Hard News:

T: discussion of the women attached in Afghanistan, the one killed was an accomplished photo-journalist; a targeted killing; she worked for Associated Press for decades

Reading from Cheryl: to send healing and prayers for divine government **[SEE BELOW]**

R: stories go to realm of Asgard and beyond

- Bill Clinton on Jimmy Fallon show: dropped the hint that we are being visited by neighbours from the 'hood

Ed Show: Robert Greenwald was on; a new video to be released, maybe in June;

- It's about **The Koch Brothers Exposed, Part 2**
- They are obsessed with Nazi memorabilia like Arnold Schwarzenegger as they are of German/Nazi background; turning the laws of the country into a plutocracy

RG: in the last year, John Roberts, Clarence Thomas, Scalia showed up at a Koch Bros BBQ at one of their homes/castles; guarded by Blackwater

- They didn't sacrifice anyone: just roasted pigs and other debaucheries

RG talked of the fanaticism of the Koch Bros with Nazi memorabilia – ties in with the ancient stories of Hitler, Himmler and other top SS officers who were part of the Thule Society and wanting to open a portal and raid a vault in Norway, and get their hands on the immortality stones;

- the Kabbah stone is the only Immortality stone left on this planet – used to be clear crystal, turned opaque, now back to crystal as it has turned back to light
- The Casket of Winter – and other devices were sideral weapons that were used in inter galactic weapons when Lucy in the Sky took out 1/3 of the galaxy
- Behind the scene, the Supreme Court Justices and the Koch Bros tell the Justices what they want & the Justices write the briefs.
- Alito is also part of this: ties in with Opus Dei – they are looking everywhere for the stones; they were not behind the painting in the safe in Norway; 5 of the stones are back with Thor and are safe; last is in Mecca.
- This is about the revealing of the ancient cosmic stories, what Hitler and his forces were obsessed
 - Bit frost is another name for the rainbow bridge – they were obsessed about gaining the objects of such power – ties in with comic book stories that are not fiction:
- **Stan Lee** the creator of the **Marvel comics** was a direct student of Manly P. Hall
 - About the ancient brotherhoods, sisterhoods tied in with the galactics of the 'hoods
- The 13 families are descendents of the galactics as we all are: they are obsessed with having absolute control of the planet and are losing great ground

T: How do they live if they have no money?

R: They write a letter of wishes – the evil bankster, gangsters are at the other end of the letter and have stolen billions

T: The money was gone in a week – they are faking everything – where is the money?

R: It is a fantasy show on their part; quantitative easing, the money markets are hanging by Superman's thread. How the markets are playing this out is anyone's guess; does not really know how they work.

R: Rober G said, as this second half of Koch Bros Exposed comes out, it will shake people to the very core

- they will find out the gov't people are not beholden to the people but to the ancient ones, the archons

Audio: Thom Hartmann today:
Friday: **Bernie Sanders**

[SEE BELOW]

Conference Call

Caller1: asking about Yellowstone – geological timekeeping anticipates there could be another explosion

Rainbird: Rama said the dark ones could play with their toys, and that our job is to bring in the aquamarine flame and the blue & violet lights

Caller1: was in California and there were some quakes then;

- Worked organizing a class reunion; some of the classmates were missionaries in China – spoke of a village that has not changed in centuries: the people talk of seeing Jesus all the time

T: speaks of Larry and Curly hanging out with Bernie Sanders: they are not from here, but from the Ashtar Command; Bernie is an independent Senator

Caller1: we are light workers and do it in independent ways

T: Rama lived down the street from him in Vermont at one point – he is a total farmer! And Thom Hartmann was a neighbour once too. We are getting to know people intimately

Caller1: AOL had a program that one of Saturn's moons has a large body of water in it.

T: there is a lake in Siberia that is one of the deepest bodies of water on the planet; 472 kinds of fish in that lake; and the lady talking about it was black as coal. The water is crystal clear

Caller1: talking of Judy Beebe's e-mail and the

T: also a large body of water in Montana that is crystal clear

Caller2: thinks that water is the old cauldron from Yellowstone that travelled

T: there are lava tubes from under there that go underground to the Pacific Rim of Fire

Reading: Judy Beebe's e-mail

[SEE BELOW]

Mr Magoo: announces the presence of friend Scott R to speak on Coast to Coast – Tues Ap 8, 11 – 2am, PDT; about the Say Race – Torellian is one of the top people in that group of people

- He'll talk about the agenda of the Say Race; the energies coming in – no one is exempt from change

Scott Rochek – has befriended a Venusian lady born on the planet; born on Venus; worked with Rumi, the poet, to actually bring down her frequency; she came to earth to complete her karmic debt; Scott wrote the last chapter of the book – great things are occurring even though we do not see much of it yet. 323- 345-5640

R: asked question of Mr Magoo who knows where the Theosophical Society building is

- Rama frequented the place when he was 13!

