Hard News

R: Larry, Curly Mo and KOS shared: the 13 families of the 13 original tribes of Ariadne

- what they have done is beyond words! Their moment is over; the road home for us is having to look them in the face and have divine compassion – humanity's biggest test!
- The fur is flying: they are using fear and terror & it's falling on deaf ears all over the planet!
- **Sister Karen** shared: there are legions upon legions upon legions of folks here to help – Rama sees some of them in the room as we speak: all we have to do is ask & we will be shown the kingdoms!
 - Everyone wants to talk peace, yet how do we get to that place when we have such a story that needs to be shared: he has been told that something out of the naqual will change this – happening in the moment and having to do with the divine intervention
- **KOS** said that what those ones did during the blood moon has sealed their fates!
 - Blood moon means it is the closest in its cycle and its energy is very powerful

KOS: send only love as this helps – the very ancient, ancient story going on in Kobani has to do with the red-haired race – the Kurdish people come from the Dunnan Danin who came from Vega in the Lyran constellation where our Adom Kadmon temple was formed.

- There was lots of discussion about the ancient Irish giants, the Dunnan Danin - connected with Scotland and ancient Babylonian / Sumarian people / Mother's people – Goliath was 28' tall, Samson was a good guy but let Delilah cut his hair off which was his intuitive connection
- they had 6 – 11 strands of DNA, did not have the 12th – they did not exhibit love
- Kim Yong Il has been missing in action since Sept 2 – it's about a shift in power structure – goes back to last Dec when he had his uncle and his aunt killed, lots of others killed too;

Japan: 54 people gone due to the eruption there

Supreme Court: pulled a boner! In Wisconsin, Scott Walker is walking on black ice.

Reading: Carl Boudreau

[SEE BELOW]

ISIS - is being funded from Jerusalem and Netanyahu!

Cathy: a number of people got together last week and called Rama!

- KOS, Stephanie Miller, Carl Freize, John Fugelsein, LM Nada, Yoko Ono, Carlos Mandina,

What was the theme of the message?

- We are in the 5th dimension; as we think it, therefore it is!
- You are watching the end of the cycle
- everyday frequencies that we do in living the 5th dimension strengthens them
 - As the kingdoms have been telling Rama: we are here and we wish to talk to you! Talk to us, either ask them outright or telepathically
- Earlier this week, R sat with 125 fairy lords and ladies on a hillside: they approached him
 - He went up there to call in the ships; the movement in the grass took his attention and he saw 3 little men, dressed with top hats: part of the fairy kingdom – passed the talking stick:
 - we are saying to our brothers and sisters: we are here too and wish to be acknowledged
 - people who use their all terrain vehicles and tear up the land we live on
 - the seeds genetically modified to be killer seeds

T: we do have to take responsibility: as we are in the livingness of the 5th dimension

- healer, heal thyself and we have to do this in our own livingness and it cycles out

R: when you are outside and feel the energies, talk to us and we will talk to you

T: whether we know it or not, everyone is going through the ascension symptoms – everything changing in our bodies, unprecedented ascension systems & At the same time, the most heinous of crimes going on – when we look behind things we find the same people doing it: ISIL – Bandar Bush, etc etc – same people doing the same thing: praise, forgive, thank and love the feelings

• Now we need to say no and move that energy into our real lives

Mr X: we have to watch this fall away [the 3D events, appearances] so the new can materialize

- watching our police become mechanized
- And at the same time, another black man was shot outside of Ferguson – off duty policeman and shot him, saying he had a gun – he changed his story to the authorities;
- onlookers said no – he had a SANDWICH!

