#### HARD NEWS:

R: many things happening! Has been told that all the timelines have been dissolved: we are only in ONE TIMELINE – the positivity of Sat Yuga!! This is happening at such a deep core level – the White fire core of being is in charge, along with that CAT!

 A challenge to remain centrered and we are being asked by all the beings f rom large to small to stay in the neutral place no matter what we see, or fear, or experience – what is brought forth is everything unlike love, yet we have to remain in love.

Ed Schultz radio show: guests were Harry Reid and Mark Potok of the Southern Law Centre

- Subject: the Bundy case in Nevada
- Lots of gray areas in this story: the Bureau of Land Management is not on right page; like Harry Reid said: something has to get fixed here, & fixed right now: it is about how law enforcement is not in the right venue
- What R has seen since he entered this incarnation: law enforcement has gone steadily downhiill: does not serve and protect any one : people are enemies of the state unless they can prove otherwise

T: reminder that this was planned, they intended to get away with their plan - just as 9/11 was

- 1963 was 38 years before 9/11 1963 was the time planning began for 9/11 they knew they would need a great fire to do what they wanted to do
- Al Quada was Operation Northwoods
- 1973 murder of Salvadore Allende another 9/11
- R: what is going on in Nevada has to do with brave young men and women who were told lies about 9/11, went to fight in wars created by the 13 families, came back and there was no healing of the PTSD, Let alone what ordinary people go through on a daily basis: a different kind of PTSD
  - like the homeless man in New Mexico who was shot; also the man who had a cell phone in one hand and the left hand up and he was also shot
  - The young men and women have been taught to shut down the heart; have been taught counter insurgency and we are considered enemies of the state until proven otherwise
- Cannot condone what is going on in Nevada on either side: It is not OK to point assault weapons at others
- **Alan Grayson** re-iterated what Harry Reid said earlier about Nevada: Fox News is aiding and abetting this story of Cliven Bundy to create more violence and ultimately civili war
  - On Chris Hayes: someone on his belly on an overpass, targeting a law enforcement officer through the scope of a military assault weapon a threat; they do not recognize the fed gov't And would consider those officers an enemy of their state
  - Alan G said all of these ones are committing high treason
- Greg Palast was on too: saying that the CIA, the MI6, & BP are playing with the story in the Gulf and saying said the Gulf is clean, just go about your business – yet they are shipping guns and arms through a corporation called Mega Oil which is really another agent of BP – it is BP to BP selling arms to South America under the cover of the name "oil tools"
- Harry Reid called the folks in NV domestic terrorists yet BLM is just as bad!
- Thom Hartmann had on a woman who said the BLM are slaughtering horses from helicopters which is against federal law. Also looking at ways to reduce the birth rate of these horses, as well. Even if they want to round up some of the horses and find homes for them, it is too expensive for people to take on the responsibility given the current drought and hay.
  - A woman lives in Montana, had to get hay from Ohio almost broke her as she had 12 horses
- Colorado and Nevada have a group of Americans for forgets the name: they are creating and supporting an ALEC bill called the Transfer of Public Lands Act & take all the land away from the federal government and give it back to the state.
  - **TPL Utah 2014** has lots of info at this website; Utah was the first to have such a bill 17 western states want to do this now
- T: something of a comparison to what is going on in Russia & Urkrains: listened to Putin last night for 4.5 hours: he said that Ukraine needs to be a federation like the US, as it is NOT one country, or have 2 parts: Crimea and eastern part are Christian; the Western side is Catholic this adds another dimension to the story. This makes the distinction the Jesuits put into the rules: if you are not Catholic we will annihilate you.
  - Remember that the original Mohammed was not able to complete the Koran and the Catholic church stepped in and "finished" it and changed the text, principles, etc –
  - getting rid of the Catholic church is one of the first orders of the day!
- We are already in Sat Yuga there is only one timeline and it is the positive one.
- Found another planet about 500 light years away, circling a red dwarf star called Kepler 186 F
  - at Warp 7 or 8, it's an 8 hour flight. This planet is in the habitable zone of its star; found by NASA'S orbiting Kepler telescope which has discovered 961 planets since it was launched
  - R has been to the Pleiades: there is so many magical things to see