Mr Magoo: Admiral Byrd and his relatives are in Agartha, safe and sound; others are there and will come out at the right time: he did not get there, but got the report – any moment we are in for a huge explosion of goodness!

T: It's about time: Mother has been stretching the time lines to get people to wake up

Mr Magoo: tells a story of 2 paschats: one day he and his friend bilocated and, being a bit silly, asked one of them if they liked catnip! They said “Oh no! We don't do drugs.”

- Another time: “do you have any annuaki around?” “Oh, yeah! In cages!”
- His friend Scott lost a cat he dearly loved, called Sammy. Sammy is hanging out with the Paschats!
 - Scott knows this! He also bilocates!
- Speaking of Norman: he's gathering money – a wealthy man a venture capitalist who was at Bushwillows Sanctuary went to see Norman – Mr Magoo has tried to get him help and other things, but Norman is totally independent and won't deviate from his goal
 - Both Norman and Mr Magoo have had fires in their homes that have started for no seeming reason – there are ones trying to be nuisances and get in the way of what they do.
 - Norman speaks ancient Sumarian; has abilities, doesn't tell all he knows- very silent about those things.

Mr M: knows that the galactics are waiting for the precise spiritual moment to announce NESARA:

T: things are very, very close

Mr M: can happen any moment!

T: up to us in a lot of ways: we have the ability to touch peoples' hearts: the perfect spiritual moment.

Mr M: many of us will make it; some will not; there are entities trying to attach themselves to us because they do not want to be left behind.

T: we have to be strong and loving, but loving does not mean you can suck on me!

- They really do want what they need, even if they are kicking and screaming!

Mr M: they don't want to be left behind; nothing is lost – they will pick up somewhere else.

T: the Antares-Arcturus Midway station is where people are re-integrated and taught about love; they are re-oriented to a higher vibration. Representatives from both places go there, Metatron and his Twin Flame, Neptha-el-Ra, and LM Athena, Ashtar's twin flame, are in charge;

- LM Nada and the praying mantis people have human DNA

R: fell asleep once while in class there; nudged by a trunk – an aquatic type being from Rigel 5 – the lecture was about astro physics; “Wake up! You're getting to the good part now!”

T: the worlds beyond the physical are really opening up to everyone now: whatever you imagine is possible and highly probable: power of positive thought

BBS:

Mother Sekhmet:

Greetings in the light of the Most Radiant One! In the Office of the Christ and only in the Office of the Christ, we invoke the loving energies of St Germain and the Violet Flame!

Greetings, Children of RA!

- Yes, there are many stories: in response to the statement from Mr McGoo & tales of her Paschat friends
 - there is so much unravelling in the moment; it is only about love, infinitely more love!
 - The destiny of this planet and her people is on the collision course with the magic of all that is in this moment, that is the order of the day – already we have the keys to the kingdom within us,
 - think with your heart, feel with the higher mind, the clear mind; This is the place where all things are possible in divine relationship to all that is happening.
- Stories abound of the improprieties of her wayward children and their selfish deeds of self-aggrandizement; there is no way to get out of this one:
 - the stage is set for this grand event; she can say with great certainty: it is about us and her, meeting her in that place where we are One.
 - All the of the issues of the moment are just that: issue about taking the quantum leap into our own inner being, knowing that we are a creative force, All That Is, creator gods/goddesses
 - we have designed our destinies well – all that is transpiring is moving us higher & higher in octave.
 - this is why things are coming up to be healed in the moment: all the stories that do not look like love, things that are not like love are coming up

T: Rama didn't finish telling the story he had to tell about the news tonight -does she want to finish it?

Mo: it's about the ancient, ancient families who wish to gain control of the galaxy – when they were at the level of creator gods, they said “why go for the small stuff?” They want to rule the galaxy & subjugate us to their reality as they see fit: separate the mind from the heart:- a story that has been cancelled.

- They realize we have gained and accepted our power back and they are petrified of what we will do with that power: it is not about the love of power, but about the power of love
- when we see the Shrub on TV, send him more love! He has painted the Dalai Lama, Putin and others – all in his art show:

Mo: Yes, Chris Christie is back in the hot seat: money talks and the other stuff walks: his press secretary is the one who testified to the Grand Jury: we'll find out what he said. It is only about obfuscation and cover-up, not the real truth about the bridge scandal – it is about 9/11 and all the issues after that

T: John Kerry said it looks like the peace talks are on the rocks

- a 4th group of Palestinian prisoners to be released last weekend;
- didn't happen by Sun or Monday & the Egyptian pres signed dozens of documents that come closer to making Palestine a state – that was part of the agreement.
- After the president did that, Netanyahu set up more settlements!

