This is rather interesting considering Astor could not speak English when he arrived in America, and supposedly was very poor. John Jacob Astor was always very famous for being coldhearted, anti-social, "a man who didn't have charm, wit or grace." (This quote comes even from a relative of the DuPont family who wrote a sympathetic Biography entitled The Astor Family.) If this man lacked social graces and was so cold, and was so poor during his first years in the U.S., why did he rise to such prominence in Freemasonry?

Certainly not because of his social graces. For instance, one time later in life at a meal given for elites, when his hands got dirty at the table he reached over and used the shirt of the man beside him to wipe his hands. The original financial break came by carrying out a series of shady and crooked real estate deals in the N.Y. city area.

The next break came when two men who are now known to have been in the Illuminati gave John Jacob Astor a special government privilege. The two men were Pres. Jefferson and Secretary Gallatin--both Illuminati members. The United States government had placed an embargo on all U.S. ships from sailing with goods in 1807. But Astor got special permission from these two men for his ship to sail with its cargo.

His ship sailed and made close to a \$200,000 profit in that day's money. Astor strangely profited greatly from the War of 1812, which crippled almost all the other American shippers. Astor also worked together with George Clinton, another member of the Illuminati, on land deals. Even at that period in history, British intelligence worked for the Committee of 300 and for the Thirteen Top Families, it is interesting then, that John Coleman who had access as an intelligence agent to secret documents, discovered that the original John Jacob Astor was also a British secret agent.

The Thirteen Families have very intimate roles with the American and British intelligence cults.

Prior to 1817, John Jacob Astor entered into the fur trade and remained the biggest player in the fur trade until he got out of it in 1834. Over the years, he had managed to build up a monopoly. How he managed to push everyone else out is a good question.

Bear in mind, white people had been trapping furs in the New World for several centuries, and the

Indians for who knows how long. Then this guy Astor comes along and in a few years totally owns the whole industry! Again this could only have happened, because the occult power of this Astor family gave them the right. Obviously, others in the Committee of 300 had to step aside, if his position in the hierarchy had not given Astor the right, believe me the other families that originally controlled the fur trade would have gotten rid of Astor. One result of his fur company, was that Astoria, OR was created.

Today, perhaps in honor of the family that originally took interest in it, Astoria is a real hot-bed for the secret Satanic covens in Oregon. John Jacob Astor did have a few helpful connections. Three of his relatives were captains on clipper ships. He had connections in London to the Backhouse family. He married a Todd, a family frequently associated with Satanism. His wife, a Todd, was also connected to the influential Brevoort family. And finally for some reason, John Jacob Astor was also on good relations with the politicians of the day, perhaps because most of them were Freemasons too.

For a few years John Jacob Astor had participated in the opium trade, but in 1818-he publicly quit running opium to China. John Coleman in his good book *The Conspirator's Hierarchy: The Story of the Committee of 300*, p. 131 notes, "John Jacob Astor made a hugh fortune out of the China opium trade .... it was the Committee of 300 who chose who would be allowed to participate in the fabulously lucrative China opium trade, through its monopolistic BEIC, and the beneficiaries of their largess remained forever wedded to [the Committee of 300.](#)"

Interestingly another Top 13 family, the Russells, was also one of the lucky ones to get a slice of the China opium trade. It is clear repeatedly from history that Astor was privy to inside information in the government, and maintained his own courier system. John Jacob Astor bought up large amounts of land in NY which land greatly increased in value. The Financial Panic of 1837 allowed him to foreclose on a large number of mortgages. John Jacob Astor's wealth continued to skyrocket. As one biography said, "When it came to a question of principle versus profit, Astor was a practical man."

Put simply, he had no scruples. Astor had a reputation for being a ruthless landlord. He also had the reputation of not paying his legitimate debts. Astor became a banker, and sat on the board of 5 directors of the new national bank that Hamilton created for the U.S. government called the Bank of the United States. Astor owned a large block of the stock of the Bank of the United States. Astor also was fairly active during his life as a Freemason, holding several more key positions in the secret lodge life. John Jacob was the richest man in the United States.

Note this reference. Meyers, Gustavus. *History of the Great American Fortunes*. London: Stationers Hall, 1909, p. 147 said, "Statistics issued in 1844 of manufacturers in the United States showed a total gross amount of \$307,196,844 invested. Astor's wealth, then, was one-fifteenth of the whole amount invested throughout the territory of the United States..." Is having 1/15th of all of what American money is invested not rich? John Jacob Astor's descendents had a penchant for secrecy, and set up things to rule from behind the scenes. In contrast, to some of the other top families, the Astors preferred not to sit on boards of corporations they controlled. In 1890, a real estate expert calculated the Astors owned 1/20 of New York City real estate.

After making their fortune while residing in the New York area, the Astors by and large have all gone to England. They still wield great financial power in the United States through proxies. Forum

Magazine, Nov. 1889, commented that authorities estimated the Astors were worth \$300,000, but that that figure had to be an underestimate. Today, my estimate of the Astors is that they are worth about 40 billion dollars. One of the many foundations that the Astors created was the Vincent Astor Foundation, which is controlled from England by the Astors and has in the range of \$100 million tax exempt dollars. The Vincent Astor Foundation has typically given to Catholic and Episcopalian needs, among other things.

They also give money to agencies opposed to private ownership of guns. They give money to NY's public library. Imagine how much influence that gives them, when the library is receiving regular help for general support? A 1971 Foundation Directory stated that the V. Astor foundation had its present emphasis on preventing juvenile delinquency. Why don't I trust the Astors in helping out with law enforcement?

The William Waldorf Foundation states that its purpose is 'Promotion of mutual understanding and the diffusion of knowledge and culture among the United States and the dominions, colonies, and countries of the British Commonwealth.' This sounds very similar to the public statement of purpose that the secretive Pilgrim Soc. has given out to those who need something about them. Assets for this foundation are a mere \$64,000. Vincent Astor (now deceased) was a member of 41 private clubs.

To give an idea of how much power just one of the many Astor men wield some of the businesses Vincent was involved include:

- director- American Express Company dir. Atlantic Fruit and Sugar Co.
- dir. Chase Manhattan Bank (of the Rockefellers)
- dir. City and Suburban Homes Co.
- dir. Classical Cinematograph Corporation
- dir. Cuban-Dominican Sugar Co.
- dir. Great Northern Railroad
- dir. Ill. Central Railroad
- dir, Inter. Mercantile Marine Co.
- dir. National Park Bank of NY
- dir. NY County Trust Co.
- dir. Weekly Publications Inc.
- dir. Western Union Telegraph trustee NY
- Zoological Soc. advisor to Bankers Trust of NY
- member Amer. Museum of Nat.
- Hist. member Nat. Instit. of Soc. Sciences (notice these last two like so many elite controlled organizations are heavily involved in the spread of the evolution theory.)

Just like the Rothschilds, DuPonts, and Rockefellers, the Astors always set one of their Astor males as the head of the entire family. This headship is passed down as a birthright within the different branches of the family, just as any King passes on his throne.

On the corner of 33rd St. and 5th Ave. (the site later began the site of the Empire State Building), the original Waldorf-Astoria Hotel was built by William Waldorf, et. al. The hotel opened in Mar. 1893. It is described as 'the ultimate in snob appeal.' Later two Astor cousins built the Astoria (another even taller elite Hotel) in New York which opened in 1897. Of course, like many of the other elite families, the Astors have their Maine property to get away and relax. In 1894, John Jacob wrote a novel **A Journey in Other Worlds** where he describes a society which operates on the idea of conserving energy.

Strange how the elite likes to promote conservation among us 'cattle.' In the late 1800's, the Illuminati began to reconfigure its outward face. The higher levels started creating innocent sounding cover organizations to hide their meetings behind. In 1901, the Astors contributed toward the creation of the Pilgrim Society, which was the cover organization for Amer. & Brit. 6° Princes of the Illuminati. I believe at least five Astors are now members of the Pilgrim Society. The Pilgrims had recently included David Astor, John Jacob Astor 8<sup>th</sup>, and William Waldorf Astor 3<sup>rd</sup>. And during the 1970s, Baron Astor of Hever was the President of the London branch of the Pilgrims. This implies that Astor of Hever was at least the next level up in the chain of command.

The Astors also have been very prominent in the Group which is Britain's equivalent to the Skull & Bones Soc. In Britain, the Astors, along with about 20 other families dominate the Group, just as certain families like the Whitneys in the U.S. help dominate the Order of Skull & Bones. Again, as was earlier pointed out, the key to understanding Satanism is the bloodlines.

In 1910, the muscle and bone branches of the Illuminati reconfigured themselves with the creation of the Round Table groups in 1910.

The Astors were the part of the financial backers behind the Round Table groups, along with Abe Bailey. Rhodes and Milner were key players in setting up The Society of the Elect, a supersecret top circle of Illuminati. Rhodes Trust in part helped by the Astor, helps finance the Rhodes Scholarship system. Rhodes, a high ranking Freemason, wanted the Masonic clap-trap as part of these various new groups, but Milner and Brett did away with the Masonic rituals and costumes, etc. but Milner and Brett did away with the Masonic rituals and costumes, etc.