#### **Conf Call**

**Caller1:** is Rand Paul also funded by the Koch Bros?

T: thinks he is getting most of his money from his Dad, Ron Paul; Ron P got \$2 million dollars from Vatican

R: has to do with Mitt Romney and Adelson

**T:** the \$100 billion that Koch Bros have is nothing compared to what Romney has!

**C2:** a teacher in Ohio fired because a young black boy made a comment that he wanted to be President.

the teacher said they didn't need another black president – she got fired for that.

**C3:** Randi Rhodes is leaving her show on May 16<sup>th</sup> – mentioned by Ed on his show & wondered what was going on - she is leaving because she was told that she crossed the line when she talked about the Gestapo and the SS in the form of the alphabet boys, and the situation in Nevada. The Bundy folks AND the BLM is a criminal organization

C3: what will happen to her?

R: will probably take a rest, and then show up on RT

T: Harry Reed said Fox News need to be pulled, & all arrested and replaced with Amy Goodman!!!

- KOS told them in early 90s; the last thing that will show up is the deletion of the fake news station
- NOW THIS IS BEING SAID ON MAIN PROGRAMS

**C3:** was listening to History Channel – mentioned Dr Keshe having new technology: first time she heard him mentioned! Right now as this call was going on.

• Also talked about the underground roads beneath the seurface – showed something of Denver underground – either they are disclosing information, or in the process of letting us know

T: Lady Di and Kennedy said this last eclipse is lighting the whole thing up

• Edward Snowden getting on with Putin and asking questions in front of everyone.

**T:** Colombia's world renowned writer Gabriel Garcia Martez passed yesterday; he had to leave his own country because of what he said about FARC and other things.

#### T: KOS, LM Nada and Natasha spoke to Rama today

- They were all listening to the call last night Laura has most of the story; could not mention that her grandfather met Valiant Thor
- Details from what Laura said: Tiamet was the name of earth: Maldek is where the asteroid belt was, **not** earth; the whole hodge podge of middle easterners, like the sunni and shia, the teachings of one side have been completely warped like the fundamentalists here whose christianity has nothing to do with what the Man with the Plan said
- ALL TIMELINES ARE DISSOLVED: IMPORTANT TO UNDERSTAND THIS CONCEPT
- The Nammo: part Nibiruan and part human; the Nibiruan can be bird or paschat or reptilian the 3 in 1 part of the shadow side of god + the light;
- A lot of times we think a reptile is evil or dark: not so they come from the time of Mother Sekhmet the crocodile people and they guarded her temple
- Anti semitism on The Last Word on April 17/14: letters sent out to Jews in eastern Ukraine told to identify themselves, provide documents the leader of ??
  - The number and the scale of the operation was not clear there is anti-semitism on both sides
  - Ukraine has a record of huge numbers of Jews being killed during WW II, and these ideas have not been discussed or teased out
- there is a policy on the package if you benefit by using a coupon or you get the product at a discount, you
  cannot sue the company this protects the company from all liability: consumer has to go to an
  arbiter
- Thom Hartmann: **radiation found in large quantities in Kelp** and other sea weed it is 1800X over the base limit of radiation!!! Zeolyte can help get rid of radiation, as do certain kinds of clay

**10 top corporations** – Bernie Sanders was talking to a college in Vermont, about the debt the students have

GE, Boeing, Corning - every CEO pay zero tax LOOL THIS UP

• They get tax refunds and corporate welfare; they have also moved jobs, raised retirement age to

70 years of age;