Mo: Netanyahu has no intentions of creating peace

- This is about the fake stories – Jerusalem is in Peru and Cusco
- The whole story is about us, and the other group of “us”, called “you all”!
- The plains of Nazca and the carving of the spider & other carvings on the ground: can only see it if you come in with a craft and do a vertical landing, not the horizontal landing with the flimsy craft called a plane. How do you hide a plane?

T: if you take it into another dimension, that's how!

Mo: Getting close to discussing an evolutionary leap: will only find trash in the ocean – no plane parts.

T: Al Jazeera – described 5 gyres in the oceans, the ocean's garbage cans, whirlpools that gather the garbage.

- The Indian Ocean has currents that come from Antarctica - the gyres swirl in a counter-clockwise motion; there are 200 billion pieces of garbage in the ocean –
- the plastic alone is 2.5 miles deep in one gyre: the plastic breaks into little tiny pieces, the fish eat it, we eat the fish and get all the chemicals & all the poison in the fish

Mo: best to leave the fish alone for the other life forms in the ocean

T: hopes the Altimarians are not getting too much work!

Mo: all is being done in right relationship to healing this story right now

T: can make bags out of hemp which is bio-degradable

Mo: a long time ago, fishing nets were made of hemp, also the sails and ropes, sailors' clothes

- What is returning to the Oneness of All That Is, is this Grand Cycle, being called a Grand Event – **not related** to other events mentioned on the internet - don't go there

T: the event of major famine in South Sudan – say there is not enough \$ to help the people

Mo: it's about the awful agreements that have been made having to do with the false realities set up by lawbreakers who are not coming from a place from balance – treaties, tariffs, whatever the agreements are, they are not being kept for the people – it is about the cash

- the story is that these things will turn to sand, as the people's will will overturn things when the ill will is directed by the life forms that wish to continue with their fake, protracted, preemptive war machine – coming to an end already.
- all of what is happening Sudan, Lebanon, Syria, Palestine – all the issues have to do with: when you are at the place like the Koch Bros and you can buy your gov't – the only challenge left is to get hold of the immortality stones and open a portal to the next evolutionary leap: THE PORTALS ARE CLOSED
 - They want to use the stargate, go to another level: but they CANNOT OPEN THE PORTALS -
 - Whatever they may have been able to do in Iraq – stargates are operational and fully there
- a discussion that does not get put into Main Stream News : the stargates are fully operational, and folks have been sent through – they do not end up in bodies as they do not have 4 strands of DNA fully activated and integrated with the new energies of these bodies - they cannot withstand the frequencies of travelling through a stargate which is experiencing the force of a black hole. Need a special kind of craft to go through a stargate or you need training in how to go through them
 - the soldiers of a standing army that is not based in the relationship of “why do you need standing armies at a time of peace?” It is to create protracted, preemptive wars of aggression that have nothing to do with balance. It is only about what can I take from those areas of the planet that still have yet to be plundered.

T: Why use a stargate if you can bilocate?

Mo: They have not trained the black ops or life forms to bi locate: though the military is thinking about it

- When you work with the frequencies of 12 strands of DNA and the reality of the fact that we are stepping into the reality: the movie called the Men who Stare at Goats: psychic soldiers: want to create an army like Captain America
 - Yet Captain America does not represent anything ungodly, coming from darkness – he is for goodness, not darkness.
- During the recent history of this planet: WW II was very dark - there was the 2nd anti christ who wanted to get hold of the immortality stones or any sort of sidereal weaponry to rule the planet and the solar system and the galaxy
 - What happened was that through the frequencies of the mighty I AM, Lady Masters Victory & Hope, Liberty. All the angels, Archangels, cherubim, other beings: the legions of angels upon angels who sit before the throne of the Father, the Mother, All That is
 - With what was going on during WWII when the Ballards began the teachings of St Germain and the frequencies of sound, color, light, vibration, the mighty I AM, the violet flame that has the unlimited potential to override any technology of a sidereal nature: it puts the immortality stones into the sleep state, stand-by, like the computer
 - the sound frequency of the mighty I AM and the other frequencies that come from the heart of Mother / Father god , Alcyone – all that is unravelling in the moment has to do with the failed attempts to control the people and the planet –
 - These ones are out of time and out of money, but not of love; all they have left is the ancient, ancient stories of the sidereal weapons and their idea of a fake alien invasion – even Bill Clinton hinted at it the other night

T: David Letterman is going bye-bye

Mo: yes, he is – they are doing all the stuff about what he has gone through over the years

T: will be such an awareness when the accountability comes to pass, and we go over it again

Mo: It is about the story, his story, her story, of the planet and her people where we are all from various places in the Universe of Nebadon and from beyond;

- All of this has to do with how we experience more love in each moment.
- They wish us to be distracted with images and other things that have to do with basic survival mode and not stay in balance and do the decrees, meditations & keep that balance. They have failed, we have succeeded
- All that has transpired this week: 2 mass coronal ejections today have increased the frequencies and our hair should be standing on end by now!
- We are already home, and what is the next step – being hinted at in very large ways.