In 1919, the Royal Institute of International Affairs (RIIA) was created. And the Astors were the major financial backers of the RIIA which functions as the 4° cover of the Illuminati. For those who are new to this, the RIIA is the British equivalent to the Council on Foreign Relations (CFR) which takes a major role in the policy making process in the U.S. Waldorf Astor was appointed to the RIIA. Just above the CFR/RIIA are round table groups which were initially named by Cecil Rhodes as the "Association of Helpers".

Cecil Rhodes set up the Rhodes Scholarships to recruit and bring top men from several nations to Oxford to be initiated into the Illuminati and to learn about how to bring in a One-World-Government. So the initial selection into the Rhodes program--its degree of the Illum.- is equivalent to the initiation into the Skull & Bones. In the picture you see how the Cliveden Astors were intimately connected to the Rhodes Scholars. Rhodes Scholars frequently went to the Cliveden Estate. By looking at the genealogy chart, you can see how the family in London broke up into two powerful segments. One part centered around the Cliveden Estate. Another group became Barons - the Astors of Hever - or the Hever Astors for short. William Waldorf Astor owned the *Pall Mall Gazette*, the *Observer*, and the *Pall Mall Magazine*. The London Times was largely controlled by the Astors and, since 1922, they have owned this major source of British news.

The DuPonts and the Rockefellers also have some major businesses where they too own blatant large holdings. However, most of the wealth of the 13 Top families is hidden so that the ties to who owns it are difficult to track. Hoyt Ammidon has been a proxy for Vincent Astor and the other Astors. (See membership list of Illuminati in this newsletter). The Astor family also used Owen Lattimore as their proxy for opium trade who, in turn, used Laura Spelman who was funded by the Institute for Pacific Relations (IPR).

The IPR was the group that supervised the Illuminati's decision to allow Red China to share in the Opium trade. The puppet strings behind big world events may not be seen by the public, but if we trace the origins of several big events we see the Astors helping pull strings. The IPR helped lay the groundwork for the Pearl Harbor attack. The Astors also were behind the appeasement policy in Europe which allowed Hitler to become a threat. The Astors were also involved in the temperance movement against alcoholic drink which was begun by the Women's Christian Temperance Union.

The temperance movement was an elite created movement just like today we have big issues like Apartheid which are made up by them to keep us busy. Joseph Kennedy and Onassis, two other top 13 Illuminati families got rich off of the temperance movement by bootlegging. So many people have exposed the temperance movement (See Occult Theocracy for just one expose of Freemasonry's involvement) that it is not pertinent to cover it here.

Today's equivalent of the temperance movement is the drug war. Col. Jack Astor, one of the world's most powerful men, was among those who went down with the Titanic. To his honor, he didn't have to sacrifice his life, but did. If he had been a scoundrel he could have chased a woman and her children from some lifeboat. Many sermons have been preached on the significance of the Titanic, and I personally am beginning to feel that God laid it on the hearts of so many of his ministers to understand that the Titanic was a judgment upon the pride of the world.

More specifically it was a warning to the New World Order's elite. Another Illuminati invention was Communism. This has been so thoroughly documented I don't know why I have to state it here, except that there are still people who haven't taken the time to study it out. James II. Billington's book **Fire In the Minds of Men** - a very scholarly work, and Occult Theocracy are some good starting points to study this. The Fabian Society was also connected to the Illuminati. For instance, Illuminati prince Prof. George Edward Gordon Catlin, Pilgrim Soc. member was a member of the Fabian Society's executive committee. The Fabian logo is a Wolf in Sheep's clothing!!

Fabians like H.G. Wells who wrote so eloquently on the New World Order with such books as **The New World Order, A Modern Utopia, The Open Conspiracy Blue Prints For A World Revolution** was a wolf in sheep clothing. H.G. Well's made the New World Order something that sounded advantageous to everyone, a Utopia of sorts. That is not what it will be. During the 1930's, the Fabian Socialists created the Political and Economic Planning group (PEP). Mason Viscount Waldorf Astoria was a leader of PEP. A confidential program that the PEP created and implemented through the British government was later described in a book Principles of Economic Planning in 1935. The book doesn't explain why its cover has a abstentious Masonic square and compass displayed on its cover.

George Bernard Shaw, who was a communist and Fabian Socialist, was the best friend of Lady Nancy Astor, who became the first woman Member of Parliament. These two spent vast amounts of time together, much more than Nancy did with her husband Waldorf who she didn't care to be around. Waldorf was the Mason that was mentioned earlier who helped lead PEP. After Nancy Astor was elected (or selected by the elite) to be the first lady MP, one of the Russell ladies soon afterwards also became an MP.

Communism pretends it is the enemy of the rich capitalists, but both the rich elite and the communist leaders are committed to wipe out Christianity, to wipe out free trade with monopolies, and to set up an Illuminati One-World-Government.

Do you see they have similar goals? A picture is included of Waldorf and Nancy Astor's visit to Russia during the 1930s. The Astors were not treated like enemies but like royalty. Can we see how the elite controlled press have deceived us? Do not trust our Illuminati-controlled elite to protect us from communism, they control communism. Besides socialism, Nancy Astor was a big supporter of Christian Science. Christian Science was a front for witchcraft from its very beginning. For more information on what Christian Science is about, I suggest people study **Be Wise As Serpents**, chapter 2.6 'The Healing Light'.

Nancy Astor wrote **The Natural History of the Vampire** and a book on the early Mason/Communist Bakunin. She used Grenfell family papers. The Grenfell family were close friends to the Cliveden Astors. David Astor, (The Honorable) attended Bilderberger meetings in 1957 and 1966. Alpha Lodge is the lodge in England that is traditionally for royalty. There are other elite lodges too, where those of the elite, can protect themselves from rubbing shoulders with those of less social stature. These are the type of masonic lodges that the Astors join.

In summary, an examination of the Astor family reveals their close connections with the full spectrum of Illuminati activities ranging from Freemasonry, the Illuminati itself, the Pilgrim Society, the Round Tables, Communism, Fabian Socialism, CFR, RIIA. the Bilderbergers, as well as the various politically (that is Illuminati) tainted banks such as Chase Manhattan. Ava Alice Muriel Astor was an occultist.

She was born in 1902, was pretty but also a very serious woman. She was a very strong willed person who was able to dominate a person in her presence unless they were also strong willed. She was into Egyptian magic and believed she was the reincarnation of an Egyptian princess and a disciple of Ikhnoton. Alice Astor may have been one of the first people to enter King Tut's tomb, where she got herself a necklace.

Aldous Huxley wrote **Brave New World** as a picture of things that were to come --most people think as a exposé, but it was really more as a plan or blueprint. Aldous Huxley and Alice did a great deal of occult things together. Their financial power is unchecked. Myers and others have noted the Astors are above the law. The Top 13 families don't obey the law--they are the law. The Astors may have Illuminati Kings and Princes in their ranks; they may have dozens of billions of assets, yet it will all be nothing when they face their Creator at judgment.

#### Followup on the Astors

One of the items that I felt I should have given the readers back in the 1/1/93 issue was the Masonic background of John Jacob Astor (1763-1848). For the record here is his masonic involvement:

- Master of the Holland Lodge No.8, of N.Y.C.-1788
- Grand Treasurer of the Grand Lodge of New York-1796-1801
- Junior Grand Warden on two occasions-1796 & 1801
- Secretary of the comandery (then called encampments).

For a busy man, he kept himself busy In his Masonic work.

**THE ASTOR FAMILY REVISITED**  
**WITH INFORMATION ON THEIR CHANLER BRANCH**

**THERE ARE 13 TOP BLOODLINES**

Thirteen families or bloodlines are at the top, and five of these families are the inside core of these thirteen. Prior to **Be Wise As Serpents**, the existence of thirteen top families was not known by very many people. The existence of the 13 families had come out in Berry Smith's book **Final Notice** in the 1980s, but the names were still unknown.

Berry Smith of Australia wrote in his book **Final Notice**, p. 9, "There are 13 families or groups heading up the World Government plan. These families are portrayed as the 13 layers of blocks found on the strange seal on the reverse side of the U.S. \$1 bill." In a little read article, one SRA victim recently wrote that Satanism was controlled by a few families. Recently, one of the DuPonts was on a television show because the DuPonts were trying to kidnap him because they didn't like his support for the book *Dope, Inc.* I was able to get a copy of the book, and was overjoyed to find such an excellent book.

My sources have been telling me that *the top Illuminati families were behind the drug trade*. Yes, Satan's top followers are also the kingpins in destroying humanity for profit through drug trafficking.

The following families (besides others) or individuals from these families are [mentioned in \*Dope, Inc.\*](#) as involved in some aspect of the **drug trade**:

- Astors
- Bundys
- DuPonts
- Freemans
- Kennedys
- Lis
- Rockefellers
- Rothschilds
- Russells

It is no coincidence that nine of the Top 13 families would get their names in a book which revealed the big names behind the world's illegal narcotics trade.

It should be mentioned that some other prominent Illuminati families also play key roles in the drug trade such as the Bronfmans, Cabots, Shaws, Bacons, Perkins, Morgan, Forbes, Cisneros and Oppenheimers. Where have we seen such names before? There are names in **Dope Inc.** that people would do well to know the danger of such as Louis Mortimer Bloomfield; Robert Vesco; Francois Genoud of Switzerland; Ivan Slavkov of Bulgaria; the Duke of Kent, Master of the Grand Mother Lodge of the Scottish Rite, and Jardine Matheson to mention a few. All our favorite secret fraternal groups appear in **Dope, Inc.** too. For instance, the Triads, P2 Masonry, regular Freemasonry, the CIA, the Order of St. John, and the Jesuits.