Now they can make huge donations to the party and the 501c4s and so get them \$

# Series: Borderland on Sunday pm -

- they are going to individual families people from across the country got together and went to the AZ borders and talked to the people; they put the water out for the people before the militia gets back and destroys the water source
- They went to the orginal place of the story: eg, one woman came to the US and left her children with her mother who died later; the oldest daughter wanted to come to join her mother and died en route
- One family was from Guatamala; a couple went there and stayed with the family for about a week to find out what it was like.
- Amy Goodman made the point that what Jeb Bush said [he is a war criminal, dumped over 50,000 votes from people of colour into the ocean; they committed a treasonous act by having the court declare the election]
- One girl told the story of her mother being an illegal immigrant from Mexico; the father was a citizen, and the children were also citizens yet the mother was taken into a detention centre when the girl was 16 ICE agents just seized her and hurt her; etc the detention centre is a prison
- Obama said recently the system is totally broken, and he can only do so much; this is really up to Congress, and the Republicans have no interest in dealing with this.
- A couple of people have some ideas of how to deal with it but game plan not liked well-known

South Korean ferry: captain, 2 crew members arrested for negligence; 29 officially dead; 274 missing

- Captain was not in on the bridge at the time of the incident; assistant #3 at the helm, yet captain was obliged to be there as they were in a region of a water covered by law requiring captain's presence on the bridge.
- The Captain was on of the first off of the boat; the ferry had already listed sinking at about 5\*
- Did not have any life boats on the ferry: had life rafts there were 46, but they were in a sealed container and required inflating before people could use them
- They told people to stay in their cabins, instead of putting on their life jackets and getting into the water
- The Korean parliament putting in a new law as a captain and the crew are negligent: at the moment, the sentence is 20 years; the law will be change to "for life"

#### **Tehran airport:** a small plane found with an American flag

- Held in trust with the Bank of Utah; small bank they have 700 other planes to fly around with
- Tehran way ahead of the timelines: have shut down the operations and got an A+++ for what they have done
- Lady Di, KOS said expect a well-known world leader to go bye-bye hinted it would be
   Netanyahu he was behind the sarin gas story: Syria did not have that kind of gas; it was traced to Turkey
  - And Ardy was trying to shut down the medai because they were talking about him and what was going on
- **T:** brings up what Rachel said about not shooting the messenger said she would try to tell the truth within the constraints she has

C4: the Boston marathon will be on Monday April 21

**R, T:** the people from Chechnya did not do it; it was all Black Ops

- C4: talking about the young man wanting to have a private conversation with his sister eventually
  - Talks about what happened on David Gregory's show Meet the Press when he interviewed the girl who lost her leg last year during the bombing; she had asked Gregory not to say the names of some people and Gregory did it;she just walked off the set.
  - He is part of the cover-up about 9/11 he took Tim Russert's place! When Tim was found dead, his face was on the file about Valerie Plame

#### **Mother Sekhmet**

Greetings in the Light of the Most Radiant One, in the Office of the Christ, and only in the Office of the Christ, we invoke the loving energies of St Germain and the Violet Flame!

### Greetings, Children of Ra

- Indeed, it is that moment, we are all in this moment of manifesting energy where He shows up now, the One, the Man it is His time. As he said: Let me be an instrument of thy peace, where there is hatred, let me sow love.
  - It begins here, now. The least among us are the first; the last shall be first, the first shall be last.
  - Happy Easter in these moments of transfiguration of these temples of the living gods
- As we go through these magical moments of what has transpired with this blood moon, as we approach
  the Cardinal Cross, only gonna get hotter in the kitchen. Already hot, gonna get even hotter, and it
  is not about climate change; it's Gaia/Vywamus moving up an ocatve with the frequency shifts
  that we all are experiencing. Our Sun, Sol, in this local system going through transformative,
  transfigurative change has everything to do with our being in a new reality;
  - what we made up is now real: we are in a new time space differential, and things are not as they seem. There is change in the air, and it is what this one man the Admiral in Charge, calls the shots, it is the least among us that comes first, now.
  - This is the order of the day. What has been said about all the concerns of our world, everyone's world: we are in a new timeline: this manifested energy is only about one story, one story in this moment: our ascension is assured in these temples of the Living God that never fails.
  - This energy that is transpiring for all to see; let us say, it is most heartening to see the ones that have been in those places where they have not been heard, now getting a voice to speak truth to power like never before, in spite of the past holograms of ancient stories that have nothing to do with the ancient issues of greed, and war, and death.
- Yet, in the same moments, all of this is being brought to the surface of, seemingly, the moment because
  these issues are before us through these council fires, the hoop, the grand circle of life: 