T: Clinton, Bernie Sanders, Paul Roycroft have all opened their mouths!

Mo: need someone like Gen Stanley McCrystal to speak up – and no, he will not speak up! Maybe they will only talk when they have a phaser in their back – would take that kind of situation to make them speak.

T: why should we wait for people to talk when they don't want to? Others do want to talk.

Mo: just saying what it would take to make people talk: such a sad state of affairs: don't need to go to those scenarios – yet

T: As of Saturday, will be a new president in Afghanistan – Kharsi gone: new situation

Mo: should be growing hemp there, not poppies

T: 45th anniversary of killing of MLKing Jr tonight

Mo: and the 520 years of missing history which has to do with Palesting

- Turtle Island, North and South America, and the true stories that need to be shared by the wisdom keepers who sit around the virtual campfires
- We are in a new time and a new space; the place where we and she are one, and all humanity is rising to the occasion and, at the same moment, they are doing everything in their power to create lies and distractions that have nothing to do with truth

T: the new technologies will not be suppressed

Mo: They are already here

T: asks about story of Dr Karl Krogen, a Nazi scientist in the upper echelons of the SS & the thule society

Mo: great pianist who was austracized from the classical musical society in Europe because of his nazi, Thule Society and Brown Shirt connections; then became a surgeon

Started to do surgery on himself & idea of replacing body parts

- he knew about the Tesla energy and worked with Menegle –
- this guy went insane – with the power, said Mother; challenged Hitler
- about the fact that when you start messing with the energies of dark matter – anti-matter is best left to the ones who began this story in the 1st creation in the anti matter universe

Mo: The experiments going on with anti-matter on planet are not pretty;

- has to do with their ideas of the Big Bang – which is really about the cosmic union of the kundalini force with your Twin Flame – do not need a super collider:
- This is another distraction that takes people in the wrong direction.

T: wants to focus on things like Mr Snowden

Mo: the fact that he is still in Russia

T: has made a special deal so he can stay there indefinitely – does not need to find a new place at all

Mo: Putin and Snowden know how the game is played;

- What has been going on with the ABC agencies who are listening to this: Hi, folks: another day in the 'hood: the only story about this is how can you coerce people to tell what they don't know?

T: but they do know; they don't want it in the open, just want to re-direct things to have a psychopathic timeline!

Mo: so they can keep the present timeline based in dysfunctionality which is an art form

- It has already passed; the sun has already returned based in the frequencies of All That Is, based

in love, peace, truth, justice, freedom, mercy

T: the energy coming in is supposed to be radically different now

Mo: all that is happening is only infinite orgasmic joy

T: have 3 months of Cosmic Christ moon and a series of moons

Mo: what is the blood moon – T has a reading that describes what we wish to know: represents the end of the old timeline completely

Mo: About Ruby Ray Masters returning here & now: the “get 'er done masters”

T: wants to know about coordinating the energies of passover, Easter, etc

Mo: no dates! Just be love in this moment now, when you are truly in this moment now, not past tripping or future tripping and being satisfied with this moment – then and only then, will energies change

T: Lake BIKAL in Siberia – 1600 meters deep, 4,800 feet deep

Mo: an entrance into the Inner Earth – they use an amphibious ship to get there

T: The area there is **25 million years old!** There is life in that sea that has survived other extinctions: an international treasure/wonder of the world. There will be other things like this coming up, right?

Mo: Yes!

Kadoish, Kadoish, Kadoish

R: in an observation deck on the New Jerusalem, observing the sun.

- Saw energies he has not seen before coming out of the sun: has to do with the higher frequencies coming in from the Great Central Sun filtering through Helios and Vesta and our sun.

- The Beings on the sun are raising the frequencies at such a magnificent level; this is pouring into the planet and raising everyone's frequencies whether we accept them or not: we either stand with the frequencies or we will be swept away in a tsunami: it's all joy! All good!

T: Some will make it; some won't: for the highest good of all concerned.

R: Let us remember to love each other in these moments now: the stories going on [show us that] they need even more love!

We discuss the nil-by-mouthing, drip- and force-feeding of global central banking which has led to a foie gras rally in the markets, overvalued by 50-70 percent. In the second half, Max interviews [Jim Rickards](#) about his new book, '[The Death of Money.](#)' In this first of two parts, they focus on the insider trading on 9/11 and the mutually-assured financial destruction as the nuclear weapon of our day.