The Universal Christian Gnostic Church which practices black magic has a whole chapter showing its connection to the drug trade. Britain's assassination bureau, Permindex, which has been mentioned previously in this newsletter also gets a chapter in the book. In the **Be Wise As**

**Serpents** book, I examine in detail only the Rothschilds and the Russells.

I did not present much to back up my statements about the 13 families. Further, one of the unthinkable items that most people do not want to consider is that their leaders who they have idolized may be utterly corrupt. There was nothing to do but sit down and give the nitty-gritty details if the threat from the Illuminati was to be properly understood. The facts would speak for themselves. The ideal solution for both writer and reader was for me to write up my research and for you to read it as a series of articles.

There is only so much a person can assimilate at once, and these articles give lots of details. In January of this year, I began a series of articles on the top 13 families - families which the top experts said nobody knew about. I did this with the hope of stimulating others to notice these families, and to alert a wider sector of the Body of Christ. The young colleague David J. Smith, who wrote part of the Jan. 1 article on the Illuminati, was led to carry out further research in addition to what the Jan. 1 article had.

Most of this article's information on the Astors then is a result of David's research.

### **DIFFICULTY IN DETERMINING THE FACTS.**

Most of the material put out on the Astors shows the unmistakable mark of distortion by writers and historians giving information in line with what the Astors wanted the public to get. Books on the Astors contain both believable and unbelievable material, fact and fiction. Some of the real facts may remain obscured forever, but that has not stopped us from getting the most accurate picture we could reconstruct.

The Astors do not make the task of investigating them easy. They have been very secret and very deceptive since they arrived in this nation. John Jacob Astor, the first prominent Astor, was a notorious liar: "he was known on occasion to invent romantic tales for the edification of people who annoyed him with questions ..... Men who knew him best were, therefore, neither ready to discredit completely all legends about his exploits nor to repeat them as gospel. The truth, they suspected, lay somewhere between the two extremes." (Terrell, John Upton. **Furs by Astor.**, p. 102.)

John Jacob's son ensured that his father's lies would go unchallenged by incinerating all of his personal records, business records and other papers.

### **ORIGIN OF THE FAMILY & its NAME**

The Astors have come up with various origins for themselves and those for or against the family have added more ideas.

One strong possibility is that the Astors are descendants of the Astorga family found in Southern Italy before the 1600s. The most likely meaning of the name is that both Astorga and Astor are variations meaning "Astarte" who is the mother of the occult. Her name is also Semiramis. In Babylon the trinity was Nimrod (the sun), Semiramis (the moon), and Tammuz (the morning star).

In Egypt, these gods were called Osiris, Isis, and Horus. The pictures and statues Isis and Horus were renamed by the Roman Catholic church as the Virgin Mary and the Christ-child.

## **THE FAMILY IN EUROPE**

The family may have moved from Savoy to Walldorf, Germany. Although it is not a certainty, the best explanation from the available clues indicates that Walldorf's coven had some important personages in the witchcraft/satanic system and that Johann Astor's family had power. At that time in Europe, the Astor family had no chance to turn their occult power into success. The power and class structure in Europe was rigid and gridlocked.

The boundaries between peasant and aristocracy were solidly in place. So the family looked to the New World to transmute their position in the Satanic hierarchy into financial wealth and power. Johann Astor in Walldorf was only a butcher. His best son John Jacob (1763-1848) was selected to establish the House of Astor in America.

## **JOHN JACOB ASTOR GOES TO AMERICA**

At age 16, John Jacob Astor quit helping the family butcher business, went to England and then later to America. Looking at the details of things and piecing the truth together, it appears that his Satanic authority was already in place because he was able to travel to England and, as a German-speaking peasant, converse face to face with the Backhouse family in England.

Of course the biographers make it sound like John Jacob Astor left Germany for himself, rather than [for] his family. Michael Astor gives a glimpse of John Jacob's mission: "He concentrated almost entirely on building a fortune, on escaping the poverty of his childhood and establishing a secure financial position for his family in America." (Astor, Michael. **Tribal Feeling** p. 11)

## **OVERVIEW**

The process of 400 years looks like this. Various Satanic families moved into the Southwest German area in the late Medieval time period. Witchcraft associated with Diana was practiced in Southwest Germany, and this began to alarm various elements of the Roman Catholic church. The Astor family provides leadership in the covens in the Heidelberg area. Witchcraft spread virtually all over Southwest Germany. An examination of the old records from about 1500 to 1650 show that witchcraft was being practiced throughout the area. (I have the names of over 120 towns where it was practiced in SW Germany, the list derived from old German records.)

The Astors did not have the position, wealth, and power that accorded their position in the late 1700s of occult leadership. In Germany, England and France, there was no way to climb the social ladder. However the New World presented opportunities. The Astors sent two sons to prepare the way for John Jacob, one to England, one to America, and then sent John Jacob, their most promising brightest son, to the New World.

While in America, the Astor family helped the Satanic elite headquartered in England to maintain its control over America. Having come from Germany, and also due to Satanism being secret, John Jacob Astor's help given to pro-British-elite moves were more difficult to suspect. After establishing themselves as aristocrats in America, the tribe of Astors moved to England where, because of their high social position in America, no one questioned the Queen bestowing titles of

nobility on them. All along the process, people with Illuminati connections opened doors for the Astors. At this point, it needs to be pointed out that there were ties between the following groups: English royalty, English Satanism, English Freemasonry, German witchcraft, and the Italian Black nobility.

(Taking the liberty I have as author of this article, I am going to digress to give some examples of these connections. Although on the surface this doesn't directly pertain to the Astors, it does.)

When one paints in the bigger panorama of what was happening in the occult world, and then one sees a blazing star streak across that panorama, then the real history of that blazing star is given by tracking its voyage through that panorama. However, the history books have intentionally hidden the significance of so many of the players and groups that lay along the track of that blazing streak.

## **SPECIFIC GROUPS**

- **Order of the Knights of the Helmet**

This was an illuminated secret society with Sir [Francis Bacon](#) at its head. In order to hide its Masonic rituals, Sir Francis Bacon wrote a play entitled "The Order of the Helmet." This was performed in 3 Jan. 1594, and again for twelve days in December 1594. In Dec. 1594, British Aristocrats who had been demonically illuminated, met and put on a "play."

Calling their initiation ceremony a "play" was a great cover. Sir Francis Bacon was made king and "prince of purple." Various men were invested with the Collar of Knighthood of the Helmet, and took vows, and a "Series of Charges by six High Councilors" was given in a manner that is very similar to what the satanic S.R.I.A. does now.

The reader may ask what does this have to do with the Astors? This is simply a few brief look at the background of what was happening in the occult in Europe. The Queen of England sent Sir Francis Bacon as a young man in his twenties to the continent of Europe.

Sir Francis Bacon toured France in places such as Louvre, St. Cloud, Blois, Paris, and Poitiers. He also travelled to Germany, Italy and Spain. He visited the various royal courts, such as the court of Marguerite de Valois. Marguerite was married to King Henry of Navarre. Her mother was the evil Catherine de Medici. Sir Francis Bacon also met with many secret societies.

At Marguerite's court, he spent time with "The Pleiade" fraternity which was a group of 7 intellectuals.

According to the best biographer of Sir Francis Bacon, who was Alfred Dodd (Alfred spent his entire life studying Sir Francis Bacon). Sir Francis Bacon was initiated into a large number of secret occult societies when he was on the continent of Europe. He learned kabbalistic magic, Egyptian mysticism, Arabian mysticism, and the customs of the German Steinmetzin. (Dodd, Alfred. **Francis Bacon's Life-Story**. London: Rider & Co., 1988, p.10.4.)

This information has been provided to give some feel for how the occult in Europe was in contact with its various parts, and that its tentacles included many of the royal families.

- **Hell Fire Club**

This was a secret Satanic cult which was associated with early Freemasonry. When the connections became known between the Satanists of the Hell Fire Club and the elite of Freemasonry, Freemasonry and the elite made some radical moves. First, Freemasonry publicly proclaimed that it had nothing to do with the Hell Fire Club.

When the Hell Fire Club was publicly disbanded by the government (acting on orders from people that tied-in with the club). Later, quietly the club was reconstituted. Phillip, as Duke of Wharton (1698-1731) who was the second person of nobility to be Grand Master of England's Freemasons (G.M. of the Grand Lodge 6/1722-11/25/1723) was president of the Hell Fire Club.

He was an M.P, in the House of Lords. In 1726, he left England and was basically brought into ill-repute by the Masons, who distanced themselves from him. George Lee, Earl of Lichfield, was also another prominent Mason who was a member of the Hell Fire Club. Benjamin Franklin, who was the head of the American Freemasons in various capacities, and also the head of the Rosicrucians and a number of other secret occult groups, was also a member of the Hell Fire Club.

- Benjamin Franklin's satanism was not mentioned in my **Be Wise As Serpents** book, but he was an important Satanist who was part of the Order of the Quest

That is the group which has been entrusted with the plans for bringing in the New World Order of Satan.