   as we
   heal it for one, we heal it for all; since we are all one in this story, it brings in the ancient, ancient story of her children: all of you, all of us, how we got here and how this is being transformed in the moment
- Yes, the one who spoke last night [Laura Eisenhauer] could not share all of what she knows; simply because your are in a postiion of her rank and character: granddaughter of the one who met with Commander Valiant Thor it is quite a cosmic dance to be in the presence of such greatness.
  It is only about love, not anything else, and she shared as much as she could with her friend, and it is as those elements of energy that are no more, yet the shadows and the wispy images as our friend Mark used to call them: fading film stars who need to be put to bed permanently. Love them even more we have no concept of what it feels like to wear that mask of Vader & experience the agony of what that feels like. Yet it is a conscious choice to play in those realms. The Order of the Sith is no more.
- T: 12 sherpas were killed on Mt Everest; there were 24 people or so on the journey up the mtn the guides went ahead and were killed by the avalanche; the 24 are trapped above the avalanche & cannot get out they are up at 22,000 feet and there are only a couple of pilots who can take the helicopters up there and airlift the 24 out, one by one. Depending on the weather could be super dangerous.

**Mo:** know that they are placed in the Circle of Support where they are in the presence of Mt Kilash: Lord Shiva and his beloved LM Parvatti have them in his embrace – they are already in Samadi

- At the same moment know that the issues at hand are about "Let me be an insturment of thy peace."
- The issue of Mt Everest is like what is happening in our present world where they are finding plastic in the oceans, and the animals think is is a jelly fish and eat it and die: the sea lions, the turtles, the

seals and it all has to do with the hand of the hu-mans -

- it is changing in the moment; this is why Mother comes and everyone comes there are so many legions upon legions of fleets of angels and ships; if we were to see from her vantage point what is in the skies and if they were to shut off the cloaking devices, there would be so many ships there would be no sky:
- When the signal comes from the Admiral, the change of venue is as swift [as flipping a switch] and then we can have a conversation, leave the weapons of the tongue and war at the door, and talk about healing Gaia, Vymuas it is already taking place.
- Next step is about disclosure and how it is best done: not down the road, not in 2017, but now, and
  those who think they are holding the guantlet & the immortality stones, they only hold what appears
  to be those things [are holding nothing]
- T: if you appear in court, you are not really there there is something else in your place, they use capital letters and that is now who you are [ref to Universal Commercial Code UCC]

**Mo:** and then that is twisted too – what we understand as the Sovereign Movement

T: and they call it the sovereign militia force and lie on their bellies and .[shoot at federal officers]

- What has occurred here in the moment: there is a cleansing in this moment of time called what the Man with the Plan has brought forth with the Cosmic Christ; Kalki Maitraya and Vishnu, Brahma are here:
  - all the ones of our legends and stories and "fictitious" events are here not fictiticious; it is as real as she is tallking through the box and the blue light that is flasing; it is simply how you change your point of view, as Master Obi Wan said when you change your point of view, the change is instantaneous, because we are masters, we are the One, as Neo said too.
  - We do with love which is the order of the day; the least come first; those who have nothing come first; there is more than enough love, money, time and air to breathe; the ones who think they are holding infinity, they are holding the edge of the bowl and she has flushed it, as she has said they are already entering the Dark Rift love them even more in your waking and moments of mediation during the day, as you conduct your affairs.
- Focus only on love and keep the thoughts and the tongue pure in spite of the raging tsunami on your doorstep, what is around us; the tsunami is only about love
- Yes, Bono got it he understood the concept of giving it all away and help those with nothing. He is
  in the midst of giving so much away & dealing with the issues at hand that have to do with the main
  story in the midst of your moment which is called Syria, Central African Republic,