Nada: we are watching Obama go grey before our very eyes

Stephanie: since 2009, we have been watching him carry the weight of the world on his shoulders

- Every day on her calls, she has people call him the N word; people call asking where is the freedom, the food to eat, the water, the jobs, and so on

Carl Frieze: talks of being 13 with Al Franken, also 13, when they both worked on Bobby Kennedy's campaign, and were at the Ambassador Hotel that night

- knew it was not Sirhan Sirhan who killed Bobby Kennedy but the CIA

as soon as he got the nomination, he was going to announce the presence of the galactics and Ashtar and that would have changed the entire world

R: tols Carl he was trying to get to Ambassador Hotel that night; was hitching a ride from San Fernando Valley and only got 20 miles from the hotel

Yoko Ono: the Beatles were lending their energies to Bobby Kennedy so he could do what he wanted to do: now all ancient stories are coming to pass: we no longer need that rhetoric

R: what about Lindsay Graham, ISIL, all the others, and all the stories from Faction 2?

John F, Rev Al Sharpton: all that you are reading about dongs, dinars – it's about the 13 family pulling the strings to get people to follow them down their road - it's **all about distraction**

Rev: we are in a new time – cannot go back: the new way things are being done is as Dr King said - let us care for the least among us; the people that were in the middle class are now the poor; things have been made worse:

- the powers that were only have a one way ticket to the gas chambers: all 804 of those camps that were built since 70s with Bush Sr at the helm
- the old order has to fall apart first and we have to watch this happen

R: a global investor on Bloomberg said the market is going to go down from 16,000 to 6,000 to 3,000

Rev: rumours are out there, and that is so: we are at the end of the road and the US does not default on its debt

R: well, it seems that it does!

Rev: you know that cousin of yours who has all that money!

R: He's your cousin too!

Rev: I know!

Carlos: by sharing this message, you are giving hope to a world wrought with distraction

Rev: we are at the end of the month here: rosh Hashanna

Nada: today's moon is in Scorpio: out of the ashes comes the new world: the phoenix rises and we see you on the other side of that door!

Guest: Frank Chile

- will start with science information just heard and just released by 2 Princeton scientists
 - (1) 500 million galaxies in the known universe; at least 12 of them have the ability to communicate off planet – there are a vast array of intelligent planets that can communicate
 - (2) talk of the multi verse: we are one of a series of universe – ran some calculations – a humungous number! Look on the computer – size 12 in the type, and if each universe was the size of the number 12, the line of universes would be 260 million miles long! As close to infinity as you can get!
- Met a college professor in the 70s who went through university with Gene Rodenberry, creator of Star

Trek.

- told Frank he went out of body to the edge of the known universe: he saw a string of universes like billiard balls going out to infinity; he shuddered because he knows the games played in THIS universe & had no idea of what it was like in the others, so he got back into his body and never went to the edge of the Universe again!

- **Craig Campobosso update:** won the short film award, also the official selection of the Burbank Film Festival which gave it great recognition
 - there were 270 seats for the preview; actually had 2 showings, and another on Sunday nights
 - There were 2 guests there who looked like the others, but were not! Craig was aware of them - they were in accord with what was going on! It was all directed from upstairs anyway.
- The film is entered into another festival; he is also waiting to here from the Sundance Film Festival – this would help him get more money to make the feature film done!

Frank gives the back ground to the short film, Stranger in the Pentagon:

- film is based on the landing in 1957 outside Alexandria VA; He wanted ot meet the President
- President Eisenhower invited Val Thor to stay March 16, 1957 – March 16, 1970; they could not contain him even though they tried! He had an apartment for all that time.
- Val Thor offered them various items to benefit mankind – dealing with disease, poverty, old age
 - the military wanted to know about things that could be used for war!

- While Val Thor was here, he met **Howard Menger, a contactee**, who had met these beings when he was a boy; in June, 1958, he had a gathering in his house; an Air Force photographer took pictures which included the photo of Valiant Thor, Don Thor, his brother and another blond woman called Jill.

Dr Stranges: had a picture of Valiant Thor that he always showed at the end of his lectures of a being who claimed not to be from here.

- A woman came to him after one of his lectures and said someone wanted to meet him; she insisted that he talk to here right now – the picture you are showing – that being wants to meet you, said she'd pick him up in the morning, which she did
- She took him to the inner ring of the Pentagon and to the room where Val Thor was: “Frank, it's very nice to meet you; I'm Valiant Thor.” The office was that of the Joint Chiefs, and they were all there.
- Dr Stranges asked where he was from and why he had no finger prints or palm prints
 - VT said he was from Venus; had no prints because they are marks of man: they have never stopped walking with the Lord.