Global warming is real - and possibly even worse than we've been told. Could it lead to the destruction of human civilization within just a few decades? For tonight's Conversations With Great Minds - I'm joined by Guy McPherson -Professor Emeritus of Natural Resources - Ecology - and Evolutionary Biology at the University Arizona. Guy is one of America's most influential experts on global warming - and writes about a variety of climate change-related issues for the Arctic News and his own website - Nature Bats Last. In the field of climate science - Guy is best known for his assertion that runaway global warming is already on a path to cause the extinction of the human race - an idea he has written about in his book - "Going Dark."

INFORMATION RELATED TO THE NOTES

2014, April 4

Requested by Cheryl Croci for tonight's program:
Prayers for Afghan elections and journalist killed and one injured

Call For Divine Government I AM, I AM, I AM.

I AM my I AM Presence, and I AM One with the I AM Presence of all Humanity.

I invoke the great Beings of Light associated with Divine Government to this planet, and I invoke the Beloved Ascended Masters guarding the evolutions of Earth.

Blessed Ones, blaze the Sacred Fires of God's Will and Divine Illumination in, through, and around every person involved with the governments of Earth at international, national, state, and local levels.

Blaze the Sacred Fires of God's Will and Divine Illumination in, through, and around the electorate and governmental officials of all nations.

Let every person feel and tangibly experience the Power, Wisdom, and Love of our Father-Mother God flowing through them as they elect their governments and vote on all issues before them.

SEAL this activity of Light within every person's Heart Flame.

Expand this Light daily and hourly a thousand times a thousandfold with every breath I take.

VICTORY IS OURS IN LOVE GOVERNING THIS PLANET! (3X)

And so it is, Beloved I AM.

Divine Government Invocation

I AM breathing the Breath of the Holy Spirit into the deepest recesses of my Being. Every breath I take cleanses my physical, etheric, mental, and emotional bodies. I hold the focus of my attention on each breath as it lifts me into the full embrace of my I AM Presence.

I surrender to the perfection of my true God Reality.

I AM One with the Divine Heart and Mind of God, I AM One with the Company of Heaven, I AM One with every man, woman, and child evolving on this sweet Earth. From within the silence of my heart I affirm:

I AM a Beloved Child of God, and ALL that my Father-Mother God have is mine.

I invoke the All-pervading Light of the Universe, the Supreme Source of all Life—All That Is.

I kneel within my heart in recognition of the Light of the Cosmos, and I draw forth the Flames representing the threefold activity of Life, as exemplified by the Holy Trinity.

I invoke the Blue Flame, which represents the Divine Power of my Father God.

I invoke the Pink Flame, which represents the Divine Love of my Mother God.

I invoke the Yellow-gold Flame, which represents the Divine Wisdom

of the Sons and Daughters of God—the I AM Presence.

Beloved Father-Mother God, come now and assert your rightful authority within me and within ALL Humanity.

Show us how to reverently express the perfectly balanced activity of God's Love, Wisdom, and Power.

O, Supreme Light, I acknowledge you in all Life.

I give gratitude to the glorious Cosmic and Ascended Beings, as I invoke them and the great Angelic Host to amplify the energy which I AM releasing to assist with cocreating Divine Government for the United States of America and every country on Earth.

This is destined to be a Government OF the I AM Presence of Humanity, BY the I AM Presence of Humanity, FOR the I AM Presence of Humanity.

Beloved Presence of God—the Source of All that Is—I love and adore you. I acknowledge you as the owner and giver of my life, my intelligence, my substance, my all.

Seal me in the Love, Wisdom, and Power of Victorious Accomplishment. Blaze your Light before me and prepare the way that I may always walk the path of Light.

Guard and protect me, guide and direct me, and give me the Illumination of the Truth that will set me FREE.

Help me to BE your Divine Love in action at all times, and sustain your Love through me to bless all Life.

I invoke the I AM Presence of every soul that is in anyway associated with the governments of the Earth. Beloved Ones, direct, sustain, and expand the portion of the Divine Plan which is that soul's destiny.

I Invoke the entire Company of Heaven to direct their full-gathered momentum of Loving and Illumined Obedience to God's Will into the feelings, minds, and worlds of all governmental and business leaders throughout the planet.

Through the Power and Presence of God, I AM, I decree that Divine Government shall manifest NOW, and that ALL Humanity shall follow the Will of God with Reverence for ALL Life and the highest good for all concerned.

And so it is, Beloved I AM, Beloved I AM, Beloved I AM that I AM.

The Supreme Court on Wednesday handed the wealthy more power to spend more money and have more influence on who wins elections. After a very rocky rollout, there were very impressive results by a midnight Monday deadline when more than 7 million Americans signed up for health care under the Affordable Care Act. The March jobs report issued Friday by the Labor Department showed the number of Americans out of work six months or more is twice as high as before the recession began in 2007. The latest jobless numbers bolster the case for Congress to extend benefits that expired late last for the long-term unemployed.