T: South Sudan 2 million people starving to death;

Mo: it is all CIA -duh, Moussad, Blackwater

**T:** part of their eugenics project, Those 100 little girls that got disappeared from a Nigerian hight school, 20 came back – others missing for 10 days

**Mo**: As we sit here on good Friday, telling cosmic ghost stories: as the Man said, when the hour comes, that one who must do what he must do in the garden, let him do what he must do – yet Thaddeus was in on the plot, not a turn coat – all of this is about love: the greatest story in the moment is only about love.

**T:** a neat story about Detroit Symphony Orchestra – when everything crashed, they were getting \$4 million / year in grants a year to function; went down to \$20,000 a year

- they went into \$6.5 Million debt; they started putting life stream concerts
- They started going around to schools and playing for the kids; doing things that never done before

**Mo:** whether you are 5 days old or 5 million – the arts come first, the spirit of the music, the dance, the wisdom of the ages that is based in the fibinacci spiral – the wisdom of the ages is in the sacred geometry – god, all that is, the goddess is about the numbers and the mathematical formulas of infinity, pi - she likes pie – blueberry and logan berries!

T: when they lived with D'yanna, made ice cream with berries

T: asked why the vice principal who was on the ferry hung herself?

**Mo:** the news agencies are not telling the full story – not all about negligence – more people on the ferry than high school kids; there is more to this story – it is about the issues – Korea: get rid of the DMZ

and the issue at hand: the one who sits in N Korea, is an asset of the CIA: People North & South Korea are one and the same; will be healed in

T: Randi Rhodes has been told to get off the air again

Mo: she has been speaking truth to power about what is happening in the deserts

- Those ones who call themselves sovereign: why are they sovereign what are they sovereign with, when all they have is the hatred of the feminine & the issues at hand go even deeper than the BLM and the land?
- It is about **the one who sits in the Oval Office** we who have been here before the gods were here: black is beautiful; we wear it proudly; and this is the order of the day Goddess is black, she is back & she's taking names
- the C in Chief who represents the Council of Nine is the one who is righting the ship of state: **democracy is coming to the USA** & it is not about oligarachs or fascism or one against the other it is the republic
- the one story that the founding father brought forth on this land which represents the new Atlantis
- what beloved Ascended Master St Germain, the Lavendar Lad, in conjunction with all the ancient brotherhoods, sisterhoods, the ones that brought for the great law, digona weda,
- The one who spoke, the pale one: This one we speak of who never died, the resurrection he said the least among is the first; it is this order, and this order only that comes first now: all the ones who have nothing
- Saw a man's sign in Santa Fe; it said i would rather beg than steal; I have nothing; please help me
- **T:** about the ferry: one of the members she was 22, when the captain did not tell the rest to abandon ship, she told them to get off the ship, gave someone her vest she did not make it, yet saved so many lives

**Mo:** there are so many miracles bering brought into focus for all to see; it is only about how we can best serve each other in this moment, rather than worrying about the issues at hand

- She says the issue is being brought up for all to see in stark focus the inequality, the poverty
- there is a lot of work to be done to right this ship of state it only takes one; the 100<sup>th</sup> monkey has already come to pass and is being made manifest; we see it in simple, quiet moments of simple everyday stories found on the last page of the newspapers/ not news!
- The real news is the transfiguration of humanity in the moment!