Remember that John Jacob Aster was very involved with Freemasonry, as were a number of his intimate friends such as N.Y. Governor DeWitt Clinton and General John A. Armstrong. In regards to the Hell Fire Club, the Earl of Sandwich, Benjamin Franklin and Sir Francis Dashwood were leaders in the Hell Fire Club and were also Post-Master Generals of the British Postal Service; all were Freemasons too.

Their positions as Post-Master Generals allowed them total access to the mail, and allowed them to spy on the communications of the 18th century. The man who became Post-Master General after Dashwood, who moved on to be a M.P, in the Br. Parliament, was the Mason John Wilkes. John Wilkes took over in 1766 (in 1774 was Lord Mayor of London). Wilkes then brought one of the original Hell Fire Club members, a friend of his, Willis Hill, to help with the Postal Service. The next Post-Master general was the totally corrupt man, the Earl of Sandwich, who served until 1771.

Benjamin Franklin spent the summers of 1772, 1773, and 1774 at Dashwood's estate in West Wycombe. The caves under Dashwood's estate at West Wycombe were used for satanic sexual rituals, which were participated

in by Benjamin Franklin.

- **Ordo Saturnus**

This is an old secret satanic German order. In the last few newsletters, I have been educating people on the meaning of Saturn. It means Satan. This previous information helps us understand John Jacob Astor IV when he writes in his book **A Journey in Other Worlds**,

- "The souls of the righteous departed were found on Saturn, where, to a background of weird music, pulsating hearts, luminous brains and centers of spiritual activity quiver with motion." (A side comment: John Jacob Astor IV had a reputation for his insatiable sexual lust to paw women.)

One of the people we have to investigate in relation to the Ordo Saturnus is Valentine Jeune, who was John Jacob Astor's mentor in Walldorf, Germany. Jeune may well have belonged to an organization such as Ordo Saturnus.

## **JOHN JACOB ASTOR LEAVES GERMANY FOR ENGLAND & AMERICA**

John Jacob Astor arrived in England and may well have been introduced in England to British Intelligence by his brother George.

At any rate, he got involved in British intelligence which has always been closely linked to Freemasonry and the elite. He spent time socially with the Backhouse family which was an aristocratic family. How do you suppose such a supposedly destitute young man could be accepted so easily into the Backhouse social scene? This is not explained by modern biographers. After four years, his brother George then sent him to America to represent George's music company. His brother Henry met him when he arrived in 1784 at age 20 and introduced him to the occult world in New York City.

Thomas Backhouse & Co. was a leading house in the lucrative fur trade. John Jacob Astor set out to bring the fur trade under his own control. There is a fact that must be faced. The elite's Committee of 300, a secret legislative group of the Illuminati, decided that John Jacob Astor could expand into the fur trade and into the opium narcotics trade. **Dope, Inc.** shows that the Astor family was the first American family to get into the opium trade, and that their opium trade had was a special privilege that most other American businesses did not even try to compete with. Why? **Dope, Inc.** doesn't say this but I know that it is because the Committee of 300 decides such things, not free enterprise. American furs yielded 1000% profit in those days.

The privilege of fur trading was a pot of gold, so to speak, that the Committee of 300 gave Astor, and it could only have happened because the Astor family in Walldorf was already part of a principal satanic bloodline. (The Illuminati members of the Astor family today use their influence to help those of the Illuminati in their dope trade.)

William Backhouse, the American representative of the London Backhouse family and John Jacob's brother Henry, were two of John Jacob's initial contacts in the New World. Soon John Jacob had met all types of people involved in New York's occult world. John Jacob married Sarah Todd. John

Jacob's step-mother Christina Barbara is described as "the perfect, cruel fairy tale stepmother."

John Jacob 'raised the principle of self-interest to the level of a philosophy and ..... claimed for himself a natural superiority over his less able and less powerful fellow men, a sort of God-given right to exploit the world and its inhabitants for his personal gain. This was not mere cynicism, but a genuine belief that in some way [he was] among the chosen people for whose convenience and advancement life was ordered ..... Such people ... make history, but they also pervert it in human terms because their world and the codes that govern it have nothing to do with morality.' (Sinclair, David. **Dynasty The Astors and Their Times**. p. 59) 'Astor took Freemasonry seriously... [Gov. DeWitt] Clinton rose unusually fast in the degrees, but the German Immigrant [John Jacob] who talked at times as if he had marbles in his mouth was not far behind him. Astor eventually caught up to Clinton...' (Terrell. **Furs by Astor**, p. 84).

DeWitt Clinton's uncle, George Clinton, who served as Jefferson's Vice-President, was also a member of their Holland Lodge No. 8. Archibald Russell of the Russell family, as well as two members of the elite Livingstone family, were members of this lodge too at the time. The Livingstone family were participating in the Committee of 300 at that time. One of my Masonic reference books states that business at the Holland Lodge No, 8 was conducted in German.

If so, why were all these other men involved with it who apparently had English as their mother tongue? In the 1/1/93 issue, Astor's dirty real estate deals and his activity as a drug king-pin were discussed.

However, Astor's connivance to create a nation on the west coast wasn't. Thomas Jefferson, who I have now come to realize was a part of the Illuminati, was in on the plot. Jefferson said that he "hoped for the establishment of an independent nation on the Pacific Coast, bound to the United States by ties of blood, language, and friendship." The Northwest was to become a sovereign nation under Astor's rule.

The plan failed miserably due to a variety of reasons. Another item that was missed in the earlier article was how John Jacob Astor profited by using his own courier system and powerful friends to profit from the War of 1812. Astor knew the War of 1812 was coming and he set himself up to profit from it in several ways. (His Masonic brother and friend John A. Armstrong 1758-1843 helped the British war effort as the American Secretary of War. A descendent of John's later married into the Astors.) Astor himself helped the British when he could profit by it. The two illuminati, Jefferson and Gallatin, gave Astor special sailing privileges which netted him much profit. When war was declared against Great Britain, Astor sent agents to the British forts in Canada to inform them.

This gave the British advance knowledge of the war, before the Americans troops knew. This allowed the British to seize northern American forts and to insure that the British had control of the region's fur trade.

This was essential for Astor to get control of the fur market because then when the British furs were embargoed, he had less competition. He obtained special permission from the President to import all furs owned by him and held in Canada before the war. He used this permission illegally to trap new furs. When the war ended. Astor was able to beat everyone else to Europe with his furs and make a killing. Astor cleared his name of shame by sending Washington, D.C. information

about a mutiny at a British fort which allowed the U.S. army to take advantage of the enemy's weak condition to capture the area. John Jacob Astor traded in guns, and his firearms were used in at least one-Latin American revolution.

Bear in mind Latin-American revolutions have all been planned in Masonic Lodges. When employees of John Jacob Astor would trap for or trade furs with the Astor fur houses, they would be paid with letters of credit. Then Astor agents would be sent out to ambush and kill them, so that the Astor Fur Company could save money. The deaths were blamed on Indians.

Zachery Taylor stated, "Take the American Fur Company in the aggregate, and they are the greatest scoundrels the world ever knew." (O'Connor, Harvey. **The Astors** p.44)

### **WILLIAM BACKHOUSE ASTOR**

This was the son of John Jacob Astor. He was infamous for his rank treatment of thousands of people who rented from him in New York.

There were repeated riots by tenants who were opposed by the harsh filthy living conditions in the buildings Astor owned, but their complaints were consistently ignored by Astor and their riots suppressed by the police. Only half of the children of his tenants lived to age 20. The Astors were deeply involved with the Tammany organization. William B. supported the corrupt administration of the infamous New York mayor, Fernando Wood.

The government at that time was a pack of corrupt men. When Wood was exposed, Astor's involvement was overlooked. This is another example of Astor power.

### **JOHN JACOB III**

He was the son of William Backhouse Astor. He was just as haughty, just as cruel, and just as corrupt as his father and grandfather had been.

He created "sweat shops" for the poor masses living in his New York tenements. He also supported corrupt politicians such as the criminal "Boss" Tweed who ran NYC. The Tweed Ring stole millions of dollars from the city of New York. Before they finally got caught and sent to prison, Mayor Tweed and gang cost the city \$200 million.

Again John Jacob Astor III's power allowed his involvement to be basically overlooked by the press, while Tweed went to prison for life.

### **THE CHANLER BRANCH**

Most of the Astors took off for England, but one branch of the Astors that is clearly involved in Satanism and the occult is the Chanler family. The Chanler family have Astor blood via "Madie" Astor Ward. The Chanler's parents died at an early age, and the Rokeby Estate in NY was given by the Astors so that a cousin Mary Marshall could raise the Chanler children.

The Chanler family is one branch that clearly shows all the earmarks of the Satanic hierarchy.

The behavior of Robert Chanler, Elizabeth Chanler and Armstrong Chanler have all the classic

earmarks of having MPD, and having suffered SRA. The Rokeby mansion that the Chanler family lived in was a haunted house of the first rate. Fairies, ghosts, signs and potents, and all type of occult activity takes place at this mansion. When top ex-Illuminati members who have managed to escape Satanism describe their home life, they mention that occult phenomena was a natural part of home life.