Unemployment The official unemployment rate for March was 6.7 percent, unchanged from February, but the Bureau of Labor Statistics announced on Friday that real unemployment ticked up to 12.7 percent. That number counts workers forced to settle for part-time jobs and those unemployed for so long that they have given up looking for work. There were 3.7 million long-term unemployed in March compared to 1.2 million long-term unemployed in March of 2007 before the recession. The Senate is expected to vote Monday to resurrect benefits that expired last Dec. 28 for the long-term jobless. "This will impact several million American workers who are at the end of their ropes financially," Sanders said. The measure to help the unemployed and in the process stimulate the economy nevertheless faces an uncertain fate in the Republican-run House.

The Rights of the Rich The Supreme Court ruled 5-4 on Wednesday that it is unconstitutional to limit how much an individual may give to all candidates running during a two-year election cycle. The right-wing court majority said limiting donations violates the First Amendment. Sanders sees it differently. "Freedom of speech does not mean the freedom to buy the United States government." The decision in *McCutcheon vs. Federal Elections Commission* follows an earlier ruling in *Citizens United vs. FEC* that lifted limits on what corporations and wealthy individuals may spend on political campaigns. The decisions have dismantled decades of anti-corruption laws passed by Congress and state lawmakers. Sanders is the sponsor of a proposed constitutional amendment to undo the decisions. The long-term solution, Sanders said, is public funding of elections "so that all candidates have a fair shot at getting elected, and they can be judged by their ideas, by what they're fighting for, and not by the bank accounts of their campaign sponsors." Democracy vs. Oligarchy There's a framed poster hanging in Sanders' Senate office of a man speaking up at a town meeting. Last Sunday, Sanders held four town meetings that were a lot like the one in Norman

Rockwell's 1943 painting. Like hundreds of other meetings that Sanders has hosted over the years, he listened to constituents, answered questions and gave a rundown of what's going on in Washington. This process is called democracy. Ironically, that same weekend potential Republican presidential candidates were in Las Vegas angling for the financial support of Sheldon Adelson, the multi-billionaire casino tycoon. Thanks to the Supreme Court, Adelson, the Koch brothers and a handful of other billionaires are taking control of the political process in America. That's called an oligarchy. "The great political struggle we now face is whether the United States retains its democratic heritage or whether we move toward an oligarchic form of society where the real political power rests with a handful of billionaires, not ordinary Americans," Sanders said. A Big Deal on Health Care There was a surge in signups for health coverage in advance of Monday's midnight deadline to enroll under the Affordable Care Act. In addition to the 7.1 million who insured through federal and state exchanges, 11 million more now qualify for Medicaid, according to figures that the Obama administration released on Friday. Moreover, 3 million young adults have been able to stay on their parents' plans. "This is a big, big deal," Sanders said. Even more Americans would get access to care if governors and legislators in 23 states would agree to expand Medicaid, at no cost to their states for three years. And even more people would be covered and get better care at less cost if the United States provided Medicare-like coverage for all Americans. Sanders hopes Vermont will show the rest of the country the advantages of single-payer universal health care like the rest of the major countries in the world. [Watch Sanders discuss health care on MSNBC](#)

Mental Health Care for Veterans A shooting at Fort Hood, Texas, on Wednesday by a gunman being treated for mental health issues threw a spotlight on efforts in Washington to improve care for veterans returning from wars. We have to do a heck of a lot more than we are currently doing," said Sanders, chairman of the Senate Committee on Veterans' Affairs. "The VA has greatly expanded its mental health capabilities, but frankly we have got to do more." A Sanders bill that all but two Republican senators voted against would improve mental health services for veterans by boosting education and training for mental health professionals at the Department of Veterans Affairs. Another Warning on Global Warming There was another wake-up call issued on Monday by the United Nations' Intergovernmental Panel on Climate Change. The report said the effects of global warming already are occurring on every continent and across the world's oceans. The scientists warned that the problem was likely to grow much worse unless greenhouse gas emissions are brought under control. Polar ice caps are melting, sea ice in the Arctic is collapsing, heat waves and flooding are becoming more intense, some animals already have become extinct and coral reefs are dying, according to the latest report from the panel of experts that periodically summarizes climate science. The report also warned that climate change can increase risks of civil war and other violent clashes by amplifying forces like poverty and economic shocks that drive such conflicts. "The time is late. We can no longer ignore warnings that climate change already is happening and that unless we act in a bold way the worst is yet to come," said Sanders. A member of both the Senate environment and energy committees, Sanders has proposed a tax on carbon and methane greenhouse gas emissions that cause global warming.

Burlington Bus Strike Buses were back on the roads Friday in the Burlington, Vt., area after a three-week strike forced almost 10,000 riders to find another way to get to school or work. Sanders helped broker the agreement that ended the walkout. He urged managers of the transportation authority for Vermont's largest county to address its own role in souring relations with workers.