**T:** the anniversary of the false flag event of the ammonia nitrate fertilzer factory that blew it up **Mo:** it was sent from the ISS – a weaponized spent fuel rod, courtesy of Mr and Mr Koch

- Harry Reid said the US has a Koch problem! When there are billionaires who work for the fake story called Vader, there is a real issue when they can buy pollticians, lobbyists and those who represent constitutuents;
- that is why those who speak truth to power in a most unusual way, they have a right to speak, but for many it is misqualified energy love them even more
- **T:** Ammonia Nitrate was used on the Oklahoma city bombing; also, there are 9,000 or so facilities across the US and THERE IS NO REGULATION AT ALL; 473 of them could put over kill 100,000 each!
  - These toxic facilities could affect 1 out of 3 Americans, never mind what it does to the water & the air

**Mo:** It is only being brought front and centre; brought up for all to see: they are acting out their trauma: because they are screaming to god, goddess, All That Is: I need help, I need Love

T: Thanks to Mother: NESARA NOW!

Mo: as you go about your day leading up to this Resurrection day, remember you are in one timeline now;
You are in Sat Yuga: Respect for all life; this is the order of the day— when you see the ones who are in front of you who stand out like the noon-day sun, give them a helping hand and say Peace be with you!

Greetings in the light of the Most Radiant One! Kadoish, Kadoish, Kadoish

T: we hold everyone in the Violet Light as we all go through this major shift

R: sitting in the Al Asga Mosque in Jerusalem; on this Good Friday, let us remember what this is about:

- · About eternal life and immortality; it is already here, not down the road
- These bodies last 10,000 years and more without being sick
- He was sitting with 3 other individuals he has never seen before; it was daytime there the other 3 were levitating above the area in the mosque; the Isralei soldiers who guard the place there are many things going on with this holy place which has and will always be called Palestine as these people are given back what is rightfully theirs
- Mr Abbas needs to be honoured; the people given the ability to take care of themselves and not be in the cross hairs of an assault weapon they have done nothing but simply exist as do turtles and Rama

IV. IVII LUCIIEI IS GOIIE IOI:

Audio: Max Keiser [KR589] Keiser Report: Chained American Dream

http://www.youtube.com/watch?feature=player\_embedded&v=pyVmoCxnGyk

We discuss the American Dream as being chained to the booth in the waffle house as cogs in the wheels generating income for Wall Street sharpies and the poverty of this century in which the beggar is a reminder of nothing. In the second half, Max interviews Alasdair Macleod of Goldmoney.com about the geopolitical situation in Ukraine and its impact on gold and the dollar as the reserve currency. They also talk about the true size of China's gold reserves.

# INFORMATION RELATED TO THE NEWS

# 2014, Ap 17 Lap Dancers, the CIA, Pay-offs, and BP's Deepwater Horizon

By Greg Palast | for Truthdig

From his investigation for Channel 4 Television in the newly released film, Vultures and Vote Rustlers.

There was CIA involvement through a company called Mega Oil. They were shipping in arms under the cover of oil tools.

The BP executive was explaining to me how the CIA, MI6 and British Petroleum engineered a coup d'état, overthrowing an elected president of a nation who was "not favorable to BP." The corporation's former Vice-President, Leslie Abrahams, is pictured here, holding an AK-47 in front of BP headquarters in Baku, Azerbaijan. Like most of the other BP executives I spoke with, he proudly added that while he was working for BP, he was also an operative for MI6, British intelligence.

The conversation was far from the weirdest I had in my four-continent investigation of the real story of the *Deepwater Horizon*.

The BP oilrig blew out on April 20, 2010, four years ago this Sunday.

Earlier this month, the Obama Administration officially OK'd <u>BP's right to resume drilling</u> in the Gulf of Mexico. And two weeks ago, just to assure the company that all is forgiven, the U.S. Department of the Interior gave BP a new contract to drill in the Gulf of Mexico—right next to where the Deepwater Horizon went down. At the same time, the forgive-and-forget U.S. Justice Department has put the trial of David Rainey, the only BP big-shot charged with a felony crime in the disaster, on indefinite hold.

The *Deepwater Horizon* blow-out incinerated eleven men on the rig and poisoned 600 miles of Gulf coastline. What political fairy dust does BP keep in its pocket to receive virtual immunity from the consequences?