This certainly is what life has been like at the Chanler Rokeby mansion. The Chaniers are not well known publicly but have been part of the social scene of the elite. Theodore Roosevelt and Senator Henry Cabot Lodge (of the elite Cabot family) were good friends of the Chanlers. The Chanlers created the town Roanoke Rapids, North Carolina.

(At some point I hope to do an exposé on the resort area in that general area that is a "meat market" for the Illuminati. Families like the Bill Clintons go down there every year for vacation to mingle with other middle management families that the Illuminati use as lackeys. Illuminati "scouts" watch and choose who they want to use for political office, etc.)

A Who's Who of the Astor orphans--the Chanier family who are of interest to our study of the Illuminati - will now be given.

John Armstrong Chanler-married mystic novelist and morphine addict Amelie Rives. "Once wandering in the twilight, she asked wistfully, "Do you think If I drank a whole cupful of warm, bubbly blood, I would see a real fairy" ... Then there had been the period during which she suffered anguish over the thought that Satan was banished from Paradise forever; she prayed with tears that ultimately he might be pardoned and readmitted to celestial bliss." (Thomas, Lately. **The Astor Orphans: A Pride of Lions**, p. 76.)

John carried on spiritual experiments in what he termed "esoteric buddhism". Due to his obsession with this practice and a business fight with his brothers, they put him in an insane asylum. He finally did get released. One has to wonder what the whole story was behind the incarceration. His esoteric buddhism or "x-faculty" was a trance state where a spirit spoke or did automatic writing through him. His eye color would change when this spirit worked through him.

Margaret Livingston Chanler retained the rights to Rokeby. She married into the Aldrich family, another Illuminati family. The Aidriches now own Rokeby.

William Chanler was a friend of Tom Foley who was the Tammany district leader of the Irish-Italian district east of city hall. Another friend was Jack Follansbee. Jack Follansbee's cousin was William Randolph Hearst, an Illuminatus of the 6° who got Billy Graham's ministry going by financing the first several years. The Hearst family is in the Illuminati. One of the Rothschild descendants, Don Hearst Bauer, has changed his name to Don Hearst.

The father of Winthrop Chanler's wife, Amelie Rive, William Cabell Rives, studied law under Thomas Jefferson.

## **THE ROOSEVELT CONNECTION**

The Roosevelt family has been connected to the Delano family which is a Black Venetian Noble family that goes back for many centuries. The lives of these families also intertwine with the Astors.

Examples of the interweaving are:

- Franklin Hughes Delano--heir to a massive whale oil fortune. He married Lavia Astor, daughter of the original William Buckhouse Astor.
- James Roosevelt Roosevelt-married Helen Astor, daughter of William Backhouse, Jr.
- James Roosevelt--a Freemason, he married the sister of Vincent Astor's wife.

## **SUMMARY**

In our revisit to the Astors, we have examined in more detail the early life of John Jacob Astor and his connections to Satanism.

We have touched on his son and grandson who led the Astor family after John Jacob died. We have seen more of their meanness and connections to corruption. We examined how Satanism and the occult had a hold on England, even back when John Jacob Astor came to the New World. Three important occult organizations of the 17th & 18th century were introduced.

We have looked at the Chanler family, a branch of the Astor family which is part of Satanism. We also looked at how the Roosevelts and Delano families have been associated with the Astors.

***The latest guidance from our friends, the Galactic and Angelic beings known as the Collective:***

Greetings, friends! We are glad to have this chance to speak with you again today.

We are aware of many changes occurring in your world, most of which do not reach and so are not expressed by, your news media outlets.

**And yet—you feel these great shifts in your intuitive high heart, do you not?**

You look over the movements of armies and governments, of people's uprising and campaigns, of the individual forward movement that signals the beginnings of a great movement forward by human beings.

We speak of a lift of consciousness, expressed in outer and inner events and breakthroughs, that ensures nothing will ever be the same again.

Lately you have heard more from some of your news commentators than would have been permitted in the past—comments regarding who was really responsible for this disaster or another, whether economic, political, or military in nature.

You are also seeing a presidential candidate asked to meet with the presumed head of the catholic church—and it is not the candidate who appears most powerful, who seems to have his or her

finger on the button as far as how the financial markets are run, nor is he the one who has received the most support from the billionaires.

You are feeling the shifting winds of change on every level of life—of medical marijuana and hemp being more openly touted for their many medicinal uses, of increasing numbers of eco-villages and what were once considered “alternative” modes of travel and living accommodations becoming more and more commonplace.

You are feeling the shifting winds where plasma energy is concerned—the increasing acceptance of the free energy devices which, though still unheard of by millions, are nevertheless in existence, with the news of their increasing use reaching the etheric mind and body of the entire planet.

You are experiencing images from space—sometimes of planets or stars that were “not supposed to be there,” and sometimes of Angels and starships, photographed by your known space programs, as by those highly advanced space programs that are mainly unknown to the general public.

And yet, even in that once unheard-of aspect of human life, the programs that dared not speak their names for so long are becoming known through your whistleblowers, informants, and those journalists brave enough to repeat what they learn, rather than hide the information.

**And you will see more revealed—more that was once on the periphery coming into the mainstream.**

Not because we or any Galactic or Angelic group have decided that “now is the time.”

But because, dear ones, *you* have decided that this is the era in which Truth in its many forms will finally be spoken, and new roads created where you were informed for millennia that no way could be found to move forward.

And so what is termed a “leak” regarding the 12 million documents called the Panama Papers, revealing off-shore account illegalities among the extremely wealthy and powerful, is truly not merely a leak.

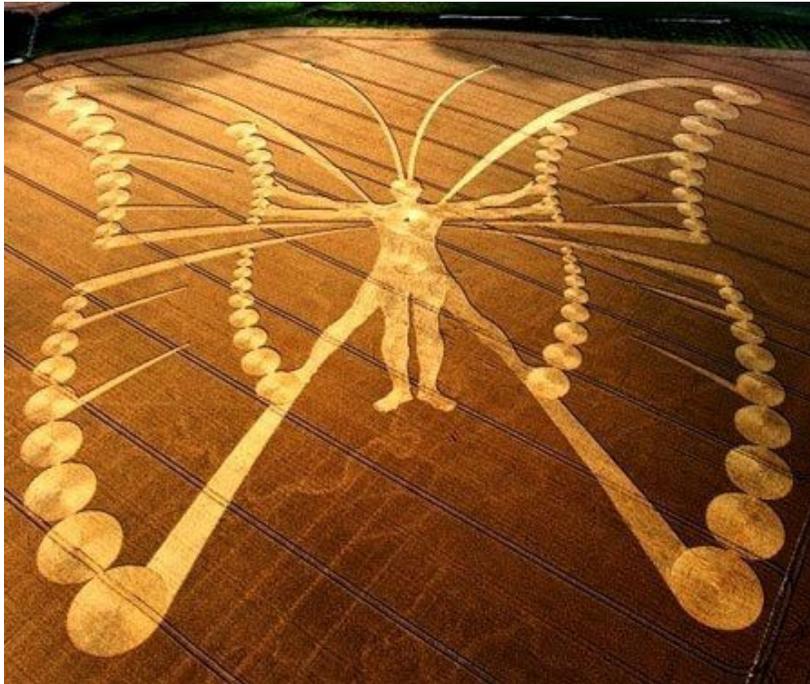

It is a planned response to the energies you are at this moment absorbing—one more intentional lever pulled to open the gates to what the dark hats have long tried to avoid or put off.

**And that is of course this new era, this golden age that your solar system and your Universe are entering, which nothing and no one can avoid, hide from, postpone, or lie about indefinitely.**

And how do we know that this is so?

We know it because we see you creating this beautiful path straight into the Light each day you move forward in your own beautiful lives.

We see it each day that you resolve all the more, and do even one small thing, to step into your true life work, and away from that which detracts from your true power and distracts you from your true path.

Crop Circle

We see it each day that you release someone or something that is no longer for your higher good, thereby making room for that which *is* for your higher good.

We know it because we see you celebrating the victories, large and small, of the power of humankind, which you had thought a forgotten ideal, but which now rises high on your horizon, breaking through the dark clouds and obstructions manufactured to blot out the Sun of your own higher consciousness.

We see you releasing animal products from your diet, and choosing organic produce, plant-based proteins, and pure, structured water.

**We see you pulling your children out of schools that punish individualism and creativity, and either placing them in far more conscious and aware schooling venues, or homeschooling them yourselves.**

We see you demanding to know why certain commodities are called "scarce" and therefore

overpriced on the world markets, when you know that they are fully abundant, and demanding that better, more environmentally positive alternatives be used.

We see you releasing objects, situations, even homes and businesses that no longer serve the higher good of your family or those you came to encourage and assist in this world.

And we see you believing in yourselves—in your own beauty, power, and co-Creative abilities—in ways that would not have been possible even five or ten years ago.

You are absorbing the unprecedented levels of Light, Love, and Freedom now pouring into your world, and you are reflecting those amazing properties in your own beings, on every level, no longer separating the “physical” from the “spiritual,” but seeing that all is energy, all is Life.

And we are not surprised, viewing all this, to note the astounding shifts and breakthroughs being experienced by the whole of humankind in this New Earth year.

Leading you to NESARA law’s full enactment, yes. And all that lies behind its highest intent.