Val Thor: had 4 proposals

- meet with world leaders to say why they are here; and have the leaders announce disclosure
- contact religious leaders around the world who told him to go fly a kite [more or less]
- contact heads of universities and colleges around the world – no luck!
- create a grass roots movement – which is what we have now, all kinds of groups, organizations

Craig Campobosso met Dr Stranges years ago; Dr Stranges told Craig that he wanted to make a movie about Val Thor; Dr Stranges had been working on things since 1957

www.strangeratthepentagon.com can see trailers, stills, the stunning special effects, the mother ship that Val Thor had which holds 200 of the smaller ships which are each 300 ' across!

- A scene where Melchizadek gives information to some others: projects the info from his 3rd eye!

Major George Filer of Filer's Files: came to believe that The Day the Earth Stood Still was a precursor finished Hangar 1 documentary; will be doing more speaking engagements

Contact Info: frankchille@hotmail.com - to get links to other Stargate Roundtable archives

Parting thoughts:

- went to movies as a child: fascinated by movies on biblical topics – wanted to be one of the people who told of the experiences he had had, as did the characters in the movies
- wonderful to be able to share the info with people are open to the information
- Everything is in great order; Divine Order is in place!

Hard News:

T: has some info from Dec 5, 2007 from Cynthia Rose Young Schlosser – related to what Frank was talking about: the power of the gem sphere and the insatiable appetite people have to expand themselves into the awareness that we do have visitors and to expand knowledge of the universe

From Cynthia Rose Schlosser “what god is, according to physics” [PLEASE LISTEN TO THIS!]

• Dec 5, 2007: Jupiter conjuncted with the galactic Centre

This month of Dec a major alignment of 4 major cycles all happening around Galactic Centre

- Our solar system is part of the Sagittarius Dwarf Galaxy which is now being sucked into the MWG
- Galactic Centre is at 27* Sag the centre around which our galaxy spins, slowly. Like the centre of the face of a clock – all the planets go round it
- Galactic Centre is the most important place there is! Everything in creation is scientific and technological - science is just discovering what has been there all along. Like computers – which are run by electricity -
GC is a physical description of a divine being that has manifested itself. This Divine Being can be so awesome – it can impute information: we are all God/goddess/All that is - all in creation is God/goddess/all that is, the great I AM!
- when she says Sagittarius is 27* of galactic Centre she is describing a flow chart – thinks where we are on enlightenment is we are going to start processing 4 levels at once - moving to unity
 - the little gem sphere spinning out a tiny gold thread from itself to everything in the home is an example of that natural law Cynthia is describing.

Astrology is about natural flows and laws.

1. Alignment of the sun on Dec 21 December Solstice at Galactic Centre – this will be for 144,000 years starting from Dec 5, 2007
 2. the 248 year passage of Pluto through GC begins
 3. the 12 year passage of Jupiter through GC – Dec 2007
 4. for the 19th year, lunar standstill through the GC
- Pluto at Sag and Jupiter in Capricorn – Dec 24 – Mars starts a new quest: to answer the question of what is coming up for us AS A SPECIES – we experience ourselves as a unified body
 - The conjunction of Jupiter & Pluto at Galactic Centre has not occurred for 3,000 years

All this is happening to awaken latent galactic codes in the computer which is the universe.

Closing: Rainbird

INFORMATION RELATED TO THE NOTES

Astrology Status for October 7, 2014 - A Special Eclipse Bulletin

Astrology charts, even the patterns for a whole astrological cycle, are fractal (or self-similar) in nature. They repeat recognizably over and over and over for the duration of the cycle. Also, the interpretation for each aspect must be a close variation on the interpretation of every other aspect across the whole cycle.

Once in a while, though, you find a cluster or sequence of aspects that expresses the meaning of a cycle so perfectly it just jumps right out at you and sheds a great light on the situation. It demands special attention. That is true of the aspects immediately surrounding Wednesday's total lunar eclipse.