GEM ENERGY HAS BEEN BORN ON THE PLANET

e-mail from Judy Beebe

Late on the night of 4/02/2014 GEM Energy was placed in a sphere and became activated on 04/03/2014.

I have had it in my presence since yesterday. It is talking to me and informing me about things I could have never imagined before. It mists up and you can see drops of water that are elongated because of the swirling in the sphere. There are times when it is perfectly clear with no mist.

The off-planet presence has been acknowledged and will be the topic of another email later on. There was a celebration in the cosmic realm.

These spheres are going to be manufactured with careful scientific rigor and with exacting detail and they will be available for everyone very soon.

Just wanted to keep everyone up to date.

I am attaching a picture of the sphere in a candle holder I happened to have and you can see it is beautiful. We have brought the cosmic mind down to the planet and it will change everything.

Hugs,

Judy

Guy McPherson: Climate-change summary and update from “Nature Bats Last”

[<http://guymcpherson.com/2013/01/climate-change-summary-and-update/>]

From Guy McPherson’s website, [Nature Bats Last](#), comes a truncated report and climate change update. For the entire sobering article, [go here](#).

Anthropologist [Louise Leakey ponders our near-term demise in her 5 July 2013 assessment at Huffington Post](#). In the face of near-term human extinction, most Americans view the threat as distant and irrelevant, as illustrated by a [22 April 2013 article in the Washington Post](#) based on poll results that echo the long-held sentiment that elected officials should be focused on the industrial economy, not far-away minor nuisances such as climate change.

This essay brings attention to recent projections and positive feedbacks. I presented much of this information at the [Bluegrass Bioneers conference](#) (Alex Smith at Radio Ecoshock evaluates my presentation [here](#)). More recently, I presented an [updated version](#) on the campus of the University of Massachusetts. All information and sources are readily confirmed with an online search, and links to information about feedbacks can be found [here](#).

Large-scale assessments

Intergovernmental Panel on Climate Change (late 2007): 1 C by 2100

Hadley Centre for Meteorological Research (late 2008): 2 C by 2100

United Nations Environment Programme (mid 2009): 3.5 C by 2100

Hadley Centre for Meteorological Research (October 2009): 4 C by 2060

Global Carbon Project, Copenhagen Diagnosis (November 2009): 6 C, 7 C by 2100

United Nations Environment Programme (December 2010): up to 5 C by 2050

These assessments fail to account for significant self-reinforcing feedback loops (i.e., positive feedbacks, the term that implies the opposite of its meaning). The IPCC’s vaunted Fifth Assessment will continue the trend as it, too, [ignores important feedbacks](#). On a positive note, major assessments fail to account for economic collapse. However, due to the feedback loops presented below, I strongly suspect it’s too late for economic collapse to extend the run of our species.

Taking a broad view

Astrophysicists have long believed Earth was near the center of the habitable zone for humans. [Recent research](#) published in the 10 March 2013 issue of *Astrophysical Journal* [indicates](#) Earth is on the inner edge of the habitable zone, and lies within 1% of inhabitability (1.5 million km, or 5 times the distance from Earth to Earth’s moon). A minor change in Earth’s atmosphere removes human habitat. Unfortunately, we’ve invoked major changes.

Here are just a small sampling of positive feedbacks:

Methane hydrates are [bubbling out the Arctic Ocean](#) (*Science*, March 2010). According to [NASA's CARVE project, these plumes were up to 150 kilometers across as of mid-July 2013](#). Whereas [Malcolm Light's 9 February 2012 forecast of extinction of all life on Earth by the middle of this century](#) appears premature because his conclusion of exponential methane release during summer 2011 was based on data subsequently revised and smoothed by U.S. government agencies, subsequent information — most notably from NASA's CARVE project — indicates the grave potential for catastrophic release of methane.

Warm Atlantic water is defrosting the Arctic as it shoots through the Fram Strait (*Science*, January 2011). This breakdown of the thermohaline conveyor belt is [happening in the Antarctic as well](#).