And as they say, buckle your seatbelts, for the shifts will only get greater, and your own power and empowerment, all the more astounding.

**Truly, this is your moment.**

Namaste, fellow Beings of Light! We are with you, always.

## 2016 -04 Plasma - Energetic Synthesis by Lisa Renee

<https://www.energeticsynthesis.com/index.php/resource-tools/news-shift-timelines/2756-plasma>

Dear Ascending Family,

Plasmas are the most common form of matter, encompassing more than 99% of the space in the visible universe. **Plasma** permeates the entire solar system, as well as the interstellar and intergalactic environments. Yet very few people are aware of **Plasma** or what it is. When we are observing the Milky Way, the constellations or a bright star in the night sky, we are seeing luminous spheres of plasma that are held together by their own internal magnetic field. The nearest visible luminous sphere of plasma to the earth, is the Sun.

Plasmas are electromagnetic systems made from groupings of particles, which exhibit an overall zero net charge in its collective result. **Plasma** can also be described as an ionized gas existing within an electrically neutral medium, or in groups of unbound positive and negative particles. Plasmas are extremely conductive, and they carry electrical currents and generate magnetic fields. **Plasma**, the fourth state of matter, is a type of gaseous substance that consists of ions and free electrons. However, gases and plasmas are distinct states of matter. Plasmas display vastly different properties and complexities, which far exceed those found in gases or other states of matter. A distinguishing quality of **Plasma** is that it has collective behavior, which changes its impact in a field, based upon the whole. **Plasma** is difficult to study because it is extremely hot and does not have a definite shape or a definite volume unless it is enclosed in a container.

A **Plasma** can be created by heating gas or subjecting matter to a strong force or electromagnetic signal. Heating **Plasma** decreases or increases the number of electrons, which create positive or negatively charged particles called ions. When the **Plasma** is cooled, the positive ions and electrons combine to form atoms, which produces an ordinary gas. Plasmas are extremely hot and as they cool, they will lose their charge and transform their state.

The human body is made up of atoms and ions. Thus, the human body is capable of a biological ionization process that generates **Plasma** when exposed to certain forces. During the Ascension cycle, the human body potentially undergoes the alchemical process that generates the internal **Plasma** light. This is what builds the etheric Lightbody structure for the higher consciousness bodies to function. To generate internal **Plasma** light and build our Lightbody, we need an abundance of energy. To receive an abundance of energy, we must devote our personal energy and direct our consciousness, to powering up our spiritual development. We conserve our energy in the material world, so that we can direct more energy towards expanding our consciousness. This is how we learn to build and exchange energy with the God Source fields. As we meditate and patiently build our internal energy so that we can achieve inner balance, we stop energy leaks and wasting energy. We increase our direct connection to the God Source which helps us to direct personal energy to spark the plasmic light. The silicate matrix DNA template is the original human crystalline blueprint that is activated in the human body, when contact or connection is made with plasmic light.

In plasma physics, **Plasma** is not generally considered to be a solid. However, particles when mixed with plasma, can create solid states of plasmic infused matter. This is what is happening through the expansion of consciousness, within the ascending human bodies on the earth.

Plasmas may be propagated into solid matter through applied electromagnetic forces of heat and energy that are created by the human body's natural bio-spiritual function. The human body is a natural resonator that interacts and responds to harmonic oscillations or vibrating systems of energy in the environment. Essentially what this means is that the human body, when in its natural state, is able to stay in balance and harmonize the field. If displaced from its equilibrium position, from exposure to discordant or disruptive energetic forces, the body will naturally apply restoring forces that return it back into energetic balance. If the body is given access to an abundant supply of life force energy, it will begin to automatically heal itself. This means we must do all we can to return to our most authentic and natural state of being, through holding meditative states of inner stillness every day. We still our mind by reprogramming our thoughts away from the negative ego and mind control that we have been exposed to. When we hold present moment awareness, with no thoughts, we are the most authentic in our true nature. While we prolong our natural state of being in the now moment, we experience forces of restoration that return our consciousness and body back into balance. When this energetic balance occurs, the color wave spectrum and frequency state of that matter, our physical body, is shifted into crystalline patterns and more complex colors of arrangement.

Plasma when exposed to magnetic fields, form filament structures that form bonds that interconnect with all other states of matter. So as an ascending human develops the ability to embody plasmic light, these filaments are directly experienced as interconnected lines of light that connect to everything and everyone. This includes the state of consciousness, which can truly experience Oneness or Unity.

This is how we get solid plasma, it is made possible through the amazing alchemical process of the ascending human body. By directing our consciousness to connect our body, connect our particles to plasma light, electrons collect on the particles and start to create a plasmic crystalline structure that builds filaments, which connect and communicate with all things.

### **Bio-Plasma and the Soul-Spirit**

We understand that Plasma is the most common substance in our Universe, as it permeates through absolutely everything in creation. We learned that plasma creates filament like strings that interconnect and communicate with all other things and that this is relative to attaining the consciousness state of Unity. Thus, plasma is the interface that communicates with the intelligent energy of all Creation. Our personal inner spark of plasma is our direct interface to link with the massive plasma core of the Universe, or that, which connects us to the Cosmic Mind of God Source.

The Universal Core is a massive amount of plasma rotating outwardly, from which many smaller plasma sparks of light, or consciousness units, have been spirally projected and externally thrust from the inner core of creation. We are the Suns, Stars and sparks of that Universal Plasma Soul-Spirit that have projected themselves into the lowest particle dimensions, travelling away from our direct connection to the Universal Core or God source. The further we travel away from the Universal Core, the less direct connection we have, the less plasma energy we have available to recharge our personal plasmic spiritual bodies and consciousness.

Our soul and spiritual bodies (aura) are energized, strengthened and built by the same core substance from which the Universe has been created, plasma. The Soul-Spirit is the plasma power

supply inside of our physical body, which functions similarly to a biological computer. As we gradually embody our Soul-Spirit, the higher consciousness patterns and spiritual blueprints are imprinted inside our cells (passing through the plasma membrane). These higher consciousness imprints energetically shift our awareness and transform who we think we are. This new consciousness content is recorded into our physical being, which drops the previous state of energetic density and identity, while restoring what is lost by generating new quantities of biological plasma light.

The power supply lines inside of our bodies have a direct interface, which acts as an antennae, that allows us to plug into the Universal core supply of plasma, in order to recharge our personal energy and expand consciousness. When we are able to connect to the Universal power supply of plasma, we are able to increase our energetic sustainability by increasing our inner power supply. When we recharge our inner power supply, we can send, receive and exchange intelligent energy with the Universal core of plasma, and with all other sparks of plasma around us. If we do not know how to use our body's interface, and we do not recharge ourselves, effectively, we have an extremely low energy or dead power supply. When we do not have enough power supply, or we waste our energy, we cannot function well at any level; physically, emotionally, mentally or spiritually. Without enough power supply, we cannot interface or communicate with any of the other sparks of plasma, including our own inner spark. If we think we are only the content of our noisy thoughts and mental belief systems, or we believe we are only physical entities, we lose our ability to connect directly to the sustaining power supply of the Universal God source. Generally, while in this depleted state we will feel very unhappy, even miserable, and our mind will search for external things to distract us from that empty or sad feeling inside. For many people, this disconnection is how severe addictions to external things are created.

Therefore, we have to learn how to build up our personal power supply, and learn how to conserve our energy in order to activate our biological interface to connect with more plasma. We can multiply the plasma energy supply that will be returned back to us from the Universal core, when we open up our direct interface to connect. During this time, we are given a new power supply of plasma that is being generated from the Aqualine Sun onto the earth surface and crust. We can attune to the power supply of plasma light, by focusing our consciousness and attention towards that source of plasma or focusing on building our Lightbody. We want to build up the central vertical channel, to directly interface with and lengthen our antennae, to connect directly with the Universal or God power supply. Clearing the mind in daily meditation, and directing our energy towards some kind of spiritual practice becomes a supportive part of our lifestyle. The 12D shield is one such spiritual practice to begin to learn how to connect with the plasma light source.

The ability to connect with plasma, along with the capacity we have to strengthen our plasma light body, is deeply influenced by our lifestyle and personal choices. As we gain consciousness and clarity, we acquire deeper realization of the consequences that are created from our lifestyle choices, and their level of importance and impact upon our personal evolution. As we align to the natural flow of our true being, we will feel the need to increase the quality of our food, sleep, thoughts, emotions, environment, relationships and community connections. The highest expression of the human plasma body is the Avatar Christ Consciousness, and it is not governed by the past, present or future, nor any ancestral, genetic or karmic overlays. The personal plasma light body pulsates with the in and out breath of the Universal Plasma body, existing in a

perpetual state of connection with the sustaining power supply, newly beginning and newly becoming the spiraling experience of creation.