- ~ Tuesday afternoon (10/07 pm) - Sun opposes Uranus retrograde
- ~ Tuesday late evening - Moon opposes Venus

- ~ Wednesday midnight (10/08 am)- Moon squares Pluto
- ~ Wednesday early morning - Moon occults/eclipses Uranus retrograde

- ~ Wednesday early morning - total lunar eclipse
- ~ Wednesday mid-morning - Moon trines Mars

- ~ Wednesday mid-morning - Moon trines Jupiter
- ~ Wednesday early afternoon (10/08 pm)- Venus squares Pluto

- ~ Wednesday early afternoon - Mars trines Pluto

- ~ New York Time

This list of aspects reveals a by now familiar combination of disruptive and supportive influences: squares, trines, oppositions, an occultation and an eclipse, all in fairly rapid succession. We are, again, being asked to step over and around the difficult aspects, to overcome the depressing ones, to take advantage of the good ones, despite doubt and discouragement. Again, we are being asked to act decisively despite the confusing, contradictory signals the planets are putting out.

But we see another theme, one more unique, more distinctive of October. Retrograde Uranus is all over the place.

The Sun opposes retrograde Uranus: we are challenged to express our individuality in new, probably uncomfortable, unfamiliar ways. Alternatively, we are being asked to seriously reconsider the manner in which we express our individuality.

The Moon occults retrograde Uranus: the ego tries to completely mask the Higher Mind or the Higher Self. It tries to overshadow the awareness of group needs and aspirations in favor of its own individualistic preferences and expectations.

Within an hour of this occultation, the Sun, in its turn - our conscious, intentional, real-time self - overshadows the reflexive, pattern-bound ego. We are powerfully challenged to break new ground, emotionally, intellectually, behaviorally. In effect, there is open, energetic conflict, between the spontaneous and innovative Higher Mind and the pattern-bound ego. Our active personality, the Sun, is caught in the middle.

What should guide our personal responses in the moment? The old patterns deeply imbedded in the ego or

radically fresh impulses emanating forcefully from the higher mind? The strength of our connection with the Higher Mind will determine how messy this confrontation becomes. And it could get very messy.

But the takeaway message here is that our social identity - that shifting mix of conscious intentional responses, unconscious patterning and flashes of higher insight - is given a good going over. Our identities will be scrambled. The peculiar mix of conflicting impulses, Freudian slips and ambivalent or ambiguous responses we [have? Experience?] that arise will take a long time to sort out.

We will almost surely not be able to slip back into old patterns, partly because these patterns will have been demolished by Uranus, partly because the eclipses will set us back if we try. On the other hand, if we make the right choice, we will take a giant stride or two forward.

The difference between those who accept the spiritual evolutionary impetus will find themselves that much farther ahead of those who resist it, who try to cling to a deteriorating status quo.

I know we are talking about a Super Moon, a Blood Moon, etc., To me that only emphasizes the finality of this battle between the Higher Mind, as represented by Uranus, and the ego, represented by the Moon. The Moon will give this battle its best shot and if it loses, the loss will be all the more decisive.

Also, finally, whatever else it does, all that retrograde Uranus vs. the Moon energy is bound to leave us shaken and overstimulated. Maybe even a little battered. Be prepared to apply some extra TLC to yourself and your friends. We're all going to need it, IMO. It could take us awhile to regain our footing.

On the macro-level, this eclipse could cause some VERY confusing headlines. There will be disturbing events whose meaning and implication is very far from clear. Given how thoroughly our motivational process will be shaken, both individually and collectively, it is very hard to predict how anyone will respond, in the near term or the short term. It will be at least as difficult to decide the future path of world events. A lot of very new stuff could start happening.

It will certainly be a very confusing time with mixed signals all around. One of the great challenges we will face as a result of this eclipse will be to find clarity, for ourselves and for the world. That clarity will have to come in large part from our hope and our aspirations for the future. On our faith in ourselves and in the process. Not on any promises or guarantees. And that clarity will all but certainly come slowly.