Siberian methane vents have increased in size from less than a meter across in the summer of 2010 to about a kilometer across in 2011 (*Tellus*, February 2011)

Drought in the Amazon triggered the release of more carbon than the United States in 2010 (*Science*, February 2011)

Peat in the world's boreal forests is decomposing at an astonishing rate (*Nature Communications*, November 2011)

Invasion of tall shrubs warms the soil, hence destabilizes the permafrost (*Environmental Research Letters*, March 2012)

[Greenland ice is darkening](#) (*The Cryosphere*, June 2012)

It's not merely scientists who know where we're going. The Pentagon is bracing for public dissent over climate and energy shocks, as [reported](#) by Nafeez Ahmed in the 14 June 2013 issue of the *Guardian*. According to Ahmed's article: "Top secret US National Security Agency (NSA) documents disclosed by the Guardian have shocked the world with revelations of a comprehensive US-based surveillance system with direct access to Facebook, Apple, Google, Microsoft and other tech giants. New Zealand court records suggest that data harvested by the NSA's Prism system has been fed into the Five Eyes intelligence alliance whose members also include the UK, Canada, Australia and New Zealand." In short, the "Pentagon knows that environmental, economic and other crises could provoke widespread public anger toward government and corporations" and is planning accordingly. Such "activity is linked to the last decade of US defence planning, which has been increasingly concerned by the risk of civil unrest at home triggered by catastrophic events linked to climate change, energy shocks or economic crisis — or all three." The global police state [has arrived](#).

2014, Ap 5 [Bill Maher's excellent commentary on America's disappearing middle class](#)

by [BruinKid](#)

Last night, Bill Maher had a great final New Rule on our disappearing middle class.

50 years ago, America's biggest employer was General Motors, where **workers made the modern equivalent of \$50 dollars an hour**. Today, America's biggest employer is Walmart, where the average wage is \$8 dollars an hour. Which means you can share a room in a transient hotel with a drifter who cuts his toenails with a machete. *(audience laughter)*

And Walmart released their annual report this month, and in it was the fact that most of what Walmart sells is food. And most of their customers need food stamps to pay for it. Meanwhile, Walmart's owners are so absurdly rich that one of them, [Alice Walton](#), spent over a billion dollars building an [art museum](#) in Bentonville, Arkansas, 500 miles away from the nearest person who ever would want to look at art.

And she said about it, "For years I've been thinking about what we can do as a family that can really make a difference." **How about giving your employees a raise, you deluded nitwit?** *(massive audience cheering and applause)*

http://www.youtube.com/watch?feature=player_embedded&v=Wiy5fzykWmY

And finally, New Rule: now that the media is done freaking out about the missing jetliner, how about going on a search for America's vanishing middle class? *(audience cheering)*

Now I say this because the number of Americans who identify as middle class has never been lower. And if you don't believe me, just go shopping. The stores like Sears and Penny's that always catered to the middle market are dying. But you know who's doing great? Tiffany's and Gucci and Cartier for the Marie Antoinette crowd. And the dollar store for people who don't see a problem with Halloween candy in June.

I mean, just think of how many dollar places there are now. The Dollar Store. Dollar Tree. Dollar General. Dollar Giant. Family Dollar. The 99¢ Store. The 98¢ Store. *(audience laughter)*

Where does it end? Just a homeless guy handing out expired toothpaste for free? *(audience applause)*
But that's our economy now. You're either buying Rembrandts or Chinese cosmetics made from dirt. But in the middle, tough times. True of restaurants as well. The moderately priced ones, like Applebee's, Red

Lobster, and Olive Garden, are all in trouble because they've lost their best customers — people with a little money who fill up on bread. (*audience laughter*) They're the restaurants that say, "I still love you, baby, but just barely."

And what we are seeing now as the income inequality increases is a lot of Americans who work hard and play by the rules starting to *not* play by the rules. At a McDonald's in Pittsburgh, an employee was arrested for selling heroin packed right in with the Happy Meals. And she didn't do it because she likes heroin — although it's probably no worse for you than the filet o' fish. She did it because **you can't raise two kids on \$7.72 an hour**. (*audience applause*)

And for those who say she shouldn't have had two kids then, well, maybe. But she did. So what's she supposed to do now, give them away in front of the Petco on Saturday? (*audience laughter*)

Or take the case of Belle Knox. She's the Duke University freshman who was recently outed as a porn star. But she doesn't have the typical porn star biography — abused by an uncle, addicted to coke, locked in a closet by Charlie Sheen. (*audience laughter*) No, she's a level-headed articulate 18-year-old majoring in women's studies, just like I did.

So people are saying, why the porn? Because Duke costs \$61 grand a year! (*audience applause*) Since 1980, college tuition has increased 600% above the inflation rate. I'm surprised they're not *all* doing porn. And even if Miss Knox wanted to pay her way through school serving hot dogs at Wienerschnitzel, there are no jobs at Wienerschnitzel! So instead she occasionally takes a wiener in the schnitzel. (*wild audience laughter and applause*)

And this is what the Paul Ryans of the world don't understand — that **this is not a country of lazy people and good people, so much as it is a country of rich people and desperate people**. Do you know how much Americans owe in student loans? \$1.3 trillion dollars. We're going to have to sell a lot of ass to pay that tab. Yeah, I'm afraid we're treading water and losing ground. And if you just said, hey that's a mixed metaphor, congratulations, that's your English degree in action. (*audience applause*)

Now lube up, it's time to do some porn!