## **Plasma Beings**

There are many different sentient forms or advanced consciousness life forms that exist in states that are vastly unfamiliar to us on the earth. On earth, we tend to associate intelligent life with some kind of physical body or form that we can see. However, some of the most advanced levels of interdimensional Light beings that have the highest states of multidimensional consciousness in the Universe, exist in formless and bodiless states as Plasma Beings. Plasma Beings are made up of the God Source power supply, and are immensely loving and compassionate. They are capable of projecting their consciousness throughout multiple dimensions simultaneously, while creating any kind of body they may choose to inhabit. The body they choose to inhabit is generally holding a governing principle and serving a specific purpose in the Cosmic Order. They may travel vast intergalactic distances in plasma orb bodies, and they are most commonly seen in these temporary bodies, which may appear as biological plasma ships. Some Plasma Beings are massive Stars or can be comprised of entire interstellar systems that make up a certain species. Many of the Guardians that are hosting planet earth's Ascension cycle, are massive Plasma Beings or Suns. They know firsthand that connecting into the Universal plasma source and embodying plasma light is the key to spiritual freedom and ascending into higher consciousness states. Thus, many Plasma Beings have returned to the earth or are revealing themselves to us now. They are here to help humanity learn about the Ascension and the importance of plasma to build our lightbody. Plasma light ignites our crystal heart and helps us to attain higher consciousness states when we commune with the Universal forces of Unconditional Love and Peace.

## **Dismantling AI Machinery**

During the Equinox to Easter week, Guardian gridwork projects successfully opened channels for interdimensional communication links to be anchored between the 1st dimensional earth core and the 4th dimensional intersections in the planetary networks. As the planet evolves towards the incredibly fast and high energy electrons interacting between the plasmasphere of the Van Allen Radiation Belt, these damaged areas on the grid infiltrated with AI, must be cleared out to allow for the earth to move through these barriers created by the radiation belt. About 600 miles from Earth's surface is the first of two donut-shaped electron clouds, known as the Van Allen Belts, or the radiation belts.

The Van Allen belts are a collection of charged particles, gathered in place by Earth's magnetic field, that act as an energetic barrier that prevent too much high frequency and ultra-fast electrons from being exposed to the earth field. There are two main radiation belts around the Earth; the inner belt is dominated by protons and the outer belt is dominated by electrons. Too much plasma or high frequency light transmitted to the planet, especially into its damaged areas, such as areas with artificial intelligence infiltration, could create massive polarity amplification of chaotic forces and destruction on the surface. Eventually however, the planet will move into the high frequency levels of the radiation belts and will begin the cycle to evolve beyond these barriers, around the end of 2017. Purging the planet of the remaining black magic grids running AI signal, is an ongoing project to protect damaged areas on the earth surface from getting worse when exposed to plasma light sources. Moving into the radiation belts will open a tremendous

influx of intergalactic plasma waves and ultra-high energy electrons to penetrate the earth field, thus saturating the earth plane with energies that have never been here before.

Thus, evictions and transits of those entities or dark forces trapped in the damaged grid areas in astral, phantom or dead energy spaces is required. The main areas of clearing out alien machinery, black magic gridwork, transiting entities and clearing out sections of the collective astral pain body were recently located in the crystal caverns of Central Mexico, as well as Giza, Oceania, Temple Mount, and the Syrian and Israeli border (33rd Parallel into Mount Hermon). Essentially, the Guardian Light Warriors have undergone an exhausting spiritual battle for defending the 4th Stargate, Sphinx, to retrieve access into underground networks that lead into the middle earth and inner earth domains. Starseeds have been working hard in every domain to clear out black magic grids so that these interdimensional links could finally be anchored in the astral plane fields.

### **Centaurian Wars**

During this process of clearing up the Giza areas, it surfaced the timelines and histories involving the Centaurian Wars. Centaurians are Annunaki hybrids from Alpha Centauri and Omega Centauri that are under the enslavement of Draconian and Necromiton armies of the NAA. They are used to infiltrate the Astral Plane reporting back to their supervisors, and to battle for control over the Planetary Gates in the Middle East, such as the location of the Giza Pyramids and Sphinx in Egypt. The Necromiton are the entities that project themselves as Men in Black, to clean up and sanitize UFO or related extraterrestrial evidence that reveals their agenda on planet. They cannot exist on surface for long periods of time, so they have built bases underground with the cooperation of human military. Evictions of these armies in areas accessing Giza have taken place and it was an ugly battle. It is these particular alien groups that work with the covert black military to strategize the war and killing programs in the Middle East. This is visibly apparent through that which is reported in the media as the terrorism perpetrated by the Islamic State.

However, as a result of new access and hope for reclaiming Giza, Starseed gridworkers have been receiving new plasma generated code that is now accessible from the earth plane. This intergalactic channel opening allows for the running of the Krystal coded algorithms into the earth core which supports new resonating tone frequencies to broadcast out of the earth and into the crust. Specifically, these frequencies are called interdimensional frequency resonators and are able to interconnect links with cosmic level ray transmissions.

This Guardian project is also designed to override Metatronic code, dismantle artificial intelligence software and their machinery from using ELF broadcasts of mind control and heavy metals being sent into the surface grids. Alien machinery rely on the consistent production of heavy metals in the atmosphere for greater conductivity for their ELF broadcasts. Certain areas of the earth grid have been especially damaged and are problematic due to ancient astral plane distortions and the many histories of 4th dimensional Stargate infiltration stemming from the Middle East wars. A tremendous amount of energetic processing, transmuting and transiting of a variety of astral entities, anubian black hearts and related miasmatic debris from the astral layers related to war and holocaust histories, has taken place. For some of us, this time may have felt extremely exhausting and dreadful, as holocaust timelines are especially painful to neutralize and clear from the earth. Holocaust timelines are held in place by planetary crucifixion alien machinery, and thus,

purging or dismantling these networks in major cities and power vortices is ongoing.

However, this clearing and grid healing in the astral plane allows for new infusions of Solar Plasma from the earth core to be transmitted and absorbed into our cells. The earth core, at the first dimensional level, has been merged with the core of parallel earths in future timelines, thus, weaving together with the Galactic Suns. The opening of inner gates into the parallel allows for new integrations of Cosmic to Galactic Plasmic Sun Source, that is becoming more accessible in the earth crust, and this is called the Aqualine Sun.

### **Aqualine Sun**

The planetary body is nested within multiple blueprint structures that are contained within the five spheres of creation; Planetary, Solar, Galactic, Universal and Cosmic. The Guardians of Krystal Star consciousness have been streaming plasma waves into all layers of the earth's blueprint in order to raise her frequencies, and to fully anchor the plasma infusions coming from the Galactic waves of Solar Light. Guardian forces have been acquiring solar plasma light from the Suns of Sirius B, then transmitting it into the first levels of Aqualine Healing Energy into the earth. This is purposed so that we may begin to receive and transmit plasma light directly from the earth plane and on the surface crust. Prior to this being made available, Starseed gridworkers would go off planet to gather and infuse these Galactic frequencies into the earth body, so that the human body could eventually connect with that same frequency. This has been successful, and now it is possible to connect with Galactic Sun frequencies right from the earth plane. Plasma infusions have been made into the earth core, which include the process of weaving Solar light from the Galactic Suns down into the Earth core sun frequencies, allowing the fusion between these multiple solar bodies to occur. This has activated the Mother Earth's Inner Sun frequencies, which appear now as deep ultraviolet and bluish waves of oscillating plasma light. The blue flame merge is from the 5D core in parallel earth, and the violet flame is from 7D core in parallel earth, and together they unite the Ultra Violet Blue light with their Galactic Sun counterparts. The Galactic Sun frequency has been transmitting from above and is now anchoring into the earth core, gradually merging together and braiding completely with the Earth Sun. The plasma light that is being generated is from the merge that occurred with the Galactic Suns, which is transmitting from above, while the Earth Sun is transmitting from deep below. This complete connected circuit of the Galactic plasmic light transmissions that is coming from the earth plane is called the Aqualine Sun frequencies.

Thus, the Mother Earth has woven her Sun's frequencies, from deep inside the earth core while moving up and through the Galactic layers, uniting with the Galactic Suns. Indigos, Starseeds and the Oraphim are the first waves of conduit for transmitting the ascending Aqualine Sun frequencies into the earth. We are the natural conduit for growing these frequencies on the earth surface, as we help to anchor these plasma infusions on the surface grid, this also serves to repair damaged networks or descending hubs.

The Aqualine Sun frequencies directly stream the Krystal consciousness coding into the surface. We are able to absorb these frequencies to collect and reassemble all of our spiritual bodies and parts, our complete Diamond Sun body and crystal heart. As we commune with the Aqualine Sun frequencies, these blue plasma energies will gradually remove all that is artificial or false, restoring our body and consciousness to reflect its true essence and divine nature. When the body

has absorbed enough light frequency to prepare for plasma transmissions, the body is able to connect with and absorb the Aqualine Sun plasma frequencies. This is a spiritual body integration process which activates the crystal cells, both in the mitochondria and within the permanent seed atom.

During the process of divine light shielding, we can direct our merkaba star with our consciousness to absorb and fill (from underneath our feet), with Aqualine Sun violet blue plasma frequencies, and direct them into our navel center (recoding the lower umbilicus), and merge into our higher heart center to activate the thymus role in higher monadic functioning. At the top of our RA shield, we can now merge with the Galactic Suns and beyond plasma frequencies, KA RA YA SA TA AA LA and bring them down to circulate anywhere into our physical being. As we begin to integrate and unite with the Galactic Suns, we may bring the consciousness memories and instruction set of our eternal Diamond Sun body back into our crystal heart, which ignites our true nature to return us back into the consciousness of Oneness. As more of our Diamond Sun body frequencies are aligned with the physical body, more and more of our consciousness memories will be restored.