To understand what really happened in the Gulf of Mexico, and how BP became a corporate creature beyond the reach of the law, British television network Channel 4 sent me on a four-continent investigation through a labyrinthine funhouse of bribery, lap-dancing, beatings, Wikileaks, a coup d'état, arrests and oilstate terror.

I found the cause of the tragedy of the *Deepwater Horizon* seven thousand miles from the Gulf in the ancient city of Baku, the Central Asian caravan stop on the Silk Road.

For the interview with agent Abrahams and the full story of the Deepwater Horizon, see, <u>Vultures and Vote Rustlers</u>, the documentary which will be available as a <u>download</u> <u>without charge</u> for the next two days courtesy of the not-for-profit Palast Investigative Fund.

The literal source of Soviet power until 1991, Baku has been exporting petroleum for 3,000 years. As the Soviet Union shattered into pieces that year, BP set its sights on the city. It is now the capital of the new nation of Azerbaijan, which sits atop the biggest untapped oil field in the world, right beneath the Caspian Sea.

# A coup for BP

BP Chairman Lord Browne flew into Baku as soon as the young state elected its first president. Former British Prime Minister Margaret Thatcher joined him via the "Iron Lady," a plane the corporation outfitted especially for her. At a state dinner, Browne handed BP Vice-President Abrahams a briefcase and showed him the contents: a check for \$30 million. Browne then gave the check to the president of Azerbaijan.

Still, the new president remained "not favorable" to BP's demand for control of the Caspian oil, so MI6, the CIA and the corporation went into action. The spy agencies armed and empowered the former Soviet KGB chief Heydar Aliyev, who in 1993 overthrew Azerbaijan's elected government. Once he became dictator, Aliyev named himself president for life and within four months signed a no-bid deal to give the reserves to BP.

BP and MI6 man Abrahams was instructed, he told me, to "smooth the way" for the deal by taking Azeri officials to London in Lord Browne's jet for weekends of lap-dancing and other entertainment. By Abraham's own estimation, he paid over \$3 million in additional cash bribes to make certain BP would have no trouble.

I should note that Abrahams broke no law: bribery by a British subject was legal then. BP did not deny the pay-offs when I questioned them directly, and MI6 officers proudly confirmed the coup d'état's purpose of locking in the offshore deal for BP.

# Quick-dry, quick-kill cement

What does this have to do with the blow out of the *Deepwater Horizon*?

This: It is now well established that the disaster occurred when the cement used to cap the well failed, allowing explosive methane gas to fill the rig and transform it into a sinking fire ball.

But this was not BP's first cement failure and explosion. Just 17 months earlier, BP's Caspian Sea Transocean rig suffered exactly the same fate.

The cause of the two blow-outs was identical. In the Caspian as in the Gulf, BP laced its cement with

nitrogen gas. The nitrogen bubbles sped up the drying of the mixture, saving BP half a million dollars a day on rig rental charges. But in offshore high-pressure zones, nitrogen-spiked cement can fail. And it did. Twice.

Question: Why in the world was BP allowed to use this insanely dangerous "quick-dry" cement just after a failure in the Caspian? Answer: A cover-up-via threats, beatings, arrests, bribery, perjury and the complicity of the U.S. State Department.

I only learned of the prior blow-out because of a coded message from the Caspian Sea received from one very nervous eye witness. To get the evidence, I flew to Baku and headed across the road-less desert to find more witnesses.

But we had been ratted out. My crew was

placed under arrest by Azerbaijan's secret police. While they demanded our film, I was allowed to keep my pen, which was actually a hidden camera. (I've learned a few things from Maxwell Smart.)

How do you keep a monstrous blow-out from going public? As one of the arresting cops told us with odd pride, "BP drives this country." It drives it with cash. Robert Ebel, former chief of oil analysis for the CIA, estimates that at least \$140 million of payments by BP for Azeri oil has gone unaccounted for. Where did it go? Notably, the Aliyev ruling family lives like pashas despite the president's official salary of \$100 a month.

Oil worker advocate Mirvari Gahramanli said she was beaten by police for raising questions. In case I doubted it, she showed me photographs of a dozen cops slamming her with long clubs.

What's worse, while I was tossed out of the country (it would have looked bad to throw a TV reporter into a dungeon), my witnesses disappeared.

#### Wikileaks and oily lies

Just five months before the Deepwater Horizon spill, BP Vice-President for Gulf Exploration David Rainey testified before the U.S. Congress that the company had drilled offshore "for the last 50 years in a manner both safe and protective of the environment."

BP's testimony was a lie. The Caspian rig blew out a year earlier.

But the lie was good enough for Congress. Based on Rainey's assurances, legislators pressured the Department of the Interior to drop objections to plans for drilling in the Gulf's deep waters.

Withholding information from Congress is a felony crime. But Rainey has one heck of a defense: the U.S. State Department was in on the cover-up.

Deep in the pile of confidential State Department cables released by one courageous U.S. soldier, Pvt. Bradley (now Chelsea) Manning, we have the notes from a secret meeting between the U.S. Ambassador to Azerbaijan, Anna Dearse, and the chief of BP's Caspian operation.

The hugger-mugger was demanded by BP's American partners, Chevron and Exxon. The U.S. oil companies had complained to the State Department that they were no longer getting their piece of the Caspian loot and BP wouldn't tell them why. (You'll remember that Secretary of State Condoleezza Rice was a member of Chevron's board of executives.)

In the <u>memo</u>, which you can see in our film, Vultures and Vote Rustlers, the U.S. Ambassador provides the details of the blow-out of the bad cement on the BP rig.

The State Department kept schtum, not even warning U.S. safety regulators. And Exxon and Chevron's chiefs joined BP's Rainey in the mendacious sales pitch to Congress, testifying, despite their knowledge, that their offshore drilling methods were safe as a game of checkers.

Justice is not always abused: David Rainey was indicted for felonious obstruction of Congress. However, the charge centers on a relatively minor falsehood: his alleged understatement of the amount of oil bursting into the Gulf. Neither Rainey nor BP will be tried for the deadlier lie to Congress -- the prior blow-out caused by the penny-pinching quick-dry cement -- because the U.S. government is itself complicit in the cover-up.

#### Blow-backs and blow-outs

First photo of Deepwater Horizon blow-out

And that's why we are seeing the red

carpet rolled out for BP in the Gulf once more.

When the U.S. government participates in the corruption of other democracies, when it authorizes bribery and ignores police-state tactics to benefit from business deals, the sins of empire can come back to haunt the nation. In the CIA's world this is called "blow-back." What was covered up in Baku has killed Americans

in the Gulf, and it will likely continue to kill.

And bribery does not simply stay "over there." American officials are not as different from the Baku bandits as they may like to believe. The agency in charge of regulating BP's drilling in the Gulf, the U.S. Minerals Mining Service, was rife with watchdogs who, like their Azeri counterparts, took backhanders and pay-outs from BP. And when I say BP was in bed with the regulators, that is not a metaphor: a BP lobbyist was sleeping with a chief of the agency.

Don't bother sending David Rainey a file in a cake: the BP man won't get two minutes of jail time. His trial has been suspended indefinitely.

Immunity from law is not new to BP. As I <u>reported</u> two weeks ago, BP was the main culprit in the disaster caused by the *Exxon Valdez* grounding. The company walked away without paying a dime to the victims. In the case of the *Deepwater Horizon*, a few tenacious attorneys have ensured the corporation pays some compensation in the Gulf. But that money comes nowhere close to the damage it caused and will do nothing to harm the company's bottom line.

#### The oil is still there

Today BP has declared Gulf waters clean, as if Mother Nature were just a toilet you can poop in and flush. But I've been to the Gulf shores. Dig down ten inches in the shoals off Gulfport and you'll hit Deepwater Horizon crude. Biologist Rick Steiner tells me BP's poisonous sludge will remain just under the surface for another 40 year. Hidden–just like BP's crimes.