It is through the Mother's Perfect Proton Seed (or Cosmic Egg) transmitted through the Aqualine Sun frequencies that creation can heal itself to its original divine blueprint. Through our Beloved Mother Arc, we are able to access the Galactic Sun frequencies to create the Aqualine Sun, which is also connected to the plasma light from the Aquarian races in the Andromeda Core. *These plasma frequencies are that which deeply heal us.* The Ascension Cycle is about reclaiming the Christ and the Mother principle for the planet by building the architecture for Mother Arc Hubs, connecting to the Aurora and Aqualine Sun and building Triad Communication Stations to connect to Krystal Star architecture.

### **Unresolved Conflicts are Spiritual Barriers**

The influx of a variety of plasma wave infusions entering the planet are surfacing many types of collective race miasmas buried in the human pain body. Primarily, this is surfacing in the form of sexual misery patterns, sexual distortions, gender issues, abusive issues and relationship problems. *All unresolved emotional conflicts are barriers to our spiritual growth and expanding consciousness.* Thus, these emotional conflicts in our pain body must be willingly dealt with in our relationships, in order to take personal responsibility for our behaviors, attitudes or beliefs. Taking responsibility for our personal issues is the first stage of emotional growth, which leads to spiritual growth. If we continue to blame others for our problems or unhappiness, then we are unable to resolve our emotional conflicts and that blocks our spiritual evolution.

Therefore, there is a bifurcation split occurring between those people in relationships that are open and willing to resolve emotional conflicts, in order to continue to evolve, and those people who refuse to acknowledge their personal responsibility in creating emotional conflicts and are blocking their spiritual evolution. This manifests as a massive confusion and explosive pressure on any relationship that has hidden emotional issues, unhealthy or abusive patterns, or unconscious reactions that create tensions in the relationship. We must learn how to be present and self-aware in all interactions, in all of our relationships, especially in our intimate ones, so that we can remove spiritual blockages and continue our emotional growth.

Most dysfunctional emotional patterns are formed early in childhood which manifest into

adulthood as the unhealed trauma and wounds that we carry around from the False Parent imprints. The False Parent represents the confusion a child develops by believing that our biological Mother or Father Parent should have certain behaviors towards us, such as being unconditionally loving, protective, and emotionally nurturing. In actuality, it may be that none of these biological or emotional needs were met by the Parental role. Possibly the Parental role was grossly distorted or abusive in some way. Through narcissistic wounding or other forms of abuse suffered in childhood, these same abuse patterns are repeated in our most intimate relationships through adulthood, in marriages or in living together. Many times we cannot see these dysfunctional patterns playing out from the family of origin, until our relationship is ready to explode.

Depending on the level of parental dysfunction experienced by the child, concepts of love, sex and emotional needs may be confused with abusive behaviors, where personal boundaries are nonexistent. Relationships that are ingrained to be abusive, painful or narcissistic in childhood are wounds that continue to be carried throughout life, until the emotional conflict is corrected. Without correction of this dysfunction, the digression of the abuse pattern continues to define loving and relating behaviors, and this infects all interpersonal relationships. As long as the dysfunctional pattern continues, the person will feel disconnected, love-less, engaging with sexual misery behaviors, and is unable to communicate emotional needs and enforce personal boundaries of loving behaviors in their relationships. This propagates many unsuccessful and unhappy marriages, and the partners will seek coping mechanisms in the external or the relationship will explode apart entirely.

**Humanity's greatest task during the Ascension Cycle is to heal their personal emotional trauma around sexual pain, and gender wounding that is related to the False Parent archetype.**

### **Healing the False Parent**

When this is addressed with compassionate witnessing, this can give us a lot of previously hidden information about ourselves. This will also give us details into the deeper motivations or hidden agendas of our relationships, and this may be quite surprising to even shocking. This will be a time to observe our mind and body for any automatic reactions, emotional trigger points, or hidden belief systems. The collective fields of the planet are very energetically intense and are unstable at this time. This is a phase where we must learn to love ourselves unconditionally and to be only with those people that are capable of reflecting back to us that same loving care. We must learn to unconditionally love, respect and accept all aspects of ourselves.

There are groups of people that are having heart openings and are choosing to have more loving kindness and peace in their lifestyle. There are groups of people that are closing down their heart from unresolved emotional pain and suffering, and they are unconsciously creating more chaos, negativity and stress in their lifestyle. When these different choice levels surface in intimate relationships such as marriages or partnerships, the conflict can be extremely explosive, emotional and painful. Before the awakening process, many people choose partners or spouses that carry karmic patterns of pain associated or familiar to them from childhood, based on the False Parent. If we have a False Parent relationship during this time of the collective pain body surfacing on the planet, we will be under intense pressure to resolve this emotional conflict and

make different choices in our future direction. We must find the emotional blockage that acts as a barrier to further our spiritual growth, or the relationship will end. As difficult as it may be in the short term, ending unhealthy relationships is much better for our growth and happiness in the longer term.

People that are run by their unconscious mind or pain body, may have little to no control over their reactions and impulses at this time. They will have no comprehension of the False Parent or sexual misery overlays running in the environment and in other people. As a result, they will unconsciously play out these impulsive behaviors of the False Parent in their relationships, and these dysfunctional patterns will magnify and get worse. All things that are hidden must be seen and observed in order to be healed and energetically shifted in our relationships. Most people are not good communicators or able to communicate feelings very well. This is especially true when it comes to all matters concerning intimate relationships and sexuality.

This presents an opportunity to develop better relationship skills with Compassionate Communication and the Relationship Mastery Guidelines. Non Violent Communication (NVC) is a very productive method to learn how to apply nonviolent communication or Compassionate Communication towards every aspect of our interpersonal relationships. As we commit to unconditional loving kindness and accepting ourselves, then we must learn how we can communicate exactly in emotional alignment with how we really feel. The result of our emotional clarity develops personal spiritual growth and this is what develops energetic coherence and integrity within our being. (See Relationship Mastery Guidelines and Compassionate Communication in the Ascension Glossary).

At this time, we have an opportunity to come into the greater realization that our true Parent is our God Parent, and our God Parent is calling us home during the Ascension Cycle. As we find the spark of God deep inside our crystal heart, we will understand how we can be free of this abusive False Parent and all of the emotional pain we have suffered from it. As we take responsibility for ourselves as the real Parent, we completely and unconditionally forgive our biological parents, as we learn to parent our inner child. We are the Mother, the Father and the Child. To be a loving parent, requires taking full responsibility to educate the child. This is one way of understanding self-mastery. To be a firm but loving parent means that the inner child cannot run amok with the physical body, playing out all its whims and fancies. The child can hurt itself if it is not given proper parenting and loving discipline to develop emotionally and spiritually. When we are capable of loving and parenting ourselves, our body becomes a beloved friend, a safe and secure space. Our intimate relationships and marriages are transformed through loving ourselves, and we are moved into healthier states of being, as we are able to create more loving and peaceful relationships.

## **Female Sexual Fluids**

Currently, it has become increasingly important for females on the ascending path, to not have sexual intercourse with any male partner that is in any shape or form, sexually abusive. In the present turmoil that manifests karmic patterns within intimate or sexual relationships, ascending females will be abruptly shifted out of negative circumstances that are sexually abusive. The intelligence of her spiritual light is protecting her Lightbody from any further intrusion of superimposed negativity, as a result of negative or abusive sexual relations. Sexual abuse is

defined as a female receiving negative astral energy accumulation into her Lightbody, from having sex with her partner that jeopardizes or blocks her spiritual advancement during this time. A female receiving negative accumulations of astral energy during sexual intercourse, with a disconnected or abusive partner, runs the risk of extremely amplified astral energy that can lead to passing dark possessions from the male. It also can transfer between emotionally or spiritually disconnected partners, many accumulated years of energetic pain, suffering or misery, into the body. In some cases, this is used to target ascending Starseed females to drastically lower their personal frequency and harvest their light source, by using their bodies as a dark repository.

*It is extremely important for all ascending females to protect their sexual organs and treat their bodies with loving care and respect, as God's Holy Temple.*

With current plasma light activations, the multidimensional anatomy of the female sexual organs and sexual fluids are shifting to become prolific light generators. An ascending female being initiated into higher frequencies of plasma light, will begin to notice changes occurring in her sexual organs, cycle and fluids. Her fluids are being activated into powerful alchemical mixtures that react to combine during sexual intercourse to generate even more light. When a female is able to unconditionally love herself, hold personal power and respectful boundaries for her body, during orgasm, the activated fluids open into the cells to receive more of her Soul-Spirit into the body. Simultaneously, during this loving conjunction, it attracts more of her partners Soul-Spirit into his body.

This is a power source that can be very supportive for mutual spiritual growth and sharing loving and blissful states with our beloved partner. Or if we are reckless with our body, this power can be abused and used against us. On the ascending path, we must make the choice to clean up the past painful sexual connections and release the accumulative astral baggage. With the new plasma energies, we are learning how human sexuality is evolving in order to become what it was designed for, a very loving and spiritually beneficial experience.

Please only take what is useful for your spiritual growth and discard all the rest. Thank you for your courage and bravery to be a truth seeker.
